Missouri State Auditor

Miller County Collector and Property Tax System

Report No. 2022-048

August 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Miller County Collector and Property Tax System

Property Tax System Controls and Procedures

The former County Collector did not prepare and file an annual settlement for the years ended February 28 (29), 2015, through 2021, in violation of state law. Because the former County Collector did not file annual settlements, the County Commission could not verify the County Collector's accounts. The county also has not adequately restricted property tax system access, and the County Commission and the County Clerk do not adequately review changes entered into the property tax system. In addition, aggregate abstract procedures need improvement. The County Clerk indicated he did not have access to the County Collector's tax book information. As a result, he prepared the 2020 land and personal property tax aggregate abstract based on the county's assessed valuation rather than the tax books.

County Collector's Controls and Procedures

The former County Collector did not prepare bank reconciliations for any of the office's 7 bank accounts during the years ended February 28 (29), 2018, through 2021. In addition, the former County Collector did not prepare a monthly list of liabilities for the bank accounts with liabilities. The County Collector does not account for the numerical sequence of receipt slip numbers assigned by the property tax system. In addition, controls over cash handling need improvement because employees share one cash drawer.

In the areas audited, the overall performance of this entity was **Fair**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 10

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
County Collector
Miller County, Missouri

We have audited the County Collector and Property Tax System of Miller County. Section 52.150, RSMo, requires the State Auditor to audit the office of the County Collector after being notified of a vacancy in that office. On November 28, 2021, a vacancy occurred in the office of the County Collector of Miller County. A successor was appointed and sworn into office effective January 6, 2022. The scope of our audit included, but was not necessarily limited to, the period of March 1, 2021, to November 28, 2021, and the year ended February 28, 2021. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant property tax functions.

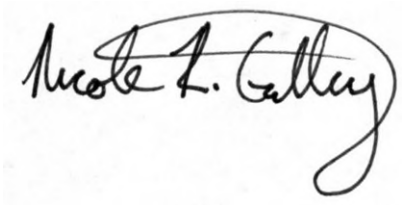
2. Evaluate the county's compliance with certain legal provisions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county; and testing selected transactions. We reviewed receipt and disbursement transactions, addition and abatement activity, commissions, and the annual settlement; and performed sample testing of some of these areas using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the County Collector and county management and was not subjected to the procedures applied in our audit of the County Collector and Property Tax System.

Section 52.150, RSMo, requires the County Commission to accept the State Auditor's report and, if necessary, to take certain specific actions if the State Auditor finds any funds owed to the county or the former County Collector. For the areas audited, we identified (1) deficiencies in internal controls, and (2) noncompliance with legal provisions. The accompanying Management Advisory Report presents our findings arising from our audit of the County Collector and Property Tax System of Miller County.



Nicole R. Galloway, CPA
State Auditor

1. Property Tax System Controls and Procedures

Controls and procedures over the county's property tax system need improvement. The County Collector's office collected approximately $24.7 million in property taxes and other miscellaneous receipts during the year ended February 28, 2021.

1.1 Annual settlements

The former County Collector did not prepare and file an annual settlement for the years ended February 28 (29), 2015, through 2021, in violation of state law. The current County Collector could not explain why the settlements had not been prepared. Because the former County Collector did not file annual settlements, the County Commission could not verify the County Collector's accounts. The annual settlement for the year ended February 28, 2021, was completed by the current County Collector after she was appointed to the office.

To help ensure the validity of tax book charges, collections, and credits, and for the County Clerk and County Commission to properly verify these amounts, the County Collector must file annual settlements. Section 139.160, RSMo, requires the County Collector to annually settle with the County Commission the accounts of all money received from taxes and other sources. In addition, Section 139.190, RSMo, requires the County Commission to carefully and fully examine the annual settlement of the County Collector and the County Clerk to certify the amounts to the state. Such procedures are intended to establish checks and balances related to the collection of property taxes.

1.2 Property tax system changes

The county has not adequately restricted property tax system access. The County Collector's office has access rights in the property tax system to make changes such as additions and abatements, but can also make corrections or changes to information entered into the property tax system. In addition, the County Commission and the County Clerk do not adequately review changes entered into the property tax system.

The County Assessor's office updates the assessed valuations in the assessment system and communicates needed changes to property tax records on court order forms provided to the County Collector's office. County Collector's office personnel then post these changes to the property tax system. The County Collector indicated the data systems used by the County Collector's and the County Assessor's offices do not interface, so it is necessary for the County Collector's office to make changes to the tax records.

A report of abatements is printed from the assessment system and a similar report is printed from the property tax system. These reports are compared by County Collector staff each month; however, no comparison is performed of property tax additions. Also, neither the County Commission nor the County Clerk review and approve the court order forms, and no independent

reconciliation is performed to compare the actual changes made to the property tax system with those made in the assessment system. As a result, changes to the property tax system are not properly monitored and errors or irregularities could go undetected.

Because the County Collector is responsible for collecting tax money, the ability of personnel within this office to make changes to the property tax system represents a significant weakness in internal controls. Good internal controls require the County Collector and other office personnel not have access rights allowing alteration or deletion of information. Sections 137.260 and 137.270, RSMo, assign responsibility to the County Clerk for making changes to the tax books with the approval of the County Commission. If it is not feasible for the County Clerk to make corrections to the tax books, an independent reconciliation of approved changes to actual changes made would help ensure the changes are appropriate.

1.3 Aggregate abstracts

Aggregate abstract procedures need improvement. The County Clerk indicated he did not have access to the County Collector's tax book information. As a result, he prepared the 2020 land and personal property tax aggregate abstract based on the county's assessed valuation rather than the tax books. We compared the 2020 aggregate abstracts with the corresponding tax books maintained by the County Collector's office and identified the following differences.

- Total real estate taxes and personal property taxes reported on the 2020 land and personal property tax aggregate abstract were understated by $736,357 and overstated by $20,873, respectively.
- Total taxes reported on the 2020 railroad and utility tax aggregate abstract were understated by $18,251.
- Total real estate taxes and personal property taxes reported on 2019 and prior years' back tax aggregate abstract were understated by $654,563 and $220,641, respectively.

Section 137.295, RSMo, requires the County Clerk to prepare the tax aggregate abstract reports and forward them to the Department of Revenue and State Tax Commission upon completion of delinquent tax books and upon assessment of current tax books. Failure to reconcile these reports to the current and delinquent tax books decreases the accuracy of the reports and what is charged to the County Collector to collect.

Similar conditions previously reported

A condition similar to section 1.1 was noted in our 4 prior audit reports and to section 1.2 in our 2 prior audit reports. In addition, Report No. 2015-035, *Follow-Up Report on Audit Findings - Miller County* (sections 3.2 and 4.1), issued in June 2015, reported the statuses, at that time, as in progress.

Recommendations

1.1 The County Collector prepare and file annual settlements in accordance with state law. In addition, the County Commission should ensure the annual settlements are filed and carefully and fully examined to ensure tax book charges and credits are accurately reported.

1.2 The County Commission and the County Clerk develop procedures to ensure all property tax changes are properly approved and monitored. In addition, the County Collector should ensure property tax system access rights are limited to only what is needed for the users to perform their job duties and responsibilities.

1.3 The County Clerk establish procedures to ensure tax aggregate abstracts are prepared accurately.

Auditee's Response

The County Collector provided the following responses:

1.1 The County Collector will complete and file annual settlements. These settlements will be provided to the County Commission for review.

1.2 Currently, on a monthly basis, the County Assessor's office provides the County Collector's office with a comprehensive Monthly Court Order (Add-On and Abatement) List report. The County Collector's office prints monthly Add-On and Abatement reports to reconcile all court orders received by the County Assessor's office, and then provides a copy of the reconciliation to the County Clerk, along with supporting documentation. If there are any discrepancies, the County Collector's office notifies the County Assessor's office for corrections. Effective July 1, 2022, this procedure will begin on a weekly basis and the County Commission and County Clerk will review reports, and the process will be acknowledged on the County Commission's agenda each Friday.

The County Collector, County Clerk, and County Assessor are currently searching for an acceptable solution in the form of a software vendor to address the addition and abatement process that will satisfy the audit recommendation.

The County Commission provided the following responses:

1.1 The County Commission will work with the County Collector, County Assessor, and County Clerk to ensure the required annual settlement is prepared and reviewed.

1.2 The County Commission agrees with the procedures that have been recommended and developed, and we agree to review the reconciliations.

The County Clerk provided the following response:

1.3 Historically, the County Clerk has not had the information needed to accurately prepare the aggregate abstracts. The County Collector and the County Clerk will work together to obtain the necessary information to prepare accurate aggregate abstracts.

2. County Collector's Controls and Procedures

Controls and procedures in the County Collector's office need improvement.

2.1 Bank reconciliations and liabilities

The former County Collector did not prepare bank reconciliations for any of the office's 7 bank accounts during the years ended February 28 (29), 2018, through 2021. In addition, the former County Collector did not prepare a monthly list of liabilities for the bank accounts with liabilities. The current County Collector could not explain why the former County Collector did not prepare bank reconciliations or lists of liabilities. The following table lists the bank account balances at February 28, 2021.

Account	Bank Balance
Main account	$ 4,133,571
Tax maintenance account	131,394
Lodging tax account	77
Tax collection account - Bank No. 1 (1)	34,827
Tax collection account - Bank No. 2 (1)	106,863
Tax collection account - Bank No. 3 (1)	29,123
Tax collection account - Bank No. 4 (1)	31,606
Total	$ 4,467,461

(1) The County Collector has agreements with local banks to accept tax payments during the months of November and December.

Preparing monthly bank reconciliations and lists of liabilities helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Further, without regular identification and comparison of liabilities to the reconciled bank balance, there is less likelihood errors will be identified and the ability to both identify liabilities and resolve errors is diminished.

A similar condition was noted in our 3 prior audit reports.

2.2 Receipt controls

The County Collector does not account for the numerical sequence of receipt slip numbers assigned by the property tax system. Between 2 and 4 collection drawers (including online collections) share the same sequence of receipt slip numbers; therefore, receipt slip numbers are not in numerical sequence on each drawer's daily closing report. The computer system used by the County Collector's office maintains one receipt slip sequence across the multiple collection drawers; however, no one in the County Collector's office accounts for the numerical sequence of the receipt slip numbers as part of the daily reconciliation process. This control weakness allows for possible manipulation of receipt data.

Procedures to account for the numerical sequence of receipt slip numbers assigned by the property tax system are necessary to ensure all money received is properly recorded and deposited, and to reduce the risk of loss, theft, or misuse of funds.

2.3 Cash controls

Controls over cash handling need improvement because employees share one cash drawer. Property tax payments made by check or credit card are kept separate for each employee; however, cash payments are comingled in the same cash drawer. The current County Collector could not explain why the office has historically used one cash drawer. Because all employees have access to the cash drawer, there is less assurance the responsible party can be identified in the event of loss, theft, or misuse of money.

To help ensure responsibility for any losses or unreconciled differences can be determined, access to cash drawers should be limited to only one person per drawer.

Recommendations

The County Collector:

2.1 Prepare monthly bank reconciliations and monthly lists of liabilities and reconcile the lists of liabilities to the reconciled bank balances. Any differences should be promptly investigated and resolved.

2.2 Implement procedures to account for the numerical sequence of receipt slip numbers.

2.3 Limit access to the cash drawer.

Auditee's Response

2.1 Monthly bank reconciliations and lists of liabilities are in the process of being prepared. Any identified differences will be resolved.

2.2 Since the audit, the County Collector's office has discovered the County Collector software does have a report titled Transaction List, to monitor numerical sequence transaction numbers to ensure all

transactions are accounted for in the daily reconciliation, and this report is generated and reviewed on a daily basis.

2.3 *The County Collector's office will review the cash handling control procedures and make adjustments as needed.*

Miller County Collector and Property Tax System
Organization and Statistical Information

The County Collector bills and collects property taxes for the county and most local governments. Pursuant to Section 52.015, RSMo, the term for which collectors are elected expires on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29).

William Harvey served as County Collector until November 28, 2021. Jody Vance was appointed the Miller County Collector and sworn into office on January 6, 2022.

The County Collector received compensation of $34,987 for the period March 1, 2021, through November 28, 2021. During the year ended February 28, 2021, the County Collector received compensation of $47,824. Compensation was in accordance with statutory provisions.

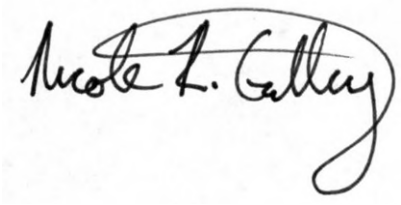
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of March 2022 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In March, the state spent $192.1 million from federal ARP Act assistance (Appendix A). Through the end of March, the state has received $2.2 billion and spent $699.7 million from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of March 31, 2022, approximately $10.91 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

State and local fiscal recovery funding

Of the awarded amounts, $2.69 billion is for state fiscal recovery funding and $2.473 billion is for local fiscal recovery funding. The local government recovery funding is $1.192 billion for counties, $831 million for cities with a population generally of 50,000 or more, and $450 million for other local jurisdictions with populations generally below 50,000. The award also includes $196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for public health and economic needs; to provide premium pay to eligible workers; to replace lost revenue; and water, sewer and broadband infrastructure investment.

Public health and economic needs

Recipients may use the funding to provide resources for governments to meet the public health and economic needs of those impacted by the pandemic in their communities, as well as address longstanding health and economic disparities, which amplified the impact of the pandemic in disproportionately impacted communities, resulting in more severe pandemic impacts. The eligible use categories include (1) public health, (2) assistance to households, (3) assistance to small businesses, (4) assistance to nonprofits, (5) aid to impacted industries, and (6) public sector capacity.

In general, to identify eligible uses of funds in this category, recipients should (1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and (2) design a program that responds to that impact. Responses should be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted.

Recipients may use the funding to restore and bolster public sector capacity, which supports the government's ability to deliver critical COVID-19

services. There are three main categories of eligible uses to bolster public sector capacity and workforce:

- Public safety, public health, and human services staff
- Government employment and rehiring public sector staff
- Effective service delivery

In addition to programs and services, the final rule[1] clarifies that recipients can use funds for capital expenditures that support an eligible COVID-19 public health or economic response. For example, recipients may build certain affordable housing, childcare facilities, schools, hospitals, and other projects consistent with final rule requirements.

Provide premium pay to eligible workers

Recipients may provide premium pay to eligible workers performing essential work during the pandemic - generally those working in-person in key economic sectors - who are below a wage threshold or non-exempt from the Fair Labor Standards Act overtime provisions, or if the recipient submits justification that the premium pay is responsive to workers performing essential work. Premium pay may be awarded to eligible workers up to $13 per hour. Premium pay must be in addition to wages or remuneration (i.e., compensation) the eligible worker otherwise receives. Premium pay may not exceed $25,000 for any single worker during the program.

The final rule governing use of this funding, broadens the definition of "eligible" worker. Premium pay may be awarded in installments or lump sums (e.g., monthly, quarterly, etc.) and may be awarded to hourly, part-time, or salaried or non-hourly workers. Premium pay must be paid in addition to wages already received and may be paid retrospectively. A recipient may not use this funding to merely reimburse itself for premium pay or hazard pay already received by the worker, and premium pay may not be paid to volunteers.

Replace lost revenue

Recipients may use funding available to provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue.

Recipients have 2 options to determine lost revenue (1) elect a "standard allowance" of $10 million to spend on government services through the

[1] U.S. Department of the Treasury, *Coronavirus State & Local Fiscal Recovery Funds: Overview of the Final Rule,* January 2022. The final rule is effective April 1, 2022; however, recipients can choose to take advantage of the final rule's flexibilities and simplifications now, before the effective date.

period of performance[2] or (2) calculate their actual revenue loss using the formula provided in the final rule.

All recipients may elect to use the standard allowance instead of calculating lost revenue using the formula provided, including those with total allocations of $10 million or less. Electing the standard allowance does not increase or decrease a recipient's total allocation.

Under the second option, recipients calculate revenue loss at four distinct points in time, either at the end of each calendar year (e.g., December 31 for years 2020, 2021, 2022, and 2023) or the end of each fiscal year of the recipient using a 4 step process detailed in the final rule.

Water, sewer and broadband infrastructure investment

Recipients can use provided funding to make investments in water, sewer and broadband infrastructure. Awarded funds may be used to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

The final rule significantly broadens eligible broadband infrastructure investments to address challenges with broadband access, affordability, and reliability, and adds additional eligible water and sewer infrastructure investments, including a broader range of lead remediation and stormwater management projects.

Distribution and reporting

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations involved in passenger or cargo transportation, and special-purpose units of state or local governments.

[2] The time period recipients can spend this funding.

The state and cities and counties with populations of more than 250,000 residents had to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and will have to file that report annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also had to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter. Other jurisdictions receiving their distribution from the state were required to file that report by April 30, 2022, but only annually thereafter.

Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) [3] funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri began implementing Medicaid expansion by accepting applications on August 10, 2021, though the state did not begin processing applications until October 1, 2021. Coverage will be available retroactive to July 1, 2021, consistent with a state supreme court order.

- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September 2021, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.

- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

[3] Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

Education funding

The Department of Elementary and Secondary Education will receive $1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive $68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive $627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

Spending status

In March, the state spent $192.1 million from federal ARP Act assistance (Appendix A). Through the end of March, the state has received $2.2 billion and spent $699.7 million from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

FMAP Enhancement Expansion Fund [2]	0	132,553,490	132,553,490	0	0	0	0
Total all Funds	$ 1,437,530,456	252,144,112	192,073,432	0	111,331,090	111,337,924	1,497,594,302

[1] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the fiscal year ended June 30, 2022, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because no appropriations were authorized through June 2022.

[1] This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, in June 2021 the DED made a one-time use of the fund to receipt $107,860,095 in ARP Act awards due to grant drawdown and budgetary timing challenges. All receipts were fully disbursed in August 2021.

[2] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

[3] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary ARP Act-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the fiscal year ended June 30, 2022, as disbursements, to reflect that these receipts are reimbursements of disbursements incurred from other sources. This fund is excluded from Appendix C because no appropriations were authorized through June 2022.

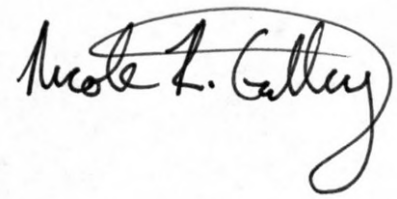
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of March 2022 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In March, the state spent $174.1 million from federal COVID-19 assistance (Appendix A). Through the end of March, the state has received $5.72 billion and spent $5.49 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendixes C and D. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.60 billion) and funding passed through to counties and the City of St. Louis ($521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of March 31, 2022, approximately $18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.[1] The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

[1] The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

- Not charge premiums that exceed those that were in place as of January 1, 2020.

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.

- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of March 31, 2022, approximately $36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund[2] may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

On December 14, 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. The department defines obligation for this purpose as an order placed for property and services and entry into contracts, subawards, and similar transactions that require payment. Recipients are currently permitted to record their expenditures through September 30, 2022. Previous guidance had indicated for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time.

[2] From the U.S. Department of the Treasury, CFDA number 21.019.

The state has received approximately $2.38 billion in Coronavirus Relief Fund assistance including nearly $173.5 million for St. Louis County and $122.7 million for Jackson County.[3] Twenty-five percent of the remaining state share (approximately $521 million) was distributed to other counties in the state and the City of St. Louis based on population. In July 2020, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:[4]

1. Medical expenses such as:
    - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
    - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
    - Costs of providing COVID-19 testing, including serological testing.
    - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
    - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:
    - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.

[3] The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

[4] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
   - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
   - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
   - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
   - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
   - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
   - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
   - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
   - Expenditures related to a state, territorial, local, or tribal government payroll support program.

- Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.[5] If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government. Recipients are currently permitted to record their expenditures through September 30, 2022, based on guidance issued by the Department of the Treasury redefining how the term "incurred" is being interpreted.

Under the CARES Act, the state has also been awarded as of March 31, 2022, approximately $4.15 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately $166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has been awarded as of March 31, 2022, approximately $2.9 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

[5] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Under the American Rescue Plan Act of 2021, the state has been awarded as of March 31, 2022, approximately $10.9 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. American Rescue Plan Act financial activity is not included in this report series. It is presented in a separate series of monthly reports beginning in July 2021.

In March, the state spent $174.1 million from federal COVID-19 assistance (Appendix A). Through the end of March, the state has received a total of $5.72 billion and spent $5.49 billion from this assistance (Appendix B). A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.60 billion) and funding passed through to counties and the City of St. Louis ($521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendixes C and D.

[1] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[2] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 2 sections 5, 30, 105, and 130, do not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations authorized in February 2022, which are included in Appendix C.

[3] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority, House Bill 10 sections 105, 110, 210, and 230, do not distinguish between COVID-19 and non-COVID-19 activity.

[1] During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, between January 2021 and March 2021 the SOS reused this fund to receive $189,462 in refunds from subrecipients of unspent awards during the fiscal year ended June 30, 2020 (a decrease in previous disbursements). In April 2021, the SOS returned this money to the federal government.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[3] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 2 sections 5, 30, 105, and 130, do not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations authorized in February 2022, which are included in Appendix C.

[4] The General Assembly authorized the Office of Administration (OA) to transfer up to $750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earned, had to be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred $250 million in May 2020, and repaid the full $250 million in December 2020, plus $200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

[5] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority, House Bill 10 sections 105, 110, 210, and 230, do not distinguish between COVID-19 and non-COVID-19 activity.

[6] In February 2021, the General Assembly authorized a transfer of up to $324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supports the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administers this fund and indirectly administers (monitors) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The $323,715,323 disbursed in February 2021 effectively reflects an upfront transfer to the MHDC. That agency will expend the funds through at least September 2022. Any unused portion will be refunded to the DED, and in turn the U.S. Treasury.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. In December 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. Recipients are currently permitted to record their expenditures through September 30, 2022. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to $750 million.

[3] This appropriation's expenditures include $3,416,331 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

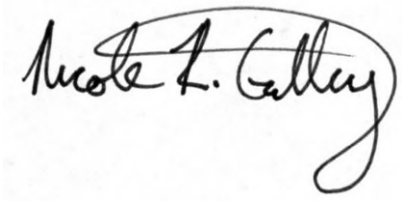
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of February 2022 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In February, the state spent $131.3 million from federal ARP Act assistance (Appendix A). Through the end of February, the state has received $1.95 billion and spent $507.6 million from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of February 28, 2022, approximately $10.92 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

State and local fiscal recovery funding

Of the awarded amounts, $2.69 billion is for state fiscal recovery funding and $2.473 billion is for local fiscal recovery funding. The local government recovery funding is $1.192 billion for counties, $831 million for cities with a population generally of 50,000 or more, and $450 million for other local jurisdictions with populations generally below 50,000. The award also includes $196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for public health and economic needs; to provide premium pay to eligible workers; to replace lost revenue; and water, sewer and broadband infrastructure investment.

Public health and economic needs

Recipients may use the funding to provide resources for governments to meet the public health and economic needs of those impacted by the pandemic in their communities, as well as address longstanding health and economic disparities, which amplified the impact of the pandemic in disproportionately impacted communities, resulting in more severe pandemic impacts. The eligible use categories include (1) public health, (2) assistance to households, (3) assistance to small businesses, (4) assistance to nonprofits, (5) aid to impacted industries, and (6) public sector capacity.

In general, to identify eligible uses of funds in this category, recipients should (1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and (2) design a program that responds to that impact. Responses should be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted.

Recipients may use the funding to restore and bolster public sector capacity, which supports the government's ability to deliver critical COVID-19

services. There are three main categories of eligible uses to bolster public sector capacity and workforce:

- Public safety, public health, and human services staff
- Government employment and rehiring public sector staff
- Effective service delivery

In addition to programs and services, the final rule[1] clarifies that recipients can use funds for capital expenditures that support an eligible COVID-19 public health or economic response. For example, recipients may build certain affordable housing, childcare facilities, schools, hospitals, and other projects consistent with final rule requirements.

Provide premium pay to eligible workers

Recipients may provide premium pay to eligible workers performing essential work during the pandemic - generally those working in-person in key economic sectors - who are below a wage threshold or non-exempt from the Fair Labor Standards Act overtime provisions, or if the recipient submits justification that the premium pay is responsive to workers performing essential work. Premium pay may be awarded to eligible workers up to $13 per hour. Premium pay must be in addition to wages or remuneration (i.e., compensation) the eligible worker otherwise receives. Premium pay may not exceed $25,000 for any single worker during the program.

The final rule governing use of this funding, broadens the definition of "eligible" worker. Premium pay may be awarded in installments or lump sums (e.g., monthly, quarterly, etc.) and may be awarded to hourly, part-time, or salaried or non-hourly workers. Premium pay must be paid in addition to wages already received and may be paid retrospectively. A recipient may not use this funding to merely reimburse itself for premium pay or hazard pay already received by the worker, and premium pay may not be paid to volunteers.

Replace lost revenue

Recipients may use funding available to provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue.

Recipients have 2 options to determine lost revenue (1) elect a "standard allowance" of $10 million to spend on government services through the

[1] U.S. Department of the Treasury, *Coronavirus State & Local Fiscal Recovery Funds: Overview of the Final Rule,* January 2022. The final rule is effective April 1, 2022; however, recipients can choose to take advantage of the final rule's flexibilities and simplifications now, before the effective date.

period of performance[2] or (2) calculate their actual revenue loss using the formula provided in the final rule.

All recipients may elect to use the standard allowance instead of calculating lost revenue using the formula provided, including those with total allocations of $10 million or less. Electing the standard allowance does not increase or decrease a recipient's total allocation.

Under the second option, recipients calculate revenue loss at four distinct points in time, either at the end of each calendar year (e.g., December 31 for years 2020, 2021, 2022, and 2023) or the end of each fiscal year of the recipient using a 4 step process detailed in the final rule.

Water, sewer and broadband infrastructure investment

Recipients can use provided funding to make investments in water, sewer and broadband infrastructure. Awarded funds may be used to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

The final rule significantly broadens eligible broadband infrastructure investments to address challenges with broadband access, affordability, and reliability, and adds additional eligible water and sewer infrastructure investments, including a broader range of lead remediation and stormwater management projects.

Distribution and reporting

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations involved in passenger or cargo transportation, and special-purpose units of state or local governments.

[2] The time period recipients can spend this funding.

The state and cities and counties with populations of more than 250,000 residents had to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and will have to file that report annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also had to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter. Other jurisdictions receiving their distribution from the state were required to file that report by April 30, 2022, but only annually thereafter.

Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) [3] funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri began implementing Medicaid expansion by accepting applications on August 10, 2021, though the state did not begin processing applications until October 1, 2021. Coverage will be available retroactive to July 1, 2021, consistent with a state supreme court order.

- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September 2021, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.

- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

[3] Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

Education funding

The Department of Elementary and Secondary Education will receive $1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive $68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive $627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

Spending status

In February, the state spent $131.3 million from federal ARP Act assistance (Appendix A). Through the end of February, the state has received $1.95 billion and spent $507.6 million from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

[1] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

[1] This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, in June 2021 the DED made a one-time use of the fund to receipt $107,860,095 in ARP Act awards due to grant drawdown and budgetary timing challenges. All receipts were fully disbursed in August 2021.

[2] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed include only the ARP Act activity within this fund. NICOLE GALLOWAY, CPA
Missouri State Auditor

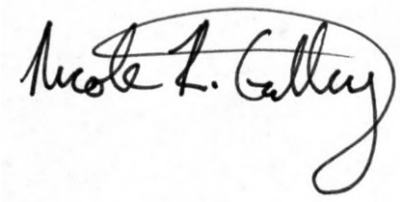
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of February 2022 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In February, the state spent $119.2 million from federal COVID-19 assistance (Appendix A). Through the end of February, the state has received $5.55 billion and spent $5.32 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendixes C and D. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.52 billion) and funding passed through to counties and the City of St. Louis ($521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of February 28, 2022, approximately $18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.[1] The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

[1] The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

- Not charge premiums that exceed those that were in place as of January 1, 2020.

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.

- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of February 28, 2022, approximately $36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund[2] may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

On December 14, 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. The department defines obligation for this purpose as an order placed for property and services and entry into contracts, subawards, and similar transactions that require payment. Recipients are currently permitted to record their expenditures through September 30, 2022. Previous guidance had indicated for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time.

[2] From the U.S. Department of the Treasury, CFDA number 21.019.

The state has received approximately $2.38 billion in Coronavirus Relief Fund assistance including nearly $173.5 million for St. Louis County and $122.7 million for Jackson County.[3] Twenty-five percent of the remaining state share (approximately $521 million) was distributed to other counties in the state and the City of St. Louis based on population. In July 2020, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:[4]

1. Medical expenses such as:
    - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
    - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
    - Costs of providing COVID-19 testing, including serological testing.
    - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
    - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:
    - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.

[3] The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.
[4] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
   - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
   - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
   - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
   - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
   - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
   - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
   - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
   - Expenditures related to a state, territorial, local, or tribal government payroll support program.

- Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.[5] If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government. Recipients are currently permitted to record their expenditures through September 30, 2022, based on guidance issued by the Department of the Treasury redefining how the term "incurred" is being interpreted.

Under the CARES Act, the state has also been awarded as of February 28, 2022, approximately $4.14 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately $166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has been awarded as of February 28, 2022, approximately $2.9 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

[5] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Under the American Rescue Plan Act of 2021, the state has been awarded as of February 28, 2022, approximately $10.92 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. American Rescue Plan Act financial activity is not included in this report series. It is presented in a separate series of monthly reports beginning in July 2021.

In February, the state spent $119.2 million from federal COVID-19 assistance (Appendix A). Through the end of February, the state has received $5.55 billion and spent $5.32 billion from this assistance. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.52 billion) and funding passed through to counties and the City of St. Louis ($521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendixes C and D.

Total all Funds	$ 59,136,473	109,807,120	119,164,434	0	0	13,461,672	36,317,487

[1] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[2] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 2 sections 5, 30, 105, and 130, do not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations authorized in February 2022, which are included in Appendix C.

[3] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority, House Bill 10 sections 105, 110, 210, and 230, do not distinguish between COVID-19 and non-COVID-19 activity.

[1] During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, between January 2021 and March 2021 the SOS reused this fund to receive $189,462 in refunds from subrecipients of unspent awards during the fiscal year ended June 30, 2020 (a decrease in previous disbursements). In April 2021, the SOS returned this money to the federal government.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[3] Historically, the Department of Elementary and Secondary Education (DESE) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DESE is also using this fund to account for COVID-19 disbursements for the School Nutrition Services Program; the Missouri Healthy Schools, Successful Students Program; the Division of Financial and Administrative Services (personal service); and the Division of Learning Services (personal service). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DESE makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 2 sections 5, 30, 105, and 130, do not distinguish between COVID-19 and non-COVID-19 activity. The DESE is gradually moving almost all COVID-19 activity from this fund to the DESE Federal Stimulus Fund and the DESE Federal Emergency Relief Fund to use new COVID-19-specific appropriations authorized in February 2022, which are included in Appendix C.

[4] The General Assembly authorized the Office of Administration (OA) to transfer up to $750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earned, had to be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred $250 million in May 2020, and repaid the full $250 million in December 2020, plus $200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

[5] Historically, the Department of Mental Health (DMH) uses this fund to account for federal grants unrelated to COVID-19. However, for the fiscal year ending June 30, 2022, the DMH is also using this fund to account for COVID-19 disbursements for prevention and education services; the treatment of alcohol and drug abuse; the purchase and administration of new medication therapies (expense and equipment); and adult community programs (expense and equipment). The receipts, disbursements, and beginning and ending fund balances listed include only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority, House Bill 10 sections 105, 110, 210, and 230, do not distinguish between COVID-19 and non-COVID-19 activity.

[6] In February 2021, the General Assembly authorized a transfer of up to $324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supports the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administers this fund and indirectly administers (monitors) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The $323,715,323 disbursed in February 2021 effectively reflects an upfront transfer to the MHDC. That agency will expend the funds through at least September 2022. Any unused portion will be refunded to the DED, and in turn the U.S. Treasury.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. In December 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. Recipients are currently permitted to record their expenditures through September 30, 2022. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to $750 million.

[3] This appropriation's expenditures include $3,416,331 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

CITIZENS SUMMARY

Findings in the Fiscal Year 2021 State of Missouri Single Audit

Background	A single audit requires an audit of the state's financial statements and expenditures of federal awards. The state spent approximately $20.6 billion in federal awards during the fiscal year ended June 30, 2021. Our Single Audit involved audit work on 20 major federal programs administered by 10 state agencies, with expenditures totaling approximately $13.8 billion.
DED Subrecipient Determination and Monitoring	Improvements are needed in the Department of Economic Development's (DED) internal controls related to subrecipient determinations. During state fiscal year 2021, the DED did not comply with the Uniform Guidance requirements regarding subrecipient monitoring for the Emergency Rental Assistance (ERA) Program.
DED SEFA	The expenditures reported on the DED's schedule of expenditures of federal awards (SEFA) submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the statewide SEFA for the year ended June 30, 2021, were misstated. If the misstatement had not been identified during the audit, DED program expenditures would have been understated by $337,542,257 in the statewide SEFA.
DED Performance and FFATA Reporting	The DED did not establish an internal control system over required federal reporting of the ERA Program and did not identify a significant inaccuracy in a performance report. In addition, the required Federal Funding Accountability and Transparency Act (FFATA) reporting was not submitted for state fiscal year 2021.
Medicaid National Correct Coding Initiative	As noted in our previous audit, the Department of Social Services (DSS) - MO HealthNet Division has not fully implemented the Medicaid National Correct Coding Initiative edits in the Medicaid Management Information System as required.
Medicaid and CHIP Participant Eligibility	As similarly noted in our 2 previous audits, the DSS does not have sufficient controls to ensure compliance with the eligibility requirements of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) for certain participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI). The DSS did not correct system overrides for some MAGI-based participants, preventing their cases from being closed when necessary.
Foster Care Maintenance Payment Rates	The DSS has not documented policies and procedures, including a periodic schedule, for reviews of Foster Care program maintenance payment rates. In addition, the DSS could not provide documentation supporting any review of the rates in effect for the year ended June 30, 2021.
Child Care Corrective Payments	DSS controls over the Child Care Development Fund (Child Care) program's corrective (manual) subsidy payments to child care providers are not sufficient to prevent improper payments. The DSS made unsupported corrective payments and/or overpaid providers on behalf of 3 children.

DSS FFATA Reporting	The DSS - Division of Finance and Administrative Services (DFAS) needs to strengthen internal controls related to FFATA reporting for the TANF, LIHEAP, and CVA programs. During state fiscal year 2021, the DFAS did not fully comply with FFATA reporting requirements for more than half of the subawards reviewed.
ELC Program Subrecipient Reimbursements	The Department of Health and Senior Services (DHSS) did not have sufficient controls and procedures to ensure Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) program reimbursements to subrecipients were allowable, reasonable, and supported with sufficient documentation. As a result, unsupported reimbursements totaling $105,507 were made to some subrecipients.
ELC Program Subrecipient Monitoring	The DHSS - Division of Community and Public Health did not perform subrecipient monitoring procedures in accordance with the department monitoring policy.
DHSS FFATA Reporting	During state fiscal year 2021, the DHSS did not complete FFATA reporting within required timeframes for some ELC program subawards.
Medicaid SPPC Participant Choice Agreements	The DHSS - Division of Senior and Disability Services does not have effective controls in place to ensure Participant Choice Agreements were obtained and/or retained for participants of the State Plan Personal Care (SPPC) program. A Participant Choice Agreement was not in the web tool or retained elsewhere for 5 participants (8 percent) reviewed.
Medicaid Facility Survey Timeliness	The DHSS - Section for Long-Term Care Registration did not perform facility survey procedures within required timeframes.
Medicaid Developmental Disabilities Comprehensive Waiver Per Diem Rates	As noted in our prior 6 audit reports, the Department of Mental Health - Division of Developmental Disabilities (DD) continued to pay historical per diem rates to providers for residential habilitation services provided to participants of the Home and Community Based Services, Developmental Disabilities Comprehensive Waiver (Comprehensive Waiver) program, but did not retain adequate documentation to support these rates. As a result, the DD could not demonstrate some amounts paid were allowable costs of the Comprehensive Waiver program.
GEER Fund Annual Performance Reporting	The Department of Elementary and Secondary Education (DESE) did not report subaward information in its annual performance report of the Governor's Emergency Education Relief (GEER) Fund for the period March 13 through September 30, 2020.
DESE FFATA Reporting	During state fiscal year 2021, the DESE did not comply with FFATA reporting requirements for any of the subawards reviewed for the GEER Fund and the Elementary and Secondary School Emergency Relief Fund grants.
Special Education Cluster Subrecipient Monitoring	The DESE needs to strengthen internal controls to ensure compliance with subrecipient monitoring requirements. During the year ended June 30, 2021, the DESE did not perform subrecipient monitoring reviews in accordance with its monitoring guide for the Special Education Cluster.

DESE SEFA	The DESE's controls and procedures related to the preparation of the SEFA were not sufficient; and as a result, expenditures reported on the DESE SEFA submitted to the DOA for inclusion in the statewide SEFA for the year ended June 30, 2021, were misstated. If the errors and omissions had not been identified during the audit, expenditures would have been understated by approximately $77.1 million in the statewide SEFA for various DESE programs.
Department of Labor and Industrial Relations UInteract System Controls	The Department of Labor and Industrial Relations needs to improve certain UInteract system controls. System controls were not sufficient to prevent or detect improper payments authorized by an employee totaling approximately $123,000 during fiscal years 2020 and 2021.
SEMA Suspension and Debarment Procedures	During the year ended June 30, 2021, the Department of Public Safety - State Emergency Management Agency (SEMA) did not have adequate procedures to ensure the timely verification that subrecipients of the Disaster Grants - Public Assistance (Presidentially Declared Disasters) (DGPA) program were not suspended or debarred.
SEMA FFATA Reporting	The SEMA needs to strengthen internal controls related to FFATA reporting for the DGPA program. During state fiscal year 2021, the SEMA did not comply with FFATA reporting requirements for any of the subawards reviewed.
MoDOT FFATA Reporting	The Missouri Department of Transportation (MoDOT) needs to strengthen internal controls related to FFATA reporting for the Airport Improvement Program.

Because of the nature of this audit, no rating is provided.

State of Missouri - Single Audit
Introduction and Summary
Year Ended June 30, 2021

Introduction

The United States Congress passed the Single Audit Act Amendments of 1996 to establish uniform requirements for audits of federal awards. The Office of Management and Budget (OMB) issued Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) to set forth uniform cost principles and audit requirements for federal awards to nonfederal entities and administrative requirements for all federal grants and cooperative agreements.

A single audit under the Uniform Guidance requires an audit of the State of Missouri's financial statements and expenditures of federal awards. The audit is required to determine whether:

- The state's basic financial statements are presented fairly in all material respects in conformity with generally accepted accounting principles.
- The state's schedule of expenditures of federal awards is stated fairly in all material respects in relation to the financial statements as a whole.
- The state has adequate internal controls to ensure compliance with federal award requirements.
- The state has complied with federal statutes, regulations, and the terms and conditions of federal awards that could have a direct and material effect on each of its major federal programs.
- The state's summary schedule of prior audit findings materially represents the status of the prior audit findings.

The Single Audit report includes the federal awards expended by all state agencies and offices that are part of the primary government. The report does not include the public universities and other component units, which are legally separate from the state and audited by other auditors. The state expended approximately $20.6 billion in federal awards during the state fiscal year ended June 30, 2021.

Summary of Single Audit Results

The following is the summary of our Single Audit results for the state fiscal year ended June 30, 2021.

Financial Statements

We issued our audit report (Report No. 2022-002[1]) of the state's Annual Comprehensive Financial Report (ACFR), as of and for the year ended June 30, 2021, in January 2022. In addition, we issued our Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2022-022[2]) in March 2022. In that report, we reported four findings related to internal control deficiencies. The state agencies' responses to the audit findings are included in that report. The agencies prepared a Corrective Action Plan (CAP) for each finding. The CAPs were submitted to the Office of Administration (OA) and are in the Corrective Action Plans section of this report. The state agencies prepared and submitted to the OA the status of the prior financial statement audit findings. These are presented in the Summary Schedule of Prior Audit Findings section of this report.

Federal Awards

We issued our report on the accompanying Schedule of Expenditures of Federal Awards (SEFA). The state's SEFA, which does not include federal award expenditures of the public universities and other component units, reported the state expended approximately $20.6 billion in federal funds in state fiscal year 2021. Our report expressed the opinion that the SEFA is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

We audited 20 major federal programs with expenditures totaling approximately $13.8 billion, administered by 10 state agencies.

We issued a qualified opinion on 5 major federal programs and an unmodified opinion on 15 major federal programs. A qualified opinion is issued when the audit of a major federal program detects material noncompliance with direct and material compliance requirements. A qualified opinion was issued on the following major programs administered by the Department of Economic Development, the Department of Social Services, the Department of Health and Senior Services, and the Department of Elementary and Secondary Education:

- Emergency Rental Assistance Program, modified for Subrecipient Monitoring and Reporting
- Children's Health Insurance Program, modified for Special Tests and Provisions

[1]The ACFR is available online at: <https://oa.mo.gov/accounting/reports/annual-reports/annual-comprehensive-financial-reports>.

[2]See report at <https://auditor.mo.gov/AuditReport/ViewReport?report=2022022>.

- Medicaid Cluster, modified for Special Tests and Provisions
- Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) program, modified for Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Subrecipient Monitoring
- Education Stabilization Fund program, modified for Reporting

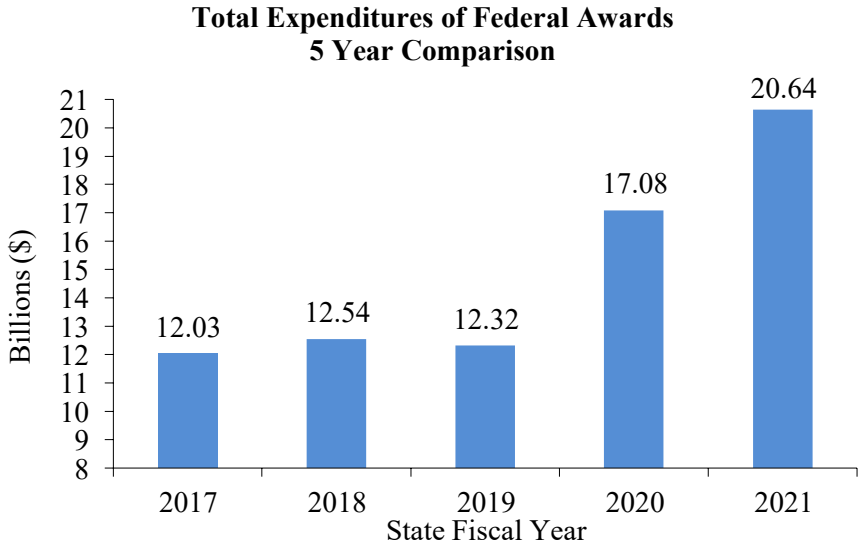
In total, we reported 22 audit findings related to 15 major federal programs at 8 state agencies. We identified over $192,000 in known questioned costs related to federal awards. Of the 22 audit findings, 3 were repeated from prior Single Audits. These findings have been reported for 2 to 7 years.

Of the 22 federal award audit findings, 16 related to internal control deficiencies. We consider 5 findings of internal control deficiencies to be material weaknesses and 11 to be significant deficiencies.

The state agencies' responses to the audit findings are included in this report. The state agencies prepared a CAP for each audit finding and submitted them to the OA. These are presented in the Corrective Action Plans section of this report.

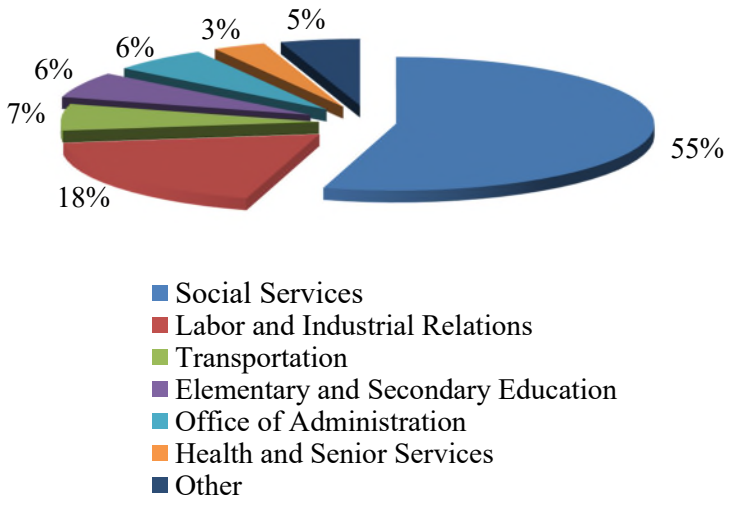
In addition, the state agencies prepared and submitted to the OA the status of the prior audit findings. These are presented in the Summary Schedule of Prior Audit Findings section of this report.

Expenditures of federal awards increased significantly in state fiscal years 2020 and 2021. The increases were primarily due to the additional federal funding made available to state agencies to help pay for the state's emergency response to the Coronavirus Disease 2019 (COVID-19).



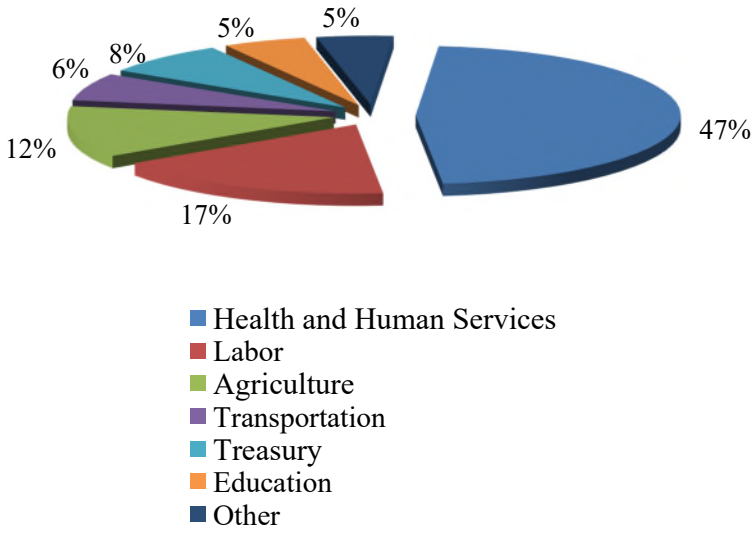
Of the 20 state agencies and offices that expended federal awards, 6 agencies and offices spent the majority of the awards (95 percent) during state fiscal year 2021.

Expenditures of Federal Awards by State Agency



The state expended federal awards received from 24 federal agencies. Most of the federal award expenditures (95 percent) were from programs of 6 federal agencies.

Expenditures of Federal Awards by Federal Agency

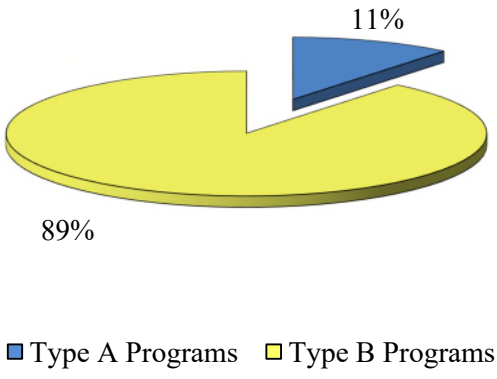


Overall, the state expended federal awards in 305 programs. These programs are listed in the accompanying Schedule of Expenditures of Federal Awards.

The Uniform Guidance requires federal programs to be labeled Type A programs or Type B programs based on a dollar threshold. For the State of Missouri, the Uniform Guidance defines the dollar threshold as $30.96 million (total expenditures of $20,642,024,177 times 0.0015) since the federal award expenditures exceeded $20 billion during state fiscal year 2021.

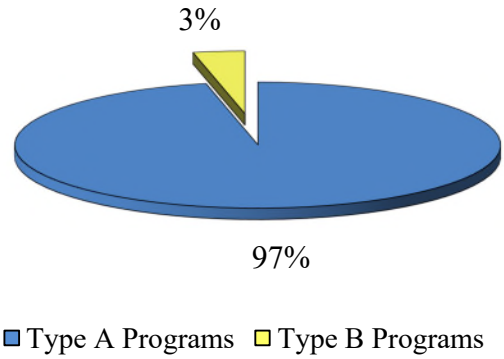
Programs with federal award expenditures over $30.96 million are Type A programs and programs with federal award expenditures under $30.96 million are Type B programs. Of the 305 federal award programs, 33 were Type A programs and 272 were Type B programs.

Type A and Type B Programs
Number of Programs



The 33 Type A programs had expenditures totaling approximately $19.9 billion, or 97 percent of total expenditures. The 272 Type B programs had expenditures totaling approximately $708 million, or 3 percent of total expenditures.

Type A and Type B Programs
Expenditures of Federal Awards



The Uniform Guidance requires the auditor to perform risk assessments on Type A programs and to audit as major each Type A program assessed as high risk based on specified risk factors. We performed a risk assessment on each Type A program and determined 15 of the 33 Type A programs were low risk and did not need to be audited as major. In accordance with the Uniform Guidance, we audited as major the 18 Type A programs assessed as high risk.

The Uniform Guidance also requires the auditor to perform risk assessments on larger Type B programs to determine which are high risk and need to be audited as major. The dollar threshold to determine the larger Type B programs is 25 percent of the Type A threshold, or $7.7 million. We performed risk assessments on the 26 larger Type B programs and determined 2 programs were high risk. In accordance with the Uniform Guidance, we audited the programs as major.

The programs audited as major are listed in the summary of auditor's results section of the Schedule of Findings and Questioned Costs section of this report. We audited 67 percent of total state fiscal year 2021 federal expenditures.

Major and Non-major Federal Programs

Type of Programs	Number of Programs		Expenditures	Percentage of Expenditures
Programs Audited				
Type A major programs	18	$	13,789,892,872	
Type B major programs	2		41,329,484	
Total major programs	20		13,831,222,356	67%
Programs not Audited				
Type A non-major programs	15		6,143,784,963

NICOLE GALLOWAY, CPA
Missouri State Auditor

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE
FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER
COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL
AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Honorable Michael L. Parson, Governor
and
Members of the General Assembly

Report on Compliance for Each Major Federal Program

We have audited the State of Missouri's compliance with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could have a direct and material effect on each of the state's major federal programs for the year ended June 30, 2021. The state's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

The state's basic financial statements include the operations of certain public universities and other component units which expended federal awards that are not included in the state's Schedule of Expenditures of Federal Awards for the year ended June 30, 2021. Our audit, described below, did not include the operations of these component units since they engaged other auditors to perform an audit of compliance, if required.

Management's Responsibility

The state's management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the state's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the state's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our qualified and unmodified opinions on compliance for major federal programs. However, our audit does not provide a legal determination of the state's compliance.

Basis for Qualified Opinion on Certain Major Federal Programs

As described in the accompanying Schedule of Findings and Questioned Costs, the state did not comply with requirements regarding the following:

Finding Number	AL Number(s)	Program (or Cluster) Name	Compliance Requirement(s)
2021-001	21.023	Emergency Rental Assistance Program	Subrecipient Monitoring
2021-003	21.023	Emergency Rental Assistance Program	Reporting
2021-004	93.767 93.775 93.777 93.778	Children's Health Insurance Program and Medicaid Cluster	Special Tests and Provisions
2021-009	93.323	Epidemiology and Laboratory Capacity for Infectious Diseases (ELC)	Activities Allowed or Unallowed, Allowable Costs/Cost Principles
2021-010	93.323	Epidemiology and Laboratory Capacity for Infectious Diseases (ELC)	Subrecipient Monitoring
2021-015	84.425C 84.425D 84.425R	Education Stabilization Fund	Reporting
2021-016	84.425C 84.425D 84.425R	Education Stabilization Fund	Reporting

Compliance with such requirements is necessary, in our opinion, for the state to comply with the requirements applicable to those programs.

Qualified Opinion on Certain Major Federal Programs

In our opinion, except for the noncompliance described in the "*Basis for Qualified Opinion*" paragraph, the state complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the Emergency Rental Assistance Program, the Children's Health Insurance Program, the Medicaid Cluster, the Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) program, and the Education Stabilization Fund program for the year ended June 30, 2021.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the state complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs for the year ended June 30, 2021.

Other Matters

The results of our auditing procedures disclosed other instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2021-005 through 2021-

008, 2021-012, and 2021-017 through 2021-022. Our opinion on each major federal program is not modified with respect to these matters.

The state's responses to and corrective action plans for the noncompliance findings identified in our audit are included in the accompanying Schedule of Findings and Questioned Costs and Corrective Action Plans. The state's responses and corrective action plans were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

Report on Internal Control over Compliance

Management of the state is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the state's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the state's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2021-001, 2021-003, 2021-004, 2021-009, and 2021-010 to be material weaknesses.

A *significant deficiency in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying Schedule of Findings and Questioned Costs as finding numbers 2021-005 through 2021-008, 2021-012, and 2021-017 through 2021-022 to be significant deficiencies.

The state's responses to and corrective action plans for the internal control over compliance findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs and Corrective Action Plans. The state's responses and corrective action plans were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on them.

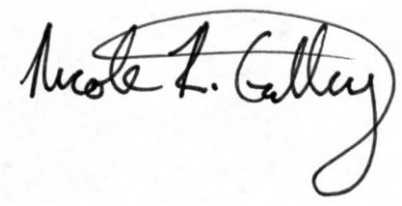
The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the

Uniform Guidance. Accordingly, this report is not suitable for any other purpose. However, pursuant to Section 29.200, RSMo, this report is a matter of public record and its distribution is not limited.

Report on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state, as of and for the year ended June 30, 2021, and the related notes to financial statements, which collectively comprise the state's basic financial statements. We issued our report thereon dated January 21, 2022, which contained qualified opinions on the governmental activities and the General Fund, a major fund, and unmodified opinions on all remaining opinion units.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the state's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.



Nicole R. Galloway, CPA
State Auditor

The accompanying Notes to the Schedule of Expenditures of Federal Awards are an integral part of this schedule.

State of Missouri - Single Audit
Notes to the Schedule of Expenditures of Federal Awards
Year Ended June 30, 2021

1. Significant Accounting Policies

The following is a summary of the significant accounting policies used by the State of Missouri.

A. Purpose of Schedule and Reporting Entity

The accompanying Schedule of Expenditures of Federal Awards (Schedule) of the State of Missouri is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the U.S. Office of Management and Budget (OMB) 2021 Compliance Supplement. The Schedule is not a required part of the State's basic financial statements. The Uniform Guidance requires a schedule that shows total federal awards expended for each federal financial assistance program, the Assistance Listing, and the total amount provided to subrecipients from each federal program. Federal financial assistance programs that have not been assigned a Assistance Listing number are identified as Assistance Listing Number XX.Uxx, where XX represents the federal grantor agency and Uxx represents an unknown extension number. Appendix VII of the supplement states that expenditures of federal awards made under the Coronavirus Preparedness and Response Supplemental Appropriations Act, the Families First Coronavirus Response Act, the Coronavirus Aid, Relief and Economic Security Act (CARES Act), the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA), and the American Rescue Plan Act (ARP) should be identified separately on the schedule with the inclusion of the prefix "COVID-19-" in the name of the federal program.

The Schedule includes all federal awards expended by the State during the year ended June 30, 2021, except for those programs administered by public universities and other component units, which are legally separate from the State and audited by other auditors. They are responsible for engaging other auditors to perform audits in accordance with the Uniform Guidance, if required.

To compile the Schedule, the Office of Administration required each department, agency, and office that expended direct and/or indirect federal funding during the state fiscal year to prepare a schedule of expenditures of federal awards. The schedules for the departments, agencies, and offices were combined to form the Schedule of Expenditures of Federal Awards for the State of Missouri.

B. Basis of Presentation

The accompanying Schedule includes the federal award activity of the State of Missouri for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of the Uniform Guidance, which defines federal awards as federal financial assistance and cost-reimbursement contracts that non-federal entities receive or administer in the form of grants, loans, loan guarantees, non-cash assistance, property

(including donated surplus property), cooperative agreements, interest subsidies, insurance, food commodities, direct appropriations, and other assistance, but does not include other contracts that a federal agency uses to buy goods or services from a contractor. Because the Schedule presents only a selected portion of the operations of the State, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the State.

C. Basis of Accounting

Most expenditures presented in the Schedule are reported on the cash basis of accounting, while some are presented on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance; wherein certain types of expenditures are not allowable or are limited as to reimbursement.

D. Indirect Cost Rate

The state agencies administering the federal programs presented in the Schedule did not elect to use the de minimis cost rate per the Uniform Guidance.

2. Unemployment Insurance Expenditures

The Unemployment Insurance program (Assistance Listing No. 17.225) is administered by the Department of Labor and Industrial Relations through a unique federal-state partnership that was founded upon federal law but implemented through state law. Benefits are paid from federal funds and state unemployment taxes that are deposited into the State's account in the Federal Unemployment Trust Fund. The State's administrative expenditures incurred under this program are funded by federal grants. For the purposes of presenting the expenditures of this program in the Schedule, both state and federal funds have been considered federal awards expended. The breakdown of the state and federal portions of the total program expenditures for the fiscal year ended June 30, 2021, is as follows:

State Portion (Benefits Paid)	$ 661,647,372
Federal Portion (Benefits Paid)	16,794,017
Federal Portion (Administrative Costs)	44,341,297
Federal Portion (Benefits Paid) - CARES Act Related	2,702,121,738
Federal Portion (Employer Reimbursements) - CARES Act Related	30,281,478
Federal Portion (Federal Reimbursement of Waiting Week) - CARES Act Related	20,934,863
Federal Portion (Administrative Costs) - CARES and Families First Coronavirus Response Act Related	9,966,293
Total Program Expenditures	$ 3,486,087,058

3. Special Supplemental Nutrition Program for Women, Infants and Children (WIC) Rebates

The State received cash rebates from an infant formula manufacturer totaling $28,312,122 on sales of formula to participants in the WIC program (Assistance Listing No. 10.557) administered by the Department of Health and Senior Services (DHSS). This amount was excluded from total program expenditures. Rebate contracts with infant formula manufacturers are authorized by 7 CFR Section 246.16a as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for WIC food benefit costs. The State was able to extend program benefits to more persons than could have been served this fiscal year in the absence of the rebate contract.

4. Medical Assistance Program (Medicaid) and Children's Health Insurance Program (CHIP) Prescription Drug Rebates

The State received cash rebates from drug manufacturers totaling $549,203,791 (federal share) on purchases of covered outpatient drugs for participants in the Medicaid and the CHIP (Assistance Listing Nos. 93.778 and 93.767) administered by the Department of Social Services - MO HealthNet Division. This amount was excluded from total program expenditures. Rebate contracts with drug manufacturers are authorized by 42 USC Section 1396r-8 as a cost containment measure. Rebates represent a reduction of expenditures previously incurred for medical assistance costs.

5. HIV Care Formula Grants Prescription Drug Rebates

The State received cash rebates from drug manufacturers totaling $58,041,955 on purchases of covered drugs for participants in the HIV Care Formula Grants program (Assistance Listing No. 93.917) administered by the DHSS. If program expenditures are available the rebates will offset the program expenditures resulting in a reduction in expenditures incurred by the program. Of the amount of rebates received, $35,172,770 reduced total program expenditures and these expenditures were not reported on the SEFA. The remaining rebates of $22,869,186 did not offset program expenditures and were not used to reduce program expenditures. The allowable use of drug rebates is restricted by 42 USC Section 300ff-26(g).

6. Federal Loan Guarantees

Because of the Healthcare and Education Affordability Reconciliation Act enacted March 30, 2010 (Public Law 111-152), the authority to make or ensure loans under the Federal Family Education Loans program (Assistance Listing No. 84.032) ended June 30, 2010. The Department of Higher Education and Workforce Development (DHEWD) will continue to act as the federal Department of Education's agent in fulfilling the responsibilities

related to the outstanding guarantees. The original principal outstanding of all loans guaranteed by the DHEWD is $736,431,231 as of June 30, 2021. The balance of defaulted loans (including principal and accrued interest) that the federal Department of Education imposes continuing compliance requirements of the DHEWD is $172,509,799 as of June 30, 2021.

7. Non-cash Assistance

The Schedule contains values for non-cash assistance for several programs.

Supplemental Nutrition Assistance Program expenditures totaling $1,716,634,049 ($1,712,558,052 for Assistance Listing No. 10.551 and $4,075,997 for Assistance Listing No. 10.542) represent actual disbursements for client purchases of authorized food products through the use of the electronic benefits card program administered by the Department of Social Services - Family Support Division (DSS-FSD).

The Department of Elementary and Secondary Education distributes food commodities to school districts under the National School Lunch Program (Assistance Listing No. 10.555). Distributions are valued at the cost of the food paid by the federal government and totaled $25,941,494.

The DSS-FSD, through the Summer Food Service Program for Children (Assistance Listing No. 10.559), provides United States Department of Agriculture (USDA)-donated foods to providers who serve free healthy meals to children and teens in low-income areas during the summer months when school is not is session. The DSS-FSD, through the Emergency Food Assistance Program (Food Commodities) (Assistance Listing No. 10.569), provides USDA-donated foods for disaster relief and to six non-profit food banks for distribution to food pantries and community groups for feeding those in need. Distributions are valued at the federally assigned value of the product distributed and totaled $62,704 for the Summer Food Service Program for Children, $27,804,015 for the Emergency Food Assistance Program, and $9,657,007 for Trade Mitigation.

The DHSS distributes food commodities to low-income persons under the Commodity Supplemental Food Program (Assistance Listing No. 10.565). Distributions are valued at the cost of the food paid by the federal government and totaled $6,433,876.

The Department of Public Safety distributes excess federal Department of Defense (DOD) equipment to state and local law enforcement agencies under the DOD Excess Property Program (Assistance Listing No. 12.U01). Property distributions totaled $2,690,426 when valued at the historical cost assigned by the federal government. Distributions are presented at the estimated fair market value of the property at the time of distribution, calculated as 23.34 percent of the historical cost, or $627,945.

The State Agency for Surplus Property distributes federal surplus property to eligible donees under the Donation of Federal Surplus Personal Property program (Assistance Listing No. 39.003). Property distributions totaled $7,192,582 when valued at the historical cost assigned by the federal government. Distributions are presented at the estimated fair market value of the property at the time of distribution, calculated as 23.34 percent of the historical cost, or $1,678,749.

The DHSS distributes vaccines to local health agencies and other health care professionals under the Immunization Cooperative Agreements program (Assistance Listing No. 93.268). Distributions are valued at the cost of the vaccines paid by the federal government and totaled $67,601,764.

The DHSS received donated testing supplies from the Federal Emergency Management Agency for activities related to the COVID-19 pandemic (Assistance Listing 97.036). Donated items are valued at the fair market value at time of donation and totaled $96,288.

The DHSS received donated testing equipment and supplies from the Department of Health and Human Services Strategic National Stockpile for activities related to the COVID-19 pandemic (Assistance Listing 93.323). Donated items are valued at the fair market value at time of donation and totaled $10,822,520.

8. Other Non-cash Assistance

The Schedule does not contain donations for non-cash assistance provided without any compliance or reporting requirements or Assistance Listing information from the donors.

The State Emergency Management Agency received donated personal protective items from the Federal Emergency Management Agency for activities related to the COVID-19 pandemic. Donated items are valued at the fair market value at time of donation and totaled $9,851,784 and are unaudited.

State of Missouri - Single Audit
Schedule of Findings and Questioned Costs
Year Ended June 30, 2021

Section I - Summary of Auditor's Results

Financial Statements

Type of auditor's report issued on whether the financial statements audited were prepared in accordance with GAAP: Qualified

Unmodified for all opinion units except for the governmental activities and the General Fund, which were qualified.

Internal control over financial reporting:

- Material weaknesses identified? ___ yes X no
- Significant deficiencies identified? X yes ___ none reported

Noncompliance material to financial statements noted? ___ yes X no

Federal Awards

Internal control over major federal programs:

- Material weaknesses identified? X yes ___ no
- Significant deficiencies identified? X yes ___ none reported

Type of auditor's report issued on compliance for major federal programs:

Unmodified for all major programs except for the following major programs that were qualified:

AL Number(s)	Name of Federal Program or Cluster
21.023	Emergency Rental Assistance Program, modified for Subrecipient Monitoring and Reporting
84.425C,D,R	Education Stabilization Fund, modified for Reporting
93.323	Epidemiology and Laboratory Capacity for Infectious Diseases (ELC), modified for Activities Allowed or Unallowed, Allowable Costs/Cost Principles, and Subrecipient Monitoring
93.767	Children's Health Insurance Program, modified for Special Tests and Provisions
93.775, 93.777, 93.778	Medicaid Cluster, modified for Special Tests and Provisions

Any audit findings disclosed that are required to be reported in accordance with the Uniform Guidance (2 CFR 200.516(a))? X yes ___ no

Identification of major federal programs:

AL Number(s)	Name of Federal Program or Cluster
10.553 10.555 10.556 10.559 10.579	Child Nutrition Cluster
14.231	Emergency Solutions Grant Program

Section II - Financial Statement Findings

The findings related to the financial statement audit are reported in the Comprehensive Annual Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2022-022[3]). That report included the following findings:

FS2021-001. Department of Revenue Financial Reporting Controls

FS2021-002. Department of Natural Resources Capital Asset Controls

FS2021-003. Department of Social Services Financial Reporting Controls

FS2021-004. Department of Labor and Industrial Relations UInteract System Controls

[3]See report at <https://auditor.mo.gov/AuditReport/ViewReport?report=2022022>.

Section III - Federal Award Findings and Questioned Costs

2021-001. DED Subrecipient Determination and Monitoring

Federal Agency	Department of the Treasury
Federal Program:	21.023 COVID-19 - Emergency Rental Assistance Program 2021 - ERAE0511 and ERAE0512
State Agency:	Department of Economic Development (DED)
Type of Finding:	A - Internal Control (Material Weakness) and Noncompliance B - Noncompliance

Improvements are needed in the DED's internal controls related to subrecipient determinations. During state fiscal year 2021, the DED did not comply with the Uniform Guidance (UG) requirements regarding identifying subrecipients, performing subrecipient risk assessments, and establishing subrecipient monitoring procedures. During state fiscal year 2021, the DED passed through $323,715,323 to a subrecipient, the Missouri Housing Development Commission (MHDC), for the Emergency Rental Assistance (ERA) Program. The amount paid to the MHDC represents 100 percent of the ERA Program expenditures made by the DED.

The DED is responsible for administering the ERA Program. In order to implement the ERA Program, the DED entered into a contract with the MHDC in February 2021. This contract requires the MHDC to implement the ERA Program, including determining eligibility and processing payments to eligible applicants, and taking responsibility for programmatic decision-making and adherence to federal program requirements.

Rule 2 CFR Section 200.331 states a pass-through entity must make case-by-case determinations whether each agreement it makes for the disbursement of federal program funds casts the party receiving the funds in the role of a subrecipient or a contractor. The classification of a subrecipient[4] is dependent on if the entity is responsible for making eligibility determinations for assistance, has its performance measured in relation to whether the objectives of the federal program were met, has responsibility for programmatic decision making, is responsible for adherence to federal program requirements, and uses the federal funds to carry out a program for its public purpose.

Rule 2 CFR 200.332(b) states that pass-through entities must evaluate each subrecipient's risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. Rule 2 CFR 200.332(d) requires pass-through entities to monitor the activities of the subrecipient as necessary to

[4]As defined by 2 CFR Section 200.331(a).

ensure that the subrecipient is in compliance with federal statutes, regulations, and the terms and conditions of the subaward.

Rule 2 CFR 200.332(d)(2) requires the pass-through entity to follow up and ensure the subrecipient takes timely and appropriate action on all deficiencies pertaining to the federal award provided to the subrecipient from the pass-through entity detected through audits, highlighting the status of actions planned or taken to address single audit findings related to the particular subaward. Additionally, Rule 2 CFR 200.332(d)(3) requires the pass-through entity to issue a management decision for applicable findings pertaining only to the federal award provided to the subrecipient from the pass-through entity.

A. Subrecipient Classification

The DED has not established policies and procedures to determine if the recipients of federal program funds are subrecipients or contractors. Additionally, the DED made an inaccurate determination and did not classify the MHDC as a subrecipient. The assessment performed to make this determination was not documented.

DED officials stated they did not have policies and procedures because making this type of determination does not occur often and all other DED federal funds recipients have already been classified as a subrecipient or a contractor. DED officials stated they had not had to make a determination of this nature in several years and were unsure how to perform a subrecipient determination. No guidance was sought from the UG[5] to make the determination. Additionally, the assessment was not documented because DED officials were unaware it needed to be.

DED officials stated they believed the MHDC was not a subrecipient at the time of the award. DED officials further stated since they originally did not consider the MHDC to be a subrecipient, they did not implement the required subrecipient monitoring (see section B), filed an inaccurate schedule of expenditures of federal awards (see finding number 2021-002), and did not identify a significant error in a federal report submitted by the MHDC (see finding number 2021-003A). Officials believed that because the MHDC is a state entity, subrecipient monitoring was not required.[6] As part of the audit process, we requested DED officials justify how the MHDC is not a

[5]2 CFR Section 200.331(a), (b), and (c) list criteria to consider when making this determination.

[6]The Missouri Housing Development Commission (MHDC) was established under Chapter 215, RSMo, in 1969 and under Section 215.020, RSMo, is an instrumentality of the state of Missouri, which constitutes a body corporate and politic. The Commission includes the Governor, Lieutenant Governor, State Treasurer, Attorney General and six persons appointed by the Governor with the advice and consent of the Senate.

subrecipient when considering the UG requirements.[7] Based on these discussions, officials agreed the MHDC was a subrecipient.

B. Subrecipient Monitoring

The DED did not implement a subrecipient monitoring program to monitor the MHDC, the sole subrecipient.

Risk assessment

The DED did not perform a risk assessment of its subrecipient, MHDC, to determine the extent of monitoring necessary for an effective subrecipient monitoring system. The risk assessment was not performed because the DED did not properly classify the MHDC as a subrecipient (see section A). In addition, without consideration of the subrecipient's risk of noncompliance, the DED did not develop an adequate monitoring approach necessary to ensure compliance with the ERA Program award it passes through to the subrecipient.

Subrecipient monitoring procedures

The DED did not monitor the MHDC for the ERA Program in the following areas:

- Activities allowed and unallowed, to ensure the activities performed by the MHDC were compliant with ERA Program requirements.
- Costs allowed and unallowed, to ensure the costs paid by the MHDC were compliant with ERA Program requirements.
- Eligibility, to ensure MHDC only provided program monies to applicants who were eligible based on ERA Program requirements.

Additionally, the DED did not follow up on and ensure the MHDC took appropriate action to address the deficiency identified in MHDC's Single Audit, for the year ended June 30, 2021, related to approximately $1 million in questioned costs.[8] Also, the DED did not issue a management decision related to the deficiency identified in MHDC's Single Audit as required by federal regulations.

Conclusions

DED officials stated they did not perform the risk assessments or implement a subrecipient monitoring program because they originally believed the MHDC was not a subrecipient. See section A for more information about this incorrect determination. Without an established subrecipient monitoring program, the DED cannot provide assurance that MHDC is complying with ERA Program requirements. Additionally, the DED cannot ensure

[7]Rule 2 CFR Section 200.331(a) and (b).

[8]The audit report stated MHDC identified $462,448 of known questioned costs and $599,879 of potential questioned costs.

deficiencies identified through the subrecipient's audits are timely and appropriately addressed.

Recommendations

The DED:

A. Develop and implement procedures regarding subrecipient determinations and ensure a determination is made when program funds are disbursed to determine if the recipient of the funds is a subrecipient or a vendor.

B. Formally assess and document each subrecipient's risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. Additionally, develop a subrecipient monitoring program that includes ensuring the subrecipient is compliant with program and relevant legal provisions and appropriate monitoring of subrecipient audit findings related to the program.

Auditee's Response

A. We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

B. We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-002. DED SEFA

Federal Agency:	Department of the Treasury
Federal Program:	21.023 COVID-19 - Emergency Rental Assistance Program
	21.026 COVID-19 - Homeowner Assistance Fund
State Agency:	Department of Economic Development (DED)
Type of Finding:	Noncompliance

The expenditures reported on the DED's schedule of expenditures of federal awards (SEFA) submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the statewide SEFA for the year ended June 30, 2021, were misstated. If the misstatement had not been identified during the audit, DED program expenditures would have been understated by $337,542,257[9] in the statewide SEFA as shown below:

Reported Expenditures	Actual Expenditures	Understated
$0	$337,542,257	$337,542,257

[9]Of this amount, $323,715,323 applies to the Emergency Rental Assistance Program and $13,826,934 applies to the Homeowner Assistance Fund.

Rule 2 CFR Section 200.510(b) requires the recipient of federal awards to prepare a SEFA including federal awards expended for each federal program. The omitted expenditures were all payments to a subrecipient. DED officials stated they did not include the expenditures to the subrecipient on their SEFA because they considered the subrecipient to be a state agency instead of a subrecipient. See finding number 2021-001 for more information about this incorrect determination. After discussion with agency officials, they agreed these expenditures should have been reported on the SEFA and subsequently submitted a revised SEFA to the DOA. The DOA included the revised amount in the statewide SEFA.

Recommendation

The DED ensure an accurate SEFA is prepared and submitted to the DOA.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-003. DED Performance and FFATA Reporting

Federal Agency:	Department of the Treasury (Treasury)
Federal Program:	21.023 COVID-19 - Emergency Rental Assistance Program 2021 - ERAE0511 and ERAE0512
State Agency:	Department of Economic Development (DED)
Type of Finding:	A - Internal Control (Material Weakness) and Noncompliance B - Noncompliance

The DED did not establish an internal control system over required federal reporting of the Emergency Rental Assistance (ERA) Program and did not identify a significant inaccuracy in a performance report. In addition, the required Federal Funding Accountability and Transparency Act (FFATA) reporting was not submitted for state fiscal year 2021. The DED provided a $324 million subaward to the Missouri Housing Development Commission (MHDC) from the ERA Program in fiscal year 2021. This first-tier subaward[10] accounted for 100 percent of the program's expenditures.

The DED is responsible for administering the ERA Program. The DED contracted with the MHDC to implement the ERA Program and to follow all federal guidelines related to the ERA Program, including reporting requirements.

The ERA Program requires recipients to certify and submit monthly and quarterly performance reports, which include a brief narrative describing the performance and accomplishments over the reporting period. The monthly

[10]First-tier subawards are federal awards made to non-federal entities by the prime award recipient, in this case the DED, on behalf of the federal awarding agency, the Treasury.

reports provide the Treasury with the number of households receiving assistance and the amount of ERA funds expended in the reporting period. The quarterly reports include a standard federal financial report, various financial data points, and participant household payment data. The DED contracted with the MHDC to prepare and submit these reports on the DED's behalf.

The FFATA requires comprehensive reporting for certain federal awards to promote transparency and accountability over the use of the federal funds. Per the *ERA Reporting Guidance* issued by the Treasury,[11] the Treasury would submit, on behalf of the recipients, the required FFATA reports into the FFATA Subaward Reporting System (FSRS) based off the information provided by the DED on its first quarter performance reports.

A. Performance Reporting

An internal control system to achieve compliance with federal reporting requirements has not yet been developed and a quarterly performance report was inaccurate.

The DED contracted with MHDC to submit the ERA Program performance reports on the DED's behalf. DED officials believed the contract with MHDC stating MHDC would administer the ERA Program and follow all federal guidelines, including the federal reporting requirements, was adequate reasoning for their lack of a control system and review process. Therefore, no additional controls were implemented, such as reviewing the reports for accuracy and completeness before the report is filed. A DED official stated the DED reviewed the reports submitted by the MHDC, but this review was performed after the report had already been submitted by the MHDC, was to ensure the report was complete, and was not documented.

To test compliance of the performance report accuracy and timely submittal, we reviewed reporting documentation for 2 of the reports that were required to be submitted within our audit period. We identified 1 quarterly report that inaccurately stated the MHDC was a contractor instead of a subrecipient. A DED official stated this error was not identified during review because the DED did not consider the MHDC to be a subrecipient (see finding number 2021-001A). Because of this error, the Treasury did not file the FFATA report on behalf of the DED (see section B).

Rule 2 CFR Section 200.329(c), requires non-federal entities to submit performance reports at the interval required by the federal awarding agency containing data elements approved by the OMB. Additionally, Rule 2 CFR 200.303(a) requires the non-federal entity to "[e]stablish and maintain

[11] <https://home.treasury.gov/system/files/136/ERA-Reporting-Guidance-v2.pdf>, page 14, accessed on April 28, 2022.

effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

B. Transparency Reporting

The DED did not take the appropriate steps to ensure the required FFATA reporting occurred. The Treasury provided guidance to recipients stating the Treasury would submit, on behalf of the recipients, the required FFATA reports based on the quarterly performance reports submitted. However, the MHDC incorrectly listed itself as a contractor instead of a subrecipient, and the DED did not identify the error in the quarterly performance report, causing the Treasury to not submit the required FFATA reports.

Contractor payments are not required to be reported under FFATA; therefore, the Treasury did not submit the FFATA report for ERA Program based off of the performance report information. As a result, payments made by the DED have not been reported into the FSRS, resulting in the lack of the FFATA reporting.

Rule 2 CFR Part 170, Appendix A, requires non-federal entities to report first-tier subawards of $30,000 or more to the FSRS no later than the end of the month following the month in which the subaward was made. Information entered into the FSRS is publicly available at USASpending.gov. In addition to noncompliance with federal requirements, not reporting subawards to the FSRS accurately and timely increases the risk that those using the reports could rely on inaccurate information.

Recommendations

The DED:

A. Develop an internal control system over federal reporting requirements for the ERA Program and ensure reports are submitted accurately.

B. Take the steps necessary to ensure the FFATA reporting requirements are met.

Auditee's Response

A. We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

B. We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-004. Medicaid National Correct Coding Initiative

Federal Agency:	Department of Health and Human Services (DHHS)	
Federal Program:	93.767	Children's Health Insurance Program
		2020 - 2005MO5021
		2021 - 2105MO5021
	93.778	COVID-19 - Medical Assistance Program

	93.778 Medical Assistance Program 2020 - 2005MO5MAP and 2005MO5ADM 2021 - 2105MO5MAP and 2105MO5ADM
State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD)
Type of Finding:	Internal Control (Material Weakness) and Noncompliance

As noted in our previous audit,[12] the MHD has not fully implemented the Medicaid National Correct Coding Initiative (NCCI) edits in the Medicaid Management Information System (MMIS) as required. During the year ended June 30, 2021, the MHD made Medical Assistance Program (Medicaid) and Children's Health Insurance Program (CHIP) payments, subject to NCCI edits, totaling approximately $8 billion.

The DSS contracts for the operation and maintenance of the MMIS. Medical providers submit fee-for-service claims for services provided to Medicaid and CHIP participants in the MMIS, and payments are made through the MMIS. To help ensure only allowable claims are paid, system edit checks flag and/or deny payment on suspicious or unusual claims. Section 6507 of the Affordable Care Act (Section 1903(r) of the Social Security Act[13]) requires the MHD to completely and correctly implement specific NCCI methodologies and edits into the MMIS. The purpose of the NCCI is to promote correct coding, prevent coding errors, prevent coding manipulation, and reduce improper payments. The DHHS - Centers for Medicare and Medicaid Services (CMS) published the Medicaid NCCI Policy Manual and the Medicaid NCCI Technical Guidance Manual to provide specific requirements and assist state Medicaid agencies to implement the NCCI methodologies.

The two NCCI edit categories are Procedure-to-Procedure (PTP) edits that are designed to identify pairs of procedure codes that should not be reported together; and Medically Unlikely Edits (MUE) that limit the number of units of service allowed for certain services and items. The DHHS-CMS provides PTP and MUE edit files to the MHD quarterly. Each quarterly edit file contains all current edits and replaces the previously provided edit file. Section 7 of the Medicaid NCCI Technical Guidance Manual requires the MHD to implement the edit files into the MMIS on the first day of each quarter. If the applicable edit files are not implemented by the first day of the second month of the quarter, the MHD is required to reprocess any claims processed with outdated edits once the updates are implemented.

[12]See single audit report at <https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>, finding number 2020-002.
[13]Title 42 USC 1396b(r)

Rather than quarterly implementation, the MHD through the MMIS contractor implements the PTP edit files annually; and the MHD does not reprocess claims upon implementation of the edits. For example, the MMIS contractor implemented the PTP edit file for the quarter ended March 31, 2021, in January 2021; and the MHD did not reprocess claims paid for the quarters ended June 30, 2020, September 30, 2020, and December 31, 2020, with the updated edits. In addition, the MHD has not implemented any of the MUE edit files received. MHD officials indicated they are working with the MMIS contractor to fully implement both the PTP and MUE edits.

In addition to noncompliance with Section 6507 of the Affordable Care Act, the failure to fully implement the NCCI edits and reprocess claims paid with incorrect edits increases the risk that coding errors or irregularities will go undetected, and improper payments will be made. To ensure compliance with the NCCI requirements, the MHD should establish internal controls over NCCI edits. Rule 45 CFR Section 75.303(a) requires the non-Federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the MHD strengthen controls over the NCCI requirements to ensure NCCI edits are fully implemented and reprocess claims paid when edits are not implemented timely, as required.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-005. Medicaid and CHIP Participant Eligibility

Federal Agency:	Department of Health and Human Services	
Federal Program:	93.767	Children's Health Insurance Program 2020 - 2005MO5021 2021 - 2105MO5021
	93.778	COVID-19 - Medical Assistance Program
	93.778	Medical Assistance Program 2020 - 2005MO5MAP and 2005MO5ADM 2021 - 2105MO5MAP and 2105MO5ADM
State Agency:	Department of Social Services (DSS) - MO HealthNet Division (MHD) and Family Support Division (FSD)	
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance	

As similarly noted in our 2 previous audits,[14] the DSS does not have sufficient controls to ensure compliance with the eligibility requirements of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) for certain participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI). The DSS did not correct system overrides for some MAGI-based participants, preventing their cases from being closed when necessary. There were approximately 1.1 million Medicaid and CHIP participants as of June 30, 2021.

To ensure MAGI-based participants continue to be eligible for benefits, 42 CFR Sections 435.916 requires a redetermination of eligibility once every 12 months, or when circumstances affecting a participant's eligibility change. The regulation requires termination of benefits when a participant no longer meets eligibility requirements. On March 19, 2020, the eligibility redetermination and most termination requirements were temporarily suspended in response to the COVID-19 public health emergency (PHE) and the suspension remained in effect for the entire audit period. All validly enrolled participants on March 19, 2020, remained continuously enrolled throughout the audit period except for participants who requested removal, relocated to another state, or died.

The Medicaid Eligibility Determination and Enrollment System (MEDES), implemented in January 2014, tracks eligibility information for MAGI-based participants, including redetermination due dates; and in some cases, performs redeterminations. Non-automatic redeterminations for MAGI-based participants are performed manually by FSD specialists. Eligibility information is transferred from the MEDES into the Medicaid Management System (MMIS), the Medicaid claims payment system, nightly. To ensure continuous enrollment during the PHE, the DSS programmed the MEDES to continue coverage effective March 18, 2020, except in the case of a participant's death, move out of state, or voluntary closure. For some exceptions, the MEDES automatically closes the case. For other exceptions, an FSD specialist manually records the reason for closure and initiates closure of the participant's case in the MEDES.

MEDES operations have been problematic since implementation and manual overrides to individual cases to compensate for previous system errors and limitations were not corrected. DSS officials explained there was a period of time when the MEDES was incorrectly closing some eligible cases before a redetermination could be performed. To prevent affected cases from being closed, DSS personnel manually overrode system controls. However, once these system limitations were corrected in June 2017, the DSS did not remove

[14]See single audit reports at <https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>, finding numbers 2020-003 and 2019-005.

the previously-established manual overrides, which prevented the system from taking automatic actions such as identifying cases needing redetermination and closing cases.

To test compliance with eligibility requirements in effect during the audit period, we reviewed 60 MAGI-based participants that were continuously enrolled during the year ended June 30, 2021. We identified 3 participants with previously-established system overrides, 1 of whom (2 percent) was no longer eligible for Medicaid. This participant was initially enrolled in December 2014 and became ineligible in February 2016 when she moved out of state. An FSD specialist recorded in the participant's file the reason the participant was ineligible and initiated closure of the case; however, DSS officials indicated the previously-established system overrides prevented the case from closing. No Medicaid payments were made on behalf of this ineligible participant during the year ended June 30, 2021.

In response to prior audit recommendations, DSS officials indicated they recently developed a report to identify MEDES participants with overdue redeterminations due to these system problems; however, the DSS has not reviewed these participants to ensure they remain eligible and do not meet one of the exceptions requiring case closure during the PHE. DSS officials indicated once the PHE ends, they plan to begin removing the manual overrides and performing redeterminations for these participants.

The failure to implement adequate internal controls to ensure ineligible participant cases are closed can result in Medicaid and CHIP payments being made on behalf of ineligible individuals, which would be unallowable costs of the federal programs. Rule 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DSS through the MHD and the FSD review participants with manual overrides in the MEDES to ensure the participants remain eligible and do not meet one of the exceptions requiring removal from the Medicaid and the CHIP during the PHE. In addition, the DSS should review and correct the eligibility for the ineligible participant identified in this finding.

Auditee's Response

We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.

Auditor's Comment

The DSS Corrective Action Plan (CAP) states the DSS disagrees there is a significant deficiency in internal controls because only one ineligible participant was identified, there were no questioned costs, and the case has since been closed. The CAP states the DSS has processes in place to terminate

eligibility for individuals who are deceased, voluntarily request closure, or report they have moved out of state. However, these processes are not in place for participant cases with manual overrides, and although recommended in prior audits, the DSS has not reviewed those cases to ensure the participants remain eligible and do not meet one of the exceptions requiring termination during the PHE. Until the manual overrides are corrected and/or applicable participants reviewed, there is continued risk of improper payments on these cases. Therefore, this finding is valid.

2021-006. Foster Care Maintenance Payment Rates

Federal Agency:	Department of Health and Human Services
Federal Program:	93.658 Foster Care - Title IV-E 2020 - G2001MOFOST 2021 - G2101MOFOST
State Agency:	Department of Social Services (DSS) - Children's Division (CD) and Division of Finance and Administrative Services (DFAS)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance

The DSS has not documented policies and procedures, including a periodic schedule, for reviews of Foster Care program maintenance payment rates. In addition, the DSS could not provide documentation supporting any review of the rates in effect for the year ended June 30, 2021. During that period, the DSS paid maintenance payments totaling about $42 million (excluding prior quarter adjustments) for approximately 7,000 children.

The DSS provides Foster Care maintenance payments to foster homes, relative homes, and residential facilities to cover the cost of (and the cost of providing) food, clothing, shelter, daily supervision, school supplies, and other travel and incidental expenses benefiting the child. Foster Care maintenance payment rates are set during the annual budget process, in which the DSS submits budget requests based on proposed rates and amounts. These requests are reviewed, potentially revised, and approved by the general assembly and the governor. The rates approved for the year ended June 30, 2021, were the same as those set for the year ended June 30, 2020. The fiscal year 2020 rates increased by 1.5 percent from the prior year rates.

Title 42 USC Section 671(a)(11) provides that in order for a state to be eligible for payments, the State Plan must provide for periodic review of amounts paid as Foster Care maintenance payments, to assure their continuing appropriateness. In addition, 45 CFR Section 1356.21(m)(1) requires the DSS to review the Foster Care maintenance payment amounts at reasonable, specific, time-limited periods established by the DSS.

DSS has not implemented a schedule or any procedures for reviewing and determining the appropriateness of the Foster Care maintenance payment

rates as required. In addition, for the rates in effect for the year ended June 30, 2021, DSS officials could not provide any documentation detailing a review or analysis supporting the rates requested during the budget process. Without a schedule or documented reviews, the DSS cannot demonstrate that reviews were completed as required or that the rates paid are appropriate.

Rule 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." Paragraph 12.01 of the *Standards for Internal Control in the Federal Government*, also known as the Green Book, states "management should implement control activities through policies."

Recommendation

The DSS through the CD and the DFAS develop policies and procedures, including a reasonable and specific schedule, for periodic reviews of Foster Care program maintenance payments and rates, and implement the schedule for reviewing and determining the appropriateness of the payments and rates as required. Also, maintain documentation of all reviews performed.

Auditee's Response

We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.

Auditor's Comment

The DSS Corrective Action Plan (CAP) states the DSS disagrees with the finding because the department has existing procedures to review the Foster Care maintenance payment rates as part of the annual budget preparation process. The CAP also states the DSS provided auditors documentation of the annual budget meeting to demonstrate the review occurred. Budget meeting documentation provided showed the requested rates were discussed, but did not include any evidence a detailed review or analysis of the rates for continued appropriateness occurred. Without retaining documentation of reviews or analyses of the rates, the DSS cannot demonstrate the rates were reviewed for continued appropriateness annually or reviewed at all. Without documented policies and procedures, the DSS cannot demonstrate proper internal controls have been established to ensure the rates are reviewed periodically as required. Therefore, this finding is valid. In addition, the CAP states the DSS will record the minutes from the portion of the meeting regarding review of maintenance payment rates going forward. However, recordings of budget meeting discussions are not sufficient in place of documented policies and procedures, and detailed reviews or analyses.

2021-007. Child Care Corrective Payments

Federal Agency:	Department of Health and Human Services
Federal Program:	93.575 COVID-19 - Child Care and Developmental Block Grant 2020 - G2001MOCCC3
	93.575 Child Care and Developmental Block Grant 2020 - G2001MOCCDF 2021 - G2101MOCCDF
	93.596 Child Care Mandatory and Matching Funds of the Child Care and Development Fund 2020 - G2001MOCCDF 2021 - G2101MOCCDF
State Agency:	Department of Social Services (DSS)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance
Questioned Costs:	$179

DSS controls over the Child Care Development Fund (Child Care) program's corrective (manual) subsidy payments to child care providers are not sufficient to prevent improper payments. The DSS made unsupported corrective payments and/or overpaid providers on behalf of 3 children. During the year ended June 30, 2021, the DSS paid over 2,800 providers serving approximately 44,400 children of eligible clients about $121 million, including about $8 million in corrective payments.

The DSS provides subsidy funds to child care providers who serve eligible clients (parents/caregivers). Once approved for services, the client selects a provider and the DSS enters into an agreement/contract with the provider. An eligibility specialist sets maximum authorized service units for the amount and type of care that best meets the client's need, and enters this into the Family Assistance Management Information System (FAMIS) for each child. In October 2019, the DSS implemented a new electronic time and attendance reporting system, the Child Care Business Information Solution (CCBIS). Clients create and use CCBIS profiles to check their children in and out of the provider's care. The CCBIS maintains information related to these events, such as the date, time, and client presence; and requires this information for payment. This information is later approved by clients and used by providers to invoice the DSS monthly. The CCBIS interfaces with the FAMIS to systematically process payments. The DSS added providers to the CCBIS throughout the year ended June 30, 2021, and most providers were using the CCBIS by June 2021.

While most provider payments are systematic through the CCBIS/FAMIS interface, some corrective (manual) payments are needed. If a provider identifies discrepancies in its systematic payment(s), the provider may request corrective payment from the DSS within 60 days of a service month's end. Corrective payment requests must be supported by payment resolution request (PRR) forms summarizing the discrepancy and client-signed copies

of attendance records. DSS personnel within the Child Care Payment Unit review and approve the PRR form and attendance records and issue the corrective payment. Payment discrepancies requiring corrective payments can occur for various reasons, such as instances in which a client failed to sign the child in and/or out. There was an increase in corrective payments during the year ended June 30, 2021, as a result of certain leniencies granted during the pandemic and possibly attributable to clients and providers gaining experience with the CCBIS.

To test compliance with program requirements, we selected a sample of 60 children. For each child, we reviewed related provider agreements and documentation supporting payment(s) for one service month, including corrective payments if applicable. The department made payments totaling approximately $32,400 to providers on behalf of these 60 children for the month reviewed, including approximately $2,300 in corrective payments for 13 children. Documentation was not adequate to support corrective payments for 3 of 13 cases with corrective payments reviewed (23 percent). The DSS could not locate the PRR form or attendance records supporting the corrective payment for 1 case. The corrective payments for the other 2 cases were made in error because the submitted attendance records did not support the payment and/or total payments exceeded the maximum monthly amount authorized for the child. Unsupported/unauthorized corrective payments for these 3 cases totaled $196. We question the federal share, or $179 (91.51 percent).

Rule 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award." Rule 45 CFR Section 98.68(a) requires the lead agency to document in its Child Care subsidy state plan that is has effective controls to ensure integrity and accountability in the program. To ensure controls are effective, the DSS needs to review, strengthen, and enforce policies and procedures to ensure Child Care subsidy provider corrective payments are properly supported and authorized.

Program transfer

Effective August 28, 2021, through Executive Order 21-02, the Governor transferred the Child Care program, including some personnel, from the DSS to the Department of Elementary and Secondary Education (DESE) - Office of Childhood. The DSS remained the lead agency responsible for all Child Care program policies and procedures during the year ended June 30, 2021. In subsequent years, the DSS will continue to perform certain agreed-upon responsibilities for the program.

Recommendation

The DSS and the DESE review, strengthen, and enforce policies and procedures regarding Child Care subsidy provider corrective payments. These procedures should include receipt and retention of payment resolution request forms and attendance records that sufficiently support the corrective

payments. The DSS should review and correct the overpayments for the children identified in this finding.

Auditee's Response

We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.

Auditor's Comment

The Corrective Action Plan (CAP), issued by the DSS and the DESE, states the DSS and the DESE disagree the errors identified in the finding are significant. In the CAP, the DSS and the DESE recalculated an immaterial audit test error rate; and argued that even though payments were made without required documentation for 2 of the 3 errors, the errors were not "true" errors because they did not result in improper payments.

The DSS's and the DESE's attempt to restate the audit test results, for the purpose of minimizing these errors, is misleading. The DSS/DESE-recalculated error rate includes each individual service unit (attendance date) for both types of payments (systematic and corrective) tested in our sample of 60. While the total test results were considered when giving our opinion on the Child Care program as a whole, it was necessary to evaluate the results of the testing of systematic and corrective payments separately because the payment types are under separate internal control structures. The finding addresses the internal control deficiencies and errors associated with the corrective payments; therefore, in order to put these items into proper perspective, it is more appropriate to describe the test results specific to corrective payments. Because documentation was not adequate to support corrective payments for 3 of 13 cases with corrective payments reviewed (23 percent), and corrective payments were material to the program (about $8 million during the year), there is a reasonable possibility that noncompliance was not prevented, or detected and corrected, on a timely basis during the audit period. Therefore the finding is valid.

2021-008. DSS FFATA Reporting

Federal Agency:	Department of Health and Human Services (DHHS)
Federal Program:	93.558 Temporary Assistance for Needy Families (TANF) 2020 - 2001MOTANF 2021 - 2101MOTANF
	93.568 COVID-19 - Low-Income Home Energy Assistance (LIHEAP)
	93.568 Low-Income Home Energy Assistance (LIHEAP) 2021 - 2101MOLIEA
Federal Agency:	Department of Justice (DOJ)
Federal Program:	16.575 Crime Victim Assistance (CVA) 2017 - 2017-VA-GX-0079 2018 - 2018-V2-GX-0035

2019 - 2019-V2-GX-0044

State Agency: Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS)

Type of Finding: Internal Control (Significant Deficiency) and Noncompliance

The DFAS needs to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting for the TANF, LIHEAP, and CVA programs. During state fiscal year 2021, the DFAS did not fully comply with FFATA reporting requirements for more than half of the subawards reviewed. During state fiscal year 2021, the DSS disbursed approximately $12 million in first-tier subawards[15] to 133 subrecipients of the TANF program, $54 million in first-tier subawards to 21 subrecipients of the LIHEAP, and $50 million in first-tier subawards to 131 subrecipients of the CVA program. First-tier subawards accounted for approximately 6 percent, 67 percent, and 97 percent of the TANF, LIHEAP, and CVA programs' expenditures, respectively.

The FFATA requires comprehensive reporting for certain federal awards to promote transparency and accountability over the use of the federal funds. Rule 2 CFR Part 170, Appendix A, requires the DFAS to report first-tier subawards of $30,000 or more to the FFATA Subaward Reporting System (FSRS) no later than the end of the month following the month in which the subaward was made. Information entered into the FSRS is publicly available at USASpending.gov.

Internal controls

DFAS policies and procedures over the FFATA reporting process require a supervisory review of the information uploaded to the FSRS, but do not require the supervisors maintain documentation of reviews performed.

DFAS personnel prepare a monthly excel spreadsheet of data from various sources including contracts and federal funding disclosure information sheets. DFAS personnel transfer the spreadsheet data to the federal FSRS template, and upload the data to the FSRS. Various subaward data is uploaded, including the entity name, award amount, and the date issued. No one could provide documentation supporting the supervisory reviews performed.

Without adequate documented supervisory review over FFATA reporting, the DFAS has less assurance the information included in the FFATA reporting for the TANF, LIHEAP, and CVA programs are complete and accurate. Rule 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides

[15]First-tier subawards are federal awards made to non-federal entities by the prime award recipient, in this case the DSS, on behalf of the federal awarding agencies, the DHHS and the DOJ.

reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

FFATA reporting

The DFAS did not comply with FFATA reporting requirements for the TANF, LIHEAP, and CVA programs. To test compliance with FFATA reporting requirements, we reviewed 41 program subawards totaling $14 million for the TANF, LIHEAP, and CVA programs awarded in fiscal year 2021. Instances of noncompliance identified are shown in the following table.

Transactions Tested	Subaward not reported (1)	Report not timely (2)	Subaward amount incorrect	Subaward missing key data elements
41	3	24	0	0
Dollar Amount of Tested Transactions	Subaward not reported	Report not timely (2)	Subaward amount incorrect	Subaward missing key data elements
$14,019,443	$362,528	$13,098,375	$0	$0

(1) All were CVA subawards.

(2) Reports were submitted 14 days to 3 months after the last day of the month following the month in which the subawards were made. We identified 20 errors totaling $955,500 for the TANF program and 4 errors totaling $12,142,875 for the LIHEAP program.

DFAS personnel could not explain why these errors occurred. In addition to noncompliance with federal requirements, not reporting subawards to the FSRS accurately and timely increases the risk that those using the reports could rely on inaccurate information.

Recommendation

The DSS through the DFAS strengthen internal controls related to FFATA reporting by having supervisors maintain documentation of reviews performed of the information reported to the FSRS for the TANF, LIHEAP, and CVA programs. In addition, the DFAS should complete FFATA reporting in accordance with the applicable requirements.

Auditee's Response

We partially agree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement and any planned actions to address the finding.

Auditor's Comment

The DSS Corrective Action Plan (CAP) states the DSS disagrees that having supervisors document their review of information reported to the FSRS is a necessary component of strong internal controls because regulations do not require documentation of such reviews. The CAP states the DSS adheres to formalized procedures for FFATA reporting. However, without requiring documentation of supervisory reviews performed, the DSS cannot demonstrate adherence to the established policies and procedures. Because effective internal controls include documentation demonstrating the controls

are operating in accordance with the established internal control system, this finding is valid.

2021-009. ELC Program Subrecipient Reimbursements

Federal Agency:	Department of Health and Human Services
Federal Program:	93.323 COVID-19 - Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) 93.323 Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) 2019 and 2020 - NU50CK000546
State Agency:	Department of Health and Senior Services (DHSS) - Division of Community and Public Health (DCPH)
Type of Finding:	Internal Control (Material Weakness) and Noncompliance
Questioned Costs:	$105,507

The DHSS did not have sufficient controls and procedures to ensure ELC program reimbursements to subrecipients were allowable, reasonable, and supported with sufficient documentation. As a result, unsupported reimbursements totaling $105,507 were made to some subrecipients.

The ELC program was developed to help combat infectious diseases and support public health agencies, with funding and resources for detection and prevention of disease. With the rise of COVID-19, the DHSS, through the ELC program, received and spent funds for testing, contact tracing, vaccinations, and other COVID-19 activities. The DHSS, through the DCPH, provides ELC program funding to subrecipients to provide COVID-19 support to communities. During the year ended June 30, 2021, the DHSS disbursed approximately $22.7 million to 123 subrecipients of the ELC program, including county and city health departments and universities. Disbursements to subrecipients represented approximately 53 percent of the program's expenditures.

Rule 2 CFR Section 200.403 provides that costs charged to federal programs should be necessary and reasonable for the performance of the federal award and adequately documented.

Per Section 6 of the program services contract, ELC program subrecipients must submit a completed request for payment form monthly for reimbursement of costs. The request for payment form consists of one single amount, representing the total amount of expenditures requested for reimbursement. No other documentation is required for reimbursement. DCPH staff review, approve, and process the forms for reimbursement; however, the DCPH has not implemented procedures for reviewing detailed supporting documentation, at least on a test basis. In addition, as noted in finding number 2021-010, the DCPH did not adequately monitor the ELC program subrecipients.

To test compliance with program requirements, we selected a sample of 60 reimbursements totaling $469,675 to 33 subrecipients during the year ended June 30, 2021. Documentation was not adequate to support 14 of 60 reimbursements reviewed (23 percent).[16] These 14 reimbursements, which were made to 13 county health departments, were supported by a request for payment form but no other documentation. To determine whether these 14 reimbursements were allowable and adequately supported, we requested DCPH staff obtain detailed supporting documentation such as invoices, receipts, and/or payroll records from the subrecipients. In response to our request, the DCPH provided quarterly activity reports prepared by the subrecipients, containing brief written summaries and descriptions of services performed during the quarter. The DCPH did not obtain and provide any detailed supporting documentation for these 14 reimbursements. DCPH officials indicated they believed the quarterly reports were sufficient to support the reimbursements; however, relying on quarterly summary reports without detailed supporting documentation does not provide adequate assurance the reimbursements were in accordance with federal requirements. We question the federal share of the 14 unsupported reimbursements, or $105,507 (100 percent). Known questioned costs for unsupported reimbursements to ELC program subrecipients represent approximately 22 percent of reimbursements reviewed. If similar errors were made on the remaining population of ELC program subrecipient reimbursements, questioned costs could be significant.

Without procedures for reviewing detailed documentation supporting reimbursements to ELC program subrecipients, the DCPH cannot demonstrate adequate internal controls to ensure costs are allowable, reasonable, and supported. Rule 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing that Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DHSS through the DCPH establish procedures for reviewing detailed documentation supporting reimbursements to ELC program subrecipients to ensure costs are allowable, reasonable, and supported.

Auditee's Response

We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.

Auditor's Comment

The DHSS Corrective Action Plan states the DHSS disagrees with the finding because the department plans to begin reviewing detailed documentation

[16] Although not required, some subrecipients attached detailed supporting documentation to their request for payment forms.

supporting subrecipient reimbursements when it starts performing subrecipient monitoring procedures in state fiscal year 2023. However, because the DCPH did not review documentation supporting reimbursements to ELC program subrecipients during the audit period, this finding is valid.

2021-010. ELC Program Subrecipient Monitoring

Federal Agency:	Department of Health and Human Services
Federal Program:	93.323 COVID-19 - Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) 93.323 Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) 2019 and 2020 - NU50CK000546
State Agency:	Department of Health and Senior Services (DHSS) - Division of Community and Public Health (DCPH)
Type of Finding:	Internal Control (Material Weakness) and Noncompliance

The DCPH did not perform subrecipient monitoring procedures in accordance with the department monitoring policy. During the year ended June 30, 2021, the DHSS disbursed approximately $22.7 million to 123 ELC subrecipients.

Rule 2 CFR Section 200.332(b) requires pass-through entities to evaluate each subrecipient's risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. Rule 2 CFR Section 200.332(d) requires pass-through entities to monitor the activities of subrecipients as necessary to ensure the subaward is used for authorized purposes, complies with the terms and conditions of the subaward, and achieves performance goals. Pass-through entities are required to follow up and ensure the subrecipient takes timely and appropriate action on all deficiencies detected through audits, on-site reviews, and other means.

The DHSS's subrecipient monitoring process, outlined in the DHSS's Financial Policy, provides the requirements for monitoring the department's subrecipient financial assistance agreements. Program divisions are required to develop a monitoring plan for each subrecipient contract. Monitoring plans include the planned frequency of monitoring activities, monitoring procedures to be utilized, and potential corrective actions. The types of monitoring can include routine receipt and review of required reports, invoices, receipts, and supporting documentation and periodic on-site visits or desk reviews. In addition, the monitoring process requires a risk assessment at the start of a new subrecipient contract and categorizes each subrecipient contract as high, medium, or low risk. The risk category determines the required type and nature of further monitoring of the subrecipient contract.

During state fiscal year 2021, the DCPH did not adequately monitor ELC program subrecipients. The DCPH did not develop a monitoring plan as required by the DHSS monitoring policy. In addition, risk assessments to determine the nature, timing, and extent of monitoring procedures; and monitoring reviews were not performed as required by federal regulations and the monitoring policy. DCPH officials indicated subrecipient monitoring procedures were not performed due to the rapid distribution of COVID-19 funding to subrecipients. DCPH officials also indicated they intend to start performing monitoring reviews in state fiscal year 2023 with all reviews completed by March 2024.

When subrecipient monitoring procedures are not performed, there is increased risk that noncompliance with program requirements will go undetected. A detailed monitoring plan for ELC subrecipients is necessary to demonstrate adequate internal controls over compliance with subrecipient monitoring requirements. Rule 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing that Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DHSS through the DCPH ensure subrecipient monitoring procedures are performed in accordance with the department monitoring policy.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-011. DHSS FFATA Reporting

Federal Agency:	Department of Health and Human Services (DHHS)	
Federal Program:	93.323	COVID-19 - Epidemiology and Laboratory Capacity for Infectious Diseases (ELC)
	93.323	Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) 2019 NU50CK000546 2020 NU50CK000546
State Agency:	Department of Health and Senior Services (DHSS)	
Type of Finding:	Noncompliance	

During state fiscal year 2021, the DHSS did not complete Federal Funding Accountability and Transparency Act (FFATA) reporting within required timeframes for some ELC program subawards. During that fiscal year, the DHSS disbursed $22.7 million in first-tier subawards[17] to 123 subrecipients

[17]First-tier subawards are federal awards made to non-federal entities by the prime award recipient, in this case the DHSS, on behalf of the federal awarding agency, the DHHS.

of the ELC program. First-tier subawards accounted for approximately 53 percent of the program's expenditures.

The FFATA requires comprehensive reporting for certain federal awards to promote transparency and accountability over the use of the federal funds. Rule 2 CFR Part 170, Appendix A, requires the DHSS to report first-tier subawards of $30,000 or more to the FFATA Subaward Reporting System (FSRS) no later than the end of the month following the month in which the subaward was made. Various subaward data is reported, including the entity name, award amount, and the date issued. Information entered into the FSRS is publicly available at USASpending.gov.

To test compliance with FFATA reporting requirements, we reviewed 24 ELC program subawards totaling approximately $1.5 million, awarded in state fiscal year 2021. Of the subawards reviewed, 8 (33 percent) totaling $553,050 were not uploaded to the FSRS timely. These subawards were reported 25 days to 7 months after the last day of the month following the month in which the subawards were made. DHSS officials indicated the delays occurred because other COVID-19 related responsibilities took precedence over FFATA reporting.

In addition to noncompliance with federal requirements, not reporting subawards to the FSRS timely increases the risk that those using the reports could rely on inaccurate information.

Recommendation

The DHSS complete FFATA reporting for the ELC program within required timeframes.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-012. Medicaid SPPC Participant Choice Agreements

Federal Agency:	Department of Health and Human Services	
Federal Program:	93.778	COVID-19 - Medical Assistance Program
	93.778	Medical Assistance Program
		2020 - 2005MO5MAP and 2005MO5ADM
		2021 - 2105MO5MAP and 2105MO5ADM
State Agency:	Department of Health and Senior Services (DHSS) - Division of Senior and Disability Services (DSDS)	
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance	

The DSDS does not have effective controls in place to ensure Participant Choice Agreements were obtained and/or retained for participants of the State Plan Personal Care (SPPC) program.

The DSDS is responsible for the direct administration of various Medical Assistance Program (Medicaid)-funded Home and Community Based Services (HCBS) programs for seniors and adults with disabilities, including the SPPC. During the year ended June 30, 2021, the DHSS made payments totaling approximately $816 million on behalf of approximately 63,000 participants of the SPPC.

As part of the initial assessment and annual reassessment processes, DSDS personnel are required to ensure a Participant Choice Agreement (DA-3 form) was signed by the participant and the assessor, and uploaded to the CyberAccess web tool. The DSDS utilizes Participant Choice Agreements to comply with 42 CFR Section 441.301(c)(4) and 42 CFR Section 441.302(d) that require participants be provided information and given choices regarding their care. Assessments and reassessments are completed by either DSDS personnel or provider personnel. DSDS personnel perform quality assurance reviews of assessments and reassessments completed by provider personnel, and are to ensure a signed Participant Choice Agreement was uploaded. Once the Participant Choice Agreement is uploaded to the CyberAccess web tool by the assessor, the original agreement is not retained.

To test compliance with federal requirements, we reviewed CyberAccess web tool records for 60 participants enrolled in the SPPC program during the year ended June 30, 2021. A Participant Choice Agreement was not in the web tool or retained elsewhere for 5 participants (8 percent) reviewed. Assessments or reassessments for these 5 participants were completed by providers, and DSDS quality assurance reviews did not identify these missing agreements. DSDS officials were unable to determine whether the forms were obtained but not uploaded to the CyberAccess web tool or were never obtained.

Without obtaining and retaining a Participant Choice Agreement, the DSDS cannot demonstrate the participant was provided the proper choices in care services as required. Rule 45 CFR Section 75.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DHSS through the DSDS implement procedures to ensure a signed Participant Choice Agreement is obtained and retained for all participants of the State Plan Personal Care program.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-013. Medicaid Facility Survey Timeliness

Federal Agency:	Department of Health and Human Services (DHHS)
Federal Program:	93.777 COVID-19 - State Survey and Certification of Health Care Providers and Suppliers (Title XVIII) Medicare
	93.777 State Survey and Certification of Health Care Providers and Suppliers (Title XVIII) Medicare
	2017, 2019, 2020, and 2021 - TITLEXVIII
	2019, 2020, and 2021 - TITLEXIXSS
	2020 and 2021 - CLIA
	2020 and 2021 - TITLE18CRS
	2020 and 2021 - XVIIIIMPAC
State Agency:	Department of Health and Senior Services (DHSS) - Section for Long-Term Care Regulation (SLCR)
Type of Finding:	Noncompliance

The SLCR did not perform facility survey procedures within required timeframes. During the year ended June 30, 2021, the DHSS through the SLCR surveyed 539 providers, including 526 long-term care nursing facilities and 13 independent care facilities for individuals with intellectual disabilities.

The DHSS is the state survey agency charged with inspecting providers of the Medical Assistance Program (Medicaid), including hospitals, nursing facilities, and other long-term care facilities. Under 42 CFR Section 431.108, as a basis for participation in Medicaid, providers are subject to survey and certification by the DHHS - Centers for Medicare and Medicaid Services (DHHS-CMS) or the DHSS to ensure providers and suppliers are in compliance with regulatory health and safety standards and conditions of participation.

The DHHS-CMS provides the State Operations Manual (SOM) to state agencies as guidelines for the survey and certification of providers. SOM Chapter 2, Section 2728, requires the state agency to mail the provider a copy of Form CMS-2567 (Statement of Deficiencies and Plan of Correction) within 10 working days after the survey. In addition, SOM Chapter 7, Section 7317.2, requires onsite revisits to occur any time between the last correction date on the plan of correction and the 60th day from the survey date to confirm the facility is in substantial compliance, and in certain cases, has the ability to remain in substantial compliance. Due to the COVID-19 pandemic, in March 2020, the DHHS issued a memo to all state survey agencies that suspended non-emergency surveys and prioritized all remaining survey activity. This allowed agencies to focus their surveys on infectious disease and abuse concerns and complaints. In August 2020, the DHHS-CMS issued a memo allowing for the resumption of suspended surveys as long as the state survey agencies had the necessary resources available to conduct those surveys.

To test compliance with survey and certification requirements, we reviewed 32 provider surveys performed between September 1, 2020, and June 30, 2021. Of 31 surveys that required a Statement of Deficiencies and Plan of Correction, 8 statements (26 percent) were sent to facilities between 11 and 27 working days after survey exit instead of within 10 working days as required. DHSS officials indicated these delays were due in part to staff being reassigned to duties associated with COVID-19, staffing shortages within the DHSS, and increased findings of noncompliance leading to longer write-up time. In addition, of the 12 providers that required a revisit, the revisits to 2 facilities (17 percent) were completed 71 and 85 days after the initial survey date instead of within 60 days as required. DHSS officials indicated these items were delayed due to various facility issues including staffing shortages, large number of deficiencies, and/or inadequate plans of correction.

Recommendation

The DHSS through the SLCR ensure survey procedures are conducted within required timeframes.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-014. Medicaid Developmental Disabilities Comprehensive Waiver Per Diem Rates

Federal Agency:	Department of Health and Human Services (DHHS)
Federal Program:	93.778 COVID-19 - Medical Assistance Program 93.778 Medical Assistance Program 2020 - 2005MO5MAP and 2005MO5ADM 2021 - 2105MO5MAP and 2105MO5ADM
State Agency:	Department of Mental Health (DMH) - Division of Developmental Disabilities (DD)
Type of Finding:	Noncompliance

As noted in our prior 6 audit reports,[18] the DD continued to pay historical per diem rates to providers for residential habilitation services provided to participants of the Home and Community Based Services (HCBS), Developmental Disabilities Comprehensive Waiver (Comprehensive Waiver) program, but did not retain adequate documentation to support these rates. As a result, the DD could not demonstrate some amounts paid were allowable costs of the Comprehensive Waiver program.

The DD with its six habilitation centers and five regional offices is responsible for the direct administration of various Medical Assistance Program (Medicaid)-funded HCBS programs for children and adults with disabilities, including the Comprehensive Waiver program. Various types of

[18]See single audit reports at <https://auditor.mo.gov/AuditReport/Reports?SearchLocalState=35>, finding numbers 2020-005, 2019-007, 2018-014, 2017-017, 2016-006, and 2015-015.

services are allowed under the waiver, including residential habilitation services provided to 1,511 participants in group homes and 5,487 participants served by individualized supported living (ISL) providers during the year ended June 30, 2021. Residential habilitation services include care, supervision, and skills training in activities of daily living, home management, and community integration. Providers are paid a per diem rate for each participant receiving these services, based on the individual's needs. Certain costs, such as room and board, are not allowed to be included in per diem rates under the waiver program. During the year ended June 30, 2021, per diem payments for group home services totaled approximately $125 million, and per diem payments for ISL services totaled approximately $670 million.

In October 2013, the DD began phasing in acuity-based per diem rates to replace historical rates for residential habilitation services, and renewed the Comprehensive Waiver in July 2016 to include the new rates. However, these acuity-based per diem rates were not fully phased in as of June 30, 2021. Payments at the historical per diem rates are expressed as a percentage of the acuity-based rates, but some of these rates exceed 100 percent of the acuity-based rates. For participants who received residential habilitation services during the year ended June 30, 2021, DD officials indicated the DMH paid acuity-based per diem rates for approximately 92 percent of the participants in group homes and approximately 60 percent of the participants in ISL placements, and historical per diem rates for the remaining 8 percent and 40 percent, respectively. In state fiscal year 2022, the DMH received funding to fully phase in group home and ISL rates to the acuity-based rates. A corrective action plan approved by the federal DHHS - Centers for Medicare and Medicaid Services (DHHS-CMS), Division of Medicaid Field Operations-North in June 2019, stated the rates for ISL providers are planned to be fully implemented by 2024.

As noted in prior audits, the DD does not retain documentation to support per diem rates paid at historical rates exceeding acuity-based rates. The DD retains the group home individual plan of care and cost of living allowance (COLA) notices supporting some per diem rate increases. However, these documents do not show how the rate was originally determined or what costs were included in the per diem rate. To test compliance with various Comprehensive Waiver program requirements, we tested 60 payments to service providers during the year ended June 30, 2021. Of these 60 payments, 32 were to ISL providers, and 9 were to group homes for habilitation services. All ISL and group home payments tested were based on acuity-based per diem rates or historical rates that were less than or equal to acuity-based rates; therefore, no questioned costs were identified for the year ended June 30, 2021.

Audits performed by the DHHS - Office of Inspector General (DHHS-OIG), *Missouri Claimed Unallowable and Unsupported Medicaid Payments for Group Home Habilitation Services*, released in August 2015, and *Missouri Claimed Unallowable Medicaid Payments for Individualized Supported Living Habilitation Services*, released in March 2016, noted similar concerns with unsupported per diem rates for some group home payments and noted some ISL payments included unapproved and unallowable costs.

Payments to providers for those participants that have not been transitioned from the historical per diem rates to the acuity-based per diem rates, and at rates that exceed 100 percent of the acuity-based rates, are not adequately supported and documented as required by federal regulations. Similar errors of noncompliance will likely continue until all participants are transitioned to the acuity-based rate model.

Without proper documentation of the payment rates, the DD cannot demonstrate that payments based on these rates are proper and only include allowable costs. Rule 42 CFR Section 447.203(a) states, "[t]he agency must maintain documentation of payment rates. . . ." Rule 2 CFR Section 200.403(g) states costs must be adequately documented to be allowable. Also, the approved DD Comprehensive Waiver Program Application, Appendix I: Financial Accountability, section I-2(e), states "[r]ecords documenting the audit trail of adjudicated claims (including supporting documentation) are maintained by the Medicaid agency, the operating agency (if applicable), and providers of waiver services for a minimum period of 3 years." Adequate documentation of habilitation services per diem rates is necessary to ensure compliance with the federal requirements related to the Comprehensive Waiver program and to ensure only allowable costs are included in the per diem rates.

Recommendation

The DMH through the DD continue to transition all per diem rates paid to providers for residential habilitation services provided under the Comprehensive Waiver program from historical rates to acuity-based rates and ensure documentation to support per diem rates is maintained as required.

Auditee's Response

We disagree with the auditor's finding. Our Corrective Action Plan includes an explanation and specific reasons for our disagreement.

Auditor's Comment

The DMH Corrective Action Plan states the DMH disagrees with the finding because all existing rates are now a factor of a rate study, the rate study serves as the documentation for all residential rates paid, and any other forms of documentation are irrelevant. However, as stated in the finding, payments to providers for any participants at historical per diem rates that exceed 100 percent of amounts calculated using the rate study are not adequately supported and documented, as required by federal regulations. Because the

DMH had not transitioned all participants to the acuity-based model as of the year ended June 30, 2021, this finding is valid.

2021-015. GEER Fund Annual Performance Reporting

Federal Agency:	Department of Education (USDE)
Federal Program:	84.425C COVID-19 - Governor's Emergency Education Relief (GEER) Fund 2020 - S425C200016
State Agency:	Department of Elementary and Secondary Education (DESE)
Type of Finding:	Noncompliance

The DESE did not report subaward information in its annual performance report of the GEER Fund for the period March 13 through September 30, 2020.

Rule 2 CFR Section 200.329(c), requires non-federal entities to submit performance reports at the interval required by the federal awarding agency containing data elements approved by the OMB. GEER Fund recipients are required to submit an annual performance report (OMB Form No. 1810-0748) to the USDE describing how the state and subgrantees used the awarded funds during the performance period. In the report, recipients are to report total amounts allocated and expended as well as various subaward information including each subgrantee and award amount.

The GEER Fund grant was initially awarded to the Governor's office. The Office of Administration (OA), on behalf of the Governor's office, entered into an interagency agreement with the DESE and the Department of Higher Education and Workforce Development (DHEWD), designating the DESE as the fiscal agent for the GEER Fund for the State of Missouri. The DESE draws down and disburses the funds to DESE subrecipients (Local Education Agencies [LEAs]) or to the DHEWD. The DHEWD disburses funds to the DHEWD subrecipients (Institutions of Higher Education [IHEs]). The interagency agreement states the DESE shall manage all reporting requirements by collecting information and data including data from the DHEWD and the OA.

In the annual performance report submitted for the period March 13 through September 30, 2020, the DESE did not correctly report the GEER Fund subawards. In the subgrantee sections, the DESE did not report any detail for the 549 LEA subawards totaling $30 million and the 23 IHE subawards totaling $23.6 million. Instead, the DESE incorrectly reported the amounts allocated by the state to the DESE and the DHEWD. DESE personnel indicated the reporting errors occurred due to the unusual nature of the GEER Fund allocations and a misunderstanding of guidance received from the USDE. DESE personnel also indicated most of the performance report data was transferred from the Federal Funding Accountability and Transparency

Act submissions, which also incorrectly excluded subgrantee information (see finding number 2021-016).

In addition to noncompliance with federal requirements, not accurately reporting annual performance data increases the risk that those using the report could rely on inaccurate information.

Recommendation

The DESE ensure accurate annual performance reports are submitted for the GEER Fund.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-016. DESE FFATA Reporting

Federal Agency:	Department of Education (USDE)	
Federal Program:	84.425C	COVID-19 - Governor's Emergency Education Relief (GEER) Fund 2020 - S425C200016
	84.425D	COVID-19 - Elementary and Secondary School Emergency Relief (ESSER) Fund 2021 - S425D210021 and S425U210021
State Agency:	Department of Elementary and Secondary Education (DESE)	
Type of Finding:	Noncompliance	

During state fiscal year 2021, the DESE did not comply with Federal Funding Accountability and Transparency Act (FFATA) reporting requirements for any of the subawards reviewed for the GEER Fund and the ESSER Fund grants.

The FFATA requires comprehensive reporting for certain federal awards to promote transparency and accountability over the use of the federal funds. Rule 2 CFR Part 170, Appendix A, requires the DESE to report first-tier subawards[19] of $30,000 or more to the FFATA Subaward Reporting System (FSRS) no later than the end of the month following the month in which the subaward was made. Various subaward data is reported, including the entity name, award amount, and the date issued. Information entered into the FSRS is publicly available at USASpending.gov.

The GEER Fund grant was initially awarded to the Governor's office. The Office of Administration (OA), on behalf of the Governor's office, entered into an interagency agreement with the DESE and the Department of Higher Education and Workforce Development (DHEWD), designating the DESE as the fiscal agent for the GEER Fund for the State of Missouri. The DESE

[19]First-tier subawards are federal awards made to non-federal entities by the prime award recipient, in this case the DESE, on behalf of the federal awarding agency, the USDE.

draws down and disburses the funds to the DESE subrecipients (Local Education Agencies [LEAs]) or to the DHEWD. The DHEWD disburses funds to the DHEWD subrecipients (Institutions of Higher Education [IHEs]). The interagency agreement states the DESE shall manage all reporting requirements by collecting information and data including data from the DHEWD and the OA. During state fiscal year 2021, the DESE and the DHEWD disbursed approximately $29.5 million in first-tier subawards to 401 subrecipients of the GEER Fund and the DESE disbursed approximately $306.9 million in first-tier subawards to 554 subrecipients of the ESSER Fund. First-tier subawards accounted for approximately 78 percent of the GEER Fund expenditures and 99 percent of the ESSER Fund expenditures.

To test compliance with FFATA reporting requirements for the GEER Fund, we reviewed the sole FSRS report submitted by DESE personnel during state fiscal year 2021. The DESE did not report any of the 549 LEA subawards totaling $30 million or the 23 IHE subawards totaling approximately $23.6 million in the FSRS. Instead, the DESE incorrectly reported as subawards, the allocations by the state to the DESE and the DHEWD.

To test compliance with FFATA reporting requirements for the ESSER Fund, we reviewed 40 ESSER Fund subawards totaling approximately $73.2 million awarded in state fiscal year 2021. Of the subawards reviewed, 40 subawards (100 percent) were not uploaded to the FSRS timely. These subawards were reported 4 to 7 months after the last day of the month following the month in which the subawards were made.

DESE personnel indicated the FFATA reporting errors occurred due to a misunderstanding of FFATA reporting requirements as well as the unusual nature of the GEER Fund allocations. In addition to noncompliance with federal requirements, not reporting subawards to the FSRS accurately and timely increases the risk that those using the reports could rely on inaccurate information.

Recommendation

The DESE complete FFATA reporting for the GEER Fund and the ESSER Fund in accordance with the applicable requirements.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-017. Special Education Cluster Subrecipient Monitoring

Federal Agency: Department of Education
Federal Program:
84.027 Special Education Grants to States
2018 - H027A180040 and H027A18004018A
2019 - H027A190040 and H027A19004019A
2020 - H027A200040 and H027A20004020A
84.173 Special Education Preschool Grants
2019 - H173A190103
2020 - H173A200103

State Agency:	Department of Elementary and Secondary Education (DESE)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance

The DESE needs to strengthen internal controls to ensure compliance with subrecipient monitoring requirements. During the year ended June 30, 2021, the DESE did not perform subrecipient monitoring reviews in accordance with its monitoring guide for the Special Education Cluster. The DESE disbursed $212.3 million to 541 subrecipients for costs related to the Special Education Cluster during the year ended June 30, 2021.

Rule 2 CFR Section 200.332(b) requires pass-through entities to evaluate each subrecipient's risk of noncompliance with federal statutes, regulations, and the terms and conditions of the subaward for purposes of determining the appropriate subrecipient monitoring. Rule 2 CFR section 200.332(d) requires pass-through entities to monitor the activities of the subrecipient as necessary to ensure that the subaward is used for authorized purposes, complies with the terms and conditions of the subaward, and achieves performance goals. Pass-through entities are required to follow up and ensure the subrecipient takes timely and appropriate action on all deficiencies detected through audits, on-site reviews, and other means.

Subrecipients for the Special Education Cluster are Local Education Agencies (LEAs). The DESE's tiered monitoring process, outlined in the DESE's Special Education Fiscal Monitoring Guide, provides for annual desk audits and application reviews of all LEAs. Desk audit and application reviews include review and approval of budget applications, payment requests, and final expenditure reports. In addition, the monitoring guide requires an annual risk assessment that evaluates various risk indicators and categorizes each LEA as high, medium, or low risk. The risk category determines the required type and nature of further monitoring of the LEA. With some exceptions, for high-risk LEAs, on-site/virtual visits consisting of inspections of records, tours of facilities, interviews of employees, and other procedures are required. For medium-risk LEAs, self-assessment/desk monitoring reviews consisting of review and verification of documentation supporting the LEA's responses to a compliance questionnaire are required. For low-risk LEAs, no additional action is required. No additional action is required for high-risk LEAs that attended fiscal training, received phone monitoring, or received targeted technical assistance in the prior fiscal year.

The monitoring guide provides that review reports listing any deficiencies noted be generated for on-site/virtual visits and self-assessment/desk monitoring reviews. The LEA is required to prepare a corrective action plan (CAP) by a required due date outlining plans to correct the deficiencies and implement procedural changes.

During state fiscal year 2021, DESE Special Education personnel performed risk assessments for all 541 Special Education Cluster LEAs; however, the DESE did not perform monitoring reviews for some LEAs in accordance with the monitoring guide. The following table shows the results of the risk assessment performed for that fiscal year, and the monitoring reviews required.

Assessed Risk	High	Medium	Low
Number of LEAs	18	213	310
Type of Monitoring Required	On-site/ virtual visit	Self-assessment/ desk monitoring	No additional action

For 7 of 18 LEAs categorized as high-risk, the DESE did not perform the required on-site/virtual monitoring visits. Monitoring records indicate these 7 LEAs were exempt from such visits because they had attended fiscal training in the prior fiscal year; however, no fiscal training took place in fiscal year 2020 due to the ongoing pandemic. DESE personnel indicated they considered attendance at the state fiscal year 2019 training to meet the monitoring guide's visit exemption requirement.

Our review of 25 on-site/virtual visits and self-assessment/desk monitoring reviews performed during the state fiscal year ended June 30, 2021, identified two incomplete reviews (8 percent). For both reviews, the LEAs had not submitted requested or required information and DESE personnel had not timely followed up with the LEAs about the outstanding items. One onsite/virtual review was initiated in May 2021, but was not fully completed as of April 2022. For one desk monitoring review completed in May 2021, the LEA did not submit a CAP until January 2022, after our inquiry.

When subrecipient monitoring reviews are not performed in accordance with the monitoring guide, there is increased risk that noncompliance with program requirements will go undetected. Adequate internal controls are necessary to ensure established policies and procedures over subrecipient monitoring are followed. In addition, 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The DESE strengthen controls and procedures to ensure subrecipients of the Special Education Cluster are monitored in accordance with the monitoring guide.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-018. DESE SEFA

Federal Agency:	Department of Education	
Federal Program:	10.555	COVID-19 - National School Lunch Program
	10.555	National School Lunch Program
	84.425C	COVID-19 - Governor's Emergency Education Relief (GEER) Fund
	84.126	Rehabilitation Services Vocational Rehabilitation Grants to States
	96.001	Social Security Disability Insurance
State Agency:	Department of Elementary and Secondary Education (DESE)	
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance	

The DESE's controls and procedures related to the preparation of the schedule of expenditures of federal awards (SEFA) were not sufficient, and as a result, expenditures reported on the DESE SEFA submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the statewide SEFA for the year ended June 30, 2021, were misstated. If the errors and omissions had not been identified during the audit, expenditures would have been understated by approximately $77.1 million in the statewide SEFA for various DESE programs.

The following table summarizes the DESE SEFA errors identified:

Error Type	Overstated/(Understated)
Allocated and Indirect Cost omissions	$ (28,148,983)
GEER Fund omission	(23,643,000)
Food Donations omission	(25,941,494)
Data Entry errors	589,990
Total Errors	$ (77,143,487)

- Allocated and indirect costs such as payroll benefits, building rent, computer systems, and other adjustments recorded as Federal Aid Charge (FX) documents in the statewide accounting (SAM II) system, totaling $28,148,983, were not included for most programs.

- GEER Fund drawdowns totaling $23,643,000 for reimbursement of Department of Higher Education and Workforce Development (DHEWD) expenditures were not included. These funds were direct expenditures of the DESE and indirect expenditures of the DHEWD.

- The value of food donations ($25,941,494) were not included in the National School Lunch Program expenditures.

- Data entry errors for 2 programs resulted in a net overstatement of $589,990.

The errors occurred without detection due to (1) staff turnover, (2) inadequate documented procedures for preparing the SEFA, and (3) inadequate review procedures. After we notified the DESE of these errors, the DESE submitted a revised SEFA to the DOA, and the DOA included the revised amounts in the statewide SEFA.

Rule 2 CFR Section 200.510(b) requires the recipient of federal awards to prepare a SEFA including federal awards expended for each federal program. Rule 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award." Effective internal controls should include procedures to ensure federal expenditures are accurately reported on the SEFA.

Recommendation

The DESE implement controls and procedures to prepare and submit an accurate SEFA to the DOA.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-019. Department of Labor and Industrial Relations UInteract System Controls

Federal Agency:	Department of Labor Department of Homeland Security	
Federal Program:	17.225	COVID-19 - Unemployment Insurance 2020 - UI-34725-20-55-A-29 and UI-34866-20-55-A-29
	17.225	Unemployment Insurance 2020 - UI-34068-20-55-A-29 2021 - UI-35658-21-55-A-29
	97.050	COVID-19 - Presidential Declared Disaster Assistance to Individuals and Households - Other Needs 2020 - DHS-20-ONA-050-00-99
State Agency:	Department of Labor and Industrial Relations (DOLIR)	
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance	
Questioned Costs:	$86,500	

The DOLIR needs to improve certain UInteract system controls. System controls were not sufficient to prevent or detect improper payments authorized by an employee totaling approximately $123,000 during fiscal

years 2020 and 2021. See Financial Statement Finding number FS2021-004 in the Annual Comprehensive Financial Report - Report on Internal Control, Compliance, and Other Matters (Report No. 2022-022[20]), issued in March 2022.

We question the overpayments during the year ended June 30, 2021, identified in the finding. The overpayment amounts by program and fiscal year are detailed in the following table:

Program		Fiscal Year 2021	Fiscal Year 2020	Total
FPUC	$	49,165	27,600	76,765
PEUC		4,672	0	4,672
PUA		13,975	5,044	19,019
Regular UI		15,088	3,363	18,451
LWA		3,600	0	3,600
Total	$	86,500	36,007	122,507

2021-020. SEMA Suspension and Debarment Procedures

Federal Agency:	Department of Homeland Security - Federal Emergency Management Agency (FEMA)
Federal Program:	97.036 Disaster Grants - Public Assistance (Presidentially Declared Disasters) 2013 - FEMA-4144-DR-MO 2015 - FEMA-4238-DR-MO 2016 - FEMA-4250-DR-MO 2017 - FEMA-4317-DR-MO 2019 - FEMA-4435-DR-MO and FEMA-4451-DR-MO 2020 - FEMA-4490-DR-MO and FEMA-4552-DR-MO
State Agency:	Department of Public Safety - State Emergency Management Agency (SEMA)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance

During the year ended June 30, 2021, the SEMA did not have adequate procedures to ensure the timely verification that subrecipients of the Disaster Grants - Public Assistance (Presidentially Declared Disasters) (DGPA) program were not suspended or debarred.

Through the DGPA program, the SEMA provides assistance to local governments and certain private non-profit organizations to respond to

[20]See report at <https://auditor.mo.gov/AuditReport/ViewReport?report=2022022>

disasters. Applications for funding are reviewed and approved by SEMA and FEMA personnel, and the SEMA makes payments to the subrecipients based on approved funding amounts and actual costs. During the year ended June 30, 2021, the SEMA disbursed approximately $69 million[21] to approximately 480 subrecipients of the DGPA program.

Rule 2 CFR Section 200.214 requires non-federal entities to comply with the non-procurement debarment and suspension regulations in 2 CFR Part 180, which restrict subawards with parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in federal assistance programs. Rule 2 CFR Section 180.300 states, "[w]hen you enter into a covered transaction with another person at the next lower tier, you must verify that the person with whom you intend to do business is not excluded or disqualified. You do this by: (a) Checking SAM Exclusions;[22] or (b) Collecting a certification from that person; or (c) Adding a clause or condition to the covered transaction with that person."

SEMA procedures in effect during the year ended June 30, 2021, required SEMA personnel to verify each subrecipient was not suspended or debarred at project completion rather than prior to approving funding as required. When a project is ready to be closed, SEMA personnel complete an Applicant Processing Checklist form documenting various verifications performed for each subrecipient, including verification that the subrecipient was not suspended or debarred. SEMA officials indicated if subrecipients are identified as suspended or debarred, the SEMA would require reimbursement of grant funds disbursed. Our review of checklist forms for 48 haphazardly selected subrecipients that received DGPA program payments during the year ended June 30, 2021, noted the suspension and debarment verification was performed 2 months to 43 months after the funding approval date for 15 subrecipients, no verification date was recorded for 1 subrecipient, and verifications had not been performed as of January 2022 for 32 subrecipients. SEMA officials indicated they were not fully aware of the requirements until they were brought to their attention during a FEMA financial monitoring review in 2021. In response to the FEMA review, in 2022, the SEMA began requiring applicants of the DGPA program to certify they are not suspended or debarred during the application process.

Not verifying that subrecipients are not suspended or debarred prior to approving funding increases the risk that the SEMA could contract with a subrecipient that is suspended or debarred and be required to return the funds

[21]The Schedule of Expenditures of Federal Awards, Amount Provided to Subrecipients column, includes approximately $52 million in expenditures by other state agencies that has been excluded from this total.

[22]System for Award Management

paid to the subrecipient to the federal awarding agency. To ensure compliance with suspension and debarment requirements, the SEMA should continue to strengthen and enforce internal controls to ensure verifications are performed prior to approving funding. Rule 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award."

Recommendation

The SEMA should continue to strengthen and enforce internal controls over suspension and debarment requirements to verify each subrecipient of the DGPA program was not suspended or debarred prior to approving funding.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-021. SEMA FFATA Reporting

Federal Agency	Department of Homeland Security - Federal Emergency Management Agency (FEMA)
Federal Program:	97.036 Disaster Grants - Public Assistance (Presidentially Declared Disasters) 2020 - FEMA-4490-DR-MO and FEMA-4552-DR-MO
State Agency:	Department of Public Safety - State Emergency Management Agency (SEMA)
Type of Finding:	Internal Control (Significant Deficiency) and Noncompliance

The SEMA needs to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting for the Disaster Grants - Public Assistance (Presidentially Declared Disasters) (DGPA) program. During state fiscal year 2021, the SEMA did not comply with FFATA reporting requirements for any of the subawards reviewed. During state fiscal year 2021, the SEMA disbursed approximately $69.2 million in first-tier subawards[23] to 484 subrecipients of the DGPA program. First-tier subaward payments accounted for approximately 61 percent of the program's expenditures.

The FFATA requires comprehensive reporting for certain federal awards to promote transparency and accountability over the use of the federal funds. Rule 2 CFR Part 170, Appendix A, requires the SEMA to report first-tier subawards of $30,000 or more to the FFATA Subaward Reporting System (FSRS) no later than the end of the month following the month in which the

[23]First-tier subawards are federal awards made to non-federal entities by the prime award recipient, in this case the SEMA, on behalf of the federal awarding agency, the FEMA.

subaward was made. Information entered into the FSRS is publicly available at USASpending.gov.

On a monthly basis, SEMA procedures provide that SEMA personnel download information pertaining to subrecipient awards from the FEMA data warehouse and enter the information into an excel spreadsheet. SEMA personnel filter the spreadsheet information to identify subawards that require FFATA reporting, transfer the data to the federal FSRS template, and upload the data to the FSRS. Various subaward data is uploaded, including the entity name, award amount, and the date issued.

Internal controls

The SEMA's policies and procedures over the FFATA reporting process do not include procedures for compiling subaward data or requiring a documented supervisory review of the information uploaded to the FSRS.

Without sufficiently detailed policies and procedures or adequate supervisory review over FFATA reporting, the SEMA has less assurance the information included in the FFATA reporting for the DGPA program is complete and accurate. Policies and procedures, at a minimum, should define the responsibilities of various program personnel and include procedures for ensuring the accuracy and completeness of all FFATA reporting elements. Rule 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." The *Standards for Internal Control in the Federal Government*, also known as the Green Book, provides that management should document responsibilities through policies. Paragraph 12.02 of the Green Book states, "management documents in policies the internal control responsibilities of the organization." Paragraph 12.04 states policies may be further defined through day-to-day procedures and "[m]anagement communicates the policies and procedures to personnel so that personnel can implement the control activities for their assigned responsibilities."

FFATA reporting

The SEMA did not comply with FFATA reporting requirements for the DGPA program. To test compliance with FFATA reporting requirements, we reviewed 28 DGPA program subawards, totaling approximately $2.7 million, awarded in state fiscal year 2021. Instances of noncompliance identified are shown in the following table.

Transactions Tested	Subaward not reported (1)	Report not timely (2)	Subaward amount incorrect	Key subaward elements missing and/or incorrect (3)
28	1	27	0	4
Dollar Amount of Tested Transactions	**Subaward not reported**	**Report not timely**	**Subaward amount incorrect**	**Key subaward elements missing and/or incorrect**
$2,728,702	$428,036	$2,300,666	$0	$109,852

(1) When SEMA officials investigated this error, they discovered an additional 6 subawards totaling $1,194,755 that had not been reported.
(2) Reports were submitted 1 to 8 months after the last day of the month following the month in which the subawards were made.
(3) For these 4 subawards, key data elements such as subawardee's name, address, and DUNS number were incorrect.

SEMA personnel indicated the FFATA reporting errors occurred because other disaster-related duties took precedence over FFATA reporting. In addition to noncompliance with federal requirements, not reporting subawards to the FSRS accurately and timely increases the risk that those using the reports could rely on inaccurate information.

Recommendation

The SEMA strengthen internal controls related to FFATA reporting to include formal written policies and procedures for compiling subaward data and documented supervisory reviews of the information reported to the FSRS for the Disaster Grants - Public Assistance (Presidentially Declared Disasters) program. In addition, the SEMA should complete FFATA reporting in accordance with the applicable requirements.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

2021-022. MoDOT FFATA Reporting

Federal Agency: Department of Transportation
Federal Program: 20.106 COVID-19 - Airport Improvement Program and COVID-19 Airports Programs

2020 - 3-29-SBGP-106-2020, 3-29-SBGP-107-2020, 3-29-SBGP-108-2020, 3-29-SBGP-109-2020, 3-29-SBGP-111-2020, 3-29-SBGP-113-2020, 3-29-SBGP-115-2020, 3-29-SBGP-118-2020, 3-29-SBGP-119-2020
2021 - 3-29-SBGP-114-2021
State Agency: Missouri Department of Transportation (MoDOT)
Type of Finding: Internal Control (Significant Deficiency)

The MoDOT needs to strengthen internal controls related to Federal Funding Accountability and Transparency Act (FFATA) reporting for the Airport Improvement Program (AIP). During state fiscal year 2021, the MoDOT disbursed approximately $40.4 million in first-tier subawards[24] to 98 subrecipients of the AIP. First-tier subaward payments accounted for 100 percent of the program's expenditures.

The FFATA requires comprehensive reporting for certain federal awards to promote transparency and accountability over the use of the federal funds. Rule 2 CFR Part 170, Appendix A, requires the MoDOT to report first-tier subawards of $30,000 or more to the FFATA Subaward Reporting System (FSRS) no later than the end of the month following the month in which the subaward was made. Information entered into the FSRS is publicly available at USASpending.gov.

On a monthly basis, MoDOT personnel filter grant tracking spreadsheet information to identify subawards that require FFATA reporting and enter the information into a FFATA excel spreadsheet. MoDOT procedures provide for a documented supervisory review of the FFATA spreadsheet prior to manual entry and upload of the information to the FSRS. Various subaward data is uploaded, including the entity name, award amount, and the date issued.

While some internal controls are in place, the MoDOT's formal written policies and procedures over the FFATA reporting process do not include procedures for compiling subaward data to be uploaded to the FSRS. In addition, documented supervisory reviews of information uploaded to the FSRS were not always performed. To test compliance with FFATA reporting requirements, we reviewed 20 AIP subawards totaling $9,098,841. The MoDOT did not perform a documented review of subaward information in FFATA spreadsheets prior to FSRS submission for 15 of 20 subawards (75 percent) reviewed. MoDOT personnel indicated the review process was interrupted due to staff turnover.

Without sufficiently detailed policies and procedures or adequate documented supervisory review over FFATA reporting, the MoDOT has less assurance the information included in the FFATA reporting for the AIP program is complete and accurate. Policies and procedures, at a minimum, should define the responsibilities of various program personnel and include procedures for ensuring the accuracy and completeness of all FFATA reporting elements. Rule 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal

[24]First-tier subawards are federal awards made to non-federal entities by the prime award recipient, in this case the MoDOT, on behalf of the federal awarding agency, the Department of Transportation.

award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." The *Standards for Internal Control in the Federal Government*, also known as the Green Book, provides that management should document responsibilities through policies. Paragraph 12.02 of the Green Book states, "management documents in policies the internal control responsibilities of the organization." Paragraph 12.04 states policies may be further defined through day-to-day procedures and "[m]anagement communicates the policies and procedures to personnel so that personnel can implement the control activities for their assigned responsibilities."

Recommendation

The MoDOT strengthen internal controls related to FFATA reporting to include formal written policies and procedures for compiling subaward data, and perform documented supervisory reviews of the information reported to the FSRS for the Airport Improvement Program.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

Additional State Auditor's Reports

The Missouri State Auditor's Office regularly issues audit reports on various programs, agencies, and divisions of the state. Audit reports may include issues related to the administration of federal programs. We reviewed the reports issued from May 2021 to May 2022 and the following report relates to a federal program.

Report Number	Report Name
2021-049	Missouri WIC Information Network System Data Security

All reports are available on the Missouri State Auditor's Office website: http://auditor.mo.gov.

State of Missouri - Single Audit
Summary Schedule of Prior Audit Findings
Year Ended June 30, 2021

The Uniform Guidance requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all audit findings included in the prior audit's Schedule of Findings and Questioned Costs. The schedule is also to report the status of findings included in the prior audit's Summary Schedule of Prior Audit Findings, except those that were corrected, no longer valid, or not warranting further action.

The Uniform Guidance requires the auditor to follow up on prior audit findings; perform procedures to assess the reasonableness of the Summary Schedule of Prior Audit Findings; and report, as a current year audit finding, when the auditor concludes the schedule materially misrepresents the status of any prior audit finding.

Director

SUMMARY SCHEDULE OF PRIOR YEAR AUDIT FINDINGS

The Uniform Guidance requires the auditee to prepare a Summary Schedule of Prior Audit Findings to report the status of all audit findings included in the prior audit's Schedule of Findings and Questioned Costs. The Schedule is also to report the status of findings included in the prior audit's Summary Schedule of Prior Audit Findings, except those that were corrected, no longer valid, or not warranting further action.

The attached documents are the Summary Schedule of Prior Audit Findings for the year ended June 30, 2021, and includes all findings from the audit for the Fiscal Year ended June 30, 2020, and certain findings from the audits for the Fiscal Years ended June 30, 2019, 2018, 2017, 2016, and 2015.

These documents were prepared by the applicable State agencies as noted with each prior year finding.

2020-001. Medicaid Nursing Facility Cost Report Audits

Federal Agency: Department of Health and Human Services
Federal Program: 93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD)
Similar Finding: 2019-006

The MHD did not ensure periodic audits of cost reports or other financial information of nursing facilities participating in the Medical Assistance Program (Medicaid) were conducted as required by the Missouri Medicaid State Plan (State Plan). No nursing facility cost report audits were completed during the year ended June 30, 2020, and our previous audit noted only a few cost report audits were performed in recent years. The MHD outsourced the collection and audits of nursing facility cost report data in May 2019; however, as of June 30, 2020, the contractor was still developing the necessary mechanisms and procedures to perform the audits and had not completed any audits. In addition, the MHD had not developed procedures to monitor and ensure the contractor collects and audits the nursing facility cost reports in accordance with the State Plan.

Recommendation:
The DSS through the MHD develop and implement procedures to monitor and ensure the contractor completes periodic audits of cost reports of nursing facilities in accordance with the State Plan.

Status of Findings:

The DSS disagrees that a plan for periodic audits and procedures, as well as a plan for monitoring the contractor, had not been developed. The DSS through MHD established the plan and procedures during SFY 2020. MHD worked closely with the contractor to develop the processes for the contractor to collect the cost reports electronically, create a data base for the nursing facility cost report data, and worked with the contractor in the development and approval of the audit guide. SFY 2020 was devoted to the development and implementation of the plan and processes for the contractor to conduct the periodic audits. MHD worked with the contractor throughout the development and implementation stages, including the review and approval of various processes and documents, therefore monitoring the contractor in SFY 2020.

Furthermore, all processes are in place and audits have been and are being completed in accordance with the agreed upon schedule with the contractor and therefore, no further corrective actions need to be taken. MHD has worked with the contractor to determine the appropriate cost reports to audit. MHD, through the contractor, does not expect that it will always audit all cost reports for a given cost report year, but may do a sample of approximately 20%-30% of the total cost reports.

Phone Number: 573-751-3737

2020-002. Medicaid National Correct Coding Initiative

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD)

The MHD had not fully implemented the Medicaid National Correct Coding Initiative (NCCI) edits in the Medicaid Management Information System (MMIS) as required by 42 USC 1396b(r). In addition, the MHD did not ensure confidentiality agreements containing elements required by the Medicaid NCCI Technical Guidance Manual to protect the confidentiality of the edit files were in place with the MMIS contractor.

Recommendation:
The DSS through the MHD strengthen controls over the NCCI requirements to ensure NCCI edits are fully implemented and reprocess claims paid when edits are not implemented timely, as required. In addition, the DSS should ensure confidentiality agreements contain all elements required by the Medicaid NCCI Technical Guidance Manual.

Status of Finding:

MHD staff are working together with MHD's fiscal agent to implement these changes to the MMIS system, with a planned implementation in 2022. The confidentiality agreement was updated in March 2021 with the NCCI language. The confidentiality agreement portion of this corrective action plan has been implemented and with no further updates needed.

2020-003. Medicaid and CHIP MAGI-Based Participant Eligibility

Federal Agency: Department of Health and Human Services
Federal Program: 93.767 Children's Health Insurance Program
93.778 Medical Assistance Program
State Agency: Department of Social Services (DSS) - MO HealthNet Division (MHD) and Family Support Division (FSD)
Questioned Costs: $1,928 (2020)
Similar Finding: 2019-005

The DSS did not have sufficient controls to ensure compliance with eligibility redetermination requirements of the Medical Assistance Program (Medicaid) and the Children's Health Insurance Program (CHIP) for participants whose eligibility is based on their Modified Adjusted Gross Income (MAGI), prior to temporary suspension of the requirements in March 2020 in response to the COVID-19 public health emergency. The DSS did not perform an eligibility redetermination for a participant as required.

Recommendation:
The DSS through the MHD and the FSD strengthen internal controls over MAGI-based participant eligibility to ensure eligibility redeterminations are completed as required, once the COVID-19 public health emergency has expired and the suspended requirements are reinstated. In addition, the DSS should review and correct the eligibility and payments for the ineligible participant identified in this finding.

Status of Findings:
The DSS has developed a monthly report to identify overdue reviews. Upon the expiration of the Public Health Emergency (PHE), the DSS will begin analyzing the reports to determine if additional policy or system updates are necessary and start the process of removing the previously-established system overrides on cases with an override to allow the system to identify the cases needing redeterminations. The DSS has taken actions to close the eligibility for the participant noted in the recommendation.

The questioned costs identified in this finding were $1,928, federal share. The total computable amount is $2,803 which is .00009% of the SFY 2020 Medicaid expenditures of approximately $3.1 billion for the MAGI population.

Furthermore, on November 16, 2021, the DSS received the Management Decision Letter from the Centers for Medicare and Medicaid Services (CMS) which indicates that the department is not to return the $1,928 federal share. Per CMS, "financial recoveries based on eligibility errors can only be pursued when identified by programs operating under CMS' Payment Error Rate Measurement (PERM) program, under section 1903(u) of the Social Security Act and regulations at 42 CFR Part 431, Subpart Q."

Contact Person: Heather Atkins
Phone Number: 573-751-4269

2020-004. Adoption Assistance Eligibility and Payments

Federal Agency: Department of Health and Human Services
Federal Program: 93.659 Adoption Assistance
State Agency: Department of Social Services (DSS) - Children's Division (CD) and Division of Finance and Administrative Services (DFAS)
Questioned Costs: $14,465 (2020)
Similar Findings: 2019-001 and 2018-004

The DSS made payments on behalf of ineligible children and did not have sufficient controls to prevent and/or detect certain unallowable payments. The CD made payments on behalf of some ineligible children with backdated subsidy agreements, and made an unallowable payment for an additional child.

Recommendation:
The DSS through the CD and the DFAS enforce policies and procedures regarding Adoption Assistance payments. The DSS should review and correct the eligibility and payments for the children identified in this finding.

Status of Findings:

The DSS previously addressed this finding, therefore DSS disagrees with the current recommendation. The Department implemented new processes in FY 2008 regarding backdating subsidy agreements as stated in prior audit responses. Additionally, as noted by the SAO, DHHS – Administration for Children and Families (ACF) has issued decision letters regarding this matter. The DSS continues to provide new worker and refresher trainings to adoption assistance staff regarding adoption assistance agreement requirements and quality assurance reviews to ensure service start dates of the agreement are as of or after the Director's signature on the agreement and ensuring start dates are on or prior to the date of adoption to assure eligibility for IV-E funds. The DSS continues to provide training to IV-E Benefit Program Specialists on reviewing adoption assistance payments to ensure they are allowable. Additionally, DSS has internal steps in place to ensure agreements have proper signatures and effective dates.

Regarding the payments for the children identified in this finding, fund recoupments were completed on February 9, 2021, which would have been reflected on the QE 03/31/2021 grant reports.

Phone Number: 816-234-5694

2020-005. Medicaid Developmental Disabilities Comprehensive Waiver Per Diem Rates

Federal Agency: Department of Health and Human Services
Federal Program: 93.778 Medical Assistance Program
State Agency: Department of Mental Health (DMH) - Division of Developmental Disabilities (DD)
Questioned Costs: $173,694 (2020)
Similar Findings: 2019-007, 2018-014, 2017-017, 2016-006, and 2015-015

The DD continued to pay historical per diem rates to providers for residential rehabilitation services provided to participants of the Home and Community Based Services, Developmental Disabilities Comprehensive Waiver (Comprehensive Waiver) program, but did not retain adequate documentation to support these rates. As a result, the DD could not demonstrate some amounts paid were allowable costs of the Comprehensive Waiver Program.

Recommendation:
The DMH through the DD continue to transition all per diem rates paid to providers for residential habilitation services provided under the Comprehensive Waiver program from historical rates to acuity-based rates and ensure documentation to support per diem rates is maintained as required.

Status of Findings:
The Department of Social Services (DSS) recently received a letter from The Centers for Medicare and Medicaid Services (CMS) addressing this finding. The Division of Developmental Disabilities (DD) anticipates CMS, through the DSS response letter, will suspend the disallowance for this finding, as it did with previous findings 2018-014, and 2019-007, pending completion of a corrective action plan that has been approved for the Division of Developmental Disabilities. The result of the corrective action plan will be to align rates paid to providers with the approved rate methodology for this service. The Division implemented Phase 1 of the corrective action plan on July 1, 2021 with General Assembly passage of funding to increase residential rates to 100% of the lower bound, based on the 2018 Mercer Rate Study.

Contact Person: Bryan Connell
Phone Number: (573) 751-8041

2020-006. CSFP Food Inventory

Federal Agency: United States Department of Agriculture (USDA)
Federal Program: 10.565 Commodity Supplemental Food Program
State Agency: Department of Health and Senior Services (DHSS) - Bureau of Community Food & Nutrition Assistance (BCFNA)

The BCFNA did not establish adequate controls to ensure compliance with federal requirements regarding accountability of USDA-donated foods (USDA Foods) distributed through the Commodity Supplemental Food Program (CSFP). The BCFNA did not perform annual inventories of food bank storage facilities.

Recommendation:
The DHSS through the BCFNA develop procedures to ensure annual physical inventories of USDA Foods at food bank storage facilities are performed, documented, and reconciled to food bank inventory records as required. In addition, discrepancies should be reported to the USDA-FNS as required.

Status of Finding:
All annual food bank inventories were completed in the summer and fall of 2021 with the exception of the St. Louis Area Food Bank which was completed November 18, 2021. CFNA has written procedures in the CSFP Manual for Food Banks regarding the annual warehouse inventory requirement for each food bank.

Contact Person: Gail Ponder
Phone Number: 573-526-4700

2020-007. DPS-OTAG Cooperative Agreement Final Accounting

Federal Agency: Department of Defense
Federal Program: 12.401 National Guard Military Operations and Maintenance (O&M) Projects
State Agency: Department of Public Safety (DPS) - Office of the Adjutant General (OTAG)

The DPS-OTAG did not have adequate controls and procedures to ensure a final accounting and/or a written request(s) for extension is filed for each National Guard Military O&M Projects program cooperative agreement (CA) appendix as required by National Guard Regulation (NGR) 5-1, Chapter 11-10.

Recommendation:
The DPS through the OTAG establish controls and procedures to ensure a final accounting of all funding and disbursements and/or a written request(s) for extension is filed for each CA appendix in compliance with National Guard regulations.

Status of Finding: Corrective action was taken.

Contact Person: Nick Humphrey
Phone Number: (573) 638-9574

FS2020-001. Department of Revenue Financial Reporting Controls

State Agency: Department of Revenue (DOR)

The DOR did not have adequate controls and procedures over financial reporting of motor vehicle sales tax accounts receivable. As a result, net accounts receivable and related liability balances submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the *Missouri Comprehensive Annual Financial Report* for the year ended June 30, 2020, were misstated.

Recommendation:
The DOR implement controls and procedures to prepare and submit accurate motor vehicle sales tax accounts receivable reports to the DOA.

Status of Finding:
Corrective actions were taken as stated in the State Auditor's Office Report 2021-17 titled State of Missouri Comprehensive Annual Financial Report on Internal Control, Compliance, and Other Matters Year Ended June 30, 2020.

Contact Person: Brittany Burns
Phone Number: (573) 751-5236

FS2020-002. Department of Social Services Financial Reporting Controls

State Agency: Department of Social Services (DSS)

The DSS - Division of Finance and Administrative Services (DFAS) did not have adequate controls and procedures over financial reporting of accounts payable. As a result, accounts payable data submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the *Missouri Comprehensive Annual Financial Report* for the year ended June 30, 2020, was misstated.

Recommendation:
The DSS through the DFAS implement controls and procedures to prepare and submit accurate accounts payable reports to the DOA.

Status of Finding:

DSS Accounts Payable has implemented controls and procedures to be able to submit accurate reports to DOA. Staff are being adequately trained and the reviews by the Accounts Payable Manager are more extensive prior to submission.

Contact Person: Tara Giordano
Phone Number: 573-751-7263

2019-004. CSBG Program Reporting

Federal Agency: Department of Health and Human Services
Federal Program: 93.569 Community Services Block Grant (CSBG)
State Agency: Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS)

The DSS did not have adequate procedures for preparation of the annual CSBG program federal financial report (SF-425), and as a result, amounts on the interim SF-425 report were misstated for the federal fiscal year ended September 30, 2018 (FFY18) grant. On the FFY18 grant interim SF-425 report, the DFAS reported unliquidated obligations as the total unspent FFY18 grant award of $11.6 million rather than the total unpaid FFY18 contract amounts of $3.8 million. By incorrectly reporting unliquidated obligations as the unspent FFY18 grant award, the DFAS overstated unliquidated obligations and understated the resulting unobligated balance at September 30, 2018, by about $7.8 million.

Recommendation:
The DSS through the DFAS establish controls and procedures to ensure CSBG program federal financial reports are accurately prepared in accordance with federal requirements. In addition, the DSS should review, revise, and resubmit previously submitted inaccurate federal reports.

Status of Finding:

DSS Response: The DSS disagrees with this finding. In accordance with the DSS' 12/21/2018 response letter to the Administration for Children and Families (ACF) CSBG Missouri State Assessment Draft Monitoring Report, the accounting methodology employed for drawing and disbursing the CSBG award funds to eligible entities was based on the "first-in, first-out" approach. While the DSS contended the accounting records and methodologies were in compliance with the general terms and conditions of the grant and 45 CFR 75.309(a)(b), it acknowledged ACF's request to discontinue the "first-in, first-out" approach. On 6/26/2019 following issuance of the ACF CSBG Missouri State Assessment Final Monitoring Report, the DSS again acknowledged ACF's request to discontinue use of the "first-in, first-out" accounting method and confirmed the work being completed with the Community Action Agencies and other internal actions to affect the change that was implemented on October 1, 2019. As such, the difference between records referenced in the finding is due to the accounting methodology employed for drawing and disbursing CSBG award funds to eligible entities during the referenced time period.

Additionally, on September 30, 2020, the DSS awarded a contract for an independent and objective audit to be conducted on the FFY 2016 CSBG grant award. This audit was conducted and the conclusion was DSS claim was accurate and supported.

Corrective action planned is as follows: Not applicable. The DSS disagrees with this finding and does not plan to resubmit the previously submitted FFY 18 federal reports.

Contact Person: Kristen Hulen
Phone Number: (573) 751-2426

2018-010. TANF Work Participation Sanctions

Federal Agency: Department of Health and Human Services
Federal Program: 93.558 Temporary Assistance for Needy Families (TANF)
State Agency: Department of Social Services (DSS) - Family Support Division (FSD)
Questioned Costs: $171

The FSD did not have adequate controls to ensure TANF program recipients who failed to meet work participation requirements were sanctioned. The FSD's procedures to monitor subrecipients responsible for referring TANF program recipients to the FSD for failure to meet work participation requirements were not sufficient; and as a result, a recipient was not sanctioned and continued to receive full benefits.

Recommendation:
The DSS through the FSD continue to review, strengthen, and enforce controls to ensure TANF program recipients who fail to meet work participation requirements are sanctioned as required, or referred to the FSD for exemption.

Status of Finding:
The DSS disagrees with this audit finding. Although it is important to continue to review, strengthen, and enforce controls regarding TANF work participation sanctions, the DSS asserts the amounts referenced in this finding are immaterial. Regarding the immateriality, there was an error rate of less than 2% regarding the costs under review and an error rate of 5% regarding the cases under review.

The DSS agrees that internal controls are imperative to reducing errors and has successfully implemented controls to ensure clients are timely sanctioned. While the TANF regulations do not provide a threshold or an acceptable error rate, this is below what is required in other programs.

CORRECTIVE ACTION PLANS

The State of Missouri's Office of Administration, Division of Accounting respectfully submits the following Corrective Action Plans for the findings related to the Statewide Single Audit for fiscal year ended June 30, 2021. Each Corrective Action Plan was prepared by the State agency noted.

State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2021

State Agency: Department of Revenue

Audit Finding Number: FS2021-001 - Department of Revenue Financial Reporting Controls

Name of the contact person responsible for corrective action: Brittany Burns

Completion date for corrective action: January 11, 2022

Corrective action planned is as follows:

The Department of Revenue took corrective action following the State Auditor's Office (SAO) notification of the finding with the sales and use tax accounts receivable reports reported to the Office of Administration - Division of Accounting (DOA). The corrective action included restating the sales and use tax accounts receivable reports for fiscal year ended June 30, 2021 and resubmitting the reports to the DOA, performing an evaluation of our current ACFR reporting process, and establishing a new two-step review process for all financial reports being submitted to the DOA and the SAO.

State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2021

State Agency: Missouri Department of Natural Resources

Audit Finding Number: FS2021-002 - Department of Natural Resources Capital Asset Controls

Name of the contact person responsible for corrective action: Janet Laughlin

Anticipated completion date for corrective action: December 2021

Corrective action planned is as follows:

Future period depreciation and the useful life were corrected for the capital assets in question. Procedures were implemented in December 2021 to monitor the depreciation of assets on a monthly basis.

State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2021

State Agency: Department of Social Services (DSS)

Audit Finding Number: FS2021-003 – Department of Social Services Financial Reporting Controls

Name of the contact person responsible for corrective action: Kristen Hulen

Anticipated completion date for corrective action: August 2022

Recommendation: The DSS through the DFAS strengthen controls and procedures to prepare and submit accurate accounts receivable reports to the DOA.

DSS Response: The DSS agrees with this finding. The DSS notes that the referenced Cash on Hand (COH) reports were actually reviewed for accuracy at a point in time prior to the completion of all federal grant reports. The COH report is due and completed by day 30 following the end of the quarter with an estimate of the Temporary Assistance Grant as the Temporary Assistance Grant report is due and completed on day 45 following the end of the quarter.

Corrective action planned is as follows:

The DSS will use the Temporary Assistance Grant federal financial report rather than the estimate on the COH report to ensure accurate accounts receivable reporting.

State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2021

State Agency: Department of Labor and Industrial Relations

Audit Finding Number: FS2021-004 - Department of Labor and Industrial Relations UInteract System Controls

Name of the contact person responsible for corrective action: Matthew Hankins

Anticipated completion date for corrective action: March 31, 2022

Corrective action planned is as follows:

The DOLIR agrees with the finding and has completed the analysis, identification and implementation of additional system controls to further prevent issuance of improper payments. Overpayments have been established accordingly and the DOLIR is actively pursuing recovery. Reporting has been developed and is being implemented in accordance with the confidentially communicated recommendations.

State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2021

State Agency: Missouri Department of Economic Development

Audit Finding Number: 2021-001 - DED Subrecipient Determination and Monitoring

Name of the contact person responsible for corrective action: Stacey Hirst, Financial Systems Manager, DED

Anticipated completion date for corrective action: June 30, 2022

Corrective action planned is as follows:

A. Subrecipient Classification:
DED agrees it inaccurately classified MHDC as a contractor when it initially entered into a memorandum of understanding with MHDC. DED subsequently determined MHDC to be a subrecipient. In response, DED is in the process of developing written procedures to be added to its Internal Control Plan to evaluate whether the partners of federal grant program funds are subrecipients or contractors.

B. Subrecipient Monitoring:
MHDC, created in 1969 by the General Assembly, is Missouri's housing finance agency and has successfully administered federal and state housing financial programs for more than 50 years. MHDC receives appropriations annually through DED's budget. MHDC commissioners include the Governor, Lieutenant Governor, State Treasurer, Attorney General, and six persons appointed by the Governor with advice and consent of the Senate. MHDC's executive director has been in that position for more than eight years. According to the Independent Auditor's Report for state fiscal years 2019 and 2020, MHDC's total assets were $2 billion and $2.2 billion, respectively. DED and MHDC signed a memorandum of understanding in February 2021, allowing MHDC to administer the program on behalf of the State of Missouri.

DED agrees that it did not perform a formal risk assessment for MHDC. DED has developed a risk assessment tool that will be used to determine whether subrecipients are low, moderate, or high risk. DED has also established a monitoring plan and developed monitoring tools to assist with identifying deficiencies and their remedies.

State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2021

State Agency: Missouri Department of Economic Development

Audit Finding Number: 2021-002 - DED SEFA

Name of the contact person responsible for corrective action: Stacey Hirst, Financial Systems Manager, DED

Anticipated completion date for corrective action: June 30, 2022

Corrective action planned is as follows:

As stated in response to Audit Finding Number 2021-001, DED Subrecipient Determination and Monitoring, DED agrees it inaccurately classified MHDC as a contractor when it initially entered into a memorandum of understanding with MHDC. DED submitted the corrected SEFA to the Office of Administration on October 27, 2021.

State of Missouri

Corrective Action Plan
Year Ended June 30, 2021

State Agency: Missouri Department of Economic Development

Audit Finding Number: 2021-003 - DED Performance and FFATA Reporting

Name of the contact person responsible for corrective action: Stacey Hirst, Financial Systems Manager, DED

Anticipated completion date for corrective action: June 30, 2022

Corrective action planned is as follows:

A. Performance Reporting:
As stated in response to Audit Finding Number 2021-001, DED Subrecipient Determination and Monitoring, DED agrees it inaccurately classified MHDC as a contractor when it initially entered into a memorandum of understanding with MHDC. DED has reviewed the reports submitted by MHDC; however, at the time of their submission, DED regarded MHDC as a contractor and did not believe the reports to be inaccurate. All of the other information in the reports was accurate, and DED will ensure that MHDC is correctly identified as a subrecipient in future reports.

B. Transparency Reporting:
As stated in response to Audit Finding Number 2021-001, DED Subrecipient Determination and Monitoring, DED agrees it inaccurately classified MHDC as a contractor when it initially entered into a memorandum of understanding with MHDC. Upon determining the FFATA reports were not being generated by the U.S. Treasury because MHDC was classified as a "contractor" and not a "subrecipient" in FSRS, DED reached out to the U.S. Treasury several times to make this correction in FSRS. Initially DED received no response. Upon a follow-up inquiry, DED received an email asking for a written request, which it submitted immediately. FSRS does not permit DED to make the change necessary to resolve this issue. DED requires Treasury's assistance in order to make the needed revision. DED will therefore continue reaching out to Treasury to resolve this misclassification.

Corrective Action Plan
Year Ended June 30, 2021

State Agency: Department of Social Services (DSS)

Audit Finding Number: 2021-004 – Medicaid National Correct Coding Initiative

Name of the contact persons responsible for corrective action: Kim Johnson and Nanci Nikodym

Anticipated completion date for corrective action: July 1, 2022 estimated

Recommendation: The DSS through the MHD strengthen controls over the NCCI requirements to ensure NCCI edits are fully implemented and reprocess claims paid when edits are not implemented timely, as required.

DSS Response: DSS agrees with the auditor's finding. The Corrective Action Plan includes planned actions to address this finding.

Corrective action planned is as follows:

The MO HealthNet Division (MHD) will fully implement National Correct Coding Initiative (NCCI) edits. To fully implement, NCCI edits must be updated on a quarterly basis. System work to complete this task is underway. Once system work is completed, the NCCI edits will be updated quarterly and claims will be reprocessed.

DSS must also follow the medically unlikely edits (MUE) provided by the Centers for Medicare & Medicaid Services (CMS). This is similar to the MHD maximum quantity. Currently, MHD partially follows MUEs. Some maximum quantities differ from the MUEs. System work to complete this task is underway.

MHD has been actively working through these projects required for full implementation of the NCCI edits since the initial finding in fiscal year 2020. DSS is on track to meet the previously provided completion date of July 1, 2022.

State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2021

State Agency: Department of Social Services (DSS) – MO HealthNet Division (MHD) and Family Support Division (FSD)

Audit Finding Number: 2021-005 – Medicaid and CHIP Participant Eligibility

Name of the contact person responsible for corrective action: Heather Atkins

Anticipated completion date for corrective action: N/A

Recommendation: The DSS through the MHD and the FSD review participants with manual overrides in the MEDES to ensure the participants remain eligible and do not meet one of the exceptions requiring removal from the Medicaid and the CHIP during the PHE. In addition, the DSS should review and correct the eligibility for the ineligible participant identified in this finding.

DSS Response: The DSS disagrees with the finding.

The DSS disagrees that there is a significant deficiency in internal controls. As noted in the finding, the SAO identified one ineligible participant who had previously moved out of state prior to the Public Health Emergency (PHE). This is 1.67% of the 60 MAGI cases reviewed and no payments were made for the individual, so there was no financial impact during the audit period. Additionally, the DSS has taken action to close the eligibility case noted in the recommendation.

Section 6008 of the Families First Coronavirus Response Act (FFCRA) requires states to provide continuous coverage, through the end of the month in which the PHE period ends, to all Medicaid beneficiaries who were enrolled in Medicaid on or after March 18, 2020, regardless of any changes in eligibility unless the individual voluntarily terminates eligibility, is deceased, or moves out of state. As required by the Centers for Medicaid and Medicare Services (CMS) during the PHE, the DSS has processes in place to terminate eligibility for individuals who are deceased, voluntarily request closure, or report they have moved out of state.

During the PHE, the DSS is not conducting reviews of cases that do not report current changes. In accordance with CMS guidance, Missouri expects to unwind from the PHE by completing annual reviews for all MO HealthNet cases over twelve months from the expiration of the PHE. At the time of the review of each

case, the DSS will appropriately end MO HealthNet eligibility for all individuals determined to no longer be eligible.

It should be noted that the SAO also reviewed 60 Aged, Blind, and Disabled (ABD) participants enrolled during the period of July 2020 to June 2021 and no errors were cited.

Corrective action planned is as follows:

Corrective Action Plan
Year Ended June 30, 2021

State Agency: Department of Social Services (DSS) – Children's Division (CD) and Division of Finance and Administrative Services (DFAS)

Audit Finding Number: 2021-006 – Foster Care Maintenance Payment Rates

Name of the contact person responsible for corrective action: Kristen Hulen

Anticipated completion date for corrective action: N/A

Recommendation: The DSS through the CD and the DFAS develop policies and procedures, including a reasonable and specific schedule, for periodic reviews of Foster Care program maintenance payments and rates, and implement the schedule for reviewing and determining the appropriateness of the payments and rates as required. Also, maintain documentation of all reviews performed.

DSS Response: The DSS disagrees with this finding. DSS has existing procedures to review the Foster Care maintenance payments and rates regularly as required. As DSS reviews the payments and rates yearly as a part of the budget preparation process for submission on October 1st, DSS believes this meets the definition of a reasonable and specific schedule. The DSS provided the SAO with documentation of the yearly budget meeting to demonstrate the review occurred.

The federal guidance does not specify the frequency or process for review. Although not required, DSS will begin to record the minutes from the portion of the meeting regarding review of maintenance payment going forward at the request of the SAO.

Corrective action planned is as follows:

The agency does not agree with the audit findings therefore a corrective action is not required.

State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2021

State Agency: Department of Social Services (DSS)

Audit Finding Number: 2021-007 – Child Care Corrective Payments

Name of the contact person responsible for corrective action: Kristen Hulen

Anticipated completion date for corrective action: N/A

Recommendation: The DSS and the DESE review, strengthen, and enforce policies and procedures regarding Child Care subsidy provider corrective payments. These procedures should include receipt and retention of payment resolution request forms and attendance records that sufficiently support the corrective payments. The DSS should review and correct the overpayments for the children identified in this finding.

DSS/DESE Response: As indicated in the SAO Finding, the child care subsidy program transitioned from DSS to DESE on August 28, 2021. The response below states "Lead Agency" when referring to the Departments, which is consistent with the Administration for Children and Families terminology. The Lead Agency partially agrees with this finding.

The Lead Agency disagrees with the statement *"documentation was not adequate to support corrective payments for 3 of 13 cases with corrective payments reviewed (23 percent)"*. The Lead Agency finds this immaterial as the SAO requested a sample of 65 children and related payments, and reviewed 60 children from the sample with a total of 1,139 payments. During the review, there were discrepancies on three (3) children in the review and seven (7) payments. Of the seven payments, two payments were for the same child where the child was signed in but not out. As the child was signed in, the child did receive childcare services for both dates in question. Three of the payments did not have a PRR available for review; this does not indicate the child did not receive care only that a document is unable to be located. Only two of the seven payments (1 out of the 3 "cases") had a true calculation error resulting in overpayment and provider recoupment. However even if all seven payments in question are considered an error, that would be a rate of only .6% of the total payments reviewed.

The Lead Agency partially agrees with the statement *"an increase of corrective payments during the year ended June 30, 2021, as a result of certain leniencies granted during the pandemic and possibly attributable to clients and providers gaining experience with CCBIS".* While the correction payments increased for SFY21 nearly 9,000 of these payments were made to providers for COVID related absences. These payments were necessary to ensure facilities could continue operations. In addition, the increase in corrective payments was due to the impact of the sign in and sign out processes during this time as many providers did not allow parents to come into the facilities to reduce the spread of the virus.

Corrective action planned is as follows:

The Lead Agency has already taken the necessary steps to mitigate substantial errors by implementing the CCBIS system and a process to electronically scan all PRRs into an internal online system. Therefore, the Lead Agency has determined additional corrective action is not applicable.

State Agency: Department of Social Services (DSS) – Division of Finance and Administrative Services (DFAS)

Audit Finding Number: 2021-008 – DSS FFATA Reporting

Name of contact person responsible for corrective action: Sheena Frazer

Anticipated completion date for corrective action: N/A

Recommendation: The DSS through the DFAS strengthen internal controls related to FFATA reporting by having supervisors maintain documentation of reviews performed of the information reported to the FSRS for the TANF, LIHEAP, and CVA programs. In addition, the DFAS should complete FFATA reporting in accordance with the applicable requirements.

DSS Response:
The DSS partially agrees with this finding. The DSS does not agree with the correlation of strong internal controls as it relates to FFATA reporting and supervisors maintaining documentation of the reviews performed. The DSS adheres to formalized procedures for FFATA reporting which includes managerial oversight and contends documented reviews may be preferred but are not required by regulation. The DSS had a transition of staff during the timeframe in question and the FSRS system does not permit users to access and compliance data or reports uploaded in the system by an alternate user. These circumstances allowed for exceptions identified. The DSS uploaded reports for all exception items to ensure the information is available in USA Spending.

Corrective action planned is as follows:

The DSS will continue to adhere to written procedures and maintain strong internal controls to maintain FFATA reporting compliance.

State of Missouri
Single Audit
Corrective Action Plan
Year Ended June 30, 2021

State Agency: Department of Health and Senior Services

Audit Finding Number: 2021-009 - ELC Program Subrecipient Reimbursements

Name of the contact responsible for corrective action: Jennifer Harrison, Senior Program Specialist

Anticipated completion date for corrective action: March 2024

Corrective action planned is as follows:

The program has requested the needed information to perform reviews as required by DHSS policy. DHSS plans to have the thirteen mentioned above completed by August 31, 2022 and complete the remainder of the contractors by March 2024. The program will utilize monitoring plans developed in accordance with Financial Policy 4.3 to ensure procedures are in place for review of detailed documentation supporting reimbursement requests.

DHSS does not agree with the audit finding and believes that corrective action is not required. Explanation and specific reasons are as follows:

As discussed and explained to the auditors the program is following department policy in regards to monitoring contractors, which is in line with 2CFR 200.332. When the auditors asked if we could obtain detailed documentation from the contractors, we explained that we would be following the department's procedures/policy in completing this task and at a later date would be requesting support documentation to perform our monitoring. The auditors did not raise any concern about our response at the time. Therefore, we felt the auditors were comfortable with the approach we outlined and were also comfortable with the department's policy in regards to contract monitoring. It also should be noted that due to the need for our staff and the contractors staff to respond to the COVID-19 pandemic, delaying reviews of the contractors provided the best utilization of all resources involved in responding to the pandemic. These delays do not appear to be outside the intent of the department's policy or 2CFR 200.332. Throughout the contract period the program reviewed status reports the contractors provided, and we have found no indication of any issues/concerns that we needed to address. It should also be noted that the contractors we are working with have ongoing relationships with the DHSS for various other contracts, and their knowledge combined with expertise/ability to handle various programmatic requirements are well established.

State Agency: Department of Health and Senior Services, Division of Senior and Disability Services

Audit Finding Number: 2021-012 - Medicaid SPPC Participant Choice Agreements

Name of the contact person Responsible for corrective action: Melanie Highland, Director, Division of Senior and Disability Services (DSDS)

Anticipated completion date for corrective action: Implemented

Corrective action planned is as follows:

The Division of Senior and Disability Services (DSDS) implemented a new Quality Improvement Quality Assurance Unit (Quality Unit) in 2020. As part of their improvement projects, the Quality Unit worked collaboratively with the Provider Review Team to develop a new standardized and comprehensive case record review tool. The new tool ensures consistency among the areas reviewed by each team member. A section of the tool focuses on completion of required forms including the Participant Choice Statement. The tool also serves as an education and remediation tool that is sent to provider reassessors in need of improvement.

Along with the new tool, the Quality Unit added a new position in March 2022 to focus on the consistency and accuracy of provider reassessor reviewers. Additionally, this new position serves as a liaison to provider reassessors by answering questions regarding reviews conducted and providing education as needed. A new supervisor case record review process was also implemented on May 1, 2022. Supervisors will analyze inconsistencies noted in the reviews completed by the Provider Review Team.

DSDS also implemented a new Provider Reassessor Contract in August 2021. This new contract focuses on enhanced quality measures and allows the division to take action if a provider reassessor is not performing in compliance with policy.

State Agency: Department of Health and Senior Services (DHSS)

Audit Finding Number: 2021-013 - Medicaid Facility Survey Timeliness

Name of the contact person responsible for corrective action: Shelly Williamson, Administrator, Section for Long Term Care Regulation, Division of Regulation and Licensure

Anticipated completion date for corrective action: December 31, 2022

Corrective action planned is as follows:

The Department of Health and Senior Services (DHSS) agrees with the auditor's finding.

Surveys were not conducted during the National Public State of Emergency per instructions from Center for Medicare & Medicaid Services (CMS). As DHSS returned to surveying activity, it found the gap between surveys has resulted in an increase in both the number of and the severity of violations in long term care facilities. These increases have caused greater time being devoted to investigating these violations and the attendant write up activity, including the Statement of Deficiency.

The Section for Long Term Care Regulation (SLCR) currently has procedures in place to ensure surveys and certifications are performed in accordance with the State Operations Manual. The reasons detailed above, coupled with staffing shortages, particularly in the Registered Nurse job classification, have contributed to the inability to complete these tasks consistently within the prescribed time frames. In order to meet these time frames, SLCR has adopted a more aggressive approach to registered nurse recruiting. This includes requesting increased funding from both federal and state sources to increase across the board salaries for Registered Nurses and other survey staff. As a short-term solution, DHSS intends to contract for short term hiring of surveyors to assist in the timely conduct of surveys and certifications.

This two-pronged approach will provide a temporary solution in order to build a base upon which DHSS can work towards the goal of rebuilding its survey team as fully staffed and adequately compensated.

Year Ended June 30, 2021

State Agency: Department of Mental Health

Audit Finding Number: 2021-014 - Medicaid Developmental Disabilities Comprehensive Waiver Per Diem Rates

Name of the contact person responsible for corrective action: Bryan Connell

Anticipated completion date for corrective action: N/A

Corrective action planned is as follows:

The agency does not agree with the audit finding and believes that a corrective action is not required. Explanation and specific reasons are as follows:

Although some rates are at a level established prior to the rate methodology change, as stated the last three years, all existing rates are now a factor of the rate study and therefore any other forms of documentation are irrelevant. The rate study serves as the documentation for all residential rates paid. The Division of Developmental Disabilities is under a corrective action plan (CAP) with the Centers for Medicare and Medicaid Services (CMS) that requires the division to standardize its Individualized Supported Living rates according to the current approved rate methodology (which is based on the rate study) by July 1 2024. As of July 1, 2021, all Group Home and Individualized Supported Living rates have been standardized to at least the floor of the approved rate methodology.

State Agency: Department of Elementary and Secondary Education (DESE)

Audit Finding Number: 2021-017 - DESE Special Education Cluster Subrecipient Monitoring

Name of the contact person responsible for corrective action: Shelley Woods, Chief Operations Officer

Anticipated completion date for corrective action: June 30, 2022

Corrective action planned is as follows:

DESE agrees with the auditor's finding and will ensure subrecipients of the Special Education Cluster are monitored in accordance with the Special Education Fiscal Monitoring Guide as stated below.

The Special Education Fiscal Monitoring Guide indicates that districts who attended an in-person Special Education finance training in the prior fiscal year will not receive an on-site monitoring visit even if the district is determined as high risk. Due to COVID-19, the Special Education Finance staff did not provide any in-person trainings, so data was utilized from attendance at trainings within the past three fiscal years.

The Special Education Fiscal Monitoring Guide will be updated to reflect scoring may include attendance within the past three fiscal years when in-person training is not provided in the prior fiscal year.

The Special Education monitoring staff were unable to close the Corrective Action Plan (CAP) for two districts due to: ePeGS system issues with the Final Expenditure Report (FER) after corrections were submitted (2019-20), revisions to the prior fiscal year (2018-19) FER that didn't align with submitted documentation, timely responses from the districts, and waiting on refunds from the districts for overpayments. The monitoring team do not close CAPs until all issues are resolved.

The District Communication Procedure will be updated to ensure districts are contacted on a weekly basis after a CAP is overdue in order to close CAPs in a timely manner.

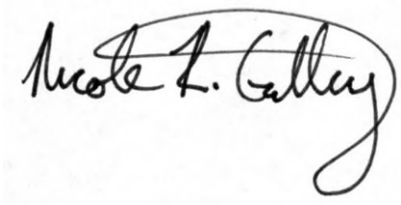
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 10 political subdivisions required to file a financial report by May 31, 2022, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in May 2022, after their filing deadline. The filing status for these 10 entities is presented in summary on page 3 and by individual entity in Appendix B to F.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 10 political subdivisions, other than cities, towns, and villages, with a fiscal year end of November 30, 2021. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 10 political subdivisions, 8 filed an annual financial report timely.

This report also includes the filing status for 10 political subdivisions, other than cities, towns, and villages, that filed their financial report in May 2022, after their filing deadline.

NICOLE GALLOWAY, CPA
Missouri State Auditor

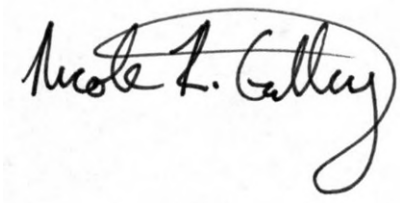
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by May 31, 2022, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 3 cities is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in May 2022, after their filing deadline. The filing status for these 17 cities and 3 villages is presented in summary on page 3 and by individual entity in Appendixes B to G.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 3 cities with a fiscal year end of November 30, 2021, whose financial report was due by May 31, 2022. Of the 3 municipalities, 3 filed the financial report timely. Of the 3 municipalities required to file an addendum, 2 filed timely. Of the 2 municipalities required to file a certification, 1 filed timely.

This report includes the filing status for 17 cities and 3 villages that filed at least one of the items (financial report, addendum, or certification) in May 2022, after their filing deadline. Of these municipalities, 6 filed an annual financial report, 16 filed an addendum, and 3 filed a certification.

CITIZENS SUMMARY

Findings in the audit of the Department of Commerce and Insurance - Insurance

Background

The Department of Commerce and Insurance - Insurance regulates the insurance industry in the state through enforcement of Chapters 325, 354, and 374 through 385, RSMo. The department regulates and licenses the insurance industry in the state, ensures the insurance industry is financially sound, trustworthy, competent, and responsive to the insurance-buying public; and ensures the insurance industry complies with the laws of the state.

Findings

The audit identified no significant deficiencies in internal controls, no significant noncompliance with legal provisions, and no significant deficiencies in management practices and procedures. No findings resulted from this audit.

In the areas audited, the overall performance of this entity was **Excellent**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Chlora Lindley Myers, Director
Department of Commerce and Insurance
Jefferson City, Missouri

We have audited certain operations of the Department of Commerce and Insurance - Insurance, as required by Section 374.250.2, RSMo and in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2021. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions of the Insurance Dedicated Fund, the Insurance Examiners' Fund, and taxes certified or collected under Sections 148.310 to 148.461, RSMo (foreign and domestic insurance premium taxes) and Sections 384.011 to 384.071, RSMo (surplus lines premium taxes).

2. Evaluate the department's compliance with certain legal provisions.

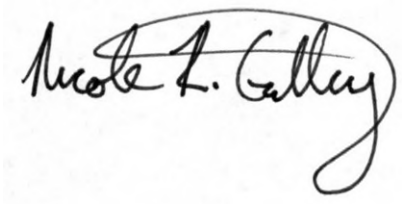
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions of the Insurance Dedicated Fund and Insurance Examiners' Fund.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) no significant deficiencies in management practices and procedures. No findings resulted from our audit of the Department of Commerce and Insurance - Insurance.



Nicole R. Galloway, CPA
State Auditor

Department of Commerce and Insurance - Insurance Organization and Statistical Information

The Missouri Division of Insurance was created by an act of the Missouri legislature in 1869. With the enactment of the state Omnibus Reorganization Act of 1974, the agency was transferred to the Department of Consumer Affairs, Regulation and Licensing. Constitutional Amendment No. 6 passed in August 1984, amended Missouri Constitution, Article IV, Section 36(a) to change the name of the Department of Consumer Affairs, Regulation and Licensing, to the Department of Economic Development, effective September 7, 1984. Constitutional Amendment No. 4 passed in August 1990, created a new Department of Insurance, effective July 1, 1991. Executive Order 06-04 consolidated the former Department of Insurance, the Division of Finance, the State Banking Board, the Division of Credit Unions, and the Division of Professional Registration into one department and changed the name of the department to the Missouri Department of Insurance, Financial Institutions, and Professional Registration (DIFP), effective August 28, 2006. Executive Order 19-02 transferred the Office of Public Counsel and the Public Service Commission to the DIFP and changed the name to the Department of Commerce and Insurance (DCI), effective August 28, 2019.

The DCI-Insurance operates under the authority of Chapter 374, RSMo. The management and control of the DCI is vested in a director who is nominated by the Governor with the advice and consent of the Senate. Chlora Lindley-Myers was appointed Director on March 6, 2017, and continues to serve in that capacity.

As of June 30, 2021, there were 566 domestic, 2,856 foreign, and 495 alien companies licensed and/or regulated by the DCI-Insurance in Missouri. Insurers with primary corporate headquarters located in a particular state are called domestic insurers. Foreign and alien insurers are those that are allowed to sell insurance in a state but have a primary legal residence in another state or country.

The DCI-Insurance regulates the insurance industry in the state through enforcement of Chapters 325, 354, and 374 through 385, RSMo. The department regulates and licenses the insurance industry in the state, ensures the insurance industry is financially sound, trustworthy, competent, and responsive to the insurance-buying public, and ensures the insurance industry complies with the laws of the state.

To fulfill these responsibilities, the department maintains a central office in Jefferson City and branch offices in St. Louis and Kansas City. The DCI-Insurance is organized into the following divisions: Insurance Consumer Affairs, Insurance Market Regulation, Insurance Company Regulation, and Administration. The DCI-Insurance had 177 employees as of June 30, 2021.

The following table provides a breakdown of the type of companies licensed and/or regulated by DCI-Insurance in the state.

Type of Company	Missouri Domicile	Foreign	Alien

Total	566	2,856	495

The DCI-Insurance administers transactions in the following funds:

The Insurance Examiner's Fund is authorized by Sections 374.160 and 374.162, RSMo, to receive all payments to the state by insurance companies for the costs incurred by the department in conducting examinations, valuations, or proceedings against such companies. Expenditures, authorized by appropriations, are to be used for the purpose of paying the compensation of insurance examiners and expenses directly related to examinations. Any

unexpended balances in this fund are perpetually maintained for the purposes of this fund.

The Insurance Dedicated Fund is authorized by Section 374.150, RSMo, to receive all fees due to the state under the provisions of the insurance laws. Appropriations from this fund are to be used solely for payment of expenditures incurred by the department in performing the duties required by law that are not paid for by another source of funds. Any unexpended balance in this fund is perpetually maintained for the purposes of this fund unless, and then only to the extent to which, the unencumbered balance at the close of the biennium year exceeds two times the total amount appropriated, paid, or transferred to the fund during such fiscal year.

The DCI-Insurance administers programs financed partially by federal funding placed in the Federal Missouri Department of Commerce and Insurance Fund. The department receives appropriations from this fund.

The DCI-Administrative Fund is used to account for department-wide expenditures for budget, legislative coordination, public information, accounting, human resources, and department management. The fund receives monies through a cost allocation to the divisions within the DCI.

The DCI-Insurance does not receive any appropriations from the General Revenue Fund and does not maintain any proprietary interest in that fund. Receipts collected by the Department of Revenue (DOR) on behalf of the department include the following:

- Premium Taxes (foreign and domestic): In accordance with various provisions of Chapter 148 RSMo, insurance companies licensed in the state are required to pay a 2 percent tax on direct premiums received during the calendar year. The department certifies to the DOR the amount of premium taxes due together with the amount of quarterly installments to be paid by the insurance companies. The DOR collects the premium taxes and deposits them into the General Revenue Fund. Some premium taxes deposited into the General Revenue Fund are not available for general revenue purposes. The provisions of Chapter 148, RSMo, restrict about 50 percent of such premium taxes for distribution to the various school districts in the state. In addition, beginning January 1, 2020 through December 31, 2020, Section 192.385.2, RSMo, further restricted 2.5 percent of domestic premium taxes deposited into the General Revenue Fund for distribution to the Senior Services Growth and Development Program Fund. Beginning January 1, 2021, Section 192.385.2 RSMo, provided for 5 percent of those taxes to be distributed to the fund.

- Domestic Stock Company Premium Taxes: In accordance with various provisions of Chapter 148, RSMo, every stock insurance company organized under the provisions of Sections 379.010 to 379.203, RSMo, are required to pay a 2 percent tax on direct premiums received during the year. The department certifies to the DOR the amount of premium taxes due together with the amount of quarterly installments to be paid by the domestic stock insurance companies. The DOR collects the domestic stock company premium taxes and deposits them into the Financial Institutions Tax Fund as county stock insurance taxes. In accordance with Section 148.330.4, RSMo, domestic stock premium taxes credited to the County Stock Insurance Fund are to be apportioned to the General Revenue Fund of the state, to the county treasurer and to the treasurer of the school district in which the principal office of the company paying the same is located. Apportionments are made based on the ratio of taxes levied by each respective entity. In addition, beginning January 1, 2020 through December 31, 2020, Section 192.385.2, RSMo, further restricted 2.5 percent of domestic stock company premium taxes deposited into the Financial Institutions Tax Fund for distribution to the Senior Services Growth and Development Program Fund. Beginning January 1, 2021, Section 192.385.2 RSMo, provided for 5 percent of those taxes to be distributed to the Senior Services Growth and Development Program Fund.

- Captive Insurance Premium Taxes: In accordance with Section 379.1326 RSMo, captive insurance companies licensed in the state are required to pay a premium tax at the rate of thirty-eight-hundredths of 1 percent on the first $20 million and two hundred eighty-five-thousandths of 1 percent on the next $20 million, and nineteen-hundredths of 1 percent on the next $20 million dollars, and seventy-two-thousandths of 1 percent on each dollar thereafter on the direct premiums received during the calendar year. The department certifies to the DOR the amount of premium taxes due to be paid annually by the captive insurance companies. The DOR collects the captive insurance premium taxes and deposits them into the General Revenue Fund. Some captive insurance premium taxes initially deposited into the General Revenue Fund are not available for general revenue purposes. The provisions of Chapter 379, RSMo, require 10 percent of these premium tax collections be deposited to the Insurance Dedicated Fund annually.

- Special Purpose Life Insurance Captive (SPLRC) Premium Taxes: In accordance with Section 379.1412, RSMo, each SPLRC is required to pay a premium tax at the rate of two hundred fourteen-thousandths of 1 percent on the first $20 million of assumed reinsurance premium, and one hundred forty-three-thousandths of 1 percent on the next $20 million, and forty-eight-thousandths of 1 percent on the next $20 million, and twenty-four-thousandths of 1 percent of each dollar thereafter on the direct

premiums received during the calendar year. The department certifies to the DOR the amount of premium taxes due to be paid annually by the SPLRC insurance companies. The DOR collects the SPLRC premium taxes and deposits them into the General Revenue Fund. Some SPLRC premium taxes initially deposited into the General Revenue Fund are not available for general revenue purposes. The provisions of Chapter 379, RSMo, require ten percent of these premium tax collections be deposited to the Insurance Dedicated Fund annually.

- Surplus Lines Premium Taxes: In accordance with the various provisions of Chapter 384, RSMo, surplus lines insurers are required to pay a 5 percent tax on net premiums for high risk insurance that is underwritten. The DOR collects the surplus lines premium taxes, interest, and penalties. The DOR deposits surplus lines premium taxes and interest into the General Revenue Fund and surplus lines penalties into the State School Moneys Fund.

Fines and forfeitures imposed and collected by the department under the Missouri Insurance Code are deposited into the State School Moneys Fund.

The DCI-Insurance is authorized to administer Missouri chartered insurance companies requiring rehabilitation or liquidation, commonly referred to as receiverships. Eight insurance companies were in receivership during the year ended June 30, 2021. Companies placed into receivership are under circuit court supervision with the judge appointing the Director as receiver. The Director may appoint a special deputy receiver or agent. Four of the companies did not have a special deputy receiver assigned to them. The department handled the day-to-day operations for one of these companies and contracted with vendors to act as agents for the other three. Four of the companies had a court-assigned special deputy receiver that directly supervised them. The contracted vendors and the special deputy receivers submit disbursements to DCI-Insurance for approval.

According to the National Association of Insurance Commissioners (NAIC), for calendar year 2020 Missouri ranked ninth nationally in the number of insurance companies incorporated in the state. The department's budget for fiscal year 2021 ranks twenty-fourth nationally.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Homestead Village, Missouri

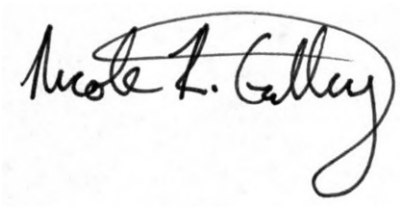
We have conducted follow-up work on certain audit report findings contained in Report No. 2021-119, *City of Homestead Village* (rated as Poor), issued in December 2021, pursuant to the Auditor's Follow-Up Team to Effect Recommendations (AFTER) program. The objectives of the AFTER program are to:

1. Identify audit report findings for which follow up is considered necessary, and inform the city about the follow-up review on those findings.

2. Identify and provide status information for each recommendation reviewed. The status of each recommendation reviewed will be one of the following:

    - Implemented: Auditee fully implemented the recommendation, either as described in the report or in a manner that resolved the underlying issue.
    - In Progress: Auditee has specific plans to begin, or has begun, to implement and intends to fully implement the recommendation.
    - Partially Implemented: Auditee implemented the recommendation in part, but is not making efforts to fully implement it.
    - Not Implemented: Auditee has not implemented the recommendation and has no specific plans to implement the recommendation.

As part of the AFTER work conducted, we reviewed documentation provided by the city and held discussions with the Mayor and City Clerk to verify the status of the recommendations. Documentation provided by the city included Board meeting minutes, financial records, and other pertinent documents. This report is a summary of the results of this follow-up work, which was substantially completed during May and June 2022.



Nicole R. Galloway, CPA
State Auditor

City of Homestead Village
Follow-Up Report on Audit Findings
Status of Findings

1. Missing Money

The audit identified at least $4,348 in recorded sewer receipts that were not deposited from January 1, 2018, to December 31, 2020. In addition, the former City Clerk falsified her 2019 customer ledger by indicating payments occurred on her account when they had not.

During this period, recorded cash receipts totaling at least $4,228 were not deposited and 7 sewer receipts paid by check or money order, totaling $280, were recorded in customer ledgers but could not be traced to a deposit. Four of these 7 receipts, totaling $160, were recorded by the former City Clerk as check payments in her customer ledger from June through November 2019, but were not deposited. After this was discovered, the former City Clerk made a payment in October 2020, for $888, representing payment on her sewer account from June 2019 through December 2020, and included late fees for delinquent months. This payment included the amounts due for the 4 months for which payments were recorded in her ledger but a payment was not actually made, totaling $160.

The other 3 receipts that we could not trace to a deposit, totaling $120, were recorded in customer ledgers in 2018, with no payment method documented. Each of these customers typically paid by either a check or money order. However, no check or money orders could be traced to a deposit and these payments were missing.

Recommendation

The Board of Aldermen work with law enforcement officials regarding prosecution of the missing money and take the necessary actions to seek restitution for amounts missing.

Status

In Progress

The City Clerk indicated the city has contacted county law enforcement officials and expressed its willingness to assist in any investigation or prosecution of the missing money. The city has filed a claim with its insurance company on the $4,000 surety bond covering the former City Clerk, and the Mayor believes the city will recoup the full value of the bond.

2. Accounting Controls and Procedures

Accounting controls and procedures needed improvement.

2.1 Segregation and oversight

The Board had not adequately segregated accounting duties or ensured a documented supervisory or independent review over various financial accounting functions was performed.

Recommendation

The Board of Aldermen segregate the accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.

Status

Partially Implemented

At each monthly Board meeting, the City Clerk provides the Board a copy of the bank statements, a listing of bills to be approved, and a delinquent sewer report. According to the City Clerk, bank reconciliations are reviewed by a designated Alderman selected to review the accounting records, although this review is not documented. No specific monitoring procedures have been developed for review of receipting and depositing functions.

2.2 Receipting, recording, and depositing

Receipt slips were not issued for all money received and a receipt ledger was not maintained to document all payments received, along with the date paid and method of payment. The former City Clerk did not deposit sewer receipts intact or timely, sewer payments were not accurately recorded in customer ledgers, and the method and date of payment were not always indicated. The composition of receipts were not reconciled to the composition of deposits. Checks and money orders received were not restrictively endorsed upon receipt and were only endorsed when deposits were prepared.

Recommendation

The Board of Aldermen ensure receipt slips are issued for all payments received and are posted to a receipt ledger, the method of payment is indicated for all payments received, deposits are made timely and intact, and payments received are posted to customer ledgers accurately. In addition, ensure the composition of receipts is reconciled to the composition of deposits and checks and money orders are restrictively endorsed immediately upon receipt.

Status

Partially Implemented

Receipt slips are now issued for all money received, and payments received are recorded in a manual receipt ledger and posted to a computerized utility accounting system. The method of payment is indicated on the receipt slips and receipt ledger and is also posted to the utility accounting system. Deposits are typically made weekly, but our review of April 2022 receipts and deposits showed receipts were not always deposited intact. One $40 check received on April 15, 2022, was not included in any of the three deposits made on April 20, 2022, but was deposited on May 6, 2022. In addition, a $40 check received in April 2022 was not accurately posted to a customer's subsidiary ledger in the utility accounting system. The Board has not yet implemented procedures to reconcile the composition of receipts to the composition of deposits. The Board has designated one of the Aldermen to perform a review of accounting records, including receipting and depositing records, but there is no documentation to show these reviews have begun. The City Clerk indicated checks and money orders are endorsed immediately upon receipt.

2.3 Bank reconciliations

The former City Clerk did not perform bank reconciliations for the city's 3 bank accounts. Check registers and the computerized accounting system were

not accurate or kept up to date for these accounts, and as a result, accurate bank reconciliations could not be performed.

Recommendation

The Board of Aldermen ensure monthly bank reconciliations are prepared for all bank accounts and book balances are maintained and accurate.

Status

Implemented

The City Clerk is performing monthly bank reconciliations for all bank accounts. The city uses its new computerized accounting system to maintain book balances and prepare the reconciliations. We reviewed the April 30, 2022, bank reconciliations for all bank accounts and did not identify any concerns.

3.1 Sewer System Controls and Procedures - Late penalties and shut off procedures

Late penalties were not always charged in accordance with city ordinance and water services were not disconnected (shut off) in accordance with city ordinance and provisions of a contract with the Public Water Supply District providing water to the city's residents. In addition, the date water services were subject to disconnection per the city ordinance was different than the disconnection date printed on the customer sewer bills.

Recommendation

The Board of Aldermen ensure late penalties are charged in accordance with city ordinance and update the delinquent date reported on utility statements to agree with city ordinance and ensure it is consistently enforced. In addition, a record of shut offs should be maintained, along with any relevant documentation.

Status

Partially Implemented

The utility accounting system now used by the city allows late penalties to be assessed automatically and the City Clerk indicated she monitors the system to ensure penalties are assessed appropriately. The utility statements have been updated to show the correct delinquent date. The City Clerk indicated a sewer account balance report is provided to the Board monthly that shows the balance of each account. We reviewed the sewer account balance report printed as of April 26, 2022. It documented accounts sent delinquent notices, accounts with payment plans, and recent payments by customers on payment plans. This report was discussed by the Board at its April 26, 2022, meeting and the planned action for each delinquent account was documented. According to the City Clerk, delinquent notices were sent by regular and certified mail to the customers identified in the April Board meeting. The City Clerk provided an update to the Board at its May 31, 2022, meeting regarding the status of delinquent accounts. Some customers did not respond to the delinquent notices and some contacted the City Clerk to discuss their accounts but did not make a payment. However, shut off requests were not made for

these customers and as of May 31, 2022, no shut offs have been requested by the city.

3.2 Sewer System Controls and Procedures - Delinquent accounts

The city did not perform monthly reconciliations of total billings, payments received, and amounts remaining unpaid for sewer services. Although delinquent amounts were recorded in customer ledgers, a summary of delinquent accounts was not prepared and provided to the Board for review.

At our request, a delinquent account listing was prepared as of June 15, 2020, and included both active and inactive accounts. Customer ledgers were not available to support some account balances listed and some ledgers were incomplete or inaccurate, and contained mathematical errors resulting in the actual delinquent balance being different than the balance indicated on the delinquent account listing. In addition, the delinquent account listing was incomplete.

Recommendation

The Board of Aldermen require monthly reconciliations be performed of the amounts billed to amounts collected and delinquent accounts, and review a listing of delinquent accounts periodically. In addition, ensure records of customer account activity and delinquent balances are complete, mathematically accurate, and reviewed by an independent person periodically.

Status

Partially Implemented

The Board has not developed procedures for a monthly reconciliation of the amounts billed to amounts collected and delinquent accounts, but the City Clerk indicated she is planning to perform this reconciliation in the future. The City Clerk indicated she provides a sewer account balance report to the Board monthly at its meetings that lists the current balance of all customer accounts. The Board upgraded to a computerized utility accounting system to help ensure customer account activity and delinquent balances are complete and mathematically accurate.

3.3 Sewer System Controls and Procedures - Partial payments

The city did not have an ordinance regarding partial payments by customers and while a formal policy addressing this topic was adopted by the Board, it was not always followed. In addition, partial payments were made without entering into a written payment agreement and without Board approval.

Recommendation

The Board of Aldermen establish an ordinance formalizing the policy and procedures allowing customers to make partial payments, and include obtaining a written payment agreement.

Status	**In Progress** The City Clerk indicated the Board is working on a draft of a comprehensive updated sewer ordinance that will include language to address partial payments and written pay agreements. This ordinance revision was discussed at the May Board meeting and the minutes indicate the Board will be receiving the ordinance for consideration in the near future.
4.1 Budgets, Published Financial Statements, and Financial Reporting - Budgets	City officials did not prepare annual budgets for city funds for the years ended December 31, 2020, 2019, and 2018, as required by state law.
Recommendation	The Board of Aldermen prepare annual budgets for all funds that contain all information required by state law.
Status	**Partially Implemented** The Board adopted a budget for the year ended December 31, 2022, but it was not approved until March 2022. The budget only contained one year of actual data for prior years for each fund, instead of two years, and did not clearly document the actual or estimated ending cash balances, but otherwise contained all information required by state law.
5. Disbursements	Disbursements procedures needed improvement.
5.1 Disbursement review and approval	The Board's review and approval of disbursements were not adequately documented. In addition, invoices were not signed or initialed by the Board.
Recommendation	The Board of Aldermen review and document approval of all disbursements and supporting documentation.
Status	**Implemented** A list of bills and invoices supporting each disbursement are presented to the Board monthly for review and approval. The City Clerk indicated invoices are typically reviewed by all Board members, and are initialed by the Mayor to indicate approval. Invoices reviewed to support the May 2022 list of bills were all initialed by the Mayor. We also noted approval of the list of bills is documented in the meeting minutes each month.
5.2 Contract labor and employee classifications	The city did not have contracts with the company that maintained the sewer system or the City Attorney and did not document the reasons for classifying the City Clerk as an independent contractor rather than an employee. The city did not prepare and file 1099 forms with the Internal Revenue Service (IRS)

for amounts paid to the City Attorney and the former City Clerk in 2019. The city did not withhold payroll and income taxes from payments made to the former City Clerk, totaling $6,200, during 2019.

Recommendation

The Board of Aldermen obtain and retain written contracts for services that specify the services to be rendered and the manner and amount of compensation to be paid and ensure 1099 forms are issued in accordance with IRS regulations. The Board should also ensure all persons hired by the city are properly classified as employees or contract employees in compliance with state and federal laws and regulations, and all compensation paid is subject to income and payroll taxes and properly reported.

Status

Partially Implemented

Written contracts with the current Sewer Operator and City Attorney were reviewed and included appropriate detail. The City Clerk provided copies of 1099 forms issued to the Sewer Operator and the City Clerk for 2021. No action has been taken yet by the Board regarding classifications of city contractors/employees and the City Clerk is still classified as a contractor.

6.1 Sunshine Law - Closed meetings

Open meeting minutes did not document the specific reasons or section of law allowing the meeting to be closed for any of the 8 closed meetings held between January 1, 2018, and December 31, 2019. In addition, several meeting notices and agendas did not include a statement that a closed meeting would be held or did not include the specific section of law allowing the closed meeting. Some topics discussed and voted on in closed meetings were not allowable under the Sunshine Law.

Recommendation

The Board of Aldermen ensure proper notification and agendas for public meetings are posted, specific reasons for closing a meeting are documented in the open minutes, and only topics allowed by state law are discussed in closed meetings.

Status

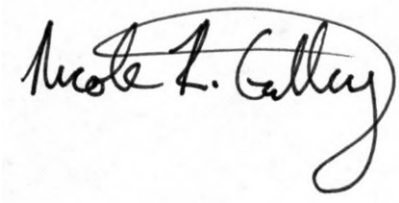
Implemented

The Board constructed a bulletin board in front of city hall to post notifications and agendas for public meetings. The City Clerk provided us tentative agendas for Board meetings held from January to April 2022. She indicated the agendas are posted in advance on the bulletin board as notification for upcoming meetings. No closed meetings were held by the Board from January through May 2022, but the City Clerk indicated if a closed meeting is necessary, the specific reason for closing a meeting will be documented with any motion to close a meeting and the discussion will be limited to allowable topics.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Webster County, Missouri

The Office of the State Auditor contracted for an audit of the Webster County's financial statements for the year ended December 31, 2020, through the state Office of Administration, Division of Purchasing and Materials Management. This audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of the audit, performed by Daniel Jones & Associates, Certified Public Accountants, is attached.



Nicole R. Galloway, CPA
State Auditor

July 2022
Report No. 2022-038

Nicole Galloway, CPA
Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Webster County

2020-001	The county should implement procedures to ensure that the Schedule of Expenditures of Federal Awards is prepared in accordance with federal requirements. The county should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the Schedule of Expenditures of Federal Awards.

To the County Commission
The County of Webster, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of the County of Webster ("County"), Missouri, which comprise cash and unencumbered cash for each fund as of December 31, 2020, and the related statements of cash receipts and disbursements and disbursements-budget and actual for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note I of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note I of the financial statements, the financial statements are prepared by the County on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of Missouri.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note I and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2020, or changes in net position or cash flows thereof for the year then ended.

Unmodified Opinions on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash of each fund of the County as of December 31, 2020, and their respective cash receipts and disbursements, and budgetary results for the year then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note I.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Webster's basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200*, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole on the basis of accounting described in Note I.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated June 22, 2022, on our consideration of the County of Webster's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County of Webster's internal control over financial reporting and compliance.

The accompanying notes to the financial statements are an integral part of this statement.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Webster, Missouri ("County"), which is governed by a three-member board of commissioners, was established in 1845 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: Assessor, County Clerk, Collector, Coroner, Treasurer, Circuit Clerk, Recorder of Deeds, Sheriff, Prosecuting Attorney and Public Administrator.

As discussed further in Note I, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

A. Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the County of Webster County, Missouri, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity under the regulatory basis of accounting.

B. Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a Statement of Receipts, Disbursements and Changes in Cash Balances – All Governmental Funds, a Statement of Receipts, Disbursements and Changes in Cash Balances – Budget and Actual – All Governmental Funds Regulatory Basis, and a Statement of Assets and Liabilities Arising from Cash Transactions – Custodial Funds - Regulatory Basis.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self-balancing accounts. The following fund types are used by the County:

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

B. Basis of Presentation (concluded)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Fiduciary Funds – Custodial funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Custodial funds are accounted for and reported similar to the governmental funds. Custodial funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other officeholders.

C. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America. Those principles require revenues to be recognized when they become available and measurable or when they are earned, and expenditures or expenses to be recognized when the related liabilities are incurred.

As a result of using this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, certificates of participation bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15th, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their office or department for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

   Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

7. Budgets are prepared and adopted on the cash basis of accounting.

   State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

E. Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar year 2020, for purposes of taxation, was:

	2020
Real Estate	$ 330,716,960
Personal Property	104,695,857
Railroad and Utilities	26,008,486
	$ 461,421,303

During 2020, the County Commission approved a $0.3031 tax levy per $100 of assessed valuation of tangible taxable property, for purposes of County taxation, as follows:

	2020
General Revenue Fund	$ 0.0000
Road and Bridge Fund	0.1797
Senior Service Board Fund	0.0477
Developmentally Disabled Board Fund	0.0757
	$ 0.3031

F. Cash Deposits and Investments

Deposits are stated at cost, which approximates market. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such deposits is allocated to each of the funds based on the funds' average daily cash balance. Cash equivalents may include repurchase agreements and any other instruments with an original maturity of ninety days or less. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the State of Missouri or other government bonds, or time certificates of deposit, provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in Note II.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (concluded)

G. Interfund Transactions

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables, if applicable, are eliminated due to reporting the financial statements on the regulatory basis of accounting.

Legally required transfers are reported as “transfers in” by the recipient fund and as “transfers out” by the disbursing fund.

II. CASH AND INVESTMENTS

The County maintains a cash investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed as "Cash" under each fund's caption. Deposits with maturities greater than three months are considered investments. In addition, cash is separately held by several of the County’s funds.

Deposits - Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. At December 31, 2020, the carrying amount of the County's deposits was $5,792,863.53, and the bank balances were $21,288,460.64. The total bank balances as of December 31, 2020, were insured through the Federal Deposit Insurance Corporation and securities set by the County’s financial institutions.

SUMMARY OF CARRYING VALUES

The carrying values of deposits shown above are included in the financial statements at December 31, 2020, as follows:

Included in the following fund financial statement captions:

Statements of Receipts, Disbursements and Changes in Cash Balances – Governmental Funds:	
Deposits and cash equivalents	$ 5,792,863.53
Total Deposits as of December 31, 2020	5,792,863.53
Statements of Assets and Liabilities Arising from Cash Transactions – Custodial Funds:	
Deposits and cash equivalents	17,459,257.20
Total Custodial Funds	17,459,257.20
Total Deposits and cash equivalents as of December 31, 2020	$ 23,252,120.73

II. CASH AND INVESTMENTS (concluded)

Custodial Credit Risk – Deposits

For a deposit, custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The County's investment policy does not include custodial credit risk requirements. The County's deposits were not exposed to custodial credit risk for the year ended December 31, 2020.

Custodial Credit Risk – Investments

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by the party who sold the security to the County or its agent but not in the government's name. The County does not have a policy for custodial credit risk relating to investments.

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Investment Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments (excluding investments issued by or explicitly guaranteed by the U.S. Government, investments in mutual funds, investments in external investment pools and investments in other pooled investments). The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities. The County's investments were not exposed to concentration of investment credit risk for the year ended December 31, 2020.

III. LONG-TERM DEBT

In August 2012, the County issued $60,000 in Neighborhood Improvement District Bonds, Series 2012, for the purpose of constructing certain road improvements within Sweetbriar Drive. The revenue bonds shall bear interest at the rate of 2.99%. Principal and interest payments are due annually on April 11 of each year.

	Balance at December 31, 2019	Amount Borrowed	Amount Repaid	Balance at December 31, 2020	Interest Paid During Year
NID Series 2012	$ 14,823.55	$ -	($4,941.17)	$ 9,882.38	$ 450.61
Totals	$ 14,823.55	$ -	($4,941.17)	$ 9,882.38	$ 450.61

III. LONG-TERM DEBT (continued)

The future payments for the long-term debt as of December 31, 2020, are as follows:

Year Ending December 31,	Interest	Principal	Total
2021	$ 299.59	$ 4,941.17	$ 5,240.76
2022	149.79	4,941.21	5,091.00
	$ 449.38	$ 9,882.38	$ 10,331.76

In November 2017, the County approved the issuance of certificates of participation, Series 2017, for the Law Enforcement Center project. The date of the certificates is December 6, 2017, for $9,970,000 with the first payment of interest only due June 1, 2018. The second payment of interest only was due in 2019 followed yearly with both principal and interest due. The certificates of participation expire in 2042.

As of December 31, 2020, the payment for the long-term debt of the County is as follows:

	Balance at December 31, 2019	Amount Borrowed	Amount Repaid	Balance at December 31, 2020	Interest Paid During Year
COP Series 2017	$ 9,970,000.00	$ -	($295,000.00)	$ 9,675,000.00	$ 329,762.50
Totals	$ 9,970,000.00	$ -	($295,000.00)	$ 9,675,000.00	$ 329,762.50

The future payments for the long-term debt as of December 31, 2020, are as follows:

Year Ending December 31,	Interest	Principal	Total
2021	$ 317,962.50	$ 305,000.00	$ 622,962.50
2022	305,762.50	315,000.00	620,762.50
2023	293,162.50	330,000.00	623,162.50
2024	279,962.50	340,000.00	619,962.50
2025	266,362.50	355,000.00	621,362.50
2026-2030	1,165,162.50	1,950,000.00	3,115,162.50
2031-2035	852,806.26	2,260,000.00	3,112,806.26
2036-2040	470,437.54	2,640,000.00	3,110,437.54
2041-2042	60,075.00	1,180,000.00	1,240,075.00
	$ 4,011,693.80	$ 9,675,000.00	$ 13,686,693.80

III. LONG-TERM DEBT (concluded)

On October 15, 2020, the County entered into a lease purchase agreement with KS State bank for the purchase of various equipment vehicles for $287,295.00. The lease requires five annual payments of $63,360.42 and matures October 15, 2025. The lease has an interest rate of 3.35%.

As of December 31, 2020, the payment for the long-term debt of the County is as follows:

	Balance at December 31, 2019	Amount Borrowed	Amount Repaid	Balance at December 31, 2020	Interest Paid During Year
Dump Trucks	$ -	$ 287,295.00	-	$ 287,295.00	$ -
Totals	$ -	$ 287,295.00	-	$ 287,295.00	$ -

The future payments for the long-term debt as of December 31, 2020, are as follows:

Year Ending December 31,	Interest	Principal	Total
2021	$ 9,624.38	$ 53,736.04	$ 63,360.42
2022	7,824.22	55,536.20	63,360.42
2023	5,963.76	57,396.66	63,360.42
2024	4,040.97	59,319.45	63,360.42
2025	2,053.77	61,306.65	63,360.42
	$ 29,507.10	$ 287,295.00	$ 316,802.10

IV. INTERFUND TRANSFERS

Transfers between funds for the year ended December 31, 2020, are as follows:

	2020	
	Transfers In	Transfers Out
General Revenue Fund	$ 1,263,843.66	$ 1,549,197.33
Road and Bridge Fund	12,312.03	-
Assessment Fund	22.98	-
PA Administrative Handling Costs Fund	35,398.00	3,509.92
Law Enforcement Sales Tax Fund	41,077.93	973,792.44
Justice Center Operations Fund	2,499,351.23	-
Election Services Fund	2,852.53	-
Community Crime Education & Prevention Fund	3,695.18	-
Tax Maintenance Fund	845.06	-
Cares Act Relief Fund	-	1,332,898.91
TOTAL	$ 3,859,398.60	$ 3,859,398.60

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

A. Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in Sections 50.1000-50.1300 of the Missouri Revised Statutes (RSMo). The Board of Directors consists of eleven members, nine of whom are county employee or retiree participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The Board of Directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multiple employer retirement system for each county in the state of Missouri, except any city not within a county (which excludes the City of St. Louis) and counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual

V. COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (concluded)

A. Plan Description (concluded)

performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the Local Government Employees Retirement System (LAGERS); and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system.

CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after 8 years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of 8 years of creditable service and who terminated employment after December 31, 1999, may retire with an early retirement benefit and receive a reduced allowance after attaining age 55. Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

The County Employees' Retirement Fund issues audited financial statements. Copies of these statements may be obtained from the Board of Directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

B. Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions (other than those made by the county) are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. Counties may elect to make all or a portion of the required 4% contribution on behalf of employees. Total contributions remitted to CERF for the year ended December 31, 2020, were $69,908.17.

VI. POST-EMPLOYMENT BENEFITS

The County does not provide post-employment benefits except as mandated by the Consolidated Omnibus Budget Reconciliation Act (COBRA). The requirements established by COBRA are fully funded by employees who elect coverage under the Act, and no direct costs are incurred by the County. The County had four COBRA participants at December 31, 2020 with $11,509.20 in premiums paid.

VII. PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County contributed $11,628.00 for the year ended December 31, 2020.

VIII. CLAIMS COMMITMENTS AND CONTINGENCIES

A. Litigation

The County is not involved in any pending litigation as of the audit report date.

B. Compensated Absences

The County provides employees with up to 160 hours of paid vacation based upon the number of years of continuous service. This ranges from getting 40 hours between the first year of service and second, 80 hours between three years and six years of service, 120 hours between the seventh and eleventh years of service, and 160 hours after 12 years of service. Vacation time must be used in the year it is earned. Upon termination from county employment, an employee is reimbursed for unused vacation for that year. Sick time is earned as 1.85 hours of sick leave for each complete pay period and allowed to be accumulated to 45 days. Upon termination, sick leave is payable at the rate of 25% of a max of 240 hours of total accumulated hours. These have not been subjected to auditing procedures.

C. Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in refunding of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial. No provision has been made in the accompanying financial statements for the potential refund of grant monies.

IX. RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters, and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. Insurance is obtained from commercial insurance companies. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

X. SUBSEQUENT EVENTS

There were no subsequent events to report as of the audit report date.

SUPPLEMENTARY SCHEDULES AND AUDITOR'S REPORT

STATE COMPLIANCE SECTION

SCHEDULE OF STATE FINDINGS

A. For the year ended December 31, 2020, the actual expenses exceed those budgeted in the Capital Improvement (Road) Fund, Senate Bill 40 Board Target Case Management Fund, and the Inmate Prisoner Detainee Security Fund.

Views of Responsible Officials: Of the funds cited, the Capital Improvement (Road) Fund and the Inmate Prisoner Detainee Security Fund are budgeted by the County. Greater emphasis will be given to review of all budgeted funds prior to the close of the budget year.

Contact Person Responsible for Corrective Action: Stan Whitehurst, County Clerk

Corrective Action Planned: The County currently reviews expenditures for its primary funds on a monthly basis. Greater emphasis will be given to review of all budgeted funds prior to the close of the budget year.

Anticipated Completion Date: 12/31/2022

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditor's Report

To the County Commission
The County of Webster, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the County of Webster ("County"), Missouri as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 22, 2022.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE

Independent Auditor's Report

To The County Commission
The County of Webster, Missouri

Report on Compliance for Each Major Federal Program

We have audited the County of Webster's ("County") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2020. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2020.

3510 JEFFCO BOULEVARD • SUITE 200 • ARNOLD, MISSOURI 63010-3999 • 636-464-1330 • FAX 636-464-3076

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance, which is required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2020-001. Our opinion on each major federal program is not modified with respect to this matter.

The County's response to the noncompliance finding identified in our audit is described in the accompanying Schedule of Findings and Questioned Costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a certain deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item 2020-001, that we consider to be a significant deficiency.

The County's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

The Notes to the Schedule of Expenditures of Federal Awards are an integral part of this Schedule.

NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the County of Webster under programs of the federal government for the year ended December 31, 2020. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County of Webster, it is not intended to and does not present the financial position, changes in net assets, or cash flows, of the County of Webster.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the regulatory basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3 – INDIRECT COST RATE

The County has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

NOTE 4 – SUB-RECIPIENTS

During the year ended December 31, 2020, the County provided $3,349,169.20 in federal awards to sub-recipients for the Coronavirus Relief Fund, Federal Assistance Listing Number 21.019.

NOTE 4 – DONATED PERSONAL PROTECTIVE EQUIPMENT (PPE) (UNAUDITED)

The County received approximately $100 in donated personal protective equipment for the year ended December 31, 2020.

THE COUNTY OF WEBSTER
MARSHFIELD, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2020

I. SUMMARY OF AUDITOR'S RESULTS

A. Financial Statements

1. Type of auditor's report issued: Unmodified – Regulatory Basis

2. Internal control over financial reporting:

a. Material weakness(es) identified? 2020 ___ Yes X No

b. Significant deficiency (ies) identified? 2020 ___ Yes X None Reported

3. Noncompliance material to financial statements noted? 2020 ___ Yes X No

B. Federal Awards

1. Internal control over major federal programs:

a. Material weakness(es) identified? 2020 ___ Yes X No

b. Significant deficiency (ies) identified? 2020 X Yes ___ None Reported

2. Type of auditor's report issued on compliance for major federal programs: 2020 - Unmodified

3. Any audit findings disclosed that are required to be reported in accordance with section 2 CFR 200.516(a)? 2020 X Yes ___ No

I. SUMMARY OF AUDITOR'S RESULTS (concluded)

B. Federal Awards (concluded)

4. Identification of major federal programs:

Year	Federal Assistance Listing Number	Name of Federal Program or Cluster
2020	21.019	COVID-19: Coronavirus Relief Fund

5. Dollar threshold used to distinguish between type A and type B programs: $ 750,000

6. Auditee qualified as low-risk auditee? 2020 ___ Yes X No

II. FINANCIAL STATEMENT FINDINGS

There were no financial statement findings noted for the year ended December 31, 2020.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2020-001

Federal Grantor:	All programs
Pass-Through Grantor:	All programs
Federal Assistance Listing Number:	All programs
Program Title:	All programs
Pass-Through Entity Identifying Number:	All programs
Award Year:	2020
Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: The Uniform Guidance requires the auditee to prepare the Schedule of Expenditures of Federal Awards in accordance with 2 CFR Section 200.502, Basis for Determining Federal Awards Expended.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards. Prior to these corrections, the Schedule of Expenditures of Federal Awards was prepared with incorrect financial information.

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards.

III. FEDERAL AWARD FINDINGS AND QUESTIONED COSTS (concluded)

2020-001 (concluded)

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards.

Recommendation: The County should implement procedures to ensure that the Schedule of Expenditures of Federal Awards is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the Schedule of Expenditures of Federal Awards.

Views of responsible officials: The County has made great strides in improving reporting of federal expenditures. Efforts will continue to ensure other county offices provide the information necessary to enable preparation of the most accurate SEFA possible.

THE COUNTY OF WEBSTER
MARSHFIELD, MISSOURI
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2020

I. PRIOR YEAR FINANCIAL STATEMENT FINDINGS

There were no financial statement findings noted for the year ended December 31, 2019.

II. PRIOR YEAR FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

There were no federal award findings or questioned costs noted for the year ended December 31, 2019.

Webster County, Missouri
Audit – Calendar Year 2020

Response / Corrective Action Plan – 1

State Finding: Page 35

… actual expenses exceed those budged in the Capital Improvement (Road) Fund, Senate Bill 40 Board Target Case Management Fund, and the Inmate Prisoner Detainee Security Fund. …

Response: Of the funds cited, the Capital Improvement (Road) Fund and the Inmate Prisoner Detainee Security Fund are budgeted by the County. Greater emphasis will be given to review of all budgeted funds prior to the close of the budget year.

Contact Person Responsible for Corrective Action: Stan Whitehurst, County Clerk

Corrective Action Planned: The County currently reviews expenditures for its primary funds on a monthly basis. Greater emphasis will be given to review of all budgeted funds prior to the close of the budget year.

Anticipated Completion Date: 12/31/2022

Response / Corrective Action Plan – 2

Federal Award Finding: Page 45

… the Schedule of Expenditures of Federal Awards was prepared with incorrect financial information.

Response: The County has made great strides in improving reporting of federal expenditures. Efforts will continue to ensure other county offices provide the information necessary to enable preparation of the most accurate SEFA possible.

Contact Person Responsible for Corrective Action: Stan Whitehurst, County Clerk

Corrective Action Planned: a) implementation of new financial accounting software that will better track expenses associated with federal programs; and b) going forward, the County Treasurer plans to refuse to deposit monies received by other offices until documentation is received which clarifies whether or not those funds are associated with a federal program.

Anticipated Completion Date: 12/31/2022

MISSOURI SOCIETY OF CPA'S
AMERICAN INSTITUTE OF CPA'S

June 22, 2022

To the Board of Commissioners
Webster County

In planning and performing our audit of the regulatory based financial statements of the County of Webster (County) as of and for the year ended December 31, 2020, in accordance with auditing standards generally accepted in the United States of America, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our comments concerning internal control and other significant matters are presented as follows:

I. Changes Impacting Governmental Organizations
II. Information Required by Professional Standards
III. Deficiencies Considered Significant

This communication is intended solely for the information and use of the County Commission, County Office Holders, the Missouri State Auditor and federal agencies and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,

Daniel Jones & Associates

I. CHANGES IMPACTING GOVERNMENTAL ORGANIZATIONS

GASB Statement No. 91, *Conduit Debt Obligations.* The primary objectives of this Statement are to provide a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement is effective for periods beginning after December 15, 2021.

GASB Statement No. 92, *Omnibus 2020.* The objectives of this Statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing practice issues that have been identified during implementation and application of certain GASB Statements. This Statement is effective for periods beginning after June 15, 2021.

GASB Statement No. 93, *Replacement of Interbank Offered Rates.* The objective of this Statement is to address those and other accounting and financial reporting implications that result from the replacement of an IBOR (Interbank Offered Rate). The removal of the London Interbank Offered Rate as an appropriate benchmark interest rate is effective for reporting periods ending after December 31, 2021. All other requirements of this Statement are effective for reporting periods beginning after June 15, 2021.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements.* The primary objective of this Statement is to improve financial reporting by addressing issues related to public-private and public-public partnership arrangements (PPPs). This Statement is effective for fiscal years beginning after June 15, 2022.

GASB Statement No. 96, *Subscription-Based Information Technology Arrangements.* This Statement provides guidance on the accounting and financial reporting for subscription-based information technology arrangements (SBITAs) for government end users (governments). This Statement is effective for reporting periods beginning after June 15, 2022.

GASB Statement No. 97, *Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans – An Amendment of GASB Statements No. 14 and No. 84, and a Supersession of GASB Statement No. 32.* The primary objectives of this Statement are to (1) increase consistency and comparability related to the reporting of fiduciary component units in circumstances in which a potential component unit does not have a governing board and the primary government performs the duties that a governing board typically would perform; (2) mitigate costs associated with the reporting of certain defined contribution pension plans, defined contribution other postemployment benefit (OPEB) plans, and employee benefit plans other than pension plans or OPEB plans (other employee benefit plans) as fiduciary component units in fiduciary fund financial statements; and (3) enhance the relevance, consistency, and comparability of the accounting and financial reporting for Internal Revenue Code (IRC) Section 457 deferred compensation plans (Section 457 plans) that meet the definition of a pension plan and for benefits provided through those plans. Certain requirements of this Statement are effective immediately, while other requirements are effective for periods beginning after June 15, 2021.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS

Our Responsibilities under U.S. Generally Accepted Auditing Standards, *Government Auditing Standards* and the Uniform Guidance

Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 22, 2022. Professional standards also require that we communicate to you the following information related to our audit.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (continued)

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the County are described in Note I to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during fiscal year 2020. We noted no transactions entered into by the County during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. Due to the County applying the regulatory basis of accounting, no estimates are made during the preparation of financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated June 22, 2022.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the County's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the County's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

II. INFORMATION REQUIRED BY PROFESSIONAL STANDARDS (concluded)

Other matters

We noted during our audit certain matters that were not considered to be significant deficiencies or material weaknesses. Several county offices have limited numbers of staff which inherently increases the risk of misstatement. Office holders appear to have mitigating controls in place to lower these risks to an acceptable level but the commission does need to be aware of these risks and offices need to remain vigilant in deterring the potential for erroneous or fraudulent activity.

During our testing of payroll, we noted that box 2 of the 941s are not calculated correctly; however, the W-2s that were tested were correct and the W-3 had the correct calculation or very close, with an immaterial difference.

III. DEFICIENCIES CONSIDERED SIGNIFICANT

STATE FINDING:

For the year ended December 31, 2020, the actual expenses exceed those budgeted in the Capital Improvement (Road) Fund, Senate Bill 40 Board Target Case Management Fund, and the Inmate Prisoner Detainee Security Fund.

Views of Responsible Officials: Of the funds cited, the Capital Improvement (Road) Fund and the Inmate Prisoner Detainee Security Fund are budgeted by the County. Greater emphasis will be given to review of all budgeted funds prior to the close of the budget year.

Corrective Action Planned: The County currently reviews expenditures for its primary funds on a monthly basis. Greater emphasis will be given to review of all budgeted funds prior to the close of the budget year.

Anticipated Completion Date: 12/31/2022

FEDERAL FINDING:

2020-001

Federal Grantor:	All programs
Pass-Through Grantor:	All programs
Federal Assistance Listing Number:	All programs
Program Title:	All programs
Pass-Through Entity Identifying Number:	All programs
Award Year:	2020
Type of Finding:	Other Information – Significant Deficiency

Information on the federal program: The Schedule of Expenditures of Federal Awards contained errors.

Criteria: The Uniform Guidance requires the auditee to prepare the Schedule of Expenditures of Federal Awards in accordance with 2 CFR Section 200.502, Basis for Determining Federal Awards Expended.

Condition: Through auditing procedures, we were able to correct and support the amounts reported on the Schedule of Expenditures of Federal Awards. Prior to these corrections, the Schedule of Expenditures of Federal Awards was prepared with incorrect financial information.

III. DEFICIENCIES CONSIDERED SIGNIFICANT (concluded)

FEDERAL FINDING (concluded):

Cause: Adequate emphasis was not placed on the preparation of the Schedule of Expenditures of Federal Awards.

Effect: No control monitoring or control over federal expenditures reporting, as required by *Governmental Accounting and Financial Reporting Standards*.

Questioned Costs: Not applicable

Context: During the audit of federal programs, we discovered a number of errors related to the Schedule of Expenditures of Federal Awards.

Recommendation: The County should implement procedures to ensure that the Schedule of Expenditures of Federal Awards is prepared in accordance with federal requirements. The County should continue in its efforts to establish an accounting system that will capture grant transactions in a manner sufficient to readily report the necessary information required on the Schedule of Expenditures of Federal Awards.

Views of responsible officials: The County has made great strides in improving reporting of federal expenditures. Efforts will continue to ensure other county offices provide the information necessary to enable preparation of the most accurate SEFA possible.

Corrective Action Planned: a) implementation of new financial accounting software that will better track expenses associated with federal programs; and b) going forward, the County Treasurer plans to refuse to deposit monies received by other offices until documentation is received which clarifies whether or not those funds are associated with a federal program.

CITIZENS SUMMARY

Findings in the audit of the Department of Revenue Sales and Use Tax

Timely Sales and Use Tax Discounts	As noted in multiple previous audit reports, state laws allowing retailers to retain a portion of sales and use taxes collected if they remit the taxes to the Department of Revenue (DOR) timely result in the state and local governments forgoing significant revenues. Missouri's timely sales and use tax discount is the most generous such discount in the nation, and significantly benefits the state's largest retailers. In addition, the DOR does not routinely report to the General Assembly the amount of timely sales and use tax discounts retained by businesses.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
and
Wayne Wallingford, Director
Department of Revenue
Jefferson City, Missouri

We have audited certain operations of the Department of Revenue, sales and use tax collections, as required by Section 32.087, RSMo, and in fulfillment of our duties under Chapter 29, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended June 30, 2021. The objectives of our audit were to:

1. Evaluate the department's internal controls over significant management and financial functions.

2. Evaluate the department's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

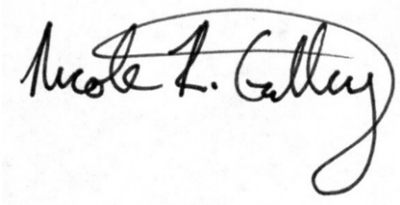
Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the department, as well as certain external parties; analyzing comparative data obtained from internal sources; and testing selected transactions. We reviewed sales and use tax collections and distributions, and performed sample testing of sales and use tax transactions using haphazard and judgment selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

Except as discussed in the following paragraph, we conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

Government Auditing Standards require us to obtain and report the views of responsible officials of the audited entity concerning the findings, conclusions, and recommendations included in the audit report. Due to the nature of this report, and due to the finding being legislative in nature, we were unable to obtain views of responsible officials for the findings, conclusions, and recommendations outlined in the Management Advisory Report. We obtained the views of responsible Department of Revenue officials and included them in the report.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the department's management and was not subjected to the procedures applied in our audit of the department.

For the areas audited, we identified (1) no significant deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our finding arising from our audit of the Department of Revenue, sales and use tax collections.



Nicole R. Galloway, CPA
State Auditor

Department of Revenue
Sales and Use Tax
Introduction

Background

The state's sales tax is imposed on the purchase price of tangible personal property or taxable services sold at retail. Use tax is imposed on the storage, use, or consumption of tangible personal property in this state. Cities and counties may impose a local sales and use tax. Special taxing districts (such as transportation development districts) may also impose additional sales taxes. State and local sales and use taxes are collected by the Department of Revenue (DOR). The DOR then distributes the local sales and use taxes to the applicable political subdivisions.

Sales and use tax receipts collected from businesses and motor vehicle sales tax receipts collected from businesses and individuals are deposited into various state and local funds. Marine and ATV sales and use tax collections are deposited into the same funds as state sales and use tax. Motor vehicle leasing sales tax collections are deposited into the same funds as motor vehicle sales tax.

For operating purposes, the DOR has been charged with the responsibility of administering transactions in the following funds and accounts.

State Funds

The State Treasurer, as fund custodian, and the Office of Administration provide administrative control over fund resources within the authority prescribed by the General Assembly for all state funds.

General Revenue Fund: This fund, authorized by Section 144.700, RSMo, receives collections from a general 3 percent state sales and use tax. State sales tax is collected pursuant to Sections 144.010 to 144.527, RSMo, and state use tax is collected pursuant to Sections 144.600 to 144.746, RSMo. Retail sales of food are not subject to the 3 percent tax as provided by Section 144.014, RSMo. This fund also receives payments from common carriers in interstate air transportation, as authorized by Section 144.807, RSMo. In addition, the General Revenue Fund pays all motor vehicle sales tax refunds and receives motor vehicle sales tax collections as reimbursement from other state funds for their applicable share of the refunds.

Aviation Trust Fund: This fund, authorized by Section 144.805, RSMo, receives collections from a sales and use tax on aviation jet fuel from common carriers. These taxes are paid as a result of exemptions to General Revenue sales tax. The exemptions are a result of direct-pay agreements between common carriers and the DOR.

Conservation Commission Fund: This fund, authorized by Section 254.020, RSMo, receives collections of the 0.125 percent state sales and use tax and motor vehicle sales tax provided for in Article IV, Section 43(a), Missouri Constitution.

State Highways and Transportation Department Fund: This fund received 75 percent of the collections from the 4 percent highway use tax during fiscal years 2013 and 2012. Under Section 144.020, RSMo, all motor vehicle transactions are now assessed a sales tax, which goes into the State Road Fund and the State Road Bond Fund. This fund continues to receive some residual highway use tax collections.

Parks Sales Tax Fund: This fund, authorized by Article IV, Section 47(a) and 47(b), Missouri Constitution, receives 50 percent of the collections from a 0.1 percent state sales and use tax and motor vehicle sales tax.

School District Trust Fund: This fund, authorized by Section 144.701, RSMo, receives collections from a 1 percent state sales and use tax pursuant to Section 144.701, RSMo. Retail sales of food are subject to a 1 percent tax to be deposited into this fund as provided by Section 144.014, RSMo. In addition, this fund receives 12.5 percent of collections from the 4 percent motor vehicles sales tax pursuant to Article IV, Section 30(b)(2), Missouri Constitution.

Soil and Water Sales Tax Fund: This fund, authorized by Article IV, Section 47(a) and 47(b), Missouri Constitution, receives 50 percent of the collections from a 0.1 percent state sales and use tax and motor vehicle sales tax.

State Road Bond Fund: This fund, authorized by Article IV, Section 30(b), Missouri Constitution, receives 37.5 percent of the collections from the 4 percent motor vehicle sales tax.

State Road Fund and State Transportation Fund: These funds, authorized by Article IV, Section 30(b), Missouri Constitution, receive 37.5 percent of the collections from the 4 percent motor vehicle sales tax, which is deposited 36.5 percent to the State Road Fund and 1 percent to the State Transportation Fund.

Local Funds

Sales and use tax collections for local funds are deposited into interest-bearing bank accounts until distributed. Subsequently 99 percent of the collections and earned interest are distributed to the various political subdivisions with the remaining 1 percent going to the General Revenue Fund for a collection fee, except for the Local Fuel Tax and Bond Trust Fund, which has no collection fee withheld from distributions to the fund. The DOR has sole responsibility for maintaining and disbursing fund resources for all local funds.

Local Fuel Tax and Bond Trust Fund: This fund, authorized by Article IV, Section 30(b), Missouri Constitution, receives 12.5 percent of the collections from the 4 percent motor vehicle sales tax. In addition, this fund receives collections from the motor fuel tax authorized by Section 142.803, RSMo.

Local Sales and Use Tax Trust Fund: This fund receives collections generated from local sales taxes imposed by local political subdivisions, as authorized by Chapters 66, 67, 70, 92, 94, 162, 190, 238, 321, and 644, RSMo. In addition, this fund receives collections generated by a use tax, authorized by Section 144.757, RSMo, based on the local sales tax in effect, upon all transactions subject to taxes imposed under Sections 144.600 to 144.745, RSMo, except as otherwise provided. Net taxes and interest are subsequently distributed to the cities and counties.

Custodial Accounts

The DOR has been charged with the responsibility of administering transactions in the custodial accounts. Except for the Sales Tax Bond Account held by the State Treasurer, actual custody of the resources in the accounts is with the DOR. Collections for the custodial accounts held by the DOR are deposited in interest-bearing bank accounts.

Compliance Clearing Account: Prior to the implementation of the tax integrated system, this account received tax payments from taxpayer audits. The DOR held these payments in this account pending final audit review. Depending on the results of the audit review, the DOR transferred the tax payment to the appropriate state and local funds or issued a refund to the taxpayer. The DOR now bills the taxpayer upon final audit review. This account was closed in December 2020.

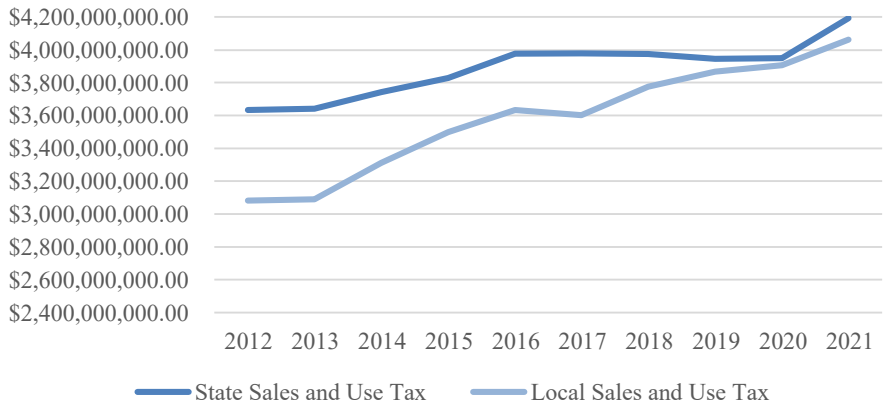
Motor Vehicle Clearing Account: This account receives collections from motor vehicle agent offices and the central office for various taxes and fees. These receipts are subsequently transferred to various state and local funds.

Sales Tax Bond Account: The DOR receives cash bonds posted by taxpayers as authorized by Section 144.087, RSMo. All bond collections are deposited in the General Revenue Fund and reported by the DOR in this account. Cash bonds and related interest are to be refunded to the taxpayer after 1 year if the taxpayer is determined to have satisfactory tax compliance and if the bond was posted before January 1, 1984. If the bond was posted on or after January 1, 1984, the Attorney General has determined that no interest should be refunded. In the event of uncollectible sales tax liabilities, the bonds and related interest, if any, are forfeited to the DOR. The department subsequently distributes the money to the state and the appropriate political subdivisions. Effective August 28, 2018, a bond is no longer required to obtain a retail sales license, but may be required of licensees in default of filing a return and paying taxes when due.

Historical sales and use tax trends and information

As shown in Figure 1, when adjusted for inflation, state and local sales and use tax collections have increased for most years between fiscal year 2012 and fiscal year 2021. Adjusted state sales and use tax collections increased from $3.63 billion to $4.19 billion (15 percent), while adjusted local sales and use tax collections increased from $3.08 billion to $4.06 billion (32 percent) during this time period.

Figure 1: State and local sales and use tax collections, 2012-2021, by fiscal year, adjusted for inflation



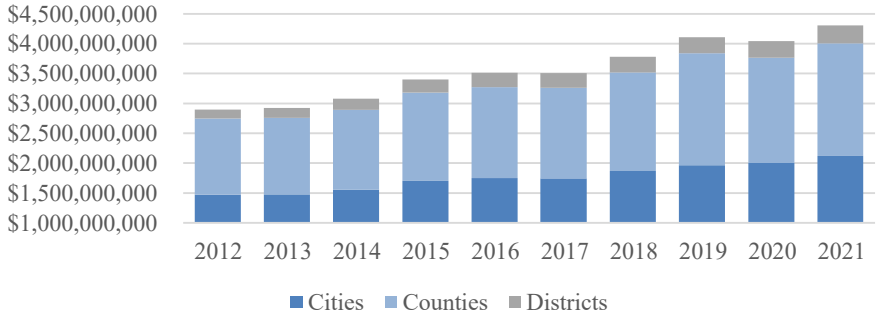
Source: DOR annual reports, SAO analysis of Consumer Price Index data from <https://fred.stlouisfed.org/series/CPIAUCSL>, and Appendix G

The state sales and use tax rate has remained at 4.225 percent during these 10 years. In comparison, local sales and use tax rates imposed by political subdivisions are continuously changing as local taxing jurisdictions impose new tax rates and others expire. In addition, the increasing number of districts has contributed to the total increase in local sales tax collections. The total number of districts increased from approximately 400 in fiscal year 2012 to approximately 730 in fiscal year 2021 (83 percent).

Local sales and use tax collections are distributed by the DOR to cities, counties, and districts. As shown in Figure 1, and as further illustrated in Figure 2, local sales and use tax collections and subsequent distributions have increased for most years between fiscal year 2012 and fiscal year 2021.[1]

[1] For more detail on local sales and use tax distribution amounts, see Appendix H.

Figure 2: Local sales and use tax distributions by political subdivision type, 2012-2021, by fiscal year



Source: DOR Records, see Appendix H

Timely Sales and Use Tax Discounts

As noted in multiple previous audit reports,[2] state laws allowing retailers to retain a portion of sales and use taxes collected if they remit the taxes to the Department of Revenue (DOR) timely result in the state and local governments forgoing significant revenues. Missouri's timely sales and use tax discount is the most generous such discount in the nation, and significantly benefits the state's largest retailers. In addition, the DOR does not routinely report to the General Assembly the amount of timely sales and use tax discounts retained by businesses.

Missouri's discount is the most generous in the nation

Missouri's timely sales and use tax discount is the most generous discount in the nation. Sections 144.140 and 144.710,[3] RSMo, allow businesses remitting sales and use taxes to retain 2 percent of taxes payable to the DOR if the business remits payments timely.[4] The total discount is not capped.

Other states may allow a higher percentage discount than Missouri's 2 percent, but these other states cap their discount, unlike Missouri. According to the Federation of Tax Administrators,[5] 26 other states offer similar vendor discounts; however, 17[6] of those states have established ceilings to limit the amount of discount and/or compensation retained by businesses. In addition, the other 9 states either have a lower discount rate than Missouri or only apply the highest discount rate to a limited dollar amount of sales tax collected (e.g., the first $3,000, then a lower rate applies).

As shown in Figure 3, the amount of sales and use tax revenues Missouri has foregone as a result of the timely discount retained by businesses has increased for most years between fiscal year 2012 and fiscal year 2021. State and local sales tax revenues of approximately $129 million and $141 million were collected from purchasers, but retained as discounts by businesses remitting sales and use taxes in fiscal years 2020 and 2021, respectively.

[2] Report No. 2021-074, *Sales and Use Tax*, issued in September 2021; Report No. 2020-041, *Sales and Use Tax*, issued in August 2020; Report No. 2019-067, *Sales and Use Tax*, issued in August 2019; Report No. 2017-113, *Cost of Tax Incentives and Exemptions,* issued in October 2017; Report No. 2015-080, *Sales and Use Tax*, issued in September 2015; and Report No. 2013-015, *Sales and Use Tax*, issued in February 2013.

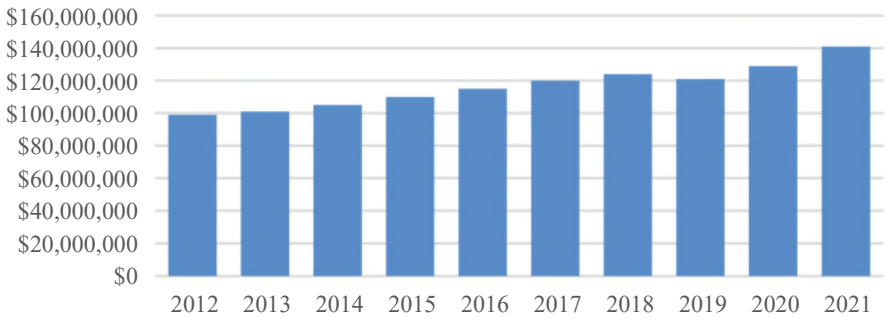
[3] Effective January 1, 2023, Section 144.710, RSMo, will be repealed and the discount authorized in that section will be added to Section 144.140, RSMo.

[4] Per Section 144.080, RSMo, if filing annually, applicable taxes are due by January 31 of the following year, if filing quarterly applicable taxes are due the last day of the month following the completed quarter, and if filing monthly applicable taxes are due the 20th of the following month. Per Section 144.081, RSMo, if filing quarter-monthly applicable taxes are due within 3 business days following the completed quarter-monthly period.

[5] "State Sales Tax Rates and Vendor Discounts (January 1, 2022)," <https://www.taxadmin.org/assets/docs/Research/Rates/vendors.pdf>, accessed on February 25, 2021.

[6] The Federation of Tax Administrators report did not list that Colorado established a cap, effective January 2020. We updated the number of states with established ceilings for this total.

Figure 3: Timely discount totals, 2012-2021, by fiscal year[7]



Source: DOR records

In fiscal year 2021, sales and use taxes comprised approximately 19 percent of Missouri's general revenue. With sales and use tax revenues being used to fund significant portions of state and local government budgets, such large discounts are significant.

Cap on discount would result in increased revenue

Changing state law to include a monthly cap on the amount of timely discounts eligible to be retained would significantly increase state and local revenues. For example, applying Arkansas's cap of $1,000 per month (the largest cap of contiguous states) to Missouri would have resulted in approximately $82.6 million in additional state and local sales tax revenue during fiscal year 2021, according to DOR data.

In fiscal year 2021, 2,241 sales tax filers received timely discounts in excess of $1,000 in at least one month during the year. Limiting those filers to Arkansas's $1,000 monthly cap would have resulted in an additional $42.3 million in state sales tax revenue and $40.3 million in local sales tax revenue.

Cap on discount would only impact the state's largest retailers

A monthly timely discount cap of $1,000 would not affect the majority of sales tax filers. Based on the state's average sales tax rate of 8.25 percent,[8] only businesses with monthly taxable sales of approximately $606,000 would have their timely discount capped. Retailers with less than $606,000 in monthly taxable sales would continue to receive the full 2 percent timely discount. In fiscal year 2021, the 50 largest sales tax collecting businesses retained approximately 61 percent of timely discounts exceeding $1,000, with

[7] Timely discount totals included in Figure 3 are as of June 30 for each fiscal year; however, adjustments can be made to these amounts in subsequent years for various reasons, such as amended tax returns or audited tax returns.

[8] Janelle Cammenga, "State and Local Sales Tax Rates, Midyear 2021," <https://files.taxfoundation.org/20210707180456/State-and-Local-Sales-Tax-Rates-Midyear-2021.pdf>, (July 2021), accessed on January 26, 2022. Calculation regarding the estimated monthly taxable sales was based on this estimated average sales tax rate.

the top 5 largest sales tax collecting businesses receiving a total of $24 million in discounts.

The state established the timely sales tax discount so businesses could recover a portion of their costs for compliance with state sales tax laws and to encourage timely remittance of sales and use taxes. With increased use of electronic systems to calculate and remit sales tax collections, it is not clear if the continued use of such a discount is necessary to achieve these objectives.[9] The current law allowing uncapped timely discounts results in the state and local governments providing a significant subsidy to the largest retailers in the state, and is more generous than any other state. Implementing a cap on timely discounts would result in additional revenues to the state and local governments without increasing taxes on consumers.

Other states have taken action to change timely discount laws

Some states are reviewing their timely discount structure and making changes to reduce the amount of sales and use tax revenues retained by businesses. For example, Oklahoma had a discount of 1 percent with a cap of $2,500 per month. However, as of July 2019, Oklahoma no longer offers a timely discount to sales tax filers. In addition, Colorado did not have a cap on the timely discount amount until January 2020, when a cap of $1,000 per filing period was established, and as of January 2022, Colorado's timely discount is no longer available to businesses whose taxable sales exceeded $1 million during the filing period.

Amounts of timely discounts are not routinely reported

The DOR is not required to report, and does not routinely report, the amount of timely discounts retained by businesses to the General Assembly, local governments impacted, or the general public. DOR officials have stated this data is provided upon request. This information could be useful to the General Assembly when making various budget decisions and ensuring the state and local policymakers and the general public are informed of the ongoing cost of these discounts.

Recommendation

The General Assembly evaluate the necessity of a timely sales tax discount. If such a discount is deemed necessary, consider the implementation of a monthly cap on the amount of discount retained, and also consider changes to current state laws to require the DOR annually report the reduction of state revenue related to the timely discount to the General Assembly, applicable political subdivisions, and to the general public.

Auditee's Response

Due to this recommendation being legislative in nature, no management response can be obtained. While the recommendation is not addressed to the DOR, department officials provided a written response. That response is included at Appendix A.

Department of Revenue
Sales and Use Tax
Organization and Statistical Information

The Department of Revenue (DOR) was created by Article IV, Section 12, Missouri Constitution as the central collection agency for state revenues. The Director of Revenue is appointed by the Governor, with the advice and consent of the Senate, and is responsible for all operations and policies. DOR responsibilities include:

1) Administering and collecting state taxes and fees, including sales and use tax and motor vehicle sales tax.
2) Collecting certain taxes and fees for local governments, including local sales and use tax.
3) Titling and licensing motor vehicles, trailers, and boats.
4) Licensing motor vehicle operators.

The DOR consists of 3 divisions, the General Counsel's office, and the Director's office.

Motor Vehicle and Driver Licensing Division: This division collects motor vehicle sales and use taxes and consists of 3 bureaus. (1) The Motor Vehicle Bureau issues titles and registers motor vehicles, trailers, all-terrain vehicles, manufactured homes, and marine craft. The bureau also issues registration certificates to motor vehicle and salvage dealers and leasing companies. (2) The Driver License Bureau issues, renews, suspends, revokes, and reinstates driver and nondriver licenses and driving permits. The bureau processes and maintains records relating to license issuance, traffic violation point assessments, failure to appear in court for traffic violations, and administers administrative alcohol and abuse and lose laws for alcohol/drug offenders. (3) The License Offices Bureau manages the operations of the contract license offices throughout the state. These local offices provide driver licensing and motor vehicle services and are operated by individuals or businesses approved through the state of Missouri bid process.

Taxation Division: This division consists of 5 bureaus that collect taxes and administer state tax law. (1) The Processing Bureau processes returns and payments for individual income, corporate income, property tax credit, sales, use, employer withholding, insurance, financial institution tax, and tire and lead-acid battery fees. This bureau also processes business tax registration applications, business tax account updates, MyTax portal communications, and handles tax-related cashiering functions. (2) The Income Tax Bureau administers individual, corporate, property tax credit, fiduciary, and partnership taxes. This bureau's functions include manually reviewing exceptions, processing incoming correspondence, returned refunds and returned mail, answering correspondence, responding to protests, and identification of non-filers and under-reporters for income tax. The bureau is also responsible for the administration of several tax credit programs and the redemption of tax credits claimed by individual and corporate taxpayers. This bureau also identifies and works to prevent individual income tax fraud.

(3) The Business Tax Bureau administers motor fuel, cigarette and other tobacco products, financial institutions, sales and use, and employer withholding taxes, along with multiple county, and tire and battery fees. Administrative functions include answering correspondence, processing sales and use tax exemptions, responding to protests, and distribution of funds to both state and local jurisdictions. (4) The Collections and Taxpayer Assistance Bureau provides tax assistance to individuals and businesses and follows procedures for unpaid tax liabilities. This bureau is comprised of 3 main areas of focus: call center, taxpayer assistance, and collections enforcement. The overall focus is account resolution and customer assistance. (5) The Field Compliance Bureau conducts audits to help educate Missouri businesses on their sales, consumer use, vendor use, employer withholding, and corporate income taxes, in addition to tire and battery fee obligations. The bureau also conducts audits of certain large sales and use tax refund claims. The Nexus section identifies taxpayers who have not complied with the business tax laws of Missouri and works with those taxpayers to become compliant. The Electronic Services section maintains the electronic interfaces between Missouri taxpayers, taxpayer representatives, and software developers. This section also handles the system administration functions for several internal and contracted applications.

Administration Division: This division provides administrative support to all other areas of the DOR and consists of 2 bureaus. (1) The Human Resources and Total Rewards Bureau is responsible for the DOR's personnel matters, process improvements, and training. (2) The Financial and General Services Bureau is responsible for all accounting, procurement, banking, and general service matters. This bureau also coordinates space and location needs, telecommunications, safety issues, maintenance, and improvement of the work environment within the DOR.

General Counsel's Office: This office ensures the DOR's compliance with law and internal policies, advises the director and divisions on legal matters relative to the DOR, and represents the DOR in courts and administrative tribunals. This office also consists of 2 investigation bureaus. (1) The Criminal Tax Investigation Bureau investigates and develops information leading to local prosecution of individuals and businesses suspected of violating state statutes related to sales, withholding, and income tax. (2) The Compliance and Investigation Bureau conducts investigations involving allegations of fraud relating to motor vehicle sales tax, titling and registration, odometer, and motor fuel sales tax as well as cigarette tax fraud, driver's license fraud and license plate fraud. The bureau also ensures the compliance of motor vehicle dealers, salvage businesses, and marine dealers with statutes and licensure regulations. In addition to external investigations, the bureau conducts internal audits and investigations of the DOR and contract license offices.

Director's Office: This office includes the Director, Chief Operating Officer, and key administrative staff responsible for the overall guidance and direction of the DOR. This office includes the Public Information Office, the Legislative Office, and the Communications Office. The Public Information Office develops and maintains positive media and public relations for the DOR. The Legislative Office serves as the DOR's liaison to the General Assembly. The office provides technical assistance, develops fiscal and revenue estimates on proposed legislation, and monitors the progress of bills through the Legislature. The Communications Office develops and maintains department forms, policies, and procedures. The office also maintains the public and internal website, as well as manages the DOR's social media accounts.

Kenneth J. Zellers served as Director of Revenue from October 2, 2019, through October 12, 2021. Joseph Plaggenberg was appointed Acting Director of Revenue on October 12, 2021. Wayne Wallingford was appointed Director of Revenue on December 29, 2021.

MICHAEL L. PARSON
GOVERNOR

WAYNE WALLINGFORD
DIRECTOR OF REVENUE

MISSOURI DEPARTMENT OF REVENUE
POST OFFICE BOX 311
JEFFERSON CITY, MISSOURI 65105-0311

Nicole Galloway, CPA
Missouri State Auditor
Missouri State Auditor's Office
PO Box 869
Jefferson City, MO 65102

Dear Ms. Galloway:

The Department of Revenue acknowledges the recommendation in the Missouri State Auditor's report on Sales and Use Tax.

Recommendation — The General Assembly evaluate the necessity of a timely sales tax discount. If such a discount is deemed necessary, consider the implementation of a monthly cap on the amount of discount retained, and also consider changes to current state laws to require the DOR annually report the reduction of state revenue related to the timely discount to the General Assembly, applicable political subdivisions, and to the general public.

DOR Response — If the General Assembly passes legislation that requires action, the Department of Revenue will incorporate those provisions into our processes and comply with any state laws regarding this recommendation.

If you have any questions, please contact me at 751-1115, or Joshua.Shope@dor.mo.gov.

Sincerely,

Wayne Wallingford

JKS/

2021 ANNUAL REPORT

Nicole Galloway, CPA

MISSOURI STATE AUDITOR'S OFFICE

2022-036

Letter from Nicole Galloway

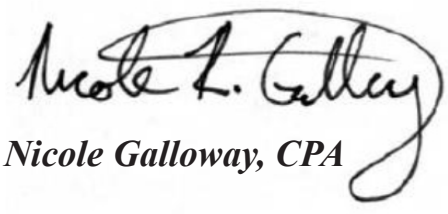
Throughout 2021, even as the COVID-19 pandemic continued to challenge Missouri families, my office remained focused on delivering results for taxpayers. The State Auditor's Office released 134 reports in 2021 that held government accountable to you — the citizens we serve.

As your State Auditor, I am dedicated to being a strong, independent watchdog for all Missourians. Taxpayers deserve to get the most from their government. And each day I bring my experience as a certified public accountant and certified fraud examiner to do just that.

Our audit reports reveal evidence of theft and abuse of taxpayer dollars, highlight inefficiencies in government and bring to light mismanagement affecting services to the public. These audits get results, including changes to operations, more effective processes, and, at times, criminal charges brought against public officials. Since 2015, our audits have identified more than $380 million in government waste, fraud, abuse and mismanagement.

My dedicated team works to hold government at all levels accountable, and I am proud of our integrity and professionalism. Approximately two-thirds of my staff have advanced degrees or certifications within the auditing field. My office contines to receive the highest ratings in independent reviews of audit processes and office operations. I've run my office under budget every year, returning more than $3.9 million to taxpayers in the process.

It is an honor to serve as your advocate and watchdog, ensuring government at all levels is efficient, effective and transparent..



Nicole Galloway, CPA

Duties of the State Auditor

The State Auditor's Office is Missouri's independent watchdog for taxpayers. The Missouri Constitution and state law give the State Auditor authority to audit:

- All state agencies, boards and commissions
- Public employee retirement systems
- Public employee healthcare systems
- The state court system
- School districts
- Counties that do not have a county auditor
- Other political subdivisions upon petition by the voters of those subdivisions

The State Auditor's Office works to ensure the proper use of public funds and to improve the efficiency and effectiveness of Missouri government.

Audits examine financial accountability; look for waste, abuse and fraud; and evaluate whether government organizations and programs are achieving their purposes and operating economically and efficiently. All audits are performed in accordance with generally accepted government auditing standards issued by the Comptroller General of the United States.

Since 2015, more than $380 million has been uncovered in government waste, fraud, abuse and mismanagement.

Audits and investigations have resulted in 80 criminal charges against public officials.

Fighting Fraud and Abuse

Auditor Galloway launched her Public Corruption and Fraud Division in 2019. The team - a dedicated group of attorneys, auditors and investigators - has a demonstrated history of working with local, state and federal law enforcement to pursue justice for taxpayers. Office led audits and investigations have resulted in 80 criminal charges against public officials.

St. Louis College Prep Charter School

In a case where a 2019 audit uncovered falsified records, the former executive director of a now-closed St. Louis charter school was ordered to pay more than $2.3 million in restitution to the state. Michael Malone, who pleaded guilty to federal fraud charges, also was sentenced to a year in prison. Auditor Galloway worked with the U.S. Attorney's Office and FBI on the criminal investigation.

City of Coffey

The former Coffey city clerk was sentenced to 15 years in prison and ordered to pay restitution in 2021. A 2018 audit found that Mary Lou Browning had stolen more than $60,000 from the small northwest Missouri town.

City of Forsyth

An audit of Forsyth in 2021 that gave a rating of "poor" found the city was missing more than $3,400 and that proper financial oversight was lacking. Auditor Galloway worked with local law enforcement, and a stealing charge was brought against former utility clerk Carla D. Combs in early 2022. A follow-up report found city officials had made progress after the audit to better protect public funds.

City of Center

Tracey Ray, the former city clerk of Center, was ordered to repay $314,889 to the Ralls County community after being sentenced on federal charges. Ray, who also was sentenced to 18 months in prison, used the stolen city funds to pay credit card bills and other personal expenses, Auditor Galloway had determined. A follow-up report found some progress made on the audit recommendations, but more was needed.

Plattsburg Special Road District

A whistleblower complaint to the Auditor's Office and a subsequent audit of the Plattsburg Special Road District in 2019 found that taxpayers were defrauded of more than $286,000. In 2021, former secretary/treasurer Ava Langner was ordered by a federal judge to repay more than $100,000 after she pleaded guilty to theft.

"Each time we uncover fraud and abuse, it puts others on notice that ***public corruption will not be tolerated***." -Nicole Galloway, CPA

Audits get results

City of Parma

Current city officials in the southeast town of Parma are implementing state audit recommendations, a follow-up report found. The 2020 audit, which discovered more than $115,000 was misappropriated, resulted in criminal charges against three former city officials. Auditor Galloway said the follow-up report showed the city was moving in the right direction to restore public trust.

City of Bel-Ridge

A 2020 audit of Bel-Ridge, in north St. Louis County, found several concerns with the city's financial condition, including poor budget work and inadequate monitoring of finances. When auditors returned for a follow-up review, they found city officials were implementing the audit's recommendations - the kind of response Auditor Galloway said made local government more effective for taxpayers.

City of Monroe City

After a citizen-initiated audit gave Monroe City a ranking of "poor," the State Auditor's Office conducted a follow-up review to measure progress on the audit recommendations. That report found while some recommendations were implemented, other concerns remained, including the paying of bonuses. Auditor Galloway urged city officials to move forward with all of the recommendations.

City of Edgar Springs

Serious concerns remained about progress on addressing the findings of an audit of the city of Edgar Springs in Phelps County. The follow-up report to the audit found city officials had not implemented most of the audit's recommendations, including preparing and maintaining accurate financial statements.

New Madrid County

A follow-up review of New Madrid County found that county officials had addressed many of the findings in a 2020 audit that gave a rating of "poor." The most significant finding of the audit was that unpaid payroll taxes had cost county taxpayers more than $50,000. The follow-up report determined that issue and others raised by the audit had been addressed.

PUBLIC CORRUPTION AND FRAUD DIVISION

HOW WE INVESTIGATE

We receive information on allegations of improper governmental activities

Information is submitted to the State Auditor's Whistleblower Hotline. Under state law, individuals who make a report may choose to remain anonymous until they affirmatively consent to having their identity disclosed.

We review the submitted information

Each year, we receive hundreds of tips from citizens, public employees and government officials. When information is received, it is reviewed for relevance and completeness. Whistleblowers who provide contact information may be contacted for additional information.

We investigate the allegations

When allegations of fraud or abuse are reported, the Public Corruption and Fraud Division will complete an initial review to determine if allegations are credible. If not deemed credible or if insufficient documentation is provided, the case is closed. If deemed credible, the next step of the investigation proceeds.

The State Auditor's Whistleblower Hotline is a resource to report potential wrongdoing.

Whistleblowers can submit information by emailing **moaudit@auditor.mo.gov**, calling toll-free **1-800-347-8597** or using an online reporting form at **auditor.mo.gov**

Ensuring Accountability

Keeping Missourians informed about how federal COVID-19 relief funding is used

Shortly after Missouri began receiving federal funding for COVID-19 relief in 2020, Auditor Galloway announced efforts to give taxpayers a detailed look at the state's distribution and spending of those funds. In 2021, her office continued to issue monthly reports detailing state government's use of billions of federal dollars, both for response efforts under the CARES Act and for recovery efforts under the more recent American Rescue Plan (ARP) Act.

In addition, a website from the State Auditor's Office (auditor.mo.gov/covidtracking) offers Missourians a detailed look at expenditures. The page tracks not only how much is received and expended in relief funds, it also lists which state and local government departments, vendors and expense categories are receiving the most funding.

Auditor again calls for review of corporate tax break

In an audit on the collection of sales and use tax by the Department of Revenue, Auditor Galloway again highlighted how Missouri retailers were able to keep $129 million in sales and use tax they collected just for paying their sales taxes on time.

The discount is the most generous in the nation and a benefit ordinary Missourians don't receive for paying their taxes on time. Auditor Galloway urged lawmakers to take a serious look at limiting what she said was a corporate giveaway that meant millions of dollars lost that could be used to fix roads, pay law enforcement, and improve the lives of Missourians.

In 2021, Missouri lawmakers did take action to allow for collecting sales tax on online purchases from out-of-state sellers. For several years, Auditor Galloway had urged legislators to close the loophole, which she said put Missouri retailers at a competitive disadvantage.

Ensuring that property tax rates comply with state law

After a Missouri appeals court ruling determined property taxes could not be set at rates above what voters approved, Auditor Galloway sent notices to almost 600 taxing authorities to inform them that their tax rates needed to be changed. Local government entities are solely responsible for setting their tax rates; those rates are reviewed by the State Auditor's Office to determine if the rates comply with state law.

Setting an Example

Commitment to transparency

In 2020, Auditor Galloway announced that Sunshine Law requests submitted to her office, and responses to those requests, would be publicly available online and free of charge. More than 200,000 pages of responsive documents and materials can be viewed online at auditor.mo.gov/SunshineLaw/Postings.

Sunshine Law requests made to the State Auditor's Office and corresponding responses can be reviewed by year from August 2015 to the present. New requests and responses are posted on a rolling basis. This practice is the first of its kind by a Missouri statewide elected official.

Work life balance

Throughout her time as a statewide official, Auditor Galloway has advocated for family-friendly policies. In 2017, she made changes to her own office leave policies to allow for bonding time after the birth or adoption of a child. Additionally, her office was a leader in ensuring domestic violence is a covered leave category under existing workplace protections. In 2020, Auditor Galloway expanded these policies to allow her employees to take up to 12 weeks of paid parental leave after the birth or adoption of a child. Auditor Galloway then issued a letter to the Governor calling on him to enact these updated family-friendly policies, which mirror those signed into law in 2020 for federal employees.

"Mothers and fathers should not have to choose between their jobs and having meaningful time with their new or expanding families."

-Nicole Galloway, CPA

Good stewardship of taxpayer dollars

At the end of Fiscal Year 2021, Auditor Galloway announced she returned $1.6 million from her office's budget. At the end of the last seven fiscal years, she returned a total of more than $3.9 million from her budget to the General Revenue Fund. This is possible because of the efforts by Auditor Galloway to ensure high standards of good stewardship to the office's operations.

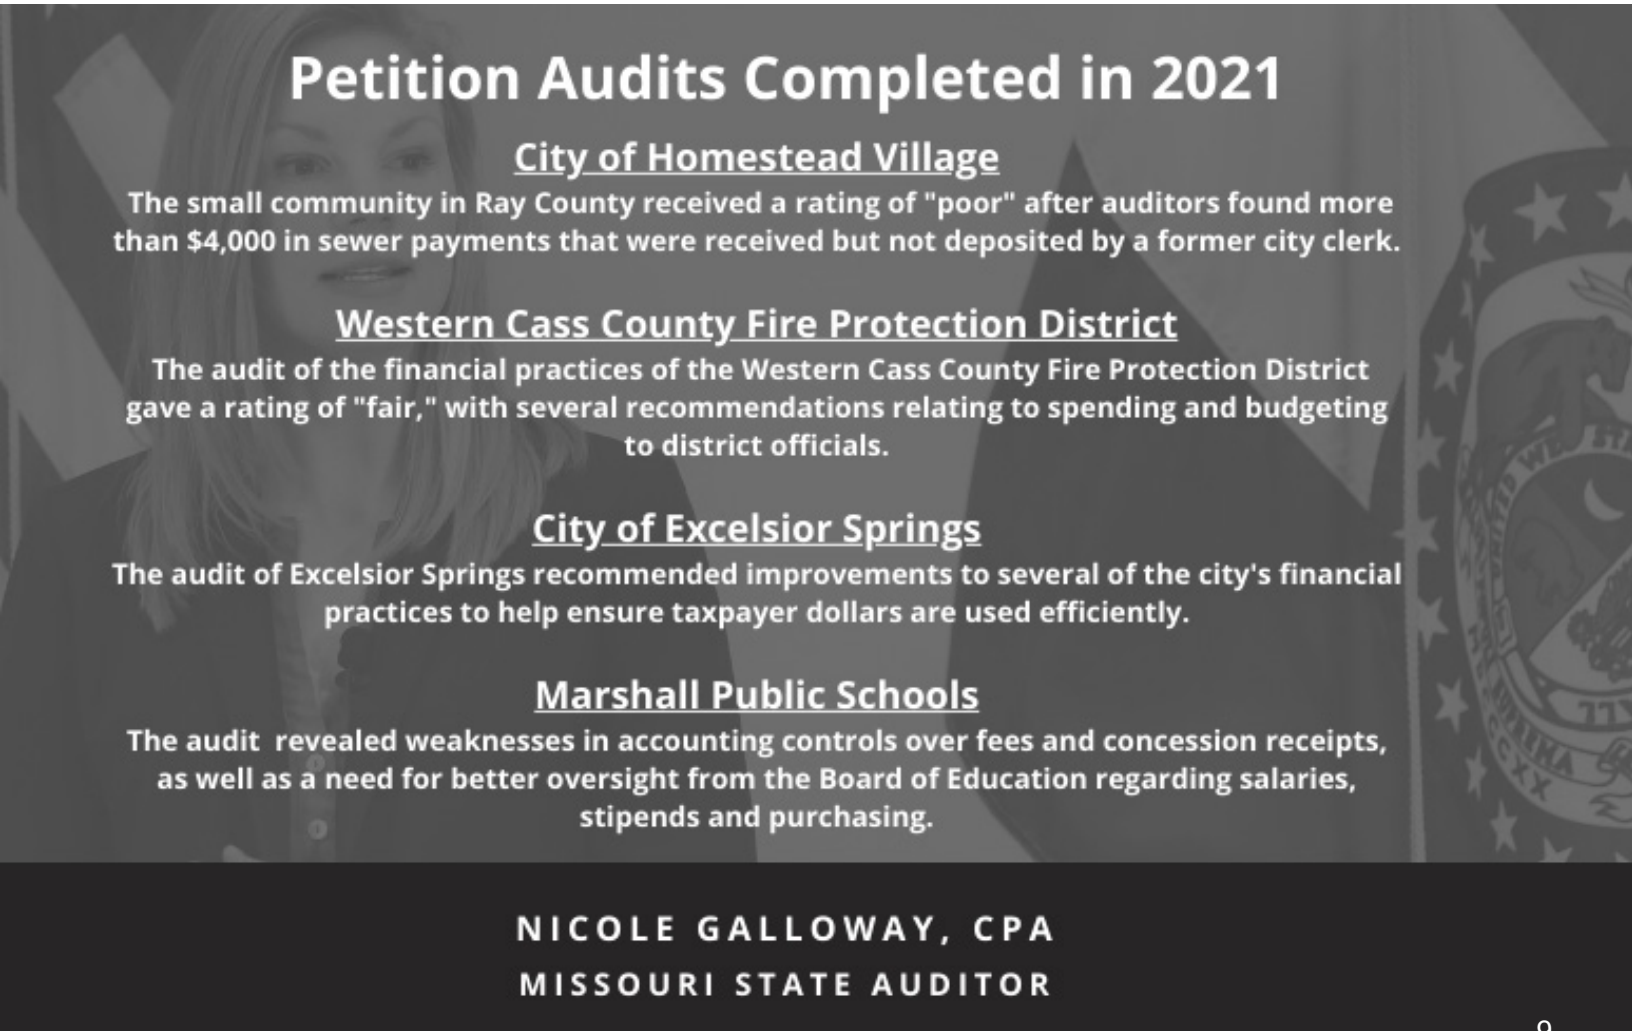
Delivering for Taxpayers

Under Missouri law, the State Auditor`s office may be called on to audit any political subdivision of the state if enough qualified voters of that political subdivision request the audit.

Anyone can start the process to initiate a petition audit by submitting a Petition Audit Request form to the State Auditor's Office.

"The ability for taxpayers to petition the State Auditor for a comprehensive review of their local government is a **powerful tool** for citizens to demand **accountability** and **transparancy**."

-Nicole Galloway, CPA



Thorough, Comprehensive Reviews

Jackson County

In early 2021, Auditor Galloway released the final report on Jackson County, the second-most populous county in Missouri. The review of the county assessment department found several problems that the Auditor's Office recommended be addressed to ensure better oversight of the assessment process. County officials indicated they were moving forward with the recommendations. Auditor Galloway released four reports on county operations in 2020 that also gave recommendations to ensure transparency and more effective use of taxpayer dollars. The audits of Jackson County government finances was initiated by a request from the county legislature.

Greene County

The final audit in the review of Greene County found that taxpayers paid more than $25,000 in legal invoices related to an ethics complaint; the invoices were sent to the personal address of the now-former presiding commissioner. The same commissioner also used his official county e-mail to encourage other county employees to engage in campaign activity around a sales tax measure.

In December 2017, Auditor Galloway asked the county commission to authorize an audit into whistleblower allegations that public resources were misused to advocate for the ballot measure. The then-commission did not grant the request, and it was only after two new commissioners were elected that the audit could begin in 2019. Auditor Galloway thanked the current commissioners for their cooperation.

City of St. Louis

The City of St. Louis Board of Aldermen requested a comprehensive audit of the City of St. Louis. In 2021, Auditor Galloway issued three reports on offices and city departments. These reports covered the Office of License Collector, Sheriff, and Department of Human Services.

These reports followed the issuance of eight audits of city operations in 2020, plus a report on the city's use of Tax Increment Financing (TIF) for redevelopment projects. The comprehensive audit of the city of St. Louis government remains ongoing and reports will be issued on all city departments and elected offices.

Clay County

An audit of Clay County government was initiated after a citizen petition was submitted to the State Auditor's Office. The Clay County Commission filed a lawsuit to prevent the Auditor from conducting the citizen-mandated audit, but a court ruling dismissed the lawsuit and confirmed the Auditor's legal authority. Throughout 2021, the office worked to complete the audit of the operations of the former Clay County Comission, with the final report issued in early 2022.

In 2020, the State Auditor's Office released reports on the Clay County clerk, public administrator and recorder of deeds. In 2021, the office released the report on the Clay County Sheriff. In February 2022, all audit work on the comprehensive petition audit of Clay County government was completed with the release of the report on the Clay County Commission.

2021 by THE NUMBERS

134 REPORTS ISSUED

164 BONDS REGISTERED

COVID-19 RESPONSE

Monthly reports detailed state government's use of federal stimulus and recovery dollars intended for COVID-19 response. **Through the end of 2021, the state of Missouri had received $7.1 billion and spent $5.38 billion** of that assistance

MANAGEMENT AND SPENDING OF FEDERAL FUNDS

This year's annual Statewide Single Audit reviewed: **$17 billion in federal funds**,15 major federal programs , reported seven findings at four state agencies

PROPERTY TAX RATES REVIEW

The State Auditor's Office annually reviews rates to determine compliance with state law. In 2021, the office reviewed **4,854 property tax rates of 2,806 taxing authorities**

FINANCIAL REPORTS

The Missouri State Auditor's Office received **939 financial reports from municipalities and 2,321 financial reports from other political subdivisions**

These reports are posted and searchable online at auditor.mo.gov

Missouri State Auditor

Reynolds County Collector and Property Tax System

Report No. 2022-035

June 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the Reynolds County Collector and Property Tax System

County Collector Fees	The County Collector did not properly review fees withheld on utility and delinquent taxes calculated by the property tax system for accuracy and, as a result, the County Collector over withheld some fees.
Electronic Data Security	The County Collector and Deputy Collector share the County Collector's user identification and password when using the property tax system and county computers. As a result, there is no assurance that the user listed in the system for posting a transaction is the person who did it. In addition, office personnel are not required to change their passwords periodically and there are no lockout procedures for excessive failed logon attempts on either the property tax system or the county computers.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
County Collector
Reynolds County, Missouri

We have audited the County Collector and Property Tax System of Reynolds County. Section 52.150, RSMo, requires the State Auditor to audit the office of the County Collector after being notified of a vacancy in that office. On October 31, 2021, a vacancy occurred in the office of the County Collector of Reynolds County. A successor was appointed and sworn into office effective November 1, 2021. The scope of our audit included, but was not necessarily limited to, the period of March 1, 2021, to October 31, 2021, and the year ended February 28, 2021. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant property tax functions.

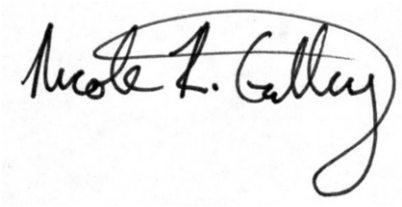
2. Evaluate the county's compliance with certain legal provisions.

Our methodology included reviewing written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the County Collector and county management and was not subjected to the procedures applied in our audit of the County Collector and Property Tax System.

Section 52.150, RSMo, requires the County Commission to accept the State Auditor's report and, if necessary, to take certain specific actions if the State Auditor finds any funds owed to the county or the former County Collector. For the areas audited, we identified (1) deficiencies in internal controls, and (2) noncompliance with legal provisions. The accompanying Management Advisory Report presents our findings arising from our audit of the County Collector and Property Tax System of Reynolds County.



Nicole R. Galloway, CPA
State Auditor

1. County Collector Fees

The County Collector did not properly review fees withheld on utility and delinquent taxes calculated by the property tax system for accuracy and, as a result, the County Collector over withheld some fees. The office collected approximately $10.4 million in property taxes and other receipts and withheld approximately $285,525 in commissions and fees during the year ended February 28, 2021.

The County Collector incorrectly withheld 0.5 percent of utility tax collections for mailing statements and receipts. As a result, the county General Revenue Fund received more than allowed and amounts are owed to various political subdivisions. For December 2020, the amount over withheld was $237.

The County Collector also incorrectly withheld 9.22 percent on all back delinquent real estate taxes rather than the required 9 percent. As a result, the county General Revenue, Tax Maintenance Fund, and County Employment Retirement Funds received more than allowed and amounts are owed to various political subdivisions. For December 2020, the amount over withheld was $75.

The County Collector indicated the fees were set by the former County Collector when the property tax system was set up and were the same rates used as another county that uses the same system.

For mailing statements and receipts, Section 52.250, RSMo, requires the collector to collect a fee of one-half of 1 percent on all current personal property and real estate taxes excluding all railroad and utility taxes. Section 52.290, RSMo, requires the collector to collect a fee of 9 percent on all sums to be added to the face of the delinquent and back tax bills. Thorough review and accurate withholding calculations are necessary to ensure distributions owed to the various political subdivisions are appropriate.

Recommendation

The County Collector work with the property tax system vendor to ensure fee calculations are corrected and review calculations periodically to ensure they are in accordance with state statute. The County Collector should also recalculate all fees and correct distributions to the various political subdivisions and the county Tax Maintenance, County Employment Retirement, and General Revenue Funds.

Auditee's Response

We agree with this finding. We have corrected the fee for mailing utility tax statements and receipts. We are working with the property tax system vendor to ensure fee calculations are corrected for the back delinquent real estate taxes. Once these are all corrected, we will correct the distributions to the various political subdivisions.

2. Electronic Data Security

The County Collector and Deputy Collector share the County Collector's user identification and password when using the property tax system and county computers. As a result, there is no assurance that the user listed in the system for posting a transaction is the person who did it. In addition, office personnel are not required to change their passwords periodically and there are no lockout procedures for excessive failed logon attempts on either the property tax system or the county computers. The County Collector purchased new computers in 2020. The computers were not purchased through the county's current information technology company, so they did not have the same electronic data security measures in place as the prior computers. Office personnel indicated since they received the new computers, they have been sharing the same login credentials and have not changed the password.

Unique user identifications and passwords are necessary to identify activity performed by each individual. The security of a password system is dependent upon keeping the passwords confidential. Since passwords are not required to be periodically changed and logon attempts are not limited, there is less assurance the County Collector is preventing unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Also, by allowing users to share accounts and passwords, individual accountability for system activity could be lost and unauthorized system access could occur. Without strong user account and password controls, including maintaining the confidentiality of passwords, the likelihood accounts could be compromised and used by unauthorized individuals to gain access to sensitive information is increased.

Recommendation

The County Collector ensure all authorized users have unique identifications and confidential passwords that are periodically changed and establish a maximum number of logon attempts allowed before being locked out when using the property tax system and the county computers.

Auditee's Response

We agree and have already corrected these issues.

Reynolds County Collector and Property Tax System
Organization and Statistical Information

The County Collector bills and collects property taxes for the county and most local governments. Pursuant to Section 52.015, RSMo, the term for which collectors are elected expires on the first Monday in March of the year in which they are required to make their last final settlement for the tax book collected by them. Annual settlements are to be filed with the county commission for the fiscal year ended February 28 (29).

Kathy Hoffmann served as County Collector until October 31, 2021. Denise Smith was appointed the Reynolds County Collector and sworn into office on November 1, 2021.

The County Collector received compensation of $30,467 for the period March 1, 2021, to October 31, 2021. During the year ended February 28, 2021, the County Collector received compensation of $44,592. Compensation was in accordance with statutory provisions.

Management Advisory Report - State Auditor's Findings

Financial Status 3

NICOLE GALLOWAY, CPA
Missouri State Auditor

John Chescavage, Executive Director
and
Board of Directors
I-70 & Adams Dairy Parkway Transportation Development District
Blue Springs, Missouri

The State Auditor is required under Section 238.275, RSMo, to audit a transportation development district prior to the question of abolishment being submitted to a vote. On September 13, 2021, the Board of Directors of the I-70 & Adams Dairy Parkway Transportation Development District approved a resolution of its intent to dissolve the district and request an audit as required by statute. The State Auditor was subsequently notified of this resolution.

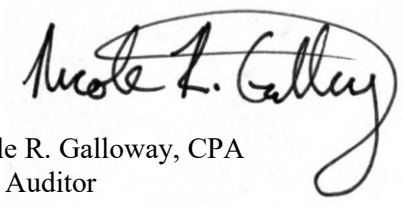
The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021. The objectives of our audit were to evaluate the financial status of the district and determine whether it may be abolished pursuant to law.

Our methodology included reviewing minutes of meetings, financial records, and other pertinent documents; and interviewing various personnel of the district, as well as certain external parties. We obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The audit determined the district's Board of Directors may proceed with abolishment of the district in accordance with Section 238.275, RSMo.

The accompanying Management Advisory Report presents our findings arising from our audit of the I-70 & Adams Dairy Parkway Transportation Development District.



Nicole R. Galloway, CPA
State Auditor

I-70 & Adams Dairy Parkway
Transportation Development District
Management Advisory Report - State Auditor's Findings

Financial Status

Our audit of the I-70 & Adams Dairy Parkway Transportation Development District (TDD) indicates the financial condition of the district is such that it may be abolished.

The I-70 & Adams Dairy Parkway TDD is located in Jackson County, in the City of Blue Springs. The TDD was organized in March 2003 by petition of the property owner/developer within the proposed TDD. The members of the Board of Directors and officers are representatives of the property owner/developer. The district has a fiscal year end of December 31.

The I-70 & Adams Dairy Parkway TDD was originally formed for the purpose of acquiring, constructing and/or improving a roadway, bike trail, and parking lot located just south of Interstate 70 at the intersection of Adams Dairy Parkway and Northeast Coronado Drive. The City of Blue Springs is the public entity with jurisdiction over the project and serves as the Local Transportation Authority. Upon completion the City of Blue Springs accepted dedication of the project.

In April 2003, the Board of Directors passed a resolution formally approving the imposition of the sales tax after qualified voter approval. In June 2003, the qualified voters of the district[1] approved a one-half of one percent (0.50%) sales tax on all transactions within the boundaries of the district for a period not to exceed 40 years. The sales tax became effective September 1, 2003.

In October 2003, the I-70 & Adams Dairy Parkway TDD Board entered into a reimbursement agreement with the property owner/developer to pay for original project costs. The TDD satisfied this debt in September 2020.

In July 2008, the I-70 & Adams Dairy Parkway TDD also entered into an agreement with the City of Blue Springs for the reconstruction of Coronado Drive east of Adams Dairy Parkway, improvements to the Adams Dairy Parkway and I-70 eastbound and I-70 westbound ramp intersections, construction improvements of the Home Depot and Walmart west entrances, and improvements to the Adams Dairy Parkway and RD Mize Road. The project was included as a part of a larger redevelopment project that included multiple political subdivisions.[2] The City of Blue Springs is the public entity with jurisdiction over the local portion of the project and serves as the Local Transportation Authority. Upon completion, the City of Blue Springs accepted dedication of the project. The Missouri Highways and Transportation Commission (MHTC) serves as the entity with jurisdiction over the state portion of the project.

[1] The only qualified voter in the district was Home Depot Stores, LLC.

[2] Political subdivisions involved in the Adams Farms redevelopment plan included the Adams Farms Tax Increment Financing Plan Projects A, B and C; Adams Farms TDD; I-70 and Adams Dairy Parkway TDD; and the Coronado Drive TDD.

In July 2009, the Board of Directors passed a resolution approving an additional one-half of one percent (0.50%) district sales tax that the qualified voters approved on July 29, 2009. The additional sales tax was effective August 1, 2009, for a ten year period ending July 31, 2019.

From 2003 through December 31, 2021, the I-70 & Adams Dairy Parkway TDD received a total of $4,472,082 in sales tax revenue.

In September 2021, the Board of Directors approved a resolution to repeal the sales tax effective December 31, 2021. The Department of Revenue was subsequently notified of the resolution in September 2021. In September 2021, the Board of Directors approved a resolution formalizing its intent to dissolve the TDD and a TDD official subsequently advised the State Auditor's Office (SAO) of this resolution and requested the SAO proceed with all necessary actions as required pursuant to Section 238.275, RSMo.

The SAO has performed an audit of the I-70 & Adams Dairy Parkway TDD as required by Section 238.275, RSMo. That statute requires the State Auditor to audit the TDD to determine its financial status, and determine whether it may be abolished pursuant to law. That law also states the board shall not propose the question to abolish the TDD while there are outstanding claims or causes of action pending against it; if its liabilities exceed its assets; or while the TDD is insolvent, in receivership, or under the jurisdiction of a bankruptcy court.

The following table presents the financial activity and cash balance of the I-70 & Adams Dairy Parkway TDD for the year ended December 31, 2021.

	Year Ended December 31, 2021
RECEIPTS	
Sales Tax	$ 272,589
Interest	25
Total Receipts	272,614
DISBURSEMENTS	
Legal	10,577
Accounting and Auditing	1,860
Bank Fees	60
Total Disbursements	12,497
RECEIPTS OVER (UNDER) DISBURSEMENTS	260,117
BEGINNING CASH	57,201
ENDING CASH	$ 317,318

Source: Compiled by the SAO using the TDD's bank statements, transaction ledger and financial statements.

Based on our audit, the cash balance of the I-70 & Adams Dairy Parkway TDD as of December 31, 2021, was $317,318. The district continued to receive sales tax revenue in 2022, resulting in a cash balance of $356,804 as of February 28, 2022. The TDD's legal counsel indicated the district had an estimated outstanding balance for legal services, accounting services, and bank charges totaling $13,560. The Executive Director indicated there were no additional outstanding liabilities. Based on these representations, TDD assets are sufficient to pay any remaining costs and obligations. After the district's final costs and professional fees are paid, the remaining balance will be distributed to the City of Blue Springs and/or the MHTC in accordance with Section 238.275.5(1), RSMo.

Based on our audit, the Board of Directors may proceed with the abolishment of the I-70 & Adams Dairy Parkway Transportation District in accordance with Section 238.275, RSMo.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Purcell

Misappropriated and Undeposited Money	From February 1, 2021, to April 12, 2021, at least $3,233 was misappropriated or is missing from the city. During this period, the former Mayor Pro Tem improperly issued herself 4 checks totaling $1,988, made a $400 cash withdrawal from the city bank account, issued a $200 check to a routine city vendor that she endorsed and deposited into her personal bank account, and issued a $500 check to an individual that was cashed and the proceeds were divided between the individual ($250) and the Mayor Pro Tem ($250). In addition, she improperly recorded $160 in adjustments to her utility account, and did not bill herself for an estimated $70 of utility and trash services. The former Mayor Pro Tem also did not deposit at least $165 in city cash receipts collected during this timeframe.
Oversight, Annual Audits, and Bonding	The former Board did not always adequately monitor the city's financial activity; review or compare checks written to supporting documents, such as invoices or bank statements; or require dual signatures on city checks. The city did not obtain an annual audit of its sewer system for the year ended December 31, 2020, as required by state law. The Mayor and board members who sign checks and have access to money held in bank accounts are not covered by a bond.
Financial Condition	The city is in poor financial condition. For the year ended December 31, 2020, the city's General account reconciled bank balance, which includes all city funds, was $15,460, which is only slightly greater than the city's average monthly expenditures of $14,778. Further, the Board is not adequately monitoring the city's financial condition, as it does not receive budget-to-actual information by fund or timely financial reports.
Accounting Controls and Procedures	The city's procedures for receipting, recording, and depositing money are poor. As a result, there is no assurance all money collected is properly receipted, recorded, and deposited. The city has not established adequate procedures to allocate salaries and wages to various city funds and ensure restricted money in those funds is only used for the intended purposes. Many city financial records were not properly retained.
Disbursements	The city does not always solicit bids or obtain written contracts in accordance with city code. In addition, contracts are not always entered into timely. City officials could not provide supporting documentation for some disbursements or their approval of those disbursements. The city did not retain credit card receipt slips for some credit card purchases and made duplicate payments to its credit card vendor. The city did not maintain adequate documentation to support all petty cash fund transactions in 2020 or update the petty cash fund ledger for 2021.
Utility System Controls and Procedures	Improper adjustments were made to the utility account of the former Mayor Pro Tem. The former Mayor Pro Tem did not perform a monthly reconciliation of amounts billed, payments received, and amounts unpaid for utility services due in March 2021. The city did not always file returns with the Department of Revenue (DOR) in a timely manner or remit all sales taxes collected related to water services provided.

Payroll	City officials did not maintain documentation to support all payroll transactions.
Budgets, Financial Reporting, and Maintenance Planning	The city did not prepare complete annual budgets or monitor budgets, file annual financial reports timely, publish semiannual financial statements in compliance with state law, or maintain a street maintenance plan.
Board Qualifications, Ordinances and Sunshine Law	Former Alderwoman Nancy Wilson was elected as a write-in candidate and took the oath of office in June 2020 while owing delinquent personal property taxes in violation of state law. She did not pay her 2018 and 2019 personal property taxes until July 31, 2020, and still owed 2020 delinquent personal property taxes as of April 12, 2021, when the Board voted to remove her from office. The city does not maintain an up-to-date official ordinance book. The city does not always comply with requirements of the Sunshine Law and controls were not always in place to ensure minutes were properly prepared and approved. The Board has not adopted a written policy regarding public access to city records as required by state law.
Electronic Communication Policy	The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Capital Assets	The city does not maintain records of its capital assets. Additionally, city personnel do not tag, number, or otherwise identify assets or perform annual physical inventories.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Purcell, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Purcell. We have audited certain operations of the city in fulfillment of our duties. The city engaged KPM CPAs & Advisors to audit the city's financial statements for the year ended December 31, 2019. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2020. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

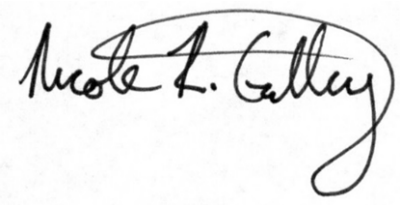
4. Determine the extent of money misappropriated and/or missing from the city.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; analyzing comparative data obtained from external sources; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) misappropriated money totaling $3,068 and missing money totaling at least $165. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Purcell.



Nicole R. Galloway, CPA
State Auditor

Background

The State Auditor was petitioned to audit the City of Purcell in November 2020 and secured city records in March 2021, due to allegations that records might be removed from city hall and/or destroyed.

Nancy Wilson was elected to the Board of Aldermen in June 2020 and appointed Mayor Pro Tem in August 2020. After resignation of the Mayor in October 2020, Ms. Wilson became responsible for, among other duties, providing a second signature on city checks. Beginning in February 2021, after the resignation of various other city officials, Ms. Wilson also gained access to other financial activities including utility billing, collection, receipting, depositing, preparing disbursements (including payroll checks), and reviewing bank account activity.

On March 1, 2021, the State Auditor's Office (SAO) received the emails included in Appendix A. The first email accurately represents the correspondence sent from audit staff and acknowledged by Ms. Wilson at 8:53 a.m. The second email was sent to audit staff at 10:17 p.m. It included the same acknowledgement, but also included inaccurate and false information related to the audit work, including false allegations related to potential charges that may be filed. The SAO subsequently notified the city by letter on March 10, 2021, that the email was inaccurate, and clarified the purpose of the audit and authority of our office (see Appendix B).

On April 12, 2021, Mayor Pro Tem Wilson was removed from office by vote of the Board. On April 15, 2021, city officials provided documentation and filed a complaint with the Jasper County Sheriff's office (Sheriff's office) of alleged fraudulent checks issued to the former Mayor Pro Tem, an alleged improper withdrawal made by her, and improper adjustments made to her utility account.

A former city Alderman indicated "handwritten" utility billings were prepared by the former Mayor Pro Tem and mailed to customers with a March 2021 due date. These billings were not retained by the city so it was not possible to determine total receipts collected from the billings and if the receipts were all subsequently deposited.

A representative of the SAO, with the assistance of Sheriff's office personnel, attempted service of 2 subpoenas to individuals of interest; however, these individuals could not be located. Upon subsequent contact with these individuals, they chose to answer SAO questions by phone in lieu of providing testimony. In addition, SAO auditors recorded interviews with former board members, and contacted and requested former employees to provide copies of any city records in their possession.

The city's fiscal year is January 1 through December 31. The scope of our audit included, but was not necessarily limited to, the year ended December

31, 2020. After the identification of concerns regarding improper payments, improperly recorded utility adjustments, and unbilled utility charges, we applied limited audit procedures to city receipt, disbursement, and utility records for the period January 1, 2021, through April 12, 2021, (the time period the former Mayor Pro Tem was responsible for most financial activities of the city) to determine the amount of misappropriated and missing money, and the methods used to perpetrate and conceal the theft.

Criminal Investigation

Upon investigation of the complaint filed by city officials, the Sheriff's office determined that 5 checks totaling $2,188 were endorsed by Ms. Wilson and deposited into her personal bank account. In addition, the Sheriff's office obtained video evidence that on April 2, 2021, Ms. Wilson withdrew $400 from the city's General account. See Appendix C for details regarding these checks and the withdrawal.

On May 27, 2021, the Sheriff's office questioned and then arrested Ms. Wilson for a class D felony of stealing in the amount of $2,588. In January 2022, Ms. Wilson pleaded guilty in circuit court to a class A misdemeanor of stealing and was sentenced to one year in jail, with a suspended execution of the sentence,[1] and 2 years unsupervised probation. She was also ordered to pay court costs of $147 and restitution in the amount of $2,588.[2] The defendant's $2,600 cash bond was applied to restitution and court costs.

[1] A suspended execution of sentence is a process whereby a judge sentences a defendant but suspends the execution of the sentence and places the defendant on probation. If the conditions of probation are not met, the judge can revoke the probation and the defendant will then need to serve the full sentence.

[2] 21AO-CR00456 - State vs. Nancy M. Wilson

1. Misappropriated and Undeposited Money

From February 1, 2021, to April 12, 2021, at least $3,233[3] was misappropriated or is missing from the city. During this period, the former Mayor Pro Tem improperly issued herself 4 checks totaling $1,988, made a $400 cash withdrawal from the city bank account, issued a $200 check to a routine city vendor that she endorsed and deposited into her personal bank account, and issued a $500 check to an individual that was cashed and the proceeds were divided between the individual ($250) and the Mayor Pro Tem ($250). In addition, she improperly recorded $160 in adjustments to her utility account, and did not bill herself for an estimated $70 of utility and trash services. The former Mayor Pro Tem also did not deposit at least $165 in city cash receipts collected during this timeframe.

Misappropriated money

The following table provides a summary of the amounts misappropriated from February 1, 2021, to April 12, 2021, and identifies the appendixes where specific details are reported, if applicable.

Type of Misappropriation	Amount
Improper checks (Appendix C)	$ 1,988
Improper cash withdrawal (Appendix C)	400
Improper check issued to city vendor (Appendix C)	200
Check cashed by payee and split with the former Mayor Pro Tem (Appendix C)	250
Improperly recorded utility account adjustments	160
Estimated utility and trash service not paid	70
Total	$ 3,068

Improper checks with joint payee

In March 2021, the former Mayor Pro Tem improperly issued 4 checks, totaling $1,988 with each payee line indicating a payee name and "or Nancy Wilson" as a joint payee. Former Mayor Pro Tem Wilson subsequently deposited these checks into her personal bank account as follows:

- Two of the 4 checks were issued to an individual "or Nancy Wilson." One check was for $500 with the memo line indicating "City Bills & Cleaning." The second check was for $488 and included the notation "Invoice & Reimbursement CPA" on the memo line. The other payee noted on the checks is the former Mayor Pro Tem's mother. We contacted this individual on November 2, 2021, and she indicated she was never employed by the city, did not provide any services to the city, and never saw or received the 2 checks that included her as a joint payee.

- The third check was issued to "CPA or Nancy Wilson" for $500 with the memo line indicating "April Billing." We confirmed with the city's audit

[3] Amounts presented in the report findings are rounded to the nearest dollar, whereas amounts presented in Appendix C are not rounded.

firm[4] (CPA) that it performed no additional services for the city and no payments were received directly from the former Mayor Pro Tem.

- The fourth check was issued to an individual "and or Nancy Wilson" for $500 with the memo line partially unreadable with only "invoice 3-21" legible. We were not able to locate the individual to discuss the details of this check.

All 4 of these checks were handwritten and signed in the scripted handwriting of the former Mayor Pro Tem. Two of the $500 checks (issued to the Mayor Pro Tem's mother and the other individual) were endorsed in their names and the Mayor Pro Tem's name in the Mayor Pro Tem's scripted handwriting. The remaining 2 checks were only endorsed by the former Mayor Pro Tem in her scripted handwriting. All 4 of these checks were subsequently deposited into the former Mayor Pro Tem's personal bank account. We questioned 2 former board members regarding these 4 checks, and both indicated they did not approve these checks and were not notified by the former Mayor Pro Tem of the need to make these payments.

When questioned by the Sheriff's office regarding these checks, the former Mayor Pro Tem stated she could not remember the individuals or vendors listed as payees and the specific circumstances of these transactions. When asked why the checks were deposited into her personal bank account, the former Mayor Pro Tem indicated it was because she actually did the work of the individual payees and/or the check was a reimbursement for costs she had paid personally (i.e., "CPA" payee). However, no documentation was available to support this (e.g., timesheets or invoices).

Improper cash withdrawal

The former Mayor Pro Tem improperly withdrew $400 on April 2, 2021, from the city's General account. When questioned by the Sheriff's office about this transaction, the former Mayor Pro Tem indicated the withdrawal was reimbursement for "gas mileage and everything that she has done for the last three months." However, no documentation was available to support the withdrawal (e.g., mileage log, timesheets, etc.).

Both former board members that we questioned regarding this withdrawal confirmed they knew nothing about this reimbursement to the former Mayor Pro Tem.

Improper check issued to routine city vendor

The former Mayor Pro Tem improperly issued a $200 check on April 10, 2021, to a routine city vendor and then negotiated the check. The check was signed solely by the former Mayor Pro Tem, and the memo line of the check indicated "Invoice For Dig." The check was endorsed in the name of the

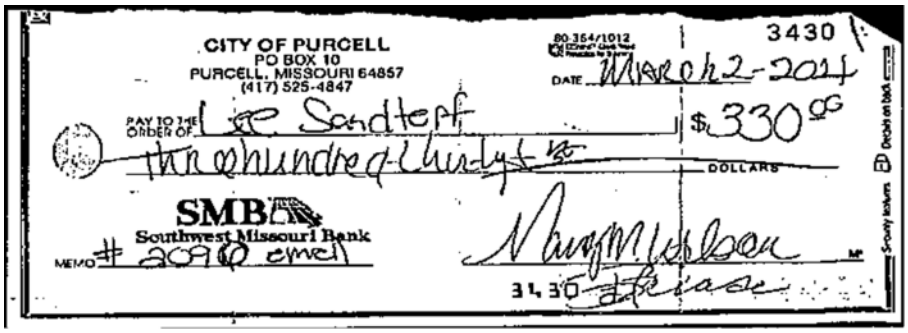
[4] The CPA firm last audited the city for the year ended December 31, 2019.

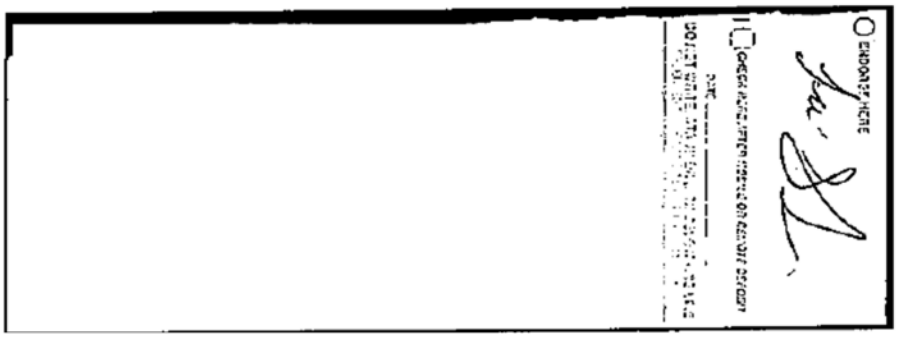
company and by the former Mayor Pro Tem in her scripted handwriting and deposited into the former Mayor Pro Tem's personal bank account.

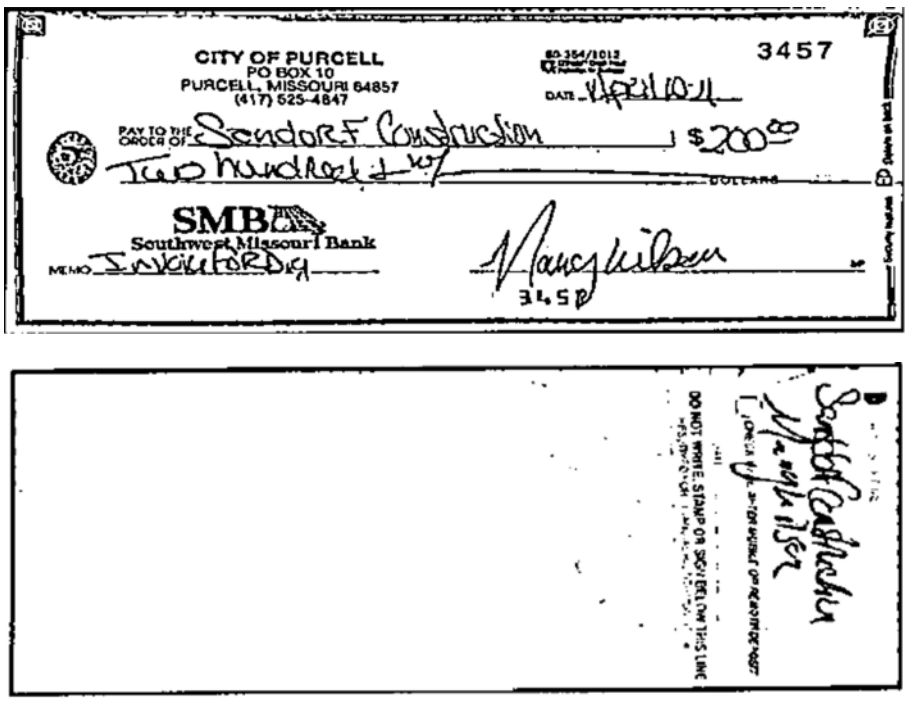
When questioned by the Sheriff's office about this check the former Mayor Pro Tem indicated she paid the vendor out of her "own money" and then she reimbursed herself with this check. When further questioned about the circumstances of this transaction the former Mayor Pro Tem asked for an attorney.

We compared the endorsement on the $200 check to a check previously issued to the vendor and noted the endorsements differed. We contacted the vendor, and he indicated that he did not perform work for the city in the amount of $200 during this timeframe, his name on the check was misspelled, and the company the check was made out to did not exist. He further confirmed he did not receive any payments directly from any city officials for city work, did not receive a city check in the amount of $200 in April 2021, and did not endorse a city check back to the city or any city official.

The first check images presented below are the front and back of a proper city check to the vendor, while the next 2 images are the front and back of the improper city check. The city's bank account, routing number, and other bank information have been redacted.







Check cashed by payee

On April 7, 2021, the former Mayor Pro Tem issued a $500 check to an individual for "Mowing & Cleaning City Hall." The former Mayor Pro Tem was the only signor of the check. No supporting documentation was provided by the city to support this payment.

The Sheriff's office obtained bank surveillance video from April 7, 2021, and determined that the former Mayor Pro Tem accompanied the payee to the bank and the check was cashed. When questioned by the Sheriff's office, the former Mayor Pro Tem again indicated she did not remember who this person was or the specific circumstances of this transaction.

Both former board members that we questioned regarding this check indicated they had no knowledge of any services provided and did not approve this payment.

We contacted the payee, who indicated she was asked to clean the former Mayor Pro Tem's office. She also confirmed the former Mayor Pro Tem took her to the bank to cash the check and the former Mayor Pro Tem gave her $250 cash and kept the remaining $250 cash.

Improperly recorded utility adjustments

Adjustments totaling $160 ($80 each month) were improperly applied to the former Mayor Pro Tem's electronic utility account in January 2021 and February 2021. Both former board members that we questioned about these adjustments indicated they had no knowledge of nor did they approve the

adjustments. Current city officials subsequently adjusted the former Mayor Pro Tem's account in May 2021 to correct the account balance for these improper adjustments.

Estimated utility and trash service not paid

The former Mayor Pro Tem did not pay for utility and trash services that were due in March 2021. Her monthly billings for the year ended December 31, 2020, averaged approximately $70; therefore, we estimated the utility and trash services not paid in March 2021 at $70. As noted in the Background section, "handwritten" utility billings were prepared by the former Mayor Pro Tem and mailed to customers with a March 2021 due date. No manual utility bills were available for our review, and our review of all city bank deposits showed no payments made for utility and trash service from the former Mayor Pro Tem due in March.

Undeposited utility receipts

Utility receipts totaling $165 received by the Mayor Pro Tem in March 2021 were not deposited and are missing. Additionally, 5 utility customers contacted city officials and indicated they made utility payments, totaling $670, during the time period the former Mayor Pro Tem was handling utility receipts, but the receipts were not deposited.

For the $165 in utility receipts collected, 2 utility customers provided supporting documentation to current city officials of utility payments made after they received subsequent billings with past due balances. These 2 payments were not recorded in the utility account system or deposited into the city's bank account. However, neither customer's payment was negotiated. One of these payments was made by a $90 money order and receipted on March 28, 2021, as shown below. We confirmed with the bank of issuance that the money order was not negotiated and has since expired. The utility customer provided (1) a copy of a city receipt slip and (2) documentation of the purchase of a money order, which are shown below. The utility customer's name, and bank account and routing numbers have been redacted.

In May 2021, current city officials adjusted the utility accounts of these 2 customers based on the supporting documentation provided.

For the 5 additional utility customers who indicated they made payments totaling $670 during the time period the Mayor Pro Tem was handling utility receipts, city officials subsequently adjusted the customers' accounts, similar to the other 2 payments discussed. We spoke with 4 of the 5 customers, who confirmed payments were made by cash ($149), and check or money order ($225); however, the customers could not provide documentation of the payments made (manual receipt slip or canceled check or money order). We could not contact the remaining customer who reportedly made a utility payment of $296 during this time period. We also could not verify these payments were deposited into the city's bank account. Due to missing utility records, billings, and receipt slips during the time period when the former

Mayor Pro Tem handled utility billing, receipting, collecting, recording, and depositing duties, we could not determine the total amount of money received but not deposited, and it is possible additional money is missing.

Overall conclusion

The lack of segregation of duties and adequate controls, and the absence of proper oversight, as discussed in the remainder of this report, resulted in improper disbursements, the improper cash withdrawal, improperly recorded utility adjustments, and missing utility receipts going undetected.

Recommendation

The Board of Aldermen continue to work with law enforcement officials, as necessary, regarding the improper disbursements, improperly recorded utility adjustments, utility services not paid, and missing money, and obtain additional restitution, if possible.

Auditee's Response

We have worked with law enforcement. Restitution in the amount of $2,588 has been received. We will be writing off the remaining $480 the former Mayor Pro Tem owes.

2. Oversight, Annual Audits, and Bonding

The Board did not provide adequate oversight, obtain annual audits as required by state law, or bond city officials with access to city money.

2.1 Oversight and segregation of duties

The former Board[5] did not establish adequate oversight or segregation of duties over the various financial accounting functions. The former Board did not always adequately monitor the city's financial activity; review or compare checks written to supporting documents, such as invoices or bank statements; or require dual signatures on city checks. Weaknesses identified throughout this report are significant and demonstrate a lack of segregation of duties and proper oversight by the former Board that led to the misappropriations and missing money noted in MAR finding number 1. The city's auditor also reported a segregation of duties finding in the audit report for the year ended December 31, 2019.

Proper segregation of duties helps ensure transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, timely supervisory or independent reviews of work performed and investigation into unusual items or variances is necessary. Good management practices require extensive and detailed oversight by the Board. Dual authorized signatures help provide assurance that checks

[5] This refers to the Board of Aldermen in office during the period January 1, 2021, through April 12, 2021, (the time period the former Mayor Pro Tem was responsible for most financial activities of the city).

represent payment for legitimate city disbursements. Failure to require dual signatures on all checks is a significant control weakness and along with the lack of review of bank statements or canceled checks by anyone other than the former Mayor Pro Tem allowed the improper checks to be issued.

2.2 Annual audit

The city did not obtain an annual audit of its sewer system for the year ended December 31, 2020, as required by state law.

Section 250.150, RSMo, requires the city to obtain annual audits of the combined waterworks and sewerage system, and the cost of the audit is to be paid from revenues received from the system. Former board members indicated an annual audit was not obtained because the invoice for the 2019 audit was not paid in full until July 2021.

2.3 Bonding

The Mayor and board members, who sign checks and have access to money held in bank accounts, are not covered by a bond. Failure to properly bond individuals with access to funds exposes the city to risk of loss. Had the city obtained bond coverage, some of the improper payments and missing money may have been covered by a bonding company. The former Mayor indicated the positions of Mayor and board members generally do not handle receipts, so bond coverage was not deemed necessary.

Recommendations

The Board of Aldermen:

2.1 Segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures. In addition, the Board should require dual signatures on all checks.

2.2 Obtain annual audits of the water and sewer system as required by state law.

2.3 Maintain bond coverage for all personnel with access to city money.

Auditee's Response

2.1 We have put appropriate measures in place so the Board is informed of what is being done and how money is allocated. Bank statements, accounts payable reports, and aged billing reports are given to the Board on a monthly basis for full transparency, as well as any adjustments that are to be approved by the Board. Carbon copied and numbered receipt slips have also been put in place. There are 3 authorized signers on the checking account, and 2 signatures are required on all checks.

2.2 We are in the process of obtaining bids to seek an audit of the water and sewer system.

2.3 Bond coverage is currently being assessed and decided on by the Board.

3. Financial Condition

The city is in poor financial condition. For the year ended December 31, 2020, the city's General account reconciled bank balance, which includes all city funds, was $15,460,[6] which is only slightly greater than the city's average monthly expenditures of $14,778. Further, the Board is not adequately monitoring the city's financial condition, as it does not receive budget-to-actual information by fund or timely financial reports. As a result, the Board is not in a position to make financial decisions that could strengthen fund balances (see MAR finding numbers 8.1 and 8.2).

According to city officials, the city hopes to finalize the sale of the water/sewer system, as approved by voters in August 2021, to a local utility company by June 2022, at which time the city's financial condition may stabilize. However, since city officials have not prepared complete budgets or financial projections, it is unclear whether these changes will be sufficient to significantly improve the city's financial situation.

It is essential the Board address the financial condition of the city in both the immediate and long-term future. In addition, the Board should reduce spending where possible, evaluate controls and management practices to ensure efficient use of resources, monitor detailed financial data that includes cash balances for each fund, and closely monitor budgets. Former board members were unaware of the city's financial condition due to a lack of financial reports for review.

Recommendation

The Board of Aldermen ensure it receives detailed financial data monthly, perform immediate and long-term planning, and closely monitor and take necessary steps to improve the city's financial condition.

Auditee's Response

We will be provided financial data at regular monthly meetings. The long term action plan for the budget is now pending the Board's review.

4. Accounting Controls and Procedures

Accounting controls and procedures need improvement.

[6] The $15,460 reconciled balance includes a bank balance of $16,699 less $1,239 in outstanding checks.

4.1 Receipting, recording and depositing

The city's procedures for receipting, recording, and depositing money are poor. As a result, there is no assurance all money collected is properly receipted, recorded, and deposited.

- Official prenumbered receipt slips were not issued for all payments received, the numerical sequence of the manual receipt slips issued was not accounted for, and manual receipt books were not always retained.

  Only 2 manual receipt books were retained by the city from January 2020 through April 12, 2021. Receipt slips in the first receipt book were single unnumbered generic receipt slips. Receipt slips in the second book were similar, but prenumbered. Most of the receipt slip copies were torn out of the books so it was not possible to determine how many manual receipt slips were issued, if they were all subsequently posted to the accounting system, and if they were deposited into the city's bank accounts.

  In addition, when reviewing city financial records, we found a notation in the city's utility system that an additional manual receipt book may have been used by former personnel in October 2020 to record a utility payment, as the receipt slip number noted did not match either of the receipt slip number sequences discussed above. City officials could not locate this receipt book.

- Utility receipts were not always recorded or timely recorded in the computerized utility system.

  Our review of utility system reports indicated that during some time periods city personnel recorded utility and trash receipts in the system after the money was deposited. Receipts deposited August 21, 2020, were not recorded in the utility system until September 12, 2020. Also, a receipt received September 8, 2020, was not recorded in the utility system until December 21, 2020, and receipts received November 18, 2020, were not recorded in the utility system until December 7, 2020. Changes in city personnel occurred during these timeframes.

  In addition, utility and trash receipts received from February 5, 2021, through April 12, 2021, totaling approximately $7,100, were not recorded in the utility system when received. City officials have subsequently made numerous adjustments to customer utility accounts for prior unrecorded payments based on documentation (utility billings, receipt slips, canceled checks, etc.) provided by utility customers.

- Deposits were not always made timely. Deposits of utility receipts from March 1, through April 12, 2021, often included checks written a week or a month prior to the deposit.

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of money will go undetected and accounting records will contain errors. To reduce this risk, procedures should be established to ensure all money received is properly receipted, recorded, and deposited. These poor receipting, recording, and depositing procedures helped conceal the theft that occurred. Former board members were unaware of the importance of properly receipting, recording, and depositing money.

4.2 Allocations and restricted funds

The city has not established adequate procedures to allocate salaries and wages to various city funds and ensure restricted money in those funds is only used for the intended purposes. City receipts are deposited into one bank account and allocated to various city funds through the accounting system; however, it is unclear what expense and revenue allocations the city actually made to various funds for the year ended December 31, 2020, because a timely financial report was not prepared and budget-to-actual information was incomplete.

Cost allocations

The city has no documentation to justify the allocations of salaries of the City Clerk, City Collector, and City Treasurer and wages of water/sewer and maintenance employees to the city's General, Road, Water, and Sewer Funds. None of these allocations are based on actual time spent or other documented criteria, or are allocated in the same manner. Instead, the allocations are based on estimates of time spent performing various duties and may not be accurate or appropriate uses of restricted funds. Allocations for the year ended December 31, 2019, are included in the table below (similar allocations for 2020, were not available):

	Year Ended December 31, 2019				
	Fund by Percentage				
Employee	General	Road	Water	Sewer	Total
Wastewater Operator	0.0	27.5	42.9	29.6	100
Collector	6.4	0.0	46.8	46.8	100
Treasurer	50.0	0.0	25.0	25.0	100
City Clerk	52.0	0.0	24.0	24.0	100
Maintenance	10.8	20.0	34.6	34.6	100

Restricted revenues

The Board did not budget 2020 sales tax revenues for use in its Road Fund as required. City voters approved a sales tax for which 50 percent of revenues are to be used for roads and 50 percent for capital improvements. However, the Board instead budgeted 50 percent in the Capital Improvement Fund and 50 percent in the Water Improvement Fund. Because a timely financial report and final budget-to-actual reports were not prepared for 2020 it is unclear to which fund the sales tax revenues were credited.

Also, the city received approximately $22,000, for the year ended December 31, 2020, from the Department of Revenue, which was the city's proportionate share of statewide sales taxes and motor-vehicle related revenue. These revenues are restricted for roads, but only $3,400 was used for paving city roads. Similar revenues ($22,010) and road improvements ($2,904) were reported for the year ended December 31, 2019.

Based on the 2020 budget approved by the Board, the city intended to charge expenditures including insurance, legal fees, electric, salaries, and road supplies totaling $17,000 to the Road Fund in 2020. However, because a timely financial report was not prepared (see MAR finding number 8.2) and budget-to-actual information by fund was incomplete (see MAR finding number 8.1), it is unclear what actual expenses were charged to the Road Fund in 2020, and if the restricted revenues were used for street related purposes as required. In 2019, similar expenditures charged to the Road Fund totaled $24,724.

Conclusion

The proper allocation of expenses is necessary to accurately determine the results of operations of specific activities, thus enabling the city to establish the level of taxation and/or user charges necessary to meet all operating costs. To ensure restricted funds are used for intended purposes, the allocation of expenditures to city funds should be based on specific criteria, such as the number of hours worked by each employee, if possible, or by determining a reasonable basis to allocate costs from shared functions/employees benefiting multiple funds. In addition, Article IV, Sections 30(a) and 30(b), of the Missouri Constitution require motor-vehicle related receipts apportioned by the state of Missouri be disbursed for street related purposes only. Further, Section 250.150.1, RSMo, restricts the use of water and sewer funds for operating the systems, payment of bonds, establishment of a reserve, fulfillment of any agreements contained in ordinances, and payment of costs of improvements of such systems. Finally, the intended use of the restricted revenues should be accurately reflected in the city budget and their use monitored to ensure they are used for the required purpose. Former board members were unaware of the importance of documenting and reporting expense allocations to show spending restricted revenues was appropriate.

4.3 Record retention

As noted throughout the report, many city financial records were not properly retained. A manual receipt book, individual receipt slips, manual utility billing reports, and supporting documentation for February 2021 to March 2021 disbursements (including payroll) could not be located by the city.

Retention of records is necessary to ensure the validity of transactions and provide an audit trail. Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for

the destruction of records. Record retention schedules can be found on the Secretary of State's website.[7] The former Mayor Pro Tem likely did not retain these documents to help conceal the misappropriations discussed in MAR finding number 1.

Recommendations

The Board of Aldermen:

4.1 Require the issuance of official prenumbered carbon copy receipt slips for all city receipts, ensure receipt slips are retained, and account for the numerical sequence of receipt slips. In addition, the Board of Aldermen should ensure utility and trash receipts are timely recorded in the computerized system and deposited timely and intact.

4.2 Ensure salaries and wages are allocated based on specific criteria and retain documentation to support the allocations to city funds. In addition, the Board of Aldermen should ensure city financial reports and budgets accurately reflect the use of the restricted revenues and monitor the use of those revenues for their required purpose.

4.3 Retain all records in accordance with state law.

Auditee's Response

4.1 We are now recording all payments received in a carbon-copy prenumbered receipt book. Carbon copy receipt slips will be retained for a minimum of 3 years and issued in numerical sequence. We are striving to enter all payments in the computer systems in a timely fashion. The city office has limited hours of operation; therefore, funds are deposited intact as soon as time is allowed.

4.2 We are in the process of building a procedure that will be transferred into an ordinance for allocating actions. As we no longer have water/sewer and maintenance employees, these payments to employees are not addressed at this time. In the future, if city employees are to be hired, an hourly time clock/work sheet will be established to maintain strict payroll controls. We will show quarterly where money is going from each fund and match up with employees hourly duties.

4.3 We are putting record retention procedures in place. Records can be destroyed including burning or shredding on-site after 3 years by an independent contractor after proper bid procedure is conducted. Any documents having personal information must be destroyed so it cannot be recreated. We will document what is destroyed, when, and

[7] <https://www.sos.mo.gov/archives/localrecs/schedules>, accessed April 1, 2022

including the time period of such documents. We will also contact the Secretary of State for applicable destruction time frames.

5. Disbursements

City disbursement procedures need improvement. From January 2020 through April 2021, the city made non-payroll disbursements totaling $174,503, including $2,971 in purchases with a credit card. We judgmentally[8] selected and tested 16 disbursements totaling approximately $22,982.

5.1 Procurement procedures and contracts

The city does not always solicit bids or obtain written contracts in accordance with city code. In addition, contracts are not always entered into timely.

The city did not solicit bids or proposals for sewer system repairs from 2 different vendors (totaling $14,047), sludge removal ($5,300), audit services ($6,600), road paving ($3,400), or excavation/water line repair ($2,655). In addition, the city did not have written contracts with 5 of these vendors.[9]

Also, the city's trash service contract expired in January 2020, and the Board did not enter into a new contract until December 2020 with the existing vendor. From February 2020 through November 2020, the same vendor continued to provide trash services at a cost of approximately $15,000 to the city until the new contract was signed.

A former Alderwoman indicated the city used most of these vendors often, and they were the only vendors that would perform work for the city. She also confirmed the audit services vendor had been used for several years.

City Code,[10] Section 25.080, indicates all supplies and services shall be competitively bid when possible. In addition, City Code, Section 25.090, indicates all supplies and services exceeding $2,000 "shall be purchased by formal, written contract from the lowest responsible bidder, after due notice inviting proposals." City code does not address the selection of vendors providing services to the city as a sole source.

Formal bidding procedures for major purchases or services provide a framework for economic management of city resources and help ensure the city receives fair value by contracting with the lowest and/or best bidders. Competitive bidding also helps ensure all parties are given an equal opportunity to participate in city business. In addition, written contracts are necessary to ensure all parties are aware of their duties and responsibilities,

[8] Due to the nature of the sample, the results cannot be projected to the population.

[9] The city only had a contract with its audit services provider.

[10] The references to the City Code in this report are based on the City Code that was provided during the audit. Because the ordinance book has not been updated (See MAR finding number 9.2), the ordinances cited in this report may not be the most current or complete versions.

prevent misunderstandings, and ensure city funds are used appropriately and effectively. Section 432.070, RSMo, requires contracts for political subdivisions to be in writing.

5.2 Supporting documentation and review

City officials could not provide supporting documentation for some disbursements or their approval of those disbursements. Our review showed supporting documentation was not maintained for all 25 non-payroll disbursements totaling $18,157 made from February 1, 2021, through April 7, 2021 (including improper and questionable disbursements discussed in MAR finding number 1). Supporting documentation was subsequently obtained for some of these disbursements directly from applicable vendors. In addition, as noted in MAR finding number 1, two former board members indicated they were not aware of some of the disbursements.

To ensure obligations were incurred and amounts paid are proper, all disbursements should be reviewed, approved, and supported by itemized vendor invoices or other detailed documentation with payment information clearly indicated. The former Mayor Pro Tem likely did not retain some of these documents to help conceal the misappropriations in MAR finding number 1. It is unclear why she did not retain supporting documentation for other expenditures.

5.3 Credit card receipt and payment

The city did not retain credit card receipt slips for some credit card purchases and made duplicate payments to its credit card vendor.

- City officials could not locate receipt slips for 2 of 11 transactions, totaling $142, included on the city's October 2020 credit card statement.

- The city made duplicate payments, totaling $307, to the city's credit card vendor in March 2021. As of July 2021, the city's account maintained a credit balance of $248 as a result of the duplicate payments.

Credit card purchases are inherently more risky than other purchases because credit card purchases are or can be made prior to proper approval. That risk and the potential for fraud and misuse increases even more when internal controls and proper procedures are lacking. Detailed supporting documentation improves the city's ability to review charges and provides better documentation of the items purchased to ensure charges are reasonable. In addition, canceling invoices and other supporting documentation reduces the likelihood of duplicate payments.

5.4 Petty cash fund

The city did not maintain adequate documentation to support all petty cash fund transactions in 2020 or update the petty cash fund ledger for 2021. For the year ended December 31, 2020, a receipt for a petty cash purchase on January 2, 2020, totaling $43 for stamps was not retained. A note on the petty cash ledger indicated the city failed to get a receipt slip for the purchase. Petty

cash purchases in 2020 totaled $136. In addition, the petty cash ledger was not updated when replenished in the amount of $50 on January 12, 2021.

To ensure all activity of the petty cash fund is properly accounted for documentation should be retained to support all disbursements from the fund. In addition, the city should maintain a complete petty cash ledger documenting receipts, disbursements, and the balance of the petty cash fund.

Recommendations

The Board of Aldermen:

5.1 Ensure bids or proposals are obtained when applicable and enter into timely written contracts defining services provided and benefits received.

5.2 Maintain adequate supporting documentation for all disbursements and ensure invoices are adequately reviewed and approved prior to payment of invoices.

5.3 Retain receipt slips for all credit card purchases and ensure invoices are marked paid to prevent duplicate payments.

5.4 Retain adequate documentation of all petty cash disbursements and maintain a complete petty cash fund ledger.

Auditee's Response

5.1 We are putting best practices in place to accept bids for any and all projects. If a bid cannot be received, said reasons shall be documented (i.e. only one person submitted a bid). We will also enter into timely written contracts defining services provided and benefits received.

5.2 All invoicing for any services and disbursements done (in any amount) is reviewed and approved by the Board and will be retained.

5.3 We no longer have a credit card.

5.4 We will maintain a ledger for petty cash disbursements and receipt slips, and the Board will approve replenishment of the funds when appropriate. We may discontinue the petty cash fund.

6. Utility System Controls and Procedures

Utility system controls and procedures need improvement. The city provided utility services to approximately 188 monthly customers during the year ended December 31, 2020. According to the city's accounting records and utility system, the city received payments for water, sewer, and trash services totaling approximately $149,000 from January 2020 through April 2021.

6.1 Adjustments

As previously noted in MAR finding number 1, improper adjustments were made to the utility account of the former Mayor Pro Tem.

Typically, with Board approval, city personnel record non-monetary adjustments to waive customer late charges, adjust usage for inaccurate meter readings, or reduce a balance due to water leaks. According to the utility system, during the period of January 2020 through April 2021, 522 adjustments were made to customer accounts for a total net reduction of $338,876. No explanation or reason was documented in the utility system for some of the adjustments. As noted in MAR finding number 1, the former Mayor Pro Tem adjusted her account by $160[11] without Board approval or documentation to support the reason for the adjustment. From May through August 2021, city officials also subsequently made 56 adjustments to customer utility accounts, totaling $6,345, for prior unrecorded payments made during the time period manual billing reports were used when the former Mayor Pro Tem was handling utility billings and collections. These adjustments included the $835 of undeposited utility receipts mentioned in MAR finding number 1 and $5,510 of utility receipts that were deposited, but not recorded in the utility system during this time period. The adjustments were made based on records (utility billings, receipt slips, canceled checks, etc.) provided by utility customers. City officials could not provide supporting documentation for all the monetary adjustments upon our request.

A listing of all adjustments is not generated and compared to approved adjustments. As a result, there is an increased risk of theft and misuse occurring without being detected. To ensure adjustments are valid and approved, all adjustment transactions need to be approved before they are made in the computer system and the account adjustments should later be compared to the list of approved adjustments. Review and approval of adjustments by an independent person is necessary to ensure adjustments made are proper. The former Mayor Pro Tem likely did not request Board approval for adjustments to her account to help conceal the misappropriation noted in MAR finding number 1.

6.2 Utility system billings

The former Mayor Pro Tem did not perform a monthly reconciliation of amounts billed, payments received, and amounts unpaid for utility services due in March 2021. These billings were handwritten and not prepared from the city's utility system. We analyzed customer historical payments and compared those to payments made in March and April 2021, and noted as many as 20 of the 188 customers (including the former Mayor Pro Tem) may not have paid their March 2021 utility bill. Since copies of the handwritten

[11] The former Mayor Pro Tem's adjustments are included in the 522 total adjustments made to customer accounts from January 2020 through April 2021.

bills were not retained, we could not determine if these customers were not billed and did not pay, or if their payments were misappropriated.

Monthly reconciliations are necessary to ensure accounting records balance, transactions are properly recorded, and errors or discrepancies are detected timely. While the utility system can generate this information, it was not used. Had a reconciliation been performed and provided to the Board for review, these discrepancies may have been detected. Former board members and city officials indicated staff had resigned during this timeframe and the former Mayor Pro Tem prepared the handwritten billings likely to help conceal the misappropriations discussed in MAR finding number 1.

6.3 Sales tax

The city did not always file returns with the Department of Revenue (DOR) in a timely manner or remit all sales taxes collected related to water services provided. City officials did not remit sales taxes collected during 2020 to the DOR until October 2021, resulting in interest and penalties of $261.

Section 144.080, RSMo, requires sales tax collections be reported and remitted to the DOR on a monthly or quarterly basis, depending on the amounts collected. Additionally, penalties may be assessed under Section 144.250, RSMo, because of the city's failure to remit these sales taxes. Pursuant to 12 CSR 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax. City officials indicated they were not aware of these requirements or that sales taxes were not being remitted to the state.

Recommendations

The Board of Aldermen:

6.1 Ensure all adjustments to utility accounts are properly approved and compared to actual changes posted to the computer system, and documentation of all adjustments is retained.

6.2 Ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent.

6.3 Ensure sales taxes collected are reported and remitted timely.

Auditee's Response

6.1 We approve all adjustments to billing at monthly meetings. Once American Water takes over the water/sewer utility system, the city absolves all responsibility for any changes in billing.

6.2 We will approve all reconciliations of amounts billed to amounts collected and delinquent.

6.3 We will run reports quarterly and file returns with the Department of Revenue and remit sales taxes collected.

7. Payroll

City officials did not maintain documentation to support all payroll transactions.

- City officials did not have sufficient documentation (e.g., timesheet or ordinance) to support a $500 payment made to the City Clerk/Treasurer on December 1, 2020, with the memo line of the check indicating "Bonus-extra duties." The only documentation maintained to support the additional payment was a series of 6 sticky notes prepared and signed by the former Mayor Pro Tem that indicated:

  > I made dicission [sic] to pay Annie extra $500 for all the extra work on her doing all H_20 Bills all the ADjustments getting all the minutes prior clerk did not due [sic] all the extra calling of changing passwords-computer work, scanning Bill that were paid by prior clerk and collector. She had to work many hours & DAys to catch the City Hall Bills & Books UP to Date that WAS gone OR not Done. Also we only had one computer to use & TOOK ADVice of State Auditor & allowing few people in City Business till [sic] end of AuDit."

  The Board meeting minutes did not discuss the additional duties or the payment. The City Clerk/Treasurer was also paid her regular monthly salary of $700 in December 2020, in accordance with city ordinance.

- City officials could not provide timesheets to support a hourly maintenance employee's final payroll check, totaling $548, in February 2021.

- City officials could not provide payroll reports to support a $705 payment to the Internal Revenue Service for federal payroll taxes in March 2021.

Without timesheets or other documentation the city cannot ensure hours worked and payments made to employees are proper. Timesheets or other documentation should be signed by the employees and reviewed and approved by their supervisors. In addition, the Internal Revenue Code requires employers to file a 941 form by the last day of the month following the end of the quarter, along with payment of Social Security and Medicare taxes withheld from employees and the employer's share, as well as federal income taxes withheld. It is unclear why the former Mayor Pro Tem did not retain supporting documentation for these transactions.

Recommendation

The Board of Aldermen ensure adequate documentation is retained to support all payroll transactions.

Auditee's Response

All positions are salaried at this time and paid monthly. No bonuses will be paid. We will use a timesheet for any extra income and will not approve

retroactively. We will retain documentation of all payroll payments. There is no need for timesheets at this time. However, a process will be in place for final signature of payroll approval.

8. Budgets, Financial Reporting, and Maintenance Planning

The city did not prepare complete annual budgets or monitor budgets, file annual financial reports timely, publish semiannual financial statements in compliance with state law, or maintain a street maintenance plan.

8.1 Budgets

The Board does not have adequate procedures to prepare or monitor budgets.

Preparation

The city did not prepare a budget for the year ended December 31, 2021. There was no evidence in Board meeting agendas or minutes indicating a budget was adopted and approved for that year. In addition, the budget prepared for the year ended December 31, 2020, did not include all required elements. The budget documents did not include a budget message, actual or budgeted amounts for the 2 preceding years (only 2019 was included), the actual beginning and estimated ending cash balance for each fund, the city's indebtedness information, or a budget summary.

A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in determining tax levies and utility rates and informing the public about city operations and current finances. Section 67.010, RSMo, requires the budget present a complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included in the budget. In addition, Section 67.080, RSMo, provides that no expenditures of public funds should be made unless it is authorized in the budget. Current and former board members were not aware of the importance of these requirements.

Monitoring

The Board does not adequately monitor budget-to-actual receipts and disbursements because year-to-date budget-to-actual reports of financial activity were not presented to the Board during most of 2020 and a final budget-to-actual report was not prepared for the year ended December 31, 2020.

As a result, the Board does not have all available information to assist in effectively managing the city, and the public is not provided a complete overview of the city finances. Proper monitoring is necessary for the budget to be an effective management tool. Current and former Boards were not aware of the importance of monitoring budget-to-actual activity.

8.2 Financial reporting

The city did not file a financial report with the SAO for the year ended December 31, 2020, until November 23, 2021, resulting in a fine of $39,544.

Section 105.145, RSMo, requires each political subdivision to file an annual report of its financial transactions with the SAO. Under 15 CSR 40-3.030, each political subdivision must file its annual financial report within 6 months of the end of the subdivision's fiscal year. Section 105.145.5, RSMo, prohibits elected officials from continuing to receive compensation or processing disbursements after the deadline to submit the financial statement and until the financial statement is submitted to the SAO. Section 105.145.9, RSMo, provides that political subdivisions that fail to timely file the annual financial statement with the State Auditor shall be subject to a fine of $500 per day. In addition, current and former Boards were not aware of the importance of these requirements.

8.3 Published financial statements

The city did not publish semiannual financial statements as required by state law for the year ended December 31, 2020, or the first 6 months of 2021. As a result, information regarding the city's financial activity and condition was not available to all citizens.

Section 79.160, RSMo, requires the Board to prepare and publish semiannual financial statements that include a full and detailed account of the receipts, disbursements, and indebtedness of the city. Current and former Boards were not aware of this requirement.

8.4 Street maintenance plan

City officials have not developed a formal annual maintenance plan for city streets. Formal, approved, street maintenance plans, prepared along with the budget with citizen input, that include a description of the streets needing maintenance, the type of work to be performed, an estimate of the quantity and cost of materials needed, the dates such work could begin, the amount of labor required to perform the work, and other relevant information serve as a useful management tool and provide greater input into the overall budgeting process.

A plan provides a means to continually and more effectively monitor and evaluate the progress made in the repair and maintenance of streets throughout the year. Current and former Boards had informal plans for street repairs, but were not aware of the importance of developing, updating, and monitoring a formal street maintenance plan.

Recommendations

The Board of Aldermen:

8.1 Prepare annual budgets that contain all information required by state law and ensure budgets are adequately monitored.

8.2 Submit annual financial reports to the State Auditor's Office as required by state law.

8.3 Publish semiannual financial statements as required by state law.

8.4 Establish a formal annual street maintenance plan.

Auditee's Response

8.1 We will adopt a budget and approve in the Board minutes. The budget will include actuals from the previous two years, and expectations for that year's budget. The budget will also have a message of what the Board hopes to do in that budget year. The budget will also have actual cash balances for previous two years and any debt, beginning cash balances for the budget year, and end of year budget summary along with projected ending balances.

8.2 The Board is aware of the timeline of financial statements. Financial statement distribution and data reporting will be completed annually with the State Auditor's office within 6 months of the calendar year end.

8.3 We will post fund activity in the newspaper (or on bulletin board) and list expenditures. This should fulfill the legal requirement for posting a semiannual financial statement. Accounts payable reporting is being given to the Board for transparency monthly to help prepare a yearly financial statement.

8.4 A list of streets in need of repair will be prepared by taking a road inventory for improvements. We will start implementing the plans for repair working within the yearly road funds allocated for repairs.

9. Board Qualifications, Ordinances, and Sunshine Law

Procedures over board qualifications, ordinance codification, and Sunshine Law compliance need improvement.

9.1 Board qualifications

Former Alderwoman Nancy Wilson was elected as a write-in candidate and took the oath of office in June 2020 while owing delinquent personal property taxes. She did not pay her 2018 and 2019 personal property taxes until July

31, 2020, and still owed 2020 delinquent personal property taxes as of April 12, 2021,[12] when the Board voted to remove her from office.

Section 79.250, RSMo, states, "No person shall be elected or appointed to any office who shall at the time be in arrears for any unpaid city taxes, or forfeiture or defalcation in office." Procedures to review for potentially unqualified persons holding office are necessary to ensure the city and its board members comply with applicable laws. Former board members indicated they were unaware of the importance of these requirements.

9.2 Ordinances

The city does not maintain an up-to-date official ordinance book. Various ordinances were approved by the Board for the year ended December 31, 2020, but not codified. The most recent ordinance codified was approved in August 2018.

Because ordinances passed by the Board to govern the city and its residents have the force and effect of law, it is important ordinances be current and complete. Former board members acknowledged the ordinance book had not been updated for recent changes but did not provide a reason for this.

9.3 Sunshine law

The city does not always comply with requirements of the Sunshine Law and controls were not always in place to ensure minutes were properly prepared and approved. We noted the following concerns with minutes for meetings held from January 2020 through April 12, 2021.

- City officials could not locate minutes for open meetings held on February 10, 2020, January 25, 2021, and February 25, 2021. In addition, city officials could not provide dates for any additional meetings that may have been held from January 1, 2021, through April 12, 2021 (the time period the former Mayor Pro Tem was responsible for most activities of the city).

- Closed meeting minutes were not prepared for the 5 closed sessions referenced in open meeting minutes.

- The Board failed to specify the reasons for closing a meeting in the open meeting minutes for 4 of the 5 closed meetings held, and the agendas for 2 of these 4 closed meetings also did not cite the specific reasons for closure.

[12] Jasper County, Missouri, Collector of Revenue, Real Estate Tax Search is available at <https://www.jaspercountycollector.com/wrapper4.php?page=1&PHPSESSID=eh9mffj42muo53m2nbvkd7re52>, accessed September 9, 2021.

In addition, one additional agenda included a statement indicating "WE HOLD THE RIGHT TO CLOSE THIS MEETING AT ANYTIME IF THE NEED CALLS," which is insufficient notice of the vote to close. Also, the open meeting minutes related to this meeting agenda did not indicate a closed session was held.

- The preparer did not sign the meeting minutes and the date the Board approved the meeting minutes was not included for 15 open meetings to indicate minutes were properly documented and approved.

Former city officials indicated that the meeting minutes book went missing after a break in at city hall, and many of the meeting minutes provided for our review were unofficial copies maintained by former board members. Former board members were unaware of the requirements for closed sessions.

Section 610.020.7, RSMo, states minutes of open and closed meetings shall be taken and retained by the public governmental body. Section 610.022.2 RSMo, requires that the governmental body give notice of the time, date, and place of a vote to close a meeting, as well as the reason for holding it by specific reference in the meeting minutes. The meeting minutes should be signed by the preparer and approved by the Board to provide an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the meetings.

9.4 Public access policy

The Board has not adopted a written policy regarding public access to city records as required by state law. A written policy regarding public access to city records would establish guidelines for the city to make records available to the public. This policy should identify a person to contact, provide an address to mail such requests, and establish fees that may be assessed for providing copies of public records.

Section 610.023, RSMo, lists requirements for making records available to the public. Section 610.026, RSMo, allows the city to charge fees for providing access to and/or copies of public records and provides requirements related to fees. Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law. The Board indicated it was unaware of all these requirements.

Recommendations

The Board of Aldermen:

9.1 Establish procedures to ensure aldermen possess the qualifications required for holding office.

9.2 Ensure the city's official ordinance book is complete and updated timely.

9.3 Maintain complete and accurate meeting minutes for all meetings and ensure meeting minutes are signed by the preparer and approved by the Board. In addition, the Board of Aldermen should ensure specific reasons for closing a meeting are documented in the agendas and open meeting minutes.

9.4 Develop a written public access policy.

Auditee's Response

9.1 Policies and procedure are being drafted and will be approved by the Board for full transparency. Prior to taking the oath of office, the City Clerk will contact the Jasper County Collector of Revenue to review the candidate's tax status.

9.2 We will organize and update the ordinance book.

9.3 City meetings are now conducted in an appropriate manner in accordance with state statute. We will maintain minutes, and keep open and closed minutes. If we go into closed session, we will cite the state statute for the need for closing the meeting and be detailed.

9.4 A public access policy has been written and approved by the Board. Citizens may attend all Council meetings except closed meetings. Access to all public information is available during business hours, copies of such documents can be purchased for 10 cents per page.

10. Electronic Communication Policy

The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[13]

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the city is retained as required by state law. The Board indicated it was

[13] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed March 1, 2022.

unaware of the record retention requirements and the electronic communications guidelines.

Recommendation

The Board of Aldermen develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

All records, as well as communication will be written, approved, and scanned into electronic storage. We have a policy and procedure for records that includes electronic transfer of information to the state. We are in the process of working on an internal information technology (IT) secure network.

11. Capital Assets

The city does not maintain records of its capital assets. Additionally, city personnel do not tag, number, or otherwise identify assets or perform annual physical inventories. As a result, assets are more susceptible to theft or misuse.

Adequate capital asset records and procedures are necessary to provide controls over city property, to safeguard city assets that are susceptible to loss, theft, or misuse; and to provide a basis for proper financial reporting and insurance coverage. Former board members were not aware of the importance of maintaining capital asset records or performing annual physical inventories.

Recommendation

The Board of Aldermen ensure complete and detailed capital asset records are maintained that include all pertinent information for each asset such as tag number, description, cost, acquisition date, location, and subsequent disposition. The Board of Aldermen should also ensure city personnel properly tag, number, or otherwise identify all applicable city property and conduct and document an adequate annual inventory that documents all capital assets with the pertinent information.

Auditee's Response

We will develop an inventory system for electronic input and accountability. A detailed list of all city property will be inventoried and labeled. Such a list will be maintained in the office and updated regularly with newly purchased or newly removed items. Tagging with a label or stamped number for identification will be performed for all inventoried items.

City of Purcell
Organization and Statistical Information

The City of Purcell is located in Jasper County. The city was incorporated in 1903 and is currently a fourth-class city. The city employed 4 part-time employees on December 31, 2020.

City operations include utilities (water, sewer, and trash) and street maintenance. The city included on the August 3, 2021, ballot a question whether or not to sell the water/sewer utility to Missouri American Water for the sum of $200,000. Voters approved the sale. According to city officials, they plan to finalize the sale of the water/sewer system to Missouri American Water by June 2022.

Mayor and Board of Aldermen

The city government consists of a mayor and a 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at December 31, 2020, are identified below. The Mayor is paid $55 per month and Aldermen are paid $25 for attending the first meeting of each month as set by ordinance. In addition, the Mayor and Aldermen are also paid $5 for each additional special meeting held during each month as set by ordinance.

Nancy Wilson, Mayor Pro Tem (1)	June 2020 to April 2021
Dorothy Haddock, Alderwoman	April 2019 to April 2021
Kathleen Mann, Alderwoman (2)	November 2020 to April 2021
Carl "Bud" Crease, Alderman (3)	November 2020 to April 2021

(1) The position of Mayor was vacant from November 2020 until April 2021, when Kelsey Freelend was elected. Jerry Welch was previously appointed Mayor Pro Tem in September 2019, elected Mayor in June 2020, and resigned in October 2020. Nancy Wilson was elected as an Alderwoman in June 2020, filling the previously vacant position, and appointed as the Mayor Pro Tem in August 2020. On April 12, 2021, Nancy Wilson was removed from her position as Alderwoman and Mayor Pro Tem.

(2) Judy Welch served as alderwoman until her resignation in October 2020. Kathleen Mann was appointed to replace her in November 2020 and served in the position until Echo Valdez was elected April 2021.

(3) Kelsey Freelend served as Alderwoman until her resignation in October 2020. Morgin Smiles was appointed to replace her and served one month. Carl "Bud" Crease was appointed to replace Morgin Smiles in November 2020 and served in the position until Janet "Shelly" Jolly was elected April 2021.

Financial Activity

A summary of the city's financial activity, prepared by the city, for the year ended December 31, 2020, follows.

City of Purcell
Schedule of Receipts, Disbursements, and Changes in Cash

NICOLE GALLOWAY, CPA
Missouri State Auditor

March 10, 2021

Nancy Wilson, Mayor Pro Tem
And
Board of Aldermen
City of Purcell
P.O. Box 10
Purcell, MO 64857

Dear Mayor Wilson and Board,

I am writing to you related to the City of Purcell audit the State Auditor's Office will be performing pursuant to section 29.230, RSMo, that we originally notified you of in a letter dated November 20, 2020. Since that notification, we have received frequent communication that it is necessary to secure the records of the city.

In addition, on March 1, 2021, this office received the attached emails. This office had intended to send a staff auditor to the city to obtain records and data from the utility and accounting software. This office had to change its plans at the last minute and the staff auditor was unable to pick up the records on that day. This office was able to pick up the documents on March 5, 2021.

The first attached email accurately represents the correspondence sent from our office from Audit Manager Pamela Allison. The email includes an acknowledgement from 8:53 a.m. by Mayor Wilson to Audit Manager Pamela Allison that the auditor would be arriving on March 2 at 10 a.m.

The second email from 10:17 p.m. is a forwarded email of that same acknowledgement that appears to have been altered to state that "Kyle Cook" will arrive at 7 a.m. to obtain the records. The forwarded email with the email sender address of "Tamela.Pallison@auditor.mo.gov" did not come from the State Auditor's Office or any of its personnel. None of this office's employees, however, are named Kyle Cook. In addition, the forwarded email contains inaccurate and false information related to the work of this office, including false allegations related to having to follow through with charges that may be filed.

The purpose of the audit is to obtain an independent review of the condition of the city. The State Auditor will make recommendations for any findings that appear in the report. The State Auditor's Office is not a law enforcement agency and does not have the authority to arrest individuals. If concerns are noted during an audit that have criminal implications, those concerns are referred to the appropriate law enforcement agency for investigation and it is at that agency's discretion whether any arrests occur and if criminal charges are filed. The Board should also contact law enforcement if it determines any crime has possibly occurred.

Official correspondence from this office will be sent from Pamela Allison, Audit Manager or Kelly Davis, Assistant Audit Director. If you receive any further communication that appears to be from

P.O. Box 869 • Jefferson City, MO 65102 • (573) 751-4213 • FAX (573) 751-7984

our office and discusses criminal prosecution or you wish to verify, please contact Pamela Allison at 573-751-4213.

Sincerely,

Kelly Davis
Assistant Director of Audits

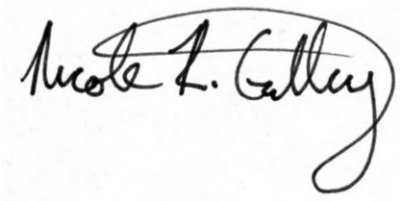
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 56 political subdivisions required to file a financial report by April 30, 2022, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in April 2022, after their filing deadline. The filing status for these 10 entities is presented in summary on page 3 and by individual entity in Appendix B to E.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 56 political subdivisions, other than cities, towns, and villages, with a fiscal year end of October 31, 2021. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 56 political subdivisions, 44 filed an annual financial report timely.

This report also includes the filing status for 10 political subdivisions, other than cities, towns, and villages, that filed their financial report in April 2022, after their filing deadline.

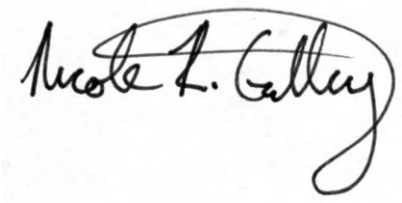
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by April 30, 2022, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 14 cities is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in April 2022, after their filing deadline. The filing status for these 42 cities and 6 villages is presented in summary on page 3 and by individual entity in Appendixes B to G.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 14 cities with a fiscal year end of October 31, 2021, whose financial report was due by April 30, 2022. Of the 14 municipalities, 13 filed the financial report timely. Of the 13 municipalities required to file an addendum, 10 filed timely. Of the 6 municipalities required to file a certification, 4 filed timely.

This report includes the filing status for 42 cities and 6 villages that filed at least one of the items (financial report, addendum, or certification) in April 2022, after their filing deadline. Of these municipalities, 18 filed an annual financial report, 30 filed an addendum, and 14 filed a certification.

Nicole Galloway, CPA

Missouri State Auditor

Worth County

Report No. 2022-030

June 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Worth County

Prosecuting Attorney's Controls and Procedures	The Prosecuting Attorney does not issue receipt slips for all money received. The Prosecuting Attorney's spreadsheets sent to victims and defendants showing current restitution accounts receivable balances are not always accurate.
Recorder of Deeds' Controls and Procedures	The Recorder of Deeds has not established proper procedures for receipting and recording money received, and does not perform adequate bank reconciliations and does not prepare a monthly list of liabilities.
Sheriff's Seized Property	A complete and accurate seized property evidence log has not been maintained and a physical inventory of seized property has not been performed since the Sheriff took office in January 2021.
Electronic Data Security	The County Collector, Recorder of Deeds, and Sheriff have not established adequate passwords controls to reduce the risk of unauthorized access to computers and data. The County Collector, County Clerk, County Treasurer, Recorder of Deeds, and Sheriff do not have security controls in place to lock computers after a specified number of incorrect logon attempts.
Electronic Communication Policy	The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 9

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Worth County

We have audited certain operations of Worth County in fulfillment of our duties under Section 29.230, RSMo. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2021. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

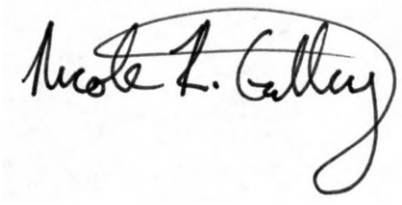
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal control, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of Worth County.



Nicole R. Galloway, CPA
State Auditor

1. Prosecuting Attorney's Controls and Procedures

Controls and procedures in the Prosecuting Attorney's office need improvement. The office collected approximately $46,300 in bad check and court-ordered restitution and fees during the year ended December 31, 2021.

1.1 Receipting

The Prosecuting Attorney does not issue receipt slips for all money received. During our review of March 2021 collections, we noted 2 instances where receipt slips were not issued and one instance where the receipt slip was issued late.

The Administrative Assistant indicated she did not issue a receipt slip in one instance due to unusual circumstances. A defendant paid cash to a court directly, and the court then sent the money to the Prosecuting Attorney's office. For the other instance with no receipt slip, the defendant mailed in a payment and the Administrative Assistant stated she usually issues receipt slips for money received in the mail, but does not know why this payment was not receipted. She stated for the receipt slip issued late, she forgot to issue a receipt slip and it was subsequently issued after a review by the Prosecuting Attorney.

Failure to implement adequate receipting procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected.

A similar condition was noted in our prior audit report.

1.2 Accounts receivable

The Prosecuting Attorney's spreadsheets sent to victims and defendants showing current restitution accounts receivable balances are not always accurate. For the payments received on 6 restitution cases in March 2021, incorrect balances were noted for 2 of the cases. The Administrative Assistant indicated the inaccurate balances were due to clerical error and improper use of accounting software.

Accurate restitution balances would allow office personnel to more easily review amounts due, take appropriate steps to ensure collection, and determine if any amounts are uncollectible.

Recommendations

The Prosecuting Attorney:

1.1 Issue receipt slips for all money immediately upon receipt.

1.2 Establish procedures to record accounts receivables accurately.

Auditee's Response

We agree with these findings and are implementing the recommendations.

2. Recorder of Deeds' Controls and Procedures

Controls and procedures in the Recorder of Deeds' office need improvement. The office collected approximately $17,000 for marriage licenses, deeds, and other miscellaneous receipts during the year ended December 31, 2021.

2.1 Receipting and recording

The Recorder of Deeds has not established proper procedures for receipting and recording money received.

- The Recorder of Deeds does not always issue receipt slips for money received immediately upon receipt. During our cash count on January 18, 2022, we identified $27 in cash that was not receipted. The Recorder of Deeds indicated the money was brought in earlier that day from an individual who did not bring in the deed to be recorded and the individual was supposed to bring the deed back and a receipt slip would be issued at that time. A receipt slip was subsequently issued the next day.

- The Recorder of Deeds does not issue receipt slips or maintain a log for copy money received. The County Treasurer keeps a log of copy money that is transmitted by the Recorder. The County Treasurer's records indicated $741 was transmitted by the Recorder of Deeds for copies in 2021. The Recorder of Deeds indicated that she did not think it was necessary to issue receipt slips or keep a log because the County Treasurer keeps a log and sometimes copy money is put into the donation can when she is doing other work and is not aware of it.

Failure to implement adequate receipting and recording procedures increases the risk that loss, theft, or misuse of money received will occur and go undetected.

2.2 Bank reconciliations and list of liabilities

The Recorder of Deeds does not perform adequate bank reconciliations and does not prepare a monthly list of liabilities. As a result, there is an unidentified balance of $159.

We performed a bank reconciliation as of December 31, 2021, and determined the reconciled bank balance was $558. The receipts for December subsequently paid out in January totaled $399, resulting in an overage of $159. The Recorder of Deeds did not think that a full bank reconciliation and list of liabilities were necessary because she checks to make sure her monthly disbursements agree to her monthly receipts and thought all liabilities were paid out each month.

Performing adequate monthly bank reconciliations increases the likelihood errors will be identified and corrected timely. Regular identification and comparison of liabilities to the reconciled bank balance is necessary to ensure accounting records are in balance, all amounts received are disbursed, and money is available to satisfy all liabilities. Differences should be investigated

and resolved. Various statutory provisions provide for the disposition of unidentified money.

Recommendations

The Recorder of Deeds:

2.1 Issue receipt slips for all money received upon receipt. In addition, maintain a log of copy money and reconcile it to the money transmitted to the County Treasurer.

2.2 Prepare adequate monthly bank reconciliations and lists of liabilities and reconcile the list of liabilities to the available cash balance. Any differences should be promptly investigated and resolved. In addition, if any money remains unidentified it should be disbursed in accordance with state law.

Auditee's Response

2.1 It is a rare occurrence for my office to receive money without a deed. In the future, we will not accept money without a deed and will always issue receipt slips. We will also keep a log of copy money and use the log when turning the money over to the County Treasurer.

2.2 We will take this into consideration and implement the recommendation. We will investigate the differences.

3. Sheriff's Seized Property

The Sheriff's office has not established adequate controls and procedures over seized property. A complete and accurate seized property evidence log has not been maintained and a physical inventory of seized property has not been performed since the Sheriff took office in January 2021.

A seized property evidence log is used to track seized property in the evidence room. We haphazardly selected 7 items from the evidence room to ensure they were on the log and the Sheriff could not locate 2 out of 7 items on the log (a dash camera and a bag of various seized items including a chainsaw). The Sheriff indicated there were other items in the room that are not on the log. The Sheriff also indicated that due to limited time and staff the log had not been updated and an inventory of seized property had not been performed.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, theft, or misuse of the property. Maintaining complete and accurate inventory control records and performing periodic physical inventories with the results compared to inventory records is necessary to ensure seized property is accounted for properly.

Recommendation

The Sheriff maintain a complete and accurate seized property evidence log, ensure a periodic inventory is conducted and reconciled to the seized property evidence log, and investigate any differences.

Auditee's Response

We agree with this finding and have started to implement this recommendation.

4. Electronic Data Security

Controls over county computers are not sufficient. As a result, county records are not adequately protected and are susceptible to unauthorized access or loss of data.

4.1 Passwords

The County Collector, Recorder of Deeds, and Sheriff have not established adequate passwords controls to reduce the risk of unauthorized access to computers and data. Employees in these offices are not required to change passwords periodically. In addition, the County Collector does not require a password for one of the office's computers. Each official indicated they did not know passwords needed to be changed regularly as the security for their computers is handled by the county's computer vendor. The County Collector added she did not believe a password was needed on all computers, as the only information contained on the one computer without a password is public information.

Passwords are necessary to authenticate access to computers; without a password, an unauthorized user could delete and/or manipulate data, causing inaccuracies when preparing settlements and other reports. The security of computer passwords is dependent upon keeping them confidential. However, since passwords are not periodically changed in certain offices, there is less assurance they are effectively limiting access to computers and data files to only those individuals who need access to perform their job responsibilities. Passwords should be changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data.

4.2 Security controls

The County Collector, County Clerk, County Treasurer, Recorder of Deeds, and Sheriff do not have security controls in place to lock computers after a specified number of incorrect logon attempts. The officials indicated they did not know computers should be locked after a certain number of incorrect logon attempts, as the security for their computers is handled by the county's computer vendor.

Logon attempt controls lock the capability to access a computer after a specified number of consecutive invalid logon attempts and are necessary to prevent unauthorized individuals from continually attempting to logon to a computer by guessing passwords. Without effective security controls, there is an increased risk of unauthorized access to computers and the unauthorized use, modification, or destruction of data.

Recommendations

The County Commission work with other county officials to:

4.1 Require passwords for all computers and employees and require the passwords be periodically changed to prevent unauthorized access to the county's computers and data.

4.2 Require county computers have security controls in place to lock each computer after a specified number of incorrect logon attempts.

Auditee's Response

We will take these recommendations into consideration and implement the recommendations.

5. Electronic Communication Policy

The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[1]

Development of a written policy to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The County Commission indicated it was unaware of the electronic communications record retention requirements and guidelines.

Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

We will take this into consideration and implement the recommendation.

[1] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed April 21, 2022.

Worth County
Organization and Statistical Information

Worth County is a county-organized, third-class county. The county seat is Grant City.

Worth County's government is composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed 11 full-time employees and one part-time employee on December 31, 2021.

In addition, county operations include a Senior Citizen Services Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2022	2021
Jubal Summers, Presiding Commissioner	$	25,242
Regan Nonneman, Associate Commissioner		23,884
Tyler Paxson, Associate Commissioner		23,884
Barbara Foland, Recorder of Deeds		34,627
Roberta Owens, County Clerk		34,627
Janet Wake Larison, Prosecuting Attorney		44,574
Scott Sherer, Sheriff		44,387
Linda L. Brown, County Treasurer		34,627
Sharon Supinger, County Coroner		10,582
Patsy A. Worthington, Public Administrator		11,109
Julie Tracy, County Collector, year ended February 28,	34,627	
Carolyn J. Hardy, County Assessor, year ended August 31,		34,291

CITIZENS SUMMARY

Findings in the audit of the Clinton County Commission and County Clerk

Payroll Controls and Procedures

The county incurred significant penalties and interest, and made over- and underpayments because of inadequate controls and procedures over the timely filing of various payroll tax and benefit forms and related tax payments. Also, significant improvement is needed in the county's payroll controls and procedures.

The County Clerk does not ensure payroll tax forms are filed and payroll taxes are remitted timely to the Internal Revenue Service (IRS), as required, and as a result, the county was assessed $64,298 in penalties and $9,614 in interest. Also, as of January 31, 2022, at least $142,864 is still due to the IRS including significant penalties and interest still accruing.

The County Clerk does not have adequate controls to ensure employees are paid accurately, and as a result, some employees were underpaid ($2,357) and others were overpaid ($20,258) for the period of January through April 2021. Also, the County Commission changed the payroll cycle 2 times from 2019 to 2021, which may have contributed to the inaccurate payments.

The County Clerk did not ensure retirement contributions withheld from employee paychecks were accurate and remitted timely to the respective retirement plans. The County Clerk erroneously calculated County Employees Retirement Fund (CERF) withholdings after the county changed pay periods in March 2020, and CERF personnel identified numerous errors. He also did not enroll some employees timely in the retirement system and incorrectly reported the rehiring and hiring dates for some employees with the Local Government Employees Retirement System (LAGERS). The County Clerk also failed to timely remit withholdings from employee pay to the deferred compensation plan.

The County Clerk failed to ensure numerous payments made to the IRS, CERF, and LAGERS were accurately recorded in the accounting records, which may have prevented other county officials from identifying the untimely payments and amounts owed. Also, the County Commission did not periodically review the accuracy of the records.

The County Clerk failed to remit child support garnishments to the Missouri Department of Social Services Family Support Division Payment Center within 7 days as required.

The County Commission and County Clerk did not ensure personnel policies were updated to reflect approved changes, and some policies are not always followed.

The County Clerk did not ensure accurate 2018 W-2 forms were filed with the Social Security Administration (SSA) in January 2019.

Disbursement Procedures

Disbursement controls and procedures need improvement.

Between June 2019 and March 2021, County Clerk's office personnel made several duplicate and erroneous payments to vendors, including $71,536 paid

to a vendor that was only owed $5,435. No one was aware of these payment errors until the vendors contacted the county or refunded the overpayments.

The County Commission and County Clerk do not ensure bills are paid timely. Between February 26, 2019 and June 5, 2021, the county incurred late fees and finance charges due to untimely payments.

The County Commission did not solicit proposals for accounting services, and neither the County Commission nor the Sheriff solicited bids for prisoner meals.

Budgets

County budgeting procedures need improvement. For the 2021 budget, the County Commission budgeted General Revenue Fund receipts and disbursements so that the estimated ending fund balance would be zero, effectively appropriating all available funds to be spent in the current year, regardless of the actual estimated activity for the fund. The County Commission budgeted deficit cash balances for the Investigative Squad Fund in the 2022 and 2021 budgets. The County Commission does not adequately monitor budget-to-actual receipts and disbursements.

Sunshine Law

The county's procedures to ensure compliance with the Sunshine Law need improvement. The County Commission has not adopted a written policy regarding public access to county records as required by state law. The county did not always comply with the requirements of the Sunshine Law for closed meetings.

Electronic Communication Policy

The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.

In the areas audited, the overall performance of this entity was **Poor**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
County Clerk of Clinton County, Missouri

We have audited certain operations of the Clinton County Commission and County Clerk in fulfillment of our duties under Chapter 29, RSMo. Due to concerns regarding the County Clerk's handling of county disbursements including payroll and employee benefit payments, the State Auditor's Office initiated the audit at the request of the Clinton County Commission. The scope of our audit included, but was not necessarily limited to, the period January 1, 2019, through December 31, 2020. The objectives of our audit were to:

1. Evaluate the County Commission and County Clerks' internal controls over significant management and financial functions.

2. Evaluate the County Commission and County Clerks' compliance with certain legal provisions.

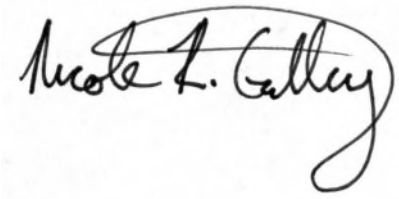
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

4. Determine the extent of improper use or waste of public resources.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the county, as well as certain external parties; and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) waste of public resources. The accompanying Management Advisory Report presents our findings arising from our audit of the Clinton County Commission and County Clerk.



Nicole R. Galloway, CPA
State Auditor

Clinton County Commission and County Clerk
Introduction

Background

State law defines the duties of County Commission, which include regulating use of county property by issuing orders or ordinances; approving the county budget; approving expenditures; establishing policies for county employees; overseeing the construction and maintenance of county roads; and overseeing the maintenance of the county court house and jail.

Patrick Clark was elected as Presiding Commissioner in November 2018 and took office in January 2019, and is currently serving his term that expires in December 2022. During the year ending December 31, 2020, he received compensation of $32,919. Gary McCrea was elected as the 1st District Commissioner and served from January 1, 2017 through December 31, 2020.[1] During the year ending December 31, 2020, he received compensation of $31,138. Larry King was elected as the 2nd District Commissioner and served from January 1, 2005 through December 31, 2020.[2] During the year ending December 31, 2020, he received compensation of $31,134.

The County Clerk is the chief fiscal and administrative officer of the county, whose duties include maintaining records of disbursements approved for payment by the County Commission and overseeing payroll processing for county employees, the issuance of county licenses, and the collection of various fees for remittance to the county treasury. The County Clerk is also the custodian of records for the county. That position is responsible for maintaining County Commission meeting minutes.

David Woody was elected as the County Clerk in November 2018 and took office in January 2019, and is currently serving his term that expires in December 2022. During the year ending December 31, 2020, he received compensation of $56,370, which included $9,639 in commissions for preparing city property tax books. The County Clerk's office had 1 deputy/elections clerk and 1 payroll/accounts payable clerk as of December 31, 2020.

The payroll/accounts payable clerk's primary duties include processing employee paychecks, verifying work hours, processing deductions from wages, issuing wage statements, updating and maintaining payroll records, receiving vendor invoices for payment, recording payments in the electronic accounting system, preparing and distributing checks, and maintaining supporting documentation. This position had significant turnover during the audit period with 5 different individuals holding the position between January 2019 and January 2021. The deputy/election clerk's duties include receipting,

[1] Jay Bettis was elected in November 2020 as the 1st District Commissioner and took office in January 2021.

[2] Richard Riddell was elected in November 2020 as the 2nd District Commissioner and took office in January 2021.

depositing, disbursing, and reconciling the fees collected in the County Clerk's office, issuing county licenses, and handling elections.

In September and October 2020, the State Auditor's Office (SAO) whistleblower hotline received various concerns regarding the County Clerk's handling of county payroll and related employee benefits and late county bill payments. Under Section 29.221, RSMo, the SAO sent a letter dated October 19, 2020, to the Presiding Commissioner notifying the county that our office was conducting an initial review of the allegations to determine if the complaints were credible and requested records be provided to our office. After completion of a review of documentation and communications provided, the SAO determined further investigation was warranted under Section 29.221, RSMo. On October 29, 2020, the SAO received a letter from the Officeholders of Clinton County, with the exception of the County Clerk, requesting an audit. On November 10, 2020, the SAO sent an acceptance letter to the Clinton County Presiding Commissioner agreeing to conduct an audit under the authority granted in Section 29.230, RSMo.

The county's fiscal year is January 1 through December 31. The scope of our audit included, but was not necessarily limited to the period January 1, 2019, through December 31, 2020.

1. Payroll Controls and Procedures

The county incurred significant penalties and interest, and made over- and underpayments because of inadequate controls and procedures over the timely filing of various payroll tax and benefit forms and related tax payments. Also, significant improvement is needed in the county's payroll controls and procedures.

The county paid salaries, wages, and benefits totaling approximately $2 million during the year ended December 31, 2019, and $2.1 million during the year ended December 31, 2020.

1.1 Payroll taxes

The County Clerk does not ensure payroll tax forms are filed with and payroll taxes are remitted to the Internal Revenue Service (IRS) timely, as required, and as a result, the county was assessed $64,298 in penalties and $9,614 in interest. Also, as of January 31, 2022, at least $142,864 is still due to the IRS including significant penalties and interest still accruing. In addition, it is likely the IRS will assess additional penalties and interest related to other late filings and remittances.

At our request, the County Clerk contacted the IRS and obtained payroll tax account transcripts, for the tax years 2019, 2020, and 2021, and we noted the following:

- The County Clerk failed to ensure the first and second quarter 2019 payroll tax returns were filed timely. The County Clerk did not file the first quarter return until July 8, 2019 and the second quarter return until August 12, 2019. As a result, the county incurred a penalty of $762 for the first quarter and $840 for the second quarter. The county paid these penalties in July and August 2019.

- The County Clerk failed to ensure the third quarter 2019 payroll taxes were remitted and the payroll tax return was filed timely. The return was not filed until April 5, 2021. The IRS applied $29,866 in payroll taxes remitted for another tax period to the amounts due for this quarter on August 30, 2021. As of January 31, 2022, $86,811 in payroll taxes, interest, and penalties is still due.

  The IRS assessed the county $35,430 in penalties and $7,432 in interest for the late submissions. The IRS transcripts also indicate that additional penalties of $1,722 (as of October 31, 2019) and interest of $1,559 (as of February 14, 2022) have accrued and will continue to accrue until the balance is paid.

- The County Clerk failed to ensure the fourth quarter 2019 payroll tax return was filed timely. The return was not filed until January 4, 2021. As of January 31, 2022, the IRS had not assessed any penalties or interest for the late filing.

- The County Clerk failed to ensure the January 2020 payroll taxes were remitted and the first quarter 2020 payroll tax return was filed timely. The payroll taxes were fully remitted on April 21, 2020, and the return was filed on February 22, 2021.

  As a result, the county incurred a penalty of $7,239 and interest of $113. The IRS applied $7,352 of taxes remitted for another tax period to pay the balance due for penalties and interest for this quarter on August 30, 2021.

- The County Clerk failed to ensure the second quarter 2020 payroll tax return was filed timely. The return was not filed until April 12, 2021, and as a result, the county incurred a penalty of $5,854. The county owes $6,004, as of January 31, 2022, for this late filing, which includes accrued interest of $150 (as of February 14, 2022), that will continue to accrue until the balance is paid.

- The County Clerk failed to ensure the third and fourth quarter 2020 payroll taxes were remitted and the payroll tax returns was filed timely. The returns were not filed until February 2022. The IRS applied $84,900 remitted on October 18, 2021 to the fourth quarter 2020 taxes. Due to the late filing of the payroll tax return, the amount of penalties and interest due is unknown, but both are likely to be assessed once the IRS processes the return. In addition, additional taxes may be due.

- The County Clerk failed to ensure the first and second quarter 2021 payroll tax returns were filed timely. The first quarter return was not filed until July 12, 2021 and the second quarter return was not filed until October 11, 2021. As of January 31, 2022, the IRS had not assessed any penalties or interest for first quarter late filing. The county incurred a penalty of $3,322 for the second quarter, which was paid and applied on August 30, 2021.

- The County Clerk failed to ensure the third quarter 2021 payroll taxes were remitted and the payroll tax return was filed timely. The return was not filed until February 7, 2022. As a result, the county incurred a penalty of $9,129 and interest of $331, and owed $50,049 as of January 31, 2022, including accrued interest of $29 (as of February 14, 2022) that will continue to accrue until the balance is paid. On February 8, 2022, the County Clerk made a $32,242 payment to the IRS, and the IRS applied it to amounts owed for the third quarter of 2021.

The Internal Revenue Code requires employers to file a 941 form by the last day of the month following the end of the quarter, along with payment of Social Security and Medicare taxes withheld from employees and the employer's share, as well as federal income taxes withheld. The IRS requires

employers to report all compensation on W-2 forms and withhold and remit income and payroll taxes. Controls and procedures to ensure taxes and forms are remitted and filed properly are necessary to prevent the county from incurring unnecessary penalties and interest. The County Clerk indicated he was not aware the previous payroll clerks did not file the payroll returns or remit payroll taxes timely to the IRS. It is the County Clerk's responsibility to oversee the work of his staff and ensure regulatory compliance deadlines are met.

1.2 Payroll disbursements and payroll schedule changes

The County Clerk does not have adequate controls to ensure employees are paid accurately. Also, the County Commission changed the payroll cycle twice from 2019 to 2021, which may have contributed to the inaccurate payments.

At the beginning of 2019, the county paid employees once a month. In March 2020, the county changed the payroll cycle to biweekly[3] and then in January 2021 changed to a semimonthly[4] payroll cycle. When the county changed to a semimonthly payroll cycle, the County Clerk failed to properly account for the number of days worked when the new pay period began and for changes in wages from 2020 to 2021, causing employees to be overpaid (on the January 15, 2021 payroll check, employees were paid for 70 to 80 hours of work, but should have only been paid an average of 48 hours of work).

The County Commission hired an accounting firm to review the county's payroll for the period of January through April 2021. The review showed 9 employees were underpaid a total of $2,357 and 46 employees were overpaid a total of $20,258. During the October 5, 2021, County Commission meeting, the Commissioners approved paying the 9 employees who were underpaid and not seeking reimbursement of the overpayments. The County Commission indicated it was not aware changing the payroll cycle could cause disruptions to the payroll process. The County Clerk indicated he made a mistake in calculating the number of hours to pay for the first pay period in January due to the change in the pay frequency and basis.

Frequent changes in payroll cycles without proper oversight and review can lead to errors and misunderstandings. Proper review of payroll disbursements is necessary to ensure all payroll transactions are accurate and accounted for properly. Without a thorough review, errors and waste of county resources could go undetected.

[3] On a biweekly schedule, an employee is paid every other week, on a specific day of the week and is paid 26 times per year.

[4] On a semimonthly schedule, an employee is paid twice each month (on the 15th day of the month and again on the 30th of the month in Clinton County). With this cycle, employees are paid 24 times per year.

1.3 Employee retirement contributions

The County Clerk did not ensure retirement contributions withheld from employee paychecks were accurate and remitted timely to the respective retirement plans.

County Employees' Retirement Fund (CERF)

The County Clerk erroneously calculated CERF withholdings after the county changed pay periods in March 2020. The County Clerk indicated 2 percent was withheld from employee pay instead of the 4 percent required. The County Clerk indicated he mistakenly thought because the county would be paying employees twice a month, the contribution percentage should be changed to half of the amount previously withheld when the county paid monthly. Upon discovering the error, the county requested CERF personnel to perform a review of CERF withholdings and payments made for the years ending December 31, 2019 and 2020.

CERF personnel indicated their review identified the following concerns (1) the county reported incorrect/incomplete payroll information for some employees; (2) the county over withheld CERF contributions for some employees; (3) the county under withheld CERF contributions for some employees; (4) the county reported one employee to the CERF as terminated, when the employee started working part-time; (5) the county did not enroll several employees in the CERF at the time they were hired, but withheld contributions; and (6) when the county attempted to correct some of the under payments of CERF contributions, the county did not withhold the amount due from the employees, but instead paid the amount owed from county funds. In February 2021, the county made a payment of $4,194 to correct any remaining errors. CERF personnel also indicated the county was instructed to refund $1,943 to 8 county employees for contributions withheld from their pay. CERF personnel indicated that while these employees should have been enrolled, they were not, so the county could not withhold CERF contributions from their pay. The County Clerk issued refunds to these employees on May 12, 2022.

The County Clerk also failed to timely remit monthly payments to the CERF in August and September 2019; July, August, and November 2020; and February 2021. The CERF requires remitting of withholdings before the next county payroll cycle. The County Clerk did not remit withholdings for August and September 2019 until November 2019, July and August 2020 until October 2020, November 2020 until February 2021, and February 2021 until April 2021.

Local Government Employees Retirement System (LAGERS)

The County Clerk did not enroll some employees timely in the retirement system and incorrectly reported the rehiring and hiring dates for some employees with the LAGERS. According to a LAGERS statement of account dated February 2021, the county owed $450 in contributions for under reported wages for 3 employees, $7,994 for back pay adjustments for 7 employees, and $1,072 for a November 2020 contribution underpayment. In

March 2021, the county paid $9,516 to the LAGERS to make these corrections.

In addition, the County Clerk failed to timely remit monthly payments to the LAGERS in March, July, August, and September 2020 and February 2021. The LAGERS requires withholdings be remitted by the 12th of the following month. The County Clerk remitted withholdings for March 2020 on April 21, 2020, July 2020 on August 25, 2020, August and September 2020 on October 20, 2020, and February 2021 on March 30, 2021.

457 Deferred Compensation Retirement Plan (457 Plan)

The County Clerk failed to remit $3,129 withheld from employee pay to the 457 plan (which is administered by the CERF) between September 2019 and March 2020. These withholdings were subsequently remitted on April 20, 2020. While the CERF matched the 2020 employee contribution amounts, they did not match 2019 employee contribution amounts due to the untimely remittance. As a result, 5 employees did not receive matching CERF contributions totaling $1,021. The County Clerk subsequently, personally, reimbursed each of the employees for their lost matching contributions in October 2021.

Conclusion

Proper review of retirement contribution withholdings and related remittances are necessary to ensure all payroll transactions are accurate, accounted for properly, and employees receive necessary benefits. Without a thorough review, errors and waste of county resources could go undetected. The County Clerk indicated he was not aware the previous payroll clerks did not properly withhold and remit employee retirement system contributions. It is the County Clerk's responsibility to oversee the work of his staff and ensure payroll and benefit transactions are accurate.

1.4 Accounting records

The County Clerk did not maintain accurate accounting records, which may have prevented other county officials from identifying the untimely payments and amounts owed. Also, the County Commission did not periodically review the accuracy of the records.

- The County Clerk failed to ensure payments made to the IRS were accurately recorded in the county's accounting system as follows:

Date of Transaction	Payment Recorded in Accounting System	Actual Payment
08/01/2019	$ 34,880	36,938
08/06/2019	43	NA
09/10/2019	207	NA
02/04/2020	37,835	12,180
04/21/2020	NA	25,655
08/19/2020	17,499	NA
09/08/2020	52,840	NA
01/05/2021	50,600	NA

NA Not applicable because either no payment was recorded in the accounting system or no payment was made.

- The County Clerk failed to ensure payments made to the CERF were accurately posted in the county's accounting system as follows:

Date of Transaction	Payment Recorded in Accounting System	Actual Payment
02/01/2019	$ 5,951	5,946
03/04/2019	5,781	5,635
04/03/2019	6,260	6,235
04/30/2019	6,425	6,404
06/03/2019	6,080	5,942
08/01/2019	5,374	5,365
08/06/2019	11	102
09/10/2019	49	5,641
11/19/2019	NA	5,475
11/05/2019	5,537	5,043
11/20/2019	10,518	NA
11/27/2019	5,578	4,886
01/02/2020	5,207	4,736
02/04/2020	5,661	4,996
03/03/2020	5,227	4,461
07/03/2020	NA	5,294
03/02/2021	5,918	2,949
04/22/2021	NA	3,012
04/29/2021	6,283	6,305

NA Not applicable because either no payment was recorded in the accounting system or no payment was made.

- The County Clerk failed to ensure payments made to the LAGERS were accurately recorded in the county's accounting system as follows:

Date of Transaction	Payment Recorded in Accounting System	Actual Payment
02/01/2019	$ 7,248	7,341
03/04/2019	7,124	7,260
04/03/2019	7,831	7,811
04/30/2019	7,539	7,435
06/03/2019	7,209	7,075
06/26/2019	6,866	6,916
08/01/2019	7,099	6,970
09/05/2019	7,372	7,211
10/03/2019	6,980	6,618
11/05/2019	6,263	5,734
11/27/2019	6,972	5,964
01/02/2020	6,473	5,742
02/04/2020	8,068	7,180
03/03/2020	7,478	6,497
07/03/2020	NA	7,186

NA Not applicable because either no payment was recorded in the accounting system or no payment was made.

As a result of the numerous errors made in the County Clerk's accounting records, the County Treasurer could not balance her records with those maintained by the County Clerk's office as required. The County Treasurer repeatedly reported her concerns regarding the inaccurate accounting records maintained by the County Clerk and the county's negative fund balances from February 2020 through March 2021 to the County Commission, County Clerk, and State Auditor's Office. In addition, as of September 2021, the County Treasurer indicated she was only able to balance her records to the County Clerk's through May 2021.

To be of maximum assistance to the County Commission and to adequately inform the public, the county's accounting records should accurately report financial activity and account balances. Inaccurately recorded financial information makes it difficult to detect loss, theft, or misuse of funds. In addition, Section 51.150.1(1), RSMo, requires the County Clerk to keep regular accounts between the County Treasurer and the county. Section 51.150.1(4), RSMo, requires the County Clerk to balance and display the accounts kept by him as often as required by the County Commission. Section 49.260, RSMo, requires the County Commission, or some commissioner thereof, to examine and verify the money on hand up to the day on which the settlement is made. Such procedures are intended to establish checks and balances related to the collection and disbursements of county money. The

County Commission indicated it was not aware of these requirements. The County Clerk indicated the office had a high turnover in employees, which caused inaccuracies in the accounting records. It is the County Clerk's responsibility to oversee the work of his staff and ensure accounting records are accurate.

1.5 Child support garnishments

The County Clerk failed to remit child support garnishments to the Missouri Department of Social Services (DSS) Family Support Division Payment Center within 7 days as required. We noted the following late remittances during the year ended December 31, 2020:

Date Child Support Withheld from Paycheck	Date Child Support Remitted to DSS	Amount of Child Support	Number of Days Between Withholding and Remittance
03/18/2020	04/08/2020	$ 126	21
06/11/2020	07/28/2020	784	47
06/25/2020	07/28/2020	784	33
07/23/2020	08/19/2020	784	27
07/23/2020	09/08/2020	182	47
08/06/2020	09/08/2020	849	33
10/13/2020	11/17/2020	755	35
12/10/2020	01/05/2021	636	26

In addition, on March 18, 2020, $350 was withheld from an employee's paycheck for a child support garnishment. The County Clerk remitted this child support garnishment to the DSS on May 17, 2022.

For child support garnishments issued by the Family Support Division, Section 454.505.8, RSMo, requires that an employer or other payer who fails or refuses to withhold or pay the amounts as ordered shall be liable to the party holding the support rights in an amount equal to the amount which became due to the parent during the relevant period and which, pursuant to the order, should have been withheld and paid over. Section 454.505.3, RSMo, requires the employer to transmit the payments as directed in the order within 7 business days of the date the earnings were payable to the obligor. The County Clerk indicated he was not aware his former payroll clerks did not timely remit child support garnishments to the DSS. It is the County Clerk's responsibility to oversee the work of his staff and ensure garnishments are processed as required.

1.6 Personnel policies

The County Commission and County Clerk did not ensure personnel policies were updated to reflect approved changes, and some policies are not always followed. The personnel policy was adopted on March 1, 2008 and updated on May 4, 2021.

- The County Commission failed to revise the personnel policy for payroll cycle changes (see Section 1.2) as they occurred. The personnel policy states "All county employees will be paid on the last working day of the month."

- On March 14, 2019, the County Commission voted to set the working schedule for Road and Bridge employees as a 5 day work schedule starting the week of April 1, 2019. However, the personnel policy was not revised and indicates "County Highway Department employees will be required to follow seasonal and/or regular working hour schedules, as determined by the department supervisor. Such schedules are subject to change at random based on seasons, time changes, weather conditions, etc..."

- On September 22, 2020, the County Commission voted to apply the vacation policy[5] to all employees and voted to pay time and a half to anyone who works on 1 of the 12 approved county holidays. Prior to this date, the Sheriff's office was not following the county's vacation policy. According to the Sheriff, his employees historically earned 16 hours of vacation each month. As a result of the difference in county policy and the Sheriff's office practice, the County Commission agreed to settle a dispute over vacation compensation with 3 former Sheriff's office employees in April 2021 for $5,266. In addition, county officials had not updated the personnel policy to address the payment of time and a half for holidays.

Personnel policies should be updated to provide guidance to county employees, and strict compliance with personnel policies is necessary to ensure equitable treatment of employees, prevent misunderstandings, and ensure employees are properly compensated. The County Commission indicated it was not aware the policies were not updated to reflect approved changes. The County Clerk indicated he was not aware it was his responsibility to update the personnel policy manual.

1.7 Social Security filings

The County Clerk did not ensure accurate 2018 W-2 forms were filed with the Social Security Administration (SSA) in January 2019. On November 1, 2019, the SSA notified the county that the 2018 W-2 forms did not agree to 941 forms filed with the IRS. Some of the 2018 W-2 forms were missing

[5] The county's personnel policy provided for full-time employees to earn 1 week of vacation after 1 year of service, 2 weeks after 2 years continuous service, 3 weeks after 10 years continuous service, and 4 weeks after 20 years continuous service, and for vacation to be used during the anniversary year in which it is earned. The county policy also indicated Sheriff's office employees may only accrue up to 200 hours of vacation and/or holiday time. At the end of the year only 200 hours will be carried over; anything over 200 hours will be lost.

social security numbers, and this omission caused the entire county wage file to be rejected by the SSA. The County Clerk subsequently corrected the errors, and on May 22, 2020, the county received a letter from SSA stating all of the errors would be resolved by May 29, 2020, and the matter would be closed.

Employers must send Copy A of W-2 forms to the SSA to report the wages and taxes of employees for the previous calendar year under 26 CFR Section 31.6051-2. The filing deadline is the end of January. The failure to file accurate forms could result in penalties. The County Clerk indicated he took office a month prior to the filing deadline and was not aware the former payroll clerk did not file the W-2 forms correctly with the SSA.

Recommendations

The County Commission and the County Clerk:

1.1 Ensure payroll tax returns are filed with and payroll taxes are remitted to the IRS timely, and take immediate action to pay amounts due.

1.2 Develop controls and procedures to ensure payroll disbursements are accurate and consider the impact of changes to the payroll cycle before approving future changes.

1.3 Develop controls and procedures to ensure payroll withholdings are calculated and disbursed correctly. In addition, the County Clerk should ensure all payroll withholdings are timely disbursed to the appropriate entities.

1.4 Prepare accounting records that accurately reflect the financial activity of the county, and perform documented reviews of monthly reconciliations between the County Clerk and the County Treasurers' accounting records.

1.5 Ensure child support garnishments are timely remitted to the DSS.

1.6 Revise personnel policies to reflect approved changes and ensure compliance with county personnel policies.

1.7 Ensure accurate W-2 forms are timely filed with the Social Security Administration.

Auditee's Response

The County Commission and County Clerk provided the following responses:

1.1 We have implemented a certification form that will be signed by the Commissioners and County Clerk to ensure payroll tax returns are filed with and payroll taxes are remitted to the IRS timely, and take immediate action to pay amounts due.

1.2 We will develop controls and procedures to ensure payroll disbursements are accurate and consider the impact of changes to the payroll cycle before approving future changes.

1.3 We have developed controls and implemented a certification form that will be signed by the Commissioners and County Clerk to ensure payroll withholdings are calculated and disbursed correctly. We will ensure all payroll withholdings are timely disbursed to the appropriate entities.

1.4 We will ensure accurate accounting records are prepared. We are in the process of implementing a certification form to document our review of the accuracy of accounting records and financial statements and the monthly reconciliations between the County Clerk and County Treasurer's accounting records.

1.5 We have implemented a certification form and process to ensure child support garnishments are timely remitted to the DSS.

1.6 We are in the process of revising personnel policies to reflect approved changes, and we will ensure compliance with county personnel policies.

1.7 The certification form we are in the process of implementing will ensure accurate W-2 forms are timely filed with the Social Security Administration.

2. Disbursement Procedures

Disbursement controls and procedures need improvement. The county disbursed (excluding payroll) approximately $4.3 million during the year ended December 31, 2019 and $4.6 million during the year ended December 31, 2020.

2.1 Duplicate and erroneous payments

Between June 2019 and March 2021, County Clerk's office personnel made several duplicate and erroneous payments to vendors. No one was aware of these payment errors until the vendor contacted the county or refunded the overpayments.

- Office personnel made duplicate payments to a vendor totaling $6,882, including overpayments made in June 2019 ($5,106), March 2020 ($773), April 2020 ($552), May 2020 ($407), and June 2020 ($44). The county received a refund for all these overpayments from the vendor in June 2020.

- Office personnel made a $340 payment to a vendor for tires on September 15, 2020, and again on September 29, 2020.

- Office personnel issued a $71,536 payment to a vendor on July 21, 2020 when the vendor was only owed $5,435. The vendor returned the check to the county, and the county paid the vendor correct amount on July 30, 2020.

- County Clerk's office personnel issued a $38,352 check to the health insurance provider on February 1, 2021, and a $69,223 electronic payment to the provider on February 22, 2021, with total payments of $107,575. However, the county only owed $80,284 for February and March premiums and January and February claims, resulting in an overpayment of $27,291. The health insurance provider issued a credit to the county in March 2021 for the amount overpaid.

The practice of canceling invoices and other supporting documentation and reviewing past payments to vendors prior to making additional payments reduces the likelihood of duplicate payments occurring and helps safeguard against possible loss or misuse of funds. The County Clerk indicated the incorrect payments were caused by high employee turnover in 2020 and office personnel overriding existing controls. It is the County Clerk's responsibility to oversee the work of his staff and ensure controls are in place and operating as designed.

2.2 Late fees and finance charges

The County Commission and County Clerk do not ensure bills are paid timely. Between February 26, 2019 and June 5, 2021, the county incurred late fees and finance charges due to untimely payments. The fees and additional charges included $1,071 for late credit card payments and $500 for late lease and other bill payments. The county discontinued use of credit cards in September 2019.

In addition, the October 1, 2020, County Commission meeting minutes indicate the County Clerk's office was notified by a vendor that it had not been paid for an August 14, 2020, invoice addressed to the Sheriff's office, and the County Clerk's office had not received the invoice from the Sheriff's office for payment. The county paid the $1,123 invoice on October 8, 2020.

Controls and procedures to ensure timely disbursements are necessary to prevent unnecessary fees and finance charges. The County Commission and the County Clerk indicated they were not aware of the importance of monitoring bills in order to avoid late fees and finance charges.

A similar condition was noted in our prior audit report, *Clinton County,* Report No. 2018-140, released in December 2018.

2.3 Procurement procedures

The County Commission did not solicit proposals for accounting services, and neither the County Commission nor the Sheriff solicited bids for prisoner meals.

In March 2021, the County Commission hired an accounting firm to review the county's payroll records from January 2021 through April 2021, as noted in MAR finding number 1.2. The accounting firm provided the county an engagement letter; however, the letter did not state the costs of the engagement. The county paid the accounting firm $7,808 during 2021. The County Commission indicated it was not aware the costs of the services would exceed the $6,000 bidding threshold.

In addition, the county spent approximately $23,767 during the year ended December 31, 2019, and $32,862 during the year ended December 31, 2020 with a local grocery store for prisoner meals. The Sheriff indicated he considered the local grocery store a sole source vendor; however this determination was not documented. The Sheriff's office also purchases food for prisoner meals from a local meat locker plant and a membership-only retail warehouse vendor.

Section 50.660, RSMo,[6] required competitive bidding when county contracts and purchases with a single vendor exceed $6,000 within 90 days. Routine use of a competitive procurement process for major purchases ensures the county has made every effort to obtain the best and lowest price and all interested parties are given an equal opportunity to participate in county business. Documentation of the various proposals received, the selection process, and criteria should be retained to demonstrate compliance with applicable laws or regulations and support decisions made.

Recommendations

The County Commission:

2.1 And the County Clerk ensure invoices and disbursements to vendors are adequately reviewed and marked paid to prevent duplicate and erroneous payments.

2.2 And the County Clerk implement procedures to ensure bills are received and paid timely.

2.3 Ensure bids are solicited for all applicable purchases of goods and services in accordance with state law, and maintain adequate documentation of decisions made. The County Commission should work with other county officials, as necessary, to ensure purchases from their offices comply with state law.

[6] Effective August 28, 2021, Section 50.660 RSMo, was revised to require competitive bidding when county contracts and purchases with a single vendor exceed $12,000 within 90 days. This revision was not in place at the time the county hired the accounting firm.

Auditee's Response

The County Commission and County Clerk provided the following responses:

2.1 We will ensure invoices and disbursements to vendors are adequately reviewed and marked paid to prevent duplicate and erroneous payments.

2.2 We have implemented procedures to ensure bills are received and paid timely.

2.3 We will ensure bids are solicited for all applicable purchases of goods and services in accordance with state law and maintain adequate documentation of decisions made. We will work with other county officials, as necessary, to ensure purchases for their offices comply with state law. In the future we will have or request an engagement letter that lists the parameters and costs and will ensure that it includes a required notification if the price overruns the original estimate.

3. Budgets

County budgeting procedures need improvement.

Preparation

For the 2021 budget, the County Commission budgeted General Revenue Fund receipts and disbursements so that the estimated ending fund balance would be zero, effectively appropriating all available funds to be spent in the current year, regardless of the actual estimated activity for the fund. The actual ending cash balance at December 31, 2021, was $916,145. The practice of budgeting to spend all available resources decreases the effectiveness of the budget as a planning tool and as a control over disbursements.

Budget deficit

The County Commission budgeted deficit cash balances for the Investigative Squad Fund in the 2022 ($9,191 deficit balance) and 2021 ($43,479 deficit balance) budgets.

Budget monitoring

The County Commission does not adequately monitor budget-to-actual receipts and disbursements. For the year ended December 31, 2020, actual disbursements exceeded budgeted disbursements for the following funds:

Fund	Budgeted Disbursements	Actual Disbursements
General Revenue	$ 2,740,507	2,905,165
Assessment	330,867	405,299
Civil Fees	30,000	50,811
Inmate Prisoner Debt	29,040	34,110
Emergency	167,360	189,592
Investigative Squad	48,000	53,262
Asset Forfeiture	0	929

Budget amendments were not prepared or approved by the County Commission before the budgets for these funds were overspent or before the fiscal year ended.

In addition, for the year ended December 31, 2021, actual disbursements exceeded budgeted disbursements for the Police Officer Standards Training, Inmate Prisoner Debt, Local Emergency Planning Commission, Election Services, and Special Election Funds. Budget amendments were not prepared or approved by the County Commission before the budget was overspent or before the fiscal year ended.

Conclusion

Section 50.550, RSMo, requires the budget to present a complete and accurate financial plan for the ensuing budget year. Section 50.610, RSMo, prohibits deficit budgeting. Section 50.740, RSMo, prohibits counties from spending more than budgeted. Section 50.622, RSMo, provides guidance on when budget amendments are allowable. Realistic projections of the county's uses of funds and fund balances are essential for the efficient management of finances and for communicating accurate financial data to county residents. Proper monitoring and amending prior to disbursing funds is necessary for the budget to be an effective management tool and to comply with state law.

The County Commission and the County Clerk indicated they were not aware of the importance of complying with the various budget requirements.

Recommendation

Ensure budget estimates for receipts and disbursements are based on actual expected occurrences, discontinue deficit budgeting, ensure disbursements do not exceed budgeted amounts, and prepare any necessary budget amendments timely.

Auditee's Response

We will ensure budget estimates for receipts and disbursements are based on actual expected occurrences, discontinue deficit budgeting, ensure disbursements do not exceed budgeted amounts, and prepare any necessary budget amendments timely.

4. Sunshine Law

The county's procedures to ensure compliance with the Sunshine Law need improvement. The County Commission generally met twice per week during the 2 years ended December 31, 2020.

4.1 Public access policy

The County Commission has not adopted a written policy regarding public access to county records as required by state law. A written policy regarding public access to county records would establish guidelines for the county to make records available to the public. Such policies typically identify a person to contact, provide an address to mail such requests, and establish fees that may be assessed for providing copies of public records.

Section 610.023, RSMo, lists requirements for making records available to the public. To ensure compliance with this section, the county should document adequate information in a log to determine if requests are completed timely and all requests are adequately filled. The log information should include, the date of request, a brief description of the request, the date the request is completed, and any associated costs of fulfilling the request. Section 610.026, RSMo, allows the county to charge fees for providing access to and/or copies of public records and provides requirements related to fees. Section 610.028, RSMo, requires a written policy regarding release of information under the Sunshine Law. The County Commission and the County Clerk indicated they were unaware of these requirements.

4.2 Closed meetings

The county did not always comply with the requirements of the Sunshine Law for closed meetings. The County Commission held 36 closed meetings from January 2019 through September 2021.

- The County Clerk failed to prepare meeting minutes for 6 of the 36 closed meetings held.
- The County Commission did not make specific reference to the section of law allowing the closure of meetings when voting to go into a closed session for 34 of the 36 closed meetings held.
- Some topics discussed in closed meetings were not allowable under the Sunshine Law. For example, during a December 10, 2019, closed session, the County Commission discussed employee health insurance benefits.

Section 610.020.7, RSMo, states minutes of open and closed meetings shall be taken and retained by the public governmental body. Meeting minutes serve as an official record of county business conducted and county actions and decisions. Section 610.022, RSMo, requires public bodies announce the specific reasons allowed by law for going into a closed meeting and to enter the vote and reason by reference to a specific section of the Sunshine Law into the minutes. In addition, Section 610.021, RSMo, lists the topics that may be discussed in closed meetings, and Section 610.022.3, RSMo, requires that the discussion topics and actions in closed meetings be limited to only those specifically allowed by law as announced in the justification for closing the meeting. The County Commission and the County Clerk indicated they were unaware of these requirements.

Recommendations

The County Commission and the County Clerk:

4.1 Develop a written public access policy, and maintain a public request log or other documentation to help ensure compliance with state law.

4.2 Ensure meeting minutes are prepared and retained for all closed meetings, the specific section of law allowing the meeting to be closed is announced publicly and recorded in the meeting minutes, and discussions are limited to the specific reasons cited and allowed for closing the meeting.

Auditee's Response

The County Commission and County Clerk provided the following responses:

4.1 We have developed a written public access policy, developed a request form, and created a public request log to follow state law.

4.2 We will ensure meeting minutes are prepared and retained for all closed meetings, the specific section of law allowing the meeting to be closed is announced publicly and recorded in the meeting minutes, and discussions are limited to the specific reasons cited and allowed for closing the meeting.

5. Electronic Communication Policy

The county has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

In addition, county officials do not always use county email accounts when conducting county business. Some county business communications were conducted by personal email accounts or cellular phone text messages. As a result, electronic communications may not be retained in accordance with state law.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[7]

Development of written policies to address the use of electronic communications is necessary to ensure all documentation of official business of the county is retained as required by state law. The County Commission and the County Clerk indicated they were unaware of these requirements.

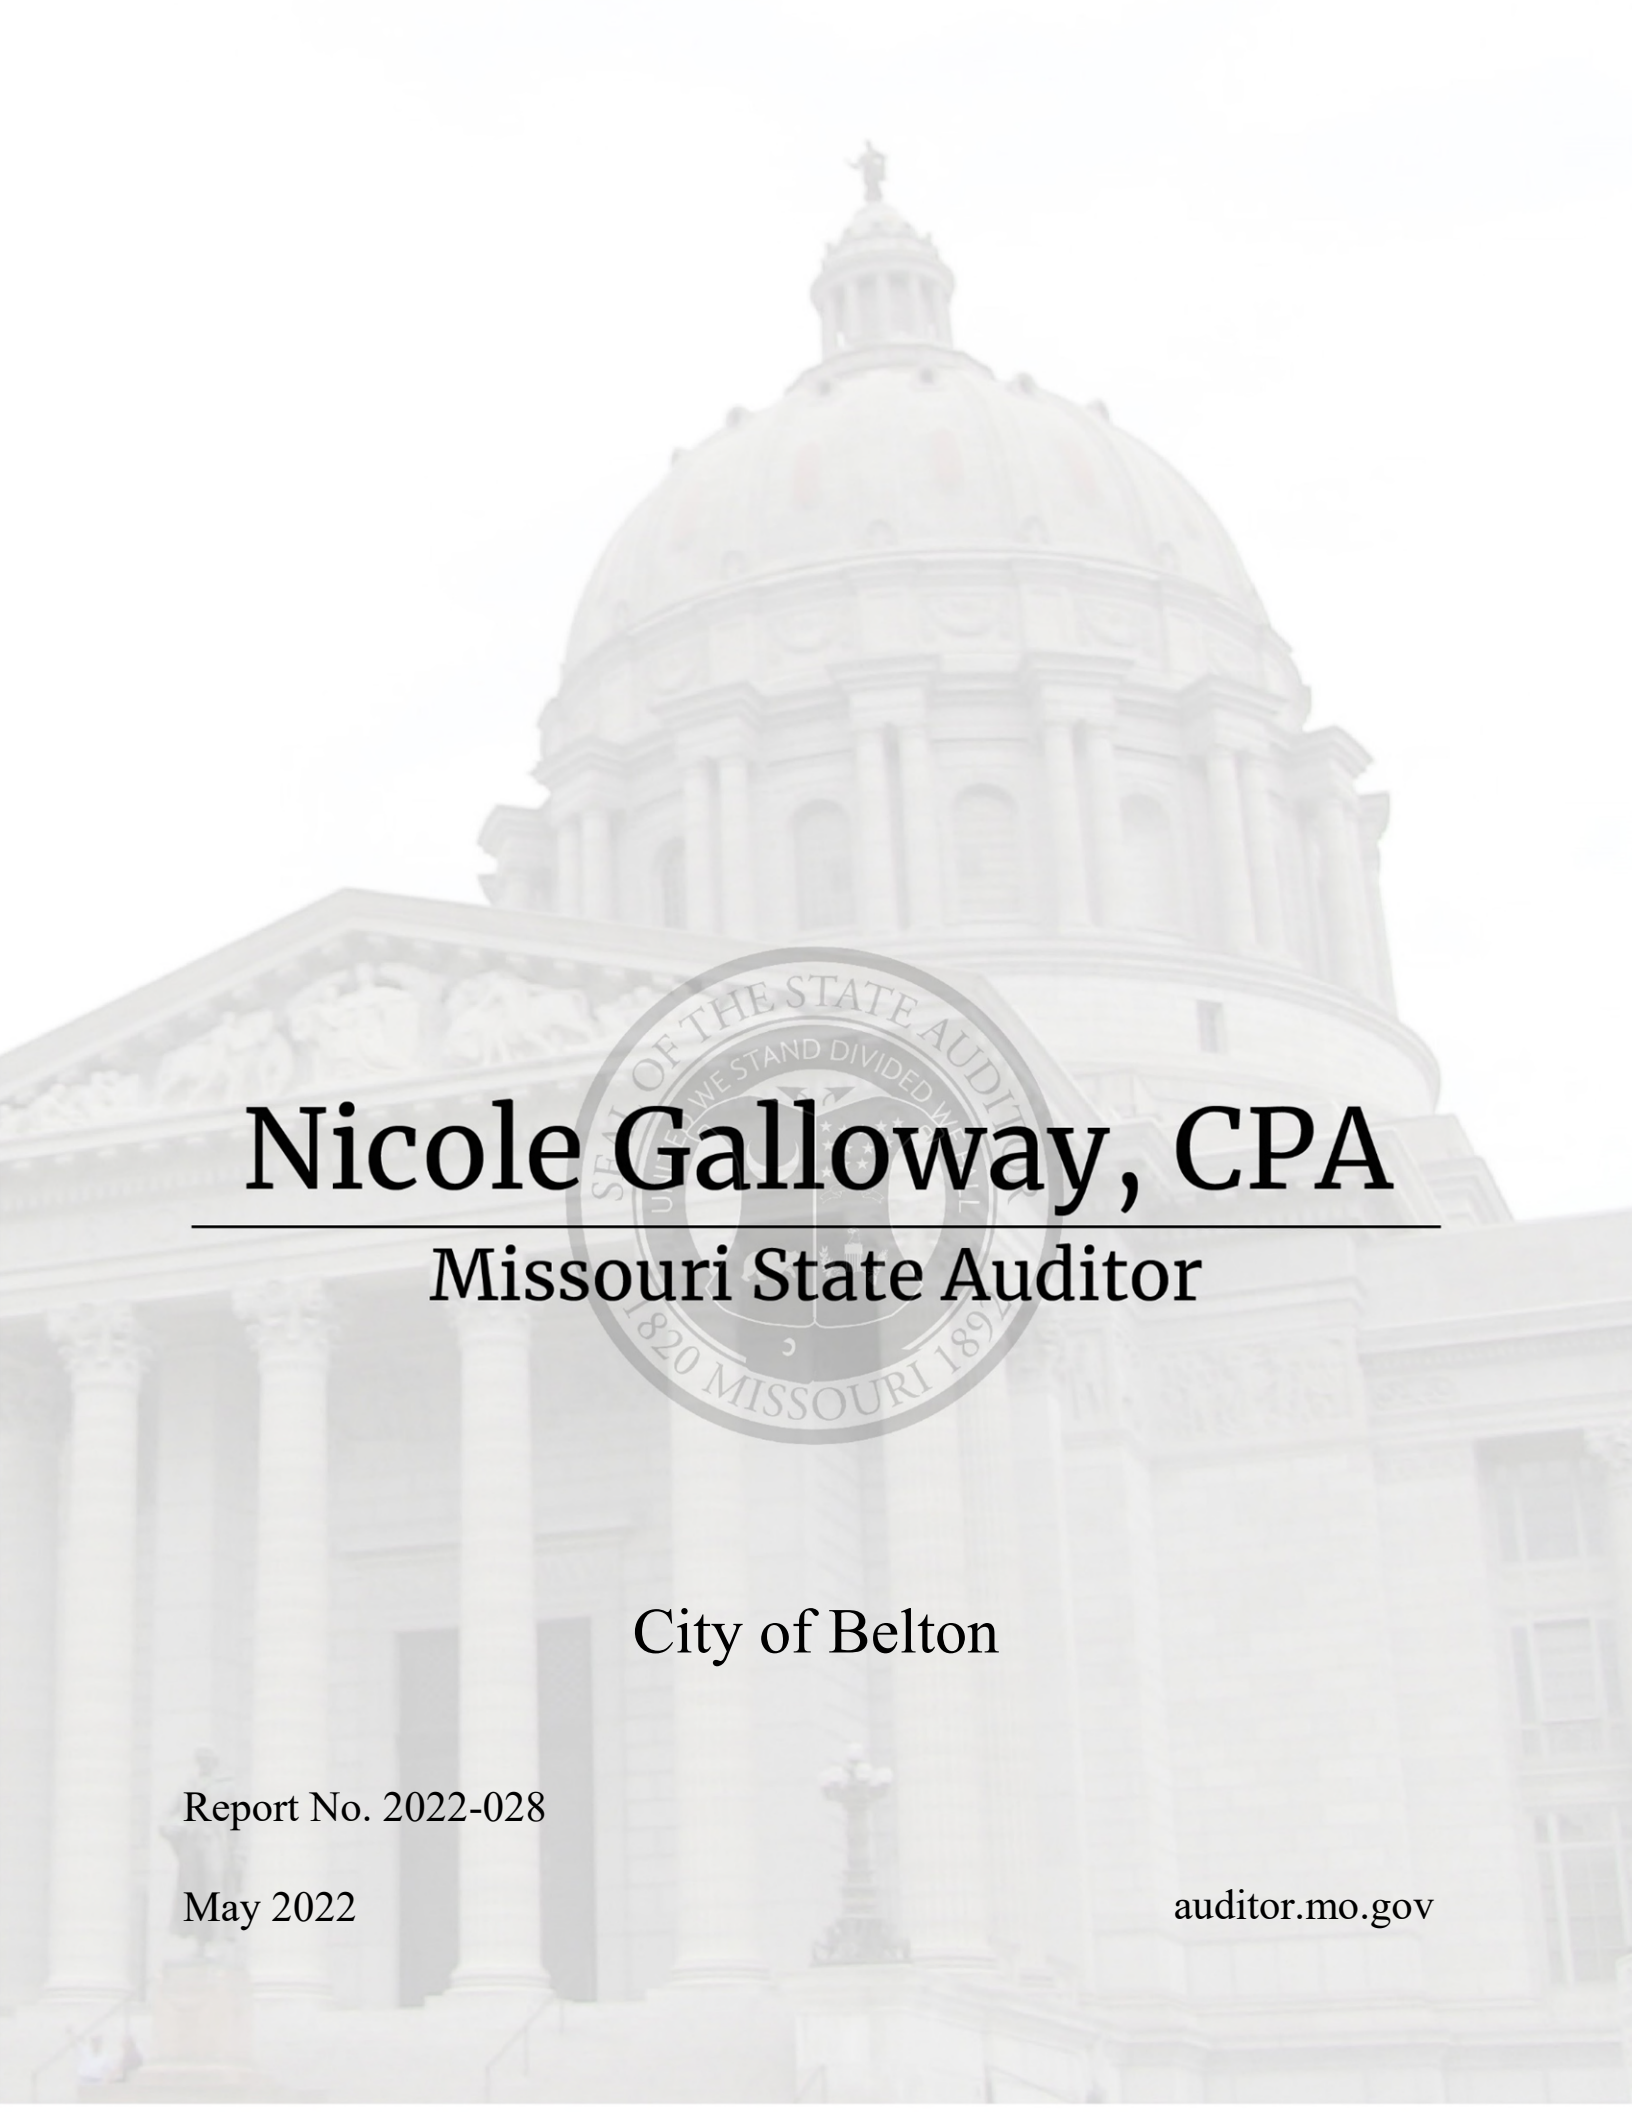
[7] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government,* May 14, 2019, is available at https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf, accessed March 8, 2022.

Recommendation

The County Commission work with other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

We will work with the other county officials to develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.



Nicole Galloway, CPA

Missouri State Auditor

City of Belton

Report No. 2022-028

May 2022

auditor.mo.gov

Nicole Galloway, CPA
Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of the City of Belton

Allocations and Disbursements	The city's established procedures for allocating overhead and administrative costs to restricted funds are not adequate. During the years ended March 31, 2021, and 2020, approximately $2.9 million in administrative costs paid by the General Fund were allocated each year to various city funds. The beginning cash balance is included in the annual revenue totals for each of these funds, inflating revenues by approximately $17.8 million during the year ended March 31, 2020, with the majority (approximately $15 million) being the cash balances of the Wastewater and Water Funds. Recalculations of the overhead allocation excluding cash balances for these funds significantly decreased the amount of costs allocated to the Wastewater and Water Funds. Recalculations performed determined excess transfers were made from the Wastewater and Water Funds during fiscal year 2020 totaling $64,311 and $266,519, respectively. Documentation for other administrative costs allocated was not sufficient. In addition, some severance payments made to city employees were not approved by the Council or Park Board and may not have been necessary and/or reasonable.
Police Department's Controls and Procedures	The city has not adequately segregated accounting duties or ensured documented supervisory or independent reviews over various financial accounting functions are performed by the Police department. The Police department's procedures for receipting and recording money are not adequate to ensure all money is handled properly. The city does not have adequate controls and procedures over seized property.
Parks and Recreation Department's Controls and Procedures	Parks and Recreation department personnel do not account for the numerical sequence of receipt slip numbers issued from the financial accounting system, and procedures have not been established for a supervisory review of voided transactions, non-monetary transactions, and adjustments posted to the system.
Electronic Communication Policy	The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.

In the areas audited, the overall performance of this entity was **Good**.*

*The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

Organization and Statistical Information 16

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the City Council
City of Belton, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Belton. We have audited certain operations of the city in fulfillment of our duties. The city engaged Troutt Beeman & Co., P.C., Certified Public Accountants, to audit the city's financial statements for the years ended March 31, 2021, and 2020. To minimize duplication of effort, we reviewed the CPA firm's report for the year ended March 31, 2020, audit, since the year ended March 31, 2021, audit had not been completed. The scope of our audit included, but was not necessarily limited to, the year ended March 31, 2021. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

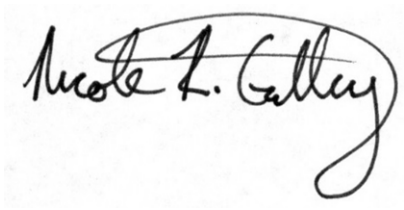
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; and performing sample testing using haphazard and judgmental selection, as appropriate. The results of our sample testing cannot be projected to the entire populations from which the test items were selected. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and its audited financial reports and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) no significant noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Belton.



Nicole R. Galloway, CPA
State Auditor

1. Allocations and Disbursements

The city's established procedures for allocating overhead and administrative costs to restricted funds are not adequate to ensure restricted money is used only for intended purposes, and some amounts transferred from the Wastewater and Water Funds are not adequately supported. In addition, some severance payments made to city employees were not approved by the Council or Park Board and may not have been necessary and/or reasonable.

1.1 Cost allocations and transfers

The process used by the city to allocate overhead and administrative costs to the Wastewater and Water Funds is questionable, and recalculations performed indicate excess transfers totaling $64,311 and $266,519, respectively, were made to the General Fund during fiscal year 2020. During the years ended March 31, 2021, and 2020, approximately $2.9 million in administrative costs paid by the General Fund were allocated each year to various city funds.

Budgeted transfers are made each year from the Park, Street, Wastewater, and Water Funds to reimburse the General Fund for overhead and administrative costs incurred by several city departments budgeted within the General Fund. In addition, budgeted transfers are made each year from the Street, Wastewater, and Water Funds to reimburse the General Fund for budgeted Public Works billing costs that consist of the Public Works department and garage costs charged to the General Fund. The city also makes budgeted transfers from the Wastewater and Waters Funds to reimburse the General Fund for utility billing costs that consist of 100 percent of the budgeted salary and employee benefits for 3 employees paid from the General Fund. These transfers are budgeted annually and the amount allocated to each fund is either established by the Council (overhead allocation) or based on budgeted costs (Public Works billing allocation). The methods utilized in making these allocations are discussed in more detail below.

For the overhead and Public Works billing allocations, a process was developed during fiscal year 2019 to compare budgeted transfers made the prior year from the various restricted funds to what transfers would have been made for that year based on actual costs instead of budgeted amounts. The differences are added together to determine if a restricted fund transferred too much money to the General Fund. If this difference for the 2 allocations indicates a fund's total budgeted transfers were more than the calculated allocation based on the prior year's actuals, the General Fund may, with Council approval, reimburse that fund. If a fund's total budgeted transfers were not sufficient compared to the calculated allocation (i.e., an under payment), an additional transfer is likely not requested. A comparison is not performed for the utility billing transfer. Our review of these allocations and the results of the comparisons performed for the fiscal year 2020 transfers identified multiple concerns as follows.

Overhead allocation

The overhead allocation represents each fund's share of the expenses for the following General Fund departments: Legislative, Administration, City

Attorney, City Clerk, Information Technology, Finance, Inspection, and Community Planning. The budgeted amount allocated to each fund for overhead is as follows.

Fund	Budgeted Overhead Allocation
Park	$ 53,000
Street	97,471
Wastewater	618,674
Water	815,025
Total	$1,584,170

The annual amounts budgeted for overhead allocations from the Street, Wastewater, and Water Funds have not changed since 2016, and the annual amount budgeted for the Park Fund has not changed since 2018. In addition, the Golf Fund is included in the allocation calculation, although the Council has made the decision to not allocate any costs to it.

The results of the overhead allocation comparison for the fiscal year ended March 31, 2020, were as follows:

Table 1: Overhead Allocation - Fiscal Year Ended March 31, 2020

Fund	Actual Revenue	Percentage of Revenue[1]	Calculated Allocation Amount	Budgeted Allocation Amount	Amount Over/(Under) Transferred
General	$ 17,039,505	30.07	$ 1,014,990	$ 1,619,041	$ 604,051
Park	4,133,824	7.30	246,239	53,000	(193,239)
Street	5,331,766	9.41	317,597	97,471	(220,126)
Golf	1,391,617	2.46	82,894	0	(82,894)
Wastewater	15,149,733	26.74	902,423	618,674	(283,749)
Water	13,611,903	24.02	810,819	815,025	4,206
Total	$ 56,658,348	100.00	$ 3,374,962	$ 3,203,211	$ (171,751)

[1] Percentages shown are rounded.

We identified several concerns regarding these overhead allocations:

- When determining the percentages to be applied to each fund for the overhead allocation comparison calculation that began in 2019, the beginning cash balances carried over from the prior fiscal year were included in the actual annual revenue totals for all funds except the General Fund. City personnel could not explain why an allocation based on annual revenue would include the prior year's ending cash balances, or why it was not included for the General Fund. Including beginning cash balances for the restricted funds inflated 2020 revenues by approximately $17.8 million, with the majority (approximately $15 million) making up the cash balances of the Wastewater and Water Funds. We recalculated the overhead allocation excluding cash balances

for all funds, which significantly decreased the percentage of revenue for the Wastewater and Water Funds, which would have caused the calculated allocation amount to decrease for both funds. The recalculated differences (over/(under)) are as follows:

Table 2: Recalculated Overhead Allocation - Fiscal Year Ended March 31, 2020

Fund	Actual Revenue Excluding Cash Balances	Recalculated Percentage of Revenue[1]	Recalculated Allocation Amount	Budgeted Allocation Amount	Recalculated Over/(Under) Transferred
General	$ 17,039,505	43.90	$ 1,481,455	$ 1,619,041	$ 137,586
Park	3,771,479	9.72	327,901	53,000	(274,901)
Street	3,189,719	8.22	277,322	97,471	(179,851)
Golf	1,152,390	2.97	100,192	0	(100,192)
Wastewater	7,404,813	19.08	643,792	618,674	(25,118)
Water	6,260,473	16.13	544,300	815,025	270,725
Total	$ 38,818,379	100.00	$ 3,374,962	$ 3,203,211	$ (171,751)

[1] Percentages shown are rounded.

Comparing the percentages and differences in these tables shows that removing the cash balances from the calculations would significantly decrease the overhead costs allocated to the Wastewater and Water Funds for fiscal year 2020, which would impact if, or how much, each fund is due a refund.

- The city has not evaluated what departmental costs should be included in the overhead allocations. The current comparison calculation process uses the total costs for each department included in the calculation and does not review the types of costs making up the total costs for each department. Some costs included in the allocation do not benefit multiple city funds and should not be included. For example, transfers made from the General Fund to help subsidize other city funds are included when determining the actual total costs to allocate even though these transfers do not benefit the allocated funds. These transfers, totaling $815,793 in fiscal year 2020, represent approximately 24 percent of the total costs allocated. There was no written documentation or justification for how transfers made to other city funds provided a benefit to the specific city funds included in the overhead allocation.

- Some of the General Fund departments included in the overhead cost allocation may not provide specific administrative support to each of the restricted funds included in the allocations. The city could not provide justification for the reason certain departments were included in the allocation, other than stating that they have always been included. The Inspection and Community Planning departments do not clearly provide administrative services to the various restricted funds included in the

allocation, and thus including 100 percent of those departments' expenses in the allocation is questionable.

Public Works billing allocation

The Public Works billing transfers are based on the current year budgeted costs and are allocated 50 percent to the Wastewater Fund, 35 percent to the Water Fund, and 15 percent to the Street Fund. These percentages are estimated, but according to city personnel, are based on each fund's projected workload for the Public Works staff who perform engineering, administrative, and inspection services. No documentation was provided to support how the allocation percentages were determined. The percentages allocated to the Wastewater and Water Funds were 45 and 40 percent, respectively, until fiscal year 2020, when they changed to the current percentages. During the year ended March 31, 2020, transfers to the General Fund for the Public Works billing allocation from the Street, Wastewater, and Water Funds totaled $1,135,571. The comparison of budget to actual costs for the Public Works billing allocation indicated actual costs were only $956,713. Based on these results, too much was allocated to the Street, Wastewater, and Water Funds by $26,829, $89,429, and $62,600, respectively.

Transfer comparison and impact of recalculated overhead allocations

Once the comparison of budget to actual amounts is complete for the overhead and Public Works billing allocations, the differences are added together to determine if the cost allocations to the Wastewater or Water Funds are too high. Although the comparisons showed the Water Fund was due a refund from the General Fund for both 2018 and 2019, no reimbursement had been made for either year as of February 2021. At that time, city personnel identified an error in an allocation spreadsheet formula that prevented staff from identifying excess allocation transfers made from the Water Fund to the General Fund in fiscal year 2018 and 2019. The net differences for the 3 years (2018 to 2020) were combined and in March 2021 the Council approved a payment from the General Fund to reimburse the Water Fund for $230,793. The net difference for the Wastewater Fund for the 3 years was an under payment of $379,362, and thus no reimbursement was made.

Based on the recalculated overhead allocation differences for fiscal year 2020 (Table 2) combined with the Public Works billing differences, the Wastewater and Water Funds were overcharged $64,311 and $333,325, respectively, for the year ended March 31, 2020, for these 2 types of transfers. The Water Fund was already reimbursed $66,806 for excess transfers, and would have received an additional $266,519 reimbursement if the cash balances had been excluded from the overhead allocation calculations. Since the Wastewater Fund had received no reimbursement, it would have been reimbursed by the amount overcharged, or $64,311. We did not recalculate the overhead allocation for 2018 and 2019, but cash balances were also included in the comparison calculations for those years and would have

caused similar impacts on the overall calculations for these 2 funds in those years.

Utility billing allocation

The budgeted costs during the year ended March 31, 2021, for 3 city employees who are responsible for utility billings and collection procedures, who were paid from the General Fund, were split evenly between the Wastewater and Water Funds, with each fund transferring $76,945 to the General Fund. These 3 employees also provide services that benefit other funds, including collecting payments for other services such as trash, permits, and business licenses. There is no documentation to support why these costs are fully allocated to only the Wastewater and Water Funds. In addition, the amount transferred each year based on budgeted amounts compared to actual amounts is not calculated, similar to the other allocations, to determine if the restricted funds were over or under charged. City personnel indicated they believed the fluctuations between budgeted and actual amounts for these 3 staff would be small, and thus these fluctuations have not been tracked.

Conclusion

Allocation policies and procedures should be reviewed to ensure restricted funds are used for allowable purposes. Based on our recalculations, the methods used to allocate overhead and administrative costs paid by the General Fund have resulted in excess administrative costs being allocated to the Wastewater and Water Funds.

The proper allocation of expenses is necessary for the city to accurately determine the results of operations of specific activities, thus enabling the city to establish the level of taxation and/or user charges necessary to meet all operating costs. To ensure restricted funds are used for intended purposes, the allocation of expenditures to city funds should be based on specific criteria, such as the number of hours worked by each employee, if possible, or by determining a reasonable basis to allocate costs from shared functions/employees benefiting multiple funds.

1.2 Utility charges

The city has no documentation to support how the annual franchise tax transfer or payment in lieu of tax (PILOT) amounts transferred from the Wastewater and Water Funds to the General Fund were determined. Neither of these transfers represent a reimbursement of costs incurred by either utility, which is accomplished through the transfers discussed in section 1.1.

Franchise taxes

During the year ended March 31, 2021, franchise taxes totaling $513,910 were transferred from the Wastewater Fund and $479,990 from the Water Fund to the General Fund, based on 7 percent of budgeted sales and fees revenue of each fund. From fiscal year 2015 to fiscal year 2021, these 2 restricted funds each transferred over $3.1 million of water and wastewater revenues to the General Fund for franchise taxes. The City Attorney indicated the city charges other commercial utilities the same 7 percent franchise tax rate.

PILOT

A PILOT is also charged to each of these funds, which totaled $115,000 ($65,000 to the Water Fund and $50,000 to the Wastewater Fund), during the year ended March 31, 2021. The city could provide no written documentation for how the amount of this PILOT was determined, but indicated the amounts were established during the year ended March 31, 2000, and have remained unchanged since then. The city indicated the PILOT is charged in lieu of the tax on the property and land that the sewer plant, lift stations, water towers and pump stations, etc., are using for which the city would otherwise be receiving taxes. PILOT payments from the Water and Wastewater Funds to the General Fund totaled $455,000 and $350,000, respectively, from fiscal years 2015 through 2021.

Conclusion

During fiscal year 2020, when considering the various cost allocations discussed in section 1.1, the franchise tax transfers, and PILOT, the city transferred $1,806,810 from the Water Fund in total and had water revenue of $6,260,473, for a 28.9 percent transfer rate. For the Wastewater Fund, the total transferred was $1,792,741, with sewer revenue of $7,404,813, for a 24.2 percent transfer rate. To ensure utility transfers are reasonable and proper, it is important the city ensure the transfers reasonably relate to the services being provided and formally document the process for determining the percentage or amount to be charged. In addition, when considering reasonableness, the Council should consider the bond covenants related to the 2015 water works and sewage bonds, which do not permit excess funds to be diverted to the general government or municipal functions of the city.

1.3 Severance agreements

The city entered into severance agreements totaling $240,119 with 11 employees between January 2016 and August 2020 that may not have been necessary and/or reasonable. In most instances, these agreements were not approved by the Council or Park Board, as applicable. Severance pay and insurance benefits were provided to all 11 employees for periods ranging from 2 to 26 weeks, totaling $233,125. Under these agreements, the city received a release from any future legal liabilities. Severance payments totaling $6,994 for sick leave hours in excess of the number of hours authorized by city code were paid for 2 employees. Only 2 of the 9 severance agreements with non-park employees were approved by the Council and neither agreement with park employees was approved by the Park Board. The other agreements were signed by either the City Manager or the City Manager's designee. In addition, none of these employees had an employment contract and it is not clear whether these severance payments were a necessary and/or a reasonable use of city funds.

To ensure city funds are spent appropriately, all contracts should be approved by the Council or Park Board, as applicable, and be in the best interest of the city. In addition, Section 432.070, RSMo, states any contract with the city shall be subscribed by the parties thereto, or their agents authorized by law and duly appointed and authorized in writing. If authorization is granted for

an agent to act on behalf of the Council or Park Board, the authorization should be written and entered into the Council or Park Board meeting minutes.

Recommendations

The City Council:

1.1 Allocate overhead and other administrative costs to city funds based on specific criteria, ensure costs allocated represent administrative costs that benefit all the restricted funds included in the allocation, and discontinue including cash balances when determining overhead allocation percentages.

1.2 Review payments from the Wastewater and Water Funds to the General Fund to ensure they reasonably relate to the services being provided and maintain documentation to support the amounts transferred.

1.3 And Park Board consider the necessity of severance packages in the future and if granted, ensure they are reasonable and authorized by the Council and/or Park Board.

Auditee's Response

1.1 ADOPTED - Based on this recommendation from the State Auditor's Office, the city has engaged a consulting firm to review and update its General Fund cost allocations to the Golf, Street, Water, Sewer (Wastewater), Solid Waste Disposal, Park, and Hotel/Motel Tax Funds. The firm's report is anticipated to be delivered before the end of the current fiscal year.

1.2 ADOPTED - The city will take the auditor's recommendation under advisement and continue to review the transfers each year to ensure the transfers are made in accordance with applicable Missouri law, including Pace v. City of Hannibal and Arbor Investments v. City of Hermann.

1.3 ADOPTED BY BOTH COUNCIL AND PARK BOARD - All severance and release agreements will continue to be reviewed on a case-by-case basis with the city's legal counsel, and when found necessary, reasonable, and appropriate, the agreements will be authorized by the City Council and/or Park Board.

2. Police Department's Controls and Procedures

The Police department's controls and procedures need improvement. The Police department's receipts include record requests, bonds, inmate/jail funds, and other miscellaneous receipts. During the year ended March 31, 2021, Police department personnel processed receipts totaling approximately $130,000.

2.1 Segregation of duties

The city has not adequately segregated accounting duties or ensured documented supervisory or independent reviews over various financial accounting functions are performed by the Police department. One employee is responsible for most financial duties of both the bond and inmate/jail accounts including receipting and disbursing money, preparing deposits, posting transactions to the accounting system, preparing monthly bank reconciliations, and preparing annual financial reports for the Finance department. Another employee is responsible for records requests received by the Police department that includes receiving money, maintaining a log of payments received, and preparing transmittals. No independent reviews of receipt, disbursement, and deposit/transmittal records is performed for either employee to ensure all money collected was properly recorded, deposited/transmitted timely, and properly disbursed.

Proper segregation of duties helps ensure all transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties cannot be achieved, documented independent or supervisory reviews of accounting and bank records should be performed.

2.2 Receipting and recording

The Police department's procedures for receipting and recording money are not adequate to ensure all money is handled properly.

- Receipt slips are not issued for record requests, payments received are not immediately recorded in the receipts log maintained or are not recorded, and the method of payment is not always indicated. In addition, notations are not made in the log to indicate when transmittals are made, making it difficult to determine which transactions are included in a particular transmittal. As a result, a reconciliation of the composition of receipts to the composition of transmittals cannot be performed. A cash count performed on January 26, 2021, identified cash receipts totaling $325 and checks totaling $315. At the time of our count, 24 of the 58 checks on hand, totaling $145, had not been recorded in the receipts log. We scanned receipts logs prepared for 2020 and haphazardly selected the December 4, 2020, transmittal (prepared on December 1, 2020) to compare the composition of the transmittal to the composition of the receipts log. The transmittal consisted of $247 in cash and $305 in checks, while the receipts log indicated $180 in cash and $305 in checks. One $5 transaction did not indicate the composition, but was likely cash, resulting in $62 in cash transactions not recorded in the receipts log, or were recorded prior to the November transmittal, but were not included with that transmittal. The receipts log is not provided to the Finance department with the transmittal. The employee stated the receipts log is not intended as an audit function for money taken in and indicated it was possible that some transactions had not been recorded in the receipts log.

- Checks received for records requests and bonds are not restrictively endorsed until a transmittal/deposit is prepared. The employees indicated they believe the risk of someone misappropriating or stealing a check is minimal considering entry to the Police department is secured.

Failure to implement adequate receipting, recording, and depositing/transmitting procedures increases the risk that loss, theft, or misuse of funds will go undetected.

2.3 Seized property

The city does not have adequate controls and procedures over seized property. Inventory records are not accurate and a physical inventory of seized property has not been performed since at least 2010. In addition, the city has not adopted procedures to periodically review cases and dispose of related seized property items. Some seized property has been held for years.

The computerized system used to track seized property contains records of items dating back to 2001. A physical inventory of seized property has not been completed since at least prior to 2011. The inventory system included 16 items that were entered into the system between 2001 and 2010. Police personnel were unable to locate any of these items, but indicated one of the items (bicycle) was determined to be missing several years ago and the system had not been updated. We identified several seized items still on hand for closed cases, including drugs and drug paraphernalia. The oldest of these items was seized in 2012.

Considering the often sensitive nature of seized property, adequate internal controls are essential and would significantly reduce the risk of loss, theft, or misuse of the property. Complete and accurate inventory records should be maintained and periodic physical inventories performed with the results compared to inventory records to ensure seized property is accounted for properly. Section 542.301, RSMo, provides the requirements for the disposition of seized property that has not been forfeited or returned to the claimant.

Recommendations

The City Council:

2.1 Segregate the accounting duties at the Police department. If proper segregation cannot be achieved, ensure documented independent or supervisory reviews of detailed accounting and bank records are performed.

2.2 Ensure receipt slips are issued for all money received at the Police department with the method of payment indicated and reconcile the composition of receipts to the composition of amounts deposited/transmitted. In addition, checks should be restrictively endorsed upon receipt.

2.3 Maintain a complete and accurate record of seized property, and ensure a periodic inventory is conducted and reconciled to the seized property system, and investigate any differences. In addition, ensure the Police department makes timely and appropriate dispositions of seized property in accordance with state law.

Auditee's Response

2.1 ADOPTED - Procedures were put into place effective April 2022 to require a supervisory review of detailed accounting and bank records.

2.2 ADOPTED - In April 2021, based on this recommendation from the State Auditor's Office, a new cash receipts program was purchased and implemented to account for all receipt slips and procedures were put into place to restrictively endorse checks immediately upon receipt.

2.3 ADOPTED - The FY2023 budget included a new full time Property Officer/Quartermaster position and new shelving for the property room. When the new shelving is delivered, a complete property room inventory will be conducted and reconciled to the seized property system and seized property will be disposed of in accordance with state law this year. An inventory of the property room will be done at least biannually, thereafter.

3. Parks and Recreation Department's Controls and Procedures

The Parks and Recreation department's controls and procedures for receipting and recording transactions need improvement. As a result, there is less assurance all money collected is accounted for properly. During the year ended March 31, 2021, Parks and Recreation department personnel processed receipts totaling approximately $1.7 million.

3.1 Receipting procedures

Parks and Recreation department personnel do not account for the numerical sequence of receipt slip numbers issued from the financial accounting system. The department's financial accounting system assigns one numerical receipt slip sequence, with various personnel issuing receipt slips at different cash collection points, such as the pool, community center, or concessions at one of the city parks. Receipts from the various collection points are transmitted daily to the parks' offices for deposit. A cash receipts journal showing receipts separated by collection point is reviewed by a supervisor for each cashier submitting a transmittal, but this journal only includes receipt slips for monetary transactions from each collection point. Receipt slips are also generated for voided and non-monetary transactions and there is no procedure in place to produce a report of all receipt slip numbers, listed numerically, rather than by collection point, to account for the numerical sequence of all

receipt slips. In addition, checks received are not restrictively endorsed until a deposit is prepared. Staff at the various collection points do not have endorsement stamps to allow restrictive endorsement upon receipt.

Failure to implement adequate receipting procedures increases the risk that loss, theft, or misuse of money will occur and increases the likelihood that errors will go undetected.

3.2 Non-monetary transactions

Procedures have not been established for a supervisory review of voided transactions, non-monetary transactions, and adjustments posted to the system. Non-monetary transactions, including membership renewals or cancellations, event registrations, or complimentary concession items for staff and umpires, are transactions for which no money is received; however, a credit is applied in the system or the amount due is changed. Adjustment transactions include corrections for drawer overages or shortages from a previous days transactions or a chargeback for a declined ACH/debit transaction. Voided or non-monetary transactions can be entered by various employees at all the cash collection points within the department. Supervisory review of these transactions is not performed and documented. A supervisor performs a review of cash receipt journals for each collection point and the amount of money transmitted, but the journals only include monetary receipts. This same employee is responsible for making adjustments to the system and no supervisory review of those adjustments is performed.

An independent and/or supervisory review and approval of voided and nonmonetary transactions and adjustments is necessary to help ensure such transactions are appropriate and reduce the risk of loss, theft, or misuse of funds.

Recommendations

The Park Board:

3.1 Ensure procedures are adopted to account for the numerical sequence of all receipt slips issued and for checks to be restrictively endorsed immediately upon receipt.

3.2 Require an independent and/or supervisory review and approval of all voided and non-monetary transactions and adjustments made in the system.

Auditee's Response

3.1 ADOPTED - Procedures were put into place effective March 2021 to account for the numerical sequence of all receipt slips issued and for checks to be restrictively endorsed immediately upon receipts.

3.2 ADOPTED - Procedures were put into place effective April 2022 to require a random independent review and approval of voided and

non-monetary transactions and adjustments made in the cash receipts system.

4. Electronic Communication Policy

The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[1]

To ensure compliance with state law, the Council needs to develop a written policy to address the use of personal email, social media and message accounts, and management and retention of electronic communications.

Recommendation

The City Council develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

ADOPTED - The city will research and adopt a policy to address electronic communications management and retention before the end of the current fiscal year.

[1] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, is available at <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed February 17, 2022.

City of Belton
Organization and Statistical Information

The City of Belton is located in Cass County. The city was incorporated in 1872 and is currently a constitutional charter city operating under the provisions for a mayor, council, and city manager form of government. The city employed 198 full-time employees and 161 part-time employees on March 31, 2021.

City operations include utility services (water, sewer, and trash), police, fire, emergency medical services, maintenance of streets, economic development, recreational facilities (parks, pool, wellness center, and community center), and golf course.

Mayor and City Council

The city government consists of a mayor and eight-member city council. The members are elected for 3-year terms, with 2 members from each of the 4 wards. The mayor is elected at-large for a 4-year term and is a voting member of the city council. The Mayor is paid $1,400 per month with a $600 monthly car allowance and Councilmembers are paid $400 per month with a $300 monthly car allowance. The compensation of these officials is established by ordinance. The Mayor and Councilmembers as of March 31, 2021, are identified below.

Jeff Davis, Mayor (1)
Ryan Finn, Councilman (2)
Dave Clark, Councilman (3)
Dean VanWinkle, Councilman (4)
Chet Trutzel, Councilman (5)
Stephanie Davidson, Councilwoman (6)
Lorrie Peek, Mayor Pro Tem (7)
Tim Savage, Councilman (8)
Gary Lathrop, Councilman (9)

(1) Replaced by Norman K. Larkey, Sr., who was elected in April 2021.
(2) Replaced by Perry Gough, who was elected in April 2021.
(3) Appointed as Mayor Pro Tem in April 2021 and continues to serve in that role.
(4) Replaced by Angela Kraft, who was elected in April 2021.
(5) Replaced by James Pryan, who was elected in April 2022.
(6) Replaced by Allyson Lawson, who was elected in April 2021.
(7) Replaced by Chris Richardson, who was elected in April 2022.
(8) Passed away in December 2021. Bret White was appointed to this position in January 2022 and was elected in April 2022.
(9) Replaced by Rob Powell, who was elected in April 2021.

Other Principal Officials

The City Manager, City Attorney, and Municipal Judge are appointed by the City Council and the Park Director is appointed by the Park Board. The City Manager appoints the City Clerk, Chief of Police,[2] and Department Directors with the final approval by the City Council.

[2] Effective April 13, 2021

The city's principal officials as of March 31, 2021, are identified below:

Alexa Barton, City Manager (1)
Andrea Cunningham, City Clerk
Brian Welborn, Parks and Recreation Department Director
Carolyn Yatsook, Economic Development Director
Greg Rokos, Public Works Director
James Person, Chief of Police (2)
John Sapp, Fire Chief
Padraic Corcoran, City Attorney
Ross C. Nigro, Jr., Municipal Judge

(1) Resigned in October 2021. This position remains vacant.
(2) Term expired in April 2021. Scott Lyons was appointed to this position in April 2021 after a change to the city charter made this an appointed position.

Financial Activity

A summary of the city's audited financial activity for the year ended March 31, 2021, obtained from the city's audited financial statements follows.

CITY OF BELTON, MISSOURI
STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE -- GOVERNMENTAL FUNDS
FOR THE YEAR ENDED MARCH 31, 2021

	General Fund	Park	Belton Town Centre-TIF	Street
REVENUES				
Taxes	$ 12,489,403	$ 734,311	$ 1,641,971	$ 1,964,778

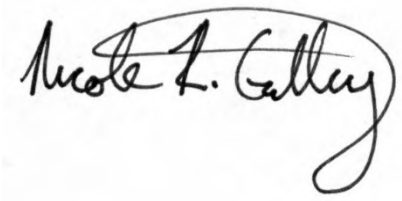
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 98 political subdivisions required to file a financial report by March 31, 2022, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in March 2022, after their filing deadline. The filing status for these 11 entities is presented in summary on page 3 and by individual entity in Appendix B-D.



Nicole R. Galloway, CPA
State Auditor

Monthly Report on Political Subdivision Filings
March 2022
Executive Summary

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 98 political subdivisions, other than cities, towns, and villages, with a fiscal year end of September 30, 2021. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 98 political subdivisions, 83 filed an annual financial report timely.

This report also includes the filing status for 11 political subdivisions, other than cities, towns, and villages, that filed their financial report in March 2022, after their filing deadline.

NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by March 31, 2022, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 63 cities and 2 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in March 2022, after their filing deadline. The filing status for these 41 cities, 2 towns, and 6 villages is presented in summary on page 3 and by individual entity in Appendixes B and G.

Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 63 cities and 2 villages with a fiscal year end of September 30, 2021, whose financial report was due by March 31, 2022. Of the 65 municipalities, 49 filed the financial report timely. Of the 62 municipalities required to file an addendum, 39 filed timely. Of the 41 municipalities required to file a certification, 25 filed timely.

This report includes the filing status for 41 cities, 2 towns, and 6 villages that filed at least one of the items (financial report, addendum, or certification) in March 2022, after their filing deadline. Of these municipalities, 13 filed an annual financial report, 37 filed an addendum, and 14 filed a certification.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the County Commission
and
Officeholders of Crawford County, Missouri

The Office of the State Auditor contracted for an audit of Crawford County's financial statements for the 2 years ended December 31, 2020, through the state Office of Administration, Division of Purchasing and Materials Management. The audit includes an audit of each county officer in fulfillment of our duties under Section 29.230.1, RSMo. A copy of this audit, performed by CliftonLarsonAllen, LLP, is attached.

Missouri State Auditor

RECOMMENDATION SUMMARY

Recommendations in the contracted audit of Crawford County

2020-001	County Commission should design internal controls to ensure manual journal entries are properly supported and reviewed. In addition, County Commission should design internal controls to ensure reconciliations are performed for all balance sheet accounts.
2020-002	The county should implement internal controls to require an initial and independent review and approval of all recurring journal entries.
2020-003	The county should design internal controls to require an independent review of bank statements and reconciliations by a County Commissioner.
2020-004	Management reconcile the Schedule of Expenditures of Federal Awards with the general ledger at year end to ensure that all costs are captured. Actual expenditures should also be reported rather than revenue.

INDEPENDENT AUDITORS' REPORT

County Commission
Crawford County
Steelville, Missouri

Report on the Financial Statements

We have audited the accompanying financial statements of Crawford County, Missouri (the County), which comprise cash and investments for each fund as of December 31, 2020 and 2019, and the related statements of receipts, disbursements, and changes in cash and investment balances – budget and actual for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting, a financial reporting framework prescribed or permitted by Missouri law as described in Note 1 of the accompanying financial statements. This includes determining that the regulatory basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1 of the financial statements, the financial statements are prepared on the basis of the financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles" paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of each fund of the County as of December 31, 2020 and 2019, or changes in financial position for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the cash and investments of each fund of the County as of December 31, 2020 and 2019, and their respective cash receipts and disbursements, and budgetary results for the years then ended in accordance with the financial reporting provisions prescribed or permitted by Missouri law described in Note 1.

Other Matters

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County's financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards,* is presented for purposes of additional analysis and is not a required part of the financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

County Commission
Crawford County
Steelville, Missouri

***Other Reporting Required by* Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2022, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Crawford County, Missouri (County), which is governed by a three-member board of commissioners, was established in 1829 by an Act of the Missouri Territory. In addition to the three Commissioners, there are ten elected Constitutional Officers: County Clerk, Collector, Treasurer, Recorder, Sheriff, Assessor, Coroner, Circuit Clerk, Public Administrator and Prosecuting Attorney.

As discussed further in Note 1, these financial statements are presented on the regulatory basis of accounting. This basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP).

Reporting Entity

As required by generally accepted accounting principles, as applicable to the regulatory basis of accounting, these financial statements present financial accountability of the County.

The County's operations include tax assessments and collections, state/county courts, county recorder, public safety, transportation, economic development, and social and recreation services.

The financial statements referred to above include only the primary government of the County of Crawford, which consists of all funds, organizations, institutions, agencies, departments, and offices that comprise the County's legal entity. The Senior Citizens Services Board is controlled by a separate board and is included under the control of Crawford County. The Senate Bill 40 Board and the Senior Citizens Services Board is audited and separately reported on by other independent auditors and is not presented in the accompanying financial statements. Request for copies of those financial statements should be directed to the Senate Bill 40 Board and the Senior Citizens Services Board.

Basis of Presentation

The financial statements are presented using accounting practices prescribed or permitted by Missouri law, which include a statement of receipts, disbursements and changes in cash and investment balances – all governmental funds, a comparative statement of receipts, disbursements and changes in cash and investment balances – budget and actual – all governmental funds, and a statement of assets and liabilities arising from cash transactions – agency funds.

Governmental resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. A fund is considered a separate accounting entity with self- balancing accounts. The following fund types are used by the County:

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Basis of Presentation (Continued)

Governmental Fund Types

Governmental funds are those through which most governmental functions are financed. The County's expendable financial resources are accounted for through governmental funds. The measurement focus is upon determination of and changes in financial position rather than upon net income.

Fiduciary Fund Types

Agency – Agency funds are used to account for assets held by the County in a trustee capacity as an agent of individuals, private organizations, other funds or other governmental units. Agency funds are accounted for and reported similar to the governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve the measurement of results of operations. These funds account for activities of collections for other taxing units by the Collector of Revenue and other agency operations.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

The financial statements are prepared on the regulatory basis of accounting. This basis of accounting recognizes amounts when received or disbursed in cash and differs from accounting principles generally accepted in the United States of America.

As a result of the use of this regulatory basis of accounting, certain assets (such as accounts receivable and capital assets), certain revenues (such as revenue for billed or provided services not yet collected), certain liabilities (such as accounts payable, bonds and obligations under capital leases) and certain expenditures (such as expenditures for goods or services received but not yet paid) are not recorded in these financial statements.

If the County utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting, while the fund financial statements for proprietary fund types, if applicable, would use the accrual basis of accounting. All government-wide financial statements would be presented on the accrual basis of accounting.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Budget and Budgetary Accounting

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

1. In accordance with Chapter 50 of the Missouri Revised Statues RSMo, the County adopts a budget for each governmental fund.

2. On or before January 15, each elected officer and department director will transmit to the County Clerk, who serves as budget officer, the budget request and revenue estimates for their offices or departments for the budget year.

3. The County Clerk submits to the County Commission a proposed budget for the fiscal year beginning January 1. The proposed budget includes estimated revenues and proposed expenditures for all budgeted funds. Budgeted expenditures cannot exceed beginning available monies plus estimated revenues for the year. Budgeting of appropriations is based upon an estimated unencumbered fund balance at the beginning of the year as well as estimated revenues to be received. The budget to actual comparisons in these financial statements, however, do not present encumbered fund balances, but only compare budgeted and actual revenues and expenditures.

4. A public hearing is conducted to obtain public comment. Prior to its approval by the County Commission, the budget document is available for public inspection.

5. Prior to February 1, the budget is legally enacted by a vote of the County Commission.

6. Subsequent to its formal approval of the budget, the County Commission has the authority to make necessary adjustments to the budget by formal vote of the Commission. Adjustments made during the year are reflected in the budget information in the financial statements.

7. Budgeted amounts are as originally adopted, or as amended by the County Commission throughout the year. Individual amendments were not material in relation to the original appropriations which were adopted.

8. Budgets are prepared and adopted on the cash basis of accounting.

9. State law requires that budgeted expenditures not exceed budgeted revenues plus anticipated beginning fund balance. Section 50.740 RSMo prohibits expenditures in excess of the approved budgets.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Property Taxes

Property taxes attach as an enforceable lien on property as of January 1. Taxes are levied on October 1 and tax bills are mailed to taxpayers in November, at which time they are payable. All unpaid property taxes become delinquent as of January 1, of the following year.

The assessed valuation of the tangible taxable property, included within the County's boundaries for the calendar years 2020 and 2019, for purposes of taxation was:

	2020	2019
Real Estate	$ 271,799,888	$ 256,141,752
Personal Property	70,221,878	79,938,698
Total	$ 342,021,766	$ 336,080,450

During 2020 and 2019, the County Commission approved tax levies per $100 of assessed valuation of tangible taxable property for the calendar years 2020 and 2019, respectively, for purpose of County taxation, as follows:

	2020	2019
General Revenue Fund	$ -	$ -
Special Road and Bridge Fund	0.2098	0.2098
Total	$ 0.2098	$ 0.2098

Cash and Investments

Deposits and investments are stated at cost. Cash balances for all the County Treasurer Funds are pooled and invested to the extent possible. Interest earned from such investments is allocated to each of the funds based on the average daily cash balance. Cash equivalents include repurchase agreements and any other instruments with an original maturity of ninety days or less, if applicable. State law authorizes the deposit of funds in banks and trust companies or the investment of funds in bonds or treasury certificates of the United States, other interest bearing obligations guaranteed as to both principal and interest by the United States, bonds of the state of Missouri or other government bonds, or time certificates of deposit provided, however, that no such investment shall be purchased at a price in excess of par. Funds in the form of cash on deposit or time certificates of deposit are required to be insured by the Federal Deposit Insurance Corporation (FDIC) or collateralized by authorized investments held in the County's name at third-party banking institutions. Details of these cash balances are presented in the notes to the financial statements.

Interfund Transactions

Legally required transfers are reported as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

NOTE 2 DEPOSITS AND INVESTMENTS

The County maintains a cash and temporary investment pool that is available for use by all funds. Deposits with maturities greater than three months are considered investments. County investments are nonnegotiable certificates of deposit. Each fund type's portion of this pool is displayed as "Cash and Investments" under each fund's caption.

Deposits

Missouri statutes require that all deposits with financial institutions be collateralized in an amount at least equal to uninsured deposits. As of December 31, 2020 and 2019, the County's collateral was below the amount of uninsured deposits by $13,975,587 and $4,943,435, respectively.

Summary of Carrying Values

The carrying values of cash and investments in governmental and agency funds are included in the financial statements at December 31, 2020 and 2019, as follows:

	2020	2019
Governmental Funds:		
Deposits and Cash Equivalents	$ 6,301,292	$ 4,688,623
Investments	283,000	208,000
Total Government Funds	$ 6,584,292	$ 4,896,623
Agency Funds:		
Deposits	10,066,804	$ 11,025,137
Total Agency Funds	$ 10,066,804	$ 11,025,137

The following schedule reports values and maturities for the County as of December 31, 2020 and 2019.

2020		Investment Maturities (Years)		
Investment Type	Reported Value	Less Than One	One to Five	Six to Ten
Fixed Income - Municipal Bonds	$ 275,000	$ -	$ 115,000	$ 160,000
Certificates of Deposit (non-negotiable)	8,000	8,000	-	-
Total	$ 283,000	$ 8,000	$ 115,000	$ 160,000

2019		Investment Maturities (Years)		
Investment Type	Reported Value	Less Than One	One to Five	Six to Ten
Fixed Income - Municipal Bonds	$ -	$ -	$ -	$ -
Certificates of Deposit (non-negotiable)	208,000	208,000	-	-
Total	$ 208,000	$ 208,000	$ -	$ -

NOTE 2 DEPOSITS AND INVESTMENTS (CONTINUED)

Investment Interest Rate Risk

Investment interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The County does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

Credit ratings for the County's investments in debt securities at December 31, 2020 were as follows. The disclosed ratings are an equally weighted composite of Moody's S&P and Fitch.

	Bond Rating			
	Aaa	Aa	A	Total
Fixed Income - Municipal Bonds	$ 140,000	$ 125,000	$ 10,000	$ 275,000
Total	$ 140,000	$ 125,000	$ 10,000	$ 275,000

Concentration of Credit Risk

Concentration of investment credit risk is required to be disclosed by the County for any single investment that represents 5% or more of total investments. For the year ended December 31, 2020 the County held the following municipal bond investments representing 5% or more of the County's total investments.

Entity Name	Amount
Judson, TX Independent School District	$ 50,000
Lafayette Paris, LA Law Enforcement	50,000
Southington, Conn	75,000
White, TX Independent School District	75,000

The County has no policy in place to minimize the risk of loss resulting from over concentration of assets in specific maturity, specific issuer or specific class of securities.

NOTE 3 LONG-TERM DEBT AND CAPITAL LEASES

During 2011, the County issued $3,305,000 in Refunding Certificates of Participation to refinance the 2001 and 2002 Leasehold Revenue Bonds. The 2011 certificates bear interest at 3.0% to 4.2%. Interest payments are due in semi-annual installments on May 1 and November 1 of each year with annual principal payments due November of each year.

On May 15, 2017, the County entered into a lease purchase agreement with Mercedes-Benz Financial to finance the purchase of a 2018 Freightliner for $89,536. The lease requires annual payments on May 15 of each year of $22,384, which includes interest at 2.71%.

On May 15, 2017, the County entered into a lease purchase agreement with Mercedes-Benz Financial to finance the purchase of a 2018 Freightliner for $90,600. The lease requires annual payments on May 15 of each year of $45,300, which includes interest at 2.71%.

The leases from Mercedes Benz have the same maturity schedules and the two capital leases have been combined in the schedules of changes in capital leases and long-term debt.

On May 15, 2019, the County entered into a lease purchase agreement with First Capital Equipment Leasing Corp for the purchase of seven 2019 Chevy Tahoe's and lift equipment for $360,130 ("Chevy Tahoes"). The lease requires annual payments on May 15 of each year of $98,902 at a varying interest rate of 3.50% to 4.00%.

The schedule of changes in capital leases and long-term debt and future maturities for the year ending December 31, 2020 are as follows:

	Balance 2019	Additions	Payments	Balance 2020	Principal Due Within One Year
Series 2011	$ 695,000	$ -	$ (340,000)	$ 355,000	$ 355,000
Trucks	42,305	-	(20,752)	21,553	21,553
Chevy Tahoes	360,130	-	(86,187)	273,943	87,670
Total	$ 1,097,435	$ -	$ (446,939)	$ 650,496	$ 464,223

Year Ending December 31	Principal	Interest	Total
2021	$ 464,223	$ 26,974	$ 491,197
2022	91,265	7,638	98,903
2023	95,008	3,895	98,903
	$ 650,496	$ 26,974	$ 491,197

NOTE 3 LONG-TERM DEBT AND CAPITAL LEASES (CONTINUED)

The schedule of changes in capital leases and other long-term debt and future maturities for the year ending December 31, 2019 are as follows:

	Balance 2018	Additions	Payments	Balance 2019	Principal Due Within One Year
Series 2011	$ 1,020,000	$ -	$ (325,000)	$ 695,000	$ 340,000
Trucks	105,874	-	(63,569)	42,305	20,752
Chevy Tahoes	-	360,130	-	360,130	86,187
Total	$ 1,125,874	$ 360,130	$ (388,569)	$ 1,097,435	$ 446,939

Year Ending December 31	Principal	Interest	Total
2020	$ 446,939	$ 42,858	$ 489,797
2021	464,223	26,974	491,197
2022	91,265	7,638	98,903
2023	95,008	3,895	98,903
	$ 1,097,435	$ 69,832	$ 980,994

NOTE 4 OPERATING LEASES

The County has entered into six operating lease agreements with John Deere Financial to rent Ladder Backhoes and Motor Graders with starting dates between May 2017 and April 2019. All six leases require 5 annual payments for a total of $70,534. The total rent expenditures for the years ended December 31, 2020 and 2019 were $70,534 and $70,534, respectively.

Total annual minimum lease payments required at December 31, 2020, are as follows:

Year Ending December 31	Amount
2021	$ 70,534
2022	47,520
2023	35,254
	$ 153,308

Total annual minimum lease payments required at December 31, 2019, are as follows:

Year Ending December 31	Amount
2020	$ 70,534
2021	70,534
2022	47,520
2023	35,254
	$ 223,842

NOTE 5 INTERFUND TRANSFERS

Transfers between funds for the year ended December 31, 2020 and 2019 are as follows:

	2020		2019	
	Transfer In	Transfer Out	Transfer In	Transfer Out
General Revenue Fund	$ 58,500	$ -	$ -	$ -
Special Road and Bridge Fund	-	50,000	-	-
American Disability Act Fund	-	8,500	-	-
Total	$ 58,500	$ 58,500	$ -	$ -

Transfers are used to (1) move receipts from the fund that statute or budget requires to collect them, to the fund that statute or budget requires to disburse them, and (2) use unrestricted receipts in the General Revenue Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTE 6 COUNTY EMPLOYEES' RETIREMENT FUND (CERF)

Plan Description

CERF was established by an act of the Missouri General Assembly effective August 28, 1994. Laws governing the retirement fund are found in sections 50.1000-50.1300 of RSMo. The board of directors consists of eleven members, nine of whom are county employee participants. Two members, who have no beneficiary interest in CERF, are appointed by the Governor of Missouri. The board of directors has the authority to adopt rules and regulations for administering the system.

CERF is a mandatory cost-sharing multi-employer retirement system for each county in the state of Missouri, except counties of the first classification with a charter form of government. CERF covers county elective or appointive officers or employees whose position requires the actual performance of duties not less than 1,000 hours per year; including employees of circuit courts located in a first class, non-charter county which is not participating in the LAGERS; and does not cover circuit clerks, deputy circuit clerks, county prosecuting attorneys, and county sheriffs. Until January 1, 2000, employees hired before January 1, 2000, could opt out of the system. CERF is a defined benefit plan providing retirement and death benefits to its members. All benefits vest after eight years of creditable service. Employees who retire on or after age 62 are entitled to an allowance for life based on the form of payment selected. The normal form of payment is a single life annuity. Optional joint and survivor annuity and 10-year certain and life annuity payments are also offered to members in order to provide benefits to a named survivor annuitant after their death. Employees who have a minimum of eight years of creditable service may retire with an early retirement benefit and receive a reduced allowance after attaining age 55.

NOTE 6 COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (CONTINUED)

Plan Description (Continued)

Annual cost-of-living adjustments, not to exceed 1%, are provided for eligible retirees and survivor annuitants, up to a lifetime maximum of 50% of the initial benefit which the member received upon retirement. Benefit provisions are fixed by state statute and may be amended only by action of the Missouri Legislature. Administrative expenses for the operation of CERF are paid out of the funds of the system.

CERF issues audited financial statements. Copies of these statements may be obtained from the board of directors of CERF by writing to CERF, 2121 Schotthill Woods Drive, Jefferson City, MO 65101, or by calling 1-573-632-9203.

Contributions

Prior to January 1, 2003, participating county employees, except for those who participated in LAGERS, were required to make contributions equal to 2% of gross compensation. Effective January 1, 2003, participating county employees hired on or after February 25, 2002, are required to make contributions of 4% if they are in a LAGERS county and contributions of 6% if they are in a non-LAGERS county. If an employee leaves covered employment before attaining 8 years of creditable service, accumulated employee contributions are refunded to the employee.

The contribution rate is set by state statute and may be amended only by action of the Missouri Legislature. During 2020 and 2019, the County collected and remitted to CERF, employee contributions of approximately $188,126 and $144,193, respectively, for the years then ended.

The County remitted to CERF $200,319 and $181,843, respectively, for the years then ended December 31, 2020 and 2019. In addition, the following fees and penalties prescribed under Missouri law are required to be collected and remitted to CERF by counties covered by the plan:

- Late fees on filing of real estate and personal property tax declarations.
- Twenty dollars on each merchants and manufacturers license issued.
- Six dollars on each document recorded or filed with county recorders of deeds, with an additional one dollar on each document recorded.
- Five-ninths of the fee on delinquent property taxes.
- Interest earned on investment of the above collections prior to remittance to CERF.

Deferred Compensation and Savings Plan

Additionally, the County offers its employees a deferred compensation plan and a savings plan (the Plans) created in accordance with IRC Section 457 and 401(a), respectively, administered by CERF. The deferred compensation plan, available to all County employees, permits them to defer a portion of their salary until future years. CERF matches up to 50% of the first 6% of an employees' salary contributed to the 457 Plan, with matching contributions being placed into the 401(a) plan. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

NOTE 6 COUNTY EMPLOYEES' RETIREMENT FUND (CERF) (CONTINUED)

Deferred Compensation and Savings Plan (Continued)

All amounts of compensation deferred under the Plans, property and rights purchased with those amounts, and income attributable to amounts, property, or rights are (until paid or made available to the employees or other beneficiary) held in trust for the exclusive benefit of employees. As the County does not have fiduciary responsibility for these assets, the trust account and related liabilities are not included in the accompanying basic financial statements. The employees' contributions were $50,486 and $47,030 for the years ended December 31, 2020 and 2019, respectively.

NOTE 7 PROSECUTING ATTORNEY RETIREMENT FUND

In accordance with state statute Section 56.807 RSMo, the County contributes monthly to the Missouri Office of Prosecution Services for deposit to the credit of the Missouri Prosecuting Attorneys and Circuit Attorney Retirement System Fund. Once remitted, the State of Missouri is responsible for administration of this plan. The County has contributed $11,628 and $11,628 for the years ended December 31, 2020 and 2019, respectively.

NOTE 8 CLAIMS, COMMITMENTS, AND CONTINGENCIES

Litigation

The County is subject to various claims and legal proceedings covering a wide range of matters in the ordinary course of its activities. Management believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on financial condition of the County.

Compensated Absences

The County provides employees with up to 160 hours of paid vacation based upon the number of years of continuous service. Upon termination from county employment, an employee is reimbursed for up to 80 hours of unused vacation and overtime, if applicable. Unused sick time is not reimbursed. These have not been subjected to auditing procedures.

Federal and State Assisted Programs

The County has received proceeds from several federal and state grants. Periodic audits of these grants are required and certain costs may be questioned as inappropriate expenditures under the grant agreements. Such audits could result in the refund of grant monies to the grantor agencies. Management believes that any required refunds, if determined necessary, will be immaterial.

NOTE 9 RISK MANAGEMENT

The County is exposed to various risks of losses related to torts; theft of damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters and has established a risk management strategy that attempts to minimize losses and the carrying costs of insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

The County is a member participant in a public entity risk pool which is a corporate and political body created pursuant to state statute (Section 537.700 RSMo.). The purpose of the risk pool is to provide liability protection to participating public entities, their officials, and employees. Annual contributions are collected based on actuarial projections to produce sufficient funds to pay losses and expenses. Should contributions not produce sufficient funds to meet its obligations, the risk pool is empowered with the ability to make special assessments. Members are jointly and severally liable for all claims against the risk pool.

NOTE 10 UNCERTAINTIES

The World Health Organization has declared the spread of Coronavirus Disease (COVID-19) a worldwide pandemic. The COVID-19 pandemic is having significant effects on global markets, supply chains, businesses, and communities. Specific to the County, COVID-19 may impact various parts of its 2021 operations and financial results. Management believes the County is taking appropriate actions to mitigate the negative impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated.

STATE COMPLIANCE

CRAWFORD COUNTY
STEELVILLE, MISSOURI
SCHEDULE OF STATE FINDINGS
YEARS ENDED DECEMBER 31, 2020 AND 2019

SCHEDULE OF STATE FINDINGS

A. For the year ended December 31, 2020, no budget was established for the Law Enforcement Restitution Fund and CARES Fund.

B. For the year ended December 31, 2020, actual expenses exceeded budget for the General Revenue Fund, American Disability Act Fund, Special Road and Bridge Fund, Law Enforcement Training Fund, Sheriff's Revolving Fund and the Prosecuting Attorney Bad Check Fund.

C. For the year ended December 31, 2020, a deficit budget was enacted for the Election Services Fund.

D. For the year ended December 31, 2019, actual expenses exceeded budget for the Inmate Security Fund, Law Enforcement Training Fund, Sheriff's Revolving Fund, Sheriff's Special Fund and the Election Services Fund.

E. At December 31, 2020 and 2019, the County was under-collateralized by $13,975,587 and $4,943,435, respectively.

F. The County’s investments in municipal bonds violates RSMo Section 110.270.

CRAWFORD COUNTY
STEELVILLE, MISSOURI
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
DECEMBER 31, 2020 AND 2019

NOTE 1 BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the Schedule) includes the federal award activity of the Crawford County (the County) under programs of the federal government for the years ended December 31, 2020 and 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the County, it is not intended to and does not present the financial position or changes in net position of the County.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles in the Uniform Guidance, with the exception of CFDA 21.019, which follows criteria determined by the Department of Treasury for allowability of costs. Under these principals, certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years.

NOTE 3 INDIRECT COST RATE

The County has elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

County Commission
Crawford County
Steelville, Missouri

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Crawford County (the County) as of and for the years ended December 31, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the County's financial statements, and have issued our report thereon dated February 28, 2022. We expressed an adverse opinion on the financial statements because the financial statements are prepared on the basis of financial reporting provisions prescribed or permitted by Missouri law, which is a basis of accounting other than accounting principles generally accepted in the United States of America. However, the financial statements were found to be fairly stated on the regulatory basis of accounting, in accordance with regulatory reporting requirements established by the State of Missouri.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A member of Nexia International
CLA is an independent member of Nexia International, a leading, global network of independent accounting and consulting firms. See nexia.com/member-firm-disclaimer for details.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as items 2020-001, 2020-002 and 2020-003 that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

The County's Response to Findings

The County's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

County Commission
Crawford County
Steelville, Missouri

Report on Compliance for Each Major Federal Program

We have audited the Crawford County's (the County) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended December 31, 2020 and 2019. The County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

Opinion on Each Major Federal Program

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the years ended December 31, 2020 and 2019.

A member of Nexia International
CLA is an independent member of Nexia International, a leading, global network of independent accounting and consulting firms. See nexia.com/member-firm-disclaimer for details.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify a deficiency in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item 2020-004, that we consider to be a significant deficiency.

The County's response to the internal control over compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CRAWFORD COUNTY
STEELVILLE, MISSOURI
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEARS ENDED DECEMBER 31, 2020 AND 2019

SECTION II – FINANCIAL STATEMENT FINDINGS

2020-001 **Type of Finding**: Material Weakness in Internal Controls Over Financial Reporting.

Criteria: County Commission is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting. County Commission is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, and consistent with regulatory basis of accounting.

Condition: In October of 2019 County Commission implemented a new accounting information system. During the conversion, a significant number of opening balance sheet manual journal entries were recorded to the incorrect general ledger accounts, for the wrong amounts and the entries did not have supporting documentation.

Context: Manual journal entries were recorded to the incorrect accounts and for the wrong amount.

Effect: Material audit adjustments were required to accurately state the financial statements in compliance with the regulatory basis of accounting.

Cause: The County's internal controls were not designed to perform a review of manual entries. As a result, the County Clerk failed to perform a critical review and reconcile manual journal entries to supporting documents.

Repeat Finding: This is not a repeat finding.

Recommendation: County Commission should design internal controls to ensure manual journal entries are properly supported and reviewed. In addition, County Commission should design internal controls to ensure reconciliations are performed for all balance sheet accounts.

Views of Responsible Officials and Planned Corrective Actions: The County agrees with the finding and will implement internal controls to ensure manual journal entries are properly supported and reviewed by the County Clerk or Treasurer if manual entries are recorded by the County Clerk. In addition, County Commission will ensure that they are performing reconciliations for all balance sheet accounts.

SECTION II – FINANCIAL STATEMENT FINDINGS (CONTINUED)

2020-002 **Type of Finding**: Material Weakness in Internal Controls Over Financial Reporting.

Criteria: County Commission is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting. County Commission is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, and consistent with regulatory basis of accounting.

Condition: Certain payroll deductions, i.e. employee health insurance contributions deducted from payroll, were recorded to the incorrect general ledger accounts.

Context: Payroll deductions were recorded to liability general ledger accounts. Under the Regulatory Basis of Accounting the county should record cash disbursements to expenditure general ledger accounts.

Effect: Material audit adjustments were required to accurately state the financial statements in compliance with the regulatory basis of accounting.

Cause: The County's internal controls are not designed to perform a review of payroll journal entries. As a result, the County Clerk failed to perform a critical review of recurring payroll journal entries.

Repeat Finding: This is not a repeat finding.

Recommendation: The County should implement internal controls to require an initial and independent review and approval of all recurring journal entries.

Views of Responsible Officials and Planned Corrective Actions: The entries referenced are processed in the manner which the new accounting information system was programmed to function. The County take this recommendation under advisement and contact the software provider for alterations to the program and training on best practices.

SECTION II – FINANCIAL STATEMENT FINDINGS (CONTINUED)

2020-003 **Type of Finding**: Material Weakness in Internal Controls Over Financial Reporting.

Criteria: County Commission is responsible for the preparation and fair presentation of these financial statements in accordance with the regulatory basis of accounting. County Commission is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, and consistent with regulatory basis of accounting.

Condition: The County's internal controls over cash and investments are not designed to require an independent review of monthly bank reconciliations and statements.

Context: Cash and investments are the most significant asset to the County. As a result, it's critical that bank reconciliations and statements are independently reviewed.

Effect: The County does not have proper segregation of duties increasing the risk for misuse of County funds and / or errors in financial reporting.

Cause: The County does not have formal process for someone other than the Treasurer to perform a monthly review of bank statements and reconciliations.

Repeat Finding: This is not a repeat finding.

Recommendation: The County should design internal controls to require an independent review of bank statements and reconciliations by a County Commissioner.

Views of Responsible Officials and Planned Corrective Actions: The County Commission will take this recommendation under advisement but will also rely on the current statues of the State of Missouri regarding separation of powers for independently elected officials and their official duties.

SECTION III – FEDERAL AWARD FINDING

2020-004

Federal Grantor: US Department of Agriculture, US Department of Interior, US Department of Transportation, US Department of Health and Human Services, US Department of Treasury, and US Department of Homeland Security

Pass-Through Grantor: Missouri Department of Natural Resources, Missouri Department of Health and Senior Services, Missouri Highway and Transportation Commission, Missouri Department of Social Services, Missouri State Treasurer, and Missouri Department of Public Safety

Federal CFDA Number: 10.665, 10.557, 10.559, 15.226, 20.205, 93.563, 93.994, 93.069, 93.575, 93.767, 21.019, and 97.036

Program Title: Schools & Roads – Grants to States, Special Supplement Nutrition Program, Summer Food Service Program, Payment in Lieu of Taxes, Highway Planning and Construction, Child Support Enforcement Grant, Maternal Child Health Services Block Grants, Public Health Emergency Preparedness, Child Care Health Consultation, Child Care Sanitation Inspection, State Investment in Local Public Health Agencies, Coronavirus Relief Fund, and Presidentially Declared Disaster

Award Years: 2020 and 2019

Type of Finding: Significant Deficiency in Internal Control over Compliance

Criteria: Title 2 U.S. *Code of Federal Regulations* Part 200, requires auditees to prepare an accurate SEFA containing awards expended, CFDA title and number, award number, name of the Federal agency, and name of the pass-through entity.

Condition: When performing a reconciliation of the draft Schedule of Expenditures of Federal Awards (SEFA) provided by the County to the actual expenditures for 2019 and 2020, it was noted that the draft schedule of federal expenditures contained errors that initially reported incorrect federal expenditures for multiple CFDA numbers.

Effect: Federal Expenditures on the SEFA were incorrect.

Questioned Costs: None.

Cause: The County's internal controls over compliance were not designed to track federal expenditures by each program. There is no process to verify the SEFA reconciles to actual expenditures.

SECTION III – FEDERAL AWARD FINDING (CONTINUED)

Repeat Finding: Not a prior year finding (was a finding in the 2016 audit).

Recommendation: We recommend management reconcile the SEFA with the general ledger at year end to ensure that all costs are captured. Actual expenditures should also be reported rather than revenue.

Views of Responsible Officials: There is no disagreement with the audit finding.

CRAWFORD
CORRECTIVE ACTION PLAN
YEARS ENDED DECEMBER 31, 2019 AND 2020

Crawford County respectfully submits the following corrective action plans for the two-year period ended December 31, 2020.

Audit period: 1/1/2019 – 12/31/2020

The findings from the schedule of findings and questioned costs are discussed below. The findings are numbered consistently with the numbers assigned in the schedule.

FINDINGS—FINANCIAL STATEMENT AUDIT

MATERIAL WEAKNESS

2020-001 Financial Reporting

Recommendation: County Commission should design internal controls to ensure manual journal entries are properly supported and reviewed. In addition, County Commission should design internal controls to ensure reconciliations are performed for all balance sheet accounts.

Explanation of disagreement with audit finding: There is no disagreement with the audit finding.

Views of Responsible Officials and Planned Corrective Actions: The County Commission will take this recommendation under advisement but will also rely on the current statues of the State of Missouri regarding separation of powers for independently elected officials and their official duties.

Name(s) of the contact person(s) responsible for corrective action: Leo Sanders, Presiding Commissioner; Rob Cummings, Associate Commissioner; Jared Boast, Associate Commissioner

Planned completion date for corrective action plan: December 31, 2022

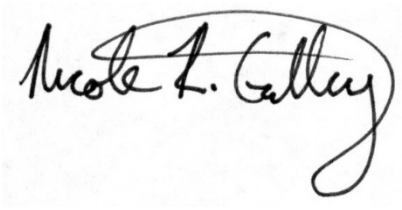
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for political subdivisions other than cities, towns, and villages, required to file a financial report, under Section 105.145, RSMo, and 15 CSR 40-3.030. Section 105.145, RSMo, provides that the State Auditor's Office notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Because of different filing requirements, a separate report is issued for cities, towns, and villages.

The filing status for the 20 political subdivisions required to file a financial report by February 28, 2022, is presented in summary on page 3 and by individual entity in Appendix A. We have not audited the reports submitted and, accordingly, do not express an opinion or any other assurance on them.

This report also includes the updated filing status for political subdivisions, other than cities, towns, and villages, that filed a financial report in February 2022, after their filing deadline. The filing status for these 34 entities is presented in summary on page 3 and by individual entity in Appendix B-D.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision in the state, except counties and school districts, to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

This report includes the filing status for the 20 political subdivisions, other than cities, towns, and villages, with a fiscal year end of August 31, 2021. Cities, towns, and villages have additional filing requirements and their reporting status is included in a separate report. Of the 20 political subdivisions, 14 filed an annual financial report timely.

This report also includes the filing status for 34 political subdivisions, other than cities, towns, and villages, that filed their financial report in February 2022, after their filing deadline.

NICOLE GALLOWAY, CPA
Missouri State Auditor

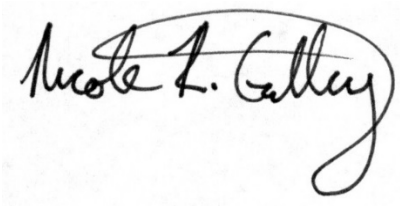
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this compilation is to report the filing status for the municipalities required to file a financial report by February 28, 2022, under Section 105.145, RSMo, and 15 CSR 40-3.030, and, when applicable, an addendum under Section 479.359, RSMo, and 15 CSR 40-3.170 and a municipal court certification under Section 479.360, RSMo, and 15 CSR 40-3.180.

Section 105.145, RSMo, provides that the State Auditor's Office (SAO) notify the Department of Revenue if any city, town, or village fails to timely submit a copy of its annual financial report. Additionally, Section 479.362, RSMo, provides that the SAO notify the Department of Revenue whether counties, cities, towns, and villages have timely filed under Sections 479.359 and 479.360, RSMo. Because of different filing requirements, a separate report is issued for all other political subdivisions required to file a financial report.

The filing status for 6 cities, 1 town, and 4 villages is presented in summary on page 3 and by individual entity in Appendix A. This compilation is limited to presenting information submitted to our office. We have not audited the information submitted and, accordingly, do not express an opinion or any other form of assurance on it.

This report includes the updated filing status for municipalities that filed at least one of the items (financial report, addendum, or certification) in February 2022, after their filing deadline. The filing status for these 35 cities, 1 town, and 10 villages is presented in summary on page 3 and by individual entity in Appendixes B and C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Section 105.145, RSMo, requires the governing body of each political subdivision, except counties and school districts, in the state to prepare and remit to the state auditor an annual report of financial transactions. 15 CSR 40-3.030 requires the financial report to be remitted to the state auditor within 6 months of the end of the political subdivision's fiscal year. The State Auditor's Office (SAO) posts individual annual financial reports to its website. A searchable link is available at http://auditor.mo.gov.

Section 105.145, RSMo, requires the state auditor to notify the Department of Revenue if any political subdivision fails to timely submit a copy of its annual financial report. Any political subdivision that fails to timely submit the annual financial report shall be subject to a fine of $500 per day upon notice by the Department of Revenue, except transportation development districts with a gross revenues less than $5,000 in the fiscal year of the annual financial report.

Section 479.359.1, RSMo, requires every county, city, town, and village to annually calculate the percentage of its annual general operating revenue received from fines, bond forfeitures, and court costs for minor traffic violations.

Section 479.359.3, RSMo, provides that all entities having a municipal court file an addendum to the annual financial report containing items listed in 15 CSR 40-3.170, which also provides the procedures to file an addendum.

Section 479.360, RSMo, requires every county, city, town, and village that has a municipal court to file, with its annual financial report, a certification of substantial compliance with 10 municipal court procedures. This certification must be signed by the municipal court judge. 15 CSR 40-3.180 provides the procedure to file the municipal court certification. Any county, city, town, or village that does not have a municipal court judge is not required to file a certification.

Section 479.362, RSMo, requires that the SAO notify the Department of Revenue whether counties, cities, towns, or villages have timely filed their addendums under Section 479.359 and certificates of substantial compliance under Section 479.360, RSMo. Section 479.368, RSMo, provides penalties for counties, cities, towns, and villages that fail to file, including loss of revenue and mandatory ballot measure to dissolve the political subdivision.

This report includes the filing status for the 6 cities, 1 town, and 4 villages with a fiscal year end of August 31, 2021, whose financial report was due by February 28, 2022. Of the 11 municipalities, 5 filed the financial report timely. Of the 9 municipalities required to file an addendum, 3 filed timely. Of the 2 municipalities required to file a certification, neither filed timely.

This report includes the filing status for 35 cities, 1 town, and 10 villages that filed at least one of the items (financial report, addendum, or certification) in February 2022, after their filing deadline. Of these municipalities, 38 filed an annual financial report, 15 filed an addendum, and 5 filed a certification.

CITIZENS SUMMARY

Findings in the Annual Comprehensive Financial Report
Report on Internal Control, Compliance, and Other Matters

Department of Revenue Financial Reporting Controls	The Department of Revenue does not have adequate controls and procedures over financial reporting of sales and use tax accounts receivable. As a result, net accounts receivable and related liability balances submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the *Missouri Annual Comprehensive Financial Report* (ACFR) for the year ended June 30, 2021, were understated by approximately $87 million.
Department of Natural Resources Capital Asset Controls	The Department of Natural Resources does not have adequate controls and procedures over reporting capital assets in the statewide accounting system. If the accounting system errors had not been identified during the audit, Government Wide - Business Type Activities and Non-Major Enterprise Fund accumulated depreciation of capital assets would have been overstated and net capital assets would have been understated by approximately $25.4 million in the ACFR for the year ended June 30, 2021.
Department of Social Services Financial Reporting Controls	The Department of Social Services - Division of Finance and Administrative Services does not have adequate controls and procedures over financial reporting of federal grant accounts receivable. As a result, accounts receivable data submitted to the DOA for inclusion in the ACFR for the year ended June 30, 2021, was understated by approximately $16.3 million.
Department of Labor and Industrial Relations UInteract System Controls	The Department of Labor and Industrial Relations needs to improve certain UInteract system controls. System controls were not sufficient to prevent or detect improper payments authorized by an employee totaling approximately $123,000 during fiscal years 2020 and 2021.

Because of the nature of this audit, no rating is provided.

State of Missouri - Annual Comprehensive Financial Report Report on Internal Control, Compliance, and Other Matters Introduction

Summary of Financial Statement Audit Results

In fulfillment of our duties under Section 29.200.10, RSMo, we issued our audit report (Report No. 2022-002[1]) of the state's Annual Comprehensive Financial Report (ACFR), as of and for the year ended June 30, 2021, on January 21, 2022. The state's financial statements covered approximately $50 billion in total assets and approximately $35 billion in total expenses for state fiscal year 2021. Our report expressed qualified opinions on the governmental activities and the General Fund because we were not allowed access to tax returns and related source documents for income taxes. Our report expressed unmodified opinions on all remaining opinion units.

In connection with the audit, we tested internal controls and compliance with laws and regulations. The results of our tests are contained herein in our Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards.* We reported four findings related to internal control deficiencies. These findings were at the Department of Revenue, the Department of Natural Resources, the Department of Social Services, and the Department of Labor and Industrial Relations. We consider these findings to be significant deficiencies. The state agencies' responses to the findings are included in this report. The agencies prepared a Corrective Action Plan (CAP) for each finding. The CAPs were submitted to the Office of Administration (OA) and will be included in the Corrective Action Plans section of the State of Missouri - Single Audit Report, to be issued later.

The state agencies prepared and submitted to the OA the status of the prior audit findings. They will be presented in the Summary Schedule of Prior Audit Findings section of the State of Missouri - Single Audit Report.

[1] The ACFR is available online at: <https://oa.mo.gov/accounting/reports/annual-reports/annual-comprehensive-financial-reports>.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Michael L. Parson, Governor
and
Members of the General Assembly

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the state of Missouri, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the state's basic financial statements, and have issued our report thereon dated January 21, 2022. Our report expressed qualified opinions on the governmental activities and the General Fund, a major fund, because we were not allowed access to tax returns and related source documents for income taxes. Approximately 26 percent of governmental activity revenues and 29 percent of General Fund revenues are from this source. We were unable to satisfy ourselves by appropriate audit procedures as to the income tax revenue beyond the amounts recorded. Our report expressed unmodified opinions on all remaining opinion units.

Our report on the state of Missouri's financial statements includes a reference to other auditors who audited the financial statements of:

1. The Missouri Road Fund, a major fund; the Missouri Road Bond Fund; the Transportation Self-Insurance Plan; the Missouri State Employees' Insurance Plan; the Missouri Consolidated Health Care Plan; and the Missouri Department of Transportation and Missouri State Highway Patrol Medical and Life Insurance Plan which represent 70 percent of the assets and 10 percent of the revenues of the governmental activities.

2. The State Lottery, a major fund, and the Petroleum Storage Tank Insurance Fund which represent 24 percent of the assets and 35 percent of the revenues of the business-type activities.

3. The aggregate discretely presented component units.

4. The pension (and other employee benefit) trust funds and the Missouri Department of Transportation custodial funds which represent 93 percent of the assets and 98 percent of the additions of the fiduciary funds.

This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

The financial statements of the Missouri State Employees' Insurance Plan and the Missouri Consolidated Health Care Plan, internal service funds; the Missouri Development Finance Board, the Missouri Agricultural and Small Business Development Authority, and the State Environmental Improvement Energy Resources Authority, discretely presented component units; and the pension (and other employee benefit) trust funds were not audited in accordance with *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the state of Missouri's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the state's internal control. Accordingly, we do not express an opinion on the effectiveness of the state's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the state's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying Schedule of Findings as finding numbers FS2021-001 through FS2021-004 that we consider to be significant deficiencies.

Compliance and Other Matters

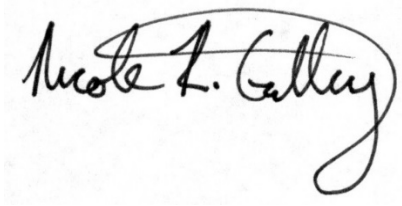
As part of obtaining reasonable assurance about whether the state of Missouri's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

State's Responses to the Findings

The state of Missouri's responses to the findings identified in our audit are described in the accompanying Schedule of Findings. The state's responses were not subjected to the audit procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, pursuant to Section 29.200, RSMo, this report is a matter of public record and its distribution is not limited.



Nicole R. Galloway, CPA
State Auditor

January 21, 2022

FS2021-001. Department of Revenue Financial Reporting Controls

The Department of Revenue (DOR) does not have adequate controls and procedures over financial reporting of sales and use tax accounts receivable. As a result, net accounts receivable and related liability balances submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the *Missouri Annual Comprehensive Financial Report* (ACFR) for the year ended June 30, 2021, were misstated. If the misstatements had not been identified during the audit, net accounts receivable and related liability balances for governmental and fiduciary funds would have been understated by approximately $87 million in the ACFR.

To determine and submit net accounts receivable and related liability balances for delinquent sales and use taxes to the DOA, the DOR - Administration Division first obtains reports totaling gross accounts receivable generated from the computerized Revenue Premier system maintained by the DOR - Taxation Division. The Administration Division then performs calculations to estimate the percentage of accounts receivable considered uncollectible. This uncollectible percentage is then applied to the gross accounts receivable balances to determine the net accounts receivable and related liability balances to be reported in the ACFR. Our review of the calculations to determine the uncollectible percentage identified various calculation errors that resulted in the uncollectible percentage being significantly overstated. When this percentage was applied to the gross accounts receivable balances, it resulted in the net accounts receivable and related liability balances being understated by approximately $87 million.

After we identified the calculation errors and discussed them with DOR personnel, the Administration Division recalculated the uncollectible percentage and applied that percentage to the gross accounts receivable balances, resulting in corrected net accounts receivable and related liability balances. The Administration Division submitted the revised reports to the DOA. DOR officials said they have taken steps to minimize the risk of future misstatements. When reviewing fiscal year 2021 ACFR reports and background information, the DOR only had one employee accountable for ensuring accuracy and approving the reports and other information. For fiscal year 2022 and future years, the officials indicated they will use a two-person review process of both paper and electronic documentation to improve accuracy.

It is essential the DOR establish controls and procedures to prepare and submit accurate accounts receivable balances to the DOA. The *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States, states management is responsible for the design, implementation, and operating effectiveness of the internal control system and the control activities should be designed to achieve objectives and respond to risks. Such controls would allow management or employees, in

the normal course of performing their assigned functions, to prevent or detect and correct misstatements.

The misstatements identified affected the net accounts receivable and related liability balances for several governmental and fiduciary funds reported within various opinion units of the ACFR. The DOA corrected the ACFR prior to its completion.

Recommendation

The DOR implement controls and procedures to prepare and submit accurate sales and use tax accounts receivable reports to the DOA.

Auditee's Response

The DOR understands the auditor's finding. The DOR wants to ensure our customers that the finding does not have any effect or added cost to them. Our Corrective Action Plan includes our planned actions to address the finding.

FS2021-002. Department of Natural Resources Capital Asset Controls

The Department of Natural Resources (DNR) does not have adequate controls and procedures over reporting capital assets in the statewide accounting (SAM II) system. If the accounting system errors had not been identified during the audit, Government Wide - Business Type Activities and Non-Major Enterprise Fund accumulated depreciation of capital assets would have been overstated and net capital assets would have been understated by approximately $25.4 million in the *Missouri Annual Comprehensive Financial Report* (ACFR) for the year ended June 30, 2021.

When capital assets are acquired (by purchasing the asset or by completing the related construction-in-progress asset), DNR Accounting Division personnel enter the capital asset information, including the estimated useful life and type of asset, into the SAM II system. The fixed asset manual issued by the Office of Administration - Division of Accounting (DOA) provides recommended useful life estimates for various capital asset types (e.g., 15 to 20 years for land improvements). Once the asset information has been entered and approved by a supervisor, the SAM II system begins depreciating the assets over the useful life. If no useful life is entered for an asset, the SAM II system will fully depreciate the asset in the same fiscal year it was acquired. The DOA uses SAM II asset balances and depreciation amounts for inclusion in the ACFR.

For several DNR state park assets acquired during fiscal years 2006 through 2021, DNR Accounting Division personnel did not enter a useful life in the SAM II system. As a result, the SAM II system fully depreciated the assets during the year each asset was acquired instead of over the recommended 2 to 5 years for equipment, 15 to 20 years for land improvements, or 40 to 50 years for buildings. These errors were not detected in the supervisory review and approval of the capital asset entries. DNR Accounting Division personnel identified these errors in May 2021, and attempted to correct them. DNR officials could not provide documentation supporting these corrections.

Upon our audit inquiries, DNR Accounting Division personnel determined the May 2021 corrections were erroneous and they worked with the DOA to correct the SAM II system information. The DOA made corrections to the ACFR, including restatements of prior year amounts, prior to its completion; and revised the useful life for the assets in the SAM II system to accurately calculate the depreciation expense in future periods. Had the corrections not been made, the Government Wide - Business Type Activities and Non-Major Enterprise Fund accumulated depreciation of capital assets would have been overstated and net capital assets would have been understated by approximately $25.4 million for the year ended June 30, 2021.

DNR officials indicated the errors occurred and were not properly corrected due to inadequate training and review procedures. They stated they have provided additional training for Accounting Division personnel and have instituted bi-monthly reviews of capital asset balances. It is essential the DNR strengthen controls and procedures to ensure capital assets are accurately reported in the SAM II system. The *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States, states management is responsible for the design, implementation, and operating effectiveness of the internal control system and that control activities should be designed to achieve objectives and respond to risks. Such controls would allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements.

Recommendation

The DNR strengthen controls and procedures to ensure capital assets are accurately reported in the SAM II system.

Auditee's Response

Department management agrees with the recommendation. Future period depreciation and the useful life were corrected for the capital assets in question. We implemented procedures in December 2021 to monitor the depreciation of assets on a monthly basis.

FS2021-003. Department of Social Services Financial Reporting Controls

The Department of Social Services (DSS) - Division of Finance and Administrative Services (DFAS) does not have adequate controls and procedures over financial reporting of federal grant accounts receivable. As a result, accounts receivable data submitted to the Office of Administration - Division of Accounting (DOA) for inclusion in the *Missouri Annual Comprehensive Financial Report* (ACFR) for the year ended June 30, 2021, was misstated. If the misstatement had not been identified during the audit, accounts receivable would have been understated by approximately $16.3 million in the ACFR financial statements.

Accounts receivable reported in the ACFR include federal grant costs as of June 30, expected to be reimbursed by federal grantor agencies in July and August. To compile and submit accounts receivable data to the DOA, DFAS

personnel extract federal grant financial information from quarterly cash on hand (COH) reports. Data in the COH reports come from multiple sources such as federal letters of credit, grant drawdowns, and expenditure reports filed with the grantor agencies.

For the year ended June 30, 2021, some COH reports did not include certain grant financial information. As a result, DFAS personnel did not include approximately $16.3 million in the accounts receivable reported to the DOA. The amount not reported involves funds transferred from the Temporary Assistance for Needy Family (TANF) program to the Social Services Block Grant program, for the 9 months ended June 30, 2021. This error occurred because DFAS procedures did not include a review of the COH reports for accuracy and completeness, or a reconciliation against finalized TANF expenditure reports. It was not detected as part of supervisory review of the accounts receivable data. After we identified the issue and discussed it with department officials, DFAS personnel submitted a revised accounts receivable report to the DOA.

It is essential the DFAS strengthen controls and procedures to prepare and submit accurate accounts receivable reports to the DOA. The *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States, states that management is responsible for the design, implementation, and operating effectiveness of the internal control system and that control activities should be designed to achieve objectives and respond to risks. Such controls would allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements.

Recommendation

The DSS through the DFAS strengthen controls and procedures to prepare and submit accurate accounts receivable reports to the DOA.

Auditee's Response

The DSS agrees with this finding. The DSS notes that the referenced cash on hand (COH) reports were actually reviewed for accuracy at a point in time prior to the completion of all federal grant reports. The COH report is due and completed by day 30 following the end of the quarter with an estimate of the Temporary Assistance Grant as the Temporary Assistance Grant report is due and completed on day 45 following the end of the quarter.

The DSS will use the Temporary Assistance Grant federal financial report rather than the estimate on the COH report to ensure accurate accounts receivable reporting.

FS2021-004. Department of Labor and Industrial Relations UInteract System Controls

The Department of Labor and Industrial Relations (DOLIR) needs to improve certain UInteract system controls. System controls were not sufficient to prevent or detect improper payments authorized by an employee totaling approximately $123,000 during fiscal years 2020 and 2021.

The DOLIR implemented the UInteract system in 2016 for determining eligibility and making payments for the Unemployment Insurance (UI) program. During fiscal years 2020 and 2021, the system was expanded to include several new federal pandemic unemployment benefit programs. During the year ended June 30, 2021, the DOLIR made various program benefit payments totaling approximately $3.4 billion.

At the beginning of the audit, DOLIR personnel reported to us that improper payments were authorized by an employee. Our audit procedures revealed UInteract system control weaknesses that did not prevent or detect the improper payments. We are not disclosing details of the system control issues in this report because of the sensitivity of the activities and to avoid compromising the confidentiality of the DOLIR's resources. Under Section 610.021(21), RSMo, a governmental body is authorized to close records to the extent the records identify the operations of and would allow unauthorized access or unlawful disruption of its computer, computer system, computer network, or telecommunications network. We provided detailed information regarding the specific conditions, criteria, causes, and effects we identified, and recommendations confidentially to DOLIR officials so they could take corrective action.

Rule 2 CFR Section 200.303(a) requires the non-federal entity to "[e]stablish and maintain effective internal control over the Federal award that provides reasonable assurance that the non-Federal entity is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in *Standards for Internal Control in the Federal Government*, issued by the Comptroller General of the United States or the *Internal Control Integrated Framework*, issued by the Committee of Sponsoring Organizations of the Treadway Commission." The *Standards for Internal Control in the Federal Government*, also known as the Green Book, requires management to develop and maintain documentation of its internal control system. Paragraph 11.01 of the Green Book states, "Management should design the entity's information system and related control activities to achieve objectives and respond to risks."

Recommendation

The DOLIR implement the confidentially communicated recommendations for improving UInteract system controls and correct the improper payments.

Auditee's Response

We agree with the auditor's finding. Our Corrective Action Plan includes our planned actions to address the finding.

C Law Enforcement Agencies Not Filing a 2021 ACA Form - Equitable Sharing Agreement and Certification 13

NICOLE GALLOWAY, CPA
Missouri State Auditor

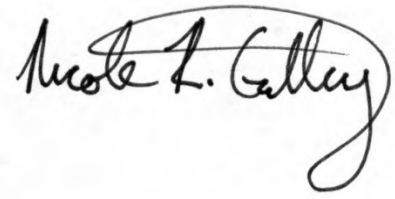
Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

Section 513.653.1, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to file a copy of the federal form entitled "ACA Form - Equitable Sharing Agreement and Certification" regarding federal seizures and the proceeds therefrom with the State Auditor's Office. Although Section 513.653.1, RSMo, only requires my office to receive these reports, we compiled the information the law enforcement agencies filed with us. We have not audited the forms submitted and, accordingly, do not express an opinion or any other form of assurance on them, including whether or not an agency is in compliance with the statute. The primary objectives of this compilation were to:

1. Identify the reporting status of law enforcement agencies.

2. Summarize the information reported.

Conclusions regarding compliance cannot be made for law enforcement agencies that did not submit a form.



Nicole R. Galloway, CPA
State Auditor

Compilation of 2021 Federal Forfeiture Reports
Executive Summary

Executive Summary

Section 513.653, RSMo, requires law enforcement agencies involved in using the federal forfeiture system under federal law to annually file a copy of the federal form entitled "ACA Form - Equitable Sharing Agreement and Certification" regarding federal seizures and the proceeds received therefrom with the State Auditor's Office (SAO) by February 15th for the previous calendar year. The law provides that any law enforcement agency that intentionally or knowingly fails to comply with the reporting requirement shall be ineligible to receive state or federal funds that would otherwise be paid to such agency for law enforcement, safety, or criminal justice purposes.

The U.S. Departments of Justice and Treasury publication, *Guide to Equitable Sharing for State, Local, and Tribal Law Enforcement Agencies*, states "the Department of Justice and Department of Treasury Asset Forfeiture Programs are, first and foremost, law enforcement programs. They remove the tools of crime from criminal organizations, deprive wrongdoers of the proceeds of their crimes, recover property that may be used to compensate victims, and deter crime." Any state or local law enforcement agency that directly participates in an investigation or prosecution resulting in a federal forfeiture may request an equitable share of the net proceeds of the forfeiture. Equitably shared funds must be used for law enforcement purposes, except as noted in the publication, and must increase or supplement the resources of the receiving law enforcement agency. In addition to reporting requirements under state law, there are also various program mandated accounting, reporting, and audit requirements.

To determine the law enforcement agencies to notify of the required filing with the SAO, we requested information from the Missouri Department of Public Safety (DPS). The DPS compiled a list of law enforcement agencies using information from the Peace Officer Standards and Training program and the Justice Assistance Grants distribution lists. The SAO notified the listed agencies of the requirement to submit a copy of the required form if the agencies participated in the federal forfeiture system. According to DPS personnel, the list does not represent a complete list of all agencies, but includes all agencies with commissioned officers or drug task forces receiving funding from the DPS.

The list we received from the DPS included 682 agencies. An additional 2 agencies, not included on the list provided by DPS, filed reports with the SAO. Officials from 4 political subdivisions associated with agencies on the list indicated those agencies were not in operation during 2021. Those agencies are identified on Appendix C. This report indicates agencies that filed copies of the form by February 28, 2022.

The following table summarizes these reports.

Reporting Status	Number	Percentage
Number of agencies reporting (Appendix A and B)	120	17.54
Number of agencies not reporting (Appendix C)	564	82.46
Total Possible Reports	684	100.00

A total of 120 agencies filed a copy of the federal form with the SAO. These agencies are identified on Appendixes A and B.

In 2021, the updated Equitable Sharing Agreement and Certification form included a revision to the Total Equitable Sharing Funds Received calculation.[1] Some agencies filed a copy of the prior version of the form and others the new version, resulting in differences in the amounts presented for the Total Equitable Sharing Funds Received. To ensure the amounts presented are consistent, the Total Equitable Sharing Funds Received presented on Appendixes A and B were calculated in accordance with the newest form.

Of the 682 agencies included in the list provided by DPS, 564 did not provide a copy of the form. Agencies were not required to provide a copy of the form if they did not participate in the federal forfeiture system. These agencies are identified on Appendix C.

Conclusions regarding compliance cannot be made for non-reporting agencies. This compilation work is not an audit and, as such, no verification was performed as to whether these agencies did or did not participate in the federal forfeiture system.

[1] Prior to 2021, the Equitable Sharing Agreement and Certification calculated the Total Equitable Sharing Funds Received amount as the Beginning Balance plus any funds received and income. With the revisions to the form in 2021, this amount now excludes the Beginning Balance and only includes current year funds received and earned.

CITIZENS SUMMARY

Findings in the audit of the City of Cross Timbers

Misappropriated Money and Utility Services	From October 1, 2017, through July 31, 2020, money totaling at least $44,452 was misappropriated from the city by the City Clerk, including undeposited city receipts of $21,474; overpayments of $6,132; questionable payments of $13,525; improper payments of $569; and improperly recorded utility payments ($1,973) and adjustments ($234) to the City Clerk's utility account, and $545 of improperly unbilled utility services related to that account. In addition, during the period January 2015 through July 2020, we identified $5,280 of improperly recorded utility payments and adjustments and unbilled utility services related to a former Alderman's utility account.
Financial Condition	The city finances are in poor financial condition, and the Board of Aldermen had not adequately monitored that condition.
Oversight, Annual Audits and City Ordinances	The Board did not establish adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the City Clerk. The city has not obtained annual audits of its combined water and sewer system as required by state law. City ordinances are not complete and have not been updated since 2013.
Payroll and Related Matters	The Board did not document the basis for classifying the City Clerk and the former Maintenance Supervisor as independent contractors rather than employees. The Board and City Clerk did not pay past due taxes, interest, and penalties due from December 2010 to December 2013, and as a result, the city owes the Internal Revenue Service (IRS) $15,255 as of September 15, 2021, in unpaid past due taxes ($8,739), and penalties and interest ($6,516), with the amount of penalties and interest continuing to increase since the balance remains unpaid. The City Clerk issued herself pay advances totaling $7,311 in violation of the Missouri Constitution. The City Clerk did not prepare timesheets. The Board did not enter into a written contract with the City Clerk and the City Clerk did not prepare and file accurate 1099 forms for payments made to herself and the Maintenance Supervisor. City officials had no documentation to justify the allocation of the amounts paid the City Clerk and Maintenance Supervisor to the various city bank accounts.
Accounting Controls and Procedures and Disbursements	The city's procedures for receipting, recording, and depositing payments received were poor. The City Clerk did not prepare bank reconciliations for any of the city's bank accounts, maintain a checkbook register or book balances, issue checks in numerical order, and prepare a list of bills or monthly financial reports for the Board's review. The Board and City Clerk did not ensure required sewer loan payments occurred. The City Clerk made excessive and unauthorized transfers between various bank accounts and did not ensure some bills were paid timely, resulting in more than $20,000 in outstanding bills as of September 15, 2021. City officials could not provide copies of some meeting minutes, invoices, delinquent notices from the IRS, the City Clerk's calendars of time worked, 1099 forms, and documentation of expense reimbursements.
Utility System Controls and Procedures	Improper adjustments were made to the utility account of the City Clerk and a former Alderman, and we noted several other adjustments and the reasons documented for the adjustments that were unusual. City personnel do not

	prepare proper reconciliations related to utility services. They also do not reconcile customer utility deposit balances reported in the utility system to the account holding the funds, and the City Clerk transferred amounts from that account to other bank accounts to pay city bills. Delinquent utility accounts are not always shut off as required by ordinance, and the City Clerk allowed some customers to make partial payments on delinquent accounts without Board approval. Current water and sewer rates are not supported by a cost study or other documentation showing how the rates were determined. The city had not filed or remitted sales taxes collected related to utility services provided for some months to the Department of Revenue.
Budgets and Financial Reporting	The City Clerk did not prepare a budget for the years ended December 31, 2020, 2019, or 2018. City officials did not file timely annual financial reports with the State Auditor's Office as required by state law, and the financial statements filed were not accurate. The city has not published financial statements for the years ended December 31, 2020, 2019, and 2018.
Sunshine Law	The Board did not always prepare and maintain meeting minutes. City officials could not locate meeting minutes for monthly Board meetings occurring in March, April, May, and June 2018, and also February and July 2019. The Board has not adopted a written policy regarding public access to city records as required by state law.
Electronic Data Security	The city has not established adequate password controls to reduce the risk of unauthorized access to the city's computer and data. The city did not have antivirus software installed on the city's computer to ensure protection of data. City personnel do not periodically back up some city data and store the backup data at a secure off-site location.
Electronic Communication Policy	The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission.

In the areas audited, the overall performance of this entity was **Poor**.*

All reports are available on our website: auditor.mo.gov

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

To the Honorable Mayor
and
Members of the Board of Aldermen
City of Cross Timbers, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit the City of Cross Timbers. We have audited certain operations of the city in fulfillment of our duties. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the city's internal controls over significant management and financial functions.

2. Evaluate the city's compliance with certain legal provisions.

3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

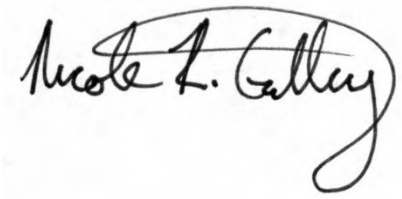
4. Determine the extent of money misappropriated from the city.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel of the city, as well as certain external parties; analysis of comparative data obtained from external sources, and testing selected transactions. We obtained an understanding of internal control that is significant to the audit objectives and planned and performed procedures to assess internal control to the extent necessary to address our audit objectives. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violations of applicable contract, grant agreement, or other legal provisions could occur. Based on that risk assessment, we designed and performed procedures to provide reasonable assurance of detecting instances of noncompliance significant to those provisions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the city's management and was not subjected to the procedures applied in our audit of the city.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, (3) the need for improvement in management practices and procedures, and (4) misappropriated money and utility services totaling at least $49,732. The accompanying Management Advisory Report presents our findings arising from our audit of the City of Cross Timbers.



Nicole R. Galloway, CPA
State Auditor

Background

The former City Clerk, January "Nicki" Clark, served from September 2017[1] until July 6, 2020. The former City Clerk was primarily responsible for the financial accounting functions and records of the city.

The former City Clerk is referred to as the City Clerk throughout the remainder of this report.

- Receipts - The City Clerk collected, receipted, and posted payments in the computerized utility system, and prepared and made deposits.

- Disbursements - The City Clerk received invoices for payment, prepared and distributed checks, maintained supporting documentation, and transferred money between bank accounts. Two Board of Aldermen members signed checks.

- Payroll - The City Clerk prepared a calendar of the hours she worked. The City Clerk prepared and distributed checks for payment of herself and the former Maintenance Supervisor, and 2 Board members signed those checks. The city entered into a contract with the former Maintenance Supervisor on March 6, 2018, that provided for a weekly payment of $250 and free water and sewer services while living in city limits. He worked from March 12, 2018, until November 2019, when he terminated his contract with the city.[2]

- As discussed in MAR finding number 4.1, the city reclassified the City Clerk position in 2013 from an employee to an independent contractor, and this reclassification was questionable. While the income most likely should have been reported as wage income of an employee, the city failed to properly report the income of the City Clerk for this reclassified position.

- Bank accounts - The City Clerk received monthly bank statements for the city's 7 bank accounts.

- Utilities (water and sewer) - The former Maintenance Supervisor read meters at the main pump and at each utility customer location, and submitted meter readings to the City Clerk to enter into the computerized utility system. The City Clerk prepared utility bills, posted payments in

[1] We could not determine the date the City Clerk was hired. The city issued an initial paycheck to the City Clerk on November 3, 2017, for $885, and the memo line of the check mentioned "Sept Wages."

[2] We could not determine the specific date of the former Maintenance Supervisor's termination. The city issued a "final paycheck" for "Nov Wages/Reimbursements" to the former Maintenance Supervisor on December 6, 2019.

the utility system, made adjustments in the utility system, and monitored delinquent utility accounts.

- Reporting - The City Clerk prepared meeting minutes. They were typically reviewed and approved at the next Board meeting. The City Clerk was responsible for generating monthly summary reports of utility usage, billings, payments, adjustments, and balances due.

Representatives of the State Auditor's Office (SAO) took the testimony of the City Clerk and the former Mayor on November 10, 2021.[3] The SAO also issued a subpoena to the City Clerk (see Appendix A) and the former Mayor (see Appendix B) to compel them to produce records and documents related to their testimony. Appendixes A and B include redactions. These redactions are of information of a confidential, personal, privileged, or sensitive nature, and/or of information that is not directly related to the information requested in the subpoena. The former City Clerk and Mayor responded to the subpoenas by email that they had no records or documents related to their testimony.

In addition, audit staff recorded interviews with former Board members and current and former employees and requested copies of any city records they had. The former Board members and current employees provided some city records.

We also emailed a letter on August 3, 2020, to the City Clerk requesting that she provide proof of payment (canceled checks, copies of money orders, city receipt slips, payment stubs, etc.) to the SAO by August 15, 2020, for all utility services related to her account during the period of August 2017 through July 2020. The City Clerk did not respond to this letter or provide any documentation.

The Hickory County Prosecuting Attorney and the Missouri State Highway Patrol (MSHP) investigated and obtained personal bank records of the City Clerk, and turned those records over to our office for review.

The city's fiscal year is January 1 through December 31. The scope of our audit included, but was not necessarily limited to the period January 1, 2018, through December 31, 2018. After the identification of significant concerns regarding overpayments, improper payments, improperly recorded utility payments and improper adjustments and billings, and undeposited city receipts, we applied limited audit procedures to city receipt, disbursement (including payroll payments), and utility records for the period October 1, 2017, through July 31, 2020 (the approximate time period the City Clerk

[3] Testimonies were given under oath and were recorded by SAO staff.

provided services to the city), to determine the amount misappropriated, and the methods used to perpetrate and conceal the theft. In addition, after identifying concerns related to a former Alderman's utility account, we applied limited audit procedures to his utility account records for the period of December 2014 through July 2020.

City of Cross Timbers
Management Advisory Report
State Auditor's Findings

1. Misappropriated Money and Utility Services

From October 1, 2017, through July 31, 2020, money and utility services totaling at least $44,452[4] was misappropriated from the city by the City Clerk. City receipts totaling $21,474 were not deposited by the City Clerk. Overpayments totaling $6,132 and questionable payments totaling $13,525 were also paid to the City Clerk. Other improper payments totaling $569 were also made to the City Clerk. Improperly recorded utility payments totaling $1,973 and adjustments totaling $234 were applied to the account of the City Clerk. In addition, $545 of utility services were improperly not billed to the City Clerk.

The following table provides a summary of the amounts misappropriated by the City Clerk and identifies the appendixes where specific details are reported.

	Period October through December 31, 2017	Year Ended December 31, 2018	2019	Period January 1 through July 6, 2020	Total
Undeposited city receipts (Appendix C)	$ 1,891	9,323	4,931	5,329	21,474
Overpayments (Appendix D)	467	3,504	2,046	115	6,132
Questionable payments (Appendix D)	0	9,665	3,860	0	13,525
Other improper payments (Appendix E)	0	514	0	55	569
Improperly recorded utility payments (Appendix F)	505	616	422	430	1,973
Improper utility adjustments (Appendix F)	0	153	81	0	234
Utility services improperly not billed (Appendix F)	0	143	402	0	545
Total	$ 2,863	23,918	11,742	5,929	44,452

In addition, during the period January 2015 through July 2020, $5,280 of improperly recorded utility payments and adjustments and utility services not billed were identified related to former Alderman Baker's utility account (Appendix H). Improperly recorded utility payments totaling $430 and improper net adjustments of $814 were applied to the former Alderman's utility account. In addition, we estimated $4,036 of utility services were improperly not billed to the former Alderman, during periods when meter readings were not available.

[4] Amounts presented in the report findings are rounded to the nearest dollar, whereas amounts presented in the report appendixes are not rounded.

Undeposited city receipts

The City Clerk did not deposit $21,861 of recorded city receipts. However, 2 city invoices totaling $387 were likely paid with city cash receipts, resulting in net undeposited city receipts of $21,474 (see Appendix C). One of the 2 city invoices likely paid was dated May 28, 2018, for $12 for sewer supplies and the other invoice was dated November 16, 2018, for $375 for pump repairs. In sworn testimony, the City Clerk indicated that she "sometimes, but not a lot," used city cash receipts for city purchases of supplies or for after hour services. As noted in the Background section, we issued a subpoena for the City Clerk to produce records and documents related to her testimony, including any other city invoices that were paid with cash, and she provided no documentation. The majority of the undeposited receipts were recorded as cash payments ($10,077). Some of the undeposited receipts related to check and money order payments ($9,056). However, it is likely these receipts were incorrectly recorded as checks and money orders instead of cash in the utility system. The utility system software provider indicated that if the method of payment was not recorded in the system, the system would default the method of payment to check. Based on customer payment history and/or discussions with customers, we determined $3,448 of the $9,056 recorded check and money order payments (38 percent) were likely paid by cash. The remaining undeposited receipts ($2,728) were recorded as "other" payments ($2,619) in the utility system or the method of payment was not indicated on manual receipt slip records ($109). These receipts were also likely cash since no check or money order for these payments were located in the deposits. The method of payment noted on Appendix C was sometimes determined by comparing available receipt records to the contents of deposits.

From October to December 2017, of total receipts deposited ($32,131) only 1 percent was cash ($391). For 2018, only 3 percent of total receipts deposited ($52,040) was cash ($1,797). For 2019, only 2 percent of total receipts deposited ($62,143) was cash ($1,138). For comparison purposes, from January through July 2020 (after our audit was started in late 2019), 8 percent of total receipts deposited ($54,128) was cash ($4,129).

The amount of receipts recorded in the city's utility system in 2018 and 2019 fluctuated inconsistently in comparison to rate increases and the number of utility customers. We estimated what annual utility receipts should have been based upon utility receipts collected and deposited the last 3 months of 2017 ($18,927), or approximately $75,700 annually. The amount of utility receipts recorded in 2018 and 2019 compared to estimated annual utility receipts is shown below:

	Actual Recorded Utility Receipts	Estimated Annual Utility Receipts
Year Ended December 31, 2018	$ 53,343	75,700
Year Ended December 31, 2019	$ 47,924	75,700

As later discussed in this section and MAR finding number 6.1, utility billings were improperly adjusted and a large number of utility transactions were deleted from the utility system. Utility services were also improperly not billed. As a result, it is likely there are additional unrecorded and undeposited utility receipts.

While the number of utility customers fluctuated during 2018 and 2019, the highest number of utility customers was 76 in both years, the same number of utility customers reported in 2017. The city also increased water rates in increments beginning in September 2018 and sewer rates in November 2019, that would have resulted in higher estimated annual utility receipts. As a result, additional undeposited money is likely during these periods when recorded receipts are inconsistent.

The City Clerk recorded payments received in the utility system and on manual receipt slips and property tax statements. We compared payments recorded in the records retained to deposits to determine the amount of undeposited utility receipts.

Personal bank account

On April 25, 2019, the City Clerk deposited $1,503 of city receipts into her personal bank account. On April 26, 2019, the bank reversed the deposit from the City Clerk's personal bank account and recorded the deposit to the city's Water Fund bank account.

As discussed in the Background section, the Hickory County Prosecuting Attorney and the MSHP obtained personal bank records of the City Clerk, and turned those records over to our office for review.

We compared the amount of known missing city receipts to the amount of cash deposited into the City Clerk's personal bank account. We noted cash deposits into the City Clerk's personal bank account of amounts similar to (or typically greater than) the amount of missing city receipts during October 1, 2017, through July 31, 2020. During sworn testimony, the City Clerk indicated cash receipts deposited into her bank account were from working as a waitress and proceeds from the sale of artifacts and items purchased from storage units by the former Mayor, who lived with the City Clerk and shared a personal bank account.

Overpayments

Overpayments totaling $6,132 were made to the City Clerk, from November 3, 2017, through July 6, 2020 (see Appendix D). A comparison of all checks written to the City Clerk for compensation, duties, or with no purpose documented in the memo line of the check to amounts reported on calendars or the monthly payment amount approved by the Board, identified these overpayments.

The City Clerk's start date and monthly payment amount in 2017 was not documented in meeting minutes or a personnel file. In sworn testimony, the City Clerk indicated that she could not recall an exact date when she started working for the city, but believed it was in the fall of 2017. In addition, timesheets or calendars indicating hours of work, accounting records, and a 1099 form were not prepared by the City Clerk or the city for 2017 to support payments made to the City Clerk. However, the first check written to the City Clerk was for $885 on November 3, 2017, and the memo line of the check indicated "Sept Wages." The City Clerk was also paid $885 on November 20, 2017, and the memo line indicated "Nov Wages." Two other checks were issued for 2017 wages, one for $1,192 with the purpose not legible on the memo line and one for $1,105 for "Dec Wages." In sworn testimony, the City Clerk indicated she could not recall what her starting pay was or how the payment amount of these checks in 2017 were calculated. We calculated the City Clerk's payments for 2017 to be $3,600, based upon the monthly payment amount of $900 indicated on the 2018 calendar and for 4 months (September through December). However, the City Clerk issued herself checks totaling $4,067, resulting in overpayments of $467 during 2017.

The City Clerk maintained a calendar for 2018 by month that indicated her payment each month was $900 ($550 for City Clerk duties and $350 for water/sewer duties) for 48 hours per month (576 hours or $10,800 annually), and she was paid $10 per hour for hours worked over 48 hours each month. The calendar indicated she worked 1,408.5 hours during the year or 832.5 hours over the 576 hour annual amount, resulting in additional payments of $8,325. The City Clerk calculated her pay at the top of each month's calendar. However, these monthly pay amounts reported at the top of each month's calendar did not agree to any of the amounts paid each month. When questioned about these differences, the City Clerk provided an additional calendar for March 2018 through May 2018, that indicated 134 additional hours were worked for water and sewer maintenance duties. However, there was no calculation of the total hours worked or amount paid on that calendar. We calculated these water and sewer maintenance hours worked over 48 hours a month at $10 per hour. The amount and hours worked on the 2 calendars also did not agree to the amount of payments made to the City Clerk in these months. It is not clear why the City Clerk maintained 2 calendars to track and report time worked and why the amounts and hours worked did not agree to amounts paid in any month this year. Also, hours worked over 48 hours a month were reported on the original calendar provided for March (100.5 hours worked over 48 hours), April (77 hours worked over 48 hours), and May (77 hours were worked over 48 hours), so it also is not clear why another calendar reported 134 more hours worked over 48 hours a month. The City Clerk did not prepare or retain timesheets, a payroll register, or a 1099 form to support payments made to herself in 2018. We calculated the City Clerk's payments based upon hours worked on the calendars totaling $20,465

for 2018. However, the City Clerk issued herself checks totaling $23,969, resulting in overpayments of $3,504 during 2018.

The City Clerk maintained a calendar for 2019 that indicated her payments from January to September, was $900 ($550 for City Clerk duties and $350 for water/sewer duties) for 48 hours per month (432 hours or $8,100 for this 9 month period). The calendar also indicated she worked 818 hours or 386 hours of time over the 432 hours during these 9 months and was paid $10 per hour for these hours, resulting in additional payments of $3,860. On October 7, 2019, the Board voted to reduce the City Clerk's pay to $550 per month ($450 for City Clerk duties and $100 for water and sewer duties) with no additional pay. This reduced the City Clerk's payments to $1,650 for the remaining 3 months of the year. No timesheets or a payroll register were maintained by the City Clerk or the city to support payments made during 2019. We calculated the City Clerk's payments for 2019 as $13,610 based upon hours worked on the calendars the first 9 months of the year and the Board approved payments of $1,650 for the last 3 months of the year. However, the City Clerk issued herself checks totaling $15,656, resulting in overpayments of $2,046 during 2019. The City Clerk also issued a 1099 form to the Internal Revenue Service (IRS) reporting her payments as $12,900 for 2019, resulting in unreported income of $2,756. No records were prepared to support how the City Clerk calculated the amount reported on the 1099 form. In sworn testimony, the City Clerk indicated that she did not know why the amount reported on her 1099 form did not agree to the amount she was paid during the year.

No records (timesheets, calendars, or 1099 form) were prepared to support payments made to the City Clerk from January 1, 2020, through July 6, 2020. We calculated the City Clerk's payments as $3,406 based upon the monthly payment of $550 approved by the Board. However, the City Clerk issued herself checks totaling $3,521, resulting in overpayments of $115 during 2020.

Appendix D shows all checks written to the City Clerk compared to what her monthly payment amount should have been. The City Clerk's canceled checks and calendars were used to document the payment details and monthly payment amounts at Appendix D.

- The City Clerk was issued 67 checks during the 35 months she provided services to the city. The City Clerk sometimes issued herself a single check for both City Clerk and water and sewer duties and sometimes issued herself 2 checks for these duties. However, the City Clerk issued herself 3 checks for payment of these duties in March, April, May, November, and December 2018, and April and November 2019. The City Clerk issued herself 4 checks for payment of these duties in June 2018, and issued herself 5 checks for payment of these duties in January and

February of 2019. In addition, the former Mayor signed 50 of the 52 checks issued to the City Clerk from November 3, 2017, to September 4, 2019. The former Mayor resigned from the Board in September 2019.

Out of the 67 checks issued to the City Clerk, only 3 checks were for $900 (the monthly payment amount for both City Clerk and water and sewer duties), 13 checks for $550 (the monthly payment amount for City Clerk duties), and 12 checks for $350 (the monthly payment amount for water and sewer duties). The timing of monthly payments was not consistent. Payments occurred at the first of the month, in the middle of the month, and end of the month. The inconsistent timing of payments allowed inappropriate payments to go undetected. The City Clerk also paid herself in advance of services performed (see MAR finding number 4.3).

- The City Clerk issued herself 4 checks totaling $5,312 for uneven dollar amounts that appear questionable based upon monthly and additional payments being even dollar amounts. While the City Clerk indicated some of the payments could have included reimbursements for expenses, no documentation of the reimbursements were provided by the City Clerk or retained by the city.

- The City Clerk issued herself 3 checks during 2019 totaling $2,250 with no purpose documented in the memo line of the check.

Questionable payments

Board meeting minutes did not indicate that the Board approved the City Clerk working more than 48 hours in a month or that she would get paid $10 per hour for hours worked over 48 hours in a month. During 2018 and 2019, the City Clerk was paid $13,525 ($9,665 for 2018 and $3,860 for 2019) for 1,352.5 hours worked (966.5 hours for 2018 and 386 hours for 2019) over 48 hour in a month at $10 per hour. As a result, these additional payments are questionable.

Other improper payments

Supporting documentation was not maintained for $569 of the $609 spent for 4 reimbursements made to the City Clerk from April 27, 2018, through May 4, 2020, for postage, printer ink, and other supplies purchased (see Appendix E). One reimbursement for $187 did not have supporting documentation for $147 of the amount. In addition, the former Mayor signed 3 of these 4 reimbursement checks.

Improperly recorded utility payments and improper adjustments and billings - City Clerk

From October 1, 2017, through July 31, 2020, improperly recorded utility payments totaling $1,973 and improper adjustments totaling $234 were applied to the utility account of the City Clerk. In addition, the City Clerk did not properly bill herself for $545 of utility services (see Appendix F). In sworn testimony, the City Clerk indicated she was the only person that had access to the utility system to enter water meter readings and to make adjustments.

Utility records show 20 payments occurred in 19 months (2 payments in 1 month) during the period October 2017 through July 2020, totaling $2,152. However, our review of deposit records indicate 18 of these payments totaling $1,973 did not get deposited. In sworn testimony, the City Clerk indicated in the months where the recorded payments were not deposited that those payments were adjustments.

Utility records also showed improper adjustments were made to the City Clerk's utility account on November 26, 2018, for $153 with the reason for the adjustment indicated as "City Employee" and on March 4, 2019, for $81 with the reason for the adjustment indicated as "EMPLOYEE." During recorded interviews with 3 former Board members, the Board members indicated the Board did not approve not billing the City Clerk for utility services. In addition, meeting minutes, ordinances, and policies did not provide for the City Clerk to not be billed for utility services. In addition, utility records showed the City Clerk improperly did not bill herself for $545 of utility services during the months of November and December 2018, February through May 2019, and August 2019. Her account in the utility system indicated that her account was "EXEMPT from Charges." Also, the City Clerk indicated in the utility system that her account was exempt from penalties in November 2018 and March 2019, and therefore, was not billed for penalties.

When asked about the improperly recorded utility payments, improper adjustments, and the utilities not billed, in sworn testimony, the City Clerk indicated "if it's something that I need to pay back I mean I'm willing to do that." The City Clerk also indicated she did not know she was not supposed to get free utility service.

We obtained electronic utility billing and payment reports from the city, and bank statements and the contents of deposits from the city's bank. We compared activity reported on monthly utility billing and payment reports to utility bank deposits to determine if improperly recorded utility payments or improper adjustments were recorded/applied in the utility system. We calculated the amount of water and sewer fees improperly not billed based on water usage obtained from meter readings (see Appendix G) during these months, and water and sewer rates at the time of service.

Improperly recorded utility payments and improper adjustments and billings - former Alderman

The Board does not adequately monitor its activities for conflicts of interest. From January 2015 through September 2019 (the time period former Alderman Baker served on the Board and was not billed for utility services), we estimated the amount of utility services improperly not billed to former Alderman Baker totaled $4,036. In addition, improperly recorded utility payments totaling $430 and improper net adjustments of $814 were applied to the utility account of former Alderman Baker (see Appendix H).

Utility records showed former Alderman Baker was not properly billed an estimated $4,036 for utility services from January 2015 through September 2019. No meter readings were documented for this account during this time, and the meter reading reports typically indicated the account was "vacant." We estimated the amount of utility services improperly not billed based on the average utility billing during 2014.

In a recorded interview, former Alderman Baker indicated he helped the former Maintenance Supervisor in exchange for free water and sewer services. However, this arrangement was not approved by the Board, was not documented or approved by city ordinance, and appears to be in violation of statutory prohibitions on conflicts of interest. Former Alderman Baker also indicated he stopped helping the city with water and sewer services when the city contracted with a new Maintenance Supervisor in March 2018. However, former Alderman Baker continued to receive free utility services until September 2019, when he resigned from the Board. In a recorded interview, Alderman Baker indicated he had talked to the City Clerk about not getting billed when he should have been billed, but did not get an answer. No other Board members received free utility services. The City Clerk indicated in sworn testimony, that she was aware former Alderman Baker's meter was not getting read. When we asked the City Clerk why Alderman Baker was not billed for utility services, she indicated in sworn testimony, "if you want me to be completely honest, he was on disability and couldn't make money. . . ."

Utility records also show payments of $120 on February 3, 2020, $160 on February 28, 2020, and $150 on April 6, 2020, occurred. However, our review of deposit records indicate these payments did not get deposited.

Utility records also showed an improper adjustment was made to former Alderman Baker's utility account on January 5, 2015, for $57 with the reason for the adjustment indicated as "i [*sic*] should have shown it off Dec. 15, 2014." In addition, according to the Hickory County Recorder of Deeds' office, this property was sold June 1, 2020. The amount billed in May by the City Clerk was only a penalty fee. There were no meter readings for May or June 2020, and the May and June meter reading indicated "off." Former Alderman Baker's balance as of May 21, 2020, was $756, and the City Clerk took no steps to collect this past due balance from former Alderman Baker or obtain a forwarding address. The current City Clerk indicated she made an adjustment on July 28, 2020, to reduce the account balance to zero because the city did not place a lien on the property prior to the sale, and without a forwarding address or city attorney it would not be easy to pursue collection. However, an explanation for this adjustment was not documented and not approved by the Board, and former Alderman Baker still owes this balance to the city.

Electronic utility billing and payment reports were obtained from the city, and bank statements and the contents of deposits were obtained from the city's bank. We compared activity reported on monthly utility billing and payment reports to utility bank deposits to determine if improperly recorded utility payments or improper adjustments were recorded/applied in the utility system.

Section 105.452.1(1), RSMo, provides that no elected official of any political subdivision shall act or refrain from acting in any capacity in which he is lawfully empowered to act as such an official or employee by reason of any payment, offer to pay, promise to pay, or receipt of anything of actual pecuniary value paid or payable, or received or receivable, to himself, made or received in relationship to or as a condition of the performance of an official act, other than compensation to be paid by the state or political subdivision. In addition, Section 105.458, RSMo, provides that no member of any governing body of any political subdivision shall perform any service for such political subdivision for any consideration other than the compensation provided for the performance of his official duties, unless it is bid and the offer accepted is the lowest bid received. Personal interests in business matters of the city create conflicts of interest, and a lack of independence could harm public confidence in the Board and reduce its effectiveness.

Overall conclusion

The lack of segregation of duties and adequate controls, and the absence of proper oversight, as discussed in the remainder of this report, resulted in overpayments, questionable payments, improper payments, improperly recorded utility payments and adjustments, utility services improperly not billed, and undeposited city receipts going undetected for a significant period of time.

Recommendation

The Board of Aldermen continue to work with law enforcement officials regarding criminal prosecution of the overpayments, questionable payments, improper payments, improperly recorded utility payments and adjustments, utility services improperly not billed, and undeposited city receipts; and take the necessary actions to obtain restitution. The Board should also closely examine city transactions to identify conflicts of interest.

Auditee's Response

The Board will continue to work with law enforcement officials regarding criminal prosecution of the overpayments, questionable payments, improper payments, improperly recorded utility payments and adjustments, utility services not billed, and undeposited city receipts; and take the necessary actions to obtain restitution. The Board will also closely examine for potential conflicts of interest in the future.

2. Financial Condition

The city is in poor financial condition, and the Board had not adequately monitored that condition. As a result, cash balances declined in 2019 and 2018.

The following table presents the changes in the city's cash balances for the 3 years ended December 31, 2020.

		Year Ended December 31,		
		2020	2019	2018
Cash, January 1,	$	9,077	10,824	30,285
Receipts		117,055	61,171	60,878
Total Funds Available		126,132	71,995	91,163
Less: Disbursements		98,911	62,918	80,339
Cash, December 31,		27,221	9,077	10,824
Cash Balance Increase (Decrease)	$	18,144	(1,747)	(19,461)

Source: Bank statements

Disbursements exceeded receipts in 2019 and 2018 causing cash balances to decrease. The cash flow problems resulted in the city not paying bills timely. Approximately $50,000 was owed to various vendors at June 30, 2020, when the City Clerk resigned (see MAR finding numbers 4.2, 5.4, 5.6, and 6.6). In addition, as noted in MAR finding number 6.3, an estimated $4,900 of the December 31, 2019, cash balance should have been on hand for customer utility service deposits. A similar amount should also be on hand for December 31, 2020.

The city received approximately $11,000 in coronavirus aid and $23,000 from insurance claims in 2020, and water and sewer receipts increased approximately $20,600 from 2019, which helped improve the city's financial condition. However, the city still owed the IRS approximately $15,000 in past due payroll taxes as of September 15, 2021 (see MAR finding number 4.2), and more than $20,000 to 2 other vendors (see MAR finding number 5.6).

The misappropriations noted in MAR finding number 1 and deficient financial practices and procedures of the city have contributed to the poor financial condition. The Board and City Clerk also failed to (1) monitor the city's cash balances and incurred overdraft and maintenance fees (see MAR finding number 5.3), (2) prepare budgets (see MAR finding number 7.1), (3) develop adequate procedures for collection of delinquent utility accounts (see MAR finding number 6.4), (4) prepare a statement of costs to determine the appropriate utility rates (see MAR finding number 6.5), and (5) separately account for restricted funds (see MAR finding number 5.5). Also, other internal control weaknesses are noted throughout this report.

The city has taken some actions to address the financial situation. The city increased water rates beginning in September 2018 and sewer rates beginning in November 2019. Also, in November 2019, the Board voted to end the practice of providing free water and sewer service to a contracted worker and to reduce the monthly payments to the City Clerk. However, since city officials had not prepared budgets or financial projections, it is unclear whether these changes will be sufficient to significantly improve the city's financial situation.

It is essential the Board address the financial condition of the city in both the immediate and long-term future. In addition, the Board needs to develop a plan to pay existing obligations and fund future projects, reduce spending where possible, evaluate controls and management practices to ensure efficient use of resources, monitor detailed financial data, and prepare and closely monitor budgets. The City Clerk did not always provide the Board with financial records likely to help conceal the misappropriations in MAR finding number 1 and the city's financial condition. The Board indicated it relied on the City Clerk to communicate city finances, and was not aware it should monitor the city's financial condition.

Recommendation

The Board of Aldermen perform immediate and long-term planning, and closely monitor and take necessary steps to improve the city's financial condition.

Auditee's Response

The Board has since implemented a long-term plan and are currently closely monitoring all transactions through bimonthly, monthly, and annual reports and budgets, and is taking steps to improve the city's financial condition.

3. Oversight, Annual Audits, and City Ordinances

The Board did not establish adequate oversight or obtain annual audits as required by state law. City ordinances also need improvement.

3.1 Oversight and segregation of duties

The Board did not establish adequate segregation of duties or supervisory reviews over the various financial accounting functions performed by the City Clerk. Weaknesses identified throughout this report are significant and demonstrate a lack of segregation of duties and proper oversight by the Board that led to the misappropriations noted in MAR finding number 1.

Proper segregation of duties helps ensure transactions are accounted for properly and assets are adequately safeguarded. If proper segregation of duties is not possible, timely supervisory or independent reviews of work performed and investigation into unusual items and variances is necessary. Good management practices require extensive and detailed oversight by the

Board. The Board indicated it was unaware of the importance of segregating duties or performing a supervisory review.

3.2 Annual audits

The city has not obtained annual audits of its combined water and sewer system as required by state law.

Section 250.150, RSMo, requires the city obtain annual audits of the combined water and sewer system and the cost be paid from revenues received from the system. The city is also required to obtain annual audits as a condition of the construction loan/grant. The Board indicated it was unaware of these requirements.

3.3 City ordinances

City ordinances are not complete and have not been updated since 2013.

- The city does not have ordinances establishing the compensation of city officials and employees.

- Ordinances are poorly maintained. Many ordinances are old and not updated. In addition, an index of all ordinances passed and rescinded by the city is not maintained, making it difficult to determine which ordinances remain in effect.

- City Ordinance No. 13-5-1 authorizing the amount billed to water and sewer customers has not been updated since 2013 and is not the current amount billed to water and sewer customers.

  In July 2018, the Board approved increasing water rates and changing the water rate structure, and in November 2019, the Board approved increasing sewer rates and changing the sewer rate structure.

Because ordinances passed by the Board to govern the city and its residents have the force and effect of law, it is important they are current, complete, and followed. In addition, ordinances documenting approved compensation and utility rates help ensure equitable treatment and prevent misunderstandings. Section 79.270, RSMo, authorizes the Board to fix the compensation of city officials and employees by ordinance. The Board indicated it was unaware of the importance of updating city ordinances and of the compensation ordinance requirement.

Recommendations

The Board of Aldermen:

3.1 Segregate accounting duties to the extent possible and implement appropriate reviews and monitoring procedures.

3.2 Obtain annual audits of the combined water and sewer system as required by state law and loan/grant.

3.3 Establish the compensation of all city officials and employees by ordinance as required by statute, ensure ordinances are maintained in a complete and well-organized manner, establish an index of all ordinances passed and rescinded, and update ordinances for water and sewer rates.

Auditee's Response

3.1 The Board is currently given all transactions through bimonthly, monthly, and annual reports and budgets. The Board will spot check balances and will be provided monthly bank statements showing all transfers and cash deposits, tracing these back to provided budgets.

3.2 The Board will prepare an audit report from the water and sewer utility software system annually. The Board will also consider obtaining an independent audit in the future as funds are available.

3.3 The Board has updated some ordinances and will have all required ordinances updated and maintained.

4. Payroll and Related Matters

Significant improvement over controls and procedures related to contract workers and payroll is needed.

The city classified the City Clerk and former Maintenance Supervisor as independent contractors. Payments to the City Clerk during the period of October 1, 2017, through July 6, 2020, are shown on Appendix D. The Board did not approve utility services to be provided to the City Clerk as part of her monthly compensation. Payments to the former Maintenance Supervisor during the period of March 12, 2018, through December 6, 2019, totaled $20,743, which likely included reimbursements of $93 in his final payment. The value of utility services provided to the former Maintenance Supervisor totaled $1,341 during this period.

4.1 Employment classifications

The Board did not document the basis for classifying the City Clerk and the former Maintenance Supervisor as independent contractors rather than employees. The City Clerk indicated these positions were formerly classified as city employees, however, beginning in 2013, the city reclassified the positions as independent contractors and no documentation was maintained for the decision.

Proper classification of employees is necessary to ensure compliance with various state and federal laws and regulations. Section 105.300, RSMo, defines an elected or appointed officer or employee of a political subdivision as an employee for Social Security and Medicare tax purposes. The failure to withhold and properly report payroll and income taxes for city employees makes the city potentially subject to additional tax liabilities along with penalties and interest. For employees, the IRS requires employers to report compensation on W-2 forms and withhold and remit income and payroll

taxes. Similarly, Chapter 143, RSMo, includes requirements for reporting wages and withholding state income taxes.

4.2 Past due payroll taxes

The Board and City Clerk did not pay past due taxes, interest, and penalties due for 13 quarters from the quarters ending from December 2010 to December 2013. As a result, the city owes the IRS $15,255 as of September 15, 2021, in unpaid past due taxes ($8,739), and penalties and interest ($6,516), with the amount of penalties and interest continuing to increase as these amounts remain unpaid.

The city started making monthly payments of $139 in December 2019. However, the monthly payment is not sufficient to reduce the balance of the taxes owed because the penalties and interest increase is more than the payments made. In addition, there was no mention of the past due balance owed to the IRS in Board meeting minutes from January 2018 through November 2019; therefore, some Board members may not have been aware of it.

The Internal Revenue Code requires employers to file a 941 form by the last day of the month following the end of the quarter, along with payment of Social Security and Medicare taxes withheld from employees and the employer's share, as well as federal income taxes withheld.[5]

4.3 Pay advances

The City Clerk issued herself pay advances totaling $7,311 from November 2017 through February 2019 in violation of the Missouri Constitution. Eight checks were issued prior to the end of the month in which services were provided. For example, 1 check for $1,094 written on June 28, 2018, indicated on the check memo line that it was for "Wages July" and another check for $350 written on July 5, 2018, indicated on the check memo line that it was for "July Water Operator Wages." Both checks were issued in advance of the hours worked in July 2018, and the City Clerk's approved monthly payment was only $900.

Advance payments are loans of city funds. The city has no statutory authority to make loans and Article VI, Sections 23 and 25 of the Missouri Constitution, specifically prohibit counties, cities, or other political subdivisions of the state from granting public money or things of value to any corporation, association, or individual. The City Clerk likely made these advance payments as part of the misappropriations noted in MAR finding number 1. The Board indicated it was unaware of this prohibition.

4.4 Timesheets

As noted in MAR finding number 1, the City Clerk did not prepare timesheets. In addition, calendars maintained documenting hours worked

[5] 26 CFR Section 31.6011(a)-1, 26 CFR Section 31.6071(a)-1, 26 CFR Section 31.6151-1(a)

were not retained for 2017 and 2020, and calendars maintained for 2018 and 2019 were not always accurate. In addition, Board members indicated the calendars were not always submitted for their review, and when they were submitted, the Board did not document review of them. Timesheets or other documentation of work performed were not prepared by the former Maintenance Supervisor to support contracted payments made.

Without adequate timesheets or other documentation of worked performed, the city cannot ensure hours worked by employees or contracted work performed is properly documented. To ensure the accuracy of the hours worked or work performed, timesheets or other documentation supporting work hours should be signed by the employee/contract worker and reviewed and approved by the Board. In addition, Fair Labor Standards Act (FLSA) regulation Section 29 CFR Section 516.2(a) requires employers to maintain accurate records of actual time worked by employees. The City Clerk's failure to prepare accurate timesheets or calendars of time worked or submit them for the Board's review helped conceal the misappropriations in MAR finding number 1. The Board indicated it was unaware of the importance of reviewing the City Clerk's calendars and the related payments or of requiring the former Maintenance Supervisor to prepare documentation of work performed.

4.5 Independent contractors

As previously noted, the city misclassified the City Clerk and former Maintenance Supervisor as independent contractors rather than employees during 2017, 2018, 2019, and 2020. However, had this classification been appropriate, the Board did not enter into a written contract with the City Clerk and the City Clerk did not prepare and file 1099 forms for payments made to herself during 2017 and 2018, and as noted in MAR finding number 1 prepared an inaccurate 1099 form for 2019 payments.

In sworn testimony, the City Clerk indicated that she did not know why the amount reported on her 1099 form for 2019 did not agree to the amount she was paid during the year, and that she could possibly have missed something. A 1099 form was also not prepared by the current City Clerk for payments made to the City Clerk in 2020.

In addition, the City Clerk did not prepare and file a 1099 form for payments made and the value of free utility services provided to the former Maintenance Supervisor for 2018, and the 1099 form for 2019 was not accurate and did not include the value of free utility services received. During 2019, the former Maintenance Supervisor was issued checks of $11,243 and received utility services of $772, with total compensation totaling $12,015. However, the 1099 form for 2019 reported total payments of $11,450.

Section 432.070, RSMo, requires contracts of political subdivisions be in writing. Written contracts are necessary to ensure all parties are aware of their duties and responsibilities and to provide protection to both parties. Sections

6041 through 6050W of the Internal Revenue Code require non-wage payments of at least $600 in one year for professional services or for services performed as a trade or business by non-employees (other than corporations, except for medical and legal services), be reported to the federal government on 1099 forms. The City Clerk likely did not prepare and file an accurate 1099 form in 2019 to conceal the misappropriations discussed in MAR finding number 1, and indicated she was unaware she needed to file a 1099 form in 2017 and 2018. The Board indicated it was not aware of these requirements.

4.6 Cost allocations

The city had no documentation to justify the allocation of the amounts paid the City Clerk and former Maintenance Supervisor to the various city bank accounts.

During the period from October 2017 through July 6, 2020, payments to the City Clerk totaled $47,214 with $42,492 (90 percent) paid from the water and sewer bank accounts and $4,722 (10 percent) from the city tax (general) bank account. All of the payments ($42,042) from October 2017 through October 2019, came from the water and sewer bank accounts, and all of the payments ($4,622) from December 2019 through July 6, 2020, came from the general bank account, with no allocation by work performed during these months.

During the period March 12, 2018, through December 6, 2019, payments to the former Maintenance Supervisor totaled $20,743 with $18,550 (90 percent) paid from the water and sewer bank accounts; $1,943 (9 percent) from the general bank account; and $250 (1 percent) from the gas tax bank account.

According to the City Clerk's calendars, the City Clerk's base payment ($900 per month) should have been allocated 61 percent ($550/$900) to general city operations and 39 percent ($350/$900) to water/sewer services from January 2018 to October 2019. According to Board meeting minutes, starting in November 2019, the City Clerk's base payment was decreased to $550 per month and should have been allocated 82 percent ($450/$550) to general city operations and 18 percent ($100/$550) to water/sewer services. However, no documentation was maintained indicating how the allocation of time was determined, and as previously noted, payments to the City Clerk from city bank accounts were not in accordance with these percentages. In addition, no documentation regarding the purpose of the City Clerk's overtime hours was retained, and no documentation was maintained to show how to allocate to the city's accounts the payments to the former Maintenance Supervisor for services performed.

The proper allocation of expenditures is necessary to accurately determine the results of operations of specific activities, thus enabling the city to establish the level of taxation and/or user charges necessary to meet all operating costs. To ensure funds are used for intended purposes, the allocation of expenditures

to city accounts should be based on specific criteria and documentation supporting allocation decisions should be retained. City officials indicated they were unaware of the importance of allocating these costs to the appropriate funds.

Recommendations

The Board of Aldermen:

4.1 Determine the proper classification for the City Clerk and Maintenance Supervisor to ensure compliance with state and federal laws and regulations.

4.2 Ensure sufficient payments of past due payroll taxes are remitted timely to the appropriate taxing entities to reduce balances due.

4.3 Discontinue the practice of providing pay advances to workers.

4.4 Ensure timesheets or other records of work performed are prepared accurately, retained, and properly signed and approved.

4.5 Execute and retain written contracts for services that specify the services to be rendered and the manner and amount of payments to be paid. The Board should also establish procedures to ensure all payments are properly reported and payroll taxes withheld and remitted to the appropriate taxing entity. The Board and the current City Clerk should prepare or amend the applicable tax forms issued to the City Clerk and former Maintenance Supervisor for compensation provided as appropriate.

4.6 Allocate disbursements to city accounts based on specific criteria and retain documentation to support the allocation.

Auditee's Response

4.1 The Board will verify the classification for the City Clerk and the Maintenance Supervisor. The Board currently has 1099 contracts with the City Clerk and the Maintenance Supervisor that designate duties and salary. Proper tax forms have been filed with the IRS for tax year 2021. The Board will contact the U.S. Department of Labor to evaluate the correct classification and make changes accordingly. The Board will ensure that ordinances setting changes will be enacted.

4.2 The Board will increase the monthly payment to the IRS. The current payment of $139.01 was at the advice of an IRS employee who met with Board members in 2019. The Board will contact the IRS to establish proper payment to minimize penalties moving forward.

4.3 The Board will pay employees bimonthly versus monthly, therefore eliminating any financial burden of the employee. The Board will not make payroll advances moving forward and will enact a policy stating this.

4.4 Current employees are salaried and not subject to timesheets or overtime. The current City Clerk provides the Board with activities worked bimonthly at City Council meetings. The Board will enact a policy that the Maintenance Supervisor will provide a checklist of work related activities bimonthly at City Council meetings and to be reviewed and signed by the Board. The Board will require timesheets from the City Clerk and Maintenance Supervisor moving forward.

4.5 The Board currently has written contracts with the City Clerk and Maintenance Supervisor that detail job duties and salary. Forms 1099 were filed for the City Clerk and Maintenance Supervisor with the IRS for 2021. The Board and current City Clerk will prepare and amend tax forms for the former City Clerk and Maintenance Supervisor for 2017, 2018, and 2019.

4.6 All payments are currently disbursed from city accounts based upon criteria and the Board will retain documentation to support how costs are divided.

5. Accounting Controls and Procedures and Disbursements

Accounting controls and procedures and disbursements need improvement. During the period October 1, 2017, through July 31, 2020, city receipts totaled $246,634 and disbursements totaled $234,232.

5.1 Receipting, recording, and depositing

The city's procedures for receipting, recording, and depositing payments received were poor.

- Manual receipt slips were not always issued and property tax statements were not always marked paid or retained. As a result, unrecorded receipts totaling at least $59,364 were deposited during the period of October 1, 2017, through July 31, 2020.

- The City Clerk did not always accurately and promptly record water/sewer receipts to customer accounts in the utility system, and some utility payments were not posted to the utility system. During our cash count in October 2019, we noted one receipt was posted to the system for the incorrect amount. In addition, deposit records obtained from the bank indicated one customer's $200 payment was deposited on April 6, 2018, but the customer's account in the utility system showed the payment

recorded on June 21, 2018. Deposit and utility system records showed a $52 payment made on January 6, 2020, by a utility customer had not been posted to the utility system as of July 31, 2021.

- The method of payment (cash, check, or money order) was not always recorded on manual receipt slips or on property tax statements. In addition, if the method of payment was not marked in the utility system, the system's default method of payment was by check. We noted numerous instances where a check payment was not included in the related deposits. The City Clerk also marked utility payments as "other" payments in the utility system without indicating the method of payment. In addition, the City Clerk did not reconcile the composition of receipts to the composition of deposits.

- The City Clerk did not issue manual receipt slips in numerical sequence, some receipt slips were skipped and not properly defaced to prevent later use, and electronic transaction numbers were not entered in date order in the utility system.

- The City Clerk did not always deposit receipts intact and occasionally withheld cash receipts from deposits to pay city invoices, as indicated in MAR finding number 1. For example, $1,887 of utility receipts recorded on June 14 and 18, 2019, were not deposited on June 24, 2019, with other receipts issued around these dates, and were held until deposited on July 8, 2019.

Failure to implement adequate receipting, recording, and depositing procedures increases the risk that loss, theft, or misuse of money will go undetected. The City Clerk's failure to properly receipt, record, or deposit money helped conceal the misappropriations in MAR finding number 1. The Board indicated it was unaware of the importance of properly receipting, recording, and depositing money.

5.2 Bank reconciliations, checks, and accounting records

The City Clerk did not prepare bank reconciliations for any of the city's 7 bank accounts; maintain a checkbook register, or book balances; and always issue checks in numerical order. Based on checks that cleared the bank accounts during the 2 years ended December 31, 2019, there were 62 instances where one or more check numbers were skipped, resulting in 137 skipped checks whose disposition (unused, voided, issued but outstanding, etc.) could not be determined. The City Clerk indicated she was unaware of the need to prepare bank reconciliations and maintain a checkbook register or book balances, and sometimes issued checks out of order.

Performing monthly bank reconciliations helps ensure receipts and disbursements have been properly handled and recorded, and increases the likelihood errors will be identified and corrected timely. Maintaining a

checkbook register, book balance, or a list of disbursements for each account would aid in preparing the monthly bank reconciliations and monitoring the bank balances. In addition, issuing checks in numerical sequence, accounting for the numerical sequence of checks issued, and defacing and retaining void checks will help to properly account for all disbursements and reduce the risk of unauthorized transactions.

5.3 Board review and approval process

The City Clerk did not prepare a list of bills or monthly financial reports for the Board's review. Board members indicated bank statements and monthly utility reports were sometimes provided to the Board for review, but they did not document this review. We tested 5 payment transactions totaling $7,952 using judgmental selection from a population of disbursements during 2018.[6] Our review of disbursements showed that Board members also did not always review invoices or require invoices to be marked paid, several payments were made with no supporting documentation, and documentation of the receipt of goods or services on the invoices was not required.

The Board also failed to monitor the city's cash balances. As a result, the city incurred $864 in overdraft and maintenance charges in the general, water, sewer, and gasoline tax (street) bank accounts from October 1, 2017, through July 6, 2020. Had the Board reviewed the bank statements, the improper payments and the declining cash balances could have been questioned.

By approving all disbursements and reviewing supporting documentation, bank information, and canceled checks; and requiring the receipt of goods and services prior to payment, the Board can help safeguard against possible loss or misuse of funds. Board approval of disbursements is typically documented by signing or initialing a monthly list of bills. Canceling invoices and other supporting documentation reduces the likelihood of duplicate payments. By more closely monitoring bank account balances, the Board can better prevent bank account overdraft and maintenance charges. City officials indicated they were unaware of the importance of preparing a list of bills and monthly financial reports, and documenting the Board's review and approval process.

5.4 Sewer loan requirements

The Board and City Clerk did not ensure required sewer loan payments occurred. On August 24, 2020, the United States Department of Agriculture (USDA) notified the current City Clerk that the city failed to make required loan payments in 2019, totaling $5,980.

The sewer loan documents required the city to make an annual payment of $14,342, and the city makes monthly payments of $1,196 towards this requirement. The USDA notification indicated missed payments occurred for

[6] Due to the nature of the sample, the results cannot be projected to the population.

March, April, June, July, and August 2019. The city still owes approximately $1,556 of the $5,980 past due balance to the USDA as of September 1, 2021. There was no mention of the past due balances owed to the USDA in the 2019 meeting minutes. However, the City Clerk indicated in a recorded interview under oath that the city was in financial distress and the Board was aware of the amounts due to the USDA.

Failure to comply with loan agreements could jeopardize future grant and/or financing opportunities for the city.

5.5 Excessive and unauthorized transfers and commingling of restricted funds

The City Clerk made excessive and unauthorized transfers between various bank accounts. These transfers of restricted funds to other accounts allowed improper disbursements to occur and not be detected. The city also has not established adequate procedures to ensure restricted funds are credited to the appropriate account or used only for intended purposes.

A review of the city's bank statements indicated 174 transfers totaling $197,976 occurred between bank accounts from October 1, 2017, through July 6, 2020. Ninety-seven of these transfers were for amounts less than $1,000. The majority of these transfers were not approved by the Board and were made inappropriately from various restricted accounts. In addition, the city transferred amounts from the Meter Fund bank account, which was used to hold utility customer deposits (MAR finding number 6.3), to other bank accounts, when cash balances had been depleted to pay city bills. During the 2 years ended December 31, 2019, the city made transfers totaling $1,115 from the Meter Fund bank account to other city bank accounts. The City Clerk indicated in a recorded interview under oath that she was responsible for all transfers between bank accounts and the city was in financial distress.

The city has commingled restricted funds with unrestricted funds and does not properly account for the balances of restricted funding. During the period of October 2017 through July 2020, the city received approximately $162,000 in customer payments for water and sewer services and approximately $24,300 in state motor vehicle-related receipts. While the city maintained separate bank accounts for water, sewer, and gasoline tax (state motor vehicle-related receipts), the City Clerk frequently deposited water and sewer receipts into the general bank account, made transfers among these various accounts, and did not track the balances of the restricted funds. As a result, city officials could not determine at a point in time what portion of the city's funds had restricted usage.

To ensure city funding is used for the intended purpose, transfers of restricted funds should be approved by the Board and reasons and support for transfer amounts should be adequately documented. In addition, Section 250.150.1, RSMo, restricts the use of water and sewer receipts for operating the systems, payment of bonds, establishment of a reserve, fulfillment of any agreements

contained in ordinances, and payment of costs of improvements of such systems. Section 250.150.2, RSMo, prohibits the transfer of water and sewer receipts except by action of the city governing body and only after all system operation and maintenance expenses and debt payments have been paid. Missouri Constitution, Article IV, Section 30(a) and 30(b), requires motor vehicle-related receipts apportioned by the state of Missouri be disbursed for road purposes only. Separate accounting of restricted funds is necessary to ensure compliance with these limitations. City officials indicated they were unaware of these requirements for restricted funds.

5.6 Untimely payments

The City Clerk did not ensure some bills were paid timely. As of June 30, 2020, 3 invoices totaling $28,888 were outstanding for telephone, electric, and pumping equipment and service bills, with these bills being past due from 5 months to 2 years. The city still owed 2 of these 3 vendors more than $20,000 as of September 15, 2021.

Establishing procedures to ensure bills are paid timely will help prevent unnecessary fees and other charges. There was no mention of the past due balances owed for electric and pumping equipment and service in the 2018, 2019, and January 1, 2020, through July 6, 2020, Board meeting minutes. However, the City Clerk indicated in a recorded interview that she was aware of these past due bills and presented them to the Board, and the Board instructed her not to pay them. The July 23, 2020, meeting minutes indicated the Board had discovered $14,000 was past due for electric service, after the City Clerk had resigned, and the September 21, 2020, meeting minutes contained discussion of the past due amounts for pumping equipment and service. Some Board members indicated they were unaware of these past due bills while the City Clerk was providing services to the city.

5.7 Record retention

City officials could not provide copies of some meeting minutes, invoices, delinquent notices from the IRS, the City Clerk's calendars of time worked, 1099 forms, and documentation of expense reimbursements.

Retention of records is necessary to ensure the validity of transactions and provide an audit trail. Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. In addition, Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. Record retention schedules are available on the Secretary of State's website.[7] The City Clerk likely did not retain these documents to help conceal the misappropriations in MAR finding number 1.

[7] <https://www.sos.mo.gov/archives/localrecs/schedules>

Recommendations

The Board of Aldermen:

5.1 Issue prenumbered receipt slips for all payments received, indicate the method of payment on all receipt slips, account for the numerical sequence of receipt slips, reconcile the composition of receipts to the composition of deposits, require receipts be accurately and promptly recorded to the utility system, and deposit all payments received intact. Additionally, discontinue paying city expenses from city receipts and if a petty cash fund is needed to pay city expenses, the Board should authorize the fund and its uses and require the fund be maintained on an imprest basis and all activity be recorded on a petty cash fund ledger.

5.2 Ensure monthly bank reconciliations are prepared for all bank accounts; checkbook registers, book balances, and lists of disbursements are maintained; and checks are issued in numerical sequence with the sequence properly accounted for.

5.3 Ensure an accurate and complete monthly list of bills is prepared and compared to invoices and checks written, and monthly financial reports are prepared and reviewed for accuracy. In addition, the Board should ensure invoices are marked paid and adequately reviewed, and require documentation of receipt of goods and/or services prior to payment of invoices. The Board should also document its review of monthly bank statements and utility reports and properly monitor bank account balances to avoid bank charges.

5.4 Ensure compliance with payment requirements of loan agreements.

5.5 Monitor and reduce the number of transfers made between bank accounts, and ensure transfers are not prohibited by state law. The Board should also determine the amount of restricted funds in the city's accounts and establish separate funds or a separate accounting of this money, including the balances.

5.6 Ensure all invoices are paid timely.

5.7 Retain records in accordance with state law.

Auditee's Response

5.1 Prenumbered receipt slips are now issued for all payments received, and the amount paid and method of payment are recorded on the receipt slip. Receipt slips are then copied and placed in the customer file and the numerical sequence accounted for. Original receipt slips are mailed to the customer. The utility payment is then recorded in the electronic utility system. The city does not maintain any petty cash. No city expenses are paid with cash. Moving forward the

composition of utility receipts will be reconciled to the composition of deposits into the Water bank account and then sewer receipts will be transferred to the Sewer bank account to ensure utility receipts are deposited intact. All cash receipts are recorded in duplicate.

5.2 The Board now receives the bank reconciliations at each monthly meeting. A copy of the check and invoice documenting payment is placed in the vendor file. There is an electronic check register maintained and checks are in numerical order and accounted for. A list of bills paid as well as account balances is reported to the Board bimonthly.

5.3 A list of bills paid as well as account balances is reported to the Board bimonthly. All payments are verified with an invoice and a copy of the check. The Board will enact a policy of all Board members signing documents to document their review, including monthly bank statements and utility reports. Invoices will be marked received. The Board is currently receiving reconciled bank balances at each Board meeting.

5.4 The Board is notified of electronic payment monthly along with an annual statement from USDA. The Board will contact the USDA in regard to balance of past due amount.

5.5 The City Clerk has minimized transfers between accounts. The Board is advised bimonthly the account balance of restricted funds. The Board will review bank statements monthly to verify transfers and ensure correct amounts of restricted funds are in proper accounts.

5.6 All invoices are currently paid upon receipt ensuring timely payments.

5.7 All current records are maintained in accordance with state law.

6. Utility System Controls and Procedures

Utility system controls and procedures need improvement. The city provided utility services to 61 to 76 customers monthly during the period October 1, 2017, through July 31, 2020. According to the city's utilities system reports, the city received payments for water and sewer services totaling approximately $163,000 during this period.

6.1 Adjustments and deleted transactions

As previously mentioned in MAR finding number 1, improper adjustments were made to the utility account of the City Clerk and former Alderman Baker. The reasons noted included "City Employee" and "EMPLOYEE" for the City Clerk and "Moved" or "i [*sic*] should have shown it off Dec. 15, 2014" for former Alderman Baker.

In addition, according to the utility system, during the period of October 2017 through July 2020, the City Clerk made 108 adjustments to customer accounts netting $16,420. Of these adjustments, $12,154 were not explained by water leaks, meter misreads, or contract provisions. No explanation or reason was documented for some of the adjustments. We also noted 2 of these adjustments totaling $231 were made to 2 utility customer accounts that indicated "payment not posted" and "PAYMENT DIDNT [*sic*] POST." These utility customers typically paid their utility bill monthly with cash. These adjustments were likely additional payments (not included in MAR finding number 1) that were not deposited and are missing. We noted several other adjustments with unusual reasons documented for the purpose. Of the net adjustments of $16,420, $4,705 occurred from October 1 to December 31, 2017, $5,694 occurred during the year ended December 31, 2018, $4,150 occurred during the year ended December 31, 2019, and $1,871 occurred from January 1 to July 31, 2020, which may be attributable to the unusual fluctuations in utility receipts noted in MAR finding number 1. As a result, many of the adjustments are questionable. The City Clerk made the majority of these adjustments without obtaining independent approval by the Board.

The City Clerk also had the ability to delete transactions, and the Board did not review and approve deleted transactions in the utility system or periodically obtain a report of deleted transactions from the utility system vendor to review. During the period of October 2017 through July 2020, 4,414 of 10,073 transactions (44 percent) entered into the utility system were deleted from the utility system. According to the software provider, once a transaction is deleted from the system there is no evidence of the transaction other than a missing transaction number in the sequence of transactions. No explanation or reason was documented for any of the deleted transactions, and as a result, the deleted transactions are questionable. There were 177 deleted transactions from October 1 to December 31, 2017, 185 during the year ended December 31, 2018, 849 during the year ended December 31, 2019, and 3,203 from January 1 to July 31, 2020, which may be attributable to the unusual and unexplained fluctuations in utility receipts noted in MAR finding number 1.

Retaining documentation to support adjustments and deleted transactions helps ensure such adjustments or transactions are appropriate. In addition, an independent and/or supervisory review and approval of adjustments and deletions is necessary to ensure such transactions are appropriate and reduce the risk of errors, loss, theft, or misuse of funds. The City Clerk likely did not retain documentation of adjustments and deleted transactions or present the adjustments and deletions to the Board to conceal the misappropriations in MAR finding number 1. The City Clerk indicated in a recorded interview under oath that she was solely responsible for making the adjustments and that she did not get approval from the Board to make the adjustments. The City Clerk also indicated in a recorded interview under oath that she did not

know what we were talking about when questioned about the significant number of deleted transactions. The Board indicated it was not aware of the importance of reviewing adjustments and deletions made to the utility system.

6.2 Utility reconciliations

City personnel do not prepare proper reconciliations related to utility services.

- The City Clerk did not perform monthly reconciliations of amounts billed, payments received, and amounts unpaid for utility services. Monthly reconciliations are necessary to ensure accounting records balance, transactions are properly recorded, and errors or discrepancies are detected timely.

- The Water Supervisor did not perform monthly reconciliations of total gallons of water billed to gallons of water pumped. Monthly reconciliations of gallons of water billed to gallons of water pumped are necessary to help detect significant water loss or other problems and ensure all water usage is properly billed.

While the utility system has the information necessary to perform these calculations, no one reviews or reconciles it. Had these reconciliations been performed and provided to the Board for review, the improper adjustments and utility services not billed may have been detected. City officials indicated they were not aware of the importance of preparing and reviewing these reconciliations.

6.3 Utility deposits

The city does not reconcile customer utility deposit balances reported in the utility system to the city's Meter Fund bank account, and as noted in MAR finding number 5.5, the City Clerk transferred amounts from the Meter Fund bank account to other bank accounts to pay city bills.

The city collects a $100 deposit from new water customers and deposits this money in the Meter Fund bank account. In prior years, new water customers were required to pay varying amounts (less than $100) for deposits. At our request, on January 3, 2020, the City Clerk generated a detailed list of 59 customer deposits from the utility system totaling $3,611. However, a utility system report indicated that there were 72 customers for the December 2019 billing cycle. No records could be found for the remaining 13 utility customers. We estimated an additional $1,300 (13 customers at $100 each) of utility deposits should be on hand, for a total estimated liability of $4,911. As of January 3, 2020, the Meter Fund bank account had a balance of $303, resulting in an estimated shortage of $4,608.

Refundable utility deposits are restricted funds held for customers. Periodic reconciliation of customer utility deposit balances to city accounting records is necessary to ensure sufficient funds are available for deposit refunds. Such reconciliations would allow for prompt detection of discrepancies. City

officials indicated they were unaware of the importance of reconciling utility deposit balances to city records.

6.4 Delinquent utility accounts

Delinquent utility accounts are not always shut off after 30 days past due as required by ordinance, and the City Clerk allowed some customers to make partial payments on delinquent accounts without Board approval. According to city records, delinquent account balances increased during 2019, and as of December 31, 2019, the city had 21 accounts totaling $6,433 that were at least 30 days past due. This amount exceeds the average 2019 monthly water and sewer billings of $4,792.

The City Clerk indicated some customers valves were faulty, and until those valves were fixed in October 2019, the City Clerk suspended shut off procedures to all customers; however, this change was not approved by the Board. In addition, the City Clerk allowed customers with large overdue balances to make payments over 5 months, however, the City Clerk made these arrangements without Board approval. In addition during 2018, the City Clerk posted $378 in adjustment credits and $710 in improper payments toward a customer's delinquent account balance in exchange for assisting the City Clerk with office duties without Board approval. No record of the hours worked by the utility customer was prepared and retained.

City ordinance No. 2012-1 section 4 requires delinquent accounts be shut off when the account is more than a month overdue. Failure to enforce city ordinances results in inconsistent application of shut off procedures and reduces the incentive for customers to make timely payments. Allowing customers to receive service without paying reduces the incentive to make payments, reduces city receipts, and could impact the utility rates for other paying customers. In addition, the Board needs to approve the signed written payment agreements to ensure the agreements were proper.

6.5 Water and sewer rates

Current water and sewer rates are not supported by a cost study or other documentation showing how the rates were determined. The Board increased water rates in September 2018 and sewer rates in November 2019 and July 2020, without preparing a cost study or maintaining documentation to support how the rate increases were calculated. Without current cost studies, it is unclear whether the rates assessed for these services are set at an appropriate level. In December 2019, the Board obtained a study that indicated water rates should be increased, but the Board has not increased the rates.

Section 67.042, RSMo, requires the city to prepare a statement of costs necessary to maintain the funding of the service. The city needs to periodically review the costs and consider expenses such as debt service costs, the need for the extension of the system, equipment repairs and replacement, depreciation, enlargement of plant, capital improvements, and operating and incidental expenses. Although the statute only requires a statement of costs,

the preparation of a comprehensive cost study would assist the city in determining the rates necessary to support current and future operations and provide documentation to customers of the rationale behind the rates.

6.6 Sales tax

The Department of Revenue (DOR) notified the city in April 2021, that the city had not filed or remitted sales taxes collected related to utility services provided for some months. The notice indicated the city owed sales taxes, interest, and penalties totaling $787 for the months of March, June, September, and December 2017 and also December 2020. These balances due were paid in June 2021. The notice also indicated the city had not filed returns for the months of September 2016, September and December 2018, and June 2019. The city filed those returns and remitted $1,528 to the DOR in June 2021 for these months.

Section 144.080, RSMo, requires sales tax collections be reported and remitted to the DOR on a monthly or quarterly basis, depending on the amounts collected. Additionally, penalties may be assessed under Section 144.250, RSMo, because of the city's failure to remit these sales taxes. Pursuant to 12 CSR 10-110.955(3)(B), sales by the state of Missouri and its political subdivisions are subject to tax. City officials indicated they were not aware of these requirements.

Recommendations

The Board of Aldermen:

6.1 Evaluate utility system changes to prevent or track deleted transactions, and require an independent and/or supervisory review and approval of all adjustments and deleted transactions made in the utility system.

6.2 Ensure monthly reconciliations are performed of amounts billed to amounts collected and delinquent accounts, and of gallons of water billed to gallons pumped, and investigate significant differences.

6.3 Periodically reconcile customer utility deposits per the utility system to accounting records and cash balances, and promptly investigate any differences.

6.4 Ensure utility service is shut off in accordance with city ordinance. In addition, if the Board wants to allow partial payments, the Board should establish a written partial payment policy, review and approve customer payment agreements, and monitor delinquent accounts.

6.5 Ensure a statement of costs is prepared to support utility rate increases and document formal reviews of utility rates periodically to ensure revenues are sufficient to cover all costs of providing these services.

6.6 Ensure sales taxes collected are reported and remitted timely.

Auditee's Response

6.1 The Board will request transaction sequence numbers quarterly for deleted transactions from the utility software provider. The Board will enact a policy of reviewing and approving all adjustments made monthly. This will be printed along with the end of month reports that are currently provided by the City Clerk.

6.2 The Board currently receives end of month reports from the utility system, including a director's report that covers these areas. Any differences will be investigated and documented in the minutes.

6.3 The Board will enact a policy of reviewing and reconciling a report of the utility system deposits to accounting records and cash balances biannually. The Board will investigate any differences.

6.4 The city currently has no delinquent accounts requiring service shut off. The City Clerk is diligent in letting utility customers know of impending service shut off. The city has also contracted with the state, through the Department of Social Services, regarding a payment program to defer disconnection. The Board will enact a policy of partial payments for customers seeking assistance through this program. The Board will approve all partial payment agreements.

6.5 Currently any rate increases are documented in the minutes. The city will have a rate increase in April. This rate increase is based upon the previous rate study conducted.

6.6 All sales taxes are currently being reported and remitted in a timely manner.

7. Budgets and Financial Reporting

Budgeting and financial reporting procedures need improvement. The city did not prepare annual budgets, publish semiannual financial statements, and file annual financial reports. The annual financial reports filed were not accurate.

7.1 Budgets

The City Clerk did not prepare a budget for the years ended December 31, 2020, 2019, and 2018.

A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for each area of city operations. It also assists in setting utility rates and tax levies and informing the public about city operations and current finances. Section 67.010, RSMo, requires the budget present a

complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included in the budget. In addition, Section 67.080, RSMo, provides that no expenditures of public money should be made unless it is authorized in the budget. Proper monitoring of budgeted amounts to actual results is necessary for the budget to be an effective management tool. City officials indicated they were not aware of these requirements.

7.2 Financial reporting

City officials did not file timely annual financial reports with the State Auditor's Office (SAO) as required by state law, and the financial statements filed were not accurate.

The city did not file an annual financial report for the 6 years ended December 31, 2013, through 2018. In addition, the city did not file annual financial reports for the years ended December 31, 2019, and 2020, for at least a month after the filing deadline. The financial statements prepared for these years were not accurate. The financial statement for the year ended December 31, 2019, did not accurately report the city's cash balances, and the one for the year ended December 31, 2020, had mathematical errors.

Section 105.145, RSMo, requires each political subdivision to file annual reports of its financial transactions with the SAO. Section 105.145.5, RSMo, prohibits elected officials from continuing to receive compensation or processing disbursements after the deadline to submit the financial statement and until the financial statement is submitted to the SAO. Section 105.145.9, RSMo, allows political subdivisions to be fined $500 per day for missing filing deadlines. In addition, 15 CSR 40-3.030, requires each political subdivision to file annual financial reports within 6 months of the end of the subdivision's fiscal year. City officials indicated they were not aware of these requirements.

7.3 Published financial statements

The city has not published financial statements for the years ended December 31, 2020, 2019, and 2018. As a result, information regarding the city's financial activity and condition is not available to citizens.

Section 79.160, RSMo, requires the Board to prepare and publish semiannual financial statements that include a full and detailed account of the receipts, disbursements, and indebtedness of the city. City officials indicated they were not aware of this requirement.

Recommendations

The Board of Aldermen:

7.1 Prepare accurate annual budgets that contain all information required by state law, and ensure the budgets are adequately monitored.

7.2 Submit accurate annual financial reports timely to the State Auditor's Office as required by state law.

7.3 Ensure publication of the city's semiannual financial statements as required by state law.

Auditee's Response

7.1 The City Clerk currently provides the Board with a monthly and annual budget that details all accounts.

7.2 The City Clerk currently submits accurate annual financial reports timely to the State Auditor's Office.

7.3 The City Clerk currently provides financial statements to the newspaper to publish biannually, as well as posting on the door at city hall.

8. Sunshine Law

The Board did not always prepare and maintain meeting minutes. In addition, the Board has not adopted a written policy regarding public access to district records as required by state law.

8.1 Meeting minutes

City officials could not locate meeting minutes for monthly Board meetings occurring in March, April, May, and June 2018, and also February and July 2019. In addition, open meeting minutes for the 2 meetings in November 2019 indicated the Board went into closed sessions, but the minutes did not document the specific reasons or section of law allowing the meetings to be closed, and minutes were not maintained for the closed sessions.

Section 610.020.7, RSMo, states minutes of open and closed meetings shall be taken and retained by the public governmental body. Meeting minutes serve as an official record of city business conducted and city actions and decisions. In addition, Section 610.022, RSMo, requires public bodies announce the specific reasons allowed by law for going into a closed meeting and to enter the vote and reason into the minutes. City officials indicated they were not aware of these requirements.

8.2 Public access policy

The Board has not adopted a written policy regarding public access to city records as required by state law. A written policy regarding public access to city records would establish guidelines for the city to make records available to the public. Such policies typically identify a person to contact, provide an address to mail such requests, and establish fees that may be assessed for providing copies of public records.

Section 610.023, RSMo, lists requirements for making records available to the public. Section 610.026, RSMo, allows the city to charge fees for providing access to and/or copies of public records and provides requirements related to fees. Section 610.028, RSMo, requires a written policy regarding

release of information under the Sunshine Law. City officials indicated they were not aware of these requirements.

Recommendations

The Board of Aldermen:

8.1 Ensure meeting minutes are prepared and retained for all open and closed meetings, and ensure specific reasons for closing a meeting are documented in the open meeting minutes.

8.2 Develop a written public access policy.

Auditee's Response

8.1 The city currently maintains all public Board meeting minutes, as well as closed Board meeting minutes. The Board will enact a policy of publicly stating the reason for each closed meeting.

8.2 The city adopted a written public access Sunshine Law ordinance on May 17, 2021.

9. Electronic Data Security

Controls over the city computer are not sufficient to prevent unauthorized access, and sufficient plans and processes are not in place for recovering systems and data. As a result, city records are not adequately protected and are susceptible to unauthorized access, and the city faces an increased risk of not being able to resume normal business operations timely.

9.1 Passwords

The city has not established adequate password controls to reduce the risk of unauthorized access to the city's computers and data. The password to access the computer and utility system are not changed periodically, and the password is not required to contain a minimum number of characters.

Passwords are required to authenticate access to computers. The security of computer passwords is dependent upon keeping them confidential. However, since passwords are not periodically changed and do not require a minimum number of characters, there is less assurance access to computers and data files is limited to only those individuals who need access to perform their job responsibilities. Passwords should be unique, confidential, contain a minimum number of characters, and be changed periodically to reduce the risk of a compromised password and unauthorized access to and use of computers and data. City officials indicated they were not aware of the importance of changing the password and for password to contain a minimum number of characters.

9.2 Antivirus software

The city did not have antivirus software installed on the city's computer to ensure protection of city data.

Without adequate antivirus protection, there is an increased risk that the computer will be infected and that unauthorized processes will have an

adverse impact on the confidentiality, integrity, or availability of a system. City officials indicated they were not aware of the importance of installing antivirus software.

9.3 Data backup

The city does not periodically back up some city data and store the backup data at a secure off-site location. While the utility software vendor maintains monthly backup of the utility files, the city does not maintain backup copies of other city computer files.

Preparation of backup data, preferably on a daily or at least weekly basis, provides reasonable assurance data could be recovered if necessary. To help prevent loss of information and ensure essential information and computer systems can be recovered, computer data should be backed up, tested periodically to ensure data can be recovered, and stored at a secure off-site location. City officials indicated they were not aware of the importance of backing up city data and storing it off-site.

Recommendations

The Board of Aldermen:

9.1 Ensure passwords are periodically changed and contain a minimum number of characters to prevent unauthorized access to the city's computer and data.

9.2 Ensure the city's computer and systems are adequately protected from computer viruses.

9.3 Require data to be backed up regularly, tested periodically, and stored in a secure off-site location.

Auditee's Response

9.1 The city currently has the city computer password protected as well as programs requiring password protection. Passwords will be changed quarterly and contain the minimum number of characters.

9.2 The City Clerk will research antivirus software and bring before the Board for approval and purchase.

9.3 The City Clerk currently biannually backs up the computer on a flash drive, and the Board will enact a policy of providing the Mayor a copy of the flash drive to maintain off-site. All computer files are currently saved to the cloud daily. The utility system is backed up daily by the software provider. Back up files are periodically tested to verify use and operation.

10. Electronic Communication Policy

The city has not developed a records management and retention policy in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. This guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms.

Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[8] City officials indicated they were not aware of these requirements.

To ensure compliance with state law, the Board needs to develop a written policy to address the use of personal email, social media and message accounts, and management and retention of electronic communications.

Recommendation

The Board of Alderman develop a written records management and retention policy to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division electronic communications guidelines.

Auditee's Response

The Board will enact a written policy for records management and retention of electronic communications.

[8] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed February 3, 2022.

City of Cross Timbers
Organization and Statistical Information

The City of Cross Timbers is located in Hickory County. The city was incorporated in 1948 and is currently a fourth-class city. The city had 2 contracted workers on December 31, 2018.

City operations include utility services (water and sewer), street maintenance, and park services.

Mayor and Board of Aldermen

The city government consists of a mayor and 4-member board of aldermen. The members are elected for 2-year terms. The mayor is elected for a 2-year term, presides over the board of aldermen, and votes only in the case of a tie. The Mayor and Board of Aldermen, at December 31, 2018, are identified below. The Mayor and Board of Aldermen receive no compensation.

Robert Ritchie, Mayor (1)
Roy Baker, Alderman (2)
Billy Mitchell, Alderman
Wayne Trepanier, Alderman (3)
Vacant (4)

(1) In November 2019, Terri Gillette was appointed to fill the remainder of the term of Robert Ritchie, who resigned in September 2019. In 2020, she was elected to fill the unexpired 1 year term, and continues to serve because no election for Mayor was held in 2021.
(2) In September 2019, Jon Dwire was appointed to fill the remainder of the term of Roy Baker, who resigned in September 2019. He was subsequently elected in April 2020.
(3) In September 2019, Rick Foster was appointed to fill the remainder of the term of Wayne Trepanier, who resigned in July 2019. He was subsequently elected in April 2020 and resigned in September 2020. In January 2021, Russ King was appointed to fill the remainder of the term.
(4) The vacant position occurred when Cleo Fields resigned in November 2018. David Lehman was elected in April 2019, and resigned in December 2019. In January 2020, Bonita Davis was appointed and subsequently elected in April 2020 to fill the remainder of the term and was elected in April 2021 for a 2 year term.

Financial Activity

A summary of the city's financial activity obtained from bank statements for the years ended December 31, 2018, 2019, and 2020, follows:

City of Cross Timbers
Supporting Documentation of Misappropriated Money and Utility Services

The following appendixes provide supporting documentation for the misappropriated money and subpoenas issued as discussed in MAR finding number 1 and are summarized in the following table.

Appendix	Type of Supporting Documentation
A	State Auditor Subpoena - January Clark
B	State Auditor Subpoena - Robert Ritchie
C	Undeposited City Receipts
D	Overpayments and Questionable Payments to City Clerk
E	Other Improper Payments to City Clerk
F	Improperly Recorded Utility Payments, and Improper Adjustments and Billings for City Clerk
G	Utility Billing Calculations for City Clerk
H	Improperly Recorded Utility Payments, and Improper Adjustments and Billings for Former Alderman

Address and bank account numbers have been redacted.

OFFICE OF MISSOURI STATE AUDITOR

SUBPOENA

To: January Clark
[redacted]

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or her representative(s) at the Landers State Office Building 149 Park Central Square, Suite 814 Springfield MO 65806 at 9:00 a.m. on Monday, November 22, 2021, for purposes of providing testimony and producing for examination, copying, and interrogation the records and documents listed on Exhibit A attached to this Subpoena.

ISSUED this 10th day of November, 2021, pursuant to Section 29.235.4(1), RSMo.

Nicole Galloway
Missouri State Auditor

I served the foregoing subpoena by Hand Delivered on this 10th day of November, 2021.

Pamela Allison

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

All documents or other records, in whatever form, whether hard copy or electronic, pertaining or belonging to the City of Cross Timbers for the time period of August 2017 to July 2020.

This request includes, but is not limited to, the following:

Records related to the city's 6 Oak Star Bank accounts (including account numbers [redacted], and [redacted]);

Any and all payroll records, calendars, timesheets, invoices, reimbursement claim forms, receipt slips, property tax invoices, utility reports, financial statements, Board minutes, or any other City of Cross Timbers Board records.

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the State Auditor. Section 29.235.4(1), RSMo.

Address and bank account numbers have been redacted.

City of Cross Timbers
Undeposited City Receipts
October 1, 2017, through July 31, 2020

Deposit Date		(1) Recorded Cash Receipts	(1) Recorded Checks and Money Orders Receipts		(1) Recorded Other Receipts	(1) Receipts with Unknown Method of Payment	(2) Unrecorded Checks and Money Orders	Total Receipts	Cash Deposited	Checks and Money Orders Deposited	Total Deposited	Total Undeposited Over/(Under)	Adjustment for City Invoices Likely Paid With Cash Receipts	Net Total Undeposited Over/(Under)
07/31/20		211.00	632.45	(3)	0.00	0.00	337.06	1,180.51	211.00	969.51	1,180.51	0.00	0.00	0.00
Total 2020		6,412.08	36,226.03		13.42	0.00	16,805.08	59,456.61	4,129.00	49,998.84	54,127.84	(5,328.77)	0.00	(5,328.77)
Total	$	17,533.35	142,678.34		2,618.97	108.88	59,364.39	222,303.93	7,455.54	192,986.90	200,442.44	(21,861.49)	387.67	(21,473.82)

(1) Represents receipts recorded in the utility system, on manual receipt slips, and included in the deposit summary.

(2) Represents deposited checks unrelated to recorded receipts.

(3) The method of payment of some receipts were inaccurately recorded as other payments in the utility system. However, the contents of the deposit showed these receipts were checks or money orders. Therefore, we adjusted the method of payment of these receipts.

(4) The City Clerk recorded a receipt as other to the maintenance worker's account for $46.83. However, the maintenance worker's employment agreement provided for free utility services and as a result, no actual payment was made. Therefore, we adjusted this amount out of recorded other receipts.

(5) The City Clerk recorded a receipt as other to the maintenance worker's account for $94.82. However, the maintenance worker's employment agreement provided for free utility services, and as a result, no actual payment was made. Therefore, we adjusted this amount out of recorded other receipts.

(6) Two city invoices totaling $387.67 were likely paid with cash receipts of the city. One invoice was dated May 28, 2018, for $12.67 for sewer supplies and another invoice was dated November 16, 2018, for $375 for pump repairs.

(7) The method of payment of a $250 receipt was inaccurately recorded as a check payment by a utility customer in the utility system. However, the manual receipt slip issued indicated the method of payment was cash. Payments recorded from this customer were historically cash. Therefore, we adjusted the method of payment of this receipt.

(8) The method of payment of a $59.10 receipt was inaccurately recorded as a cash payment by a utility customer in the utility system. However, the contents of the deposit showed the payment made by the utility customer was a check. This utility customer also made payments in January, February, April, May, June, and July in 2020 by check. Therefore, we adjusted the method of payment of this receipt.

Total	$	13,525.00	

Total Overpayments and Questionable Payments	$	19,657.09

(1) Robert Ritchie was the Mayor from April 2017 to September 23, 2019, and Board members indicated in recorded interviews that the Mayor lived with the City Clerk, and bank records show that the Mayor and City Clerk shared a personal bank account and home address.

(2) Portions of the memo line of the canceled check, notated by a ~ symbol, were not legible. Thus, the wording is not known.

(3) The payment amount of this check was reflected in the year that the purpose shown in the check memo line indicated instead of the year in which the check was dated.

(4) Check was issued out of numerical sequence.

(5) Check number 2902 was issued twice. Once on May 23, 2019, and once on November 4, 2019.

(6) This total includes payments of $900 per month for 4 months (September, October, November, and December). We could not determine the date the City Clerk was hired.

(7) According to the City Clerk's calendars she was paid $900 per month ($10,800) for 48 hours per month. The calendars also indicated she worked 1,542.5 hours during the year and was paid $10 per hour for hours worked over 48 hours each month (576 hours for the year), resulting in additional payments of $9,665.

(8) On October 7, 2019, the Board voted to reduce the City Clerk's pay to $550 per month with no payment for hours worked over 48 hours. This total includes $8,100 ($900 for 9 months) and $1,650 ($550 for 3 months). The City Clerk's calendars indicate she worked 818 hours during the first 9 months of the year, which resulted in additional payments of $3,860 for hours worked over 48 hours each month (432 hours).

(9) This total includes a $550 monthly payment for 6 months. It also includes $106.45 for July 1 to July 6, 2020. The City Clerk terminated employment with the city on July 6, 2020.

(10) Board meeting minutes did not indicate any additional payments (over 48 hours per month) or the additional pay rate was approved by the Board. As a result, the additional payments are questionable.

Grand Total	$ 2,106.41		179.38	1,972.96		233.98				545.29

(1) January Clark started working as the City Clerk in October 2017, and her utility account had a balance of $372.18 at September 30, 2017.

(2) Utility records show payments were made on October 19, 2017, November 27, 2017, December 29, 2017, January 18, 2018, February 15, 2018, March 9, 2018, March 28, 2018, June 14, 2018, July 11, 2018, September 20, 2018, September 23, 2019, November 4, 2019, December 30, 2019, January 20, 2020, February 17, 2020, March 16, 2020, April 6, 2020, and June 15, 2020. However, bank deposits for these months show no evidence these payments were deposited.

(3) Utility records indicate no water/sewer fees were billed in April 2018 to January Clark's utility account; however, the amount billed for June 2018, may include water and sewer fees not billed for April 2018.

(4) Utility records show improper adjustments were made to January Clark's utility account on November 26, 2018, indicating "City Employee" and on March 4, 2019, indicating "EMPLOYEE."

(5) Utility records indicate no water and sewer fees were billed these months and January Clark's utility account was "EXEMPT from Charges." We calculated the amount of water and sewer fees improperly not billed based on water usage obtained from meter readings and water and sewer rates at the time of service (See Appendix G).

(6) Includes a penalty fee only, utility service was not billed this month.

Appendix G
City of Cross Timbers
Utility Billing Calculations for City Clerk
October 1, 2017, through July 31, 2020

Water Billing Calculation

Month and Year Water Services Were Not Billed	Gallons of Water Used Each Month Per Meter Readings	Gallons of Water Used Over Initial 1,500 Gallons	Base Rate Charged for Initial 1,500 Gallons of Water Used	Amount Charged for Gallons of Water Used Over Initial 1,500 Gallons (1)	Sales Tax	Department of Natural Resources Pollution Control Fee	Department of Natural Resources Primacy Fee	Total Water Billing Amount
November 2018	3,970	2,470	$ 16.00	$ 12.35	$ 2.05	$ 0.07	$ 0.27	$ 30.74
December 2018	4,350	2,850	16.00	14.25	2.19	0.07	0.27	32.78
February 2019	4,730	3,230	18.00	16.15	2.47	0.07	0.27	36.96
March 2019	4,810	3,310	18.00	16.55	2.50	0.07	0.27	37.39
April 2019	5,100	3,600	18.00	18.00	2.60	0.07	0.27	38.94
May 2019	4,620	3,120	20.00	15.60	2.57	0.07	0.27	38.51
August 2019	4,680	3,180	20.00	15.90	2.59	0.07	0.27	38.83

Sewer Billing Calculation (2)

Month and Year Sewer Services Were Not Billed	Base Rate Charged for Initial 1,500 Gallons of Water Used	Amount Charged for Gallons of Water Used Over Initial 1,500 Gallons (1)	Total Sewer Billing Amount
November 2018	$ 25.00	$ 12.35	$ 37.35
December 2018	25.00	14.25	39.25
February 2019	25.00	16.15	41.15
March 2019	25.00	16.55	41.55
April 2019	25.00	18.00	43.00
May 2019	25.00	15.60	40.60
August 2019	25.00	15.90	40.90

Total Water and Sewer Billing Amount

Month and Year Sewer Services Were Not Billed	Total Water and Sewer Billing Amount	Unrecorded Penalty Amount (3)	Total Water and Sewer Billing Amount with Penalties
November 2018	$ 68.09	$ 3.40	$ 71.49
December 2018	72.03	0.00	72.03
February 2019	78.11	0.00	78.11
March 2019	78.94	3.95	82.88
April 2019	81.94	0.00	81.94
May 2019	79.11	0.00	79.11
August 2019	79.73	0.00	79.73

(1) The rate after the initial 1,500 gallons is $5 for every 1,000 gallons.

(2) Sewer services are billed based upon water usage.

(3) The City Clerk indicated in the utility system that her account was exempt from penalties in November 2018 and March 2019 and therefore was not billed for penalties. We calculated a penalty amount of 5 percent based upon November 2018 and March 2019 current charges.

Total 2020	880.41		0.00	430.00		901.91		0.00		0.00	
Grand Total	$ 1,331.91		0.00	430.00		959.48		0.00		4,036.17	
						Less Billing Amount Used to Adjust Account Balance		(145.49)	(6)		
						Net Adjustments	$	813.99			

(1) Utility records show an improper adjustment was made and the reason was documented as "i [*sic*] should have shown it off Dec. 15."

(2) Utility records show no water and sewer fees were billed in 2015, 2016, 2017, 2018, and from January to September 2019. No meter readings were documented for the former Alderman's utility account during this time period and the meter reading report typically indicated his account was "vacant." The City Clerk was responsible for billings during this time period. We estimated the amount of utility services improperly not billed based on the average utility charge during 2014 as follows:

	Amount of Water/Sewer Fees Billed
January 2014	$ 58.09
February 2014	73.20
March 2014	72.88
April 2014	69.81
May 2014	70.90
June 2014	85.70
July 2014	78.55
August 2014	80.39
September 2014	87.34
October 2014	57.62
November 2014	57.62
December 2014	57.62
Average of Amounts Billed During 2014	$ 70.81

This calculation does not take into account any utility rate increases so the actual amount of utility services not billed is likely more than what was calculated. In a recorded interview, the former Alderman indicated he helped the former Maintenance Supervisor in exchange for free water and sewer services. However, this arrangement was not approved and documented in meeting minutes or approved by city ordinance. The former Alderman also indicated he stopped helping the city with water and sewer services when the city contracted with a new Maintence Supervisor in March 2018.

(3) In November 2019, the Board voted to end the practice of providing free water and sewer service to anyone that was receiving it.

(4) Utility records show payments were made on February 3, 2020, February 28, 2020, and April 6, 2020; however, bank deposits for these months show no evidence these payments were deposited.

(5) According to the Hickory County Recorder of Deeds' office, this property was sold June 1, 2020. The amount billed in May was a penalty fee. There were no meter readings for May or June 2020, and the May meter reading indicated "off."

(6) Utility records show an adjustment of $901.91 was made to the former Alderman's account by the current City Clerk on July 28, 2020, indicating "Moved." However, the balance of the former Alderman's account as of July 1, 2020, was only $756.42. The current City Clerk indicated she corrected the adjustment by recording an improper billing of $145.49 on July 31, 2020. As a result, we reported net adjustments of $813.99. The current City Clerk indicated she made this adjustment, to reduce the account balance to zero because the city could not place a lien on the property prior to the sale, and without a forwarding address or city attorney it would not be easy to pursue collection. However, an explanation for this adjustment was not documented and not approved by the Board, and former Alderman Baker still owes this balance to the city.

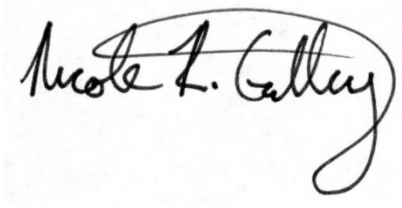
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of January 2022 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In January, the state spent $28.6 million from federal ARP Act assistance (Appendix A). Through the end of January, the state has received $1.82 billion and spent $376.3 million from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of January 31, 2022, approximately $10.92 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

State and local fiscal recovery funding

Of the awarded amounts, $2.69 billion is for state fiscal recovery funding and $2.473 billion is for local fiscal recovery funding. The local government recovery funding is $1.192 billion for counties, $831 million for cities with a population generally of 50,000 or more, and $450 million for other local jurisdictions with populations generally below 50,000. The award also includes $196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for public health and economic needs; to provide premium pay to eligible workers; to replace lost revenue; and water, sewer and broadband infrastructure investment.

Public health and economic needs

Recipients may use the funding to provide resources for governments to meet the public health and economic needs of those impacted by the pandemic in their communities, as well as address longstanding health and economic disparities, which amplified the impact of the pandemic in disproportionately impacted communities, resulting in more severe pandemic impacts. The eligible use categories include (1) public health, (2) assistance to households, (3) assistance to small businesses, (4) assistance to nonprofits, (5) aid to impacted industries, and (6) public sector capacity.

In general, to identify eligible uses of funds in this category, recipients should (1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and (2) design a program that responds to that impact. Responses should be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted.

Recipients may use the funding to restore and bolster public sector capacity, which supports the government's ability to deliver critical COVID-19

services. There are three main categories of eligible uses to bolster public sector capacity and workforce:

- Public safety, public health, and human services staff
- Government employment and rehiring public sector staff
- Effective service delivery

In addition to programs and services, the final rule[1] clarifies that recipients can use funds for capital expenditures that support an eligible COVID-19 public health or economic response. For example, recipients may build certain affordable housing, childcare facilities, schools, hospitals, and other projects consistent with final rule requirements.

Provide premium pay to eligible workers

Recipients may provide premium pay to eligible workers performing essential work during the pandemic - generally those working in-person in key economic sectors - who are below a wage threshold or non-exempt from the Fair Labor Standards Act overtime provisions, or if the recipient submits justification that the premium pay is responsive to workers performing essential work. Premium pay may be awarded to eligible workers up to $13 per hour. Premium pay must be in addition to wages or remuneration (i.e., compensation) the eligible worker otherwise receives. Premium pay may not exceed $25,000 for any single worker during the program.

The final rule governing use of this funding, broadens the definition of "eligible" worker. Premium pay may be awarded in installments or lump sums (e.g., monthly, quarterly, etc.) and may be awarded to hourly, part-time, or salaried or non-hourly workers. Premium pay must be paid in addition to wages already received and may be paid retrospectively. A recipient may not use this funding to merely reimburse itself for premium pay or hazard pay already received by the worker, and premium pay may not be paid to volunteers.

Replace lost revenue

Recipients may use funding available to provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue.

Recipients have 2 options to determine lost revenue (1) elect a "standard allowance" of $10 million to spend on government services through the

[1] Coronavirus State and Local Fiscal Recovery Funds, 87 Fed. Reg. 4338 (January 27, 2022); U.S. Department of the Treasury, *Coronavirus State & Local Fiscal Recovery Funds: Overview of the Final Rule*, January 2022. The final rule is effective April 1, 2022; however, recipients can choose to take advantage of the final rule's flexibilities and simplifications now, before the effective date.

period of performance[2] or (2) calculate their actual revenue loss using the formula provided in the final rule.

All recipients may elect to use the standard allowance instead of calculating lost revenue using the formula provided, including those with total allocations of $10 million or less. Electing the standard allowance does not increase or decrease a recipient's total allocation.

Under the second option, recipients calculate revenue loss at four distinct points in time, either at the end of each calendar year (e.g., December 31 for years 2020, 2021, 2022, and 2023) or the end of each fiscal year of the recipient using a 4 step process detailed in the final rule.

Water, sewer and broadband infrastructure investment

Recipients can use provided funding to make investments in water, sewer and broadband infrastructure. Awarded funds may be used to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

The final rule significantly broadens eligible broadband infrastructure investments to address challenges with broadband access, affordability, and reliability, and adds additional eligible water and sewer infrastructure investments, including a broader range of lead remediation and stormwater management projects.

Distribution and reporting

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations involved in passenger or cargo transportation, and special-purpose units of state or local governments.

[2] The time period recipients can spend this funding.

The state and cities and counties with populations of more than 250,000 residents had to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and will have to file that report annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also had to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter. Other jurisdictions receiving their distribution from the state must file that report by April 30, 2022, but only annually thereafter.

Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) [3] funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri began implementing Medicaid expansion by accepting applications on August 10, 2021, though the state did not begin processing applications until October 1, 2021. Coverage will be available retroactive to July 1, 2021, consistent with a state supreme court order.

- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September 2021, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.

- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

[3] Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

Education funding

The Department of Elementary and Secondary Education will receive $1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive $68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive $627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

Spending status

In January, the state spent $28.6 million from federal ARP Act assistance (Appendix A). Through the end of January, the state has received $1.82 billion and spent $376.3 million from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

[1] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed represent only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

[1] This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, in June 2021 the DED made a one-time use of the fund to receipt $107,860,095 in ARP Act awards due to grant drawdown and budgetary timing challenges. All receipts were fully disbursed in August 2021.

[2] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed represent only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

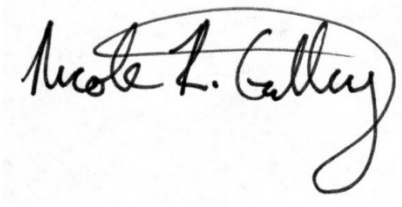
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance from the American Rescue Plan (ARP) Act in the month of December 2021 for the Coronavirus Disease 2019 (COVID-19) recovery and the cumulative financial activity since the state began receiving funding in May 2021.

In March 2021, Congress passed the ARP Act signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities for the COVID-19 recovery. The funding received by or made available to Missouri state government agencies will help pay for the state's recovery from the COVID-19 pandemic and provides (1) state and local recovery aid, (2) temporary additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, (3) funding for elementary and secondary schools and institutions of higher education, and (4) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. A large part of the funding authorized in this legislation will be sent directly to local government entities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In December, the state spent $2.99 million from federal ARP Act assistance (Appendix A). Through the end of December, the state has received $1.82 billion and spent $347.7 million from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the American Rescue Plan (ARP) Act of 2021 (Public Law 117-2, H.R.1319) signed into law in March 2021. Under the act, the state has also been awarded as of December 31, 2021, approximately $10.91 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. The following sections discuss the amount and funding purpose of significant award sources.

State and local fiscal recovery funding

Of the awarded amounts, $2.69 billion is for state fiscal recovery funding and $2.473 billion is for local fiscal recovery funding. The local government recovery funding is $1.192 billion for counties, $831 million for cities with a population generally of 50,000 or more, and $450 million for other local jurisdictions with populations generally below 50,000. The award also includes $196.7 million from the Coronavirus Capital Projects Fund for the state.

These funds may be used to cover eligible costs incurred during the period that begins on March 3, 2021, and ends on December 31, 2024, as long as the award funds for the obligations incurred by December 31, 2024, are expended by December 31, 2026. Costs for projects incurred prior to March 3, 2021, are not eligible.

This funding can be used for public health and economic needs; to provide premium pay to eligible workers; to replace lost revenue; and water, sewer and broadband infrastructure investment.

Public health and economic needs

Recipients may use the funding to provide resources for governments to meet the public health and economic needs of those impacted by the pandemic in their communities, as well as address longstanding health and economic disparities, which amplified the impact of the pandemic in disproportionately impacted communities, resulting in more severe pandemic impacts. The eligible use categories include (1) public health, (2) assistance to households, (3) assistance to small businesses, (4) assistance to nonprofits, (5) aid to impacted industries, and (6) public sector capacity.

In general, to identify eligible uses of funds in this category, recipients should (1) identify a COVID-19 public health or economic impact on an individual or class (i.e., a group) and (2) design a program that responds to that impact. Responses should be related and reasonably proportional to the harm identified and reasonably designed to benefit those impacted.

Recipients may use the funding to restore and bolster public sector capacity, which supports the government's ability to deliver critical COVID-19

services. There are three main categories of eligible uses to bolster public sector capacity and workforce:

- Public safety, public health, and human services staff
- Government employment and rehiring public sector staff
- Effective service delivery

In addition to programs and services, the final rule[1] clarifies that recipients can use funds for capital expenditures that support an eligible COVID-19 public health or economic response. For example, recipients may build certain affordable housing, childcare facilities, schools, hospitals, and other projects consistent with final rule requirements.

Provide premium pay to eligible workers

Recipients may provide premium pay to eligible workers performing essential work during the pandemic - generally those working in-person in key economic sectors - who are below a wage threshold or non-exempt from the Fair Labor Standards Act overtime provisions, or if the recipient submits justification that the premium pay is responsive to workers performing essential work. Premium pay may be awarded to eligible workers up to $13 per hour. Premium pay must be in addition to wages or remuneration (i.e., compensation) the eligible worker otherwise receives. Premium pay may not exceed $25,000 for any single worker during the program.

The final rule governing use of this funding, broadens the definition of "eligible" worker. Premium pay may be awarded in installments or lump sums (e.g., monthly, quarterly, etc.) and may be awarded to hourly, part-time, or salaried or non-hourly workers. Premium pay must be paid in addition to wages already received and may be paid retrospectively. A recipient may not use this funding to merely reimburse itself for premium pay or hazard pay already received by the worker, and premium pay may not be paid to volunteers.

Replace lost revenue

Recipients may use funding available to provide government services affected by a revenue reduction resulting from COVID-19. The federal government gives recipients broad latitude to use funds for the provision of government services to the extent of reduction in revenue.

Recipients have 2 options to determine lost revenue (1) elect a "standard allowance" of $10 million to spend on government services through the

[1] Coronavirus State and Local Fiscal Recovery Funds, 87 Fed. Reg. 4338 (January 27, 2022); U.S. Department of the Treasury, *Coronavirus State & Local Fiscal Recovery Funds: Overview of the Final Rule*, January 2022. The final rule is effective April 1, 2022; however, recipients can choose to take advantage of the final rule's flexibilities and simplifications now, before the effective date.

period of performance[2] or (2) calculate their actual revenue loss using the formula provided in the final rule.

All recipients may elect to use the standard allowance instead of calculating lost revenue using the formula provided, including those with total allocations of $10 million or less. Electing the standard allowance does not increase or decrease a recipient's total allocation.

Under the second option, recipients calculate revenue loss at four distinct points in time, either at the end of each calendar year (e.g., December 31 for years 2020, 2021, 2022, and 2023) or the end of each fiscal year of the recipient using a 4 step process detailed in the final rule.

Water, sewer and broadband infrastructure investment

Recipients can use provided funding to make investments in water, sewer and broadband infrastructure. Awarded funds may be used to cover costs incurred for eligible projects planned or started prior to March 3, 2021, provided that the project costs covered by the funds were incurred after March 3, 2021.

The final rule significantly broadens eligible broadband infrastructure investments to address challenges with broadband access, affordability, and reliability, and adds additional eligible water and sewer infrastructure investments, including a broader range of lead remediation and stormwater management projects.

Distribution and reporting

Counties and cities with populations primarily greater than 50,000 will receive their funding directly from the federal government. Other jurisdictions with populations primarily less than 50,000 will receive their funding distribution through the state and cannot receive more than 75 percent of their budget as of January 27, 2020. The state will have to distribute funds within 30 days of receiving them, subject to possible approved extensions. States that miss the deadline and any extensions would have to return any undistributed funds.

The funds will primarily be distributed in two distributions, with half delivered no later than 60 days after the date on which the state or local government receiving funding directly from the federal government submits the required certification form, and the remainder no earlier than a year later.

State and local governments cannot use the funds towards pensions or to offset revenue resulting from a tax cut enacted since March 3, 2021. They can transfer funds to private nonprofit groups, public benefit corporations involved in passenger or cargo transportation, and special-purpose units of state or local governments.

[2] The time period recipients can spend this funding.

The state and cities and counties with populations of more than 250,000 residents had to file a Recovery Plan Performance Report by August 31, 2021, with the federal government and will have to file that report annually thereafter by the end of July. Each Recovery Plan Performance Report must be posted on the public-facing website of the recipient by the same date the recipient submits the report to the Department of the Treasury.

By January 31, 2022, the state and cities and counties receiving funding directly from the federal government also had to file a Project and Expenditure Report and then thereafter 30 days after the end of each quarter. Other jurisdictions receiving their distribution from the state must file that report by April 30, 2022, but only annually thereafter.

Medicaid (MO HealthNet) funding

For Medicaid Federal Medical Assistance Percentage (FMAP) [3] funding the act:

- Provides a temporary (for 2 years after implementation) 5 percent FMAP increase for states that enact the Affordable Care Act's Medicaid expansion. Missouri began implementing Medicaid expansion by accepting applications on August 10, 2021, though the state did not begin processing applications until October 1, 2021. Coverage will be available retroactive to July 1, 2021, consistent with a state supreme court order.

- Increases the federal FMAP by 10 percent for state expenditures on home and community based services for 4 fiscal quarters if certain requirements are met. In September 2021, the state received approval from the federal government for its projected spending plan to enhance, expand, and strengthen home and community-based services related to the increased FMAP.

- Provides an 85 percent FMAP for the first 3 years that a state covers mobile crisis intervention services for mental health or substance use disorders, expiring after 5 years.

The act also eliminates the cap on the rebate amount manufacturers are required to pay Medicaid on covered drugs, starting in 2024.

[3] Another federal act in early 2020 provides Missouri a 6.2 percent FMAP increase beginning January 1, 2020, for MO HealthNet and other applicable programs. That increase remains available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. The state had an FMAP percentage of approximately 66 percent prior to that act. The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to the 2020 increase.

Education funding

The Department of Elementary and Secondary Education will receive $1.96 billion from the act. At least 90 percent of that funding must be distributed to local school districts. The districts must reserve at least 20 percent of that funding to address learning loss. The department will also receive $68.6 million for distribution to non-public schools. The funding will remain available through September 30, 2023.

Public and private institutions of higher education will receive $627 million from the act. At least 50 percent of the allocated funding received must be spent on emergency financial aid for students. The funding will remain available through September 30, 2023.

Spending status

In December, the state spent $2.99 million from federal ARP Act assistance (Appendix A). Through the end of December, the state has received $1.82 billion and spent $347.7 million from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendix C.

Total all Funds	$ 1,468,361,346	2,365,117	2,991,243	0	0	6,449	1,467,728,771

[1] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed represent only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. The December 2021 beginning fund balance of $(29,939) reflects activity that occurred in October and November 2021, but was not reported in previous monthly reports. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

[1] This fund is used by the Department of Economic Development (DED) to support the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief for Renters and Landlords Program in Missouri). It was established in fiscal year 2021 primarily for spending federal COVID-19 assistance from another federal act; however, in June 2021 the DED made a one-time use of the fund to receipt $107,860,095 in ARP Act awards due to grant drawdown and budgetary timing challenges. All receipts were fully disbursed in August 2021.

[2] Historically, the Department of Public Safety (DPS), State Emergency Management Agency (SEMA) uses this fund to account for state emergency grants unrelated to the ARP Act. However, for the fiscal year ending June 30, 2022, the DPS-SEMA is also using this fund to account for up to $1,858,226 in ARP Act funding for emergency management performance grants (to support the Missouri Information Analysis Center, the Missouri Interoperability Center, and local emergency management agencies). The receipts, disbursements, and beginning and ending fund balances listed represent only the ARP Act activity within this fund. In addition, the beginning and ending fund balances could occasionally be negative if the DPS-SEMA makes disbursements in advance of the related drawdown of federal funds. This fund is excluded from Appendix C because its appropriation authority, House Bill 8 section 330, does not distinguish between ARP Act and non-ARP Act activity.

Missouri State Auditor

CITIZENS SUMMARY

Findings in the audit of Clay County

Annex Project	The former County Commission did not openly discuss and document key decisions regarding the county annex project, county procurement policies were not followed, and the county allowed one commissioner to approve millions of dollars in contracts related to the project.
Additional Compensation	The former County Commission approved a 2-year employment contract with the former County Administrator and 1-year employment contracts with the former Assistant County Administrators that automatically renewed and included generous severance payments, and the former County Commission executed separation agreements with each of those employees upon their resignation that provided additional severance benefits beyond the benefits outlined in the employment agreements. The county did not comply with Internal Revenue Service guidelines for reporting the value of the rent-free housing fringe benefits as income, and has not established a policy for providing housing to county employees.
Closed Meetings	The county did not fully comply with the Sunshine Law regarding closed commission meetings.
Personnel and Payroll Controls and Procedures	Employee pay rates were not always authorized in the county pay plan and/or documented in employee personnel files, and some employee job titles are not included in the county pay plan. Former county personnel did not always submit employment change forms timely. The county does not ensure supervisors prepare employee performance appraisals in accordance with county policy.
County Contracting and Payment Procedures	The county did not have adequate procedures to verify invoiced prices against contract amounts when the county used either (1) an existing cooperative agreement/contract between the contractor and another government jurisdiction or (2) the county's term and supply contract with a vendor. Written contracts were not entered into timely and county personnel did not obtain sufficient documentation to ensure that a not-for-profit organization used county funds in accordance with contract terms.
Procurement Procedures	The county did not solicit proposals for some professional services as required by county code. County personnel did not maintain adequate documentation to support how they selected the bridge engineering services vendor and did not always comply with county procurement policies regarding the composition of selection committees and the completion of surveys by selection committee members. The county used the same provider to serve as both financial advisor and underwriter for the issuance of the Certificates of Participation.
Expenditures and Purchasing Cards	The county made a $20,000 prepayment on November 29, 2018, to an information technology service provider but did not ensure the amount was applied to its outstanding balance or used to reduce subsequent payments. The county spent approximately $5,000 on food purchases for 5 events that may not have been a prudent, reasonable, or a necessary use of county funds, and the county does not have a written employer-provided food policy governing the allowability of events and documentation

	requirements. The Highway Department does not reconcile fuel usage to billings. County controls and procedures over purchasing cards need improvement.
Smithville Lake	Parks Office personnel do not always maintain change funds at constant amounts. Parks and Recreation Department practices for providing discounts for Smithville Lake fees are inconsistent or contrary to county ordinance.
Information Technology	The county does not have a plan for resuming normal business operations and recovering computer systems and data in the event of a disaster or other extraordinary situations, does not periodically test for recovery of data from backup files, has not developed records management and retention policies in compliance with published guidance, and has not always retained email and text messages in accordance with requirements.
Contract Approvals and Capital Assets	The County Auditor was unable to review county contracts. The County Auditor did not perform complete annual inventories of county-owned property.
County Boards	Some county boards did not properly prepare or approve meeting minutes. Budgets prepared by various boards did not contain all required elements. The Children's Services Fund Board does not adequately monitor its activities for potential conflicts of interest.
Additional Comments	Because counties are managed by several separately-elected individuals, an audit finding made with respect to one office does not necessarily apply to the operations in another office. The overall rating assigned to the county is intended to reflect the performance of the county as a whole. It does not indicate the performance of any one elected official or county office.

In the areas audited, the overall performance of this entity was **Poor**.*

All reports are available on our website: auditor.mo.gov

***The rating(s) cover only audited areas and do not reflect an opinion on the overall operation of the entity. Within that context, the rating scale indicates the following:

Excellent: The audit results indicate this entity is very well managed. The report contains no findings. In addition, if applicable, prior recommendations have been implemented.

Good: The audit results indicate this entity is well managed. The report contains few findings, and the entity has indicated most or all recommendations have already been, or will be, implemented. In addition, if applicable, many of the prior recommendations have been implemented.

Fair: The audit results indicate this entity needs to improve operations in several areas. The report contains several findings, or one or more findings that require management's immediate attention, and/or the entity has indicated several recommendations will not be implemented. In addition, if applicable, several prior recommendations have not been implemented.

Poor: The audit results indicate this entity needs to significantly improve operations. The report contains numerous findings that require management's immediate attention, and/or the entity has indicated most recommendations will not be implemented. In addition, if applicable, most prior recommendations have not been implemented.

NICOLE GALLOWAY, CPA
Missouri State Auditor

County Commission
and
Officeholders of Clay County
Clay County, Missouri

The State Auditor was petitioned under Section 29.230, RSMo, to audit Clay County. We have audited certain operations of the county commission, county boards, and county officials in fulfillment of our duties. The county engaged Cochran Head Vick & Co., P.C., Certified Public Accountants (CPAs), to audit the county's financial statements for the year ended December 31, 2018. To minimize duplication of effort, we reviewed the CPA firm's audit report. The scope of our audit included, but was not necessarily limited to, the year ended December 31, 2018. The objectives of our audit were to:

1. Evaluate the county's internal controls over significant management and financial functions.

2. Evaluate the county's compliance with certain legal provisions.

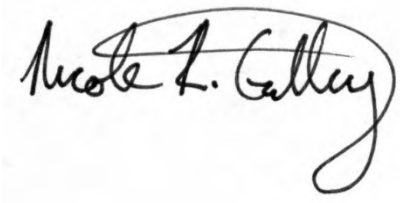
3. Evaluate the economy and efficiency of certain management practices and procedures, including certain financial transactions.

We conducted our audit in accordance with the standards applicable to performance audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides such a basis.

The accompanying Organization and Statistical Information is presented for informational purposes. This information was obtained from the county's management and was not subjected to the procedures applied in our audit of the county.

For the areas audited, we identified (1) deficiencies in internal controls, (2) noncompliance with legal provisions, and (3) the need for improvement in management practices and procedures. The accompanying Management Advisory Report presents our findings arising from our audit of the Clay County Commission and boards. No findings resulted from our audit of the County Assessor, Prosecuting Attorney, or County Treasurer.

We previously issued the following reports for other officeholders: *Clay County Clerk*, report number 2020-018, issued April 2020; *Clay County Recorder of Deeds*, report number 2020-026, issued June 2020; *Clay County Public Administrator*, report number 2020-032, issued June 2020; *Clay County Collector*, report number 2020-114 issued December 2020; and *Clay County Sheriff*, report number 2021-032, issued June 2021.



Nicole R. Galloway, CPA
State Auditor

Clay County
Introduction

Background

The State Auditor's Office (SAO) was petitioned by the citizens of Clay County to conduct an audit. We began fieldwork for the audit of Clay County in December 2018, and completed fieldwork in July 2021. Upon the announcement of our petition audit of Clay County and throughout our engagement, the SAO received several concerns from Clay County citizens regarding the handling of government operations by the former County Commission. We considered these concerns as part of the audit. While the audit was brought about by petition from Clay County voters under state law, the former County Commission[1] acted to prevent the SAO from fulfilling its statutory duties to conduct the audit.

County impeded audit

These actions included filing a lawsuit to prevent the State Auditor from conducting a comprehensive review, providing limited information to the SAO, and only providing access to county records after a judge ordered the county to provide the documents in an action by the SAO to enforce its subpoenas. Full access to county records was only provided after two new County Commissioners took office in 2021. As a result, delays occurred in completing the audit. The former County Commissioners (Gene Owen and Luann Ridgeway), forming a voting majority of the County Commission, approved county legal efforts to deny the SAO access to records and information. A summary of significant events in our efforts to obtain information for the audit follows:

- At the beginning of the audit, between December 19, 2018, and January 30, 2019, the SAO submitted to the county, on several occasions, lists of needed records and information. While county officials provided certain requested documents and data during this period (some after delays and repeated requests), they refused to provide closed meeting minutes.

- On January 31, 2019, because access to the complete record of closed minutes is essential to properly perform a public sector audit, the SAO issued a subpoena to the county to produce these records. (see Appendix A). On the same day, the county filed a lawsuit[2] to prevent the State Auditor from conducting a comprehensive review of Clay County.

- On February 4, 2019, because of the active litigation regarding the SAO's ability to perform the audit, the SAO temporarily paused fieldwork in the

[1] References to the "former County Commission" throughout this report refer to the County Commission prior to January 2021, comprised of Presiding Commissioner Jerry Nolte (elected November 2014), Commissioner Luann Ridgeway (elected November 2012 and re-elected November 2016), and Commissioner Gene Owen (elected November 2012 and re-elected November 2016). Commissioners Ridgeway and Owen retired in December 2020, while Commissioner Nolte was re-elected in November 2018 and began serving another 4 year term in January 2019.

[2] *Clay County Commission v. Galloway*, No. 19AC-CC00055 (19th Cir. Ct., 2019).

county. One week later, the SAO filed a motion to dismiss the lawsuit, seeking to bring a quick resolution to the dispute.

- On October 23, 2019, the Circuit Court of Cole County, Missouri, dismissed the former County Commission's lawsuit (see Appendix B). The former County Commission, through its attorney, continued to file motions with the court.

- On October 31, 2019, the SAO outlined, in a letter to the county, requests previously made in December 2018 and January 2019, that remained outstanding, as well as additional information needed for the audit. This information included 2019 unredacted closed meeting minutes and the expected production dates for each request beginning November 7, 2019.

- On November 6, 2019, the former County Commission, through its attorney, responded to the SAO indicating it was reviewing the requests to determine whether any were objectionable and would notify the SAO if it believed that the requests exceeded the State Auditor's authority. The county did not produce the unredacted closed meeting minutes or the other records requested to be produced on November 7, 2019.

- On November 8, 2019, because the county failed to produce the records, the SAO served a second subpoena requesting the records as well as requiring Assistant County Administrator (ACA) Nicole Brown (the ACA responsible for Public Services and the Custodian of Records) to provide testimony regarding the same on November 25, 2019, (see Appendix C). The former County Commission, through its attorney, indicated the records with a requested production date of November 21, 2019, including various personnel records, would not be provided. As a result, on November 22, 2019, the State Auditor served a third subpoena to Clay County requiring the county to turn over requested documents and Ms. Brown to provide testimony concerning the same on December 11, 2019. (see Appendix D).

- On November 25, 2019, Ms. Brown did not appear for her transcribed interview required by the November 8, 2019, subpoena.

- On December 4, 2019, the State Auditor filed a petition in the Circuit Court of Clay County to enforce the November 8, 2019, subpoena (subpoena enforcement case) (Appendix E).[3] While this case was pending, the SAO continued its fieldwork in the county.

[3] *Galloway v. Clay County*, No. 19CY-CV12168 (7th Cir. Ct., 2020).

- On December 12, 2019,[4] Ms. Brown did not answer questions from the auditors as required by the November 22, 2019, subpoena.

- On December 20, 2019, the State Auditor amended the petition in the subpoena enforcement case to include enforcement of the November 22, 2019, subpoena (Appendix F).

- On February 18, 2020, the former County Commission filed an appeal with the Missouri Court of Appeals of the former County Commission's lawsuit.

- On February 27, 2020, the SAO filed a motion for an expedited hearing in the subpoena enforcement case.

- On October 23, 2020, the Circuit Court of Clay County issued a judgement in the subpoena enforcement case in favor of the SAO requiring the county to comply with subpoenas and provide to the SAO, within 10 days, meeting minutes and personnel performance appraisals. (see Appendix G).

- On October 26, 2020, the county filed a motion with the circuit court to amend the deadlines in the court order.

- On November 3, 2020, Clay County voters elected Megan Thompson and Jon Carpenter as County Commissioners.

- On December 1, 2020, the former County Commission filed an appeal with the Missouri Court of Appeals of the subpoena enforcement case.

- In December 2020, the county provided responses to many outstanding questions previously posed by audit staff related to county expenditures. Officials provided these responses and supporting records only a few weeks prior to the retirement of 2 of the 3 County Commissioners (Ridgeway and Owen) and resignation of several key members of the Clay County administration, including the 3 ACAs. In addition, the ACA's 2020 severance and settlement agreements included provisions that the county would compensate each ACA at a daily rate of $500, and other personnel at $300 per day, for any information and/or assistance provided the county in connection with the SAO audit after their resignation, or they would not be expected to cooperate at all. These agreements also allowed for "at least 21 days' notice of any request for cooperation."

[4] The deposition was rescheduled from December 11 to December 12, 2019, due to scheduling conflicts.

- On December 29, 2020, the Court of Appeals, Western District, affirmed the dismissal of the County Commission's lawsuit. (see Appendix H).

- In January 2021, after the change in commissioners and administration, the county began the process to withdraw from all pending litigation against the State Auditor. The County Commission appointed as County Counselor, the attorney who formerly served in that position and reappointed the newly appointed County Clerk as Custodian of Records.

- On February 22, 2021, the County Commission filed a voluntary dismissal of their appeal of the subpoena enforcement case and the Missouri Court of Appeals dismissed the appeal.

- In March 2021, at the county's request, the State Auditor served a final subpoena to Clay County after which the county provided unredacted closed meeting minutes and personnel records (records initially requested in December 2018 and October 2019, respectively) (see Appendix I).

While SAO personnel worked as effectively and efficiently as possible given the difficulties encountered, the delays increased audit costs. We notified the former County Commission on June 17, 2020, that the audit costs would likely exceed our original estimate. The reasons for the additional costs included delays due to the withholding of certain records by the former County Commission and the overall number of concerns. Additionally, the delays significantly extended the period of time subsequent to the audit period and thereby increased our audit work to review significant events and transactions during that extended period.

Significant actions taken by the former County Commission

During the period reviewed, the former County Commission voted on the following significant actions in votes of 2 to 1 with former Commissioners Ridgeway and Owen voting in favor and Presiding Commissioner Nolte voting opposed.

Certificates of Participation

On October 15, 2018, the former County Commission authorized the issuance of approximately $49 million in Certificates of Participation (COPs) to (1) acquire, improve, construct, furnish, and equip various county buildings; (2) improve various park facilities; (3) improve county roads and bridges and existing buildings; and (4) pay the issuance cost of the COPs.

Lease participation certificates are a method of financing a capital project whereby a financial institution sells interests in the capital project, leases the project to a public entity, and repays the certificates with the lease payments. After the certificates have been repaid, the local government typically has the option to purchase, at a nominal amount, the capital project it has been leasing. Lease participation certificates are not required to be approved by

county voters and can carry higher borrowing costs than traditional bond financing.

The county's annual lease payments average approximately $3.7 million through May 1, 2038. The interest rate on the certificates range from 2.95 percent to 5 percent. The county's proposed use of this funding included improvements to the existing administration building, Shrader building, golf courses, historic sites, marinas, and parks, as well as approximately $20 million to acquire land and construct a new annex building.

As of April 30, 2021, more than 2 years after issuance of the COPs, the county had spent approximately $18 million of this funding on the new annex, golf courses, bridges and culverts, electrical and bathroom upgrades, marinas, vehicles and equipment, trails and trailheads, historical buildings, parking lots and roads, and playgrounds.[5]

New annex building

In August 2019, the former County Commission acquired land on which to construct the new annex building for approximately $2.1 million, and from March 2019 to April 2021 the county incurred costs totaling approximately $1.4 million for site selection, architectural, engineering, and legal services related to the new annex. In addition, the former County Commission contracted for project management services in December 2019 totaling approximately $745,000 and construction services in August 2020 totaling approximately $9.6 million and paid costs totaling approximately $1.4 million through April 2021. The annex was expected to be completed in 2022. In January 2021, after 2 new commissioners took office, the County Commission decided to pause the project. The project manager then exercised a clause in the contract allowing him to void the contract, effectively stopping it.

Public participation in meetings

In December 2017, the former County Commission eliminated public comments at regular commission meetings by removing that agenda item and replacing it with a public comment period held on the third Friday of each month. Commissioners were not required to attend those meetings and, if in attendance, were not expected to make comments or respond to comments from citizens.

County administrators

Until his resignation in July 2018, the county employed a county administrator, Dean Brookshier, as the senior appointed official of the commission and chief budget officer of the county with broad responsibility to direct and manage all county operations, facilities, and personnel under the

[5] In September 2021, due to the termination of the new annex building project, the county issued COPs totaling approximately $18 million to refund (along with other available county funds) the 2018 COPs.

jurisdiction of the commission. After his resignation, the former County Commission delegated the duties/responsibilities of that position to the 3 ACAs - Laureen Portwood, Nicole Brown, and Brad Garrett - and executed employment agreements with them that provided compensation and pay increases from their previous salaries as follows:

- ACA Portwood received a raise of $32,387, effective November 15, 2018, for a total salary of $140,267.
- ACA Brown received a raise of $25,841, effective November 15, 2018, for a total salary of $111,974.
- ACA Garrett received a raise of $17,230, effective November 15, 2018, for a total salary of $103,363.

Also, the former County Commission provided rent-free housing to ACA Brown and ACA Garrett. The former County Commission did not fill the vacant county administrator position.

Severances and settlements

The former County Commission approved separation and settlement agreements with the County Administrator in July 2018 and each of the 3 ACAs and 3 other employees (Public Relations and Events Manager, Tourism and Project Development Manager, and Human Resources Manager) in December 2020 that provided for large severance and/or settlement payments to the employees upon their resignations. The separation agreements in December 2020 indicated the employees had claims against the county for harassment, discrimination, retaliation, hostile work environment, civil rights violations, abuse of process, and/or ethical misconduct and provided for settlement payments to the employees of $50,000 to each of the 3 former ACAs and $73,582, $48,582, and $23,669 for the Public Relations and Events Manager, Tourism and Project Development Manager, and Human Resources Manager, respectively. The agreements also required the county to pay the legal fees of the employees, which totaled $19,530.

In addition, the separation agreements with the former County Administrator and ACAs provided for severance payments of 15 months' salary totaling $196,613 for the County Administrator and 4 months' salary totaling $38,833, $48,645, and $35,846 for ACAs Brown, Portwood, and Garrett, respectively. The former County Commission approved the separation agreements in closed meetings.

Custodian of records

In February 2017, the former County Commission voted to appoint the former County Administrator as Custodian of Records, removing this duty from the County Clerk's office. This is a duty assigned to that office in many other

counties.[6] In July 2018, upon the County Administrator's resignation, the former County Commission delegated this duty to ACA Nicole Brown. Because the County Commission reestablished the County Clerk as the Custodian of Records in 2021, we made no recommendations related to this issue.

External legal counsel

The former County Commission contracted with outside law firms for services that had been previously performed by county personnel. In June 2016, the county hired a law firm to consult with the county regarding Sunshine Law requests, assist in developing a process for handling these requests, and handle any related litigation. The County Clerk's office previously handled Sunshine Law requests with legal guidance from the in-house County Counselor. In December 2017, the former County Commission decided to terminate the county-employed County Counselor Kevin Graham, and engaged a law firm, to act as County Counselor. Payments to this firm totaled approximately $2.2 million from March 14, 2017, through December 31, 2020, including travel, legal defense on lawsuits (including those filed against the SAO), and routine legal work (e.g. attending County Commission meetings). Payments to the firm providing Sunshine Law services totaled approximately $480,000 from May 2, 2017, through December 31, 2020.

Sheriff's budget

On January 28, 2019, the former County Commission reduced appropriations (approximately $700,000) used by the Sheriff's office to pay vendors for inmate food and healthcare costs. On April 19, 2019, the Sheriff filed a lawsuit against the former County Commission regarding the inadequacy of his 2019 budget. Because the appropriations were insufficient to cover costs, the Sheriff's office could not pay some invoices for inmate food and healthcare costs until settlement of the lawsuit. On August 29, 2019, the court ordered the former County Commission to allocate and budget an additional approximately $1 million to cover the Sheriff's financial obligations (see Appendix J). The former County Commission subsequently appealed the decision but on December 5, 2019, the Appeals Court affirmed the previous ruling in favor of the Sheriff (see Appendix K), including awarding legal fees because of the county's bad faith actions with regard to the Sheriff's budget and during litigation before the trial court. Because this issue was resolved by the courts, we made no additional recommendations.

Voters approved changes to county government

In December 2019, the former County Commission voted to place on the ballot a question as to whether a commission should be appointed by the Seventh Judicial Circuit to frame a county constitution to submit to voters. The former County Commission also appointed a Constitutional Charter

[6] Under Section 51.120, RSMo, the clerk's duties include keeping "an accurate record of the orders, rules, and proceedings of the county commission."

Advisory Committee, made up of Clay County citizens, to seek public input on establishing a new charter form of government.

Voters approved a new constitutional charter effective January 1, 2021. On June 2, 2020, the voters approved the establishment of a Constitution Commission composed of 14 citizens selected by the judges of the Seventh Judicial Circuit court tasked with drafting the new Clay County Constitution, and on November 3, 2020, voters approved the proposed constitutional charter drafted by the Constitution Commission. Significant changes to county operations included in the constitutional charter addressed some of the significant actions of the former County Commission previously discussed, including the following:

- Beginning in 2023, the County Commission will be composed of 7 members and their terms limited to serving 2 consecutive, 4 year terms in the same office and a total of 4 terms of 4 years each.

- The office of the County Counselor will continue to exist, be appointed by the County Commission, and filled by a Clay County resident.

- All employment contracts in place prior to January 2021 will be void.

- All contracts executed prior to January 2021 "which were not publicly voted on by the entire County Commission and which may have been entered into under a delegation of authority to a single Commissioner are voidable and may be considered by the County Commission taking office on the first business day of January 2023."

- "Any vote of the County Commission necessary for the issuance or obligation of debt in an amount which exceeds fifteen (15%) percent of the County's prior year's revenues shall require a supermajority[7] of the County Commission."

- "The Commission shall hold its meetings at such times and places as will allow the general public the opportunity to attend and participate in such meetings . . . The County Commission shall video record all regular, open, business meetings of the County Commission in which a vote is taken. Such video shall be transmitted live and be immediately available

[7] Once a seven-member County Commission is seated in 2023, any matter requiring a supermajority of the County Commission shall require approval by 5 members of the County Commission, regardless of the number of commissioners voting. Prior to the first business day of January 2023, any matter requiring a supermajority of the County Commission shall require approval by 3 members of the County Commission, regardless of the number of commissioners voting. The Presiding Commissioner may cast a vote on any matter requiring a supermajority of the County Commission.

on a publicly available platform. The County Commission shall also retain such videos as open records, pursuant to Missouri law."

- "The Commission shall hire, based on education and experience in public administration, a professional County Administrator who shall be the chief administrative officer of the County … and shall refrain from activities that undermine public confidence in professional administrators."

- "The officeholders under this Article [Elected Offices] shall be entitled to an appropriate budget allocation for the operation of their respective offices."

Scope and Methodology

The scope of this audit included evaluating (1) internal controls, (2) policies and procedures, and (3) other management functions and compliance requirements in place during, but not limited to, the year ended December 31, 2018.

Our methodology included reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; gathering information regarding various contract awards and expenditures through discussions with various current and past county personnel and reviewing the information obtained; and testing selected transactions.

We obtained an understanding of the applicable controls that are significant within the context of the audit objectives and assessed whether such controls have been properly designed and placed in operation. We also obtained an understanding of legal provisions that are significant within the context of the audit objectives, and we assessed the risk that illegal acts, including fraud, and violation of contract or other legal provisions could occur. To gain an understanding of legal requirements governing contract awards and expenditures, we reviewed applicable state laws; County Code of Ordinances (County Code) and written policies and procedures; and interviewed various individuals.

To evaluate various county procedures for compliance with county, statutory, and federal requirements, and to evaluate the economy and efficiency of certain other management practices and procedures; we performed the following specific tests and procedures:[8]

- We reviewed the site selection and purchase of the new annex land from COPs proceeds.

[8] Due to the nature of our selection methods, the results of our test work cannot be projected to the population.

- We reviewed employment contracts and compensation of the former County Administrator and ACAs, as well as severance and settlement agreements for employees.

- We reviewed all meeting minutes of the County Commission from January 3, 2017, to December 7, 2020, including those provided by the county for 71 closed meetings held. In addition, we reviewed all meeting minutes of the County Commission through our fieldwork completion in July 2021.

- We reviewed personnel files and payroll expenditures for 10 judgmentally selected employees of the Sheriff's office and 20 other judgmentally selected county employees. We made separate selections because separate Human Resource departments are maintained by the Sheriff and the rest of the county. We selected the 30 employees for review based on information provided through our Whistleblower Hotline or communications with other parties.

- We judgmentally selected 15 COPs expenditures (in addition to those noted in the first bullet point) from 2018, 2019, and 2020, including additional costs related to the new annex and other items of interest. Four of the expenditures tested were procured using cooperative contracts and 11 were county-procured contracts, including 6 open purchase orders/term and supply contracts. These expenditures totaled approximately $1.75 million.

- We initially identified and judgmentally selected 10 expenditures from 2018 and 2019 for further review. However, upon scanning more recent expenditures, we identified and judgmentally selected 5 additional payments (to the same vendor for the same contract) made in 2020, to include in our review. As a result, we tested 15 expenditures totaling approximately $384,000 for 11 contracts. Of the 11 contracts, county officials used 4 cooperative contracts of other jurisdictions, procured 5 contracts, and contracted with not-for-profit organizations for the other 2.

- We reviewed the county's solicitation for inmate telephone services in 2018.

- We judgmentally selected and reviewed 39 legal service expenditures totaling approximately $1 million, including 6 expenditures totaling $120,000 paid with purchasing cards, as well as legal service retainers paid in December 2020 totaling $230,000.

- We analyzed purchasing card usage and limits and judgmentally selected and reviewed 25 purchasing card transactions from 2017 to 2019, totaling approximately $13,000.

- On selected days in January 2020, February 2020, and March 2021, we conducted unannounced counts of cash receipts and change funds and reviewed petty cash disbursements, if applicable, at the Camp Branch Parks Office, marinas, airport, Jesse James Farm, and various county departments including the Planning and Zoning, Highway, and Facilities offices.

- We reviewed 10 judgmentally selected contracts for boat slip rentals on Smithville Lake.

- We reviewed county email messages related to specific activities and purchases. We developed an email search protocol with search terms, selected names, and/or email addresses relating to subjects including land, annex, budget, and assessment. Based on the established protocol county personnel searched the email archives and provided us applicable messages responsive to our request.

- We reviewed applicable meeting minutes and budgets of various boards.

1. Annex Project

The former County Commission did not openly discuss and document key decisions regarding the county annex project, county procurement policies were not followed, and the county allowed one commissioner to approve millions of dollars in contracts related to the project. These actions contributed to a lack of support for the project by the current County Commission and county citizens, and at least $2.8 million in costs incurred that may not be recovered.

Transparency of decisions

The former County Commission approved various annex project actions without publicly discussing the key decisions, and as a result, there was little opportunity for public involvement in the decision to construct the new annex building. As information became known to the public about the proposed land purchase, new annex construction and debt issued to pay for it, residents expressed concerns. Various news media reported there was strong public opposition to the annex project and land acquisition expressed at commission meetings in June, July, and August 2019. Despite the concerns, the former County Commission approved the acquisition of land and engineering, architectural, project management, and other services for the project.

In December 2016, the county contracted with an architect to perform a countywide facilities assessment. In September 2017, the architect provided a report that included 3 options for the county to consider to address its needs for office space. One of the options called for constructing a new county office building (i.e. new annex) to house the offices of the Assessor, County Collector, County Auditor; some Sheriff personnel; event space; meeting rooms; and to allow space for future growth. Other options presented involved either relocating some offices to leased space or various building renovations and office reorganizations and relocations.

Although an architect's assessment of the office space needs of the county was publicly reported as the basis for new annex plans of the former commission, we identified no indication in meeting minutes of any discussion, resolution, ordinance, or other decision related to the architect's report. Additionally, we identified no documented public decisions, votes, or discussions by the former County Commission in commission meetings about building a new annex or the funding for the project until October 2018, when the former County Commission voted to issue COPs for projects including the estimated $20 million new annex building.

The two Commissioners[9] elected to replace Commissioners Ridgeway and Owen agreed with Presiding Commissioner Nolte, during the first meeting of the new County Commission on January 4, 2021, to pause the new annex

[9] Commissioners Jon Carpenter and Megan Thompson were elected in November 2020 and took office in January 2021.

project, temporarily stop incurring any new expenditures, consult with bond counsel, and evaluate the county's options. Each of the new Commissioners expressed concerns about whether the project was needed and its location. After the county notified the project manager of its desire to pause the project, the project manager voided the contract and work on the new annex stopped.

According to the Interim County Administrator, the county intends to consider repairing and updating the old annex and/or other additional projects, and the county hopes to eventually sell the land. However, approximately $2.8 million in costs incurred and paid for site selection, legal, engineering, architectural, construction, and project management services may not be recovered.

Site study and land purchase

The former County Commission did not maintain adequate documentation of the site selection process. As a result, it is not clear how the county determined the site purchased to be the most suitable site for the new annex or if the former County Commission considered any recommendations made by the engineering firm hired and paid to evaluate building sites.

On October 29, 2018, in closed session, the former County Commission authorized hiring an engineer to evaluate sites for the new annex. The engineer evaluated six potential sites. The engineer indicated that his firm determined 5 of the sites to evaluate and former ACA Brown (upon request from one of the commissioners) directed them to consider an additional site. The additional site, in Gladstone, was owned by an individual that was reported in the news media[10] to be an acquaintance of former Commissioner Owen. The engineer issued a report to the county dated May 6, 2019, scoring the suitability of each of the six sites. The evaluation cost $61,154.

On May 13, 2019, in closed session, the former County Commission authorized the negotiations for purchase of 2 different properties, and, according to commission meeting minutes, no description or location of these 2 properties was disclosed publicly in an open meeting, until June 3, 2019. On that date, the former County Commission drafted resolutions for consideration on the purchase of each of the two properties, the Gladstone property, which ranked third in the engineer's study, and another property located on North Brighton in Kansas City that was not among the original 6 properties studied by the engineer. The meeting minutes made no mention of the engineer's report. The news media[10] reported that, in June 2019, Commissioner Owen offered to recuse himself from votes regarding the Gladstone site due to his relationship with the owner and he had researched the North Brighton property as an alternative.

[10] News media reporting disclosed certain information about the sites and purchase process that was not disclosed in county records reviewed by the SAO.

County officials could provide no other documentation explaining how the North Brighton property was determined to be considered for the annex project or how the site compared to the other properties using the evaluation criteria developed by the engineer. On July 23, 2019, in closed session, the former County Commission authorized negotiations for the purchase of the North Brighton property.

On August 28, 2019, in open session, the former County Commission approved the purchase of the North Brighton property for approximately $2.1 million. The engineer indicated a second evaluation was performed that included the North Brighton property, but neither he nor the county could provide a copy of the study, and there were no discussions of this second study in either the open or closed meeting minutes. The engineer billed for the additional site study in October 2019 (work completed through September) and December 2019 (work completed through November), after the land purchase was approved, at a total cost of $36,103. Ultimately, the county closed on the purchase of the property on July 15, 2020, after extending the closing date several times.

Selection of architect/engineer

Former county officials did not follow the county's procurement policy when selecting the firm for architectural and engineering services for the new annex. They did not use a selection committee and or complete the required surveys to support the selection of the 4 firms awarded the engineering and architectural services term and supply contracts in October/November 2018, including the firm selected for the new annex. At the time of the selection, the county had existing architectural service contracts in place with 3 other firms.

According to a county employee, despite existing term and supply contracts for architectural services, the Purchasing Department "was told to issue another one [Request For Quote] because one of the Commissioners wanted a specific vendor to design the annex." The employee indicated the former ACAs were generally unresponsive to questions about the evaluation process and the Purchasing Department was directed to select 4 vendors and include the vendor ultimately chosen. As a result of this discussion, in September 2018, the Purchasing Department made a recommendation to the ACA - Finance and received confirmation that all 3 ACAs agreed with the recommendation and to proceed with the firm chosen.

Six of the 7 engineering and architectural term and supply contracts were later renewed in 2019 (including the firm selected for the new annex), and County Commissioner Owen approved an agreement (Scope of Work and Fee Proposal) with the annex project architect/engineer on March 6, 2020. The value of the contract totaled approximately $1.2 million. The county paid this firm $955,519 related to the annex project from January 28, 2020, through April 30, 2021.

For the procurement of professional services, County Code Section 37.39 requires forming a selection committee comprised of county personnel from the Purchasing Department and the officeholder or department head using the professional services; the committee members prepare surveys of the proposals received that will be evaluated by the Purchasing Department; and the Purchasing Department negotiates with the highest ranking firm and presents the resulting agreement to the County Commission for approval.

Without a selection committee, subject matter experts are not a part of the selection process, which may limit the county's ability to receive the best available services.

Approval of contracts

Only one commissioner approved approximately $12.3 million in contract awards for the annex project. The ability of former County Commissioner Owen to unilaterally execute new annex project contracts resulted in a loss in transparency of the procurement and contracting process and did not serve any apparent purpose.

Former County Commissioner Owen executed the contract for the architect/engineer and 4 other contracts for the new annex project for geotechnical/surveying/engineering/platting services, project construction, material testing and inspection, and interior finishes. None of these contracts were voted on in any open or closed commission meetings. In addition, it is unclear when the contract approval authority was originally granted to Commissioner Owen and by whom, because no official action of the former County Commission was taken related to this matter until April 6, 2020. At that time, the former County Commission approved Resolution 2020-110 ratifying the prior appointment of former Commissioner Owen as the county's designated representative for the annex project, and ratifying all previous actions taken by former Commissioner Owen. Commissioner Owen approved 2 of the 5 contracts prior to this resolution.

County Code 37.22 indicates the County Commission shall make the final bid award and has sole authority to obligate the county. Having all commissioners involved in the execution of significant contractual obligations, such as that for a $20 million building project, is a necessary business practice to ensure all decisions are appropriate and in the best interest of the county.

Conclusion

The former County Commission's actions of not discussing publicly and not documenting much of its considerations and decisions about the annex project and failing to follow county procurement and contract approval procedures contributed to a lack of support for the project.

The slow progression and stoppage of the project has resulted in an inefficient use of the 2018 COPs proceeds. When the county paused the project in January 2021, the 2018 COPs issued for construction of the new annex (and

other county projects) had been outstanding and accruing interest for more than 2 years. In addition, the county will derive little or no benefit from the costs incurred for annex project site selection, legal, engineering, architecture, construction, and project management services for the annex totaling approximately $2.8 million.

Transparent decisions, community support, and consent among the decision-makers are generally needed for large projects to proceed economically and efficiently. Clear documentation to support decisions made is important to establish trust and maintain support. The lack of transparency and documentation supporting the decisions made by the county did not create the requisite trust among stakeholders - taxpayers, vendors, government officials - for the project to succeed. According to the Government Finance Officers Association: "The underlying reason for transparency is to help create trust among citizens, government administrators, and elected officials … people gauge trust primarily through competence (ability to accomplish goals and perform tasks) and values (underlying motives) … helping citizens understand the decision-making process is important for government officials to demonstrate competence and good values"[11] and "when citizens believe that decisions are fact based and take all concerns into consideration, they are more likely to support those decisions."[12] Also, the county has a fiduciary responsibility to ensure that public funds are used effectively.

Recommendation

The County Commission openly discuss and maintain adequate documentation to support decisions made, follow county procurement policy, and involve all commissioners in the approval of significant contracts.

Auditee's Response

The County Commission provided a written response. See Appendix L.

2. Additional Compensation

The county approved employment contracts that automatically renewed and included significant severance payments. In addition, the procedures for county-provided housing need improvement.

2.1 Employment contracts and severance

The former County Commission approved a 2-year employment contract with the former County Administrator and 1-year employment contracts with the former ACAs that automatically renewed and included generous severance payments. In addition, the former County Commission executed separation agreements with each of those employees upon their resignation that provided additional severance benefits beyond the benefits outlined in the employment agreements.

[11] Government Finance Officers Association, *Transparency: A Means to Improving Citizen Trust in Government*, January 2018, <https://www.gfoa.org/materials/transparency-a-means-to-improving-citizen-trust>, accessed August 6, 2021.
[12] Government Finance Officers Association, *Code of ethics*, <https://www.gfoa.org/ethics>, accessed August 6, 2021.

Employment contracts

The former County Administrator's contract,[13] approved in closed session and effective from April 1, 2017, through March 31, 2019, contained automatic renewals for additional 2 year periods and provided for severance payments equal to 18 months' salary[14] if the county terminated him without cause or asked him to resign, or 12 months' salary[15] if he voluntarily resigned and provided at least 90 days' notice. The contracts with the former ACAs, approved in closed session and effective from November 15, 2018, through November 15, 2019, contained automatic renewals for additional 1-year periods, and provided for severance payments equal to 12 months' salary[16] if the county terminated the employee without cause or asked the employee to resign, or 3 months' salary if the employee voluntarily resigned and provided at least 4 weeks' notice.

The automatically renewing contracts for the ACAs essentially guaranteed they would receive severance payments if terminated by the employer without cause or upon the employee's voluntary resignation because the contracts never expired. The former County Administrator's contract allowed the county to stop the automatic renewal by giving 365 days of notice, so the contract could potentially expire, but the default auto renewal and length of the advanced notice requirement increased the possibility that he would receive severance pay. No other county officials or employees had multi-year or annual automatically renewing employment agreements.

Severance paid upon separation

The county did not maintain documentation to support additional severance provided to the former County Administrator and ACAs. Upon the resignation of the former County Administrator in July 2018, and the three former ACAs in December 2020, the former County Commission approved separation agreements with each of the employees that provided an additional 3 months' severance for the former County Administrator and an additional 1 month of severance to each of the former ACAs. These severance payments were in addition to the amounts provided in the employment agreements, and the separation agreements waived the required termination notice requirements in the original employment agreements. For the County Administrator, the separation agreement also provided for an additional 3 months of county-provided health insurance.

[13] The April 2017 agreement indicates the purpose of the agreement was to both renew a previous agreement and settle the former County Administrator's claims against the county for hostile work environment and breach of contract.

[14] The county would also continue to provide and pay its portion of the cost to continue for 18 months the health insurance, short term disability insurance, long term disability insurance, and life insurance in effect at the time of termination.

[15] The county would also continue to provide and pay its portion of the cost to continue for 12 months the health insurance in effect at the time of termination.

[16] The county would also continue to provide and pay its portion of the cost to continue for 12 months the health insurance in effect at the time of termination.

The separation agreements for the 3 ACAs indicated that each of the ACAs had claims against the county for harassment, and provided a $50,000 settlement for those claims, in addition to the severance benefits. The Clay County Human Resources Policy Manual does not provide for severance payments to county employees upon termination.

Conclusion

Under Missouri law, unless otherwise provided, employment is generally at will. For at-will employees, the county would not be liable or bound to pay an official any substantial compensation or severance benefits after employment is terminated. However, the former County Commission entered into multi-year and annual employment agreements with the former County Administrator and ACAs, respectively, that bound the county to severance payments if their employment was terminated without cause or by employee resignation. In addition, the former County Commission executed separation agreements with each of those employees upon their resignations that provided additional severance payments beyond those provided by the employment agreements.

If considered necessary, employment contracts and separation agreements must be in the best interest of the county. The county has a fiduciary responsibility to ensure that public funds are used effectively.

2.2 County housing

The county did not comply with Internal Revenue Service (IRS) guidelines for reporting the value of the rent-free housing fringe benefits as income, and has not established a policy for providing housing to county employees.

In 2017, the county executed lease agreements with 5 county employees for rent-free county housing for as long as they were employed by Clay County in exchange for on-call services. The county leased 4 Smithville Lake houses to an ACA, 2 park rangers, and a highway employee. As part of the agreements, the employees were required to provide "on call" services at the county parks for no less than 6 months or snow removal services. The county also leased an apartment at one of its historic sites, rent-free, to another ACA in exchange for similar services. The former County Commission authorized the former County Administrator to enter into these leases on May 1, 2017, in closed session. According to the Human Resources Manager, as of May 2021, the 2 former ACAs, as well as, most of the other employees have left the county housing or are in the process of leaving county housing.

The county had no policy authorizing such rentals to employees or establishing any guidelines about the process, and the county did not report the value of the rent-free housing fringe benefit to the IRS on the employees' W-2 forms. County personnel could not explain why the benefits were excluded from W-2 forms.

IRS Publication 15-B states that any fringe benefit provided by an employer is taxable and must be included in the employee's pay unless excluded by law. IRS publication 15-B[17] allows the exclusion from income of lodging provided employees if all of the following 3 tests are met (1) the lodging is on employer premises, (2) is furnished at the employer's convenience, and (3) is accepted by the employee as a condition of employment. However, we found no provision in either the lease agreements of the 5 employees or the employment contracts for the 2 former ACAs requiring the employees to accept the county housing as a condition of employment. The IRS publication also indicates the fringe benefit value of the lease is its fair market value or the amount an employee would normally have to pay to lease the residence.

A county housing policy is necessary to ensure compliance with IRS guidelines and to help ensure equitable treatment among employees. By not properly reporting the value of fringe benefits on employee W-2 forms, the county could potentially be subject to IRS penalties.

Recommendations

The County Commission:

2.1 Refrain from entering into automatically renewing employment contracts and separation agreements with additional severance amounts, and consider the necessity of severance payments.

2.2 If housing for county employees is considered necessary, establish a county housing policy and ensure the housing is properly reported as taxable wages, if applicable. In addition, the County Commission should consult with legal counsel and consider amending previous year employee W-2 forms, as appropriate.

Auditee's Response

The County Commission provided a written response. See Appendix L.

3. Closed Meetings

The county did not fully comply with the Sunshine Law regarding closed commission meetings.

Meeting minutes

The county could not provide minutes for the closed meeting on November 28, 2017, or unredacted minutes for 10 closed meetings from January 3, 2017, through July 27, 2017. The county redacted portions of those minutes that the County Counselor indicated were attorney-client privileged matters in conjunction with its lawsuit with the State Auditor's Office. After the lawsuit was resolved in 2021 and the county agreed to provide unredacted minutes, the County Clerk could not locate some of the original unredacted minutes.

[17] Department of Treasury, Internal Revenue Service, *Publication 15-B, Employer's Tax Guide to Fringe Benefits, For use in 2021*, February 5, 2021, <https://www.irs.gov/pub/irs-pdf/p15b.pdf>, accessed June 21, 2021.

As a result, it is not clear whether the discussions at those meetings related to allowable topics.

Allowable topics

Some topics voted on in the closed meetings were not specifically allowable under the Sunshine Law. Closed commission meeting minutes indicated custodial service, legal representation, and financial planning contracts were terminated in closed session in June 2017, July 2017, and January 2018, respectively.

Conclusion

Missouri's Sunshine Law, Chapter 610, RSMo, provides for transparency and openness of government. Section 610.020.7, RSMo, requires minutes of meetings be maintained as a record of business conducted and to provide an official record of actions and decisions, including the date, time, place, members present, members absent, and a record of any votes taken. The minutes need to provide sufficient details of discussions to demonstrate compliance with statutory provisions and support important decisions made. Section 610.021, RSMo, lists the topics that may be discussed in closed meetings. Section 610.022.3, RSMo, mandates that the discussion topics and actions in closed meetings must be limited to only those specifically allowed by law as announced in justification for closing the meeting.

Recommendation

The County Commission maintain complete minutes for all closed meetings and ensure only topics allowed by state law are discussed in closed meetings.

Auditee's Response

The County Commission provided a written response. See Appendix L.

4. Personnel and Payroll Controls and Procedures

County personnel and payroll controls and procedures need improvement. Payroll expenditures totaled approximately $26.1 million in 2018, $26.4 million in 2019, and $27.9 million in 2020.

4.1 Pay plan and approved pay rates

Employee pay rates were not always authorized in the county pay plan and/or documented in employee personnel files. In addition, some employee job titles are not included in the county pay plan.

Pay plan

The county pay plan was not complete and did not reflect changes in employee positions and pay rates, including cost of living adjustments. As a result, some pay rates may not be approved.

We found 7 Sheriff's office employees' and 2 other county employees' pay rates exceeded the maximum range adopted in the county 2018 pay plan. In addition, the Airport Manager position was not listed in the county pay plan. The County Auditor noted similar concerns in his 2020 payroll review issued November 2020.

Based on our review of pay plans dating back to 2015, no significant changes have occurred to the pay plan since at least that time. County officials could not explain why pay rates were not in accordance with the pay plan. The former County Commission or a former ACA approved the pay rates for the 3 employees with rates that either exceeded the maximum allowable rate or was excluded from the pay plan. Sheriff's office personnel indicated the former Sheriff approved pay increases above pay plan maximums in order for law enforcement salaries to be competitive.

Approved pay rates for COLA increases

The county did not maintain documentation of all employee approved pay rates or cost of living adjustments (COLA) in employee personnel files. Documentation of the pay increase and approval for the 2018 COLA increases (5 percent) was not included in any of the 10 Sheriff's office employee personnel files reviewed. There was no support for any COLA increases for the Sheriff's office employees reviewed since at least 2016. Sheriff's office personnel indicated this documentation is not necessary because salaries are reflected in the county's payroll system. However, the County Commission only sets a maximum COLA in its annual budget and then requires the expenditure authorities (e.g. Sheriff's office) to determine and document how it is applied. We saw no documentation this occurred for the Sheriff's office employees reviewed.

Conclusion

Section 11 of the county Human Resources Policy Manual states the county pay plan is approved annually as part of the budget process and that the "Commission approves minimum and maximum pay ranges for all County positions." Failing to annually update the pay plan as part of the county budget process limits its effectiveness as a tool to ensure projected payroll expenditures do not exceed approved budgetary appropriations. In addition, without documentation of actual COLA salary increases, there is less assurance payments to employees are proper.

4.2 Employment change

Former county personnel did not submit employment change forms timely for 5 of the 9 employees reviewed who had employment changes in 2018. We found 7 instances of untimely change forms for the 5 employees. The 3 former ACAs supervised all of them. In 3 of the 7 instances, the late submissions resulted in retroactive pay:

- The former Airport Manager received retroactive pay totaling approximately $2,100 in 2019 dating back to his May 2018 promotion. The employment status change form authorizing his promotion in May 2018 was approved in November 2019.

- A park ranger received his uniform allowance retroactive to his November 2016 hiring, totaling $1,288, in February 2018. The employment status change form authorizing the uniform allowance was approved in January 2018. He also received another $81 retroactive

payment in September 2018, upon approval of the employment status change form for his August 2018 promotion.

Employment status change forms require approval/review of the (1) Office Holder/Department Manager, (2) ACA, (3) Chief Budget Officer, and (4) County Human Resources/Payroll. The change form also clearly indicates, in bold type and yellow highlight, that changes must be received in the Human Resources department prior to the effective date of the change. However, a county official indicated the former ACAs did not always comply with this requirement.

Timely approval of employment status changes is necessary to ensure all parties are aware of changes to their compensation and prevent misunderstandings.

4.3 Performance appraisals

The county does not ensure supervisors prepare employee performance appraisals in accordance with county policy. Most Sheriff's office and other county employees selected for review did not have a current appraisal in their personnel file. Sheriff's office personnel indicated they provided us all 2018 appraisals performed of their personnel. However, in 2018, the Sheriff's office had approximately 196 employees, but we received current appraisals for only 23 employees.

Section 7-1 of the county Human Resources Policy Manual states "Employees should receive performance appraisals on an annual basis for purposes of identifying performance levels, development and training opportunities and ensuring appropriate departmental productivity." In addition, Section 7-2 of the manual states "Introductory employees and employees in new positions receive an initial appraisal on or before the end of the introductory period." County personnel could not explain why employees had not received appraisals as required by policy. Performance appraisals are needed to adequately evaluate employee performance and provide documented feedback to employees. Performance appraisals also assist in personnel decisions.

Recommendations

The County Commission:

4.1 Ensure the compensation for all county employees is approved in the annual pay plan and documentation of COLA increases for all county employees are maintained.

4.2 Ensure employment changes are timely approved.

4.3 Ensure documented performance appraisals are performed in accordance with the established policy or modify the policy.

Auditee's Response

The County Commission provided a written response. See Appendix L.

5. County Contracting and Payment Procedures

County contracting, vendor monitoring, and disbursement procedures need improvement.

5.1 Contract pricing

The county did not have adequate procedures to verify invoiced prices against contract amounts when the county used either (1) an existing cooperative agreement/contract between the contractor and another government jurisdiction or (2) the county's term and supply contract with a vendor.

Cooperative agreements/contracts

County personnel did not always verify invoiced prices with cooperative contracted prices. Also, county personnel could not provide price listings or other documentation for various cooperative contracts to support the amounts invoiced and paid.

County Code Section 37.36 allows the use of cooperative procurement programs. The section defines these as competitively bid or procured contracts established by other government jurisdictions that can be used by other public entities.

We identified concerns with the following expenditures the county paid with COPs funding:

- County personnel could not provide documentation to ensure prices paid for 2 large area mowers were in accordance with the cooperative contract price. In July 2019, the county paid $92,500 each for the mowers (excluding destination charges totaling $5,693). The county's Request for Official Action document indicated the county intended to trade in two of its mowers as part of the purchase and the price quote from the vendor indicated a price of $180,693 for the mowers after a $10,000 trade in credit ($90,347 per mower). The sales invoice; however, does not refer to the price quote or indicate any trade-in credit. While former county personnel indicated the prices paid were less than the cooperative contract price of 21.8 percent below the manufacturer's suggested retail price, or $96,007 each, they could not provide documentation of the trade-in credits received or explain why the amounts paid exceeded the price quote.

- County personnel did not review a complete price listing before approving expenditures under a September 2017 bathroom replacement cooperative contract. The only list county personnel could provide included one price for a double vault toilet unit, $26,290. However, in

November 2019 the county purchased 4 units costing $18,025, $23,465, and $47,532 (2 units). Former county personnel indicated "No documented process existed for department level checking at that time. However, . . . Standard Operating Procedures are now in place." This vendor was paid $863,304 for bathroom replacements at county parks from December 2018 through November 2020.

- County personnel did not document their review to ensure the pricing they received for the purchase of 2 skid loaders ($64,542 each) in November 2019, was in compliance with the cooperative contract utilized. The cooperative contract states "pricing is provided in accordance with the applicable percentage discounts off of current list prices," which in November 2019 was listed as 31 percent for the skid loader purchased. When asked how they ensured they received the required discount, former county personnel indicated the "Department may have checked against the original contract. But there is no supporting documentation." Former county officials indicated a standard operating procedure would be used for future purchases.

- County personnel could not provide a price listing for playground equipment purchased in December 2018 ($99,796) to ensure amounts paid were in compliance with the cooperative contract utilized. When asked how compliance was verified, county personnel responded with only a list of procedures for verification, but neither confirmed verification nor provided any additional documentation to support the pricing.

In addition, we noted concerns with the following expenditures paid from non-COPs county funding sources:

- The county Highway Department did not verify rack prices for fuel purchases to ensure the unit price per gallon charged (rack price plus markup) was appropriate. For a May 2018 expenditure tested, the county paid $2.162 per gallon for unleaded and $2.3989 per gallon for diesel fuel. Former county officials indicated "Currently, the vendor sends an email detailing the price the Department will pay for fuel each time an order is placed. In the future, they will include the daily (or rack) price in the email." Fuel purchases totaled approximately $306,000 for 2018.

- The price list provided by county officials for a digital security vendor did not include pricing for all items purchased, including a battery case ($210), noise canceling speaker ($182), an alarm auto dialer ($204), or the hourly cost for programming and project engineering/consulting ($95/hour). In addition, the price listing provided was dated March 2020, more than a year after the November 2018, $21,865 purchase from the

digital security vendor. County officials provided no explanation on how they verified the amounts paid.

- The county used and participated in an existing media consulting contract from the State of Arizona; however, former county officials indicated "prices were not checked against the State of Arizona contract at the time of purchase." For the October 2018 expenditure tested, the county was invoiced $8,083 for marketing ($5,000 for content marketing and $3,083 for various social media ads). While these charges were based on the vendor's June 2018 quote to the county, it is unclear how these charges relate to cooperative contract pricing provisions (i.e. advertising rates and packages). The county paid this firm $95,000 during 2018.

Term and supply contracts

The county paid invoiced amounts that did not agree with amounts listed in the related term and supply contracts for 2 tested expenditures paid from COPs funding. County personnel could not explain why this occurred.

County Code Section 37.42 allows the use of open purchase orders, or term and supply contracts, which it defines as competitively bid or procured "long term contracts for goods or services, purchased on a repetitive basis," generally "based on a fixed per unit price or a percentage discount or from some verifiable list pricing." Once these contracts have been awarded to selected vendors, one of those vendors must then be selected to provide the specific good or service.

- The county paid the new park office building design contractor $79,918 for November 2019 and January 2020 billings. However, hourly rates billed did not agree to the renewed term and supply contract rates. The hourly rate charged for the project manager was lower than any rate listed on the billing rate schedule provided, while the hourly rates charged for other personnel (various levels of engineers, designer/draftsmen, and clerical/administrative personnel) did not agree to applicable rates listed on the schedule (some rates were higher and some were lower).

- Amounts paid exceeded the bid for the restoration of the Jesse James Historical Family Home. The county solicited invitations for bid in May 2018 for the restoration of the building. The county awarded vendors term and supply contracts in August 2018 for 2 contractors and renewed the contracts in July 2019. Bid documentation from the contractor ultimately chosen for the restoration work shows a projected cost of $338,380 for the restoration services, but the county ultimately paid $497,960. The $338,380 generally agrees to the contractor's Application and Certification for Payment (ACP), adjusting for changes made, including a deduction of plaster repair ($82,720) and additions of siding removal and replacement ($127,200), foundation repairs ($79,800), windows ($27,000), and other miscellaneous costs.

Former county personnel indicated the "original bid amount was based on an estimate after a prebid walkthrough of the historic site. Upon being awarded the contract, the contractor was able to do a deeper inspection of the structure and recognized far more significant deferred maintenance. This caused the project scope to expand, which is accounted for by using the fee schedule, and the final project budget was within the $500,000 estimate set out in the bond project budget." County personnel could not provide documentation that any county official approved a change order for the additional work. In addition, the change order summary on the contractor's ACP did not indicate any change orders occurred.

Conclusion

County Code Section 37.23 describes the requisition process, including describing quantities and cost and referencing applicable contracts. In addition, County Code Section 37.78 describes the payment authorization process, including verifying the price billed with the price on the purchase order.

Invoice amounts need to be verified to contract amounts or price listings prior to making payment. Only by reviewing contract amounts or price listings for payments can county personnel ensure the amounts billed for payment are appropriate, accurate, and comply with contract provisions. In addition, maintaining change order documentation is necessary to demonstrate the work was authorized.

5.2 Executed timely

Written contracts were not entered into timely.

The contract for public relations consulting services was not timely executed. In total, this firm was paid $54,000 from March 2020 through December 2020. The contract was not signed by the ACA until April 24, 2020, but the vendor began incurring charges for services provided dating back to November 2019. In addition, one payment of $4,500 on March 27, 2020, preceded the date the ACA signed the contract.

Former county officials indicated signing contracts after the effective date was not an unusual occurrence. To support their claim they provided other contracts executed in 2019 after services began including 5 contracts for contributions to not-for-profit organizations, and one contract to a vendor for testing and certification of the county weather observing system.

Contracts must be executed before work is performed. Under Section 432.070, RSMo, only future consideration for contracts may be considered. Clear, detailed, and timely written contracts are necessary to ensure all parties are aware of the services to be performed and the compensation to be paid for the services.

5.3 Monitoring

County personnel did not obtain sufficient documentation to ensure that a not-for-profit organization used county funds in accordance with contract terms. The county annually provides $75,000 in funding to a not-for-profit organization dedicated to neighborhood improvement and revitalization in Clay and Platte counties.

The contract only requires the entity provide the county a copy of the "current budget." However, the budget expenditure summary provided does not include enough detail for county officials to ensure the funding is spent in accordance with contract terms that require the funds be spent in Clay County with no more than 50 percent spent in one city, and other provisions. Former county officials indicated "Prior to the Clay County Commission adopting the annual budget, outside agencies present to the Commission usage for the previous and upcoming year."

Obtaining documentation supporting compliance with contract terms is necessary to ensure county resources are effectively used and the county's expectations for results are met.

Recommendations

The County Commission:

5.1 Ensure amounts paid on cooperative and term and supply contracts are verified per contract terms and adequate supporting documentation is maintained to support those payments. In addition, use change orders and maintain documentation for all significant project changes.

5.2 Enter into written contracts timely.

5.3 Ensure sufficient documentation is provided to properly monitor contracts and ensure contract provisions are met.

Auditee's Response

The County Commission provided a written response. See Appendix L.

6. Procurement Procedures

County procurement procedures need improvement.

6.1 Requests for proposals for professional services

The county did not solicit proposals for some professional services as required by county code.

Legal services

The former County Commission did not solicit proposals for the following legal services:

- In December 2017, the former County Commission hired a law firm to act as County Counselor. Payments to this firm from 2017 to 2020 totaled approximately $2.2 million.

- In June 2016, the former County Commission hired another law firm to review and respond to Sunshine Law requests and represent the county in court. Payments to this firm from 2017 to 2020 totaled approximately $480,000.

- In November 2020, the former County Commission approved the engagement of a third attorney to oversee the execution of various employee separation agreements. Payments to this firm during December 2020 totaled $9,000.

County officials provided no explanation regarding why the county did not solicit proposals for legal services.

Public relations services

The county did not solicit proposals for public relations consultation services including media relations strategy development, communications campaigns, message development, and issues management and crisis communications. The county paid the firm $54,000 from March 2020 through December 2020. County officials provided no explanation of why the county did not solicit proposals for these services.

Conclusion

County Code Section 37.39 requires use of a formal request for proposal (RFP) process when obtaining professional services. Soliciting proposals for professional services is also a good business practice, helps provide a range of possible choices, and allows the county to make better-informed decisions to ensure necessary services are obtained from the best qualified provider after taking expertise, experience, and cost into consideration.

6.2 Bridge engineering services

County personnel did not maintain adequate documentation to support how they selected the bridge engineering services vendor (paid with COPs funding). The proposal scoring summary prepared in September 2017 indicated the engineer selected ranked fourth of the 10 firms responding to the RFP. Included in the official action approved by the former County Administrator is a statement indicating, "MoDOT has reviewed and supports the award." However, former county personnel indicated no other support is available explaining why that vendor was chosen. The county paid the vendor $114,176 from December 2018 to July 2020.

County policy requires use of a selection committee to evaluate solicitations for professional services. County Code Section 37.39 (6) states, ". . . the purchasing agent/manager shall enter into negotiations with the highest ranking firm. If an agreement is unable to be reached, the purchasing agent/manager shall enter into negotiations with the next highest ranking firm

and so on until either a negotiated agreement is reached or the RFP is cancelled." Further, County Code Section 37.11 states, "All specifications, bid documents, purchase orders and supporting documents are public records . . ." Retaining documentation for the solicitation process for service contracts is necessary to demonstrate compliance with regulations and support decisions made.

6.3 Selection committees and surveys

County personnel did not always comply with county procurement policies regarding the composition of selection committees and the completion of surveys by selection committee members.

Selection committee composition

The selection committee for the county's procurement of an inmate medical service provider included an even number of members instead of the recommended odd number because the committee did not include a member of the Purchasing Department. The county paid this vendor $434,096 during 2019. Also, the selection committee for the solicitation of inmate telephone services did not include someone from the Purchasing Department as required. Committee members for both selections included only Sheriff's office personnel. Another selection committee for audio upgrades to the courtrooms did not have the recommended odd number of committee members. The county paid this vendor $40,185 during 2019.

Former county officials indicated "An odd number of committee members is always preferred and had there been a tie, the Purchasing Department was prepared to assist in breaking that tie."

Survey completion

Selection committee members did not complete surveys after their evaluation of the inmate medical service providers as required. The county maintained an email message from the Sheriff's office explaining the decision to retain the current vendor stating "The Sheriff is recommending that we stay with our current contract and maintain our current annual plan." Former county officials indicated a survey, while preferred, "is not required… in this instance, the attached email (from the Sheriff's office) was sent in place of the completion of surveys, justifying the recommendation of award to satisfaction." However, county policy does not provide for other selection process documentation.

Conclusion

For the procurement of professional services, County Code Section 37.39 requires forming a selection committee comprised of county personnel from the Purchasing Department and the officeholder or department head using the professional services; recommends committees have an odd number of members limited to 7; requires committee members to prepare surveys of the proposals received that will be evaluated by the Purchasing Department; and requires the Purchasing Department to enter into negotiations with the highest ranking firm. Appropriate selection committee composition and the

documentation of surveys is necessary to support procurement decisions made.

6.4 Financial advisor/underwriter

The county used the same provider to serve as both financial advisor and underwriter for the issuance of the COPs. County personnel believed a separate financial advisor was not necessary for COPs funding.

Using the same provider to act in the dual capacity of underwriter and financial advisor for a debt issuance creates an inherent conflict of interest. The lack of independent financial advice could result in the county not being adequately informed of debt issuance options or being unable to adequately evaluate debt proposals. According to the Government Finance Officers Association[18], "…advisors are the only parties with a federal fiduciary duty to the issuer. In contrast, the relationship between the issuer and underwriter is one where the relationship has a common purpose (sale of debt) but competing objectives (issuer: lowest interest rate, underwriter: higher interest rate to reduce the risk of not being able to sell the debt at a profit)."

Recommendations

The County Commission:

6.1 Solicit professional services in accordance with the county code.

6.2 Ensure documentation is maintained in compliance with the county code to support the selection of vendors awards.

6.3 Ensure selection committees include the required membership, have the recommended number of members, and members complete surveys as required.

6.4 Discontinue using an underwriter who also acts in a dual capacity as financial advisor for debt issuances.

Auditee's Response

The County Commission provided a written response. See Appendix L.

7. Expenditures and Purchasing Cards

County procedures for expenditures and purchasing cards need improvement.

7.1 Prepayment

The county made a $20,000 prepayment on November 29, 2018, to an information technology service provider but did not ensure the amount was applied to its outstanding balance or used to reduce subsequent payments. The

[18] Government Finance Officers Association, *Selecting and Managing the Method of Sale of Bonds*, March 2021, <https://www.gfoa.org/materials/selecting-and-managing-the-method-of-sale-of-bonds>, accessed September 7, 2021.

county generally pays the vendor through a prepayment/retainer process. The document county personnel provided listing outstanding prepayment balances, adjustments for prepayments, and ticket charges from September 2018 through June 2020, did not include the $20,000 prepayment, and the county provided no other supporting documentation or explanation of why the prepaid amount was not credited.

To ensure prepayments are properly applied to outstanding balances due, county personnel should follow-up with vendors and prepayments should be adequately tracked. Only by following up with vendors regarding prepayments can the county ensure services are received for these prepayments and tracking of outstanding prepayment balances is accurate.

7.2 Questionable purchases

The county spent approximately $5,000 on food purchases for 5 events that may not have been a prudent, reasonable, or a necessary use of county funds. In addition, the county does not have a written employer-provided food policy governing the allowability of events and documentation requirements.

These food purchases were for a board and County Commission reception (December 2016), employee service award luncheon (June 2017), luncheon for volunteers (November 2017), board and County Commission social event (November 2018), and employee appreciation luncheon (June 2019). The Public Relations Department Manager charged each purchase to her purchasing card. County personnel did not maintain a list of participants for any of these events. In addition, a review of the Public Relations Department Manager's purchasing card activity for similar events after June 2019 identified additional charges for reception and employee appreciation events, totaling $4,185, in January 2020 and December 2020. County officials provided no explanation of how any of the events benefited the county.

The county has not established any guidance or policy about food purchases or county events. Such guidance or policy can have various provisions. For example, the State of Missouri's agency provided food policy[19] only allows for food at official business functions and light refreshments at other agency sponsored activities (employee retirement, employee appreciation, etc.), but banquets for such activities are not allowed. In addition, the policy requires documentation to support food purchases including (1) purpose, (2) list of participants or estimated number of invitees, and (3) cost of food provided.

County residents have placed a fiduciary trust in their public officials to spend county revenues in a prudent and necessary manner. An established county

[19] Missouri Office of Administration, *State of Missouri Administrative Policy SP-5 - Agency Provided Food*, Issued January 2002, <https://oa.mo.gov/sites/default/files/agency_food.pdf>, accessed June 17, 2021.

provided food policy would give employees necessary guidance and better transparency for citizens about the use of public funds.

7.3 Highway Department fuel

The Highway Department does not reconcile fuel usage to billings. Fuel purchases for year ended December 31, 2018, totaled approximately $306,000.

The Highway Department has 2 fuel tanks (20,000 gallons each), one for regular gasoline and one for diesel fuel, for use by various county offices and departments. The Highway Department Transportation Manager indicated the department has a record of fuel purchased and can print a usage report from the fuel system, but department officials did not consider it necessary to measure or track fuel balances in the underground tanks to perform a reconciliation of usage to billings.

Procedures for reconciling fuel usage to bulk fuel purchased are necessary to prevent overpaying vendors and decrease the risk of loss, theft, or misuse of fuel occurring and going undetected. Failure to document beginning and ending fuel tank balances significantly reduces the effectiveness of any review process.

7.4 Purchasing cards

County controls and procedures over purchasing cards need improvement. County expenditures from purchasing cards totaled approximately $950,000, $1 million, $2.1 million, and $3.2 million for the years ended December 31, 2017, 2018, 2019, and 2020, respectively. For the year ended December 31, 2019, approximately 50 purchasing cards were assigned to various personnel and departments. Monthly cycle limits on the cards ranged from $500 to $225,000.

Purchasing limits

The county did not monitor monthly purchasing card limits, and limits for some individuals were excessive. Former county officials indicated they determined the monthly limits when the cards were issued, but they did not believe it necessary to periodically reevaluate the limits other than when temporary increases were made for special situations.

An analysis of employee purchasing card usage determined many employees had monthly cycle limits significantly greater than necessary to cover their typical actual purchases. For example, we identified an employee whose card had a monthly cycle limit of $50,000, but for the years ended December 31, 2019, and 2018, card purchases totaled less than $4,500 annually. In addition, for the year ended December 31, 2019, we noted one employee's card was not used and 19 other employees had average charges less than 10 percent of their cards' monthly cycle limits.

Purchasing card usage

The county purchasing card manual does not incorporate best practices for use of purchasing cards and has not been updated to reflect the use of

purchasing cards for invoiced transactions. In 2019, the county began using purchasing cards to pay for legal expenses, and other high cost transactions for which the county receives an invoice. The county used purchasing cards to pay legal expenses totaling approximately $773,000 for 2019. Similar billings were previously paid through the county accounts payable process.

The purchasing card manual includes cardholder roles and responsibilities, county purchasing guidelines, and some specific purchases allowed or not allowed, but does not specifically address all items allowed or unallowed, the scope of the purchasing card program, fraud prevention, or a training program.

A former county official indicated the county began using the cards for legal fees because one of the county's legal counsels requested payment in that manner and using purchasing cards to pay legal fees would help the county (1) reduce the likelihood of incurring late fees for untimely payments and (2) receive purchasing card usage rewards. However, such expenses could have been paid timely with efficient processing of the invoices through the county's normal payment processes. In addition, it was not until 2021, upon request of the County Auditor, that purchasing card rebates (approximately $20,000) were credited back to the county.

The County Auditor's report on purchasing cards issued June 2020, suggested the county pay invoices through normal payment processes rather than with purchasing cards. Government Finance Officers Association guidance for using purchasing cards[20] indicates a purchasing card program should define the scope of the program (generally for small dollar, high-volume transactions) and include fraud prevention and training elements. For example, the State of Missouri's purchasing card manual[21] indicates its purchasing cards are not intended for "in-hand invoices."

Conclusion

Purchasing card transactions are inherently more risky than other purchases because these purchases are or can be made prior to proper approval. That risk and the potential for inappropriate purchases or other misuse increases even more with excessive or unneeded limits and purchasing ability. By periodically comparing actual purchasing card activity of each employee and department to established monthly cycle limits and adjusting limits and/or the

[20] Government Finance Officers Association Best Practices, *Purchasing Cards to Streamline the Purchasing Process*, September 5, 2020, <https://www.gfoa.org/materials/purchasing-cards>, accessed June 17, 2021.

[21] Missouri Office of Administration, *State of Missouri Purchasing Card Policy & Procedure Manual*, Revised May 2019, <https://oa.mo.gov/sites/default/files/State%20of%20MO%20Purchasing%20Card%20Policy%20and%20Procedure%20Manual.pdf>, accessed June 17, 2021.

number of active cards as needed, county officials can strengthen controls over purchasing cards and reduce potential risks for these transactions.

In addition, limiting the number of high-cost purchases from purchasing cards and incorporating best practices into current purchasing card policies is necessary to ensure all credit card purchases are appropriate and to reduce the risk of unauthorized purchases occurring.

Recommendations

The County Commission:

7.1 Follow-up on the $20,000 prepayment and ensure prepayments are subsequently applied to services received by the county.

7.2 Ensure all disbursements are a necessary and prudent use of public funds. In addition, the County Commission should establish a policy regarding food purchases, if such purchases are considered necessary.

7.3 Ensure beginning and ending fuel tank balances are documented and reconciled to fuel usage and fuel purchases. Any significant discrepancies should be promptly investigated.

7.4 Periodically evaluate the need for each purchasing card issued and adjust employee purchasing card limits as deemed appropriate. In addition, reconsider the need to pay legal expenses and other high dollar invoiced expenses through purchasing cards and update purchasing card guidance to include best practices.

Auditee's Response

The County Commission provided a written response. See Appendix L.

8. Smithville Lake

Procedures for handling of change funds and discounts at Smithville Lake need improvement.

Smithville Lake offers boating, fishing, camping, and other activities for which the county collects fees. The Clay County Parks and Recreations Department has multiple collection locations for receipts including the Camp Branch Parks Office (Parks Office), marinas, fee booths, camp host stations, and honor boxes. Receipts totaled approximately $1.9 million for each the years ended December 31, 2018, and 2019.

8.1 Change funds

Parks Office personnel do not always maintain change funds at constant amounts. Our cash count on March 29, 2021, included $4,127 in change funds, which was more than the authorized amount of $4,050. Personnel believed the $77 overage was unrecorded honor box receipts. In addition, during our cash count at the Camp Branch Marina on March 29, 2021, we

noted $189 in the change fund which was less than the authorized amount of $200. Marina personnel could not explain the shortage.

Failure to maintain change funds at a constant amount increases the risk that loss, theft, or misuse of money will occur and go undetected. If a change fund is needed, it should be set at a constant amount and a procedure should be established to reconcile to this amount every time a deposit is made.

8.2 Discounts

Parks and Recreation Department practices for providing discounts for Smithville Lake fees are inconsistent or contrary to county ordinance. Department personnel indicated their practice is to limit taxpayer discounts to only one per household per year. However, neither Ordinance 2009-ORD-35, nor annual ordinances establishing Parks and Recreations Department fees specifically include such language. These ordinances indicate discounts are available for Clay County taxpayers purchasing seasonal vehicle ($10 discount for non-seniors, $15 for seniors), boat ($20 discount for non-seniors, $25 for seniors) or combination passes ($30 discount for non-seniors, $40 for seniors) with proof of personal property tax payment, but do not indicate annual limits.

In addition, department personnel indicated county retirees receive the same discounts as current employees, subject to certain restrictions, regarding free park entrance, camping, golf course green fees, and historic site tours, as well as a 50 percent discount on boat rentals. However, the ordinance provided by the former county administration to support retiree discounts (2002-ORD-32(a)), only discusses "regular full-time employees." County officials could not explain why these discounts are allowed.

Aligning current practices with established ordinances is important to ensure employees and the public know how discounts will be handled. If current practices reflect the intentions of the County Commission, new ordinances or revisions to existing ordinances are necessary.

Recommendations

The County Commission:

8.1 Ensure change funds are maintained at a constant amount.

8.2 Review park discount practices and ordinances and revise practices and/or ordinances as necessary.

Auditee's Response

The County Commission provided a written response. See Appendix L.

9. Information Technology

County information technology policies and procedures need improvement.

9.1 Disaster recovery plan and backups

The county does not have a plan for resuming normal business operations and recovering computer systems and data in the event of a disaster or other extraordinary situations. In addition, the county does not periodically test for the recovery of data from backup files. County officials indicated that under the prior administration a plan was in development, but it was not taken to the County Commission for approval. They also indicated an updated plan is currently under review.

A formal, written contingency/disaster recovery plan is needed to guide an organization through computer system and overall operation recovery following a disaster or other extraordinary event. Periodic evaluation, testing and updating of the plan helps ensure the recovery process will be effective if the plan has to be implemented.

9.2 Electronic communication policies

The county has not developed records management and retention policies in compliance with the Missouri Secretary of State Records Services Division guidance, as approved by the Missouri Local Records Commission. Missouri Secretary of State Records Services Division guidance recommends government entities have a policy on electronic messaging, including text messages, email, and other third party platforms. Additionally, the county has not always retained emails and text messages in accordance with requirements.

According to former county officials, county email messages were not retained for longer than 12 months regardless of the content or function of the messages because of lack of server space and/or the feasibility of retaining that volume of data. In January 2019, upon SAO request, the county agreed to stop "the routine removal of emails from our servers, until the audit is completed." In addition, the county had no procedure to archive business-related email messages from personal email accounts sent to other email accounts outside the county domain. Also, the county maintained no record of text messages, but documents indicating county business was conducted through text messaging were provided as evidence in *Vescovo v. Clay County*, 19CY-CV04353 (7th Cir. Ct., 2019) indicating such records should have also been retained.

Section 109.210(5), RSMo, defines a public record as "document, book, paper, photograph, map, sound recording or other material, regardless of physical form or characteristics, made or received pursuant to law or in connection with the transaction of official business." Section 109.270, RSMo, provides that all records made or received by an official in the course of his/her public duties are public property and are not to be disposed of except

as provided by law. Section 109.255, RSMo, provides that the Local Records Board issue directives for the destruction of records. The guidelines for managing electronic communications records can be found on the Secretary of State's website.[22]

The County Commission can help ensure compliance with state law by developing written policies to address the use of personal email, social media and message accounts, and management and retention of electronic communications, and retaining these records accordingly.

Recommendations

The County Commission:

9.1 Develop a formal, written contingency plan that is periodically tested, evaluated, and updated as needed, including periodic testing of data backups.

9.2 Develop written records management and retention policies to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division Electronic Communications Guidelines. In addition, retain electronic communications in accordance with these policies.

Auditee's Response

The County Commission provided a written response. See Appendix L.

10. Contract Approvals and Capital Assets

The County Commission and County Auditor have not ensured that processes for contract approval and capital asset inventories are performed as required.

10.1 Contract approval

The County Auditor was unable to review county contracts. He indicated he requested the county Finance Department provide contracts for his review as required by county code, but Finance Department personnel did not comply with this request. Contracts were reviewed and approved by the former County Commission or through official action by an authorized agent of the former County Commission (e.g. the former County Administrator or a former ACA). The County Auditor was not involved in this process.

County Code Section 37.85 states, "The county auditor's office shall review each purchase order and/or contract for availability of an unencumbered balance in the adopted budget and shall certify this fact before a purchase

[22] Missouri Secretary of State Records Services Division, *Electronic Communications Records Guidelines for Missouri Government*, May 14, 2019, <https://www.sos.mo.gov/CMSImages/LocalRecords/CommunicationsGuidelines.pdf>, accessed June 10, 2021.

order may be considered valid; order placed and/or mailed to a vendor." Section 55.160, RSMo, states, "no warrant shall be drawn or obligation incurred without the auditor's certification that an unencumbered balance, sufficient to pay the same, remain in the appropriate account or in the anticipated revenue fund against which such warrant or obligation is to be charged." Without timely review of contracts by the County Auditor, the County Commission cannot ensure unencumbered appropriation balances are available for payment.

10.2 Capital assets

The County Auditor did not perform complete annual inventories of county-owned property. As of December 31, 2019, the county's capital assets were valued at approximately $85.3 million, net of accumulated depreciation. The County Auditor indicated that because of a lack of cooperation from the former administration, he could not conduct periodic physical inventories and would often not receive responses to annual capital asset addition and disposal questions.

Section 55.160, RSMo, requires the County Auditor to keep an inventory of all county property under the control and management of the various officers and departments. Adequate capital asset records are necessary to safeguard county assets that are susceptible to loss, theft, or misuse, and provide a basis for proper financial reporting and insurance coverage.

Recommendations

The County Commission and the County Auditor:

10.1 Ensure all contracts are approved in accordance with county code and state law.

10.2 Continue to work with the other county officials to ensure complete annual physical inventories are conducted.

Auditee's Response

The County Commission provided a written response. See Appendix L.

The County Auditor provided a written response. See Appendix M.

11. County Boards

Improvements are needed in the handling of meeting minutes, budgets, and potential conflicts of interest by various county boards.

11.1 Meeting minutes

Some county boards did not properly prepare or approve meeting minutes.

- The Parks Advisory Board did not prepare meeting minutes for 7 of 16 Board meetings held between January 2017 and August 2019. The Golf Complex Advisory and Airport Advisory Boards did not prepare meeting minutes for any meetings.

- Children's Services Fund Board, Parks Advisory Board, and Developmental Disabilities Resources Board minutes were not signed by a Board member to indicate Board approval.

Board representatives did not provide an explanation as to why minutes were not always properly prepared or signed, but news media reported that the former County Counselor questioned whether the Sunshine Law applied to certain advisory boards.

Section 610.020.7, RSMo, requires meeting minutes be maintained as a record of business conducted and to provide an official record of actions and decisions. Signed meeting minutes provide an independent attestation that the minutes are a correct record of the matters discussed and actions taken during the meetings. In addition, County Code Section 34.013 indicates all boards are subject to the Sunshine Law and must honor the spirit of the law. County Code Section 34.015 also indicates meeting minutes should be kept routinely.

11.2 Budgets

Budgets prepared by various boards did not contain all required elements.

- The Children's Services Fund Board budgets for 2019 and 2020 did not contain a budget message, actual or budgeted amounts for the second of 2 preceding years, or a budget summary.

- The Senior Citizen Services Board budgets for 2019 and 2020 did not contain actual or budgeted amounts for the 2 preceding years.

- The Developmental Disabilities Resources Board budgets for 2019 and 2020 did not contain a budget message, actual or budgeted amounts for the 2 preceding years, or a budget summary.

- The Clay, Platte, Ray Mental Health Board of Trustees budgets for 2019 and 2020 did not contain budgeted revenues for the upcoming year, a budget message, actual or budgeted amounts for the 2 preceding years, or a budget summary.

Section 67.010, RSMo, requires the budget to present a complete financial plan for the ensuing budget year and sets specific guidelines for the information to be included in the budget. A complete and well-planned budget, in addition to meeting statutory requirements, can serve as a useful management tool by establishing specific financial expectations for board operations. It also assists in informing the public about board operations and current finances. Proper monitoring is necessary for the budget to be an effective management tool and to comply with state law.

11.3 Conflicts of interest

The Children's Services Fund Board does not adequately monitor its activities for potential conflicts of interest. In March 2018, the Board approved a

banking services proposal from the bank at which the Board Vice Chairman was employed. While the conflict was disclosed in the meeting, the Vice Chairman did not abstain from voting on the proposal.

Personal interests in business matters of a governing body create actual or the appearance of conflicts of interest, and a lack of independence could harm public confidence in that governing body and reduce its effectiveness.

Recommendations

The County Commission work with the various county boards to:

11.1 Ensure minutes are prepared for all meetings and signed.

11.2 Prepare annual budgets that contain all information required by state law.

11.3 Ensure various boards refrain from activities that could result in the appearance of or actual conflict of interest. Procedures should include educating board members, as needed, on identifying actual or apparent conflicts of interest and how to mitigate them.

Auditee's Response

The County Commission provided a written response. See Appendix L.

Clay County
Organization and Statistical Information

Clay County, as of 2018, was a county-organized, first-class county. The county seat is Liberty.

Clay County's government was composed of a three-member county commission and separate elected officials performing various tasks. All elected officials serve 4-year terms. The county commission has mainly administrative duties in setting tax levies, appropriating county funds, appointing board members and trustees of special services, accounting for county property, maintaining county roads and bridges, and performing miscellaneous duties not handled by other county officials. Principal functions of these other officials relate to law enforcement, property assessment, property tax collections, conduct of elections, and maintenance of financial and other records important to the county's citizens. In addition to elected officials, the county employed more than 600 full-time, part-time, and seasonal employees as of December 31, 2018. Voters approved significant changes to Clay County's form of government in November 2020 with the approval of the new Clay County Constitution.

The county provides various services and operations at its courthouse, annex, and various other county-owned or leased locations, including those surrounding Smithville Lake, which the county leases from the U.S. Army Corps of Engineers.

In addition, county operations include the Airport Advisory Board; Board of Equalization; Board of Zoning Adjustment; Building Commission; Children's Services Fund Board; Developmental Disabilities Resources Board; Domestic Violence Board; Golf Complex Advisory Board; Land Trustee; Clay, Platte, Ray Mental Health Board of Trustees; Millennium Historical Board; Parks Advisory Board; Planning and Zoning Board; Senior Citizen Services Board; and Tourism Board.

Elected Officials

The elected officials and their compensation paid for the year ended December 31 (except as noted) are indicated below:

Officeholder	2019	2018
Jerry Nolte, Presiding Commissioner	$	77,106
Gene Owen, Associate Commissioner (1)		138,733
Luann Ridgeway, Associate Commissioner (1)		138,925
Katee Porter, Recorder of Deeds		77,106
Megan Thompson, County Clerk		77,106
Daniel White, Prosecuting Attorney		138,644
Paul Vescovo, Sheriff		85,162
Ted Graves, County Treasurer		77,106
Carol McCaslin, County Auditor (1)		82,066
Sarah Mills, Public Administrator		77,106
Lydia McEvoy, County Collector, year ended February 28, (1)	80,336	
Cathy Rinehart, County Assessor, year ended August 31, (1)		77,723

(1) The compensation includes amounts paid in December 2018 for salary underpayments during 2013 through 2017. The adjustments were due to changes in state law. The amount for the County Assessor excludes the reimbursement since it was paid after the year ended August 31, 2018. The amounts were based on recommendations from the county's legal counsel and written agreements between the county and officeholders. The following table lists the salary underpayment amounts received by each official.

Salary underpayment amounts paid in December 2018

Officeholder	Amount
Gene Owen, Associate Commissioner	$ 63,720
Luann Ridgeway, Associate Commissioner	63,912
Carol McCaslin, County Auditor	4,960
Lydia McEvoy, County Collector	2,947
Cathy Rinehart, County Assessor	17,749

OFFICE OF MISSOURI STATE AUDITOR

SUBPOENA

To: Nicole Brown, Assistant County Administrator
1 Courthouse Square
Liberty, MO 64068

YOU OR A CLAY COUNTY, MISSOURI, CORPORATE DESIGNEE ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or her representative, Joel Anderson, Chief Litigation Counsel, at the Fletcher Daniels State Office Building, Room 502, 615 East 13th Street, Kansas City, MO 64106, at 10:00 a.m. on Thursday, February 14, 2019, for purposes of providing testimony and producing for examination, copying, and interrogation the following records and documents listed on Exhibit A attached to this Subpoena.

In lieu of appearance, you may ship the records listed in Exhibit A to the Missouri State Auditor to the attention of Pam Allison for delivery no later than Monday, February 11, 2019, at the following address: State Auditor's Office, Springfield State Office Complex, 149 Park Central Square, Box 471, 8th floor, Suite 814, Springfield, MO 65806

ISSUED this 31day of January, 2019, pursuant to Section 29.235.4(1), RSMo.

Nicole L. Galloway
Nicole Galloway
Missouri State Auditor

I served the foregoing subpoena by 1:13 p.m. on this 31 day of January, 2019.

Robert McArthur II

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A

You are to preserve for production and inspection, and then appear as instructed on the attached subpoena and produce for inspection and examination, the following items in your possession or under your control:

All documentation (minutes) of meetings of the Clay County Commission for the calendar years of 2017 and 2018.

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

IN THE CIRCUIT COURT OF COLE COUNTY MISSOURI

CLAY COUNTY COMMISSION, Plaintiff, v. NICOLE GALLOWAY, AUDITOR OF THE STATE OF MISSOURI, Defendant.	)	No. 19AC-CC00055

ORDER AND JUDGMENT

On this 23rd day of October, 2019, the Court takes up the motion of the Missouri State Auditor's Office (the Auditor or SAO) to dismiss all counts in Plaintiff Clay County Commission's (Commission) First Amended Petition.

On March 26, 2019, a hearing was held in which argument from counsel was heard on the motion to dismiss. The allegations in the First Amended Petition are taken as true for the purposes of the motion.

On a motion to dismiss, the well-pleaded allegations of fact, and such inferences as are fairly deducible from those facts, are admitted. *Ward v. W. Cty. Motor Co., Inc.*, 403 S.W.3d 82, 84 (Mo. banc 2013). Conclusions of the pleader are not admitted. *Therrien v. Mercantile-Commerce Bank & Trust Co.*, 227 S.W.2d 708 (Mo. banc 1950).

The Commission's First Amended Petition makes three requests for declaratory relief, upon which the Commission's requests for injunctive and other relief is based. All requests made by the Commission appear to turn on a single question of law.

The Commission's primary complaint is that the State Auditor requested closed meeting minute records, and such a request is unconstitutional because it is indicative of a "performance audit" and not restricted to a financial post-audit of transactions.

This Court finds that the authority of the State Auditor is not limited to financial post-audits of county accounts, and that the State Auditor is authorized to conduct a "performance audit." Section 29.005(2) RSMo defines an audit to include "performance," and §29.185 RSMo specifically provides that "an audit may include either financial or performance audit objectives or one or more objectives from both types of audits." Thus, the State Auditor is not limited to performing a particular kind of audit when auditing a political subdivision under §29.230.2 RSMo.

This Court further finds that there is nothing *per se* unconstitutional about a records request. If there is content in such records that should not be disclosed, such an issue is properly raised in a proceeding to enforce an administrative subpoena.

Finally, the Commission's various counts in this case are dependent upon the proposition that the request for closed meeting minutes is an unconstitutional act, a conclusion this Court cannot draw on the facts alleged. Accordingly, the Commission has not pleaded a case that can grant the relief it requests.

THEREFORE, this Court finds that the Commission has failed to state a claim upon which relief may be granted as a matter of law, and this case is hereby dismissed with prejudice. Costs are taxed to Plaintiff.

SO ORDERED

Jon E. Beetem, Circuit Judge – Division I

OFFICE OF MISSOURI STATE AUDITOR

SUBPOENA

To: Nicole Brown, Assistant County Administrator
1 Courthouse Square
Liberty, MO 64068

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or her representative(s) at the Fletcher Daniels State Office Building, Room 502, 615 East 13th Street, Kansas City, MO 64106, at 10:00 a.m. on Monday, November 25, 2019, for purposes of providing testimony about and producing for examination, copying, and interrogation the records and subjects described in Exhibit A attached to this Subpoena.

ISSUED this 8th day of November, 2019, pursuant to Section 29.235.4(1) of the Revised Statutes of Missouri.

Nicole L. Galloway
Nicole Galloway
Missouri State Auditor

I served the foregoing subpoena by Leaving with Alison Cook, Public Services Receptionist, Commission Office *on this 8th day of November, 2019.*

November 8, 2019

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A-page 1 of 3

1. 2017 and 2018 open and closed Clay County Commission meeting minutes;

2. Confirmation that the county is securing all county email and former County Administrator Dean Brookshier's computer;

3. List of employees with take home cars along with their home address and work address;

4. 2017 & 2018 payroll data;

5. Description of legal and professional services provided to the county by the following firms in 2017 and 2018, including copies of contracts, memoranda of understanding, engagement letters, etc., for such services:

   Fisher & Phillips LLP
   Gaddy Law
   Graves Garrett
   Husch Blackwell LLP
   Husch Blackwell Strategies
   Johnston Law Firm
   Morgan Pilate
   Spencer Fane LLP
   Wyrsch Hobbs & Mirakian

6. A listing or copies of all records and user files on the former County Administrator Dean Brookshier's computer;

7. Year Ended December 31, 2018 annual audit reports:

   a. Compliance
   b. Financial Statements

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A-page 2 of 3

8. Detailed financial information for 2019 financial transactions to-date in Excel (as previously provided for 2017 & 2018, if applicable), including:

    a. Expenditures
    b. List of Disbursements
    c. P Card Transactions
    d. Payroll

9. County bid policies and procedures in place from 2017 to present, including policies regarding selection of the evaluation team, performing evaluations and making recommendations.

10. List of all officials and employees currently bonded;

11. Documentation of any software problems encountered with assessment and property tax system/systems during 2017, 2018, and 2019 to-date, and if applicable, how and when these problems were resolved;

12. Policies and procedures effective from 2017 to present regarding the assessment appeals process;

13. Assessments for Ford Motor Company and any additions/abatements for 2017, 2018, and 2019 to-date;

14. Assessments and additions/abatements for all properties owned by the 3 county commissioners for 2017, 2018, and 2019 to-date;

15. Total county assessed valuations by type of property (residential, commercial, personal) for 2017, 2018, and 2019 to-date;

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A-page 3 of 3

16. Expense reports of the Tax Maintenance Fund for 2019 to-date;

17. Copies of the Collector's collection agreements with any cities effective from 2017 to present;

18. All written Parks Department cash handling procedures effective from 2017 to present (e.g. shelter houses, boat slips, camping, concessions/retail, etc.), excluding Jesse James Birthplace and Bank, which were previously provided;

19. A list of boat slips occupied and unoccupied, boat slip rental agreements, and report of revenues generated from each boat slip rental for 2018 and 2019 to-date;

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

Where an attorney-client privileged communication or the attorney work product doctrine for imminent or pending litigation is asserted as a basis for redaction of any portion of any record requested, the county must provide a privilege log or statement noting the reason for each assertion of privilege or the work product doctrine. Such log must describe the nature of the redacted information in sufficient detail to permit the State Auditor's Office to assess the applicability of the attorney-client privilege or work product doctrine.

No. _____

PETITION TO ENFORCE ADMINISTRATIVE SUBPOENA AND FOR DECLARATORY JUDGMENT

The Missouri Constitution imposes a duty on the Missouri State Auditor (Auditor) to conduct all audits required by law. Mo. Const. Art. IV, Section 13. In conducting an audit, the Auditor is entitled by statute to inspect all records and examine witnesses. Pursuant to this authority, the Auditor is granted subpoena power to compel compliance with this authorized access, and criminal penalties are in place to punish conduct that interferes with the Auditor's performance of these duties. §§29.235; 29.250 RSMo.[1]

In December, 2018, the Auditor commenced an audit required by law of the county of Clay, Missouri (the County) pursuant to a citizen petition under §29.230.2. As part of this audit, the Auditor sought to review meeting minutes of the Clay County Commission (Commission). The Commission refused to produce any closed meeting minutes whatsoever. The Auditor served a subpoena to compel production of meeting minutes. The County refused to produce the records and failed to appear at the deposition.

The Auditor respects the court's time. Until today, the Auditor has never had to enforce a subpoena of an auditee. But the County's actions are unprecedented.

The Auditor here asks this Court to enforce the subpoena and/or enter a declaratory judgment as set forth below:

1. Nicole Galloway is the duly elected auditor of the State of Missouri.

[1] Unless otherwise noted, all statutory references are to the Revised Statutes of Missouri, 2016, as amended.

2. Defendant Clay County, Missouri, is a political subdivision of the State of Missouri, and is a non-charter county of the first-class.

3. Defendant Jerry Nolte is a resident of Clay County, Missouri and is the duly elected presiding commissioner of Clay County, Missouri.

4. Defendant Luann Ridgeway is a resident of Clay County, Missouri, and is the duly elected eastern commissioner of Clay County, Missouri.

5. Defendant Gene Owen is a resident of Clay County, Missouri, and is the duly elected western commissioner of Clay County, Missouri.

6. Nicole Brown is an Assistant County Administrator and the designated custodian of records for Clay County.

7. By letter dated August 27, 2018, the State Auditor's Office informed the County that sufficient signatures were certified by the Clay County Board of Election Commissioners to commence an audit of Clay County (the County) pursuant to §29.230.2.

8. By letter dated December 18, 2018, the State Auditor's Office notified the County of the commencement of the audit, along with a description of the audit objectives and the responsibilities of County management during the audit.

9. In the description of audit objectives and the responsibilities of County management, the County was notified that the methodology of the audit includes "reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel, as well as certain external parties; and testing selected transactions."

10. At the commencement of an audit, survey work is done to obtain sufficient knowledge of a county's personnel, programs, and operations to plan the audit; to consider significance and risk in planning; to define audit scope and objectives; and to develop the methodology and detailed plan for addressing the audit objectives.

11. As part of the survey period of any audit, records of the governing body's meeting (minutes) are routinely reviewed in all types of audits required of the Missouri State Auditor under Missouri law.

12. The governing body of the County is the Clay County Commission.

13. The Commission is responsible for oversight of county budgets, expenditure of funds, and other significant decisions that impact County funds and resources, County policy, and other subjects of the business of the County.

14. Commission meeting minutes are a record of significant decisions made and discussion leading to those decisions.

15. Based in part on the allegations in paragraphs 13 and 14, it is necessary for auditors to review all Commission meeting minutes, both open and closed.

16. During the months of December 2018 and January 2019, audit staff requested Commission meeting minutes.

17. All requests for records by audit staff to the County from the commencement of the audit until the filing of this action were received by records custodian Defendant Nicole Brown.

18. All requests for records by audit staff to the County from the commencement of the audit until the filing of this action were received by County personnel designated to receive and respond to such requests.

19. All requests for records of Commission meeting minutes by audit staff to the County from the commencement of the audit until the filing of this action were received by County personnel designated to receive and respond to such requests.

20. All requests for records of Commission meeting minutes by audit staff to the County from the commencement of the audit until the filing of this action were received by records custodian Defendant Nicole Brown.

21. All requests for closed records of Commission meeting minutes by audit staff to the County from the commencement of the audit until the filing of this action were received by County personnel designated to receive and respond to such requests.

22. All requests for closed records of Commission meeting minutes by audit staff to the County from the commencement of the audit until the filing of this action were received by records custodian Defendant Nicole Brown.

23. In response to requests for Commission meeting minutes, the audit staff were directed to the County's website for open meeting minutes, but denied access to closed meeting minutes in their entirety.

24. In response to requests for Commission meeting minutes, the County refused to provide access to closed meeting minutes unless the records were open to the public.

25. In response to requests for Commission meeting minutes, the County refused to provide access to closed meeting minutes unless the records were open within the meaning of Chapter 610 (the Sunshine Law).

26. In response to requests for Commission meeting minutes, the County refused to provide access to closed meeting minutes.

27. The County refused to provide access to closed meeting minutes by claiming that the County is not required to provide access to records other than those of the County's accounts and transactions.

28. The County's website does not contain all open meeting minutes of the Commission.

29. On January 31, 2019, the Commission filed suit in the Circuit Court of Cole County seeking a declaratory judgment and injunction related to their claim that the State Auditor's Office's request for closed meeting minutes was an unconstitutional act because such a request constituted an unconstitutional "performance audit."

30. In the County's suit, the County objected to releasing records that might contain attorney-client privileged information. In spite of this limited objection, the Commission produced no closed meeting records whatsoever, redacted or otherwise.

31. On January 31, 2019, the State Auditor's Office served the Assistant County Administrator with a subpoena to produce all Clay County Commission meeting minutes for the calendar years of 2017 and 2018.

32. On February 4, 2019, the Commission amended their petition to include, among other things, the subpoena referenced in paragraph 31.

33. On April 8, 2019, the Circuit Court of Cole County denied the Commission's request for an injunction, and on October 23, 2019, that same court dismissed the remainder of the Commission's case ruling (1) that there is nothing per se unconstitutional about a records request; (2) that issues with the content of requested records are to be litigated in an action to enforce an administrative subpoena (which had not been filed); and (3) the Auditor is not limited to performing financial post-audits of county accounts, and is statutorily authorized to conduct "performance" audits.[2]

34. On October 31, 2019, the State Auditor's Office requested records and information from the County, including the request for open and closed Commission meeting minutes. The County did not fulfill the request.

35. On November 8, 2019, the State Auditor's Office served Assistant County Administrator and Records Custodian Nicole Brown with a subpoena attached as Exhibit A and incorporated by reference herein. This subpoena requires, *inter alia*, that the Commission produce closed meeting minutes.

36. The subpoena set a deposition and records production date of November 25, 2019.

37. The County refused to produce any Commission closed session meeting minutes, redacted or otherwise.

38. On November 25, 2019, Nicole Brown failed to appear for her deposition.

[2] The Commission did not challenge the constitutionality of the statute authorizing performance audits.

39. The County did not challenge the authority of the Auditor to subpoena Nicole Brown for the November 25, 2019, deposition.

40. Nicole Brown refused to appear for the November 25, 2019, deposition upon less than two business-days' notice to the Auditor that she had a "planned vacation."

41. On November 25, 2019, Defendant County failed to produce any closed meeting minutes, redacted or otherwise.

42. A review of County meeting minutes is necessary to properly conduct a lawful audit.

43. Testimony from the County's designated records custodian is necessary to properly conduct this audit of the County.

44. Testimony from the County's Assistant County Administrator is necessary to properly conduct this audit of the County.

COUNT I - ENFORCEMENT OF SUBPOENA

45. Paragraphs 1 through 44 are incorporated and re-alleged as if fully set forth herein.

46. The Auditor's audit of the County is made pursuant to constitutional and statutory authority.

47. The records subpoenaed as shown in Exhibit A are not too indefinite.

48. The requirement of the attendance of the County's designated records custodian is not too indefinite.

49. The information sought in the request for County Commission meeting minutes as shown in the subpoena is reasonably relevant to the performance of an audit by the Missouri State Auditor under Missouri law.

50. The testimony sought from the County's designated records custodian is reasonably relevant to the performance of an audit by the Missouri State Auditor under Missouri law.

WHEREFORE, the Missouri State Auditor requests that this Court enter judgment enforcing its subpoena attached as Exhibit A in the following respects:

I. That Nicole Brown personally appear before the State Auditor or her representatives at a location and time to be set forth by separate Order of this Court, to answer questions in connection with the audit of Clay County, Missouri.

II. That Nicole Brown and/or other responsible officials of Clay County, Missouri produce or make available to the State Auditor all records of Clay County Commission meeting minutes, both open and closed.

III. The County may make appropriate redactions for attorney-client privileged communications if a log is provided for each such redaction that contains sufficient information to determine whether the attorney-client privilege is properly invoked; and

IV. The County may make appropriate redactions for attorney work-product content if a log is provided for each such redaction that contains sufficient information to determine whether the work-product doctrine is properly invoked.

COUNT II - DECLARATORY JUDGMENT

51. Paragraphs 1 through 50 are incorporated and re-alleged as if fully set forth herein.

52. The Auditor is conducting an ongoing audit of the County, and such audit will require the examination of records and witnesses that will include information and records that are not open, public records.

53. In the Auditor's conduct of the audit of the County, the Auditor has access to all records that are related to an audit conducted under the Missouri Constitution and in accordance with statute.

54. The need to examine records as set forth herein, and particularly in paragraphs 52 and 53, has been and will be ongoing in nature.

55. The State Auditor has a legally protectable interest in performing her constitutionally and statutorily required duties in the manner provided by law.

56. A subpoena for closed meeting minutes of the Commission has been served and compliance has been refused.

57. From the foregoing, a justiciable controversy exists.

58. The County's refusal to provide access to closed meeting minutes is based upon the County's erroneous proposition that the State Auditor is not entitled to access to records that are closed under the Sunshine Law.

59. The County's refusal to provide access to closed meeting minutes is based upon the County's erroneous proposition that the State Auditor is not entitled to access to

records that are closed under the Sunshine Law absent a showing to the County as to how the content of such records is directly related to the receipt and expenditure of public funds.

60. The County's refusal to provide access to closed meeting minutes is based upon the County's erroneous proposition that the State Auditor is prohibited by the Missouri Constitution from accessing certain records which include records closed under the Sunshine Law.

61. The County's refusal to provide access to closed meeting minutes is based upon the County's erroneous proposition that the State Auditor is prohibited by the Missouri Constitution from accessing certain records which include records closed under the Sunshine Law absent a showing to the County as to how the content of such records is directly related to the receipt and expenditure of public funds.

WHEREFORE, the Missouri State Auditor requests that this Court enter judgment in favor of the Auditor, award her fees and costs in this action, and make the following declarations of law:

I. The State Auditor is permitted access to records of an auditee without regard to whether such records may be closed under Chapter 610 (the Sunshine Law) or any other provision of law;

II. The Missouri Constitution does not deny the State Auditor access to any particular record or any particular category of records;

III. The State Auditor is not required to make a showing that the content of a record is related to the receipt and expenditure of public funds before a county is required to provide access to the record;

IV. With the exception of attorney-client privileged communications and attorney work product content, the County is not permitted to redact any information from any record on the basis that the information is not directly related to the receipt and expenditure of public funds;

V. The County is not permitted to withhold any record from review by the State Auditor's Office unless such a review by the State Auditor is specifically prohibited by law.

Respectfully submitted,

OFFICE OF MISSOURI STATE AUDITOR

SUBPOENA

To: Nicole Brown, Assistant County Administrator
1 Courthouse Square
Liberty, MO 64068

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or her representative(s) at the Fletcher Daniels State Office Building, Room 502, 615 East 13th Street, Kansas City, MO 64106, at 10:00 a.m. on Monday, November 25, 2019, for purposes of providing testimony about and producing for examination, copying, and interrogation the records and subjects described in Exhibit A attached to this Subpoena.

ISSUED this 8th day of November, 2019, pursuant to Section 29.235.4(1) of the Revised Statutes of Missouri.

Nicole L. Galloway
Nicole Galloway
Missouri State Auditor

I served the foregoing subpoena by leaving with Alison Cook, Public Services Receptionist, Commission Office *on this 8th day of November, 2019.*

November 8, 2019

Exhibit A

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A-page 1 of 3

1. 2017 and 2018 open and closed Clay County Commission meeting minutes;

2. Confirmation that the county is securing all county email and former County Administrator Dean Brookshier's computer;

3. List of employees with take home cars along with their home address and work address;

4. 2017 & 2018 payroll data;

5. Description of legal and professional services provided to the county by the following firms in 2017 and 2018, including copies of contracts, memoranda of understanding, engagement letters, etc., for such services:

   Fisher & Phillips LLP
   Gaddy Law
   Graves Garrett
   Husch Blackwell LLP
   Husch Blackwell Strategies
   Johnston Law Firm
   Morgan Pilate
   Spencer Fane LLP
   Wyrsch Hobbs & Mirakian

6. A listing or copies of all records and user files on the former County Administrator Dean Brookshier's computer;

7. Year Ended December 31, 2018 annual audit reports:

   a. Compliance
   b. Financial Statements

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A-page 2 of 3

8. Detailed financial information for 2019 financial transactions to-date in Excel (as previously provided for 2017 & 2018, if applicable), including:

    a. Expenditures
    b. List of Disbursements
    c. P Card Transactions
    d. Payroll

9. County bid policies and procedures in place from 2017 to present, including policies regarding selection of the evaluation team, performing evaluations and making recommendations.

10. List of all officials and employees currently bonded;

11. Documentation of any software problems encountered with assessment and property tax system/systems during 2017, 2018, and 2019 to-date, and if applicable, how and when these problems were resolved;

12. Policies and procedures effective from 2017 to present regarding the assessment appeals process;

13. Assessments for Ford Motor Company and any additions/abatements for 2017, 2018, and 2019 to-date;

14. Assessments and additions/abatements for all properties owned by the 3 county commissioners for 2017, 2018, and 2019 to-date;

15. Total county assessed valuations by type of property (residential, commercial, personal) for 2017, 2018, and 2019 to-date;

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A-page 3 of 3

16. Expense reports of the Tax Maintenance Fund for 2019 to-date;

17. Copies of the Collector's collection agreements with any cities effective from 2017 to present;

18. All written Parks Department cash handling procedures effective from 2017 to present (e.g. shelter houses, boat slips, camping, concessions/retail, etc.), excluding Jesse James Birthplace and Bank, which were previously provided;

19. A list of boat slips occupied and unoccupied, boat slip rental agreements, and report of revenues generated from each boat slip rental for 2018 and 2019 to-date;

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

Where an attorney-client privileged communication or the attorney work product doctrine for imminent or pending litigation is asserted as a basis for redaction of any portion of any record requested, the county must provide a privilege log or statement noting the reason for each assertion of privilege or the work product doctrine. Such log must describe the nature of the redacted information in sufficient detail to permit the State Auditor's Office to assess the applicability of the attorney-client privilege or work product doctrine.

IN THE CIRCUIT COURT OF CLAY COUNTY MISSOURI

NICOLE GALLOWAY, AUDITOR OF THE STATE OF MISSOURI, Plaintiff, v. CLAY COUNTY, MISSOURI, et al., Defendants.	)	No. 19AC-CV12168

FIRST AMENDED PETITION TO ENFORCE ADMINISTRATIVE SUBPOENAS AND FOR DECLARATORY JUDGMENT

The Missouri Constitution imposes a duty on the Missouri State Auditor (Auditor) to conduct all audits required by law. Mo. Const. Art. IV, Section 13. In conducting an audit, the Auditor is entitled by statute to inspect all records and examine witnesses. Pursuant to this authority, the Auditor is granted subpoena power to compel compliance with this authorized access, and criminal penalties are in place to punish conduct that interferes with the Auditor's performance of these duties. §§29.235; 29.250 RSMo.[1]

In December, 2018, the Auditor commenced an audit required by law of the county of Clay, Missouri (the County) pursuant to a citizen petition under §29.230.2. As part of this audit, the Auditor sought to review meeting minutes of the Clay County Commission (Commission). The Commission refused to produce any meeting minutes not open to the public (closed meeting minutes) whatsoever. On November 8, 2019, the Auditor served a

[1] Unless otherwise noted, all statutory references are to the Revised Statutes of Missouri, 2016, as amended.

subpoena for testimony and to compel production of meeting minutes. The County refused to produce the records and failed to appear at the audit deposition.

On November 22, 2019, the State Auditor served a second subpoena for additional records the County had not produced, and also required Defendant Nicole Brown to appear and submit to be examined upon oath. Ms. Brown refused to answer questions upon oath posed by authorized State Auditor's Office staff, and refused production of certain records in the subpoena.

The Auditor respects the Court's time. Until this citizen-requested audit of Clay County, the Auditor has never had to enforce a subpoena of an auditee. But the County's actions are unprecedented.

The Auditor here asks this Court to enforce the subpoena and/or enter a declaratory judgment as set forth below:

1. Nicole Galloway is the duly elected auditor of the State of Missouri.

2. Defendant Clay County, Missouri, (the County) is a political subdivision of the State of Missouri, and is a non-charter county of the first-class.

3. Defendant Jerry Nolte is a resident of Clay County, Missouri and is the duly elected presiding commissioner of Clay County, Missouri.

4. Defendant Luann Ridgeway is a resident of Clay County, Missouri, and is the duly elected eastern commissioner of Clay County, Missouri.

5. Defendant Gene Owen is a resident of Clay County, Missouri, and is the duly elected western commissioner of Clay County, Missouri.

6. Nicole Brown is an Assistant County Administrator and the designated custodian of records for Clay County.

7. The governing body of the County is the Clay County Commission (the Commission).

8. The Commission is responsible for oversight of county budgets, expenditure of funds, and other significant decisions that impact County funds and resources, County policy, and other subjects of the business of the County.

9. By letter dated August 27, 2018, the State Auditor's Office informed the County that sufficient signatures were certified by the Clay County Board of Election Commissioners to commence an audit of the County pursuant to §29.230.2.

10. By letter dated December 18, 2018, the State Auditor's Office notified the County of the commencement of the audit, along with a description of the audit objectives and the responsibilities of County management during the audit.

11. The letter referred to in paragraph 10 was signed by the Commission.

12. In the description of audit objectives and the responsibilities of County management outlined in the correspondence to the County referred to in paragraph 10, the County was notified that the methodology of the audit would include "reviewing minutes of meetings, written policies and procedures, financial records, and other pertinent documents; interviewing various personnel, as well as certain external parties; and testing selected transactions."

13. At the commencement of an audit, survey work is done to obtain sufficient knowledge of a county's personnel, programs, and operations to plan the audit; to consider

significance and risk in planning; to define audit scope and objectives; and to develop the methodology and detailed plan for addressing the audit objectives.

14. As part of the survey period of any audit, records of the governing body's meetings are routinely reviewed in all types of audits required of the Missouri State Auditor under Missouri law.

15. In the course of conducting an audit, auditors survey government records, interview government personnel, and accept information from other persons with relevant information about the entity's conduct in using government resources.

16. Information obtained during this survey period is used to establish audit objectives and procedures.

17. Some of the persons from whom information is accepted as referred to in paragraph 15 are persons who seek to report government waste, fraud, and abuse anonymously as provided in §29.221.

18. Records and information sought in the course of an audit are used to conduct the audit as authorized by the Missouri Constitution and the Revised Statutes of Missouri.

19. Records and information sought in the course of this audit of the County are used to conduct the audit as authorized by the Missouri Constitution and the Revised Statutes of Missouri.

20. It is necessary for the conduct of the audit for official records to be reviewed, and for relevant personnel to be interviewed, including records and interviews as shown in Exhibits A and B.

21. Revealing to the County, the auditee, the reasons why certain questions are asked and why certain records are sought to be reviewed would compromise the integrity of the audit.

22. The County demanded to be told why certain records were sought.

23. Commission meeting minutes are a record of significant decisions made and discussion leading to those decisions.

24. It is necessary for auditors to review all Commission meeting minutes, both open and closed.

25. During the months of December 2018 and January 2019, audit staff requested Commission meeting minutes.

26. All requests for records by audit staff to the County from the commencement of the audit until the filing of this action were received by records custodian Defendant Nicole Brown.

27. All requests for records by audit staff to the County from the commencement of the audit until the filing of this action were received by County personnel designated to receive and respond to such requests.

28. All requests for records of Commission meeting minutes by audit staff to the County from the commencement of the audit until the filing of this action were received by County personnel designated to receive and respond to such requests.

29. All requests for records of Commission meeting minutes by audit staff to the County from the commencement of the audit until the filing of this action were received by records custodian Defendant Nicole Brown.

30. All requests for closed records of Commission meeting minutes by audit staff to the County from the commencement of the audit until the filing of this action were received by County personnel designated to receive and respond to such requests.

31. All requests for closed records of Commission meeting minutes by audit staff to the County from the commencement of the audit until the filing of this action were received by records custodian Defendant Nicole Brown.

32. In response to requests for Commission meeting minutes, the audit staff were directed to the County's website for open meeting minutes, but denied access to closed meeting minutes in their entirety.

33. In response to requests for Commission meeting minutes, the County refused to provide access to closed meeting minutes unless the records were open to the public.

34. In response to requests for Commission meeting minutes, the County refused to provide access to closed meeting minutes unless the records were open within the meaning of Chapter 610 (the Sunshine Law).

35. In response to requests for Commission meeting minutes, the County refused to provide access to closed meeting minutes.

36. The County refused to provide access to closed meeting minutes by claiming that the County is not required to provide access to records other than those of the County's accounts and transactions.

37. The County's website does not contain all open minutes of meetings of the Commission.

38. On January 31, 2019, the Commission filed suit in the Circuit Court of Cole County seeking a declaratory judgment and injunction related to their claim that the State Auditor's Office's request for closed meeting minutes was an unconstitutional act because such a request constituted an unconstitutional "performance audit."

39. In the County's suit, the County objected to releasing records that might contain attorney-client privileged information. In spite of this limited objection, the Commission produced no closed meeting records during the pendency of that case, redacted or otherwise.

40. On January 31, 2019, the State Auditor's Office served the Assistant County Administrator and records custodian with a subpoena to produce all Clay County Commission meeting minutes for the calendar years of 2017 and 2018.

41. On February 4, 2019, the Commission amended their petition to include, among other things, the subpoena referenced in paragraph 40.

42. On April 8, 2019, the Circuit Court of Cole County denied the Commission's request for an injunction, and on October 23, 2019, that same court dismissed the remainder of the Commission's case ruling (1) that there is nothing *per se* unconstitutional about a records request; (2) that issues with the content of requested records are to be litigated in an action to enforce an administrative subpoena (which had not been filed); and (3) the Auditor is not limited to performing financial post-audits of county accounts, and is statutorily authorized to conduct "performance" audits.[2]

[2] The Commission did not challenge the constitutionality of the statute authorizing performance audits.

43. On October 31, 2019, the State Auditor's Office requested records and information from the County, including the request for open and closed Commission meeting minutes. The County did not fulfill the request.

44. On November 8, 2019, the State Auditor's Office served Assistant County Administrator and Records Custodian Nicole Brown with a subpoena attached as Exhibit A and incorporated by reference herein.

45. The November 8 subpoena set an audit deposition and records production date of November 25, 2019.

46. In response to the request set forth in paragraph 43 and the November 8 subpoena, the County refused to produce any Commission meeting minutes that are closed under the Sunshine Law, redacted or otherwise.

47. On November 25, 2019, Nicole Brown failed to appear for her deposition.

48. The County did not challenge the authority of the Auditor to subpoena Nicole Brown for the November 25, 2019, deposition.

49. Nicole Brown refused to appear for the November 25, 2019, deposition upon less than two business-days' notice to the Auditor that she had a "planned vacation."

50. On November 25, 2019, Defendant County failed to produce any meeting minutes that are closed under the Sunshine Law, redacted or otherwise.

51. A review of County meeting minutes is necessary to properly conduct a lawful audit.

52. Testimony from the County's designated records custodian is necessary to properly conduct this audit of the County.

53. Testimony from the County's Assistant County Administrator is necessary to properly conduct this audit of the County.

54. On November 22, 2019, the Auditor issued the subpoena attached hereto as Exhibit B, and incorporated fully herein.

55. The November 22, 2019, subpoena (Exhibit B) commanded Defendant Brown to appear and submit to questioning by the Auditor's Office and to produce the records listed.

56. Defendant Brown refused to submit to questions posed by auditors under the November 22, 2019, subpoena (Exhibit B).

57. Defendant Brown failed to produce all records requested in the November 22, 2019, subpoena (Exhibit B).

COUNT I - ENFORCEMENT OF NOVEMBER 8, 2019 SUBPOENA

58. Paragraphs 1 through 57 are incorporated and re-alleged as if fully set forth herein.

59. The Auditor's audit of the County is made pursuant to constitutional and statutory authority.

60. The records subpoenaed as shown in Exhibit A are not too indefinite.

61. The requirement of the attendance of the County's designated records custodian (Nicole Brown) is not too indefinite.

62. The requirement of the attendance of the County's Assistant County Administrator (Nicole Brown) is not too indefinite.

63. The records sought in the request for County Commission meeting minutes as shown in the subpoena are reasonably relevant to the performance of an audit by the Missouri State Auditor under Missouri law.

64. The testimony sought from the County's designated records custodian (Nicole Brown) is reasonably relevant to the performance of an audit by the Missouri State Auditor under Missouri law.

65. The testimony sought from the County's Assistant County Administrator (Nicole Brown) is reasonably relevant to the performance of an audit by the Missouri State Auditor under Missouri law.

WHEREFORE, the Missouri State Auditor requests that this Court enter judgment enforcing its subpoena attached as Exhibit A in the following respects:

I. That Nicole Brown personally appear before the State Auditor or her representatives at a location and time to be set forth by separate Order of this Court, to answer questions under oath in connection with the audit of Clay County, Missouri.

II. That Nicole Brown and/or other responsible officials of Clay County, Missouri produce or make available to the State Auditor all records of Clay County Commission meeting minutes, both open and closed.

III. The County may make appropriate redactions for attorney-client privileged communications if a log is provided for each such redaction that contains sufficient information to determine whether the attorney-client privilege is properly invoked; and

IV. The County may make appropriate redactions for attorney work-product content if a log is provided for each such redaction that contains sufficient information to determine whether the work-product doctrine is properly invoked.

V. The County is not permitted to withhold any record from review by the State Auditor's Office unless such a review by the State Auditor is specifically prohibited by law.

VI. In conducting an audit, the State Auditor and her authorized representatives have the power to subpoena witnesses and to take testimony under oath, and to assemble records and documents by subpoena or otherwise.

COUNT II - ENFORCEMENT OF NOVEMBER 22, 2019 SUBPOENA

66. Paragraphs 1 through 65 are incorporated and re-alleged as if fully set forth herein.

67. The Auditor's audit of the County is made pursuant to constitutional and statutory authority.

68. The records subpoenaed as shown in Exhibit B are not too indefinite.

69. The requirement of the attendance of the County's designated records custodian (Nicole Brown) is not too indefinite.

70. The requirement of the attendance of the County's Assistant County Administrator (Nicole Brown) is not too indefinite.

71. The records sought in the request for the records of the County Commission as shown in Exhibit B are reasonably relevant to the performance of an audit by the Missouri State Auditor under Missouri law.

72. The testimony sought from the County's designated records custodian is reasonably relevant to the performance of an audit by the Missouri State Auditor under Missouri law.

73. The testimony sought from the County's Assistant County Administrator is reasonably relevant to the performance of an audit by the Missouri State Auditor under Missouri law.

WHEREFORE, the Missouri State Auditor requests that this Court enter judgment enforcing its subpoena attached as Exhibit B in the following respects:

I. That Nicole Brown personally appear before the State Auditor or her representatives at a location and time to be set forth by separate Order of this Court, to answer questions under oath in connection with the audit of Clay County, Missouri.

II. That Nicole Brown and/or other responsible officials of Clay County, Missouri produce or make available to the State Auditor all records of Clay County Commission as shown in Exhibit B.

III. The County may make appropriate redactions for attorney-client privileged communications if a log is provided for each such redaction that contains sufficient information to determine whether the attorney-client privilege is properly invoked; and

IV. The County may make appropriate redactions for attorney work-product content if a log is provided for each such redaction that contains sufficient information to determine whether the work-product doctrine is properly invoked.

V. The County is not permitted to withhold any record from review by the State Auditor's Office unless such a review by the State Auditor is specifically prohibited by law.

VI. In conducting an audit, the State Auditor and her authorized representatives have the power to subpoena witnesses and to take testimony under oath, and to assemble records and documents by subpoena or otherwise.

COUNT III - DECLARATORY JUDGMENT

74. Paragraphs 1 through 73 are incorporated and re-alleged as if fully set forth herein.

75. The Auditor is conducting an ongoing audit of the County, and such audit will require the examination of records and witnesses that will include information and records that are not open, public records.

76. In the Auditor's conduct of the audit of the County, the Auditor is entitled to all records that are related to an audit conducted under the Missouri Constitution and in accordance with statute.

77. In the Auditor's conduct of the audit of the County, the Auditor is entitled to require witnesses to answer questions under oath.

78. In the Auditor's conduct of the audit of the County, the Auditor is entitled to question witnesses.

79. The need to examine records, question witnesses, and require witnesses to be examined upon oath as set forth herein has been and will be ongoing in nature.

80. The State Auditor has a legally protectable interest in performing her constitutionally and statutorily required duties in the manner provided by law.

81. Two subpoenas for records of the Commission has been served and full compliance has been refused.

82. A justiciable controversy exists.

83. The County's refusal to provide access to records is based upon the County's erroneous proposition that the State Auditor is not entitled to access to records that are closed under the Sunshine Law.

84. The County's refusal to provide access to County records is based upon the County's erroneous proposition that the State Auditor is not entitled to access to records absent a showing to the County as to how the content of such records is directly related to the receipt and expenditure of public funds.

85. The County's refusal to provide access to records is based upon the County's erroneous proposition that the State Auditor is prohibited by the Missouri Constitution from accessing certain records which include records closed under the Sunshine Law.

86. The County's refusal to provide access to records is based upon the County's erroneous proposition that the State Auditor is prohibited by the Missouri Constitution from accessing certain records which include records closed under the Sunshine Law absent a showing to the County as to how the content of such records is directly related to the receipt and expenditure of public funds.

WHEREFORE, the Missouri State Auditor requests that this Court enter judgment in favor of the Auditor, award her fees and costs in this action, and make the following declarations of law:

I. The State Auditor is permitted access to records of an auditee without regard to whether such records may be closed under Chapter 610 (the Sunshine Law).

II. The Missouri Constitution does not deny the State Auditor access to any particular record or any particular category of records;

III. The State Auditor is not required to make a showing to the County that the content of a record is related to the receipt and expenditure of public funds before the County is required to provide access to the record;

IV. With the exception of attorney-client privileged communications and attorney work product content, the County is not permitted to redact any information from any record on the basis that the information is not directly related to the receipt and expenditure of public funds;

V. The County is not permitted to withhold any record from review by the State Auditor's Office unless such a review by the State Auditor is specifically prohibited by law.

VI. In conducting an audit, the State Auditor and her authorized representatives have the power to subpoena witnesses and to take testimony under oath, and to assemble records and documents by subpoena or otherwise.

Respectfully submitted,

IN THE CIRCUIT COURT OF CLAY COUNTY, MISSOURI

NICOLE GALLOWAY, AUDITOR OF THE STATE OF MISSOURI, Plaintiff, v CLAY COUNTY, MISSOURI, et al., Defendants.	)	Case No 19CY-CV12168

JUDGMENT GRANTING PLAINTIFF'S MOTION FOR SUMMARY JUDGMENT

Now on this 23rd day of October, 2020, the Plaintiff appears by its attorney Joel E. Anderson and the Defendants appear by their attorney W. Joseph Hatley. The Court takes up the Plaintiff's Motion for Summary Judgment and the Defendants' Motion for Summary Judgment Arguments of Counsel are heard, and the Court being fully advised, finds as follows:

1. The State Auditor is authorized by the Missouri Constitution to conduct audits that are required by law. Audits required by Missouri Statute, including those specified in Chapter 29 of the Revised Statutes of Missouri (RSMo) are not limited by the Missouri Constitution to any particular type of audits.

2. The Missouri Constitution does not limit the Auditor's access to certain kinds of records or evidence in conducting an audit.

3. An audit under Section 29.235 RSMo that is required by law and performed in accordance with the provisions of Chapter 29 RSMo and performed in accordance with the provisions of Chapter 29 RSMo is a duty imposed on the Auditor that is related to the supervising and auditing of the receipt and expenditure of public funds as provided in Article IV, Section 13 of the Missouri Constitution.

4. Neither the Missouri Constitution nor Missouri Statutes require the Auditor to make a showing to any auditee as to how a particular record or set of records, or the testimony of witnesses is related to the receipt and expenditure of public funds prior to the duty to grant access to such records or witnesses during an audit.

5. Pursuant to Section 29.235 4(1), authorized representatives of the State Auditor may examine witnesses under oath in connection with a lawful audit without being licensed attorney

Wherefore, it is Ordered, Adjudged, and Decreed as follows:

a The Plaintiff's Motion for Summary Judgment is granted and the Defendants' Motion for Summary Judgment is denied

b The Defendants are Ordered to comply with both subpoenas (attached as Exhibit A and Exhibit B to Plaintiff's First Amended Petition) as follows:

i The Defendants are Ordered to produce all 2017-2019 meeting minutes, whether open or closed, redacted as specified in the subpoenas, and to the extent not already produced, within ten days of this Court's Order.

ii The Defendants are Ordered to produce the individual personnel performance appraisals of the persons and groups specified in the November 22, 2019 Subpoena within 10 days of this Court's Order

iii Defendant Nicole Brown is ordered to submit to an examination under oath by authorized audit staff at a reasonable time, whether or not such staff is licensed to practice law

James W. Van Amburg, Judge

IN THE MISSOURI COURT OF APPEALS WESTERN DISTRICT

CLAY COUNTY COMMISSION, Appellant, v. NICOLE GALLOWAY, AUDITOR OF THE STATE OF MISSOURI, Respondent.	)))))))))	WD83580 Opinion filed: December 29, 2020

APPEAL FROM THE CIRCUIT COURT OF COLE COUNTY, MISSOURI
THE HONORABLE JON E. BEETEM, JUDGE

Division One: Thomas N. Chapman, Presiding Judge,
Mark D. Pfeiffer, Judge and W. Douglas Thomson, Judge

This matter involves the issuance of a subpoena for closed session minutes of the Clay County Commission ("Commission") by Nicole Galloway, Auditor of the State of Missouri ("Auditor"). The Commission claims the minutes contain confidential attorney-client communications. The Commission appeals the trial court's judgment granting the Auditor's motion to dismiss the Commission's amended petition, which sought declaratory and injunctive relief, for failure to state a claim upon which relief may be granted. On appeal, the Commission does not challenge the trial court's dismissal of its amended petition but, instead, claims that the trial court

erred in including language in its judgment which they claim could be construed as ruling on the substantive merits of the Auditor's subpoena. We affirm.

Factual and Procedural History

The material facts are not in dispute. In August 2018, the Auditor notified the Commission that she would be performing an audit of Clay County, as requested by the requisite number of Clay County voters. In December 2018, while conducting the audit, the Auditor requested access to closed session minutes for the calendar years 2017 and 2018.

On January 31, 2019, the Commission filed a petition for declaratory relief, preliminary and permanent injunctions, and other relief ("Petition"). In the Petition, the Commission alleged that the closed session minutes requested by the Auditor contained attorney-client communications between the County and its attorneys. In count one, the Commission sought a declaratory judgment declaring that the Auditor does not have authority to access attorney-client communications between the County and its attorneys or the closed session minutes. In count two, the Commission sought injunctive relief alleging the County would be irreparably harmed by the exposure of the attorney-client communications. In count three, the Commission sought an accounting of the Auditor's charges. In count four, the Commission sought a determination that the Auditor's decision to seek attorney-client communications should be reversed or enjoined.

On the same date that the Commission filed the Petition, the Auditor served a subpoena ("Subpoena") on the assistant county administrator to produce all minutes of meetings of the Commission for the calendar years 2017 and 2018.

On February 4, 2019, the Commission filed an amended petition for declaratory relief, preliminary and permanent injunctions, and other relief ("Amended Petition"). The Amended Petition added the allegation that the Auditor served the Subpoena for the closed session minutes but otherwise sought the same relief sought by the Petition. On the same day, the parties filed a joint stipulated motion requesting the Subpoena be stayed during the pendency of the action.

On February 11, 2019, the Auditor moved to dismiss the Amended Petition on "on the ground that such claims are not justiciable, there is no reasonable likelihood of success on the merits, the Commission has failed to state a claim, and the Commission lacks standing." Therein, the Auditor alleged that the Commission's filing was a preemptive lawsuit claiming what *might* be at stake if it were to voluntarily comply with the Subpoena because the Auditor had not moved to enforce compliance with the Subpoena and the Subpoena was not self-enforcing.

On February 14, 2019, the Commission sought a preliminary injunction to enjoin the Auditor from taking any action to enforce the Subpoena for closed session minutes. On February 15, 2019, the trial court granted the joint stipulation motion to stay the Subpoena.

On March 26, 2019, a hearing was held on the Auditor's motion to dismiss and the Commission's motion for preliminary injunction. On April 8, 2019, the trial court

denied the Commission's motion for a preliminary injunction finding that "because enforcement of administrative subpoenas requires review by a circuit court, the Petitioners appear to have an adequate remedy at law. Accordingly, the Petitioners fail to demonstrate a likelihood of success on the merits and the request is denied."

On October 23, 2019, the trial court entered its order and judgment ("Judgment") granting the Auditor's motion to dismiss. The trial court found, in pertinent part:

> [1] The Commission's primary complaint is that the State Auditor requested closed meeting minute records, and such a request is unconstitutional because it is indicative of a "performance audit" and not restricted to a financial post-audit of transactions.
>
> [2] If there is content in such records that should not be disclosed, such an issue is properly raised in a proceeding to enforce an administrative subpoena.
>
> [3] THEREFORE, this Court finds that the Commission has failed to state a claim upon which relief may be granted as a matter of law, and this case is hereby dismissed with prejudice.[1]

On November 11, 2019, the Commission filed a motion to alter or amend the Judgment ("Motion to Amend") pursuant to Rule 73.01(d). The Commission requested that the trial court clarify that its judgment does not impair the Commission's right to challenge any subpoena issued by the Auditor in a subsequent proceeding by the Auditor to enforce her subpoenas. The Commission submitted a proposed judgment adding the following language after paragraph 2:

[1]The Judgment does not contain numbered paragraphs. The paragraphs are enumerated here for clarity of the analysis.

> Whether the Auditor is acting within the limits of her constitutional authority by requesting specific records is to be determined in a proceeding to enforce an administrative subpoena, not in this case. To be clear therefore, this judgment does not determine whether the Commission must produce any particular records.

Notably, the Commission's proposed judgment did not reflect any change to the dismissal of the case with prejudice. As the trial court did not rule on the Motion to Amend, it was deemed denied by operation of law after 90 days pursuant to Rule 78.06.[2] The Commission appeals.

Standard of Review

"A judgment sustaining a motion to dismiss for failure to state a claim upon which relief can be granted is reviewed de novo." *Smith v. Humane Society of United States*, 519 S.W.3d 789, 797 (Mo. banc 2017). "'A motion to dismiss for failure to state a claim' is solely a test of 'the adequacy of a plaintiff's petition.'" *Id.* (citation omitted). In reviewing a dismissal for failure to state a claim for relief, the appeals court should affirm the lower court if the dismissal is supported by any ground, whether or not the trial court relied on that ground. *Dujakovich v. Carnahan*, 370 S.W.3d 574, 577 (Mo. banc 2012).

Analysis

For its sole point on appeal, the Commission claims that the trial court erred in including language in its Judgment that could be construed as ruling on the substantive merits of the Auditor's subpoena for closed session minutes, because its order of dismissal had to be limited to the grounds asserted in the Auditor's motion

[2]All rule references are to Missouri Rules of Civil Procedure (2019), unless otherwise indicated.

to dismiss, in that the motion to dismiss the Commission's claims for declaratory and injunctive relief was limited to an argument that those claims were not justiciable. Notably, the Commission is not challenging the dismissal of the action.

Preliminarily, the Commission's point violates Rule 84.04(e), which requires the argument include the applicable standard of review. "'Compliance with Rule 84.04 is mandatory.'" *Wynn v. BNSF Railway Co.*, 588 S.W.3d 907, 913 (Mo. App. W.D. 2019) (citation omitted). "'A party's failure to comply with Rule 84.04 preserves nothing for appellate review.'" *Id.* (citations omitted). Nonetheless, we review the merits of the Commission's claim *ex gratia.*

(a) In the motion to dismiss, the Auditor expressly asserted that the Amended Petition should be dismissed for failure to state a claim upon which relief may be granted

The Commission claims that the trial court improperly dismissed the Amended Petition on grounds not raised in the Auditor's motion to dismiss. We disagree.

We will affirm a judgment of dismissal "if it can be sustained on any ground supported by the motion to dismiss," regardless of whether the trial court relied on that ground. *Basye v. Fayette R-III School Dist. Bd. of Educ.*, 150 S.W.3d 111, 114 (Mo. App. W.D. 2004); *Kinder v. Holden*, 92 S.W.3d 793, 805 (Mo. App. W.D. 2002). "In fact, 'if the court correctly dismissed the [action], the ground upon which the dismissal is based is immaterial.'" *Kinder*, 92 S.W.3d at 805 (citation omitted). "[W]e 'must affirm the trial court's dismissal if any ground asserted in the defendant's

motion is valid.'" *I.R. Kirk Farms, Inc. v. Pointer*, 876 S.W.2d 283, 285 (Mo. App. W.D. 1994) (citation omitted).

Here, the trial court dismissed the action finding that the Commission failed to state a claim upon which relief may be granted. The Commission claims that the Auditor's motion to dismiss was limited to an argument that the Commission's claims were not justiciable and, therefore, the trial court improperly dismissed on the ground that the Amended Petition failed to state a claim. The record does not support the Commission's argument. In its motion to dismiss, the Auditor moved for dismissal of "all claims on the ground that such claims are not justiciable, there is no reasonable likelihood of success on the merits, ***the Commission has failed to state a claim***, and the Commission lacks standing." The Commission fails to even acknowledge or address this fact in its brief. The Commission cites *Continent Foods Corp v. National-Northwood, Inc.*, 470 S.W.2d 315 (Mo. App. 1971), only for the statement that trial courts may not dismiss a petition for reasons not raised in the motion to dismiss. Where, as here, the ground relied on by the trial court was raised in the motion to dismiss, *Continent Foods Corp*. has no application. Thus, the trial court's dismissal of the action was properly based on a ground asserted in the Auditor's motion to dismiss.

(b) The Judgment expressly provides that a challenge to the merits of the Subpoena should be made in an action to enforce the Subpoena and, thus, does not support the conclusion that the Judgment foreclosed the Commission's ability to challenge a similar subpoena in a future proceeding

The Commission argues that the court's conclusion that the allegations in the Amended Petition did not state a claim could be read as ruling on the merits of the Amended Petition. The Commission claims that its concern is that the Judgment could be construed by a subsequent court as an order on the substantive merit of the Commission's objections to the Subpoena. Ultimately, the Commission requests that this court issue "a simple opinion holding that the dismissal of the Commission's [action] did not adjudicate the merits of the Commission's objections to the Auditor's subpoena[.]" This reading of the Judgment is uncontested by the Auditor on appeal. The Auditor states,

> The language from the judgment directly addresses and affirms the right of the Commission to challenge any records request from the Auditor in an appropriate proceeding. . . . Because the trial court explicitly held that any challenge to the compulsory production of records is to be made in an action to enforce an administrative subpoena, there is no reasonable reading of the court's judgment that would suggest that the trial court was ruling that the Commission would be foreclosed from challenging the authority of the Auditor to obtain specific records in another proceeding.

However, the Auditor maintains that this court should decline to issue an opinion requested by the Commission because the trial court offered no such ruling on the merits directly or by implication in the first place.

We agree that the Judgment did not adjudicate the merits of the Commission's objections to the Subpoena. Instead, the trial court ruled that such objections should be addressed in an action to enforce a subpoena. At the time of such an enforcement action, *any* appropriate challenge to the subpoena may be made.[3] Accordingly, the

[3]The Commission challenged the Auditor's constitutional power to obtain certain records. The trial court found there was nothing *per se* unconstitutional about the records request. We do not

Commission is not foreclosed from challenging the authority of the Auditor to obtain specific records in future proceedings. We find the language of the Judgment is clear and, therefore, the trial court did not err in denying the Commission's Motion to Amend.

(c) The Commission's argument that the Judgment of dismissal should have been entered "without prejudice" was not raised with the trial court and, therefore, is not preserved for our review

The Commission requests that we enter an order pursuant to Rule 84.14 that the trial court should have entered, dismissing the suit ***without*** prejudice. Rule 78.07(c) requires "In all cases, allegations of error relating to the form or language of the judgment, including the failure to make statutorily required findings, must be raised in a motion to amend the judgment in order to be preserved for appellate review." The Commission filed a motion to amend but did not include its claim that the Judgment should be entered "without prejudice." In fact, *the proposed judgment submitted by the Commission* with its motion to amend *specifically stated the Judgment should be entered with prejudice*. Thus, the claim is not preserved for our review. Moreover, in light of our determination that the Judgment does not foreclose the Commission from challenging the authority of the Auditor to obtain specific records in another proceeding where the Auditor seeks to enforce a subpoena, we fail to see how a ruling without prejudice is necessary.

---

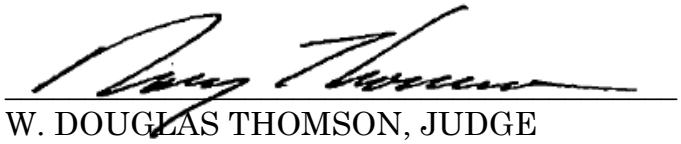
determine whether the trial court correctly found that the Auditor has such power because, like *all* challenges made against such a subpoena, it should be made in an appropriate enforcement action.

Nonetheless, such a designation triggers an inquiry of our ability to review the matter. Upon review, we find that whether the Judgment was entered with or without prejudice is of no consequence in this case because either designation results in the same outcome: that a challenge to such a subpoena should be made in an enforcement proceeding and not the declaratory relief action chosen by the Commissioner.

Point is denied.

Conclusion

We affirm the trial court's judgment.



W. DOUGLAS THOMSON, JUDGE

All concur.

OFFICE OF MISSOURI STATE AUDITOR

SUBPOENA

To: Tom Salisbury, Interim County Administrator
1 Courthouse Square
Liberty, MO 64068

YOU ARE COMMANDED AND REQUIRED to appear personally before the State Auditor or her representative(s) at the Fletcher Daniels State Office Building, Room 502, 615 East 13th Street, Kansas City, MO 64106, at 10:00 a.m. on Monday, March 23, 2021, for purposes of providing testimony about and producing for examination, copying, and interrogation the records and subjects described in Exhibit A attached to this Subpoena.

In lieu of appearance, physical access to the records described in Exhibit A may be granted for State Auditor staff on or before the appearance date listed above. Alternatively, records may be shipped to the Missouri State Auditor to the attention of Kelly Davis at 301 W. High St., Room 880, Jefferson City, MO 65102, to be received no later than the appearance date listed above.

ISSUED this 10th day of March, 2021, pursuant to Section 29.235.4(1) of the Revised Statutes of Missouri.

Nicole Galloway
Missouri State Auditor

OFFICE OF MISSOURI STATE AUDITOR

EXHIBIT A

The full personnel files and the 2018 timesheets and 2018 payroll disbursement data (i.e. listing of payments made to these individuals in 2018) for the following individuals:

a. Laurie Portwood
b. Nicole Brown
c. Brad Garrett

This request for records includes all materials that exist in paper ("hard copy") or electronic form (including but not limited to records and data maintained on computers, tablets, smart phones, external electronic storage drives, thumbnail drives, remote servers or back up tapes). All information requested in the items above are subject to inspection, review and copying by the state auditor. Section 29.235.4(1), RSMo.

Where an attorney-client privileged communication or the attorney work product doctrine for imminent or pending litigation is asserted as a basis for redaction of any portion of any record requested, the county must provide a privilege log or statement noting the reason for each assertion of privilege or the work product doctrine. Such log must describe the nature of the redacted information in sufficient detail to permit the State Auditor's Office to assess the applicability of the attorney-client privilege or work product doctrine.

IN THE CIRCUIT COURT OF CLAY COUNTY, MISSOURI
DIVISION 4

STATE OF MISSOURI ex rel Sheriff Paul Vescovo, III	)	
Relator,	)	
vs.	)	**Case No. 19CY-CV04353**
CLAY COUNTY, Missouri, et al	)	
Respondents.	)	

FINDINGS OF FACT AND CONCLUSIONS OF LAW

FINDINGS OF FACT

Background/Parties

1 Relator, Paul Vescovo, III, is an individual residing in Clay County, Missouri, and is the duly elected Sheriff of Clay County, Missouri, operating under the authority of Chapter 57 of Missouri Revised Statutes

2 Respondent Clay County, Missouri is a political subdivision of the State of Missouri and is a county of the first class authorized and empowered to act as a legal subdivision of the state under Article VI of the Missouri Constitution and Chapters 49, 50 and 67 of the Missouri Revised Statutes

3 The Clay County Commission ("Commission") is the general governing authority of Clay County, Missouri The Commission is comprised of three (3) commissioners, Jerry Nolte, Luanne Ridgeway, and Gene Owen

4 Respondent Jerry Nolte ("Nolte") is an individual residing in Clay County, Missouri sued in his official capacity as the duly elected Presiding Commissioner of Clay County

5 Respondent Luanne Ridgeway ("Ridgeway") is an individual residing in Clay County, Missouri sued in her official capacity as the duly elected Eastern Commissioner of Clay County, Missouri

6 Respondent Gene Owen ("Owen") is an individual residing in Clay County, Missouri sued in his official capacity as the duly elected Western Commissioner of Clay County, Missouri

7 The Chief Budget Officer of Clay County is Laurene Portwood ("Portwood"), who also holds the title of Assistant County Administrator

8 The budget officer for the Sheriff's Office is Captain Steven K Siercks, who also holds the title of Administrative Division Commander

9 The Detention Division Commander for the Sheriff's Office is Captain Cathy Compton

10 As the duly elected Sheriff of Clay County, Relator has many duties, statutory and legal, for which he and The Office of the Sheriff of Clay County are responsible, including

A To be the "jailer" for the county and to receive and care for all persons apprehended by the other officers of the county, including the duty to care for all inmates and prisoners humanly RSMo § 221 020,

B To be the conservator of peace within the county and to commit all offenders to jail for failure to recognize the peace RSMo § 57 100,

C To regularly patrol and police all county roads and highways RSMo § 57 113,

D To enforce all laws designed to safeguard the highways and citizens of the county RSMo § 57 113,

E To suppress assaults, batteries, riots, etc , and to apprehend and commit all felons to jail RSMo § 57 100, and

F To execute all process directed to the Sheriff RSMo § 57 100

11 As a separate office and department of Clay County, all salaries, administration, operating, and other expenses necessary to carry out these duties and obligations of the Sheriff's Office are derived from County funds, with the payment of such expenditures authorized by the County Treasurer's Office in accordance with the annual County budget

12 While a separately elected office, the Sheriff's office budget is set and controlled by the Commission, pursuant to Missouri's budget statutes

13 The Sheriff's office total budget is comprised of several components, including but not limited to an "Operating Budget," covering "contractual and commodities" expenses for operating the Sheriff's Office

14 The Sheriff's Operating Budget is separate and apart from the budget for the Sheriff's office salaries and compensation for staff and officers

15 For the 2019 budget year, the County Budget Office, and Commissioner Ridgeway decided to break down the Sheriff's Operating Budget into five (5) basic lines or "silos," the term used by the County Budget Office The five "expense line items," are as follows

A Field Operations,

B Civil Process & Court Security,

C Detention,

D Administration, and,

E 911 Emergency Management

16 The Sheriff's Operating Budget for the years 2016 to 2019 are as follows

2016	**2017**	**2018**	**2019**
$2,527,186	$2,578,366	$2,114,743	$1,788,829

TE-1

17 Pursuant to state law and statutes, the Commission and/or other authorized agents of the County enter into contracts, binding Clay County, which support the Sheriff's Operating Budget Request each year, and said contracts establish term and supply pricing and minimum estimates of County expenditures for the Sheriff's office and the County

18 A significant portion of the Sheriff's Detention portion of his Operating Budget are contracts for food for the inmates, (*TE- 20*) and for healthcare for the inmates, (*TE-24, 25, 26*) These contracts cover the 2019 budget year and are contractual obligations of Clay County

19 The Budget Process and Requisition and Payment Process is a system of checks and balances, ensuring that expenditures are made within an approved budget, reviewed by multiple parties and permit individual offices, such as the Sheriff's office, to enable them to meet their legal obligations to the citizens of Clay County

20 Within the Budget Process and Requisition and Payment Process the Sheriff's office acts as proposer of the budget and a contract administrator of all expenditures relevant to the Sheriff's office's budget The Sheriff has no authority to enter into contracts to bind the County or to pay or not to pay specific requisitions The Sheriff's office's role is best described as a "contract administrator" for the Sheriff's budget

21 On July 27, 2018 the Sheriff's office submitted its 2019 Operating Budget Request using the account number of 279/556, as historically required by the County's budget officers *TE-3*

22 The Sheriff's 2019 Operating Budget Request was in conformity with §50 540 and was based on the Sheriff's office's expenditure estimates based on historical information, as well as other anticipated or requested expenditures and including the various contracts for services and

commodities entered into by the County by way of written contracts, approved and signed by the then County Administrator and current Commissioners

23 The significant contracts which underlie and support the Sheriff's 2019 Operating Budget Request include but are not limited to contracts for food, healthcare, and related services and commodities *TE-24, 25, 26, and 20*

24 In mid-August 2018, representatives of the Sheriff's office, including Captain Siercks, met with representatives of the Clay County Budget office, including Chief Budget Officer Portwood, to discuss the Sheriff's budget request for 2019 and to answer any questions from Chief Budget Officer Portwood

25 In late November 2018, the County Budget Office filed its "2019 County Proposed Budget" online for officeholders to review *TE-4* The Proposed Budget was Clay County's only response to the Sheriff's 2019 Operating Budget Request and it contained the following

A Without notice to the Sheriff, the Chief Budget Officer for Clay County "reorganized" the Sheriff's 2019 Operating Budget Request into five (5) separate line item accounts for "contracts" and "commodities" for "Field Operations," "Civil Process & Court Security," "Detention," Administration," and "911 Emergency Management" *TE-4, 2*

B The 2019 County Proposed Budget set out columns and numbers for "2017 Actual," "Modified 2018 Budget," "Projected 2018 Expenditures," "2019 Amended Request," and "2019 Proposed" The "2019 Amended Request" was made to appear as though this was the Sheriff's Office's amended request for the Sheriff's 2019 Operating Budget, when in fact it was not prepared by the Sheriff's office

C Neither the Sheriff's 2019 Budget Request nor the requested amounts were contained in the County's 2019 Proposed Budget *TE*-4

26 Following the receipt of the County's 2019 Proposed Budget, (*TE-4*), the Sheriff's office sent written communications to Chief Budget Officer Portwood, giving the County's Budget Office notice that the County's proposed budget for the Sheriff's Operating Budget failed to meet

the funding necessary for the Sheriff's Detention Division by some $1 4 million in anticipated detention costs Specific written communications included

A An email from Captain Siercks to Chief Budget Officer Portwood dated December 5, 2018, (*TE-9*),

B A letter from Sheriff Vescovo to the County Commission and Budget Team dated December 6, 2018, (*TE-17*) Relator's offices put the Commission and Budget Team on notice that the 2019 County Proposed Budget did "not come anywhere near meeting the funding necessary for the two biggest ticket items in the Sheriff's Detention Budget ", and

C An email from Captain Cathy Compton to Commissioner Ridgeway putting the Commission on notice that the proposed budget fails to meet the 2019 funding necessary to pay the detention contracts for food and healthcare *TE-54*

27 The only response the Sheriff's office received to these communications and concerns was Chief Budget Officer Portwood's email response of December 5, 2018, "I recommend that you review the complete Sheriff's budget and be prepared to discuss with the Commission where other funds may be reallocated within the law enforcement funds " *TE-9*

28 From early December 2018 through the adoption of the County's 2019 Budget on January 28, 2019, Chief Budget Officer Portwood, Commissioner Ridgeway and the Clay County Budget Office knew that the budget for the Sheriff's Operating Budget failed to provide funds to meet the Detention and Administration line items in the 2019 Sheriff's Operating Budget and therefore failed to present a complete financial plan for the ensuring 2019 budget year *TE-18, 19*

29 On January 28, 2019, the Commission adopted the County's 2019 Budget with a two to one vote, with Commissioners Ridgeway and Owen voting in favor of the Budget and Commissioner Nolte voting against the Budget *TE-12*

30 The Commission's adopted 2019 Budget made cuts to the Sheriff's 2019 Operating Budget Request, including an over 60% reduction of funds requested for contract and commodities

expenditures underlying the following "re-organized" sub-accounts of the Sheriff's 2019 Operating Budget

Account No.	Description	Requested Budget	Adopted Budget	Difference
279-554-301	Civil Process & Court Security Commodities	$231,839	$68,553	$163,286
279-555-209	Detention Contractual	$1,579,410	$532,571	$1,046,839
279-555-301	Detention Commodities	$179,375	$164,478	$14,897
279-556-209	Administration Contractual	$445,114	$214,896	$230,218
279-556-301	Administration Commodities	$365,435	$66,368	$299,067
	Total	$2,801,173	$1,046,866	$1,754,307

TE-2, 12

31 The County Commission approved the 2019 Sheriff's Operating Budget at $1,788,829 00, against the $3,177,273 Sheriff's 2019 Operating Budget Request for a deficiency of $1,388,444 00 *TE-2, 12*

32 The County's approved Budget for 2019 shorted the anticipated need for Inmate Food Service in the amount of $319,000 and for Inmate Medical Care in the amount of $436,152 for a shortage of $755,152 needed to provide for inmate food and healthcare *TE-14* This is the amount needed for the County to fulfill its contractual obligations pursuant to the County's contracts with these providers of goods and services *TE-14* This Court heard no evidence as to why this was done, and specifically finds that, based on the testimony of Portwood, there was no reason

33 The Sheriff's Requested budget for contracts and commodities for Detention, which includes but is not limited to the amounts needed to meet the County's contracts with these providers of goods and services for food and healthcare, was $1,758,785 and the County's 2019 Budget for Detention contracts and commodities was $697,049 *TE-2, 55, 56*

34 On June 14, 2019, the Sheriff's office put the Clay County Commission on notice that because of the "inadequate funding" for Detention accounts for Inmate Medical Care and Inmate Food Service that additional funds were needed to "fulfill the County Commission-approved contracts for the remainder of 2019 and to adequately care for the custody of the inmates confined to the Clay County Detention Center."

35 The Sheriff's office requested $755,152 in additional funding that would be needed for contracted Inmate Medical Care ($436,152) and for contracted Inmate Food Service ($319,000) *TE-14*

36 On June 20, 2019, Chief Budget Officer Portwood responded to the REQUEST FOR OFFICIAL ACTION by stating "This item should not be placed before the Commission due to pending litigation." TE-15

37 On June 24, 2019, after the Sheriff's office asked for a clarification, Chief Budget Officer Portwood responded by stating "Per Counsel's advice, matters pertaining to pending litigation should not be placed before the commission."

38 Chief Budget Officer Portwood refused to consider the Sheriff's office's REQUEST FOR OFFICIAL ACTION *TE-15*

39 This Court specifically finds that Chief Budget Officer Portwood's testimony was at best not credible

40 As of the date of trial, the following invoices from the vendor providing medical and dental care for inmates at the Clay County Detention Center, Advanced Correctional Healthcare, Inc have remained unpaid

Date	Invoice #	Amount
7/1/2019	87098	$72,692 92

8/1/2019	88132	$72,692 92
	Total	**$145,385.84**

TE-50

41 As of the date of trial, the following invoices from the vendor providing food for inmates at the Clay County Detention Center, Trinity Services Group, Inc , have remained unpaid

Date	Invoice #	Amount
6/28/2019	3022400047	$4,267 67 (incl partial payment)

	Total	**$60,421.18**

TE-51

42 Relator testified it is his belief Chief Budget Officer Portwood proposed, and Commissioners Ridgeway and Owen voted for the cuts in the Sheriff's Operating Budgets in 2018 and 2019 as retaliation for the Sheriff taking the complaint by the County Clerk of the tampering with public records by Clay County's Chief Budget Officer, Laurene Portwood *Testimony of Sheriff Vescovo*

43 Respondents Clay County, Commissioners Ridgeway and Owen did not offer any explanation for the decreases in the Sheriff's Operating Budget for the years of 2018 and 2019

CONCLUSIONS OF LAW

1 None of the parties have contested jurisdiction or venue in this matter, and the Court concludes it has jurisdiction and venue is proper pursuant to the relevant Missouri rules, statutes, and Article V, section 14, of the Missouri Constitution as interpreted by the Missouri Supreme Court *See e g* Supreme Court Rules 94 01, 94 03, RSMo §§ 536 150, 508 010, *J C W ex rel Webb v Wyuciskalla*, 272 S W 3d 249, 254 (Mo Banc 2009)

2 The procedure for the preparation and execution of Clay County's annual budget is set out in Missouri's County Budget Law, RSMo §§ 50 525, *et seq* "The purpose of the County Budget Law is succinctly stated The annual budget shall present a complete financial plan for the ensuing budget year " RSMo § 50 550, *Allen v Butler County*, 743 S W 2d 527, 528 (Mo App 1987)

3 To this end, "all offices, departments, courts, institutions, commissions or other agencies," RSMo § 50 640, are to "prepare and submit to the budget officer estimates of its requirements for expenditures and its estimated revenue for the next budget year " RSMo § 50 540

4 The County Budget Officer compiles each office and agency budget request, and then prepares a budget document transmitted to the Clay County Commission RSMo § 50 540 4

5 If the County Budget Officer recommends a decrease in the estimate of any County office or department in the proposed budget to the Commission, special notice and opportunity to be heard by the Commission must be given to the office or agency before adoption of the budget RSMo § 50 540 5

6 The Commission then has the authority to approve the proposed budget, including any increases or decreases, and to "revise, alter, increase, or decrease the items contained in the budget and eliminate any item or add new items " RSMo § 50 610

7 However, the County Budget Laws mandate that the final budget adopted by the Commission "shall contain adequate provisions for the expenditures necessary for the salaries, office expenses and deputy and clerical hire of all county officers and agencies " RSMo § 50 550

8 Further, all contracts "imposing any financial obligation on the county" must be accompanied by "a balance otherwise unencumbered to the credit of the appropriation to which it is to be charged and a cash balance otherwise unencumbered in the treasury to the credit of the fund from which payment is to be made, each sufficient to meet the obligation incurred and unless the contract or order bears the certification of the accounting officer so stating " RSMo § 50 660 *Also see Allen*, 743 S W 2d at 528

9 Mandamus is an appropriate remedy to compel a county commission to budget expenses within the requirements of the law *Allen*, 743 S W 2d at 528

10 In order to issue a writ of mandamus, this Court must find (i) "an existing, clear, unconditional legal right in the relator," and (ii) "a corresponding present, imperative, unconditional duty on respondent " *State ex rel St Joseph Hosp v Fenner*, 726 S W 2d 393, 395 (Mo App 1987)

11 The Court finds both elements are satisfied here Specifically (1) Relator has a clear, unequivocal and specific right to have Respondents appropriate and set aside funds for payment of the County's approved contracts as requested and submitted in Relator's 2019 Operating Budget Request and/or directly pay the County's approved contracts underlying the Sheriff's accounts making up the Sheriff's 2019 Operating Budget, and (2) Respondents have the

present, imperative, and unconditional duty to pay the County's approved contracts as requested and submitted in Relator's 2019 Operating Budget Request

12 The county commission and its members are "agents of the county with no powers except those granted and limited by law." *Allen*, 743 S.W.2d at 528. "[L]ike all other agents, it must pursue its authority and act within the scope of its powers" and "cannot bind a county by an act contrary to prescribed procedure or to a statutory restriction upon [its] power." *Id.*

13 The Missouri Supreme Court has made clear that "[o]nce appropriations are fixed and the Appropriation Order entered, the Commission may not control the spending decisions of [a County officeholder] made within appropriations to that office." *Kuyper v. Stone County Commission*, 838 S.W.2d 436, 440 (Mo. 1992). The Court further stated that "within that Fiscal Year, an [officeholder] may expend funds appropriated to his or her office as he or she sees fit, provided the expenditures are within the limits and for the purposes set out in the Appropriation Order." *Id.*

14 While the legislature generally vests a county commission with ultimate authority over the "county's coffers," it has also limited this authority by requiring minimum budget appropriations under certain circumstances. *See State ex rel. Hunter v. Lippold*, 142 S.W.3d 241, 245-246 (Mo. App. W.D. 2004), *Hunter v. County of Morgan*, 12 S.W.3d 749, 760–61 (Mo. App. W.D. 2000).

15 As the court noted in *Allen*, "[a]n express restriction upon such power is the County Budget Law" itself. 743 S.W.2d at 528. That is, the same laws from which Respondents' discretionary budgeting power is derived also impose fundamental statutory limitations on that power by requiring that

A "the annual budget shall present a complete financial plan for the ensuing budget year [and] shall set forth all proposed expenditures for the administration, operation and maintenance of all offices " RSMo § 50 550, and

B all contracts "imposing any financial obligation on the county" be accompanied by "a balance otherwise unencumbered to the credit of the appropriation to which it is to be charged and a cash balance otherwise unencumbered in the treasury to the credit of the fund from which payment is to be made, each sufficient to meet the obligation incurred " RSMo § 50 660

16 These statutory restrictions are "mandatory and not merely directory " *Allen*, 743 S W 2d at 529 That is, by use of the word "shall" in § 50 550, the legislature created a clear, non-discretionary duty on the Commission to adopt a budget with adequate provisions for necessary expenditures of Relator's office *State ex rel Hunter*, 142 S W 3d at 245-246 Likewise, § 50 660 creates a clear, non-discretionary duty to, *at a minimum*, appropriate and/or set aside all funds required to make payments due under written and approved county contracts *Id*

17 Further, "although a writ of mandamus may not be used to control the exercise of discretion in good faith, it will lie where a supposed discretion has been exercised arbitrarily, capriciously or in bad faith, in those circumstances it being regarded that the field of discretion was abandoned " *State ex rel Kopper Kettle Restaurants, Inc v City of St Robert*, 424 S W 2d 73, 80–81 (Mo App 1968)

18 The County Commission, either by and through its Budget Officer or on its own, cannot on the one hand purposefully underfund a specific line item for services that are mandatory due to the County Commission's own contractual obligations, and one the other hand intentionally restrict the authority of the Sheriff by a county ordinance to move monies within his overall budget, and then suggest that the Sheriff use other funds at his discretion

19 The credible and competent evidence is that Respondents Clay County and Commissioners violated these clear, non-discretionary duties by knowingly failing to budget and appropriate enough money in the 2019 Adopted Budget to make payments on the County's obligations under the various contracts underlying Relator's Detention Contractual and Commodities and Administration Contractual and Commodities accounts

20 The credible and competent evidence is that Chief Budget Officer Portwood was aware that the 2019 Proposed Budget she submitted to the Commission in November 2018 did not present a complete financial plan or set forth all expenditures necessary for Relator to meet his legal duties as the lawfully elected Sheriff of Clay County, in that it failed to provide enough funds in Relator's Detention Contractual and Commodities and Administration Contractual and Commodities accounts to cover payments that would need to made to vendors under contracts entered into by the County, including inmate food, healthcare and other goods and services at the Clay County Detention Center

21 The credible and competent evidence is that Chief Budget Officer Portwood also failed to give Relator the special notice required by § 50 540(5)(1) when she submitted the 2019 proposed Budget to the Commission in November 2018

22 The credible and competent evidence is that Respondents Ridgeway and Owen voted to pass the 2019 Adopted Budget in January 2019, knowing that it did not present a complete financial plan or set forth all expenditures necessary for Relator to meet his legal duties as the lawfully elected Sheriff of Clay County, in that it failed to appropriate enough funds in Relator's Detention Contractual and Commodities and Administration Contractual and Commodities accounts to cover payments that would need to made to vendors under contracts entered into by

the County, including inmate food, healthcare and other goods and services at the Clay County Detention Center

23 The credible and competent evidence is that due to Respondents' failure to meet their statutory obligations under RSMo §§ 50 550 and 50 660, Relator's office ran out of budgeted funds necessary to fulfill the Sheriff's duties and obligations of providing food, medical care, clothing and other goods and services necessary for the custody and care of inmates confined to the Clay County Detention Center in June 2019

24 The credible and competent evidence is that all attempts by Relator to have Respondents appropriate additional funds necessary to make payments on the County's obligations under the various contracts underlying Relator's Detention Contractual and Commodities and Administration Contractual and Commodities accounts through the County budget administrative process have been fruitless, including Chief Budget Officer Portwood's, and the Clay County Commission's, refusal to place the issue on the Commission's agenda [1]

25 The credible and competent evidence is that the intent of Respondents' manipulation of the budgeting process and failure to meet their statutory obligations under RSMo §§ 50 550 and 50 660, as set out herein, is to force Relator to use statutory funds and/or money budgeted for other purposes to pay the County's obligations under the various contracts underlying Relator's Detention Contractual and Commodities and Administration Contractual and Commodities accounts *See e g*, RSMo §§ 50 535 2, 50 565 4, 488 5026 3

26 The credible and competent evidence also shows that pursuant to the Appropriation Order passed with the 2019 Adopted Budget, 2019-ORD-02a, the Sheriff is only authorized to make expenditures "solely for the purposes and objects described in each expense line" of the

[1] It is unclear from the record why Presiding Commissioner Nolte chose not to either place this issue on the agenda, or take it up during an open session of the Commission meeting

budget, and "not authorized to expend sums in excess of the amounts of each expense line item shown for that particular purpose and object" *TE-12, at pg 21*

27 The credible and competent evidence is that Respondent's actions were "arbitrary, capricious or in bad faith" to the extent they intentionally manipulated the budgeting process in order to force Relator, after the fact, to divert discretionary or other funds designated for another purpose to fulfill the County s known contractual obligations related to such critical expenditures as food, healthcare, and clothing for inmates at the County jail

28 The Court finds there is no legal authority which requires Relator to use discretionary funds or funds appropriated for another purpose to pay the County's obligations under the various contracts underlying Relator's Detention Contractual and Commodities and Administration Contractual and Commodities accounts, and, more importantly, would violate the Appropriation Order passed by the Commission with the 2019 Adopted Budget

29 As to Count I, the Court finds Respondents, individually and collectively, have an affirmative and ministerial duty and a mandatory obligation imposed by law to

A To immediately transfer, sequester and set aside the additional amount of $436 152 from the Clay County Clay County General Fund Budget to Account numbers 279-555-209 and 279-555-301 to cover the financial obligations of the County for the contracted Inmate Healthcare Services with Advanced Correctional Heath Care (#2019-125),

B To immediately transfer, sequester and set aside the additional amount of $319,000 from the Clay County Clay County General Fund Budget to Account numbers 279-555-209 and 279-555-301 to cover the financial obligations of the County for the contracted Inmate Food Service with Trinity Services Group Inc , (#2018-401), and

C To immediately transfer, sequester and set aside the additional amount of $230,218 from the Clay County General Fund Budget to Account numbers 279-556-209 and 279-556-301 to cover the financial obligations of the Office of the Sheriff for Administration

30 As to Count II, the Court denies the relief requested

31 As to Count III, Missouri statutes provide authority for Relator to pay for attorneys' fees from his budget

> The sheriff of any county may employ an attorney at law to aid and advise him in discharge of his duties and to represent him in the court The sheriff shall set the compensation for an attorney hired pursuant to this section within the allocation made by the county commission to the sheriff's department for compensation of employees to be paid out of the general revenue fund of the county

RSMo § 57 104 1

32 By the clear terms of the statute, the Sheriff may pay his attorneys from "the allocation made by the county commission to the sheriff's department for compensation of employees " *Id*

33 This Court has no authority to require Clay County to compensate Relator's attorneys over and above that which has been allocated by the Commission for Sheriff's office employees and/or attorneys for this budget year

34 Therefore Count III is denied

IT IS THEREFORE ORDERED ADJUDGED AND DECREED: That the Clay County Commission allocate and budget and additional $755,152 00 into Fund 279 Department 555 to be used by the Sheriff to satisfy the existing contracts for the food and health care of Detainees in the Clay County Detention Center for the remainder of 2019 Additionally, the Clay County Commission is Ordered to allocate and budget an additional $230,218 00 for the Administrative costs of the operation of the Detention Center into Fund 279 Department 555 That the Writ of Mandamus is hereby issued

Dated August 29, 2019

Daren L Adkins, Assigned Judge

In the Missouri Court of Appeals Western District

STATE OF MISSOURI EX REL SHERIFF PAUL VESCOVO, III,	**WD83130**
Appellant-Respondent,	**CONSOL. WITH: WD83172 and WD83196**
v.	
CLAY COUNTY, MISSOURI, ET AL.,	**OPINION FILED:**
Respondents-Appellants.	**DECEMBER 5, 2019**

Appeal from the Circuit Court of Clay County, Missouri
The Honorable Daren Lee Adkins, Judge

Before Special Division: Alok Ahuja, Presiding Judge, Gary D. Witt, Judge, Anthony Rex Gabbert, Judge

INTRODUCTION

In this consolidated appeal, we consider the cross-appeals of Appellant-Respondent Sheriff Paul Vescovo, III and Respondent-Appellants Clay County, Missouri and Clay County, Missouri Commissioners Gene Owen and Luann Ridgeway (the "County"). Respondent Jerry Nolte, also a Clay County, Missouri Commissioner, appeared as a defendant below and appears before us now solely as a respondent.[1] This appeal arises from an action before the Circuit Court

[1] All three members of the Clay County Commission were named as defendants in the Sheriff's lawsuit, in their official capacities. Commissioner Nolte appeared through separate counsel from the County and the other Commissioners, and participated extensively in proceedings both here and in the circuit court. Commissioner Nolte took a position largely aligned with the Sheriff, and contrary to the position of the majority of the Commission of

of Clay County, Missouri where Sheriff Vescovo sought a writ of mandamus, declaratory relief, and attorney's fees. Sheriff Vescovo raises one point on appeal, claiming the circuit court erred in not awarding him attorney's fees. The County raises one point on appeal, claiming the circuit court erred in issuing its writ of mandamus. We affirm the issuance of the writ of mandamus, reverse the denial of attorney's fees by the trial court but deny the Sheriff's motion for attorney's fees for the appeal, and remand for further proceedings.

BACKGROUND

The facts, in the light most favorable to the judgment, are as follows. Sheriff Vescovo is the duly elected Sheriff of Clay County, Missouri. Clay County, Missouri, a first class county under state law, is a political subdivision of the State of Missouri. The Clay County Commission is the governing authority of Clay County, and it is comprised of three elected commissioners: Jerry Nolte, Luanne Ridgeway, and Gene Owen. Commissioners Nolte, Ridgeway, and Owen were sued in their official capacities. Laurene Portwood, who is not a party to this appeal but figures prominently in the relevant events, is both the Chief Budget Officer of Clay County and the Assistant County Administrator.

Sheriff Vescovo has many legal duties, largely prescribed by statute, which include the duty to be the "jailer" for Clay County. As jailer, he is responsible for the custody and humane care of all inmates and prisoners. He is also charged with keeping the peace, patrolling and policing county roads and highways, committing offenders to jail, enforcing public safety laws,

---

which he is a member. We have serious reservations whether a single legislator, who took a minority position on a challenged legislative action, and who is sued solely in his or her official capacity, has standing to litigate his or her minority position, independently from and in opposition to the legislative body of which the legislator is a part. We need not ultimately resolve that issue here, however, since we have no similar concerns regarding the Sheriff's standing, and Commissioner Nolte raises no new issues not already presented by the Sheriff. Additionally, none of the parties objected to his participation in this litigation or raised arguments challenging his standing.

providing courthouse security, and serving process. Although he is a separately elected official, and he presides over a separate office and department, his budget is explicitly set and controlled by the Clay County Commission, pursuant to state law.

As part of the budgeting process, Sheriff Vescovo's office, along with other county departments, presents a proposed department budget to the County's Chief Budget Officer, Laurene Portwood. Portwood then compiles and presents the various proposed budgets to the Commissioners as a proposed budget for the county as a whole, making adjustments as deemed necessary in light of the needs of the County. The Sheriff's budget includes an operating budget, which is separate from the budget used to pay personnel. The Sheriff's operating budget for the years 2016 and 2017 was approximately $2.5 million. His operating budget in 2018, which was cut for reasons discussed below, was $2.1 million. In 2019, he requested $3.1 million. This proposed operating budget was based on estimated expenditures calculated in part from historical information regarding prior years' actual expenditures. Throughout these years, the County's revenues increased each year.

A sizable portion of the Sheriff's proposed operating budget for 2019 was for operation of the county jail, including monies to fulfill contractual obligations with vendors providing inmate food, healthcare, and other commodities. The contracts establish term and supply pricing and estimates of the expenditures the County should expect to make under the contracts. The contract for inmate food sets forth a per meal price. The healthcare contract includes fixed fees for onsite medical personnel. As required by state law, vendor contracts were entered into and approved by the Commission. Chief Budget Officer Portwood, pursuant to authority granted to her by the Commission, personally signs many of the County's contracts, including the contract

for inmate food. Sheriff Vescovo possesses no authority to enter into contracts on behalf of the County or his department.

During the 2019 budgeting process, Sheriff Vescovo presented his proposed operating budget to Chief Budget Officer Portwood in late-July, 2018. In August of 2018, representatives of the Sheriff's office met with Portwood to discuss the proposed budget and address any concerns. When she compiled and made her proposed budget for the County available for departments to review in November of 2018, Portwood had unilaterally reduced the Sheriff's proposed operating budget, including by significantly reducing portions of the budget dealing with vendor contracts for operation of the jail including for inmate food and healthcare. In addition to reducing Sheriff Vescovo's operating budget, Portwood also reorganized his budget into five line-items or "silos", a change from how his budget was organized in previous years. These silos included Field Operations, Civil Process & Court Security, Detention, Administration, and 911 Emergency Management. In reducing his proposed budget, Portwood did not contact Sheriff Vescovo directly to provide notice of her reductions or give his office any opportunity to discuss the proposed reductions with her or with the Commission.[2] Sheriff Vescovo's office first learned of the reductions when the 2019 County Proposed Budget was posted online for officeholders to review.

Sheriff Vescovo's own budget officer, Captain Siercks, emailed Portwood on December 5, 2018 to express his concerns that the 2019 budget did not sufficiently fund, among other

[2] The County Budget Law, Mo. Rev. Stat. §§ 50.525 – 50.745 (2016), sets forth detailed procedures regarding how county budgets are to be adopted. Section 50.540.5(1) states that in class one counties, if the budget officer recommends "any decrease or reduction" in a department's proposed budget, the budget officer "shall give special notice to the officer or agency of the decrease or reduction and the officer or agency is entitled to be heard thereon by the county commission."

things, the operation of the jail. Portwood responded with the recommendation that the Sheriff "be prepared to discuss with the Commission where other funds may be reallocated within law enforcement funds." Sheriff Vescovo followed up with a letter on December 6, 2018, which again stated that the 2019 budget was grossly insufficient to fund the jail's biggest expenses: inmate food and healthcare. Commissioner Ridgeway was also emailed by Sheriff Vescovo's office and given notice that the 2019 budget did not adequately fund the contracts for inmate food and healthcare. Neither Sheriff Vescovo's letter nor the email to Commissioner Ridgeway received responses.

On January 28, 2019, consistent with the Budget Officer's recommendations, the Commission adopted a 2019 Operating Budget giving the Sheriff $1,788,829, over $1.3 million less than the $3,177,273 he requested.[3] Commissioners Owen and Ridgeway voted in favor of the budget. Commissioner Nolte voted against the budget. The appropriations ordinance approving the budget also adopted line items, similar to the silos present in Portwood's proposed budget, and it contained the following language: "Limits on Expenditure Authority. Each Expenditure Authority is not authorized to expend sums in excess of the amounts of each expense line item shown in 2019 – ORD-01 for that particular purpose and object." This language prevented the Sheriff from moving funds between expense line items in his budget. This prohibited him from transferring funds to address critical shortfalls in the areas of inmate food and healthcare. The adopted budget left a budget shortage of $755,152 for inmate food and

[3] This was over $700,000 less than the Commission budgeted for his office in 2016 and 2017 and over $300,000 less than the Commission budgeted for his office in 2018.

healthcare, roughly 60% less than required to satisfy the historical amounts necessary to cover these vendor contracts.[4]

Sheriff Vescovo filed a Petition for Writ of Mandamus, Declaratory Judgment, and Attorney's Fees in the Clay County Circuit Court on April 19, 2019. He requested both a preliminary and permanent writ ordering the County to provide an additional $1,754,307 to allow his department to cover various contractual obligations, including payments to vendors for inmate food and healthcare. His second claim requested a declaratory judgment that the under-funding of his office in 2018 was illegal and damaging to his office, and restitution of the reduced amounts and attorney's fees. His third claim requested reimbursement of his attorney's fees.

A hearing was held on June 10, 2019 where the parties argued a motion to dismiss filed by the County and the Sheriff's request for a preliminary writ. At the hearing, the County argued that the Sheriff had not exhausted all administrative remedies prior to filing suit, namely, he had failed to properly bring the matter before the Commission with a request that they amend his budget. The court declined to enter the preliminary writ, noting that the vendor contracts for the jail were not yet in arrears and that the Sheriff still had alternative remedies available to him as suggested by the County. Nonetheless, the motion to dismiss was denied, the matter was set for a bench trial beginning in August, and discovery commenced on an expedited schedule.

In light of the County's defense that the Sheriff had not brought the matter before the Commission, a request was promptly made. On June 14, 2019, the Sheriff's office informed the Commission that because his budget for the jail was inadequately funded, additional funds were

[4] While the number of inmates confined in the jail on any given day can vary, the overall jail population has remained fairly consistent over the relevant period of time.

needed to satisfy vendor contracts for inmate food and healthcare. He requested that the matter be placed on the agenda for the next County Commission meeting, and he included a request for official action transferring $755,152 from the County's general fund to the Sheriff's fund for the purpose of paying vendor contracts. Portwood responded with an email stating that "[p]er counsel's advice, matters pertaining to pending litigation should not be placed before the commission." The Commission has granted to Portwood the authority to place items or refuse to place items on its agenda.

A bench trial commenced on August 7, 2019. The parties first presented arguments regarding a motion for sanctions filed by Commissioner Nolte against the County. The Sheriff requested that the County produce emails and various other communications regarding the Sheriff's budget, with an apparent agreement that the County would comply with such request prior to the first deposition of the County's official representative, Portwood. Commissioner Nolte claimed that all of nine emails were produced prior to that first deposition. At the deposition, it was revealed that over 8,000 potentially relevant emails had come up in searches of the County's email server. After the first deposition, and before a second deposition was conducted, an additional 8,390 emails were produced. Counsel's review of the 8,390 emails revealed that some emails had been sent to or from personal email addresses. There were personal email addresses for Commissioner Ridgeway and Portwood, as well as members of Portwood's staff. Searches for personal email addresses appearing within the 8,390 produced emails suggested there were hundreds of emails sent to and from personal email accounts addressing the Sheriff's budget which were not produced by the County.

At Portwood's second deposition, she testified that she was not aware of people using personal email accounts for County business and that they had not bothered to include any

emails to and from personal email accounts in their search for relevant communications. At her third deposition, she again stated that she had not searched for personal emails relevant to the discovery request. At the court hearing, the County argued that it was unable to account for emails not on its servers, counsel had failed to send "Golden Rule" letters in accordance with local rules, and that subpoenas would be necessary as individuals' personal emails were sought as opposed to County emails. Noting that Portwood, the County's representative for the depositions, made no effort to locate personal emails despite her awareness of the issue, and the case's expedited timeline rendered strict adherence to the local rules impractical, the court issued sanctions, forbidding the County from presenting any evidence, making statements, or cross-examining witnesses during the trial. The Sheriff and Commissioner Nolte then commenced with their cases, calling Captain Siercks to testify.

After Captain Siercks testified at some length, the court reconsidered its earlier discovery ruling. The County assured the court that it could locate and produce the missing emails and other additional communications during the following week. The parties agreed to continue the trial to a later date on the belief that the remaining emails would be produced. Provided it complied with the discovery requests before the next trial date, the County would be allowed to fully participate in the proceedings.

The trial recommenced on August 19, 2019. Captain Siercks testified further, as did Captain Cathy Compton, the officer responsible for running the jail. They testified that, by the time of trial, the Sheriff no longer had the funds in his office budget necessary to pay sums currently owing on the vendor contracts for the jail's operation. Sheriff Vescovo was also called to testify concerning, among other things, the circumstances surrounding the County's otherwise unexplained decision to drastically cut his budget. He testified that in 2016 and 2017 his

operating budget was roughly $2.5 million. In 2018, his operating budget was cut to $2.1 million and in 2019 it was further cut to $1.788 million. The decision to cut his 2018 budget occurred after he began investigating a report of possible altering of official documents by county staff.

Sheriff Vescovo testified that in January of 2017, he received a report from the County Clerk that a number of official county documents, specifically financial warrants, had the signatures of the County Commissioners cut out of them. The Sheriff's investigation led him to believe that individuals in Portwood's department were involved. Concerned about a possible conflict of interest, Sheriff Vescovo decided to refer the matter to an outside agency to complete the investigation. The Missouri Highway Patrol took over the investigation, and several county employees were indicted including Portwood herself. Portwood later entered into a deferred prosecution agreement. It was after this investigation was initiated by the Sheriff that his budget was first cut.

Portwood was also called to testify. In regards to the process of creating the 2019 budget, Portwood stated that she knew that the detention line in the Sheriff's operating budget was insufficient to cover the expected costs of inmate food and healthcare at the time she prepared the proposed budget to submit to the Commission. She testified that she personally signed the contract for inmate food on or about December 7, 2018, one day after she received the Sheriff's letter informing her that the proposed budget was insufficient to cover items such as inmate food and healthcare.

Portwood also testified at length regarding text messages that she exchanged with various people which were entered into evidence. Because of redactions, it was largely unclear who she was exchanging messages with, but at various points she referred to the other party to the communications as "Commissioner," and she testified that some of the messages could have

been exchanged with Commissioner Ridgeway. In one text message exchange, she was directed to organize the Sheriff's budget into the "silos" discussed above. Another text message sent on July 18, 2019 apparently referenced Sheriff Vescovo's attempt to place the matter of his detention funding before the County Commission. The other party texted that they "red-flagged" the Sheriff's attempt, but then noticed that Portwood and her staff were "handling it." As to Sheriff Vescovo's June 14 request that the matter of his budget shortfall be placed before the Commission, Portwood testified that in rejecting his request, she did so on advice of counsel and did not contact the County Commissioners about it. She also discussed how, per county ordinance, she has the authority to sign some contracts binding the County including the contracts for inmate food and healthcare. Portwood also testified that she had a practice of meeting with Commissioner Ridgeway privately, outside of county offices, including meeting in parks.

After the close of evidence, the court took the matter under advisement. It later issued its Findings of Fact, Conclusions of Law, and Judgment, finding for the Sheriff on Count I and issuing a writ of mandamus ordering the County to transfer various funds, stating, in pertinent part as follows:

> As to Count I of Relator's Petition for Writ of Mandamus, said Petition for Writ of Mandamus is granted That the Clay County Commission is ordered to allocate and budget an additional $755,152.00 into Fund 279, Department 555/209 to be used by the Sheriff to satisfy the existing contracts for the food and healthcare of detainees in the Clay County Detention Center for the remainder of 2019 Additionally, the Clay County Commission is ordered to allocate and budget an additional $230,218.00 for the administrative costs into Fund 279, Department 556/209 That the Writ of Mandamus is hereby issued.

The court's findings of fact set forth much of what was discussed above. In addition, the court found that "Chief Budget Officer Portwood's testimony was at best not credible." The court

noted that the County provided absolutely no explanation for its decision to cut the Sheriff's budget, and the court specifically found that the County's actions were "arbitrary, capricious or in bad faith." The court denied the relief requested in Counts II and III. As to Count III, the court concluded that it did not have the legal authority to order the County to pay the Sheriff's legal fees.

After the court's judgment issued, the parties timely commenced this appeal. Additional facts will be set forth as needed.

DISCUSSION

We begin our analysis by first addressing the County's one point on appeal. The County claims that the court erred in issuing its writ in that writs of mandamus may only be used to compel non-discretionary, ministerial duties. The County argues that budgeting is inherently discretionary under Missouri law, and as such, the County cannot be compelled by a writ of mandamus to budget in any particular way. The County further argues that the Sheriff has not identified a statute which gives him the right to any particular appropriation of funds. We note that the County solely argues that the circuit court erred as a matter of law. The County does not challenge the court's factual findings in any respect.

As a preliminary matter, we note that if the circuit court had ultimately *denied* permanent mandamus relief, the court's failure to issue a preliminary writ of mandamus may well have deprived this Court of appellate jurisdiction over the court's final judgment. *See*, *e.g.*, *Bartlett v. Mo. Dep't of Ins.*, 528 S.W.3d 911, 913-14 (Mo. banc 2017). However, "[w]hen a permanent writ is granted after a hearing on the merits, the aggrieved party may seek review through

appeal," even if a preliminary writ was not issued. *State ex rel. Mo. Clean Energy Dist. v. McEvoy*, 557 S.W.3d 473, 481 (Mo. App. 2018).[5]

Because no party has questioned the circuit court's factual findings, we only review the court's legal determinations. "[W]e review questions of law, including questions of statutory interpretation, *de novo*." *Chastain v. Kansas City Mo. City Clerk*, 337 S.W.3d 149, 155 (Mo. App. 2011) (citation omitted). With legal questions, we review "the trial court's determination independently, without deference to that court's conclusions." *Pearson v. Koster*, 367 S.W.3d 36, 44 (Mo. banc 2012) (citation omitted).

"The remedy of a writ of mandamus is only appropriate where a party has a clear duty to perform a certain act." *State ex rel. Scherschel v. City of Kan. City*, 470 S.W.3d 391, 397 (Mo. App. 2015) (citation omitted). "A litigant asking relief by mandamus must allege and prove that he has a clear, unequivocal, specific right to a thing claimed." *State ex rel. McKee v. Riley*, 240 S.W.3d 720, 725 (Mo. banc 2007) (citation omitted). "Whether a petitioner's right to mandamus is clearly established and presently existing is determined by examining the statute or ordinance under which petitioner claims the right." *Scherschel*, 470 S.W.3d at 397.[6]

---

[5] We also find it significant that the reason the court decided not to enter a preliminary writ is because the County claimed that the Sheriff still had alternative administrative remedies available to him. Specifically, the County claimed that the Sheriff had not gone before the Commission to request the appropriation of additional funds. And yet, when the Sheriff did just that, after the initial hearing but before trial, the County refused to place his request on the Commission's agenda, depriving him of the alternative remedy the County claimed he could have and should have sought.

[6] We emphasize that in this Court the County has not asserted a number of procedural objections to the Sheriff's right to mandamus relief, even though it asserted many of these objections in the trial court. These issues include: whether the Sheriff is the proper party to enforce the County's contractual obligations to the vendors who supply inmate food and health care, although he is not himself a party to the contracts; whether mandamus relief is precluded because the relevant vendors would have an adequate remedy at law through an action for breach of contract; and whether rights under a contract (as opposed to rights derived from statutes or case decisions) are enforceable through mandamus. Because the County has chosen not to address these issues here, and because these issues do not implicate the circuit court's subject-matter jurisdiction, we do not address these issues, and our opinion should not be read to implicitly decide them.

The "primary rule of statutory interpretation is to ascertain the intent of the legislature from the language used, to give effect to that intent if possible, and to consider the words in their plain and ordinary meaning." *Young v. Boone Elec. Coop.*, 462 S.W.3d 783, 791 (Mo. App. 2015) (quoting *In re Boland*, 155 S.W.3d 65, 67 (Mo. banc 2005)). "It is presumed that the General Assembly legislates with knowledge of existing laws." *Turner v. Sch. Dist. of Clayton*, 318 S.W.3d 660, 667 (Mo. banc 2010) (citation omitted). "Under the doctrine of *in pari materia*, statutes relating to the same subject matter should be construed to achieve a harmonious interpretation." *Roesing v. Dir. of Revenue*, 573 S.W.3d 634, 639 (Mo. banc 2019) (citation omitted). We "look beyond the plain meaning of the statute *only when* the language is ambiguous or would lead to an absurd or illogical result." *Young*, 462 S.W.3d at 791 (citation omitted).

The parties rely heavily on the provisions of the County Budget Law. Mo. Rev. Stat. §§ 50.525 – 50.745 (2019). The County argues that the County Budget Law gives commissioners and the County considerable discretion in setting the Sheriff's budget. It points to § 50.540, which allows the budget officer to make changes to the proposed budget as deemed necessary. It also cites § 50.610, which allows the county commission to make additional changes as it sees fit. As to the provisions of § 50.660, relied on by the court below, the County argues that this simply sets forth the conditions under which a contract with a county is actually binding on the county. The Sheriff argues that § 50.550 mandates that the County appropriate adequate funds for the Sheriff to carry out his lawful duties, and he argues that § 50.660 requires the County to budget funds to satisfy contractual obligations, including those obligations to fund inmate food and healthcare.

Notwithstanding whatever budgetary discretion the commissioners may lawfully have, we first note that Missouri courts have held that mandamus can lie to compel county officials to budget for certain expenditures. In *State ex rel. Hunter v. Lippold*, we affirmed the issuance of a writ of mandamus which ordered a county to appropriate funds for a university extension program. 142 S.W.3d 241 (Mo. App. 2004). While *Hunter* acknowledged that the County Budget Law vests a county commission with "ultimate authority" over the "county's coffers," *Id.* at 245, it held that other statutory provisions nonetheless compelled the county to fund certain programs at certain levels. *See also, State ex rel. Twenty-Second Judicial Circuit v. Jones*, 823 S.W.2d 471 (Mo. banc 1992) (issuing a writ of mandamus ordering county officials to reinstate appropriations for capital improvements to a county courthouse citing statutory provisions under the County Budget Law). The County nonetheless contends that in the present case, unlike in *Hunter*, there is not a statutory provision which dictates that any particular amount must be appropriated to the Sheriff.

The overarching purpose of the County Budget Law is set forth in § 50.550.1, which states that "[t]he annual budget *shall* present a complete financial plan for the ensuing budget year." (emphasis added). Section 50.550 uses the word "shall" repeatedly. As explained in *Hunter*, the "word 'shall' is usually used to express compulsion, obligation or necessity." 142 S.W.3d at 243. Section 50.550.1 goes on to state that the budget "*shall* set forth all proposed expenditures for the administration, operation and maintenance of all offices, departments, commissions, courts and institutions…" (emphasis added). Section 50.550.2 states that the "budget *shall* contain adequate provisions for the expenditures necessary for the…salaries, office expenses and deputy and clerical hire of all county officers and agencies." (emphasis added).

The above provisions, and their repeated use of the word "shall," clearly mandate that the County not only adopt a budget, but that it do so with consideration of the needs of the county and its various departments including the duties of the various elected officials of the county. The language of § 50.550.2 is of particular note, in that it requires the budget to have "adequate provisions" for necessary expenditures for various officers and agencies.

The County Budget Law says nothing about what constitutes adequate provisions, and it also says little about the duties of the Sheriff's office. Missouri law does set forth his duties in other places, however. The Sheriff is charged with, among other things, being the jailer for the county, acting as the conservator of peace who commits offenders to jail, patrolling and policing county roads, providing courthouse security, and serving process. *See generally* § 221.020 and Chapter 57, respectively. Considering these provisions *in pari materia*, we thus read § 50.550 as requiring the County to adopt a budget adequately providing for those expenditures which are necessary for Sheriff Vescovo to carry out those duties prescribed by statute. In other words, the County must consider what, exactly, a department is lawfully required to do and then determine what level of funding is adequate for the department to carry out its duties.[7]

Elsewhere, the County Budget Law sets forth detailed procedures regarding how county budgets are to be adopted. Section 50.540 requires county departments to "prepare and submit to the budget officer estimates of its requirements for expenditures and its estimated revenues for

[7] This opinion should in no way be construed as suggesting that counties must simply accept whatever budgets are proposed by department heads as "adequate provisions." Good faith disagreements will certainly arise between county commissions and department heads regarding what is necessary for a department to carry out its lawful functions, and where good faith disagreements occur, mandamus certainly will not lie. Additionally, § 50.550's requirement that the budget present a "complete financial plan," certainly includes considering a county's anticipated revenues. Section 50.550(3) explicitly requires as much, and where a county budgets less than requested by department heads in order to balance expenditures with revenues as both prudence and the law requires, mandamus would again be inappropriate.

the next budget year" with comparisons to the prior budget year. It goes on to state that the budget officer, after reviewing the estimates, shall alter, revise, increase or decrease funding as deemed necessary "in view of the needs of the various spending agencies and the probable income for the year." At § 50.540.5(1) we note that in class one counties, if the budget officer recommends "any decrease or reduction" in a department's proposed budget, the budget officer "shall give special notice to the officer or agency of the decrease or reduction and the officer or agency is entitled to be heard thereon by the county commission." The County Commission, after holding public hearings regarding the proposed budget, "may revise, alter, increase or decrease the items contained in the budget and may eliminate any item or add new items." Section 50.610.

The County claims that §§ 50.540 and 50.610 in particular provide the necessary discretion for the County to budget for the Sheriff however it sees fit. However, § 50.540 limits that discretion, stating that the officer may adjust funding as deemed necessary "in view of the needs of the various spending agencies…," and it sets forth mandatory procedures which must be followed if and when the budget officer reduces a department's proposed budget. Section 50.610 does not have such limiting language, but as it is part of the larger statutory framework that is the County Budget Law, we read it as limited by the aforementioned language present in § 50.550. Section 50.550 thus imposes a duty to consider departments' necessary expenditures even where other sections appear to give the County's officers or commissioners discretion to make adjustments to the budget. Nonetheless, although we hold that the County has a duty to provide adequate funding for the Sheriff to operate his department, neither statute nor case law sets forth what amount of funding he is specifically entitled to. As such, the statutes analyzed do not

provide either party with a definite right or duty for any particular amount of funds to be appropriated in any particular way. Therefore, the law does not, by itself, support mandamus.

In the present case, however, certain facts do support mandamus in conjunction with the statutory framework discussed above. First, because determining what constitutes "adequate provisions" under the law is a fact-intensive and highly subjective inquiry, in most instances courts cannot, and indeed should not, endeavor to determine what amounts should be appropriated to a department-head seeking mandamus. But here, unique facts provide the court with the necessary basis to find that mandamus is necessary and arrive at the sums. Sheriff Vescovo relies on vendors who are contracted to provide various services essential to running the county jail. The Commission does not dispute that these are valid enforceable contracts entered into by the Commission. In fact, Portwood personally signed some of these vendor contracts which bound the County while the budget process was ongoing. Once the County was bound by the vendor contracts, the amount due on those contracts became the minimum sum necessary to adequately fund those lines within the Sheriff's department's budget.[8] By the time of trial, the County was in arrears on its financial obligations under the contracts administered by the Sheriff, and - because of the inadequate appropriations - there were no funds available in the Sheriff's

[8] The County has argued repeatedly that because the contracts at issue are term and supply contracts with indefinite amounts owed, they could not adequately budget for those contracts at the beginning of the year. And yet, the Sheriff presented prior years' figures as part of his proposed budget which showed that the 2019 budget would be insufficient. Simple math can calculate cost estimates for services such as inmate food, where a per meal price is set forth in the contract. Furthermore, the circuit court found that the contracts provided estimates of the minimum expenditures due. The County acknowledged that the number of inmates had remained consistent over the relevant period, that the vendor contracts had not changed significantly from year to year and fail to explain why they were able to budget sufficiently for these amounts in prior years but suddenly were unable to budget for these contracts at the beginning of 2019. The County's argument that the unpredictability of the contracts rendered budgeting impossible was not found credible by the trial court.

operating budget to pay these contractual obligations. The vendor contracts appropriately served as the basis for the sums of money ordered appropriated by the court below.[9]

Second, the County has provided no justification whatsoever to explain the decision to underfund the Sheriff. The cuts were not the result of overall county revenue shortfalls, quite the opposite. It was undisputed at trial that revenues have been increasing in Clay County for years, and other departments saw funding increases while the Sheriff's budget was being drastically cut. There was no argument that some unexpected or exceptional expenditures in other areas of the County's budget required cuts to be made in the Sheriff's budget. The Sheriff's budget request was based off of prior years' figures, and there was no evidence that there was a sudden jump in costs from unforeseen events such as a rising inmate population, or an increase in food or medical costs. Similarly, the County has not offered any arguments that the vendor contracts were in some form or fashion unreasonable or unnecessary. They have not argued that the services were anything but essential, or that the costs for those services were unreasonable. The inmates were not, by any account, dining on expensive meals or having unnecessary elective dental or medical procedures.

Third, the evidence established that the County knowingly underfunded the Sheriff in a manner calculated to make it impossible for the Sheriff to carry out his lawful duties for reasons that are as disturbing as they are indefensible. The Commission delegated significant authority over the Sheriff's budget to an administrator who had been investigated by the Sheriff and who had signed a deferred prosecution agreement in regards to allegations that she improperly altered

[9] A small amount of the monies ordered appropriated by the court were not connected to vendor contracts, and were instead intended to fund some of the administrative overhead associated with running the county jail. As no party has questioned the propriety of these specific sums, and they make up a relatively small portion of all of the funds at issue, we do not disturb the circuit court's ruling as to those sums.

official County documents. The evidence overwhelmingly established that the County was distinctly aware that the Sheriff's budget was not adequate to fund the contractual obligations throughout the budgeting process. Both Portwood and Commissioner Ridgeway received letters and emails from the Sheriff's office informing them of critical funding shortfalls throughout the entire operating budget, and in particular for the jail. At the same time, Portwood was personally signing the same vendor contracts the County was refusing to fund. She even signed the contract for inmate food one day after the Sheriff sent a letter pointing out that his then proposed budget would have insufficiently funded his department, in particular the operation of the county jail in regard to the obligations contained in that same vendor contract.

While Portwood was signing vendor contracts, the County was also crafting an appropriations ordinance which arranged the Sheriff's budget into various line items that made it impossible for him to move funds around to satisfy contractual obligations, and the line item for the jail grossly underfunded the vendor contracts for food and healthcare, which the County had entered into. Text messages introduced in evidence revealed that Portwood discussed the creation of these line items with an unknown party, though in some messages she referred to the other party as "Commissioner." At the same time, the County refused to place the matter of the Sheriff's budget shortfall before the Commission, despite the law's clear requirements to do so.[10] These tactics continued into litigation, with the County first arguing that the Sheriff should have brought the matter before the Commission. We find it noteworthy that the County invoked advice of counsel when it blocked the Sheriff's access to the Commission within days of trial

[10] Section 50.540.5(1), discussed *supra*, states that in class one counties, if the budget officer recommends "any decrease or reduction" in a department's proposed budget, the budget officer "shall give special notice to the officer or agency of the decrease or reduction and the officer or agency is entitled to be heard thereon by the county commission."

counsel's argument that administrative remedies had not been exhausted. Additionally, the County failed to comply with discovery requests throughout the proceedings below, and Portwood's testimony was found by the circuit court to be at best, not credible.

Finally, the County has made no attempt to rebut the alarming assertions made by Sheriff Vescovo, leaving us with no reason to discredit the circuit court's conclusion. He testified that his budget was first cut after he initiated an investigation into criminal conduct in the County's budget office. This investigation eventually led to criminal charges against Portwood and a deferred prosecution agreement. The circuit court's conclusion that the County's decision to cut the Sheriff's budget was retaliation against a law enforcement officer for engaging in a fruitful investigation into criminal behavior of Portwood and others is supported by the record. Despite the County's impassioned argument that these facts are irrelevant and that the law does not allow a writ to issue here, we cannot overlook facts as egregious as these.

Ultimately, to the extent the County had discretion in determining the level of expenditures necessary for the Sheriff to fulfill his statutory duties, the County exercised that discretion when it executed the vendor contracts. And yet the County appropriated less than the minimum sum necessary to fund these contracts and did so in bad faith. With Portwood having admitted that, at the time she submitted the proposed budget to the Commission she was aware that the Sheriff's budget was insufficient to meet the obligations required by the contracts, and having also provided absolutely no explanation for why this was necessary, unavoidable or even explainable, the County conceded that its budget did not provide adequate funding for the Sheriff to perform his statutory duties. Throughout this litigation the County has taken no efforts to amend its budget to provide the required funding necessary to meet the obligations of the contracts it entered into and provided no rational basis for its actions in making the cuts to the

Sheriff's budget or for its stubborn refusal to remedy the problems it created. The County exceeded its discretion by deliberately, unreasonably and in bad faith, providing inadequate provisions to a department. Mandamus under these unique facts was therefore appropriate.[11] Point I is denied.

We next turn to Sheriff Vescovo's point on appeal. He argues that the circuit court erred in denying his request for attorney's fees. The circuit court found that the Missouri statutes cited by the Sheriff below provide authority for the Sheriff to pay his attorney's fees from monies allocated by the County to his budget for compensating employees, and that the court lacked authority to require the County to compensate the Sheriff's attorneys beyond what was allocated by the Commission to the Sheriff for salaries. The Sheriff argues that Section 57.104 RSMo. imposes a non-discretionary duty on the County to pay the Sheriff's necessary expenditures, and that the court therefore had authority to award fees. He further argues that if we were to find that there was no statutory authority for ordering payment of attorney's fees, fees should nonetheless be awarded due to the special and unusual circumstances of this case. In addition to arguing that the court erred in not awarding fees in his brief, Sheriff Vescovo also filed a motion for attorney's fees with this Court, requesting both fees incurred below as well as his fees incurred in litigating this appeal. We will address his motion in our analysis of this point.

"Whether a trial court has authority to award attorneys' fees is a question of law which we review *de novo*." *St. Louis Title v. Talent Plus Consultants*, 414 S.W.3d 24, 26 (Mo. App. 2013). "Missouri follows the 'American Rule' which generally provides that, absent statutory

[11] We note that the trial court's Judgment did not order the expenditure of funds but merely ordered the County to transfer funds within the County's total budget into certain line items in the Sheriff's budget. The expenditure of those funds will be made through the normal process for payment of invoices.

authorization or contractual agreement, with few exceptions, each party must bear the expense of its attorney's fees." *KC Air Cargo Servs. v. City of Kansas City*, 581 S.W.3d 685, 691 (Mo. App. 2019) (citation omitted). [12]

Sheriff Vescovo first argues that a statute, § 57.104, gives the circuit court authority to award fees. Section 57.104 states, in relevant part, that the sheriff may employ an attorney, and that he "shall set the compensation for an attorney hired pursuant to this section within the allocation made by the county commission to the sheriff's department for compensation of employees to be paid out of the general revenue fund of the county." While the statute plainly allows for an attorney to be hired and paid by the sheriff, we do not read it as granting courts the authority to award fees. The statute clearly states that the sheriff "shall" set compensation for an attorney "within the allocation made by the county commission." It, therefore, empowers a sheriff to hire attorneys and pay them within the budget already provided by a county commission. The statute, however, says nothing about mandating additional appropriations to cover attorney's fees not contemplated in the original budget. Although, as Sheriff Vescovo argues, § 57.104 does not prevent a court from granting attorney's fees to a sheriff, it does not expressly authorize it either. Therefore, the statute fails to provide the necessary authority in this case.[13]

"On 'rare occasions in an equity action,' the circuit court may award attorneys' fees when it 'finds it's necessary to award the fees in order to balance the benefits.'" *Barkho v. Ready*, 523

---

[12] Often when attorney's fees are at issue in a case involving a government entity, courts must also address whether sovereign immunity has been waived. However, the County has not argued that Sheriff Vescovo failed to plead facts waiving sovereign immunity, and has not otherwise defended the claim for attorney's fees on the basis of sovereign immunity.

[13] The Sheriff's reliance on *State ex. Rel. Mennemeyer v. Lincoln County*, 553 S.W.3d 368 (Mo. App. 2018), is inapposite because in *Mennemeyer* we awarded fees under a statute completely unrelated to the case at bar.

S.W.3d 37, 46 (Mo. App. 2017) (citation omitted); *See also Goines v. Mo. Dep't of Soc. Servs.,* 364 S.W.3d 684, 688 (Mo. App. 2012) (stating: "Exceptions [to the American Rule are made] where very unusual circumstances exist so it may be said equity demands a balance of benefits.").[14] "In addition, an exception has been recognized in 'special circumstances' where a party's conduct is 'frivolous, without substantial legal grounds, reckless or punitive.'" *Goines*, 364 S.W.3d at 688 (citation omitted). A party's "intentional misconduct" has also been deemed a "special circumstance" supporting an award of fees. *Klinkerfuss v. Cronin*, 289 S.W.3d 607, 619 (Mo. App. 2009). "Special circumstances and very unusual circumstances are rare, and courts have confined these exceptions to limited fact situations." *KC Air Cargo Servs.*, 581 S.W.3d at 691 (quoting *Klinkerfuss*, 289 S.W.3d at 618).

In regards to unusual circumstances where equity demands a "balance of the benefits," this exception to the American Rule is grounded in two doctrines: the common fund doctrine and the common benefit doctrine. *Lett v. City of St. Louis*, 24 S.W.3d 157, 162-63 (Mo. App. 2000). Both doctrines address instances where a litigant secures a common benefit inured to other parties, or prevails on behalf of a class which is to be paid out of a fund. *Id.* In such instances, the party who incurred attorney's fees for prosecuting the action, may be entitled to reimbursement for such fees. *Id.* Those doctrines are clearly not applicable here, leaving us with the "special circumstances" exception.

---

[14] We note that up through the middle of the last century, writs of mandamus were not considered actions in equity. *See, e.g., State ex rel. Walton v. Miller*, 297 S.W.2d 611, 615 (Mo. App. 1956) (stating that "[m]andamus is a legal, not an equitable remedy."). The view of mandamus has since evolved, with courts and treatises now viewing it as an equitable remedy. *See, e.g., Mertens v. Hewitt Assocs.,* 508 U.S. 248, 256 (1993) (stating: "'equitable relief' can also refer to those categories of relief that were *typically* available in equity (such as injunction, mandamus, and restitution, but not compensatory damages)."); *Lexington v. Seaton*, 819 S.W.2d 753, 757 (Mo. App. 1991) (referring to a list of "equitable remedies" which includes mandamus); 52 Am Jur 2d Mandamus § 6 (stating: "A writ of mandamus is an equitable remedy…").

We cannot emphasize enough just how limited the fact situations are which support a finding of special circumstances. The seminal case on the matter, *David Ranken*, *Jr. Technical Inst. v. Boykins,* lists a variety of situations where fees were denied including instances where a defendant acted with an intent to defraud, cases of fraudulent concealment, and "when defendants tortiously conspired and threatened to wrongfully foreclose on notes and deeds of trust." 816 S.W.2d 189, 193 (Mo. banc 1991), overruled on other grounds by *Alumax Foils, Inc. v. City of St. Louis*, 939 S.W.2d 907, 911 (Mo. banc 1997). Courts have found special circumstances where a seller of real estate received payment then refused to transfer the property and refused to return the sale proceeds, *Barkho v. Ready*, 523 S.W.3d 37 (Mo. App. 2017); where a party was found to have acted on "no other reason than spite," *Ellis v. Hehner*, 448 S.W.3d 320, 326 (Mo. App. 2014); where parties transferred funds out of a corporation with the intent to "hinder, delay and defraud creditors," *Volk Constr. Co. v. Wilmescherr Drusch Roofing Co.,* 58 S.W.3d 897, 901 (Mo. App. 2001); and where a city intentionally "scared off" tenants and potential purchasers of a property by telling them zoning laws only permitted a small set of uses for a property, *Law v. City of Maryville*, 933 S.W.2d 873, 878 (Mo. App. 1996).

Recently, our Supreme Court observed that the special circumstance of "intentional misconduct" has not led it to award fees outside of a declaratory judgment context. *Trs. Of Clayton Terrace Subdivision v. 6 Clayton Terrace, LLC*, No. SC97349, slip op. at *34-35 (Mo. banc Aug. 13, 2019). It noted that lower court cases have awarded fees citing the special circumstance of intentional misconduct in non-declaratory judgment actions, but it stopped short of determining if this was error. *Id.*, citing, *inter alia*, *Barr v. Mo. State Dep't of Soc. Servs.,* 565 S.W.3d 683 (Mo. App. 2018) (affirming an award of fees on the grounds that the respondent failed to challenge the factual findings underlying the award). The Supreme Court further held

that it need not determine if the "intentional misconduct" exception should be extended to non-declaratory judgment actions as the facts in the case before it nonetheless failed to establish "special circumstances." *Trs. Of Clayton Terrace Subdivision*, slip op. at 35.

Although declaratory judgment was sought below, the court ultimately denied it, entering only the writ of mandamus. It might appear, therefore, that the matter on which the Sheriff prevailed places us in a context where the legal authority is less clear, and our own Supreme Court has recently been intentionally silent. Regardless, we are dealing with a particularly unique set of facts where a government official seeks to have another government entity pay his legal bills. Though one could characterize this case – where funds would be transferred between county coffers – as robbing Peter to pay Paul, here we are considering if Peter should pay Paul's lawyer. Despite these difficulties, the particularly unique set of facts in this case do present special circumstances giving the circuit court authority to award fees.

The circuit court found that the County's actions were "arbitrary, capricious, or in bad faith." The County knowingly underfunded the Sheriff's office, and it did so in a manner calculated to make it impossible for the Sheriff to carry out his lawful duties and stubbornly refused to take any action to remedy the problem absent litigation. The Sheriff was budgeted an insufficient sum for operation of the county jail, and his insufficient budget was appropriated in a manner that made it impossible for him to move monies around to satisfy the vendor contracts approved and entered into by the Commission. The Sheriff was faced with a dilemma where he was forced to either not pay on the contracts risking the cessation of vital services, or violate county law by moving funds between budgetary lines. Furthermore, the County refused to place this matter before the Commission to allow the matter to be resolved there. The County's willful acts left the Sheriff with no option but to litigate. This is a key distinction between this and other

bad faith cases where fees were not warranted. Litigation was the only remedy left for the Sheriff to employ and he did so in his official capacity.

Crucially, the County's intentionally bad behavior continued after litigation commenced. The County argued at the first hearing that the petition should be dismissed because the Sheriff was required to go before the Commission and request additional funds. It was on this basis that a preliminary writ was first denied. Within days of making this argument to the court, the County then refused to place the matter before the Commission, citing counsel's advice that matters involving pending litigation not go before the Commission. This duplicitous tactic by the County forced the Sheriff to continue litigating the matter at great expense. Discovery violations delayed hearings, dragging out the proceedings even further and increasing the Sheriff's costs of litigation, including requiring Portwood to be deposed three different times. The County's actions were in retaliation for the Sheriff investigating criminal behavior of the County's employees. The case law cited above includes fee awards where parties acted simply out of spite. Such conduct is evident here.

We would add that the nature of the dispute and the relief that was granted also supports an award of fees. The County deliberately underfunded the Sheriff in retribution as found by the trial court. If he is now forced to pay his attorney's fees from his existing budget appropriations, the County would be gifted yet another opportunity to punish the Sheriff by refusing additional appropriations to offset his legal fees in this case, and we are under no illusions as to how the County would likely respond to a request for additional appropriations. We emphasize that this alone is not dispositive, as in many cases fees unavoidably diminish a prevailing party's recovery, but it is one of several factors unique to this case which militates in favor of an attorney's fees award.

At the same time, we decline to award fees as to this appeal. In *Barkho v. Ready*, we affirmed an award of fees at the trial level where a party's actions in litigation were found to be "reckless, willful, malicious, and in bad faith." 523 S.W.3d at 46. However, there was no such conduct before this Court, and we therefore denied fees on appeal. *Id.* Our criticisms of the County's conduct stopped when they appeared before this body, and we found their appeal, though unsuccessful, to be an illuminating and well-argued treatment of a novel and challenging legal problem. Therefore, we deny the Sheriff's motion for attorney's fees and expenses before this court. We otherwise grant the Sheriff's point on appeal, holding that the circuit court does have authority to award attorney's fees as to the costs incurred at the trial level. Because there are no findings regarding the attorney's fees sought, and the circuit court is in a superior position to determine the reasonableness of attorney's fees, we remand this matter to the circuit court for calculation of the attorney's fees incurred at trial.

CONCLUSION

The judgment of the circuit court granting a writ of mandamus is affirmed. We deny the Sheriff's motion for attorney's fees on appeal. We reverse, however, the judgment of the trial court as to the Sheriff's claim for attorneys' fees, and we remand for further proceedings not inconsistent with this opinion for the trial court's determination of attorney's fees incurred during the trial.

Anthony Rex Gabbert, Judge

All concur.

Missouri State Auditor
Truman State Office Building
301 West High Street, Room 880
Jefferson City, Missouri 65102

Re: Clay County, Missouri Audit

Dear Ms. Galloway,

Please accept this correspondence on behalf of the Clay County Commission and as Clay County's responses to the State Audit of Clay County, Missouri conducted by your office.

Appendix L: Clay County Commission Responses to State Audit of Clay County

1. Annex Project

Recommendation: The County Commission openly discuss and maintain adequate documentation to support decisions made, follow county procurement policy, and involve all commissioners in the approval of significant contracts.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding the annex project and the prior County Commission's actions regarding procurement and refusal to allow all Commissioners to participate in the approval of significant contracts. These concerns, coupled with other concerns regarding the project, resulted in the current County Commission terminating the annex project.

2. Additional Compensation

2.1 Employment contracts and severance
2.2 County housing

Recommendations: The County Commission:

2.1 Refrain from entering into automatically renewing employment contracts and unreasonable separation agreements with additional severance amounts, and consider the necessity of severance payments.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding employment contracts and severance and the prior County Commission's actions. The current County Commission is committed to entering into agreements, including employment agreements, which are fair, appropriate, and in the best interest of Clay County and Clay County's citizens.

2.2 If housing for county employees is considered necessary, establish a county housing policy and ensure the housing is properly reported as taxable wages if applicable. Additionally, the County Commission should consult with legal counsel and consider amending previous year employee W-2 forms, as appropriate.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding employee housing and the prior County Commission's actions. The current County Commission has initiated the development of a county housing policy that ensures County housing will only be utilized for essential workers and reflects the appropriate taxation of such housing. It should also be noted that two of the County buildings in question are set for demolition in 2022.

3. Closed Meetings

Recommendation: The County Commission maintain complete minutes for all closed meetings and ensure only topics allowed by state law are discussed in closed meetings.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding closed meetings and the prior County Commission's actions. The current County Commission is committed to compliance with Missouri's Sunshine Law, maintaining complete minutes for closed meetings, and only discussing topics in closed meetings which are specifically authorized by Missouri law.

4. Personnel and Payroll Controls and Procedures

4.1 Pay plan and approved pay rates
4.2 Employment change
4.3 Performance appraisals

Recommendations: The County Commission:

4.1 Ensure the compensation for all county employees is approved in the annual pay plan and documentation of COLA increases for all county employees are maintained.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding employee compensation and the prior County Commission's actions. The current County Commission is committed to reviewing the County's compensation program to ensure fair and consistent compensation practices for all employees. The 2022 budget team also recently updated the County's current play plan.

4.2 Ensure employment changes are timely approved.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding employment changes and the prior County Commission's actions. The current County Commission is committed to the timely approval of employment changes and believes this has been accomplished. In 2021, the County Commission and County Auditor implemented a new process in which the County Auditor now signs off on all employee status change forms.

4.3 Ensure documented performance appraisals are performed in accordance with the established policy or modify the policy.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding employee performance appraisals and the prior County Commission's actions. The current County Commission is committed to reviewing the County's performance appraisal process to ensure fair and consistent performance review for all employees.

5. County Contracting and Payment Procedures

5.1 Contract Pricing
5.2 Executed timely
5.3 Monitoring

Recommendations: The County Commission:

5.1 Ensure amounts paid on cooperative and term and supply contracts are verified per contract terms and adequate supporting documentation is maintained to support those payments. In addition, use change orders and maintain documentation for all significant project changes.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding contract pricing and the prior County Commission's actions. The current County

Commission is committed to following State law regarding contract pricing and believes this has been accomplished.

5.2 Enter into written contracts timely.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding written contracts and the prior County Commission's actions. The current County Commission is committed to following State law regarding written contracts and believes this has been accomplished.

5.3 Ensure sufficient documentation is provided to properly monitor contracts and ensure contract provisions are met.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding contract documentation and the prior County Commission's actions. The current County Commission is committed to verifying individual contract compliance and to following State law regarding contract documentation and believes this has been accomplished.

6. Procurement Policies

6.1 Requests for proposals for professional services
6.2 Bridge engineering services
6.3 Selection committees and surveys
6.4 Financial advisor/underwriter

Recommendations: The County Commission:

6.1 Solicit professional services in accordance with the county code.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding the solicitation of professional services and the prior County Commission's actions. The current County Commission is committed to following State and County law regarding the solicitation of outside professional services and believes this has been accomplished.

6.2 Ensure documentation is maintained in compliance with the county code to support the selection of vendors awards.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding the outside vendor documentation and the prior County Commission's actions.

The current County Commission is committed to following State and County law regarding outside vendor documentation and believes this has been accomplished.

6.3 Ensure selection committees include the required membership, have the recommended number of members, and members complete surveys as required.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding selection committees and the prior County Commission's actions. The current County Commission is committed to following State and County law regarding selection committees and believes this has been accomplished.

6.4 Discontinue using an underwriter who also acts in a dual capacity as financial advisor for debt issuances.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding using an underwriter acting in a dual capacity as a financial advisor. The current County Commission is committed to reviewing this procedure and following all applicable Federal and State laws regarding such conduct.

7. Expenditures and Purchasing Cards

7.1 Prepayment
7.2 Questionable purchases
7.3 Highway Department fuel
7.4 Purchasing cards

Recommendations: The County Commission:

7.1 Follow-up on the $20,000 prepayment and ensure prepayments are subsequently applied to services received by the county.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding this prepayment and the prior County Commission's actions. The current County Commission has followed up on this prepayment and believes the conduct has been addressed.

7.2 Ensure all disbursements are a necessary and prudent use of public funds. In addition, the commission should establish a policy regarding food purchases.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding purchasing and the prior County Commission's actions. The current County Commission is committed to following State law regarding purchasing and believes this

has been accomplished. The County Commission is also reviewing the County's current purchasing policy for any necessary changes.

7.3 Ensure beginning and ending fuel tank balances are documented and reconciled to fuel usage and fuel purchases. Any significant discrepancies should be promptly investigated.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding Highway Department fuel and the prior County Commission's actions. The current County Commission is committed to following State and County law regarding fuel usage and purchases and believes this has been accomplished. The County Commission is also reviewing the County's current policies for any necessary changes.

7.4 Periodically evaluate the need for each purchasing card issued and adjust employee purchasing card limits as deemed appropriate. In addition, reconsider the need to pay legal expenses and other high dollar expenses through purchasing cards and update purchasing card guidance to include best practices.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding purchasing cards and the prior County Commission's actions. The current County Commission is committed to following State and County law regarding purchasing and believes this has been accomplished. The County Commission has also terminated the practice of paying legal expenses and other high dollar expenses through purchasing cards.

8. Smithville Lake

8.1 Change funds
8.2 Discounts

Recommendations: The County Commission:

8.1 Ensure change funds are maintained at a constant amount.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding change funds and the prior County Commission's actions. The current County Commission has followed up on this concern and believes Parks Office personnel understand the need to appropriately oversee such funds.

8.2 Review park discount practices and ordinances and revise practices and/or ordinances as necessary.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding park discounts and the prior County Commission's actions. The County

Commission is also reviewing the County's current discount policy for any necessary changes.

9. Information Technology

9.1 Disaster recovery plan and backups
9.2 Electronic communication policies

Recommendations: The County Commission:

9.1 Develop a formal, written contingency plan that is periodically tested, evaluated, and updated as needed, including periodic testing of data backups.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding IT's disaster recovery plan and the prior County Commission's actions. The current County Commission has hired new leadership in the County IT's department and the department is reviewing the need for a disaster recovery plan.

9.2 Develop written records management and retention policies to address electronic communications management and retention to comply with Missouri Secretary of State Records Services Division Electronic Communications Guidelines. In addition, retain electronic communications in accordance with these policies.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding the County's electronic communication policy and the prior County Commission's actions. The current County Commission has hired new leadership in the County IT's department and the department is reviewing the need for an electronic communication plan.

10. Contract Approvals and Capital Assets

10.1 Contract approval
10.2 Capital assets

Recommendations: The County Commission:

10.1 Ensure all contracts are approved in accordance with county code and state law.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding contract approval and the prior County Commission's actions. The current County Commission is committed to following State law regarding contract approval, including contract review by the County Auditor, and believes this has been accomplished.

10.2 Continue to work with the other county officials to ensure complete annual physical inventories are conducted.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding County property inventories and the prior County Commission's actions. The current County Commission is committed to cooperating with the County Auditor to ensure that property inventories are conducted.

11. County Boards

11.1 Meeting minutes
11.2 Budgets
11.3 Conflicts of interest

Recommendations: The County Commission:

11.1 Ensure minutes are prepared for all meetings and signed.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding County Boards' meeting minutes and the prior County Commission's actions. The current County Commission is committed to working with its Boards and Commissions to ensure that each Board and Commission engages in good governance and operates in compliance with State and County law.

11.2 Prepare annual budgets that contain all information required by state law.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding County Boards' budgets and the prior County Commission's actions. The current County Commission is committed to working with its Boards and Commissions to ensure that each Board and Commission engages in good governance and operates in compliance with State and County law. Additionally, as part of the 2022 budget process, the County's budget team worked with several Boards to ensure greater budget compliance.

11.3 Ensure various boards refrain from activities that could result in the appearance of or actual conflict of interest including educating board members, as needed, on identifying actual or apparent conflicts of interest and how to mitigate them.

Auditee's Response. The County Commission appreciates and understands the recommendation. The current County Commission shares the State Auditor's concerns regarding County Boards' conflicts of interest and the prior County Commission's actions. The current County Commission is committed to working with its Boards and Commissions to ensure that each Board and Commission engages in good governance and operates in compliance with State and County law.

Clay County genuinely appreciates the work done by your office on behalf of the citizens of Clay County and the opportunity to respond to the recommendations contained in your audit. If you have any questions, please do not hesitate to contact me at your convenience.

Sincerely,

Kevin A. Graham

AUDITOR
CLAY COUNTY, MISSOURI

Appendix M: Clay County Auditor Responses to State Audit of Clay County

- *Recommendation 10.1: Ensure all contracts are approved in accordance with county code and state law.*

  Auditee Response: We thank the State Auditor's Office for the recommendation. We agree that the former Commission majority and Administration disallowed the County Auditor to certify contracts before approval. Revised Statute of Missouri 50.660 requires the County Auditor/Accounting Officer to certify such contracts as to funds available in order for a financial obligation on the County to exist.

  Starting in 2021, the County Auditor is now certifying these contracts.

- *Recommendation 10.2: Continue to work with the other county officials to ensure complete annual physical inventories are conducted.*

  Auditee Response: We thank the State Auditor's Office for the recommendation. We agree that the County Auditor did not receive the full cooperation and responses from the former Administration necessary for a complete annual inventory for the years ended 2018 and 2019.

  Starting in 2021 the County Auditor is now receiving the necessary cooperation from Administration to conduct complete annual inventories and is doing so.

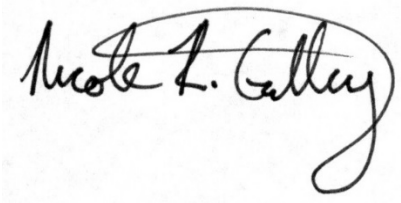
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of January 2022 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In January, the state spent $131.5 million from federal COVID-19 assistance (Appendix A). Through the end of January, the state has received $5.41 billion and spent $5.17 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendixes C and D. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.47 billion) and funding passed through to counties and the City of St. Louis ($521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of January 31, 2022, approximately $18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.[1] The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

[1] The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

- Not charge premiums that exceed those that were in place as of January 1, 2020.

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.

- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of January 31, 2022, approximately $36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund[2] may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

On December 14, 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. The department defines obligation for this purpose as an order placed for property and services and entry into contracts, subawards, and similar transactions that require payment. Recipients are currently permitted to record their expenditures through September 30, 2022. Previous guidance had indicated for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time.

[2] From the U.S. Department of the Treasury, CFDA number 21.019.

The state has received approximately $2.38 billion in Coronavirus Relief Fund assistance including nearly $173.5 million for St. Louis County and $122.7 million for Jackson County.[3] Twenty-five percent of the remaining state share (approximately $521 million) was distributed to other counties in the state and the City of St. Louis based on population. In July 2020, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:[4]

1. Medical expenses such as:
    - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
    - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
    - Costs of providing COVID-19 testing, including serological testing.
    - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
    - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:
    - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.

[3] The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

[4] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
   - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
   - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
   - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
   - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
   - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
   - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
   - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
   - Expenditures related to a state, territorial, local, or tribal government payroll support program.

- Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.[5] If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government. Recipients are currently permitted to record their expenditures through September 30, 2022, based on guidance issued by the Department of the Treasury redefining how the term "incurred" is being interpreted.

Under the CARES Act, the state has also been awarded as of January 31, 2022, approximately $4.12 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately $166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has been awarded as of January 31, 2022, approximately $2.86 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

[5] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Under the American Rescue Plan Act of 2021, the state has been awarded as of January 31, 2022, approximately $10.92 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. American Rescue Plan Act financial activity is not included in this report series. It is presented in a separate series of monthly reports beginning in July 2021.

In January, the state spent $131.5 million from federal COVID-19 assistance (Appendix A). Through the end of January, the state has received $5.41 billion and spent $5.17 billion from this assistance. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.47 billion) and funding passed through to counties and the City of St. Louis ($521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendixes C and D.

[1] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

[1] During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, between January 2021 and March 2021 the SOS reused this fund to receive $189,462 in refunds from subrecipients of unspent awards during the fiscal year ended June 30, 2020 (a decrease in previous disbursements). In April 2021, the SOS returned this money to the federal government.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[3] The General Assembly authorized the Office of Administration (OA) to transfer up to $750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earned, had to be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred $250 million in May 2020, and repaid the full $250 million in December 2020, plus $200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

[4] In February 2021, the General Assembly authorized a transfer of up to $324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supports the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administers this fund and indirectly administers (monitors) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The $323,715,323 disbursed in February 2021 effectively reflects an upfront transfer to the MHDC. That agency will expend the funds through at least September 2022. Any unused portion will be refunded to the DED, and in turn the U.S. Treasury.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. In December 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. Recipients are currently permitted to record their expenditures through September 30, 2022. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to $750 million.

[3] This appropriation's expenditures include $3,416,331 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.

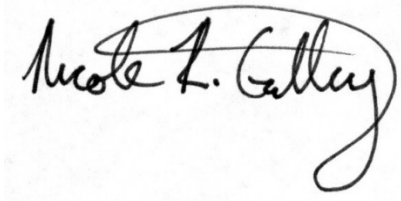
NICOLE GALLOWAY, CPA
Missouri State Auditor

Honorable Michael L. Parson, Governor
and
Members of the General Assembly
Jefferson City, Missouri

The primary objective of this report is to show Missouri's spending of federal assistance in the month of December 2021 for the Coronavirus Disease 2019 (COVID-19) emergency and the cumulative financial activity since the state began receiving funding in April 2020.

In March, April, and December 2020 and March 2021, Congress passed several legislative measures signed into law to provide assistance to citizens, businesses, healthcare facilities, and government entities during the COVID-19 emergency. The funding received by or made available to Missouri state government agencies will help pay for the state's emergency response to COVID-19 and provides (1) additional federal matching funds for the state's Medicaid program (MO HealthNet) and other applicable programs, and (2) funding for various other assistance and benefit programs. The state is passing through some of the funding to local governments. Some funding authorized in the legislation also went directly to local government entities, healthcare facilities, and colleges and universities. The majority of the funding has specific restrictions on its use or state actions and must be spent in defined limited time periods.

In December, the state spent $220.8 million from federal COVID-19 assistance (Appendix A). Through the end of December, the state has received $5.29 billion and spent $5.04 billion from this assistance. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation in Appendixes C and D. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.42 billion) and funding passed through to counties and the City of St. Louis ($521 million). Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes.



Nicole R. Galloway, CPA
State Auditor

Executive Summary

Missouri has been awarded federal funding under the following federal laws enacted in March, April, and December 2020 and March 2021:

- Coronavirus Preparedness and Response Supplemental Appropriations Act, 2020 (Public Law 116-123; H.R. 6074)
- Families First Coronavirus Response Act (Public Law 116-127; H.R. 6201)
- Coronavirus Aid, Relief, and Economic Security (CARES) Act (Public Law 116-136; H.R. 748, as amended)
- Paycheck Protection Program and Health Care Enhancement Act (Public Law 116-139; H.R. 266)
- Consolidated Appropriations Act, 2021 (Public Law 116-260; H.R. 133)
- American Rescue Plan Act of 2021 (Public Law 117-2, H.R.1319)

The Coronavirus Preparedness and Response Supplemental Appropriations Act provides for grants to or cooperative agreements with states to carry out surveillance, epidemiology, laboratory capacity, infection control, mitigation, communications, and other preparedness and response activities. The state has been awarded as of December 31, 2021, approximately $18.8 million under this act for additional or new funding under various federal grant programs. Part of this funding went directly to community health centers from the federal government. Each grant program has a separate time limit on use of the funding.

The Families First Coronavirus Response Act provides Missouri a 6.2 percent Federal Medical Assistance Percentage (FMAP) increase beginning January 1, 2020, for the state's Medicaid program (MO HealthNet) and other applicable programs. The state's FMAP percentage was approximately 66 percent prior to this act.[1] The increased FMAP is available for qualifying expenditures incurred on or after that date and through the end of the quarter in which the COVID-19 public health emergency, including any extensions, ends. To qualify for the temporary FMAP increase, Missouri must:

[1] The FMAP is used as a base for the Enhanced FMAP (EFMAP) for the state's Children's Health Insurance Program (CHIP). Therefore, the increase in FMAP will also result in an increase in EFMAP, but not necessarily by 6.2 percent. The state's EFMAP rate was approximately 87 percent prior to this act.

- Maintain eligibility standards, methodologies, or procedures that are no more restrictive than what the state had in place as of January 1, 2020, (maintenance of effort requirement).

- Not charge premiums that exceed those that were in place as of January 1, 2020.

- Cover, without impositions of any cost sharing, testing, services, and treatments including vaccines, specialized equipment, and therapies related to COVID-19.

- Not terminate individuals from Medicaid if such individuals were enrolled in the program as of the date of the beginning of the emergency period, or become enrolled during the emergency period, unless the individual voluntarily terminates eligibility or is no longer a resident of the state (continuous coverage requirement).

Under the Families First Coronavirus Response Act, the state has also been awarded as of December 31, 2021, approximately $36.7 million of additional or new funding under various federal grant programs for meal assistance, food subsidies, and administrative costs. Each grant program has a separate time limit on use of the funding.

The CARES Act specifies that payments provided to the state from the Coronavirus Relief Fund[2] may only be used to cover costs that (1) are necessary expenditures incurred due to the public health emergency with respect to COVID-19; (2) were not accounted for in the budget most recently approved as of March 27, 2020, (the date of enactment of the CARES Act) for the state; and (3) were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020. The Consolidated Appropriations Act, 2021 extended the time for use of the funding to December 31, 2021.

On December 14, 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. The department defines obligation for this purpose as an order placed for property and services and entry into contracts, subawards, and similar transactions that require payment. Recipients are currently permitted to record their expenditures through September 30, 2022. Previous guidance had indicated for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time.

[2] From the U.S. Department of the Treasury, CFDA number 21.019.

The state has received approximately $2.38 billion in Coronavirus Relief Fund assistance including nearly $173.5 million for St. Louis County and $122.7 million for Jackson County.[3] Twenty-five percent of the remaining state share (approximately $521 million) was distributed to other counties in the state and the City of St. Louis based on population. In July 2020, the Department of the Treasury Office of Inspector General (OIG) issued interim and quarterly reporting requirements for Coronavirus Relief Fund payments. The OIG is responsible for monitoring and oversight of the receipt, disbursement, and use of these payments.

Eligible expenditures for Coronavirus Relief Fund assistance include, but are not limited to, payment for:[4]

1. Medical expenses such as:
    - COVID-19-related expenses of public hospitals, clinics, and similar facilities.
    - Expenses of establishing temporary public medical facilities and other measures to increase COVID-19 treatment capacity, including related construction costs.
    - Costs of providing COVID-19 testing, including serological testing.
    - Emergency medical response expenses, including emergency medical transportation, related to COVID-19.
    - Expenses for establishing and operating public telemedicine capabilities for COVID-19-related treatment.

2. Public health expenses such as:
    - Expenses for communication and enforcement by state, territorial, local, and tribal governments of public health orders related to COVID-19.
    - Expenses for acquisition and distribution of medical and protective supplies, including sanitizing products and personal protective equipment, for medical personnel, police officers, social workers, child protection services, and child welfare officers, direct service providers for older adults and individuals with disabilities in community settings, and other public health or safety workers in connection with the COVID-19 public health emergency.

[3] The funding for Jackson County and St. Louis County went directly to those local governments from the federal government.

[4] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4184, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

- Expenses for disinfection of public areas and other facilities, e.g., nursing homes, in response to the COVID-19 public health emergency.
- Expenses for technical assistance to local authorities or other entities on mitigation of COVID-19-related threats to public health and safety.
- Expenses for public safety measures undertaken in response to COVID-19.
- Expenses for quarantining individuals.

3. Payroll expenses for public safety, public health, health care, human services, and similar employees whose services are substantially dedicated to mitigating or responding to the COVID-19 public health emergency.

4. Expenses of actions to facilitate compliance with COVID-19-related public health measures, such as:
   - Expenses for food delivery to residents, including, for example, senior citizens and other vulnerable populations, to enable compliance with COVID-19 public health precautions.
   - Expenses to facilitate distance learning, including technological improvements, in connection with school closings to enable compliance with COVID-19 precautions.
   - Expenses to improve telework capabilities for public employees to enable compliance with COVID-19 public health precautions.
   - Expenses of providing paid sick and paid family and medical leave to public employees to enable compliance with COVID-19 public health precautions.
   - COVID-19-related expenses of maintaining state prisons and county jails, including as relates to sanitation and improvement of social distancing measures, to enable compliance with COVID-19 public health precautions.
   - Expenses for care for homeless populations provided to mitigate COVID-19 effects and enable compliance with COVID-19 public health precautions.

5. Expenses associated with the provision of economic support in connection with the COVID-19 public health emergency, such as:
   - Expenditures related to the provision of grants to small businesses to reimburse the costs of business interruption caused by required closures.
   - Expenditures related to a state, territorial, local, or tribal government payroll support program.

- Unemployment insurance costs related to the COVID-19 public health emergency if such costs will not be reimbursed by the federal government pursuant to the CARES Act or otherwise.

6. Any other COVID-19-related expenses reasonably necessary to the function of government that satisfy CARES Act eligibility criteria.

The state may also use Coronavirus Relief Fund assistance to meet immediate cash management needs provided that the full amount of the payment is used to cover necessary expenditures.[5] If the state has not used the Coronavirus Relief Fund assistance it has received to cover costs that were incurred by December 31, 2021, as required by federal law, those funds must be returned to the federal government. Recipients are currently permitted to record their expenditures through September 30, 2022, based on guidance issued by the Department of the Treasury redefining how the term "incurred" is being interpreted.

Under the CARES Act, the state has also been awarded as of December 31, 2021, approximately $4.04 billion of additional or new funding under other various federal grant programs for assistance for public schools, institutions of higher education, and healthcare facilities; child care and family services; health care worker training programs; public health education; expanded telehealth services; and numerous other assistance services or benefits. A significant part of this funding went directly to local governments or the awarded entity. Each grant program has a separate time limit on use of the funding.

The Paycheck Protection Program and Health Care Enhancement Act provides funding to states for expanded COVID-19 testing. Under the act, the state has been awarded approximately $166 million with some of this funding going directly to rural health departments from the federal government.

Under the Consolidated Appropriations Act, 2021, the state has been awarded as of December 31, 2021, approximately $2.86 billion of additional or new funding under various federal grant programs for emergency rental assistance, elementary school and higher education funding, virus testing, vaccine preparedness, transportation funding, meal assistance, child care, behavioral health services, and administrative costs. Each grant program has a separate time limit on use of the funding.

[5] U.S. Department of the Treasury, *Coronavirus Relief Fund for States, Tribal Governments, and Certain Eligible Local Governments*, Federal Register, Vol. 86, No. 10, p. 4194, January 15, 2021, <https://home.treasury.gov/system/files/136/CRF-Guidance-Federal-Register_2021-00827.pdf>, accessed April 1, 2021.

Under the American Rescue Plan Act of 2021, the state has been awarded as of December 31, 2021, approximately $10.91 billion of additional or new funding under various federal grant programs for local and state fiscal recovery funding, emergency rental assistance, elementary school and higher education funding, laboratory expansion capacity for school testing, child care development block grants, child care stabilization grants, vaccine preparedness and access, transportation funding, and administrative costs. Each grant program has a separate time limit on use of the funding. American Rescue Plan Act financial activity is not included in this report series. It is presented in a separate series of monthly reports beginning in July 2021.

In December, the state spent $220.8 million from federal COVID-19 assistance (Appendix A). Through the end of December, the state has received $5.29 billion and spent $5.04 billion from this assistance. A significant portion of the state's disbursements have been for MO HealthNet and other services receiving federal matching funds ($1.42 billion) and funding passed through to counties and the City of St. Louis ($521 million).

Other funding has been (1) provided to schools, institutions of higher education, child care providers, long-term care facilities, and Developmental Disabilities Waiver providers; and (2) used for food and nutrition programs, mental health services, purchase of personal protective equipment, virus testing, contact tracing, vaccine preparedness and access, workforce development, economic development programs for small businesses, COVID-19 dedicated personnel costs, emergency rental assistance, and other disaster relief purposes. The state will be responsible for monitoring use of the funding it passes through to local governments. Details of the cumulative financial activity by fund are presented in Appendix B and the expenditures by appropriation are presented in Appendixes C and D.

[1] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

Source: Statewide Accounting System (SAM II). The appendix is prepared on the cash basis of accounting, which presents amounts when received or disbursed.

[1] During the fiscal year ending June 30, 2020, the Secretary of State (SOS) used this fund to account for COVID-19 receipts and disbursements and other pre-existing but unrelated activity. The receipts, disbursements, and beginning and ending fund balances listed represent only the COVID-19 activity within this fund. This fund is excluded from Appendix C because its appropriation authority was established prior to the public health emergency, and thus does not reflect COVID-19 efforts. The SOS receives many federal grants and uses the state accounting system, as it was intended, to account for all grant activity. Beginning with the fiscal year ending June 30, 2021, the Secretary of State Federal Stimulus Fund is used to account for all COVID-19 receipts and related disbursements. However, between January 2021 and March 2021 the SOS reused this fund to receive $189,462 in refunds from subrecipients of unspent awards during the fiscal year ended June 30, 2020 (a decrease in previous disbursements). In April 2021, the SOS returned this money to the federal government.

[2] This fund relates to Department of Social Services (DSS) program activity, primarily for the Medical Assistance Program (Medicaid), Children's Health Insurance Program, and some other public assistance programs. The DSS initially uses state funds to cover these program expenditures, and then obtains federal reimbursement. A portion of each reimbursement reflects a temporary COVID-19-related increase in the state's matching rate, and is receipted into this fund. We are now reporting all receipts into the fund during the 2 fiscal years ended June 30, 2022, as disbursements, due to changes in the appropriation process in these fiscal years for the fund, and to reflect that these receipts are reimbursements of disbursements incurred from other sources. Appendix C is unaffected by this adjustment.

[3] The General Assembly authorized the Office of Administration (OA) to transfer up to $750 million in federal funds from the State Emergency Management Federal Stimulus Fund to the General Revenue Fund for cash management needs. These transferred funds, plus any interest the state earned, had to be repaid to the State Emergency Management Federal Stimulus Fund. The OA transferred $250 million in May 2020, and repaid the full $250 million in December 2020, plus $200,111 in earned interest. The interest is considered COVID-19 revenue because the U.S. Treasury requires the state to use it to cover expenditures incurred in accordance with COVID-19 relief purposes.

[4] In February 2021, the General Assembly authorized a transfer of up to $324,694,749 from the State Emergency Management Federal Stimulus Fund to the Housing Assistance Stimulus Fund. This transfer supports the federal Emergency Rental Assistance Program (also called the State Assistance for Housing Relief Program in Missouri) to provide financial assistance to eligible households unable to pay rent and utilities due to the COVID-19 pandemic. While the Department of Economic Development (DED) administers this fund and indirectly administers (monitors) the program, DED officials entered an agreement with the Missouri Housing Development Commission (MHDC) to directly administer the program. The $323,715,323 disbursed in February 2021 effectively reflects an upfront transfer to the MHDC. That agency will expend the funds through at least September 2022. Any unused portion will be refunded to the DED, and in turn the U.S. Treasury.

[1] The appropriation authority is the maximum amount that may be expended for the purpose as documented and approved through appropriations bills.

[2] Initial legislation required Coronavirus Relief Fund assistance to be returned to the federal government if it was not spent to cover allowable costs incurred by December 30, 2020. Legislation changes in December 2020 extended that date to December 31, 2021. In December 2021, the Department of the Treasury issued revised guidance to provide that a cost associated with a necessary expenditure incurred due to the public health emergency shall be considered to have been incurred by December 31, 2021, if the recipient has incurred an obligation with respect to such cost by December 31, 2021. Recipients are currently permitted to record their expenditures through September 30, 2022. State officials did not know whether or to what extent the state may have to repay any funding received at the time the appropriation was established. To acknowledge the existence of the obligation, the state established appropriations authorizing the return of up to $750 million.

[3] This appropriation's expenditures include $3,416,331 that was not spent for COVID-19 purposes, but instead was returned to the federal government.

Source: Statewide Accounting System (SAM II). The appendix is presented on the state's legal budgetary basis of accounting that records expenditures when the liabilities are recorded, rather than when cash is disbursed.
